

For LEGO (21357) Disney Pixar Small Table Lamp Custom Model Install this kit Instructions:

First introduced by Pixar in the now legendary 1986 animated short film, the Luxo Jr. character bounced his way into the hearts and imaginations of audiences in the film industry and beyond. Unlike any animated object seen before, the Luxo Jr. character displayed charm and emotion with his expressive movements and mischievous curiosity. Little did he or his creators know that he would not only spark, but also define, a new era in cinematic storytelling and computer-generated imagery. He remains the endearing symbol of the optimism, determination and creative innovation that characterises the pioneering Pixar spirit.

UK: There are 2 bags in this kit. (This kit uses 5V DC power), here is the list list.
DE: Es gibt 2 Taschen in diesem Kit. (Dieses Kit verwendet 5V DC Strom), hier ist die Liste Liste.
