

60266 Marine Research Vessel GC97

- Installation requires a lot of patience and great observation that your LEGO bricks will come alive when you get this finished. The bricks with lighting as below, so make sure you're ready and let's get started.

Strategies for the Installation

This instruction divides three sections to complete the installation of the lighting set.

Section A: Check the type and quantity of components.

The quantity and type of components of each products are different and it needs to be carefully checked to make sure there do have enough material. The type of components is indicated by the label on the bag.

Section B: Test that each components is working properly.

Each components is Manual customization so it is necessary to test that each components is working properly to avoid the situation that the lighting does not work .

Section C: laying out components following the instruction.

Our material is very small but not fragile, just be reminded that don't to pull the wires too hard. For different people, there may be some installation steps that you can't understand. Please look at the previous and later installation steps.

Section A: Check the type and quantity of components.

This set contains five bags labelled "1" "2" "3" "4" "5", please make sure that the components in each bag are the same as shown in the pictures.

Please contact us immediately if there have any missing components.

Section B: Test that each components is working properly.

Take out the Remote Control Board and the USB Power Cable from No. 4 bag and No.5 bag.

The remote control does not contain batteries, please buy a CR2025 or CR2032 button battery in the nearest store and install it in the remote control.

Connect the Remote Control Board and USB Power Cable as shown.

Connect all the components in No.1, No.2 bag to the remote control board in same way just as shown.

The USB Power Cord can be powered by phone chargers, power banks, etc. This instruction will use the power bank as power supply.

USB connectors to connect devices

Turn on the remote control, all the lights are on as shown.

Remote control function description

ON: All branches are opened
 OFF: all branches are closed
 A: open/close A road
 B: open/close B road
 C: open/close C road
 D: open/close D road
 FS: Turn on blinking for the last open channel
 BLN: Start breathing for the last opened path
 ↑: Increase blinking/breathing rate
 ↓: Increase blinking/breathing rate
 Brightness+: Increase brightness
 Brightness -: Reduce brightness

Unplug these three components and put them back in the corresponding bags. There are four in bag NO.3 need to be tested.

Attention that after the test is completed, each components should put back in the corresponding bag including the remote control board and the usb power cable.

Please contact us immediately if any components don't work.

Section C: laying out components following the instruction.

Good job, you've done all the installation steps, power it up and enjoy your work.

The battery box in bag NO.5 can also power the set. If it is necessary to change the power supply , prepare three AAA batteries, install them in the battery box, turn on the switch on the battery box, remove the plug of the USB Power Cable from the socket of the expansion board,plug the plug of the battery box to the same socket in the expansion board to power the suit as well.

THANKS
