

41168 Elsa's Jewelry Box Creation LED lighting Kit (Standard Version) LG37

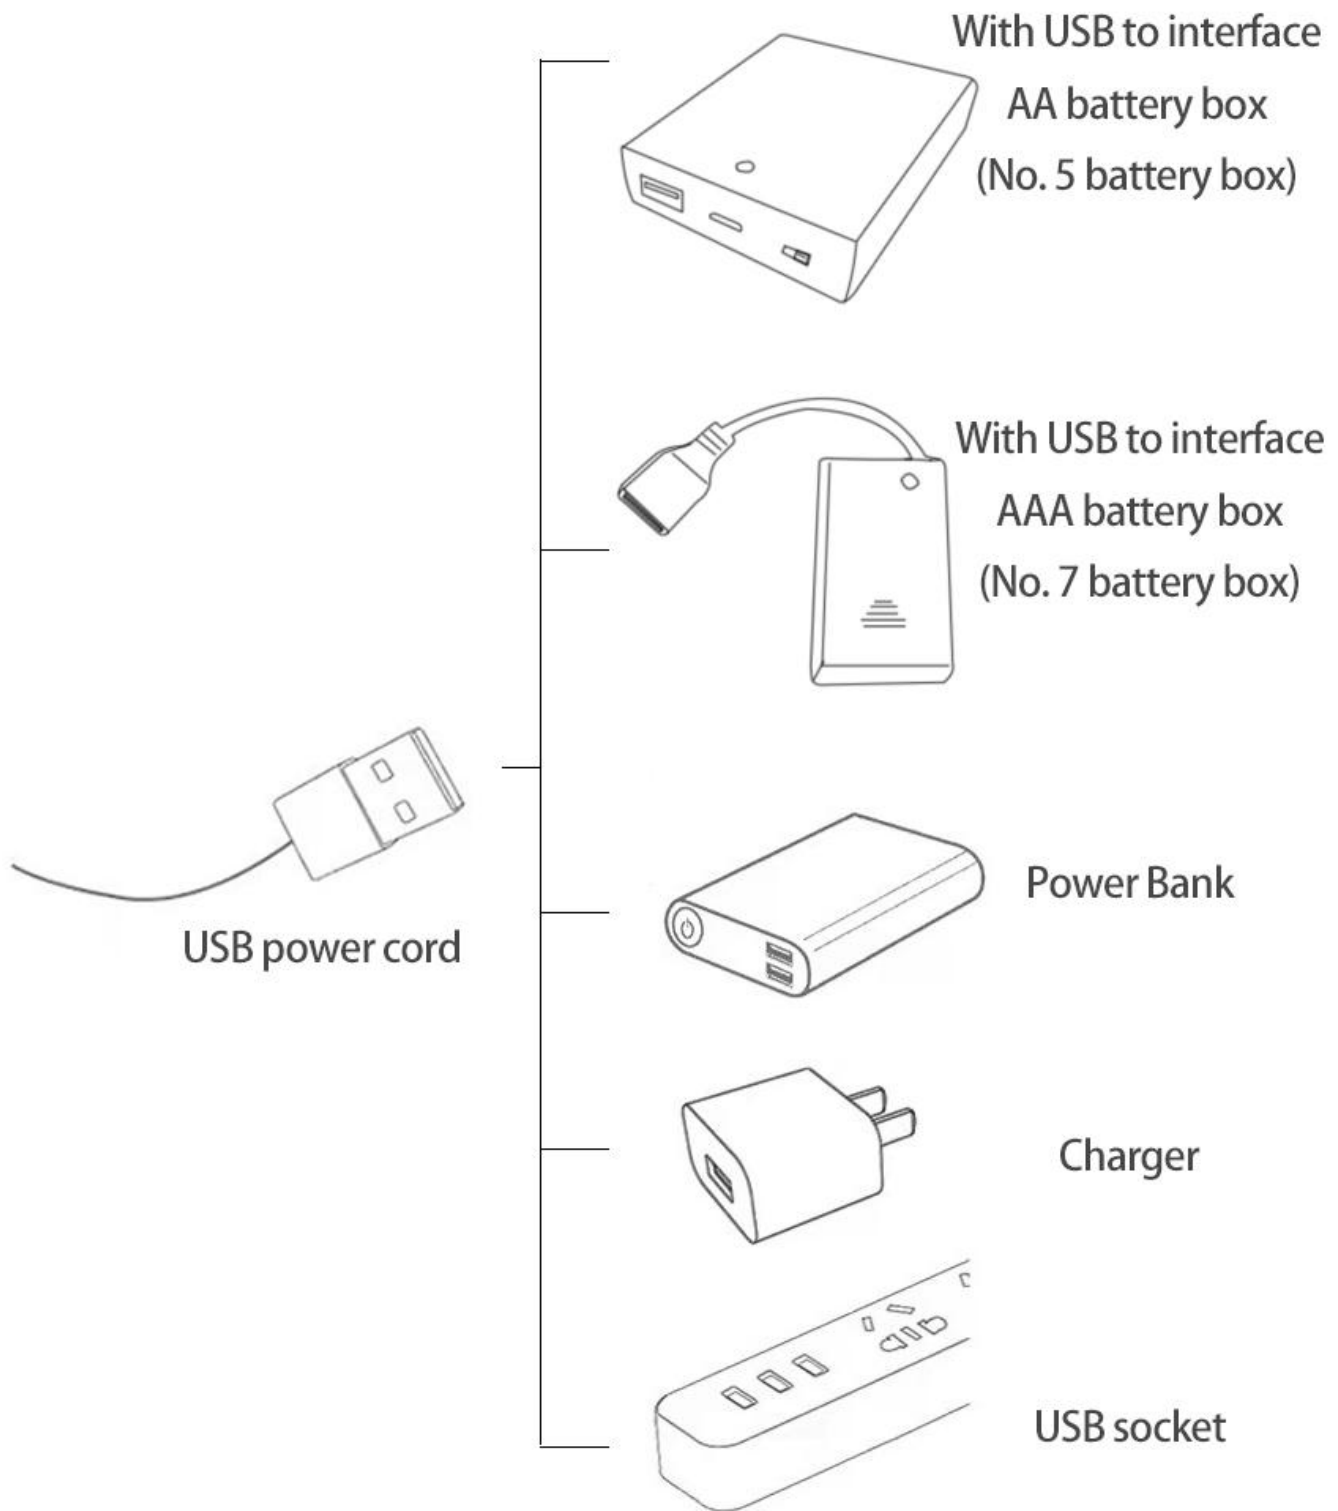

Instructions for installing this kit:

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are 2 bags of this product, and AAA Battery Pack is a gift. (This product does not contain batteries, please bring your own)

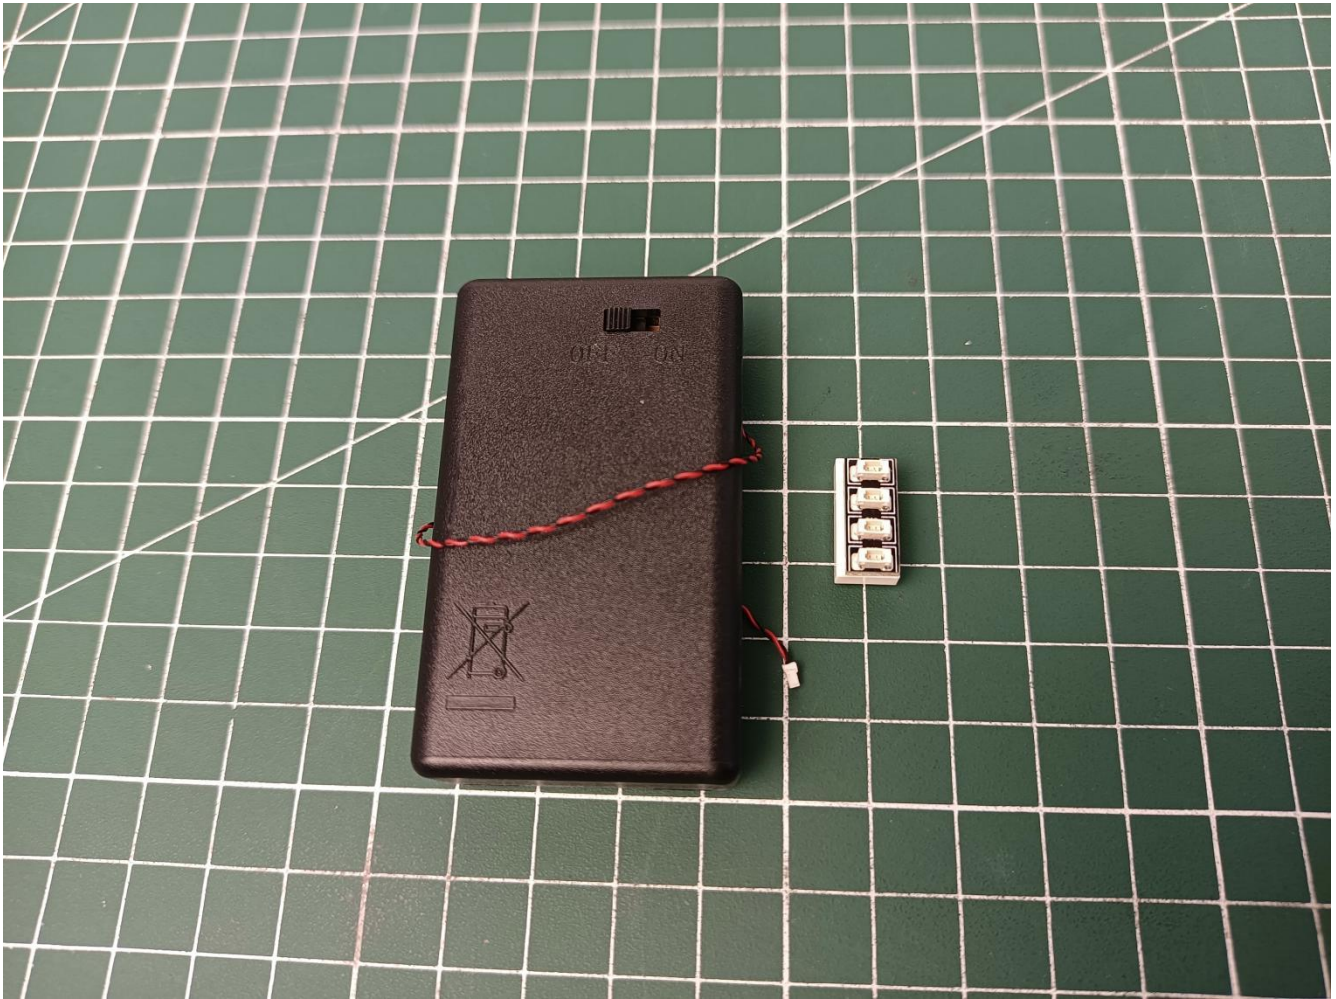

Lighting test:

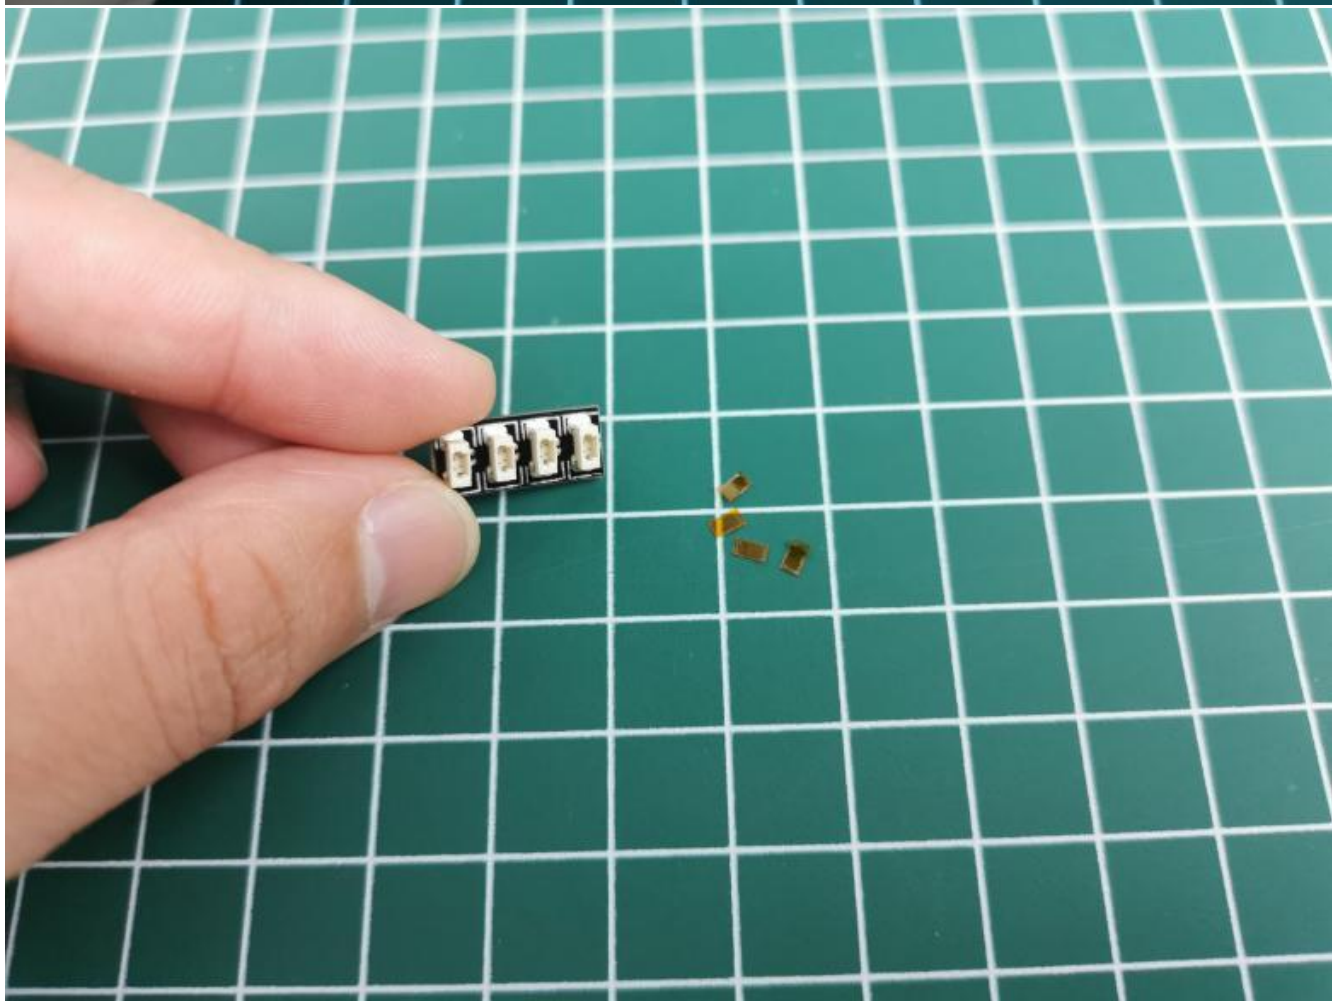

Take out the accessories inside (accessories include: AAA Battery Pack, 4-seat expansion board, 30CM-USB power cord). The following power supply methods use AAA Battery Pack (Please bring your own battery).

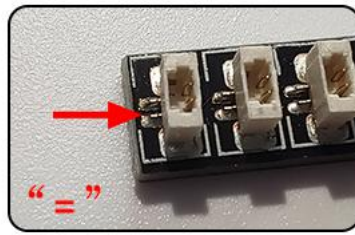

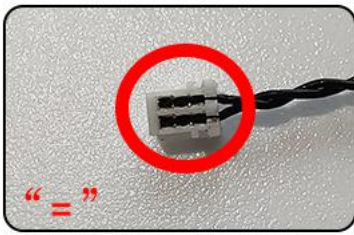

Take out the AAA Battery Pack and 4-seat expansion board.

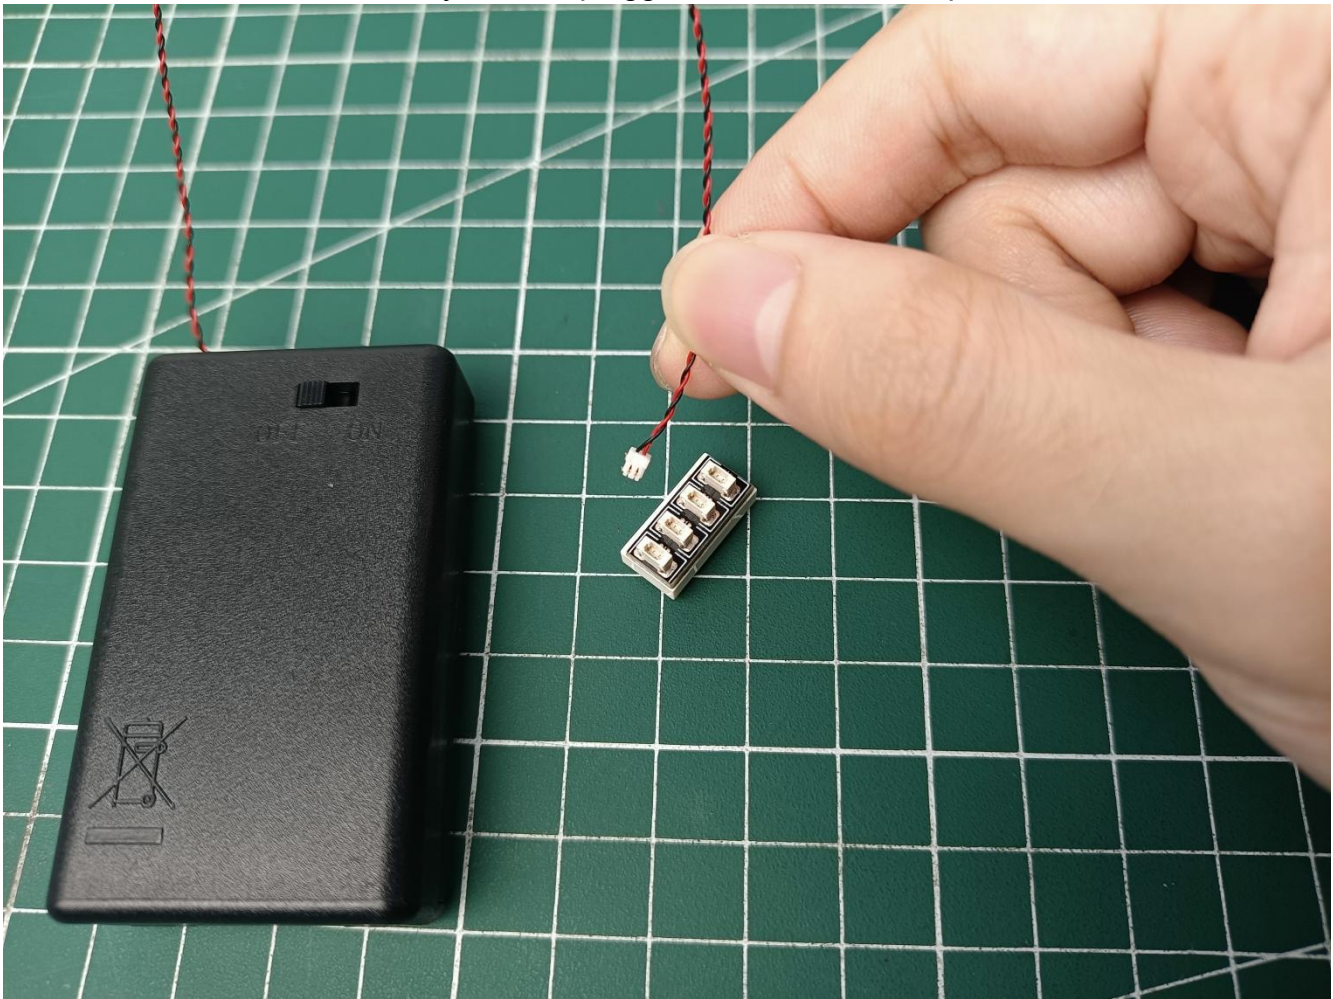

Tear off the seal on the 4-seat expansion board board.

Please pay attention to the way the interface is used. The interface is small, please use it carefully: the = sign of the 2P interface is aligned with the = sign of the expansion board

The interface of the AAA Battery Pack is plugged into the 4-seat expansion board.

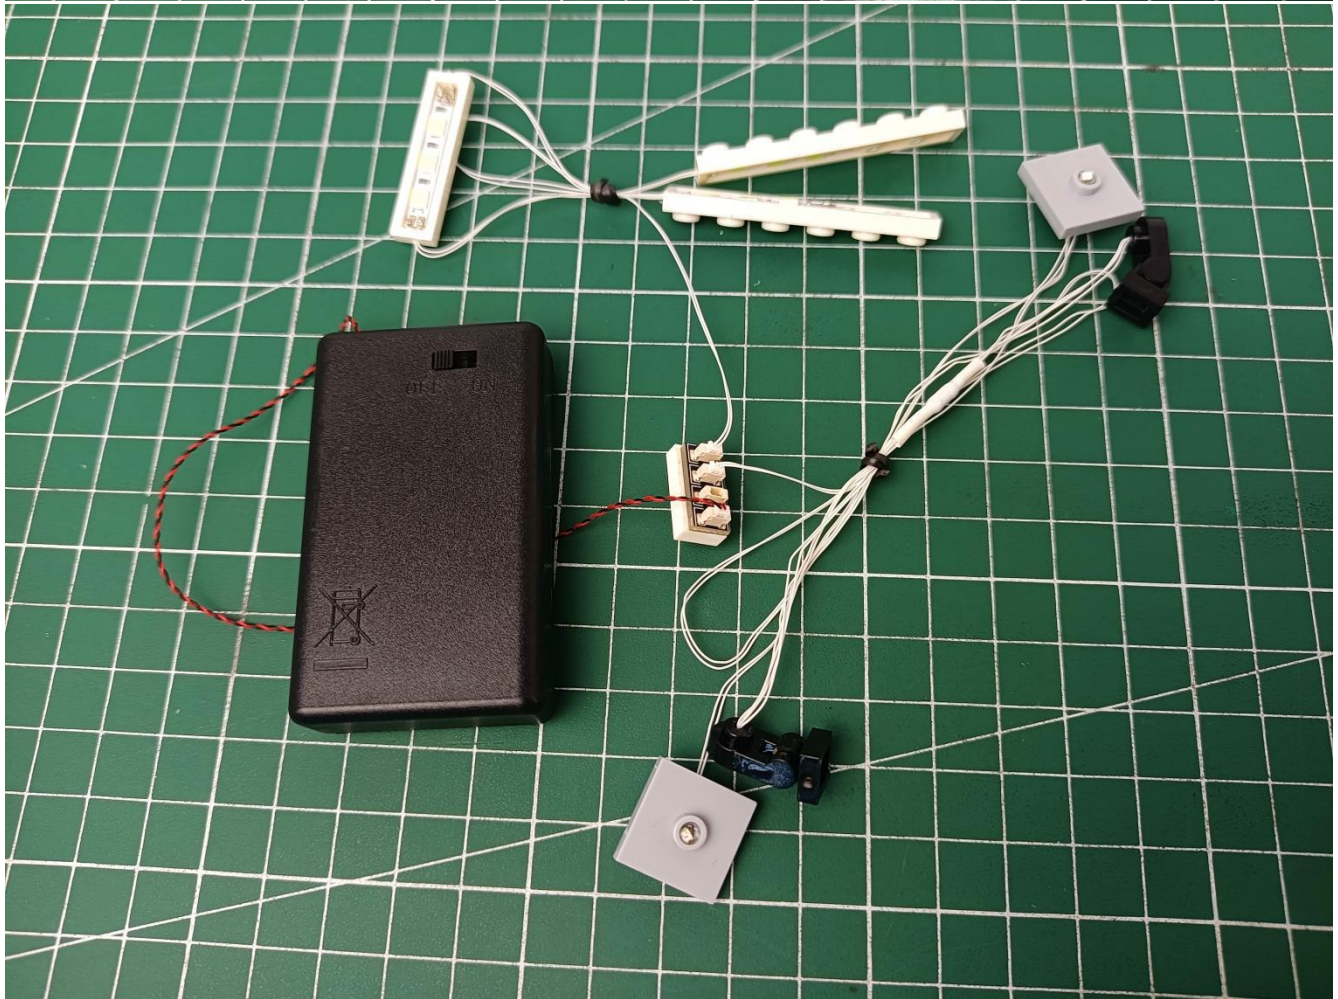

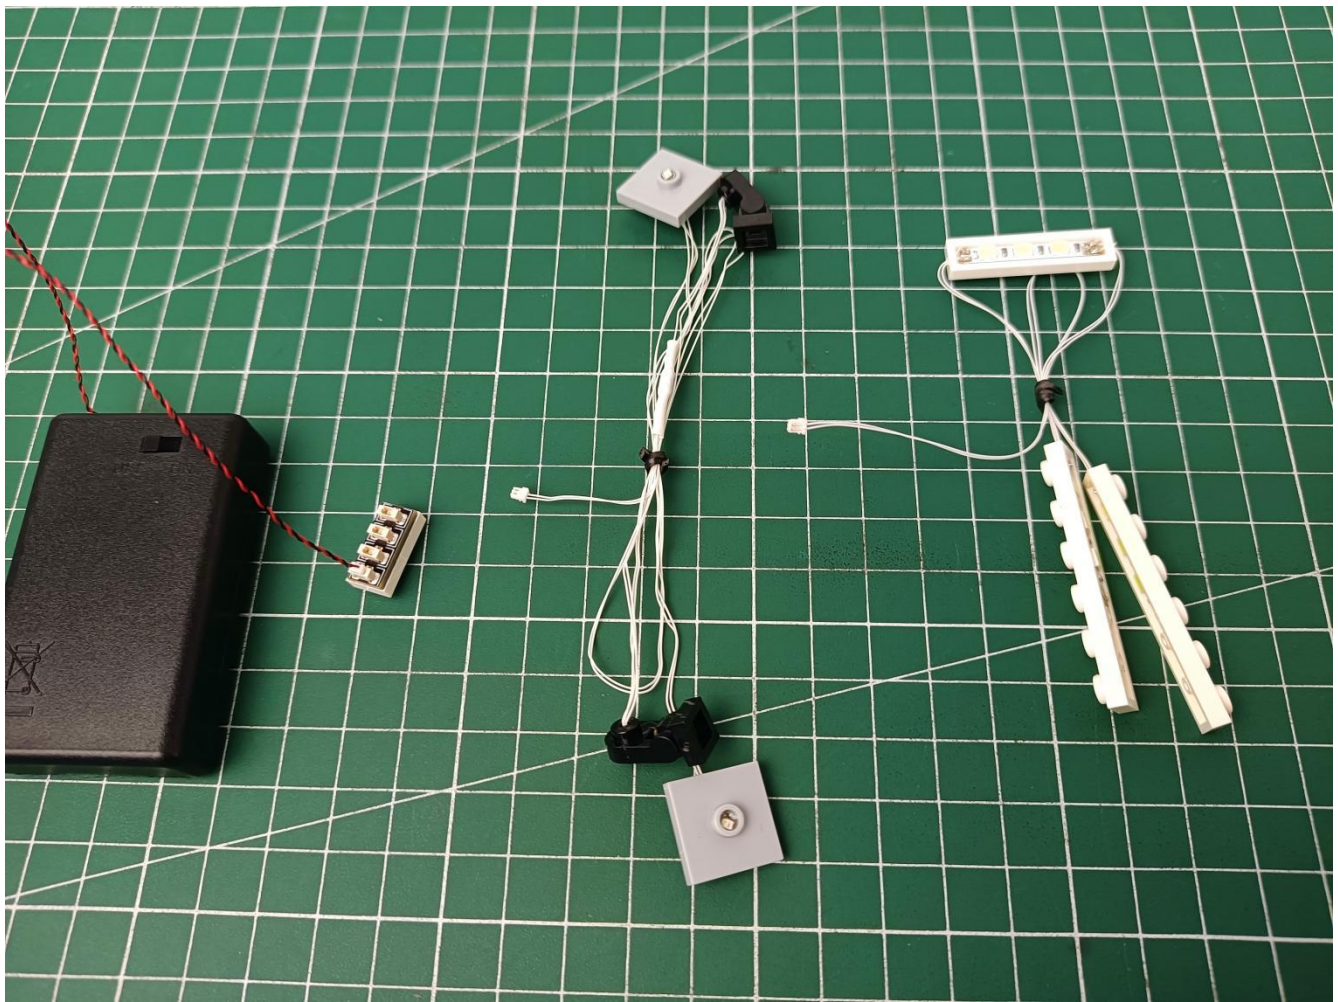

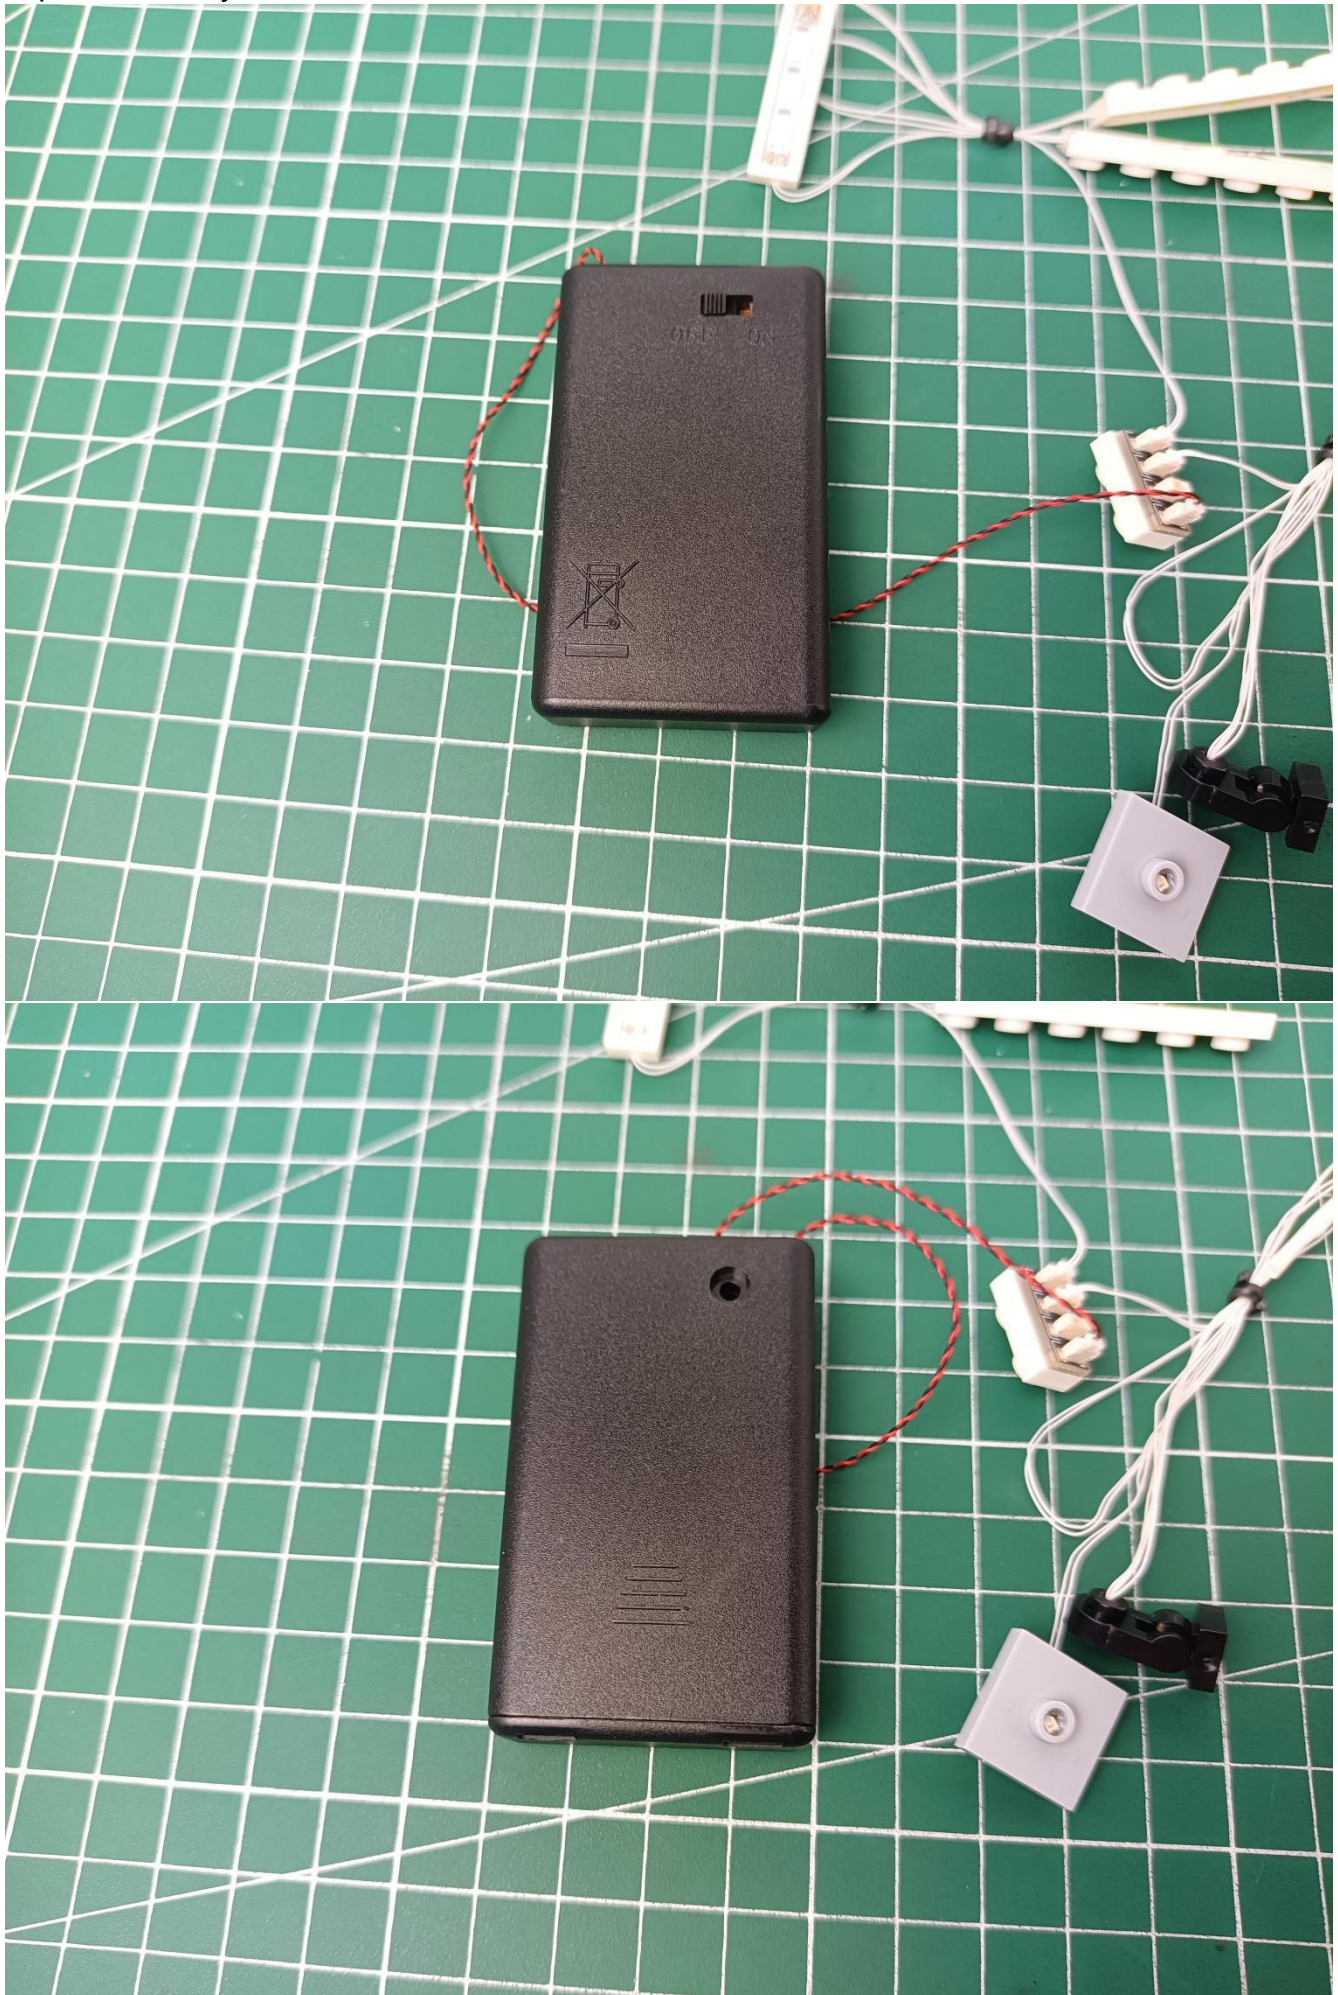

Take out all the lights in the bag numbered "1".

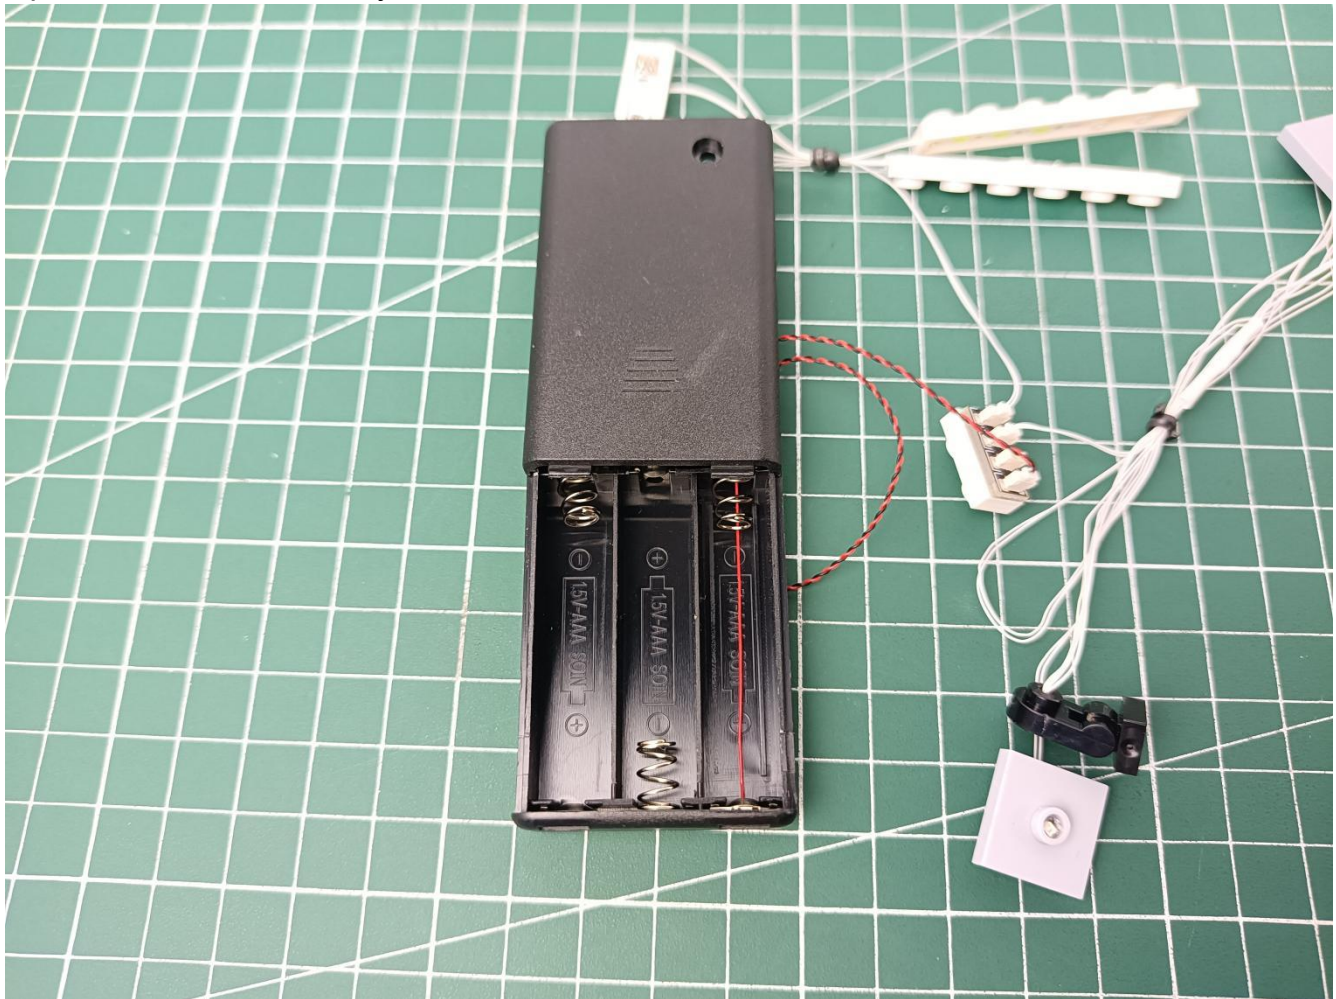

All lights are inserted on the 4-seat expansion board.

Flip AAA Battery Pack to the back.

Open the lid of AAA Battery Pack.

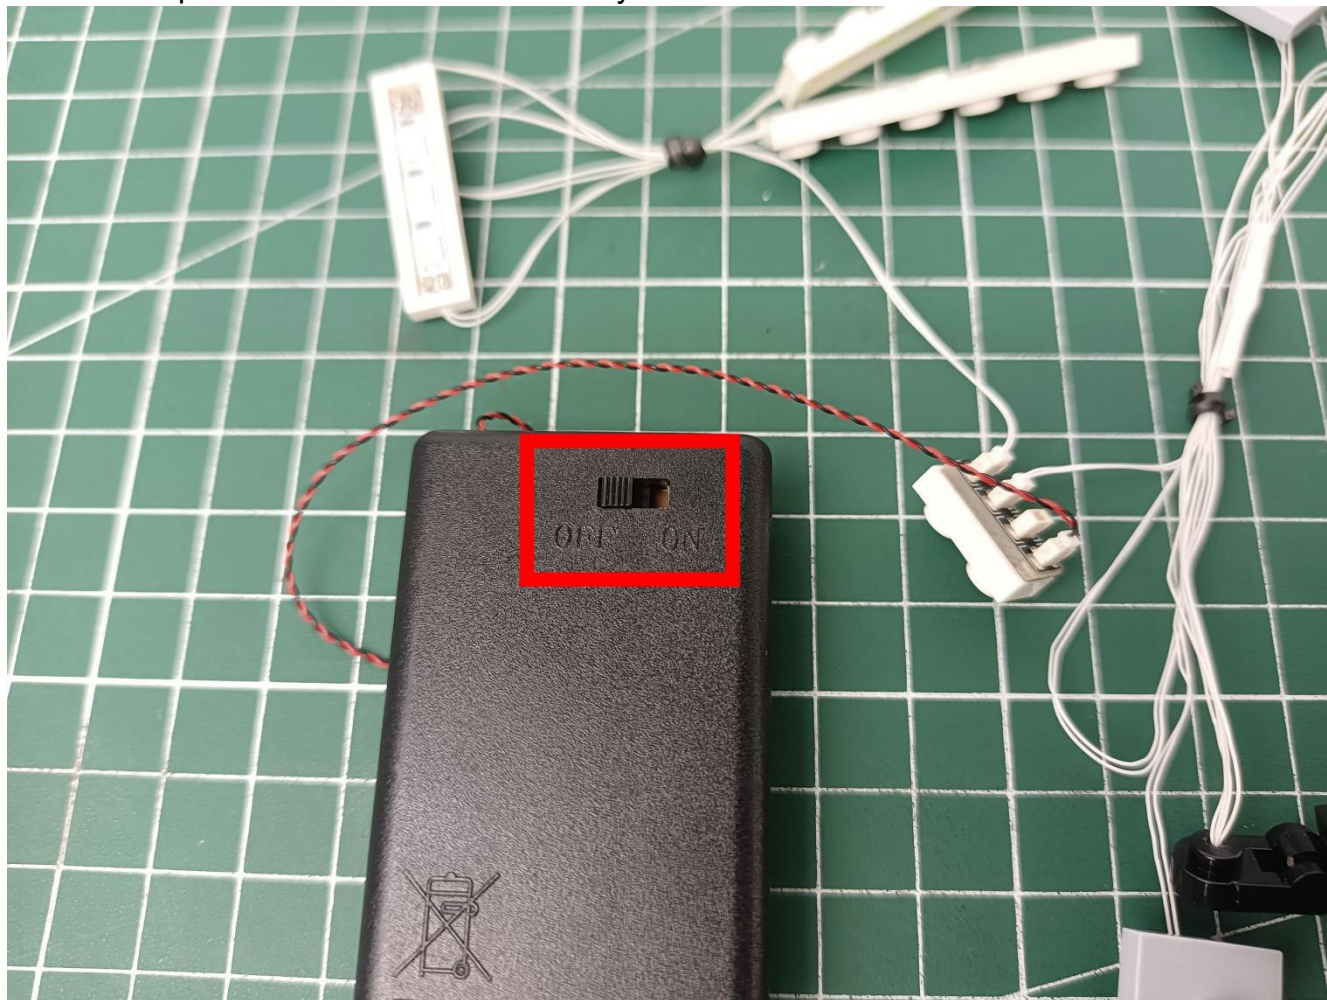

Install AAA battery. (Please bring your own battery, pay attention to the positive and negative poles of the battery)

Close the lid of the AAA Battery Pack and turn it back to the front.

Turn on the power switch of the AAA Battery Pack.

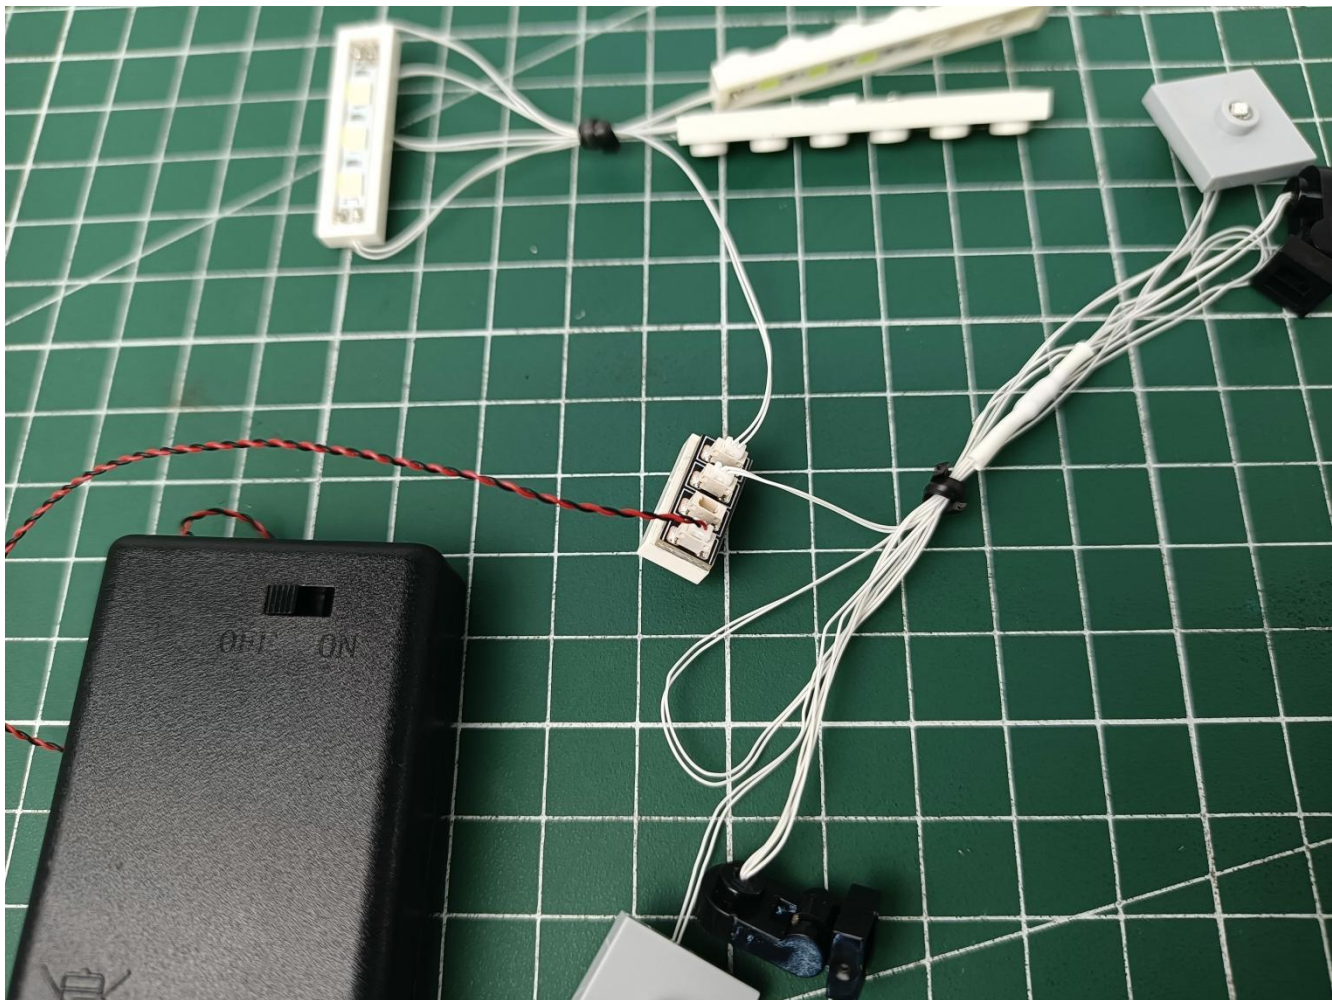

Observe whether there is a problem with the lighting. (If there is an abnormality, please contact us in time)

Power off the AAA Battery Pack.

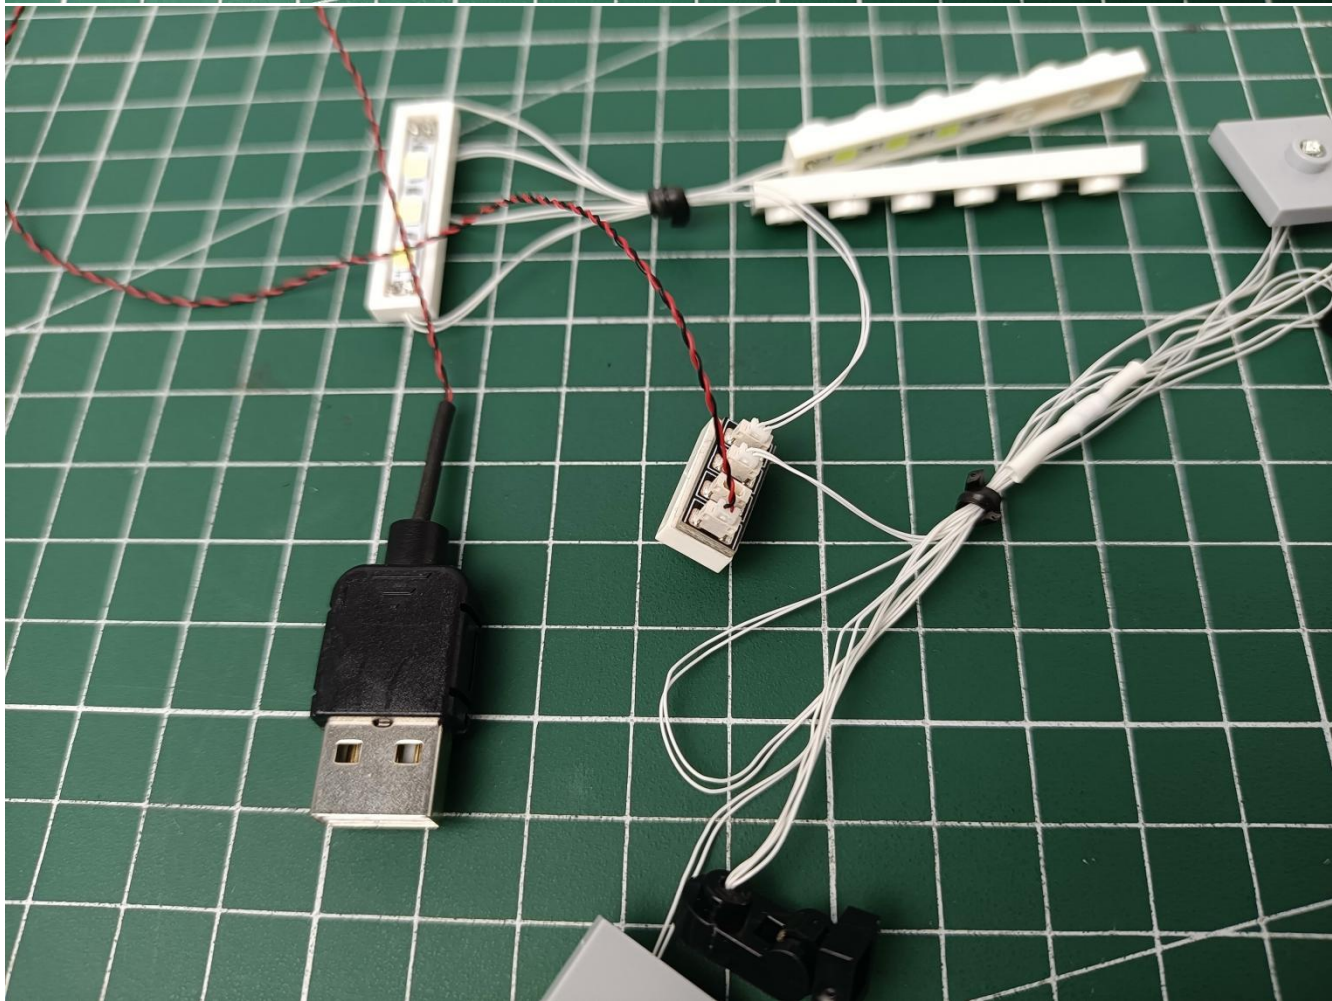

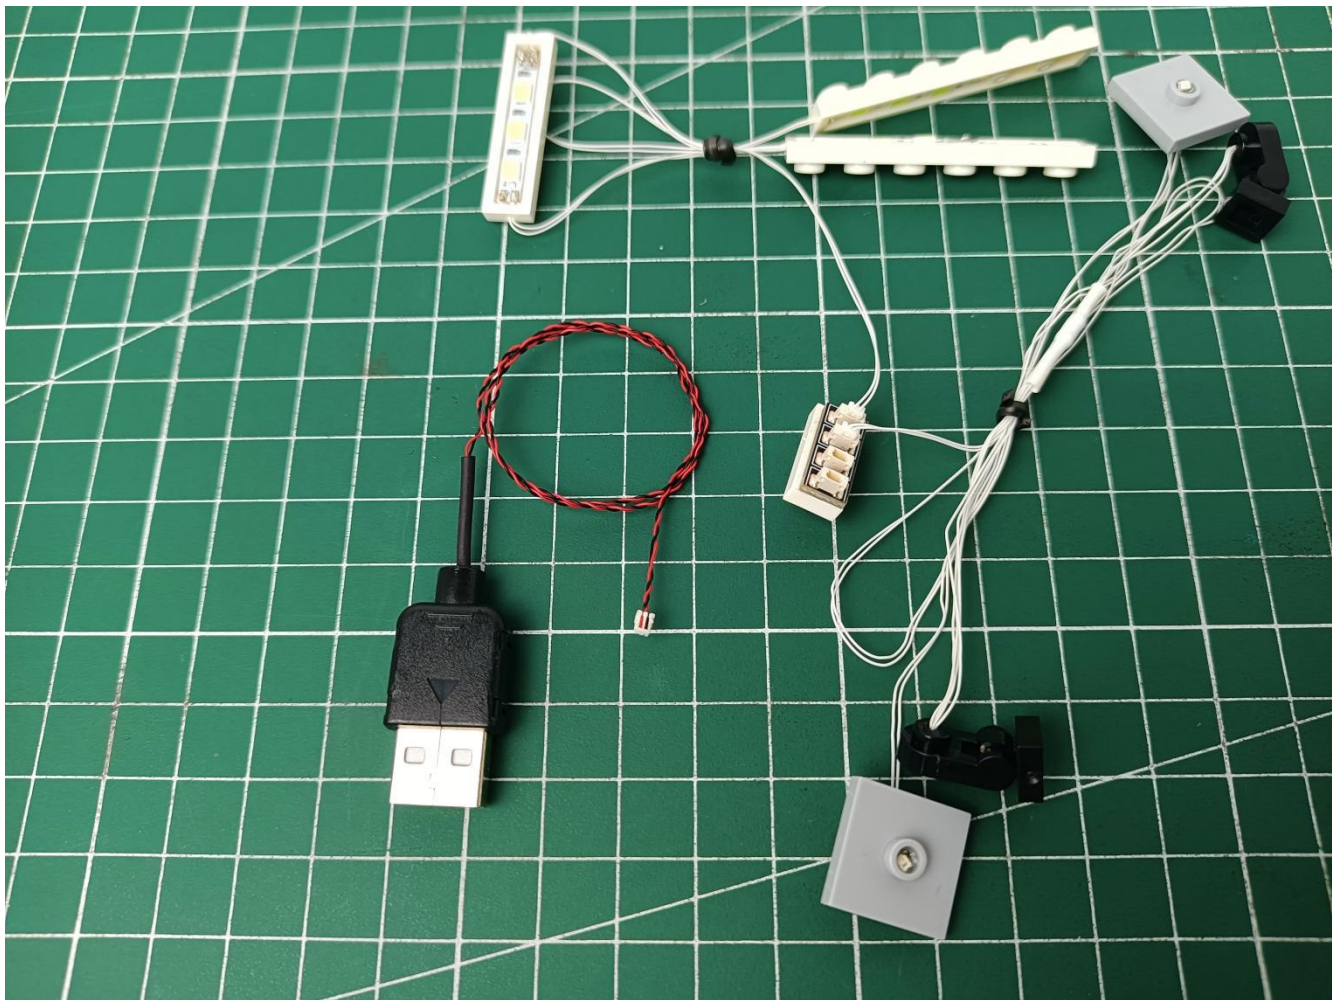

Separate AAA Battery Pack from 4-seat expansion board.

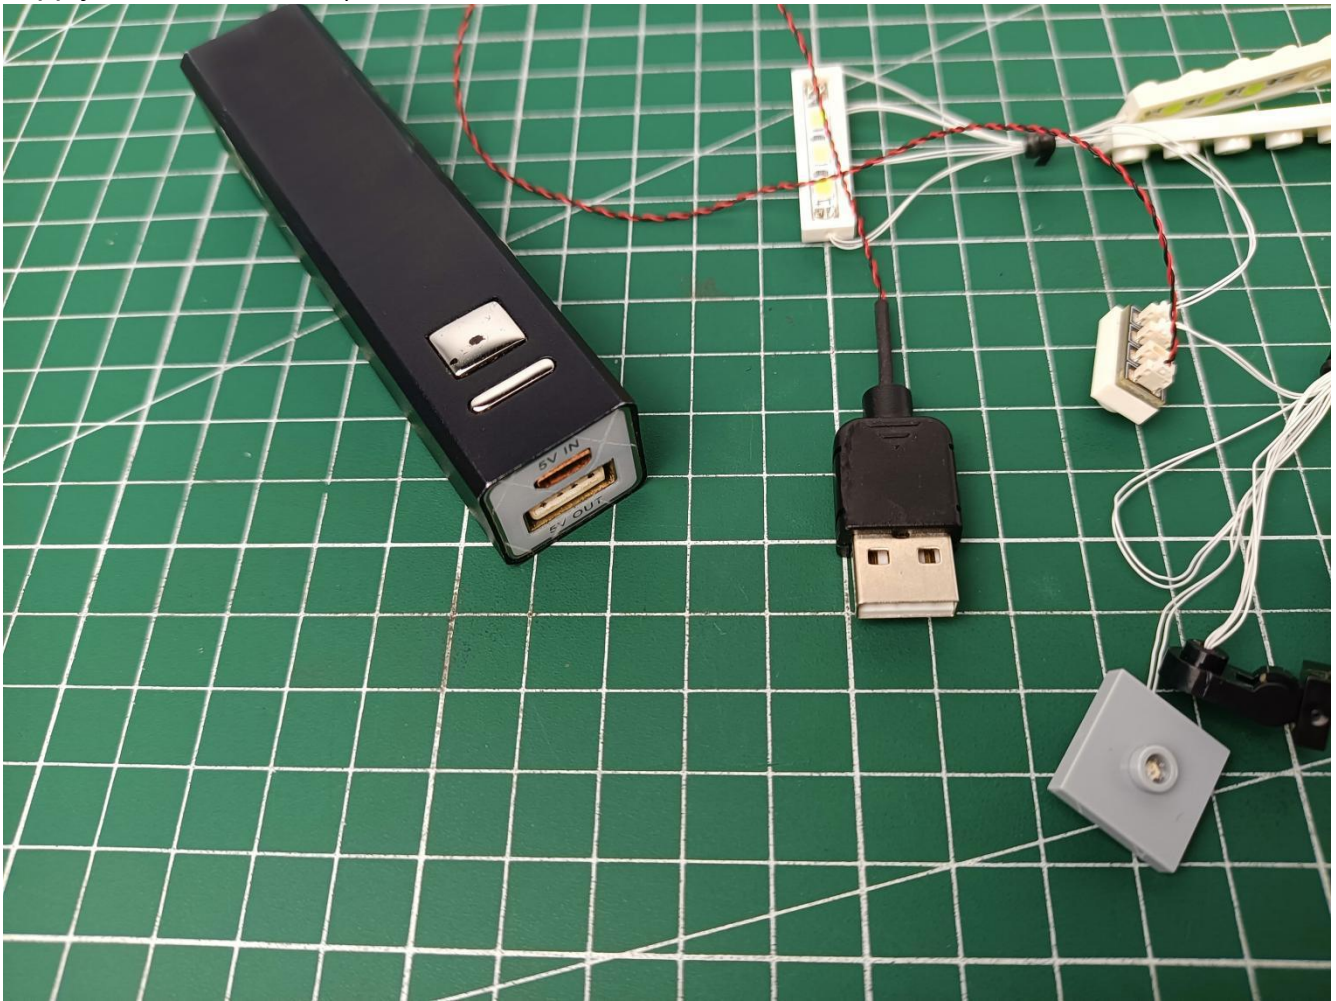

Put the AAA Battery Pack back into the bag numbered "2" to prevent loss.

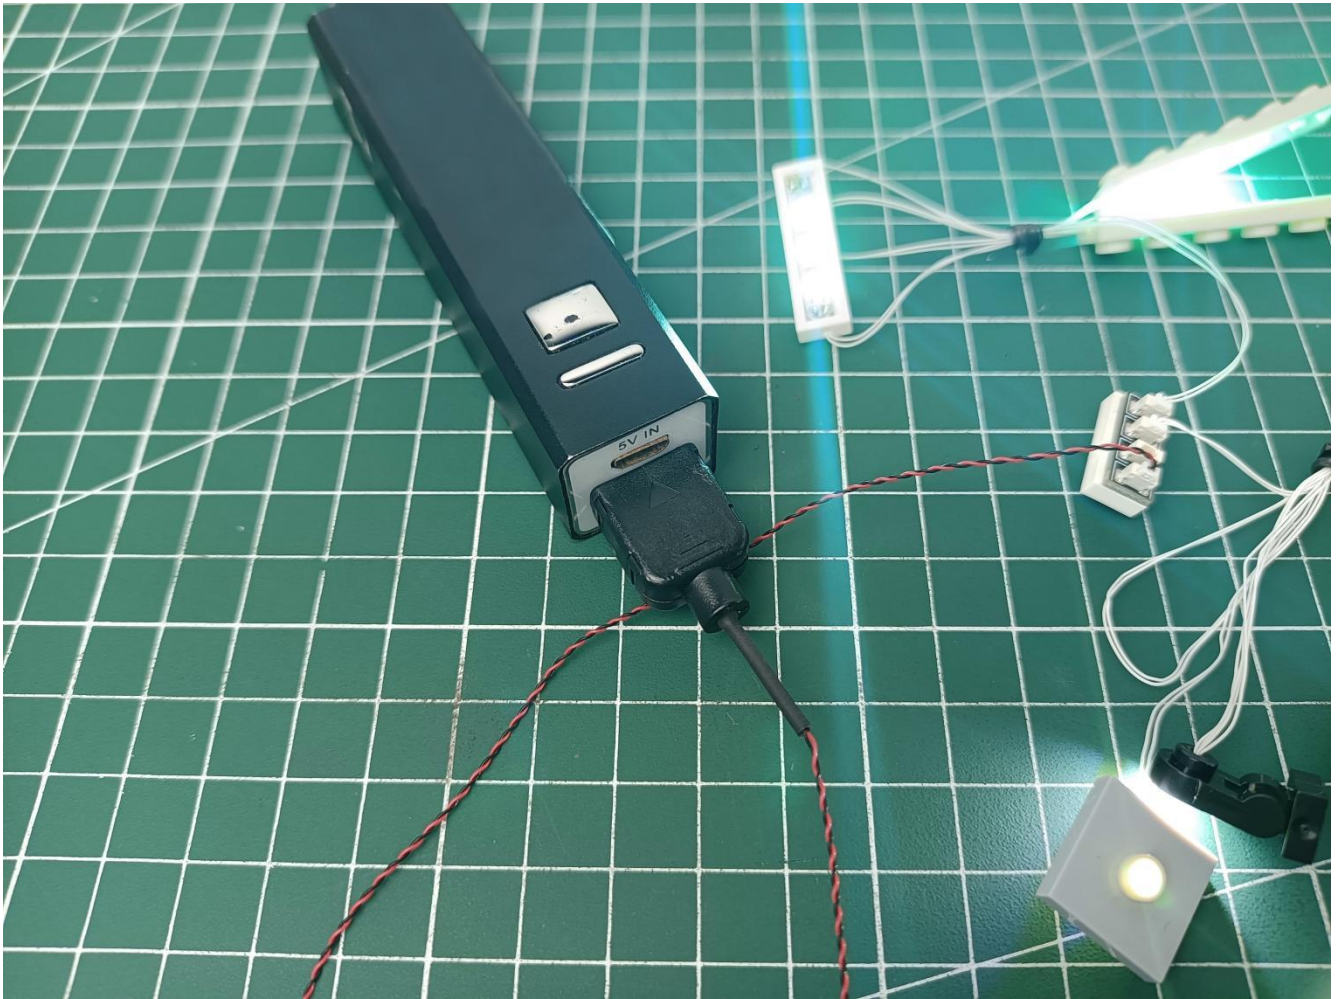

Take out the 30CM-USB power cord and plug it into the 4-seat expansion board.

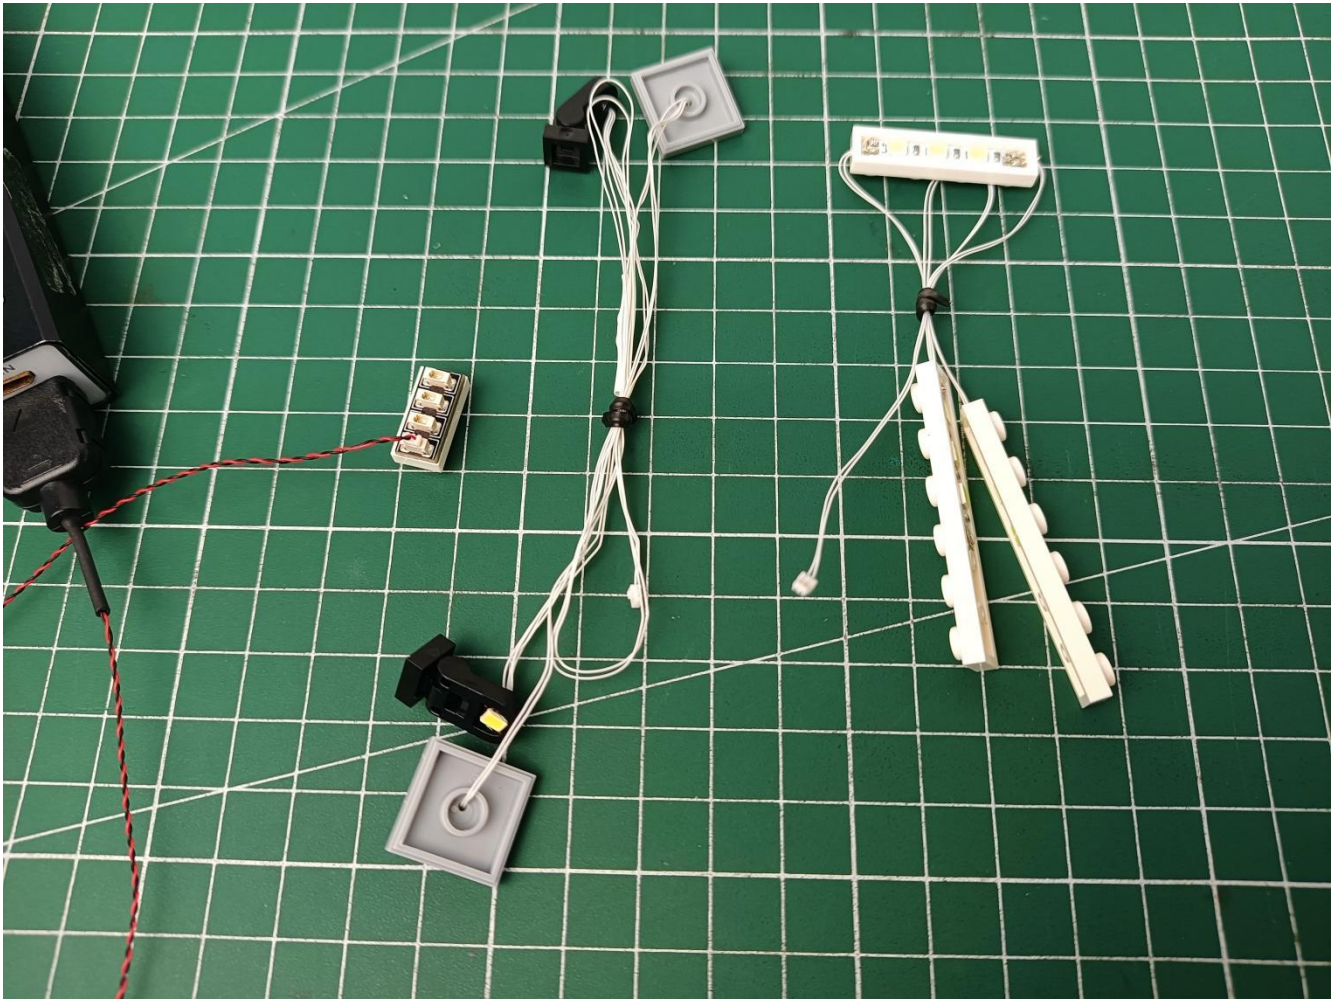

The USB interface is plugged into the power bank. (For example only, please refer to "Power supply mode" for details)

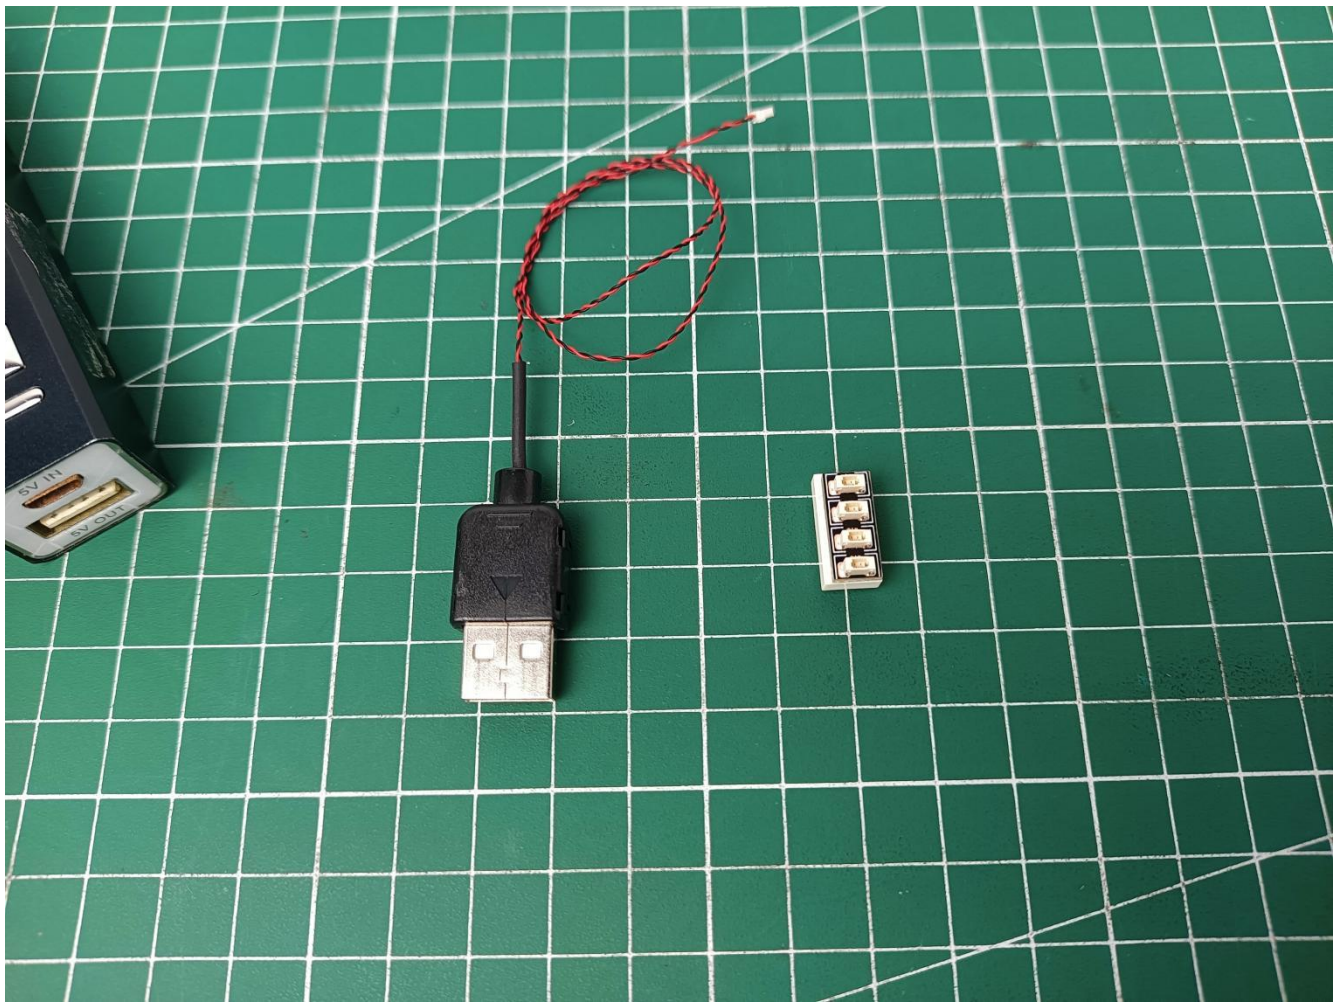

Separate the lighting from the 4-seat expansion board.

Put the lights back in the bag numbered "1" to prevent loss.

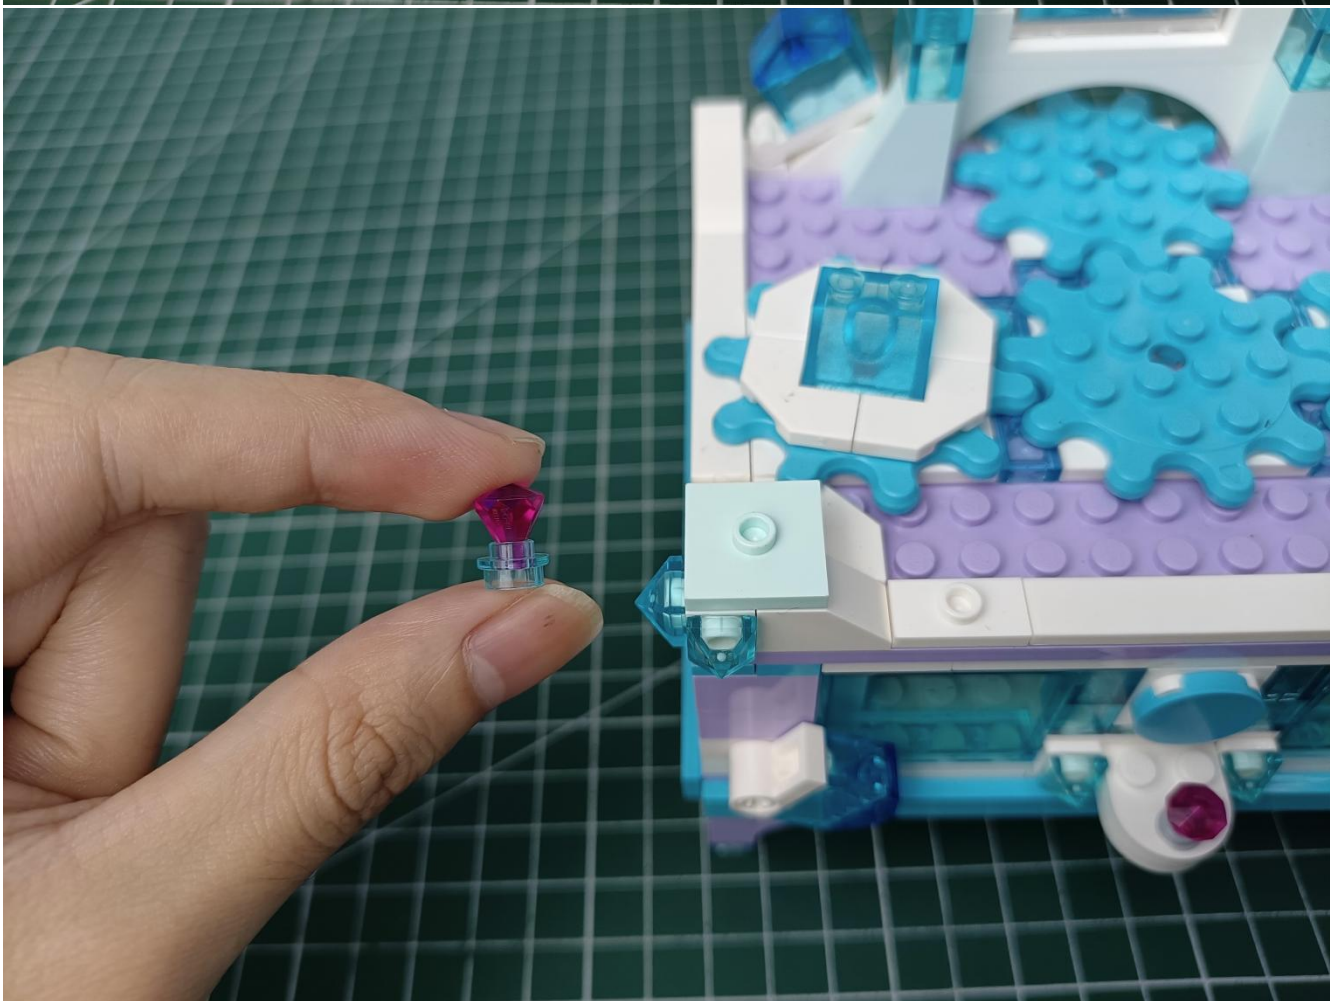

Remove the 30CM-USB power cord and 4-seat expansion board, and put them back in the bag numbered "1".

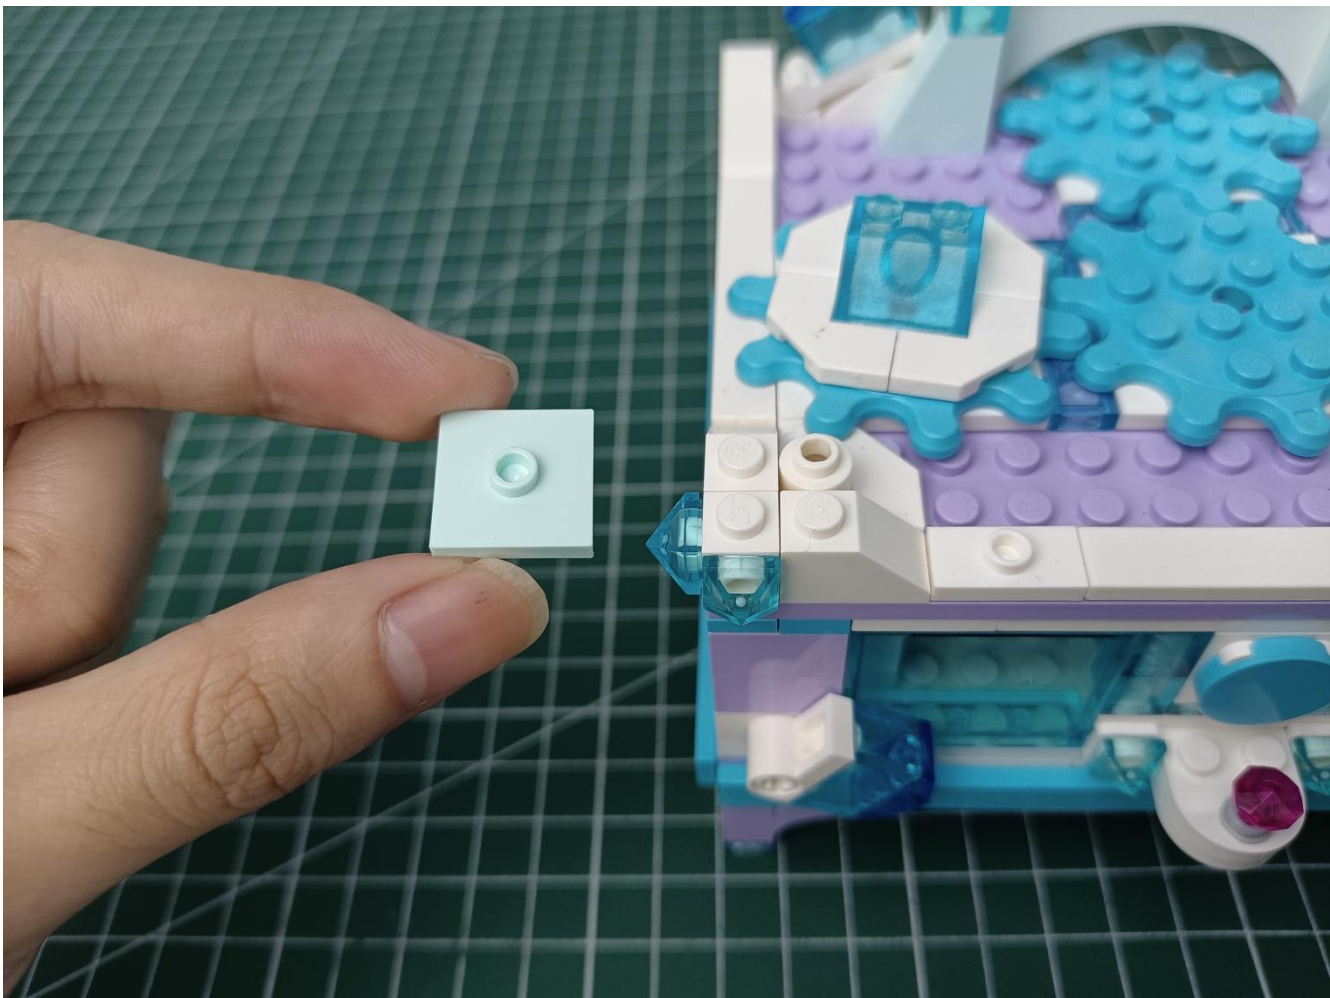

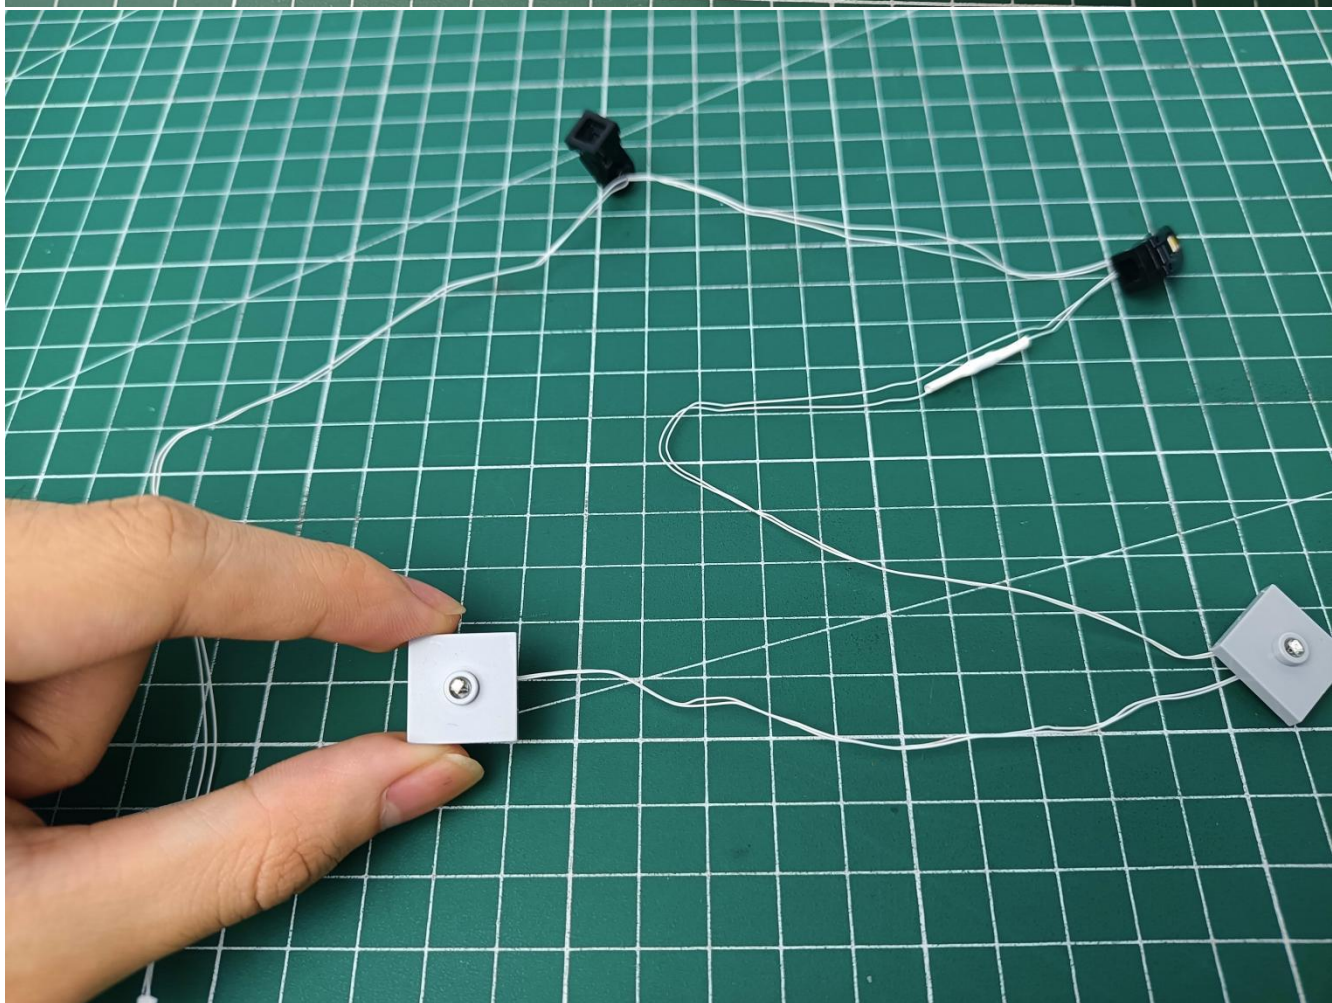

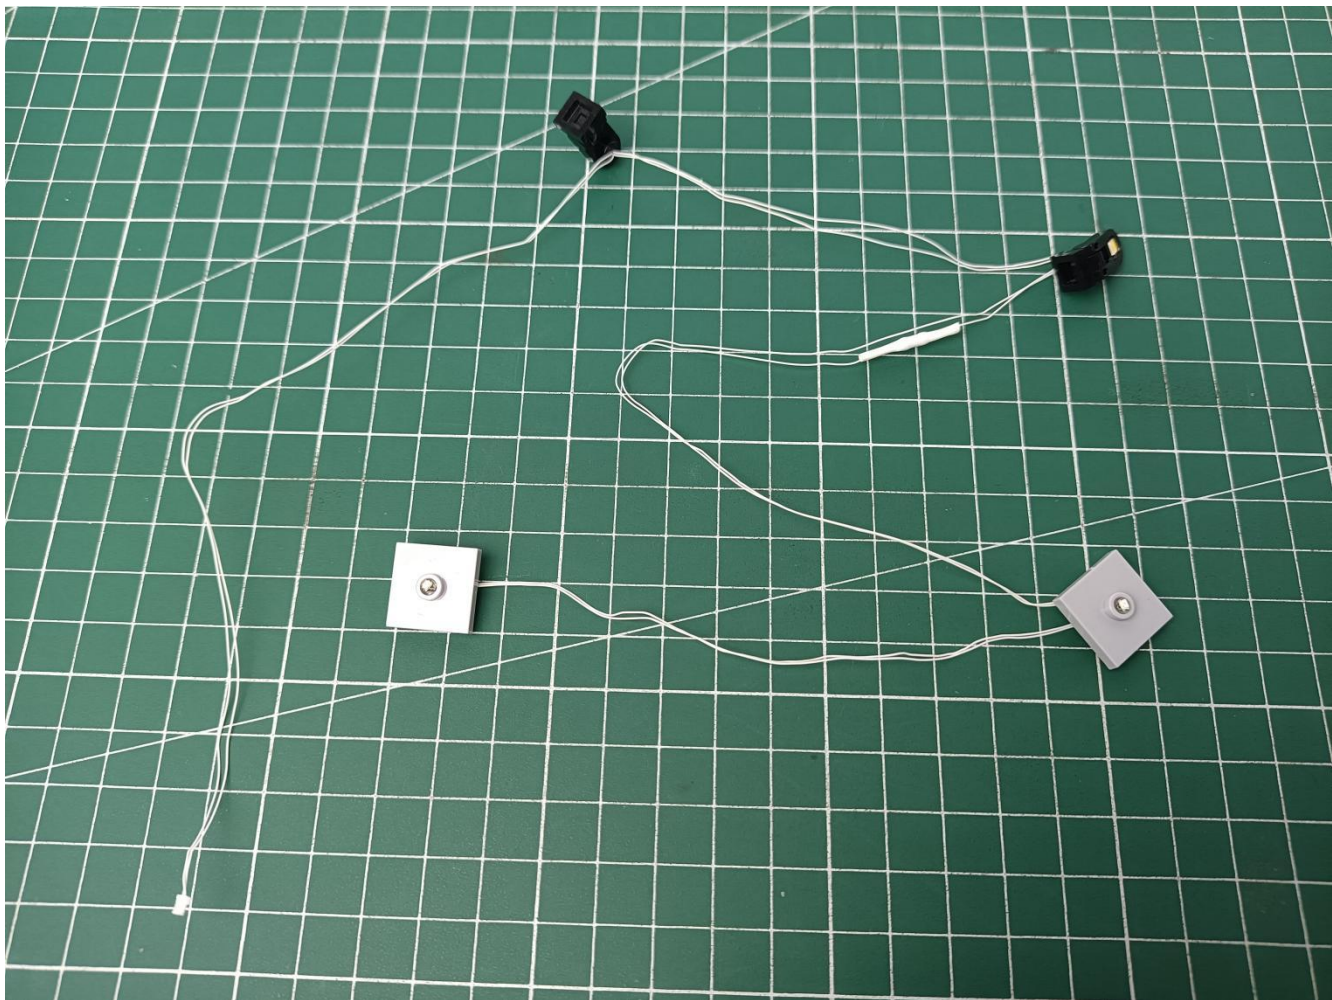

The lighting test is over!

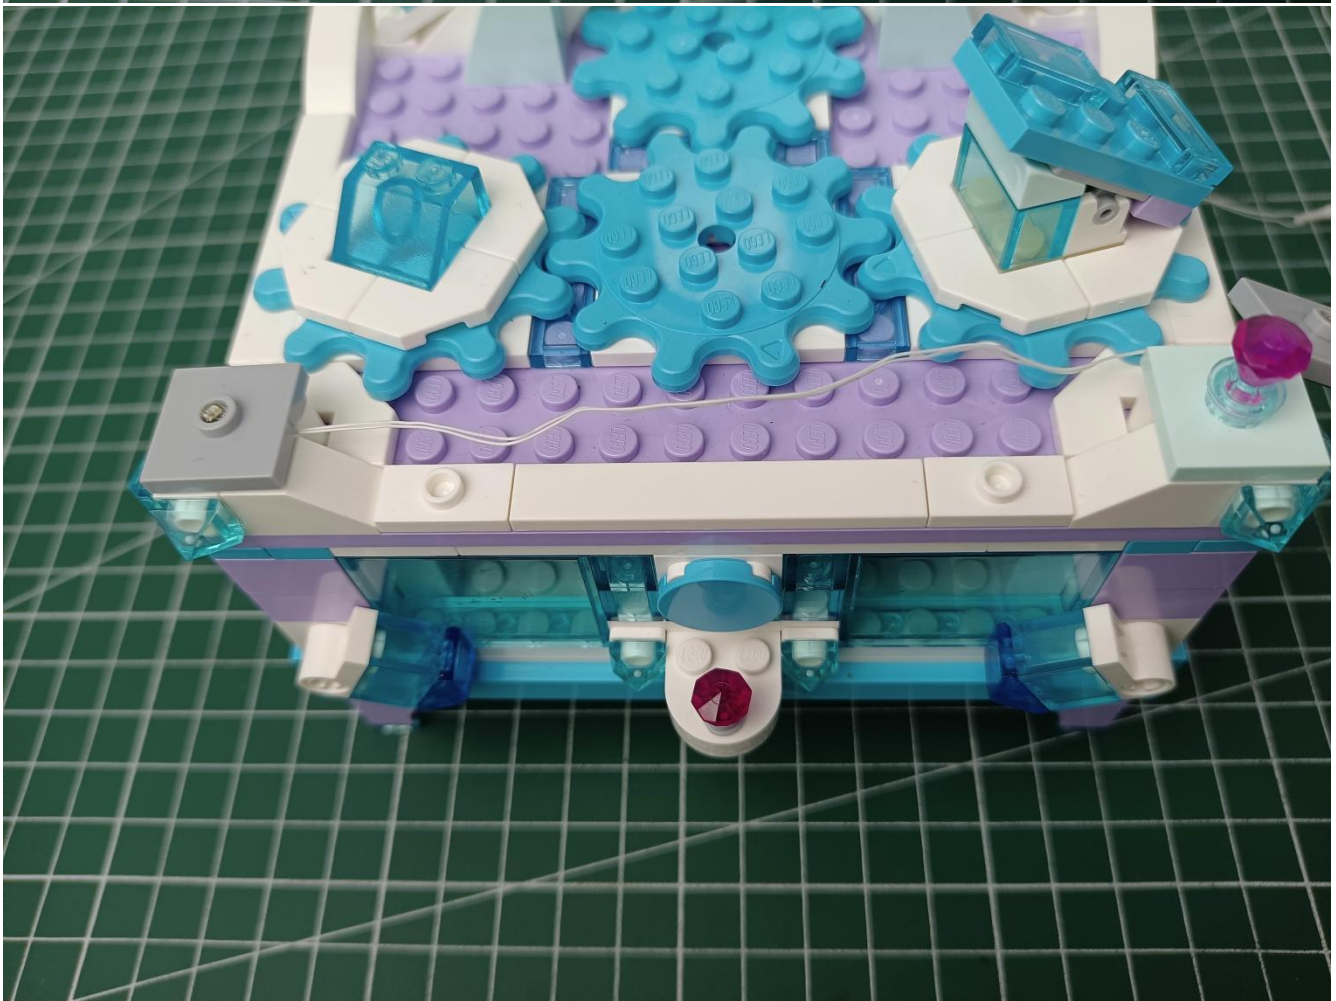

start installation:

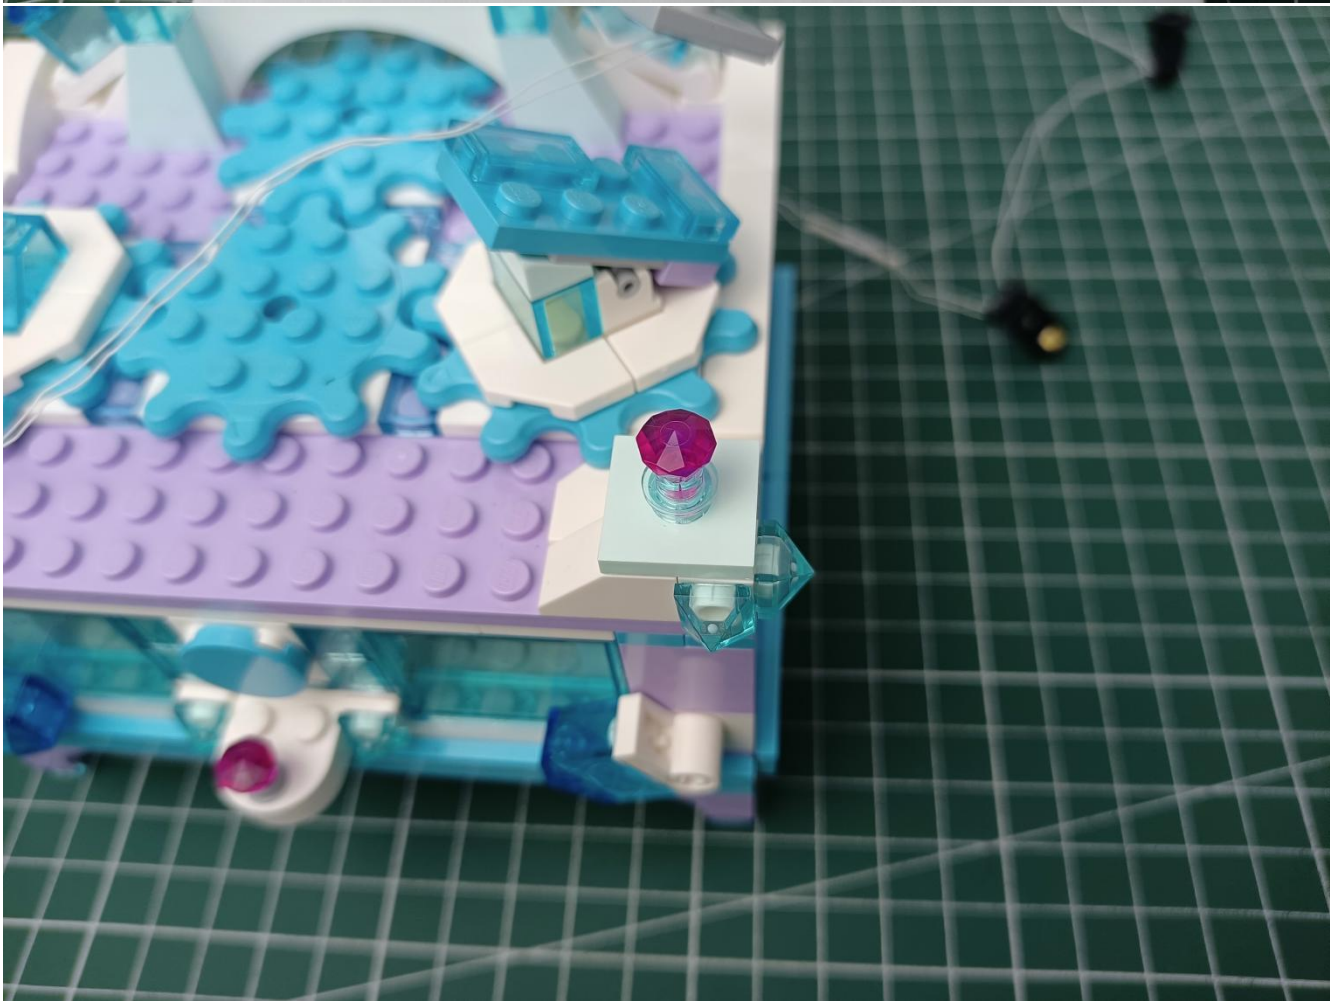

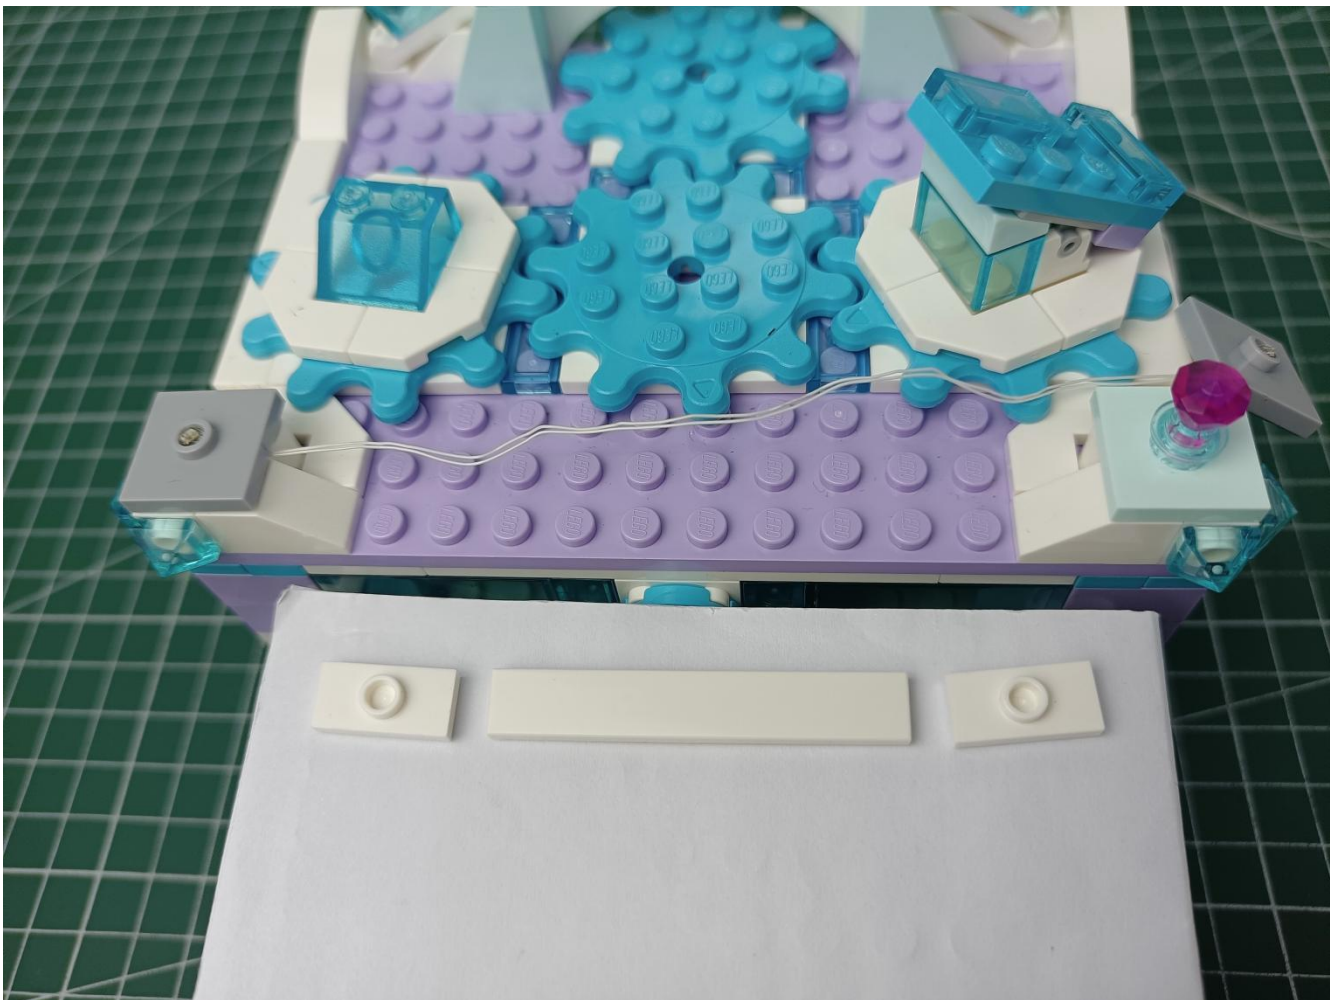

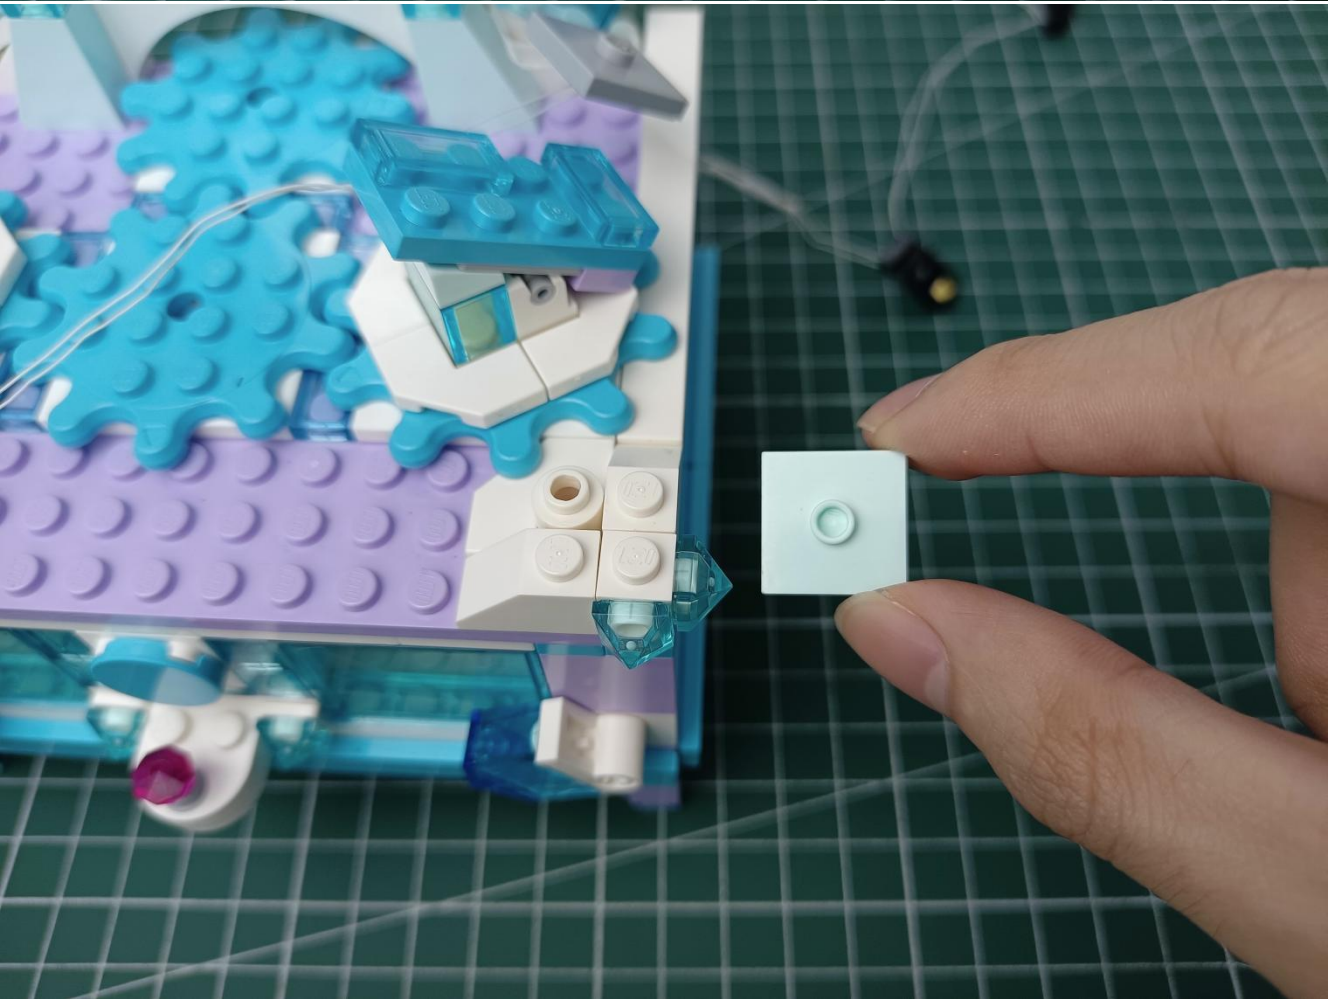

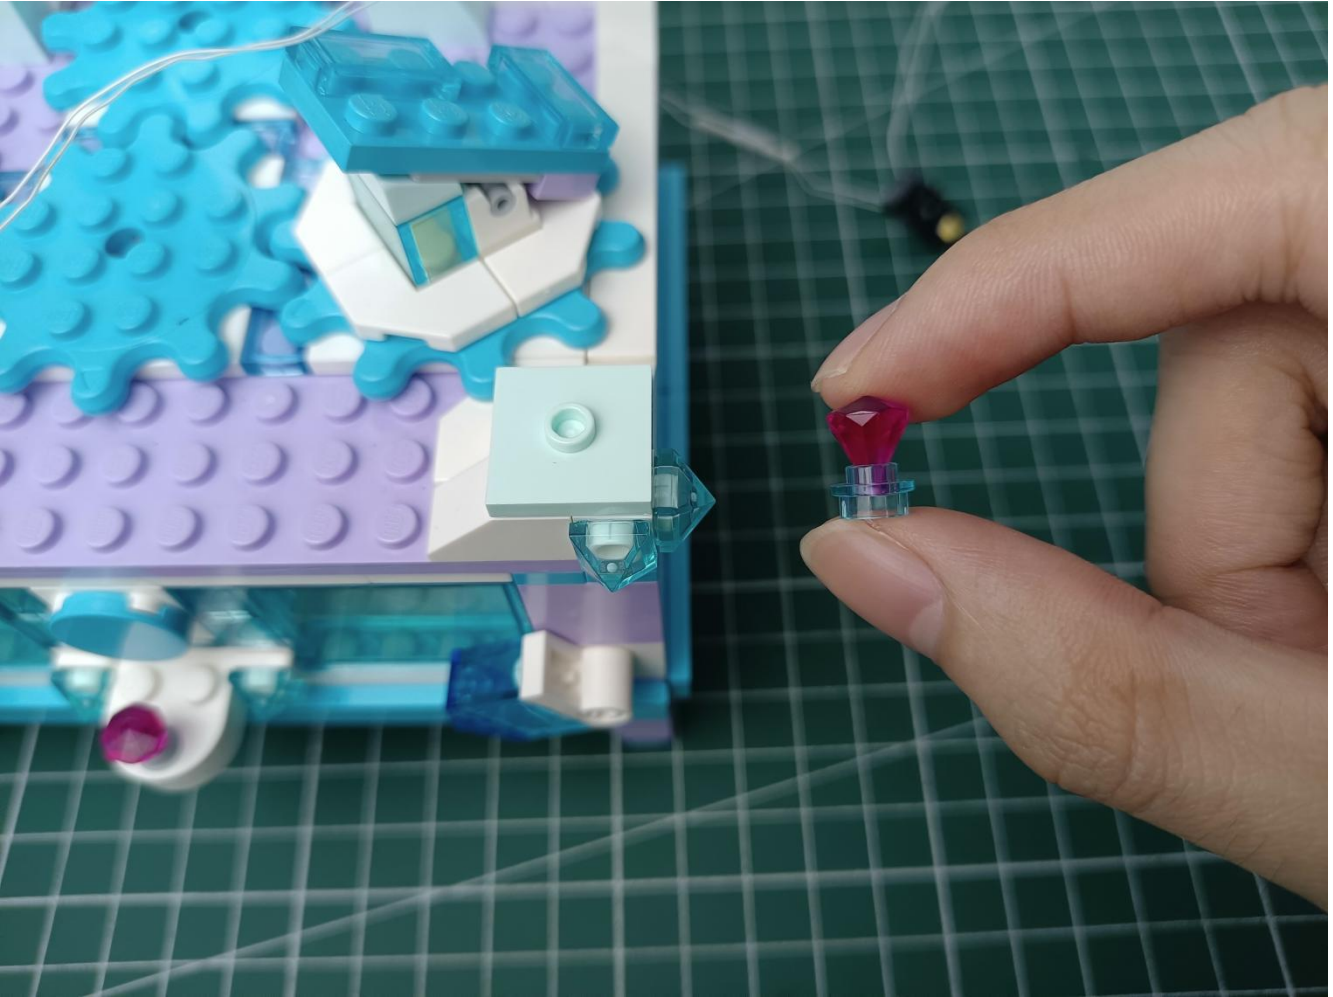

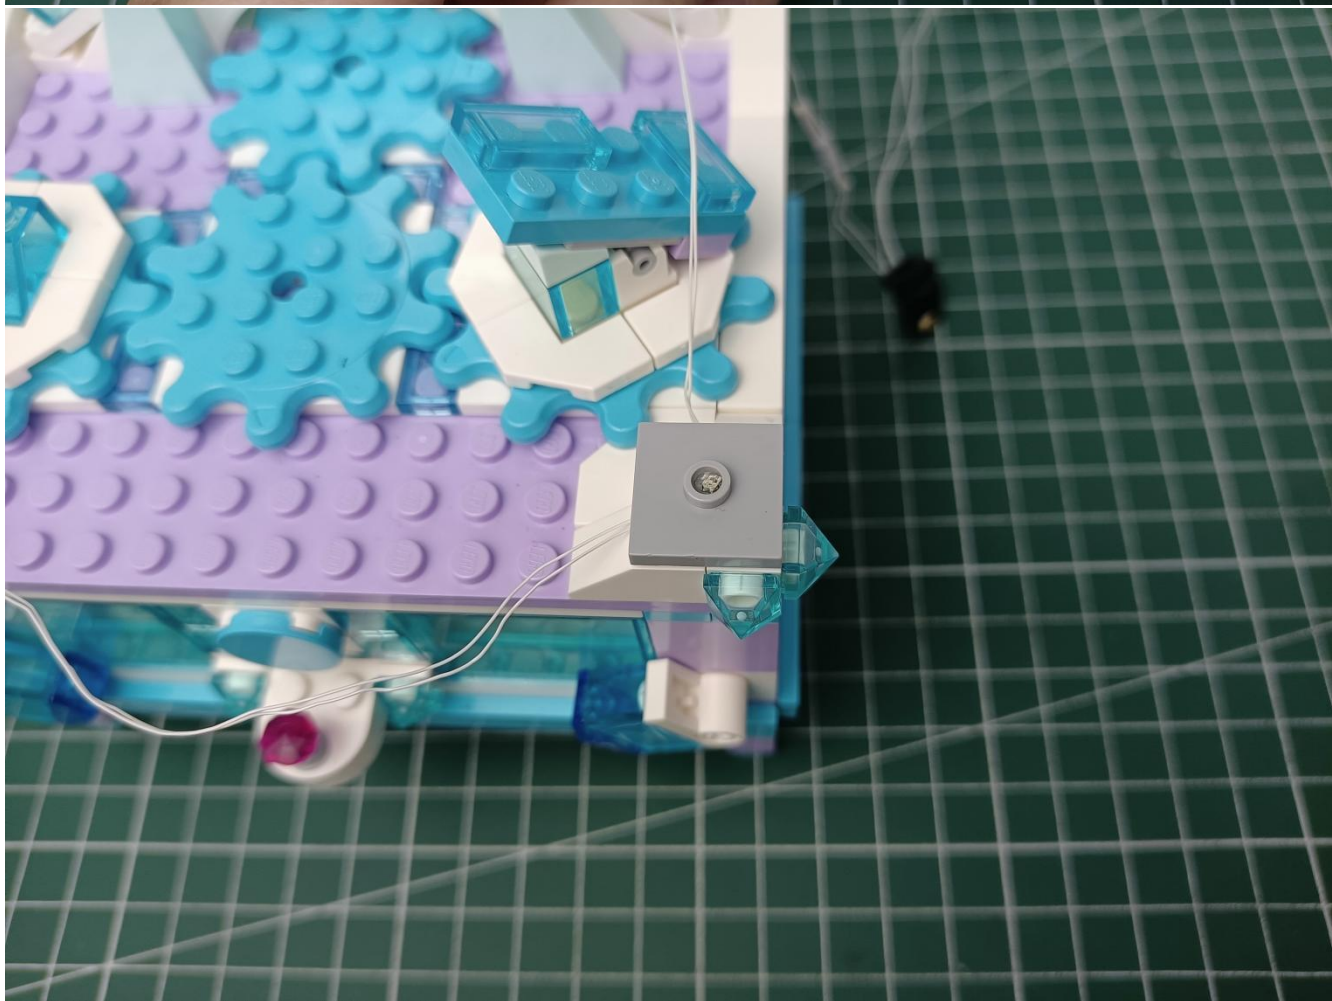

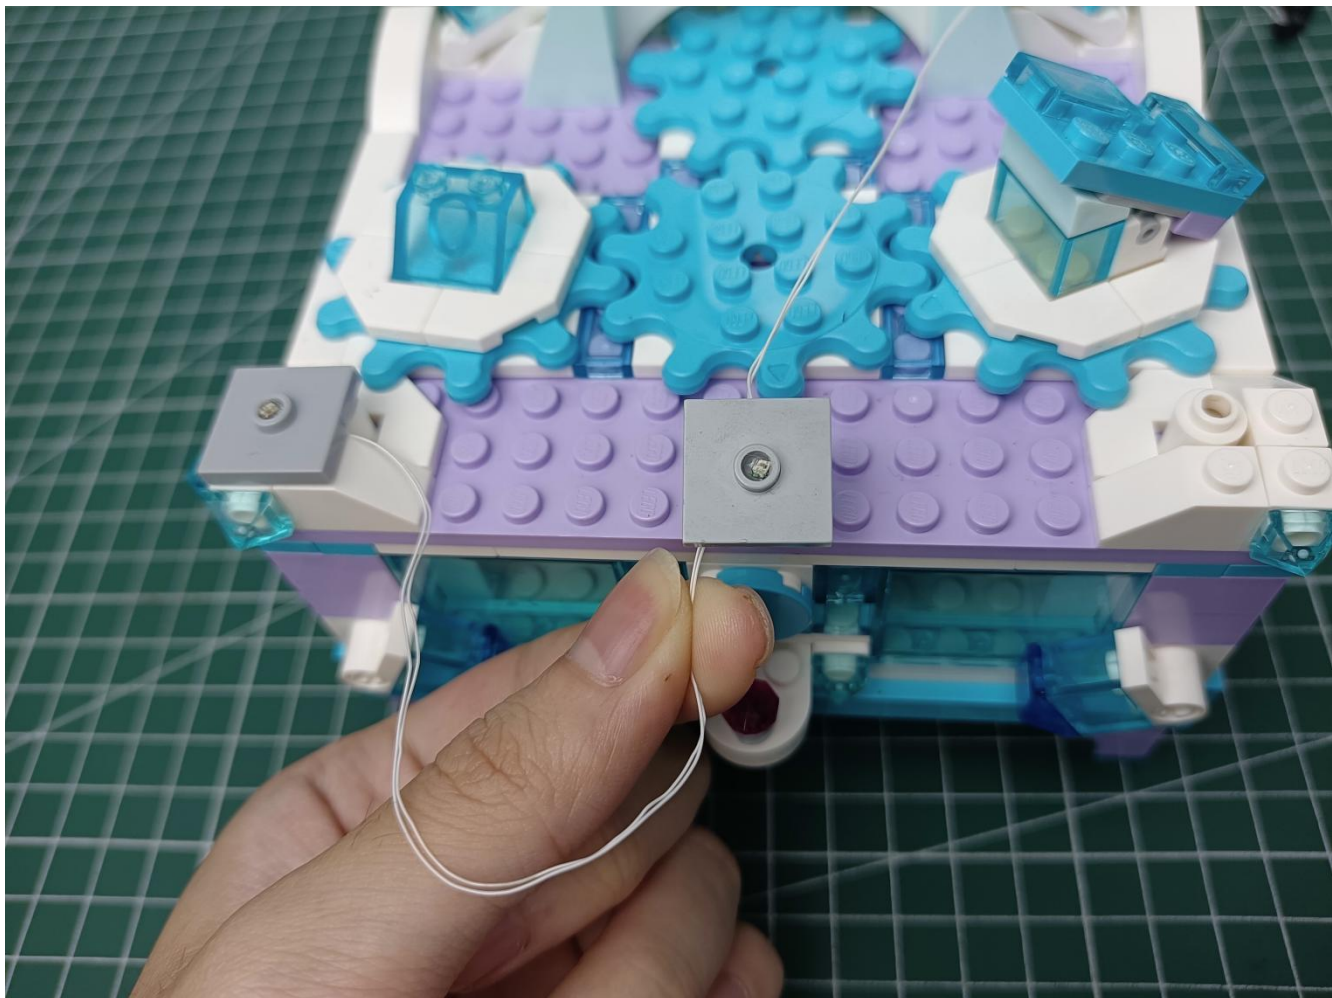

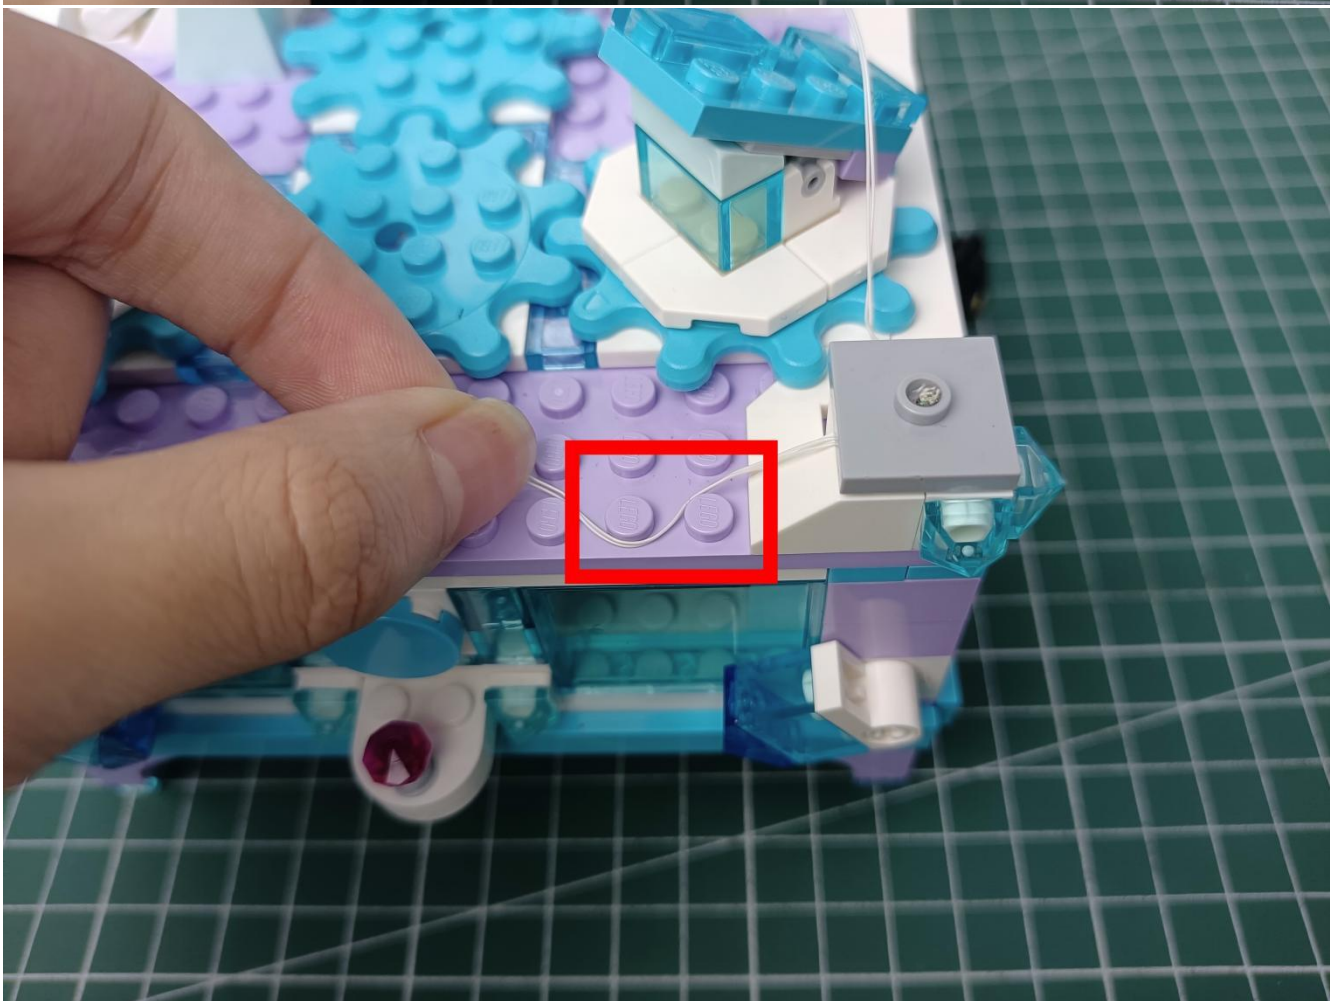

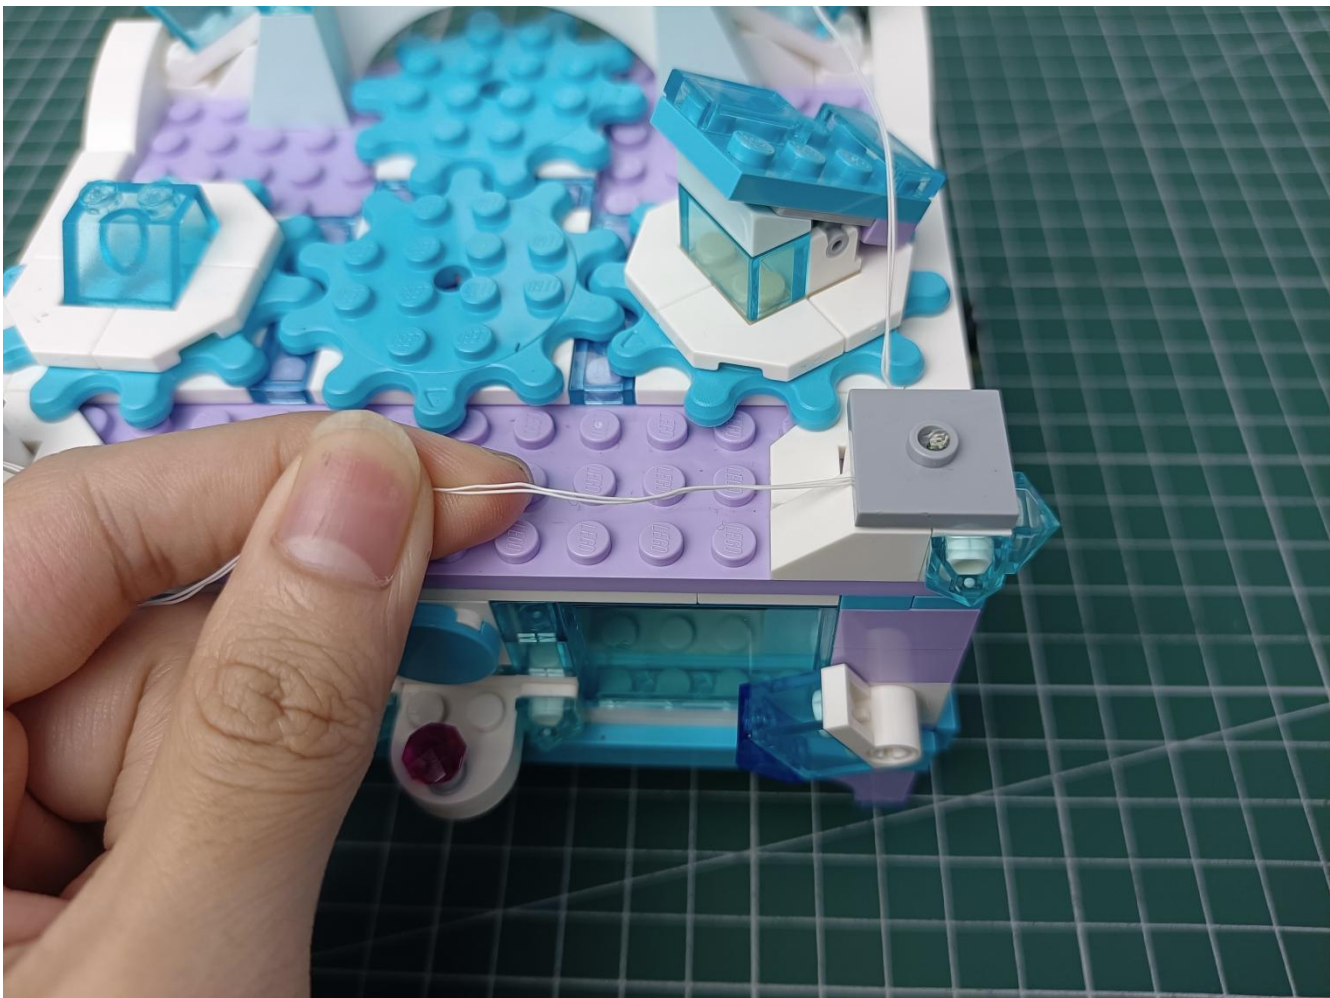

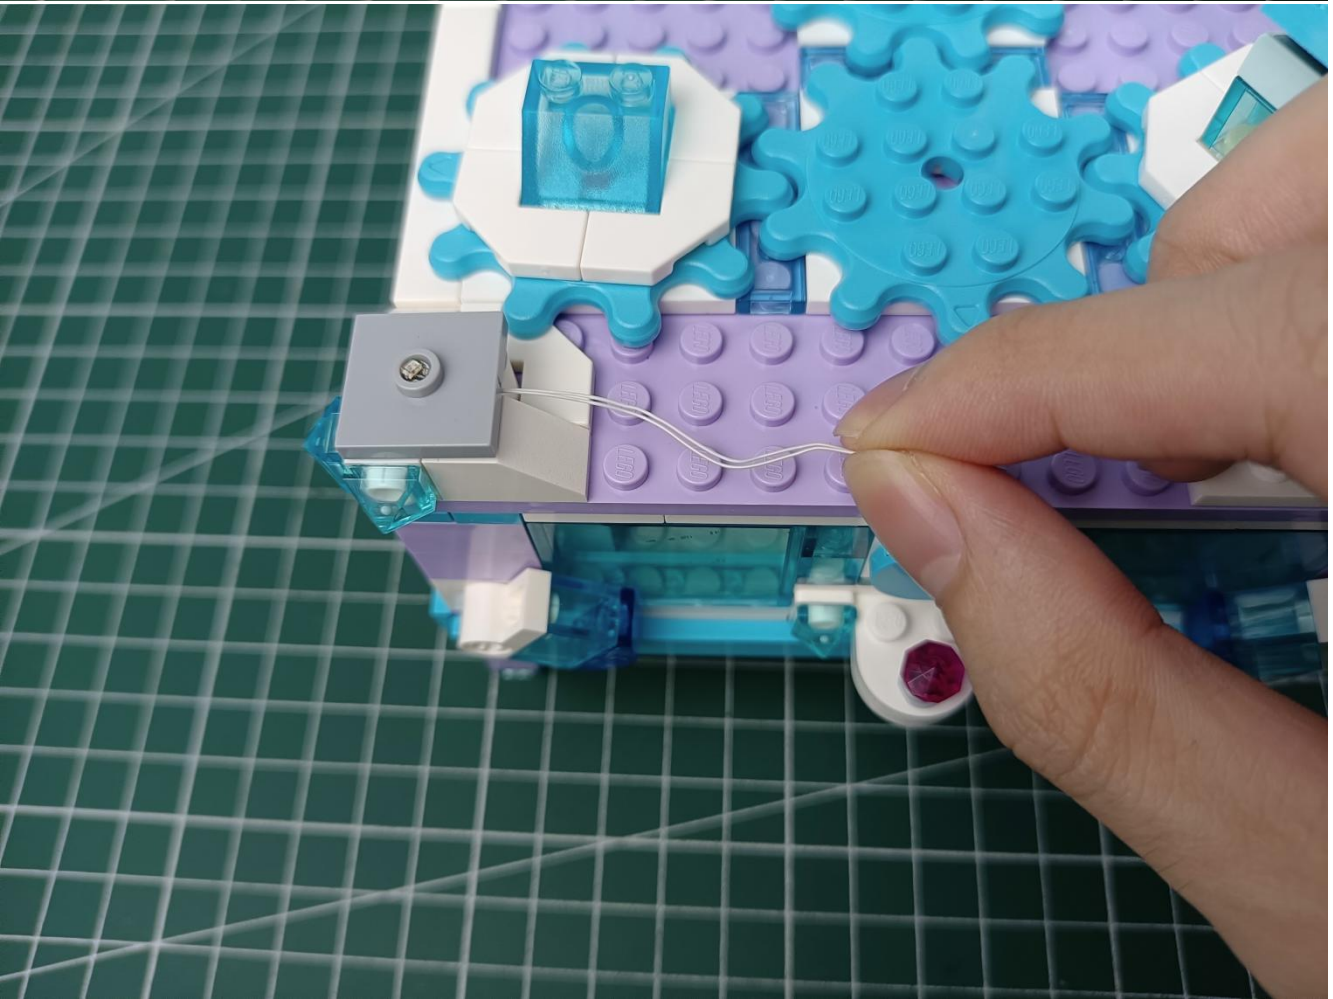

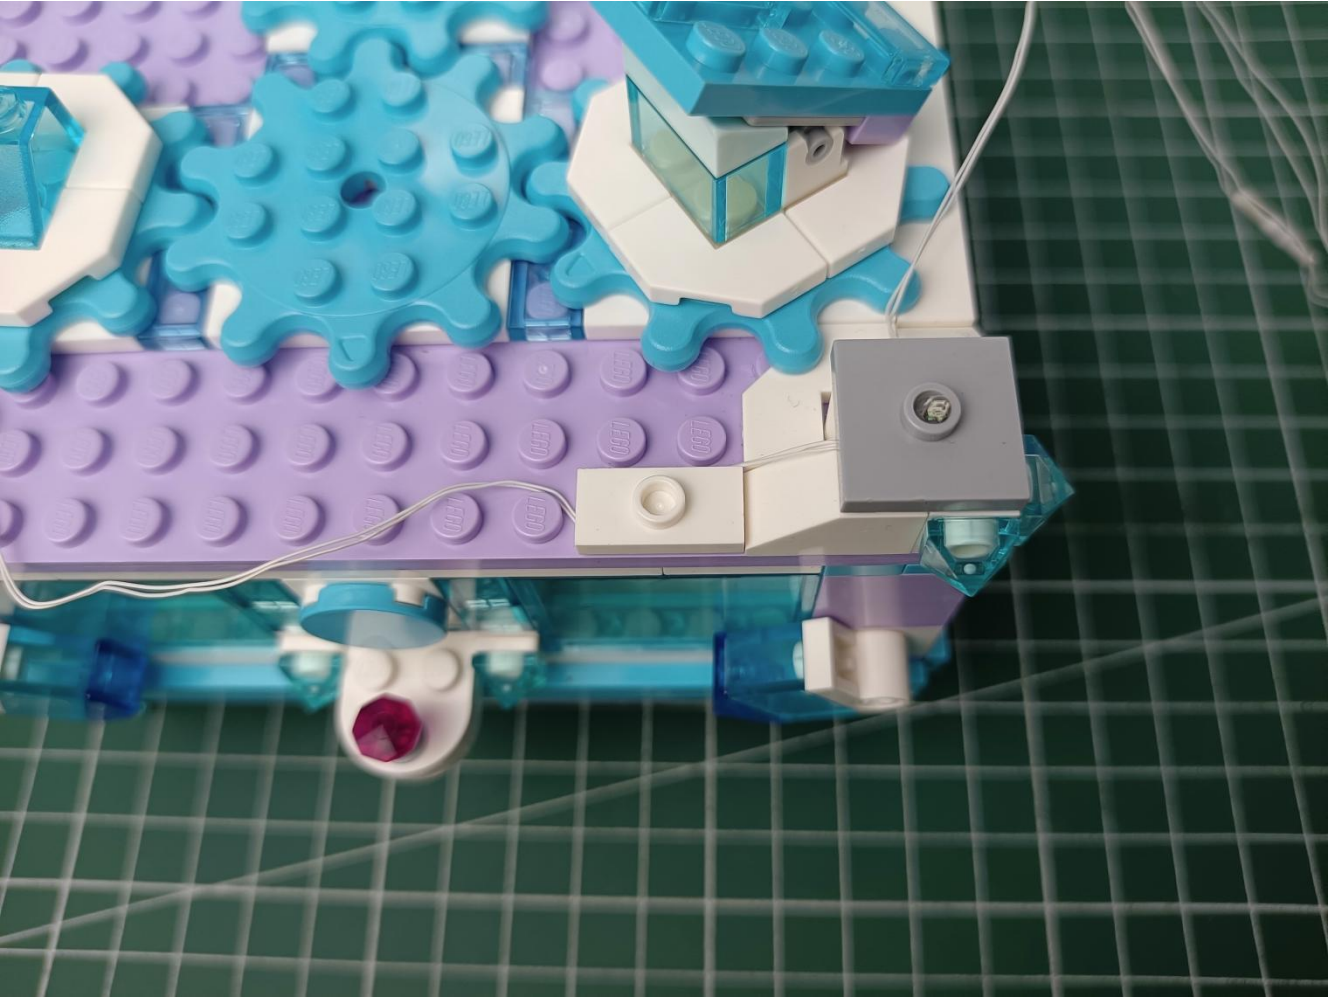

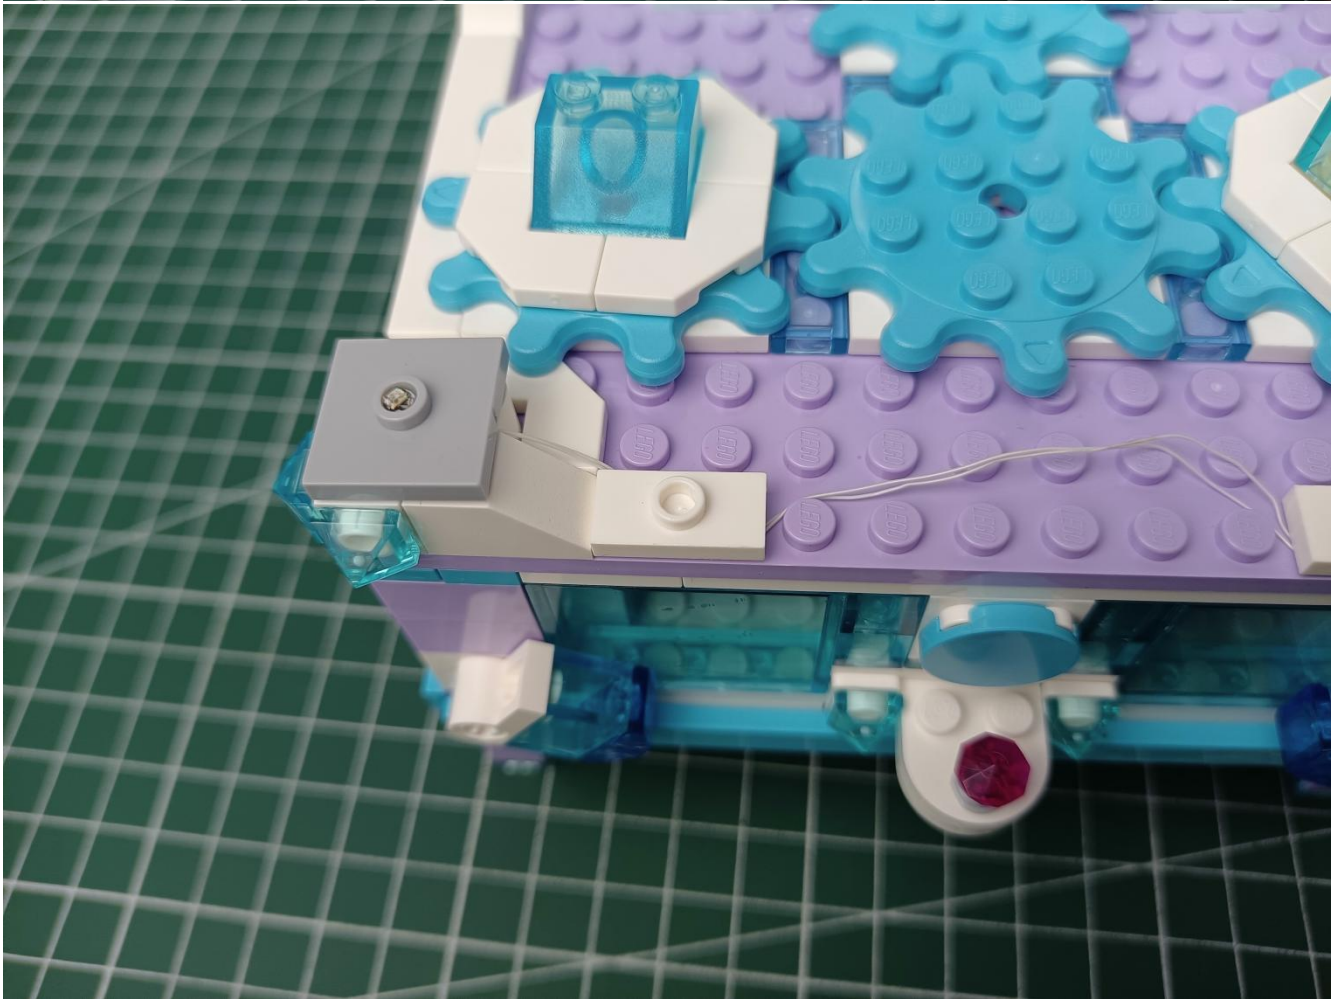

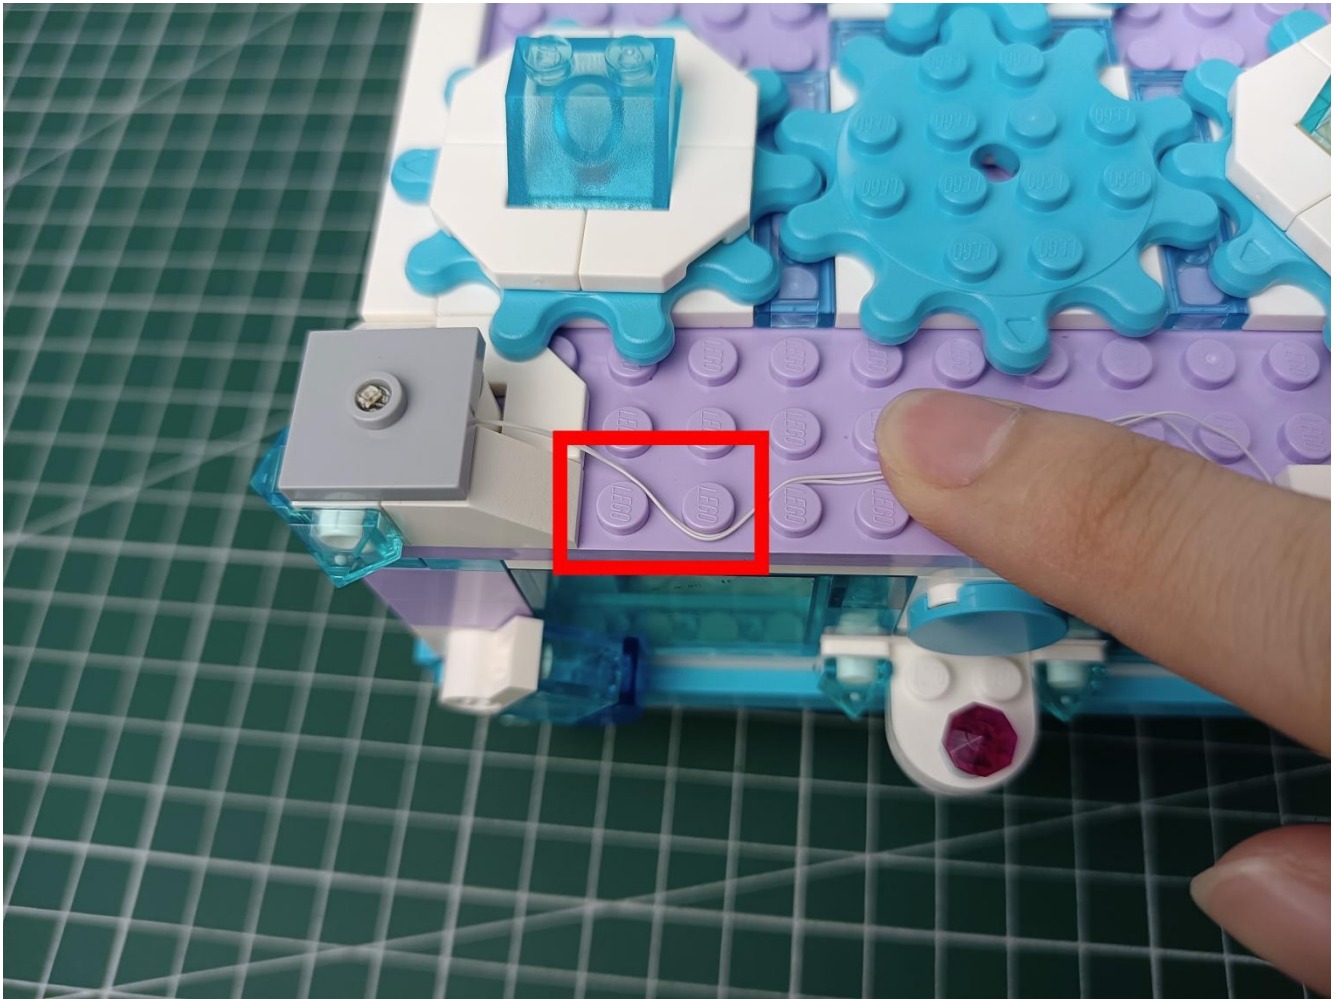

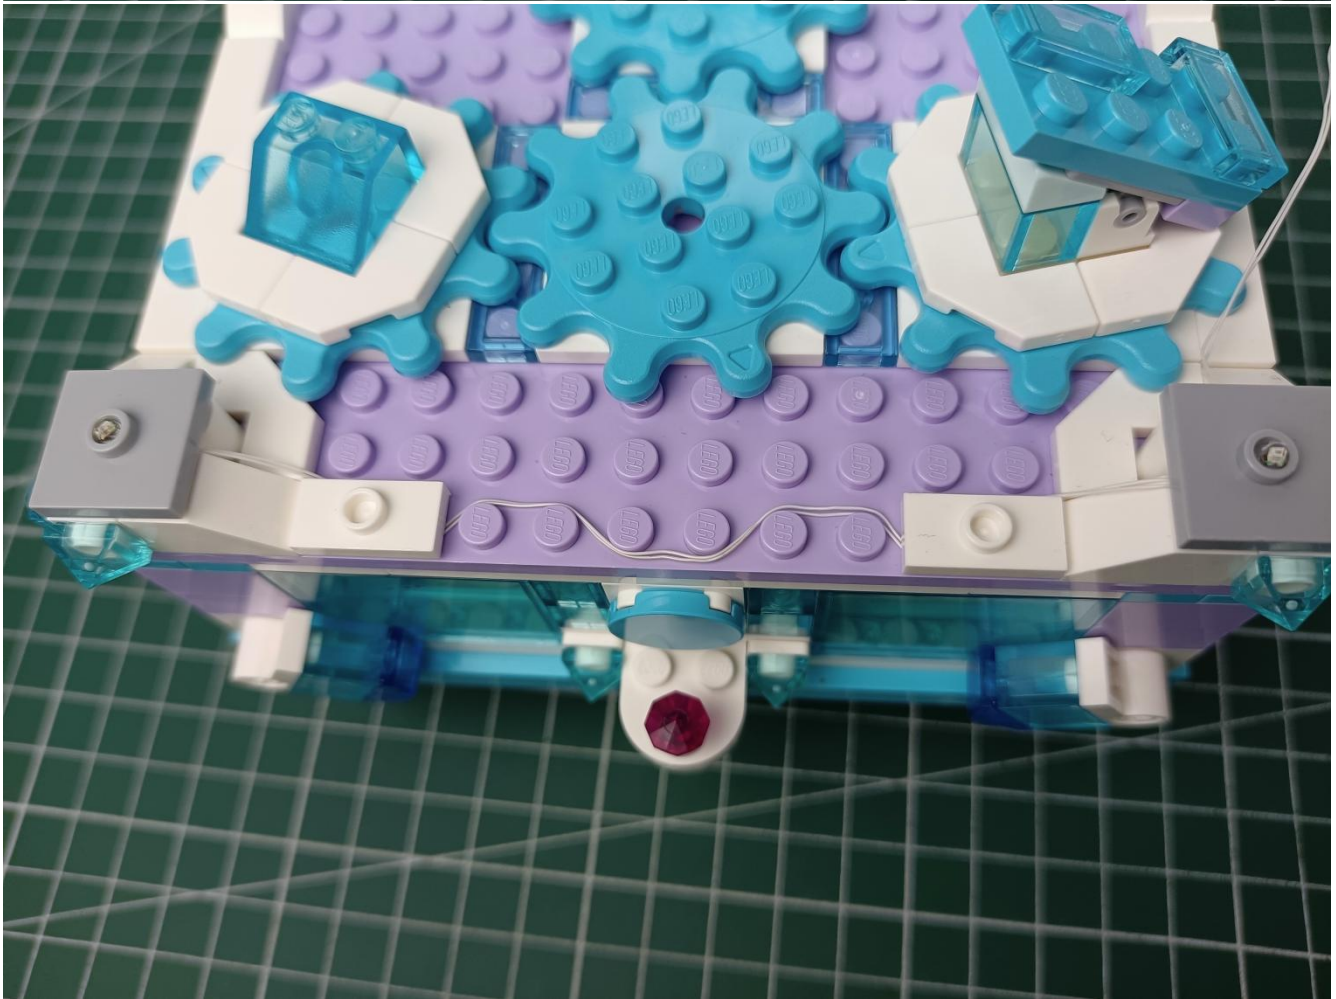

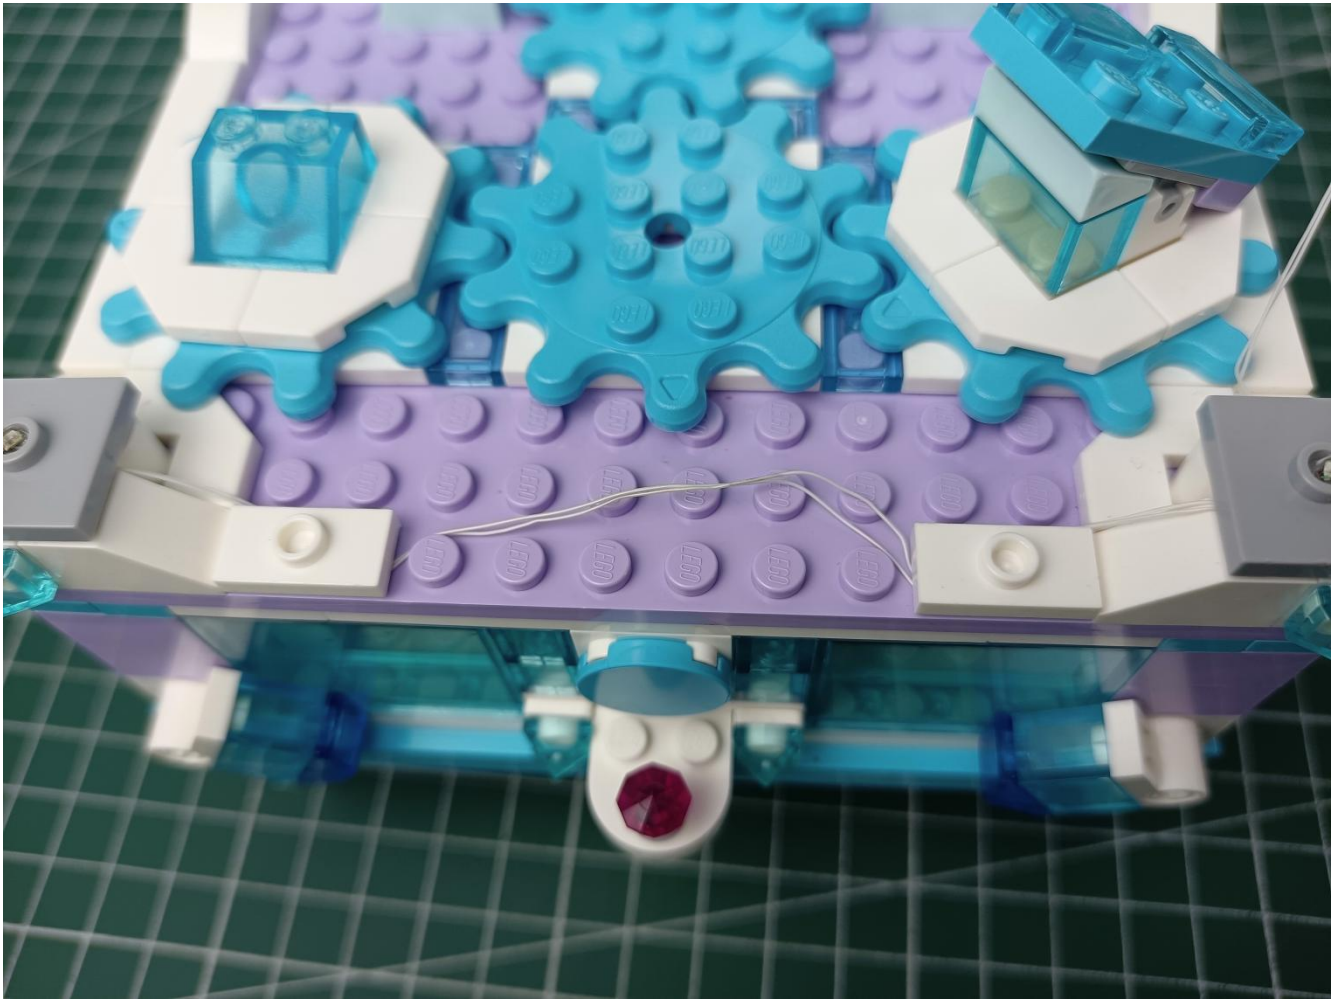

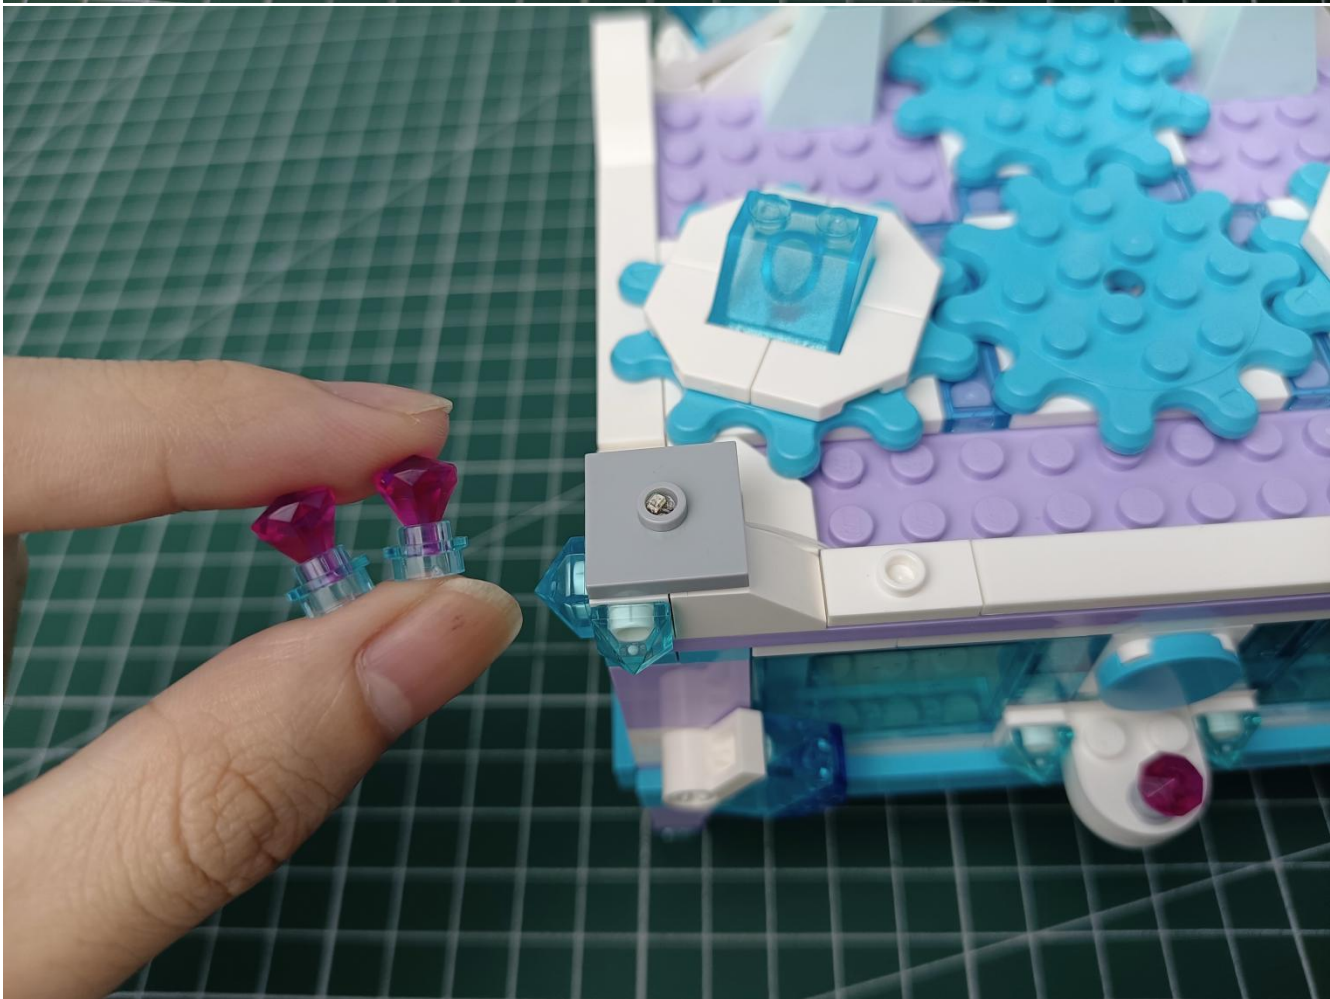

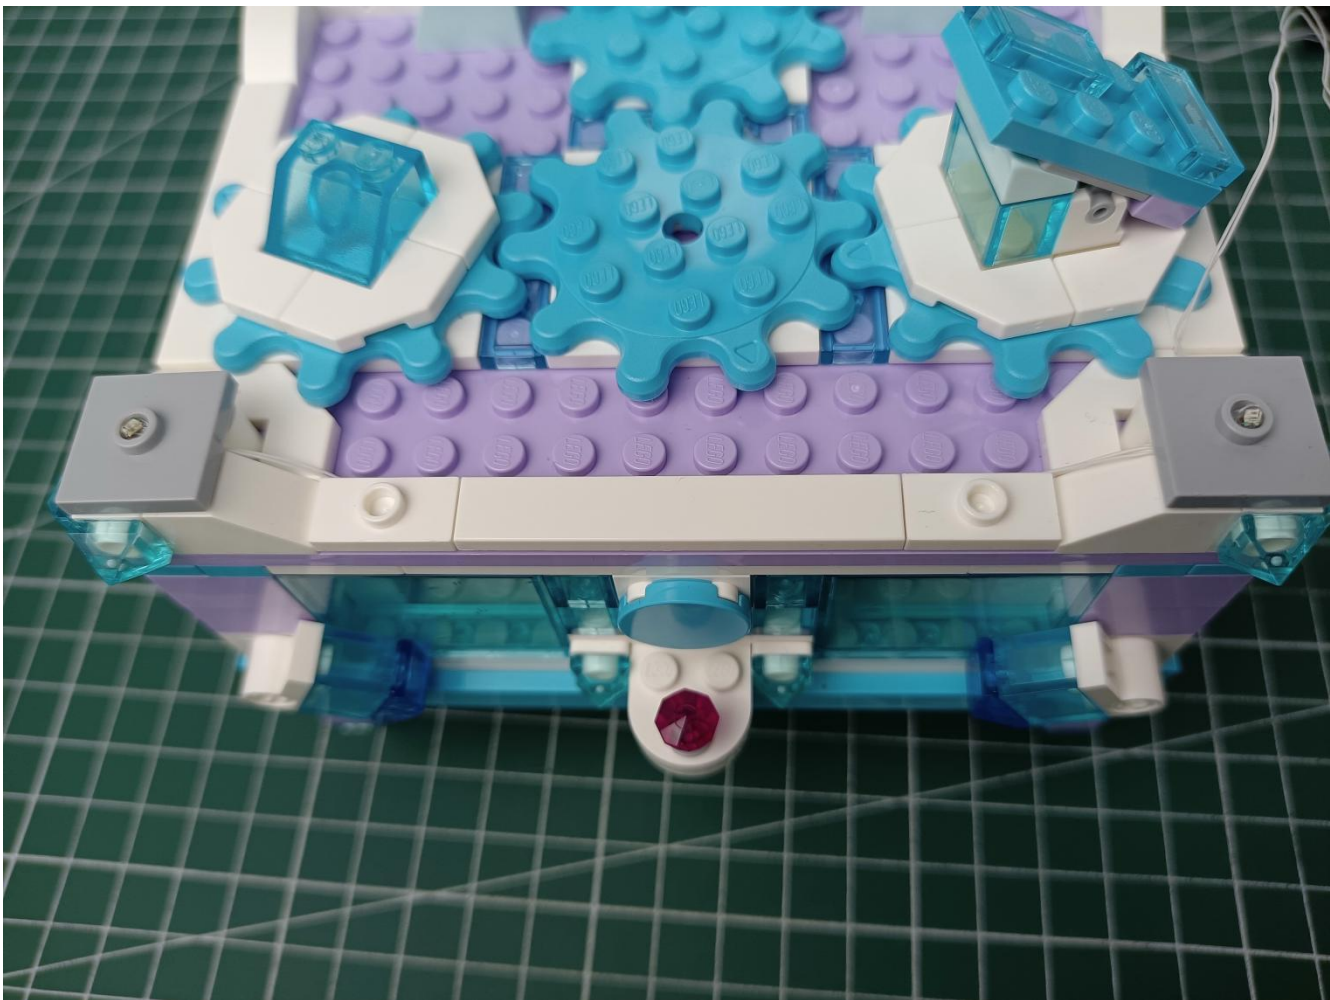

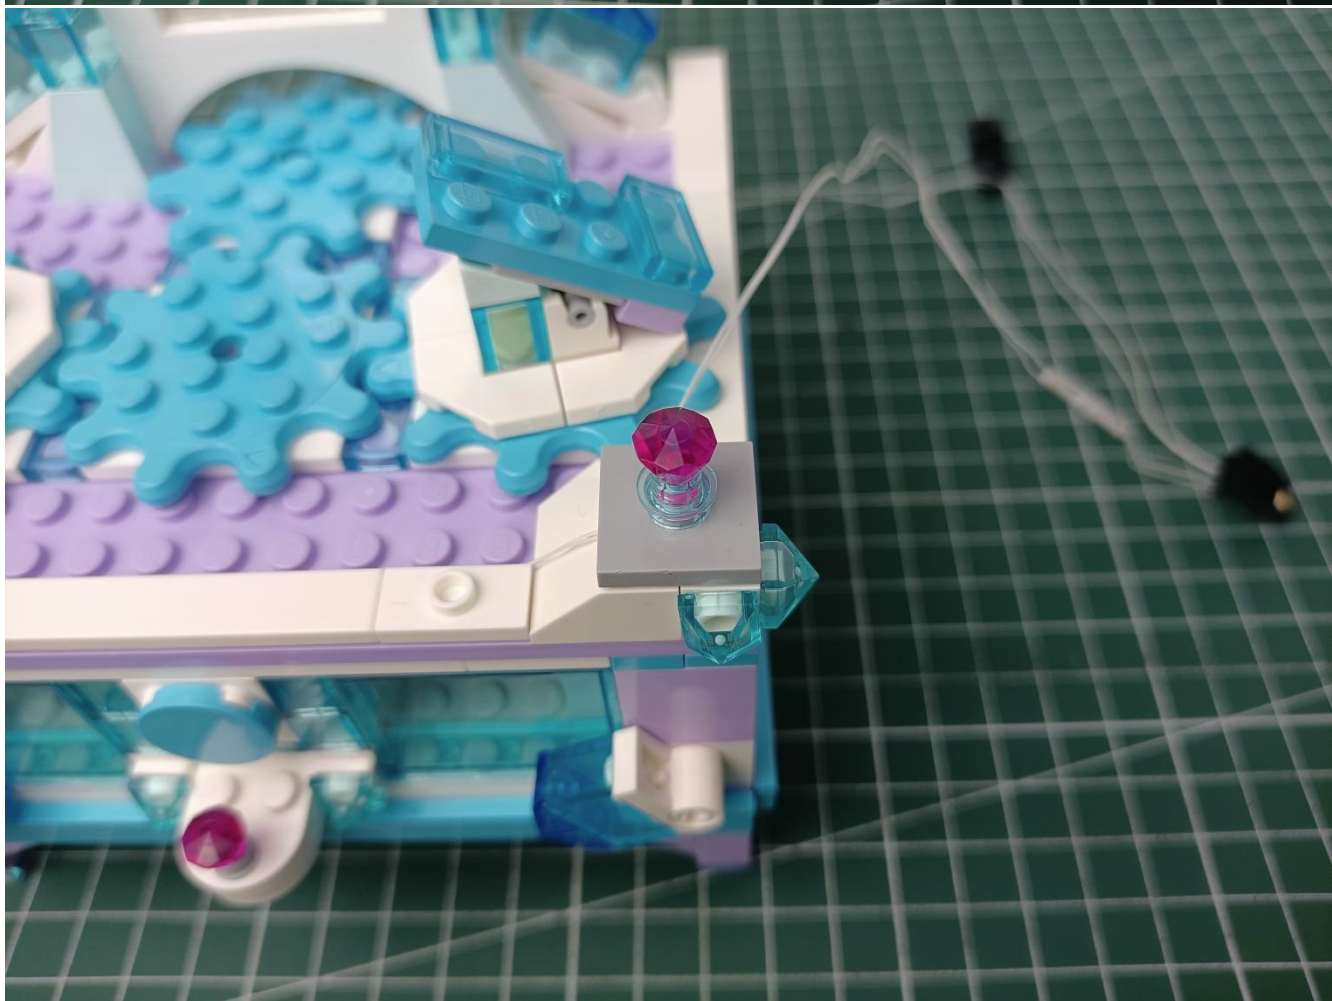

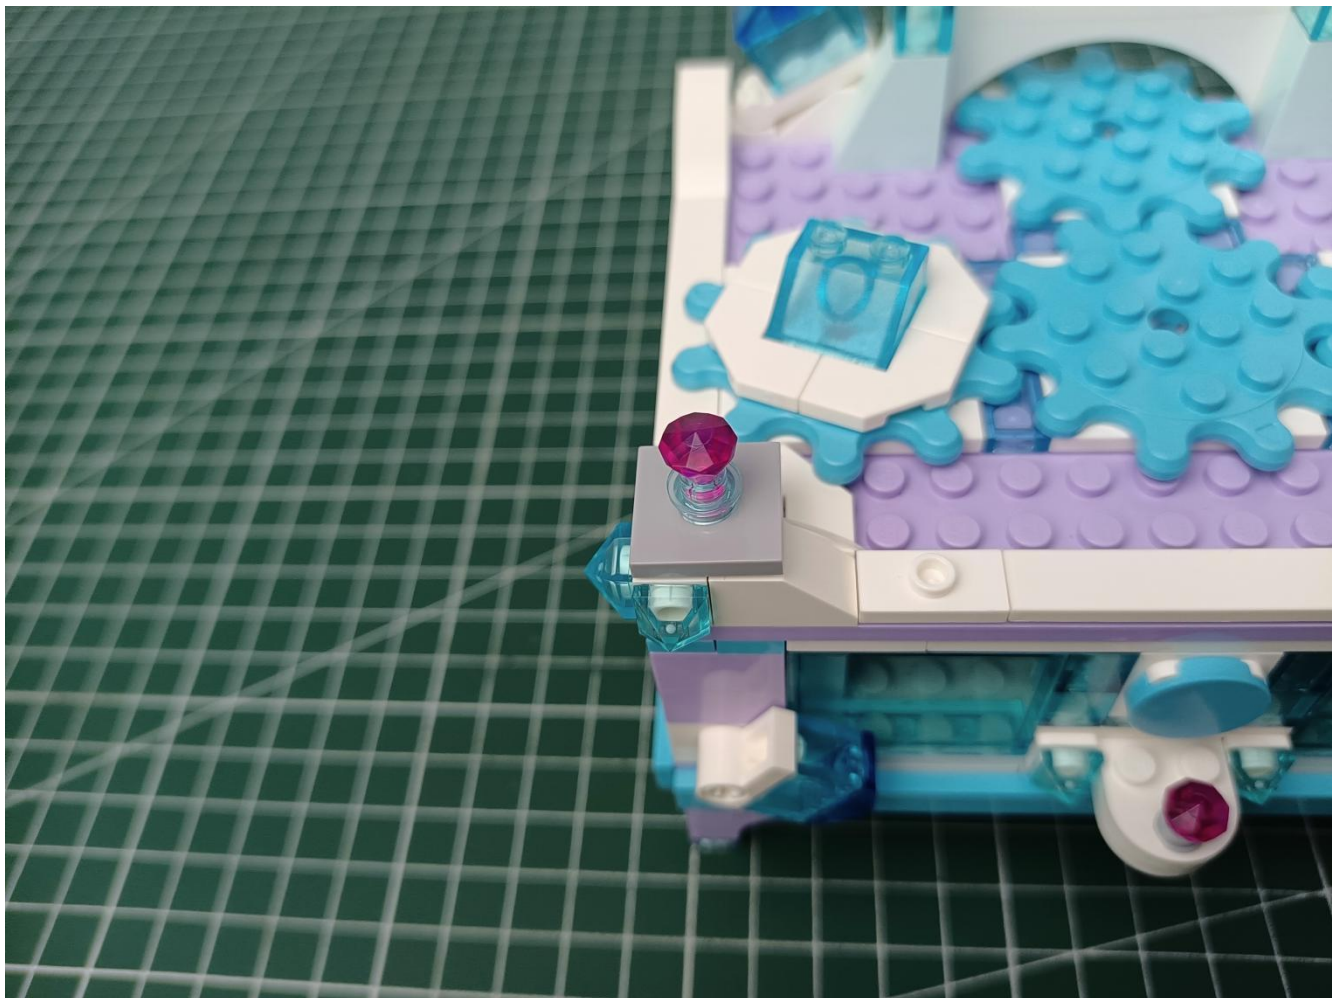

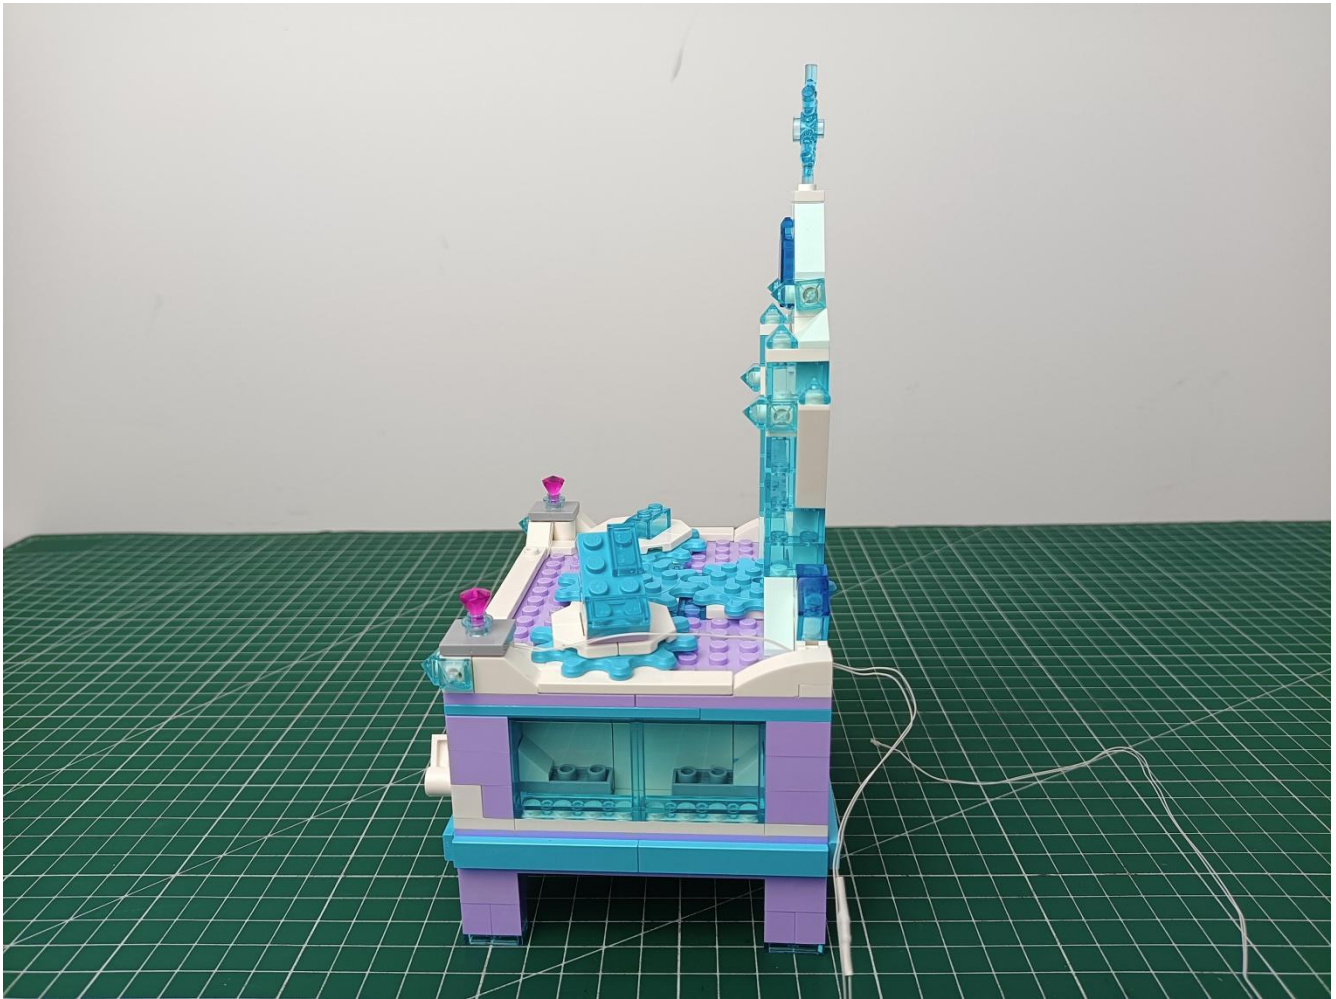

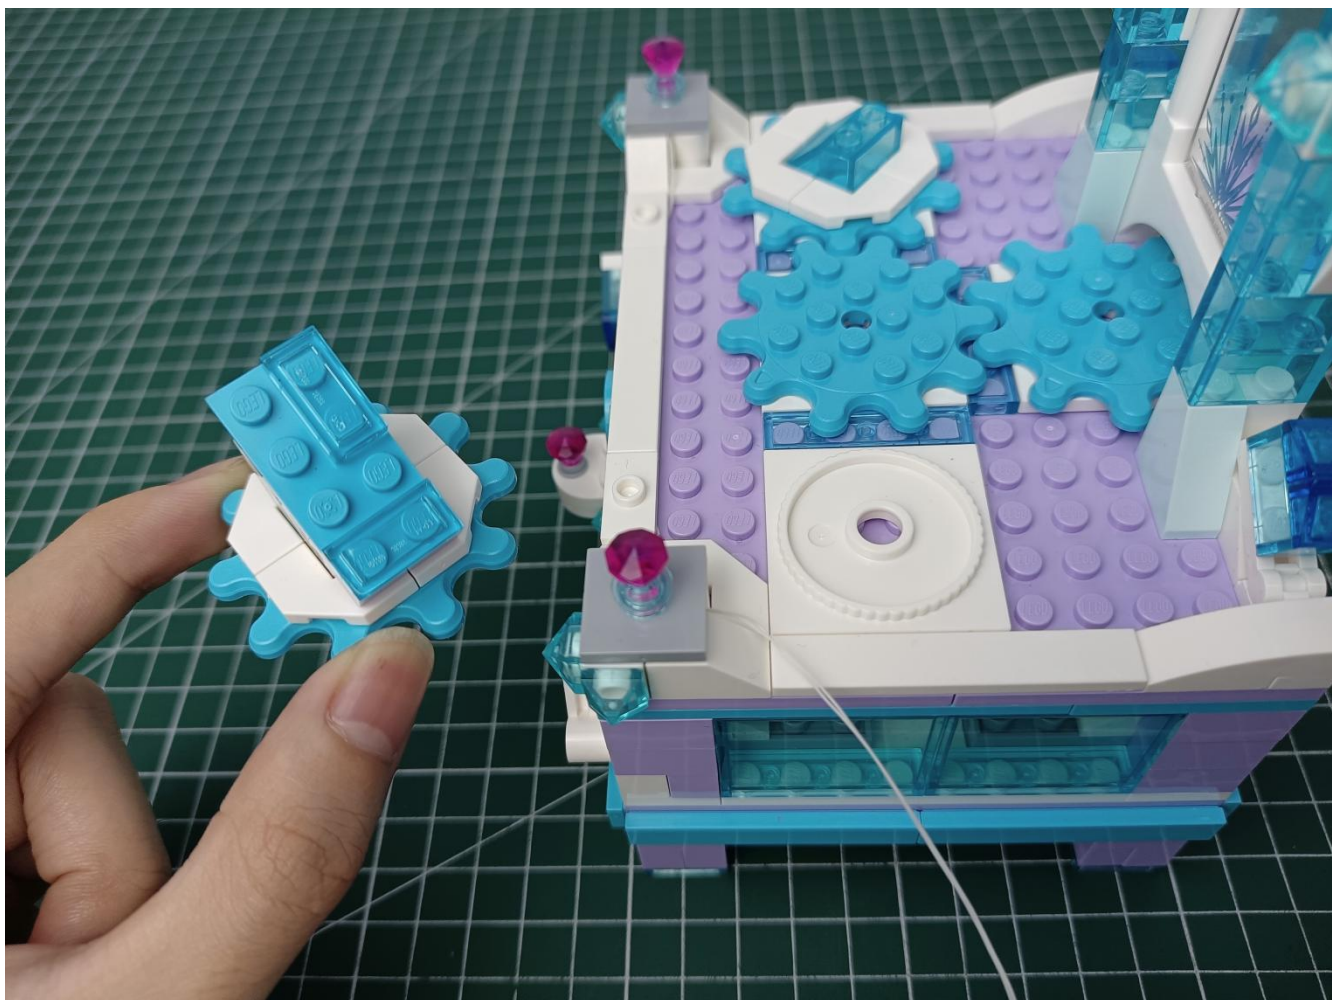

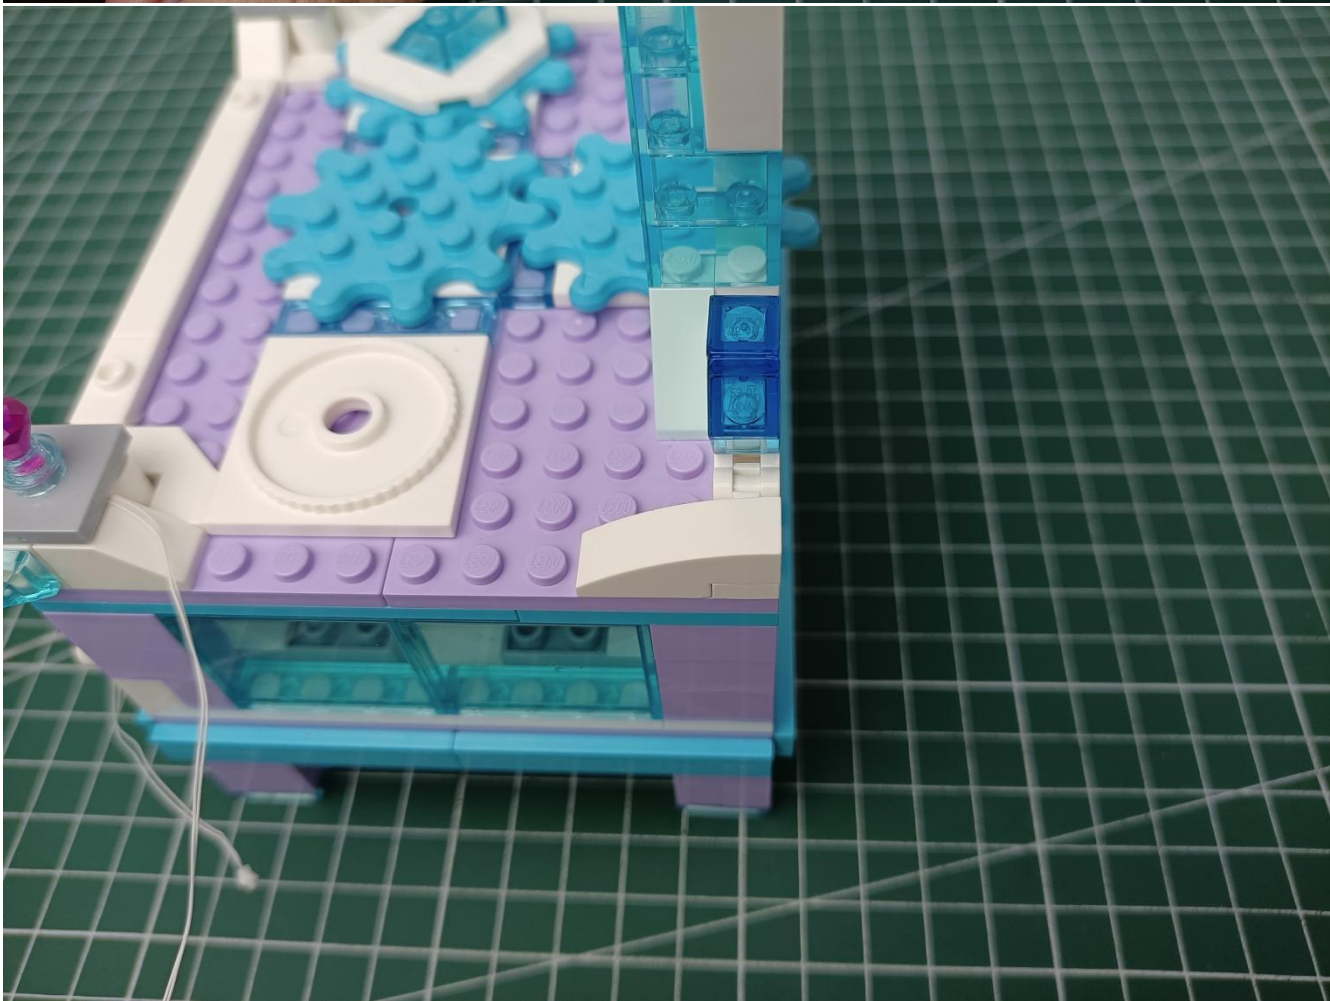

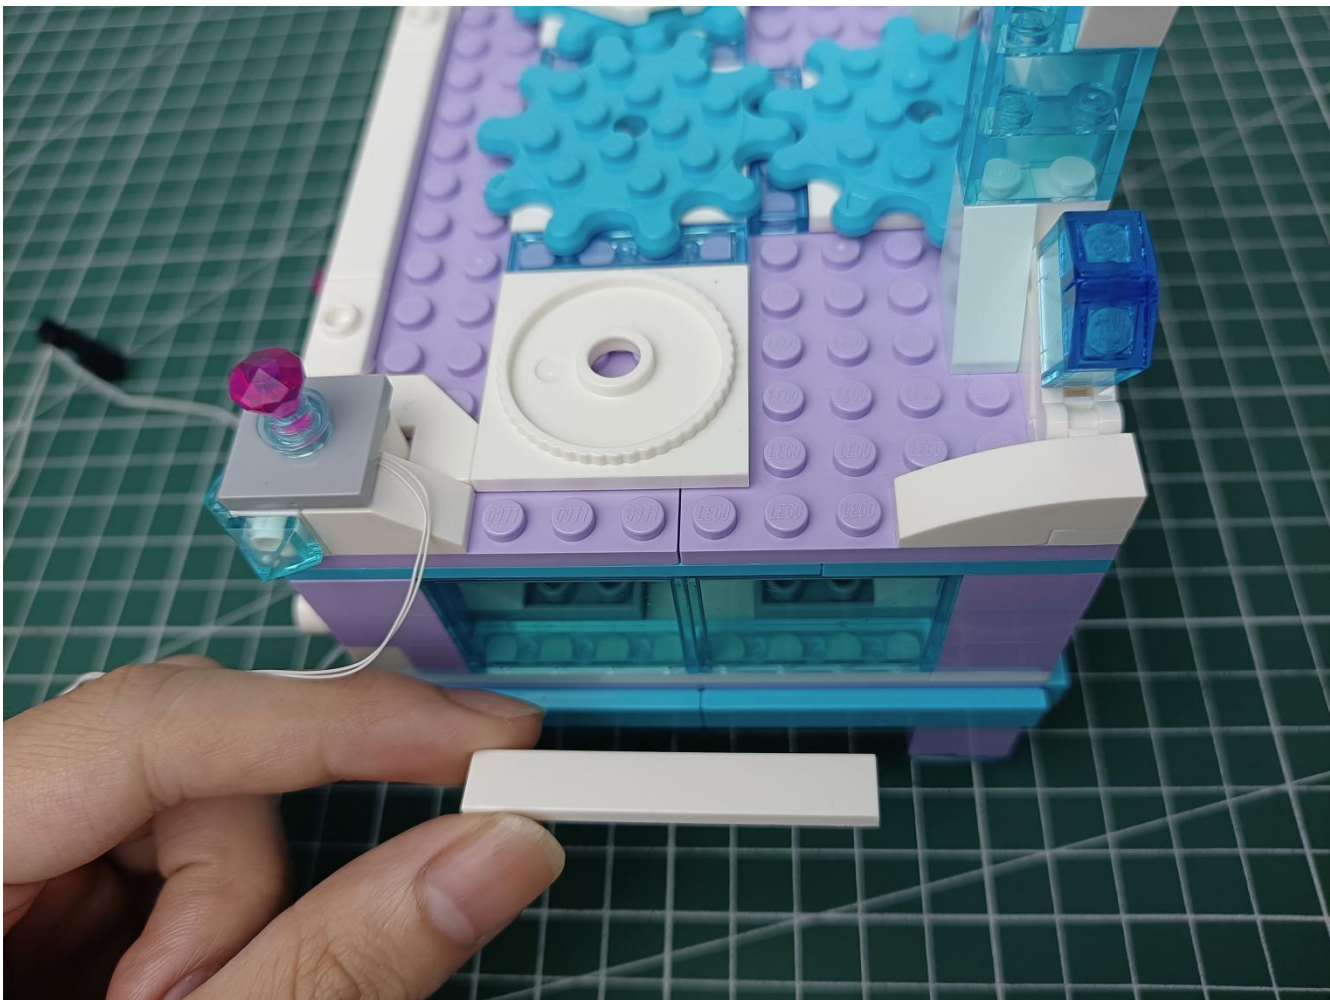

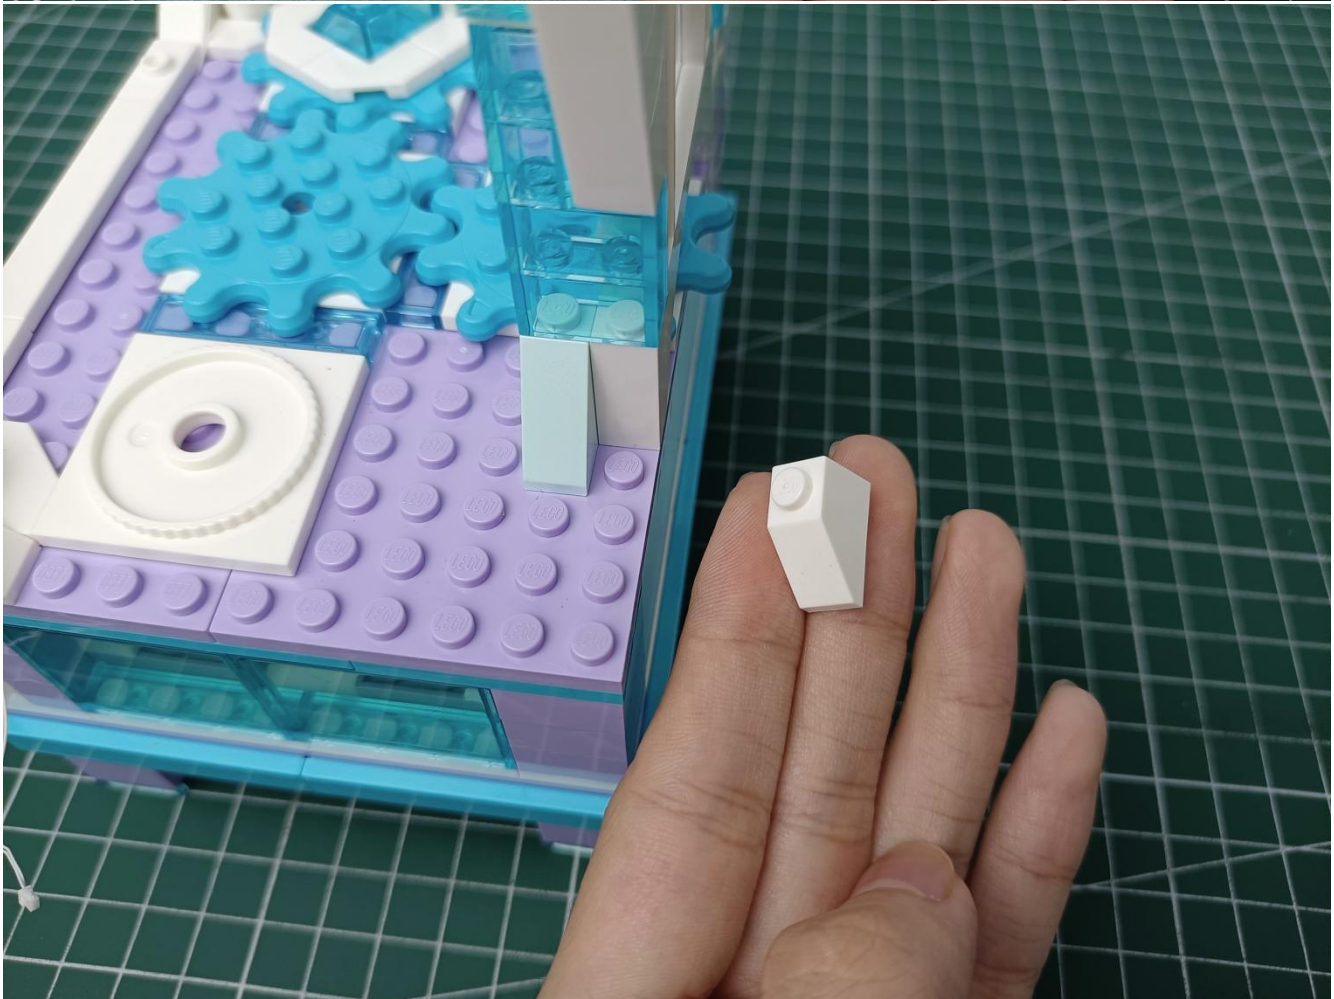

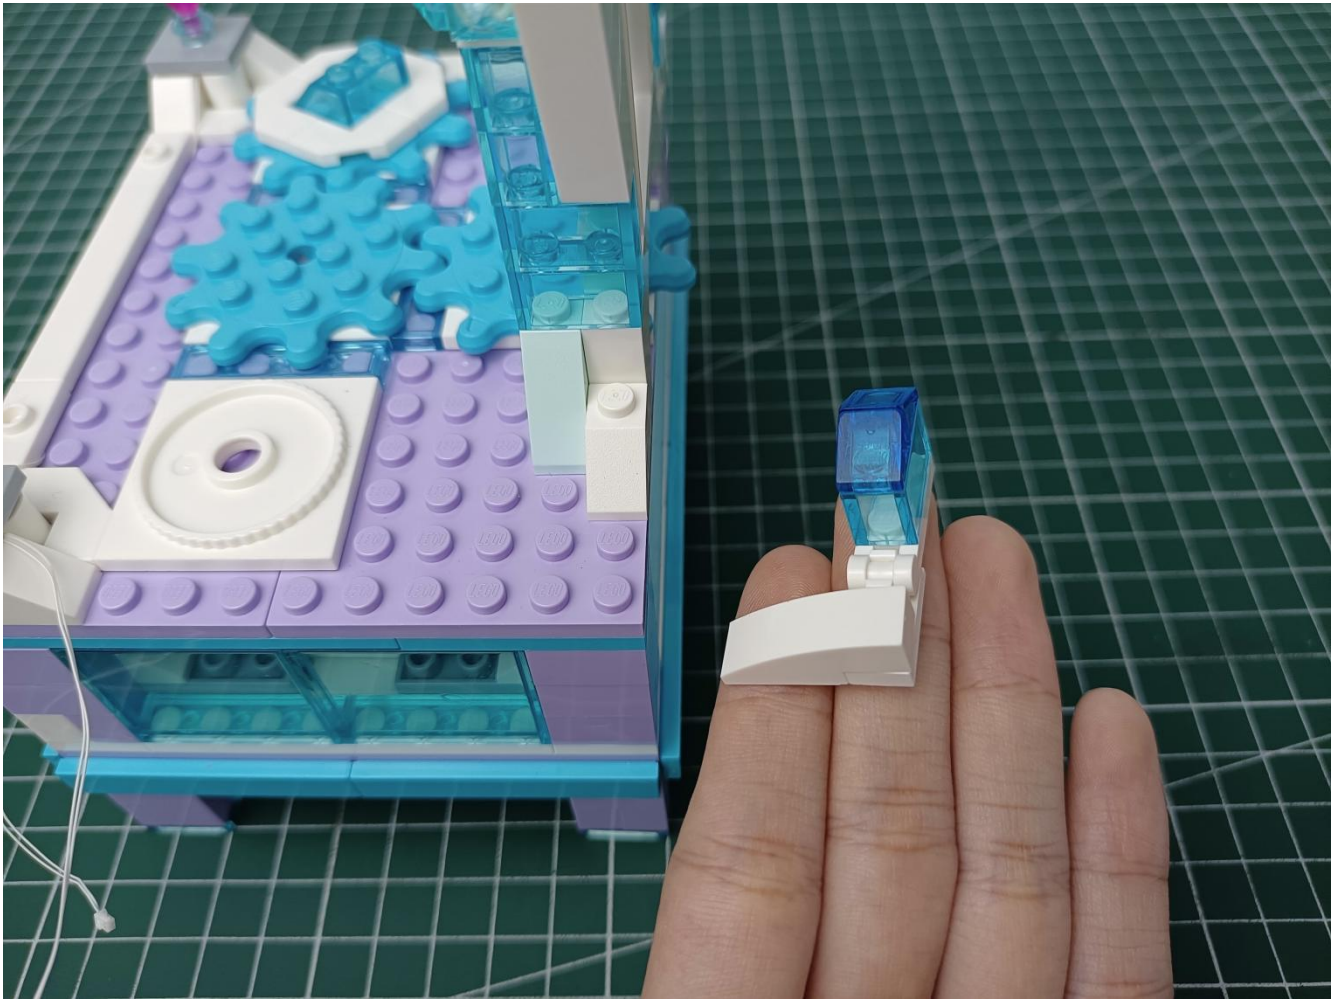

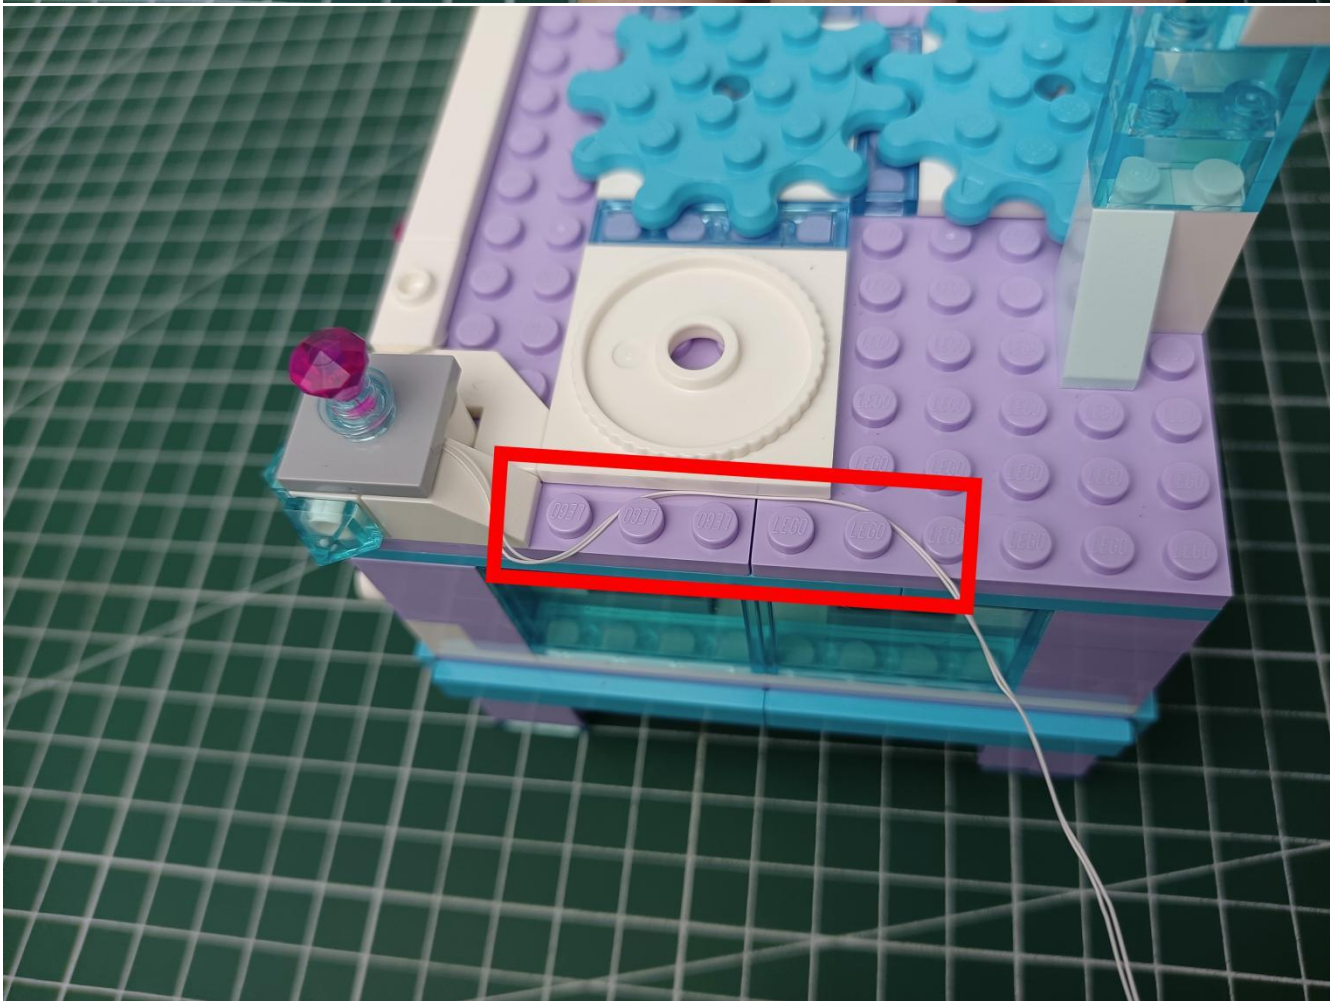

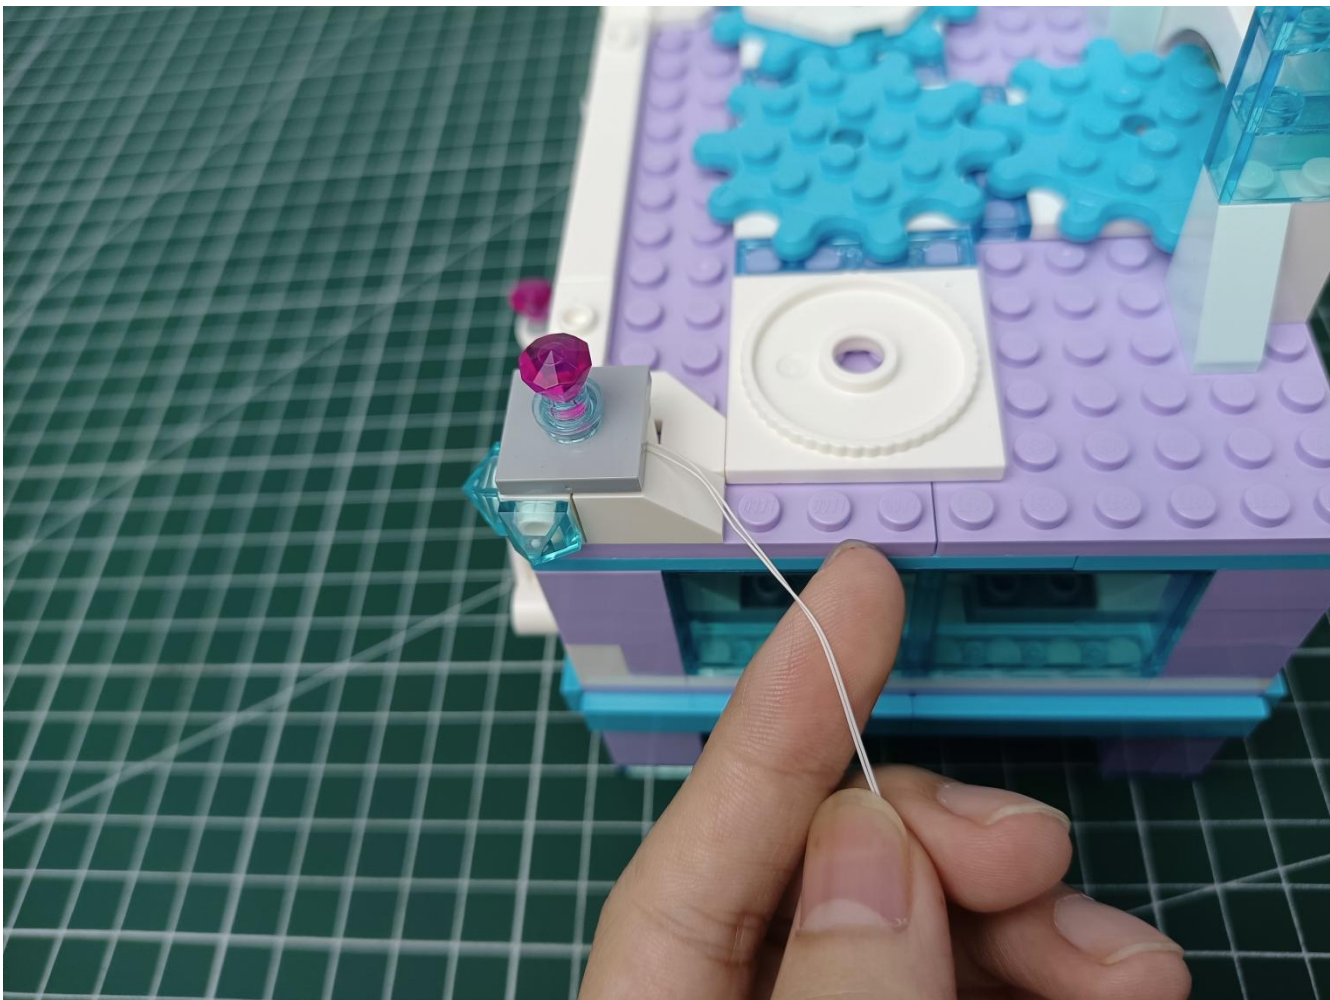

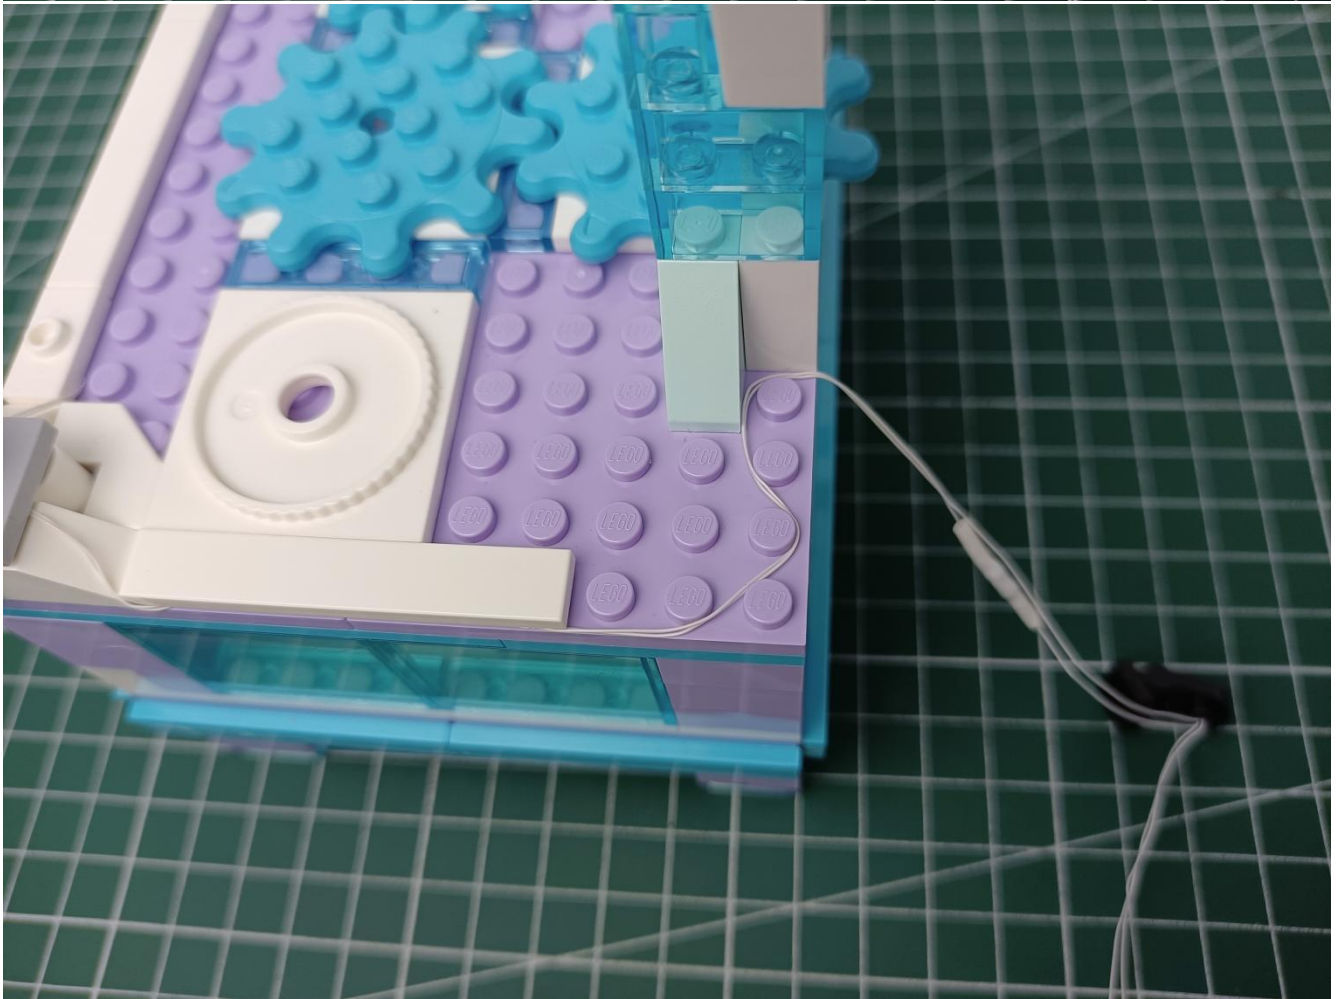

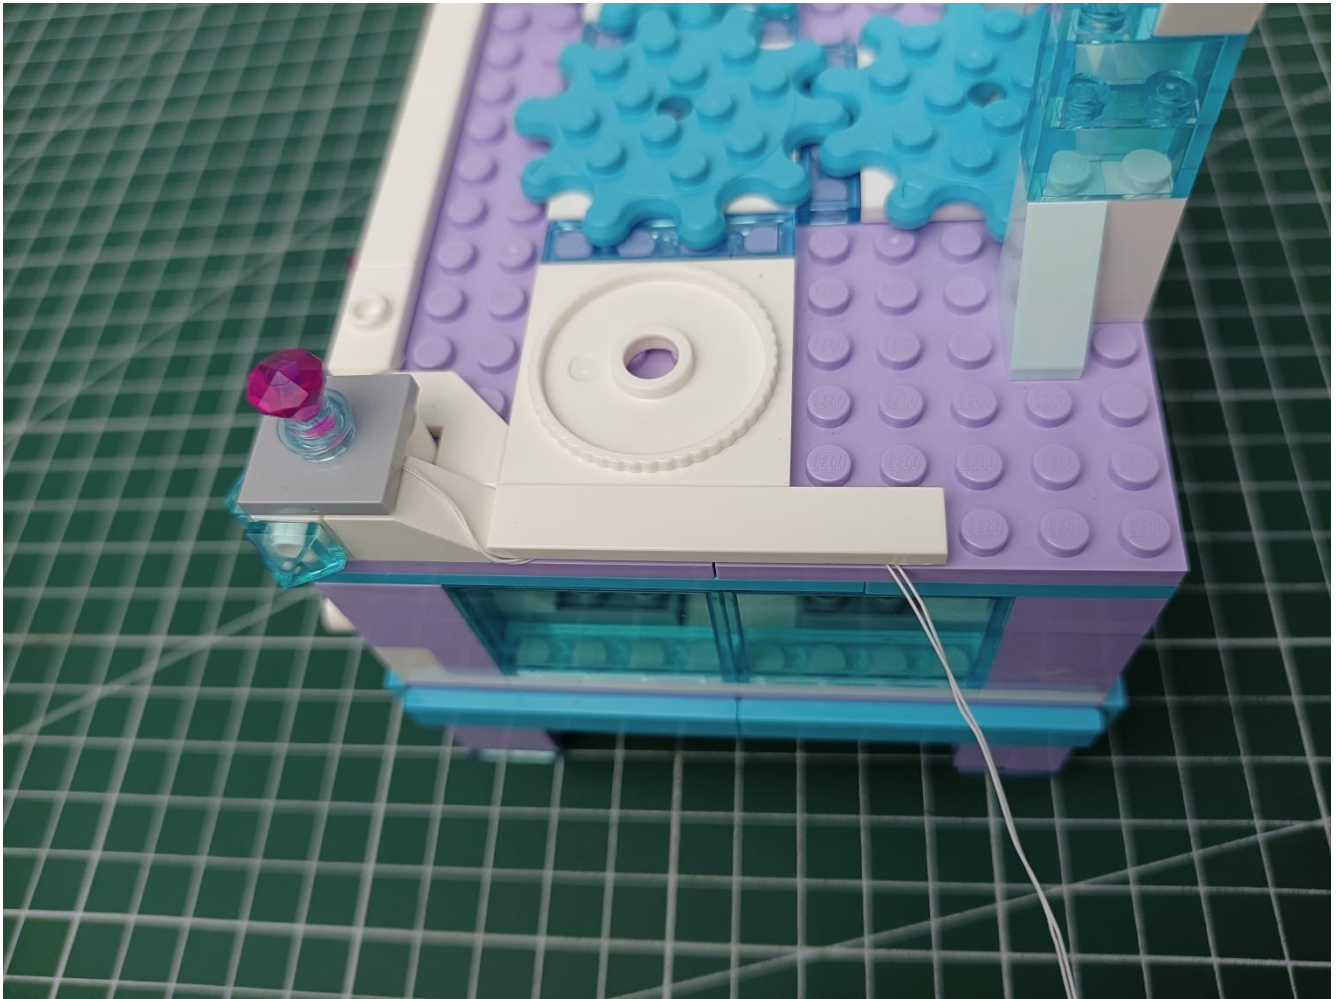

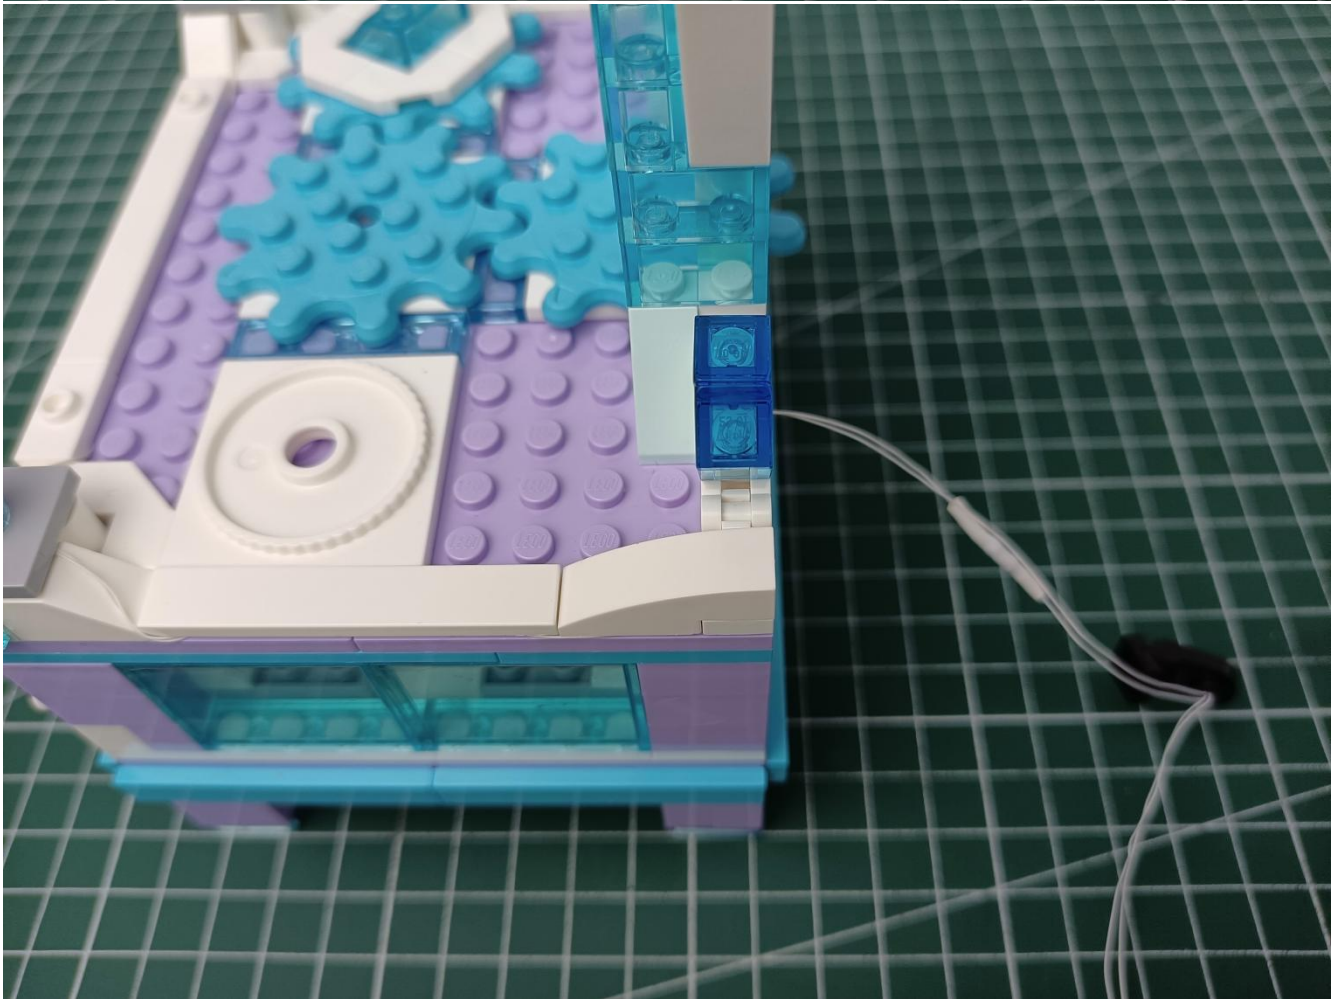

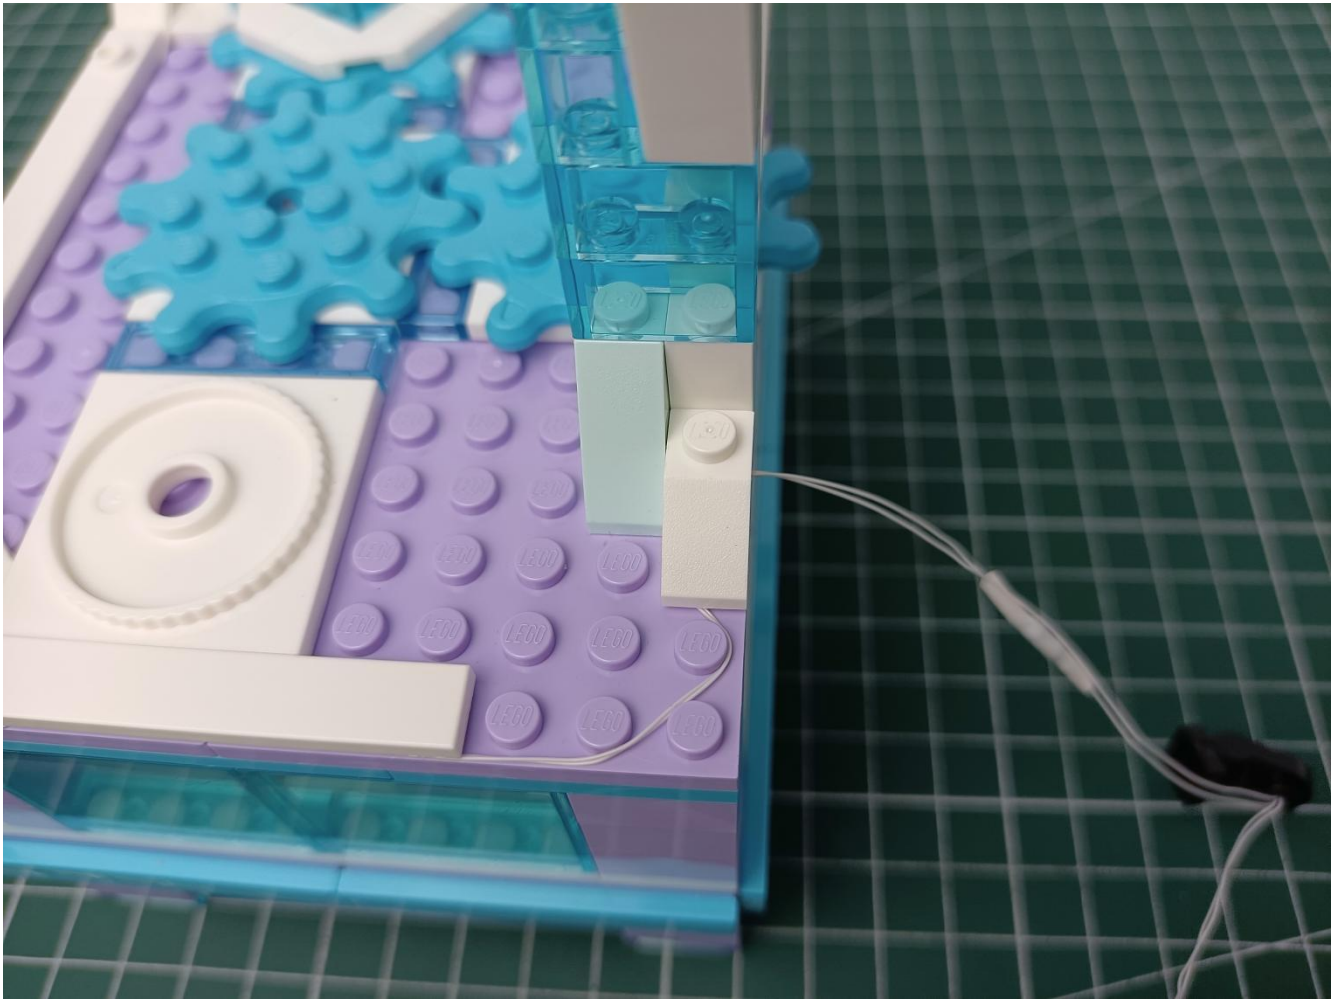

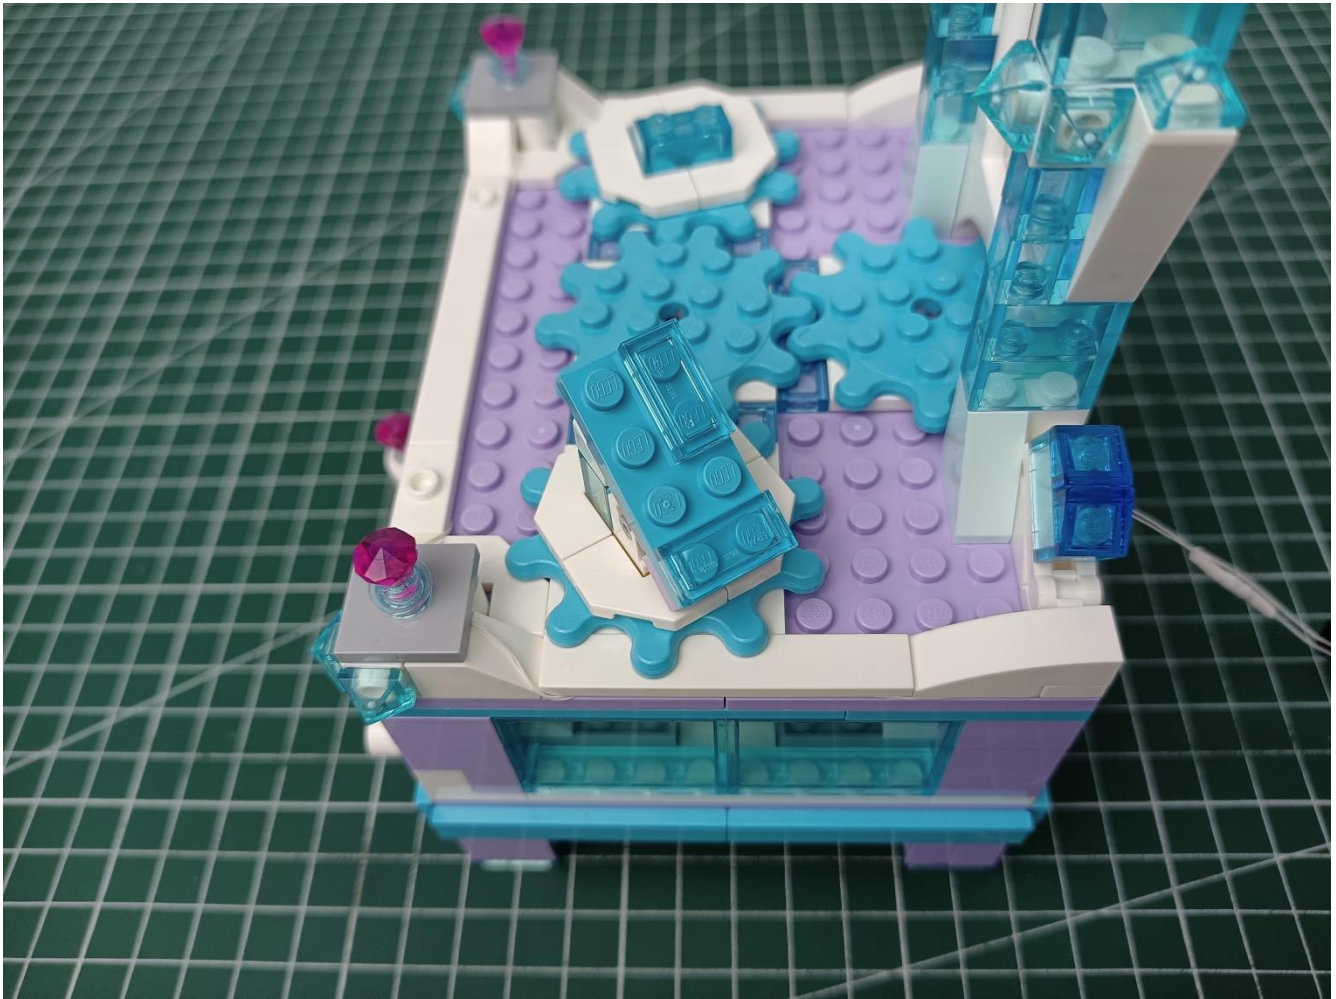

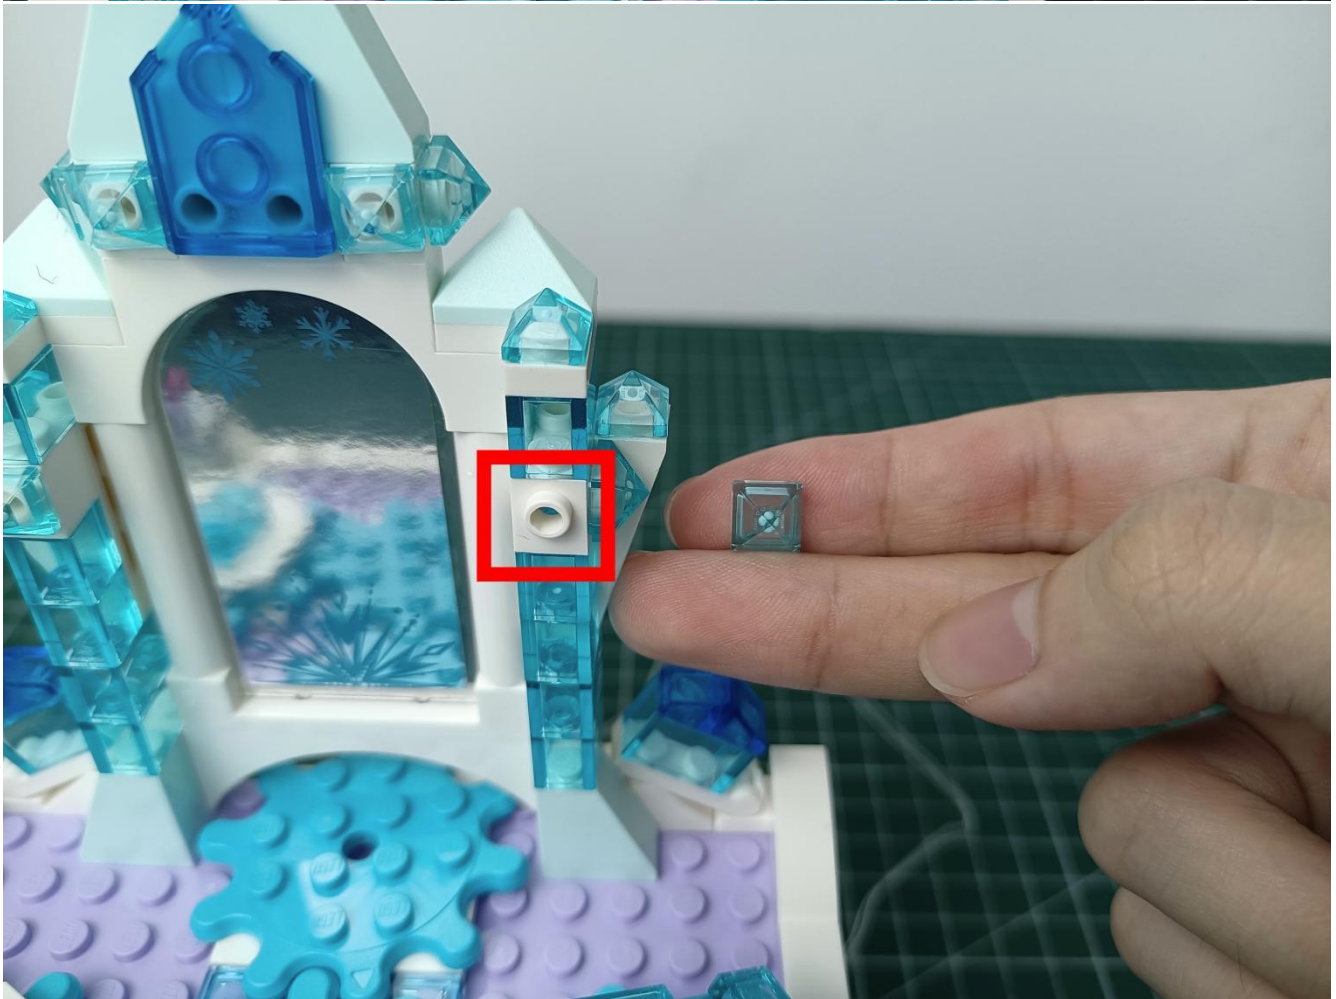

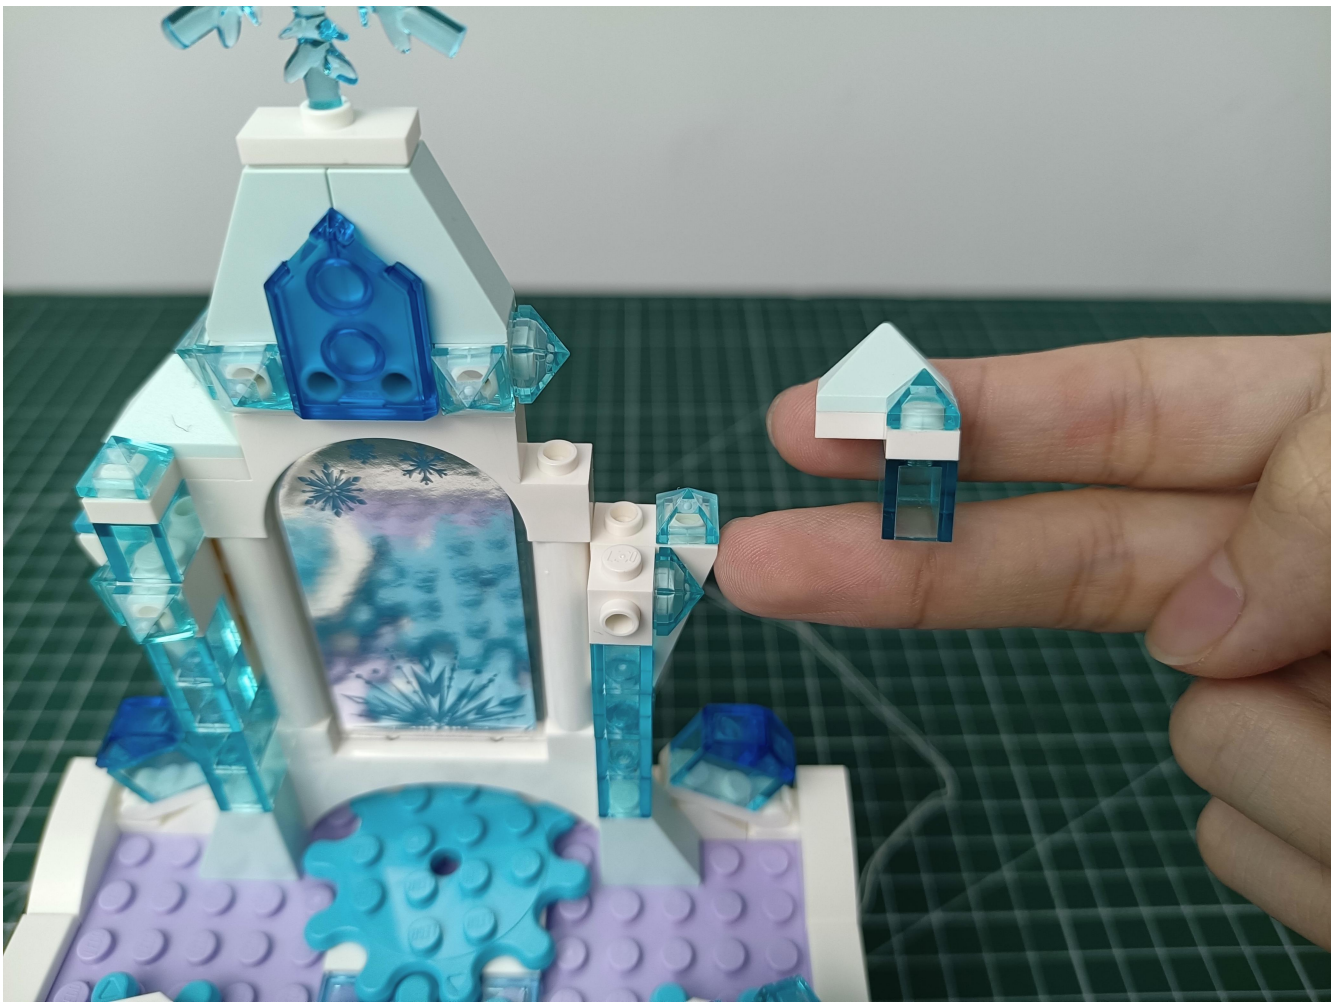

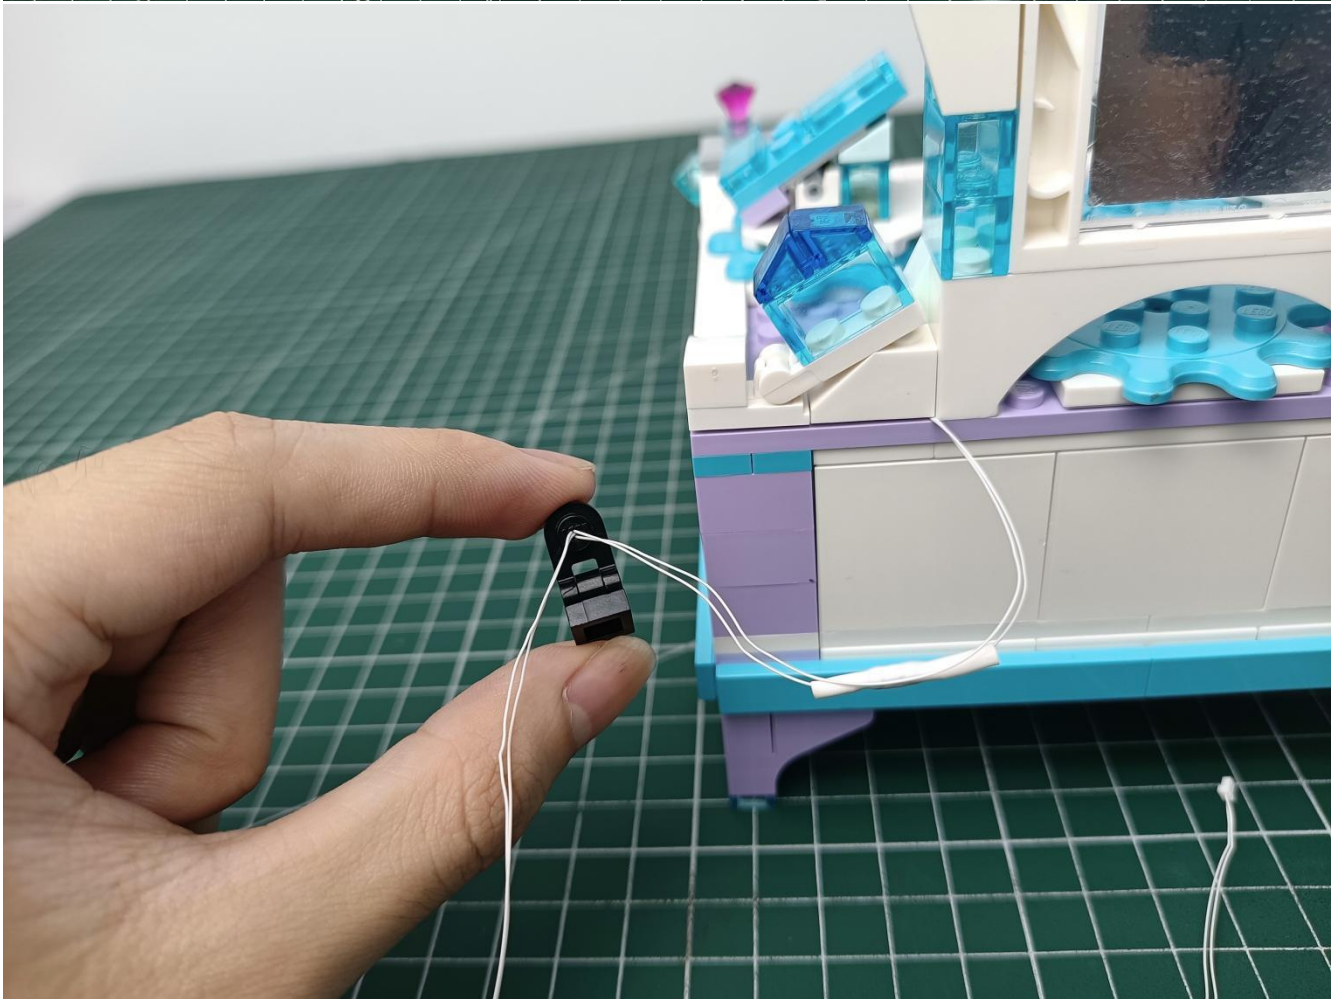

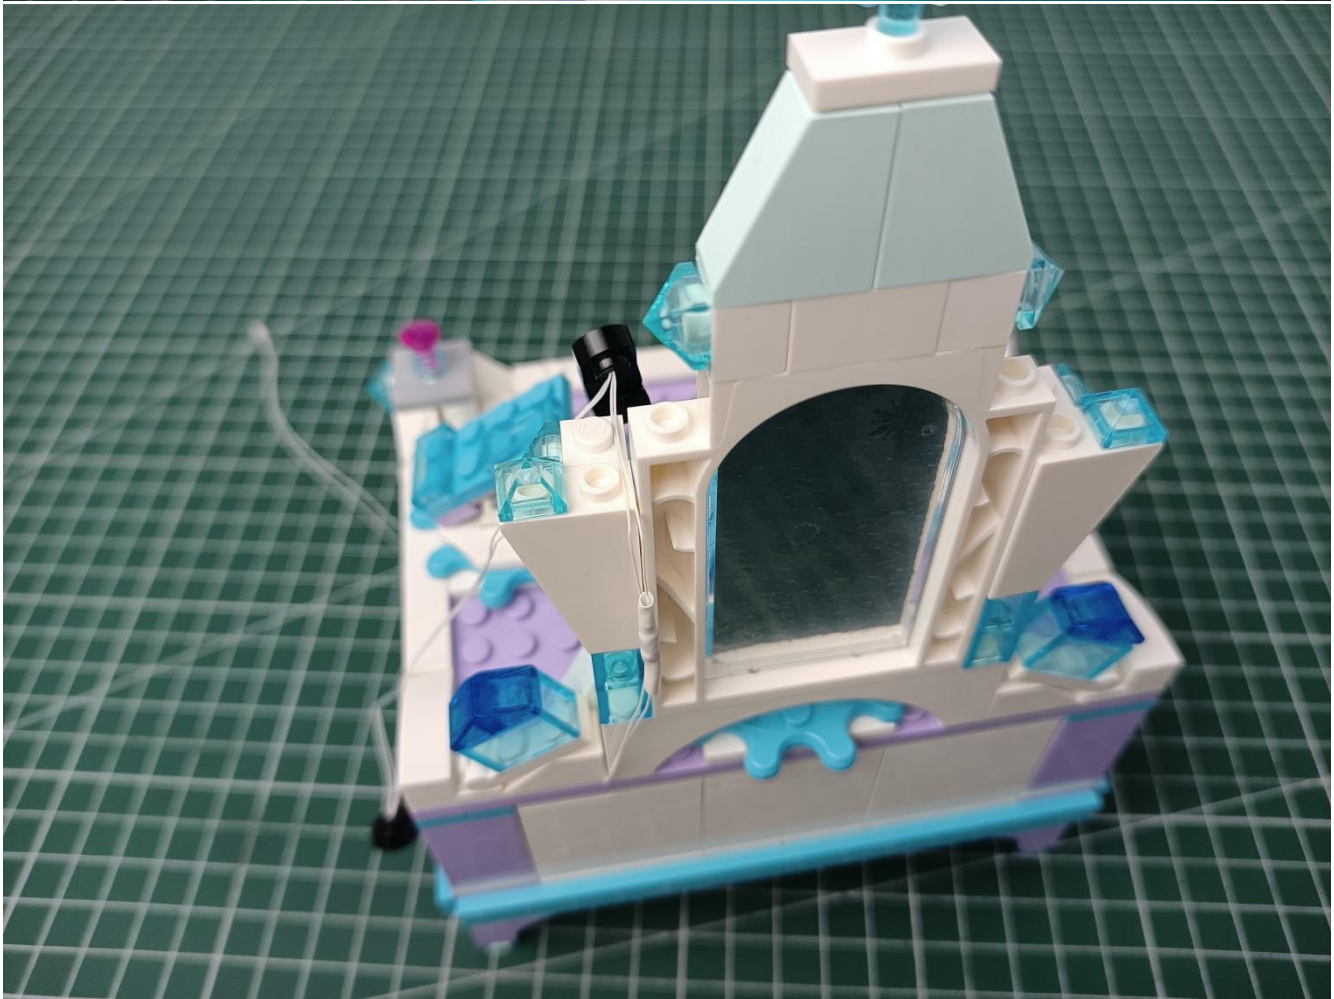

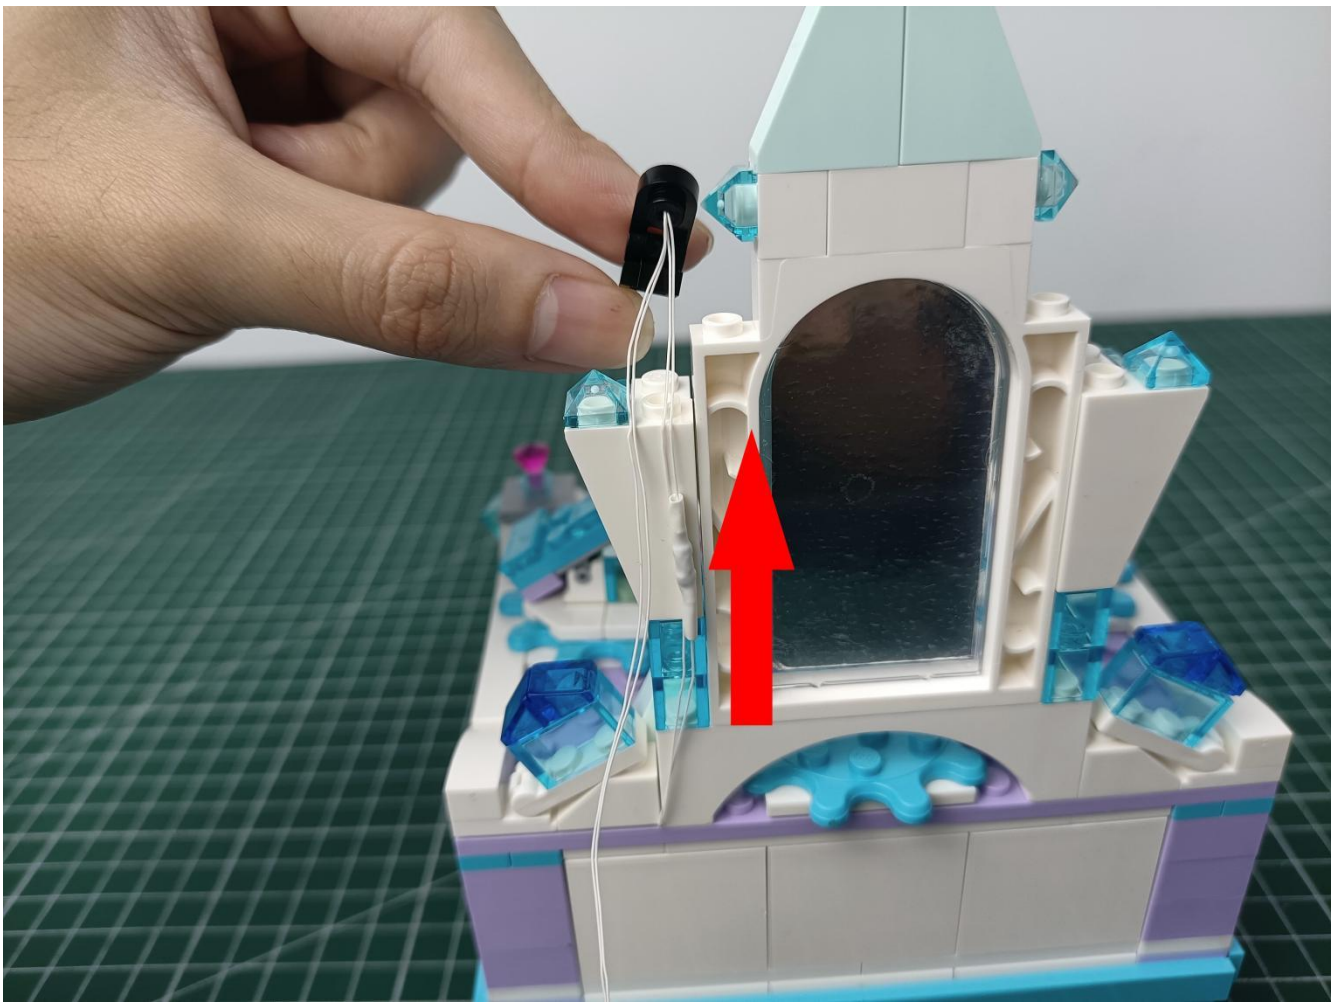

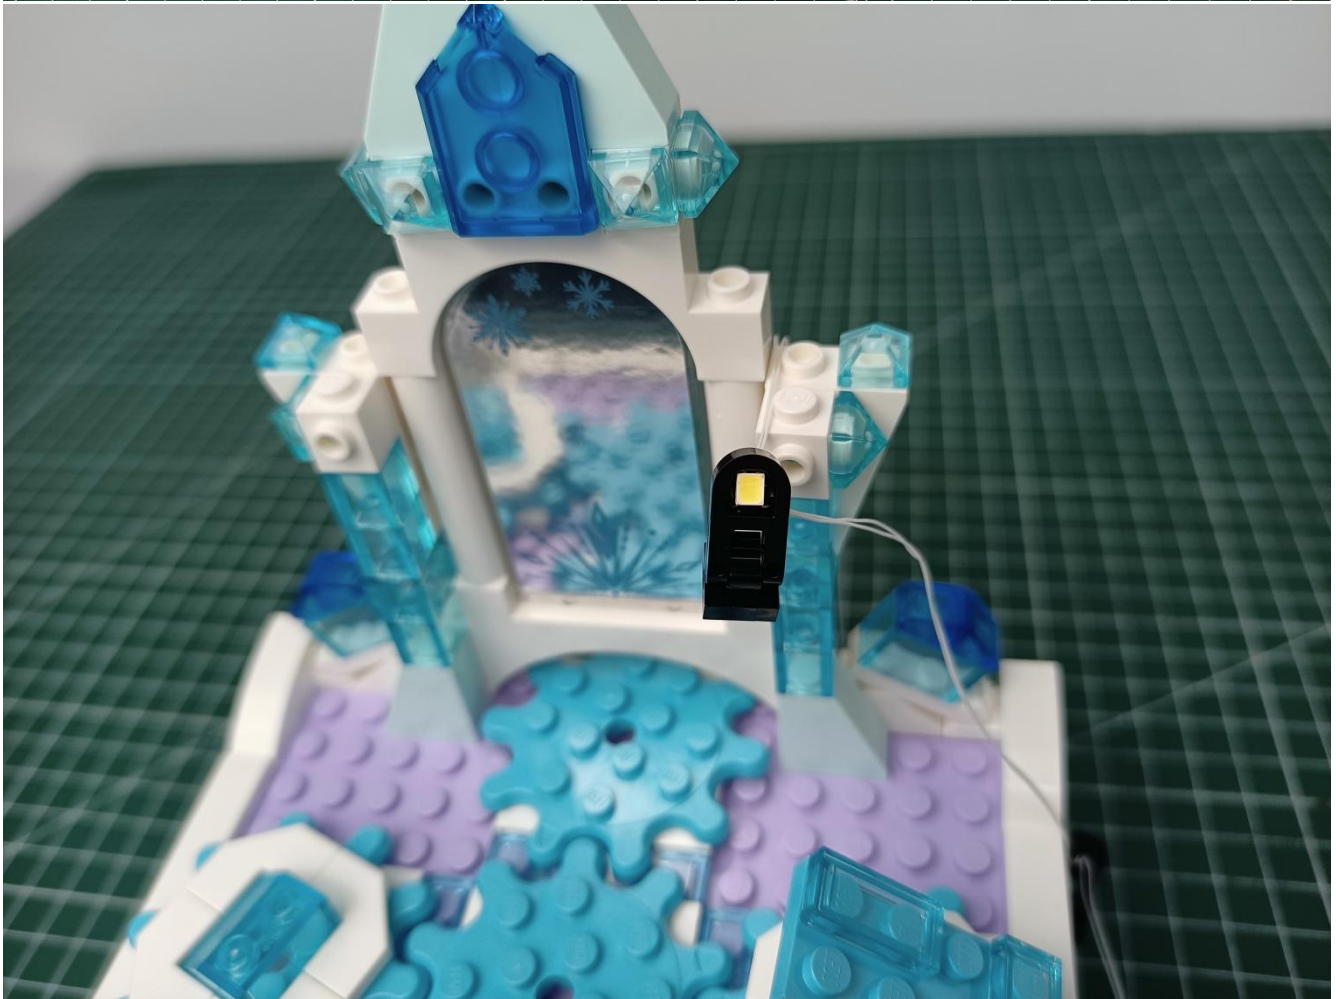

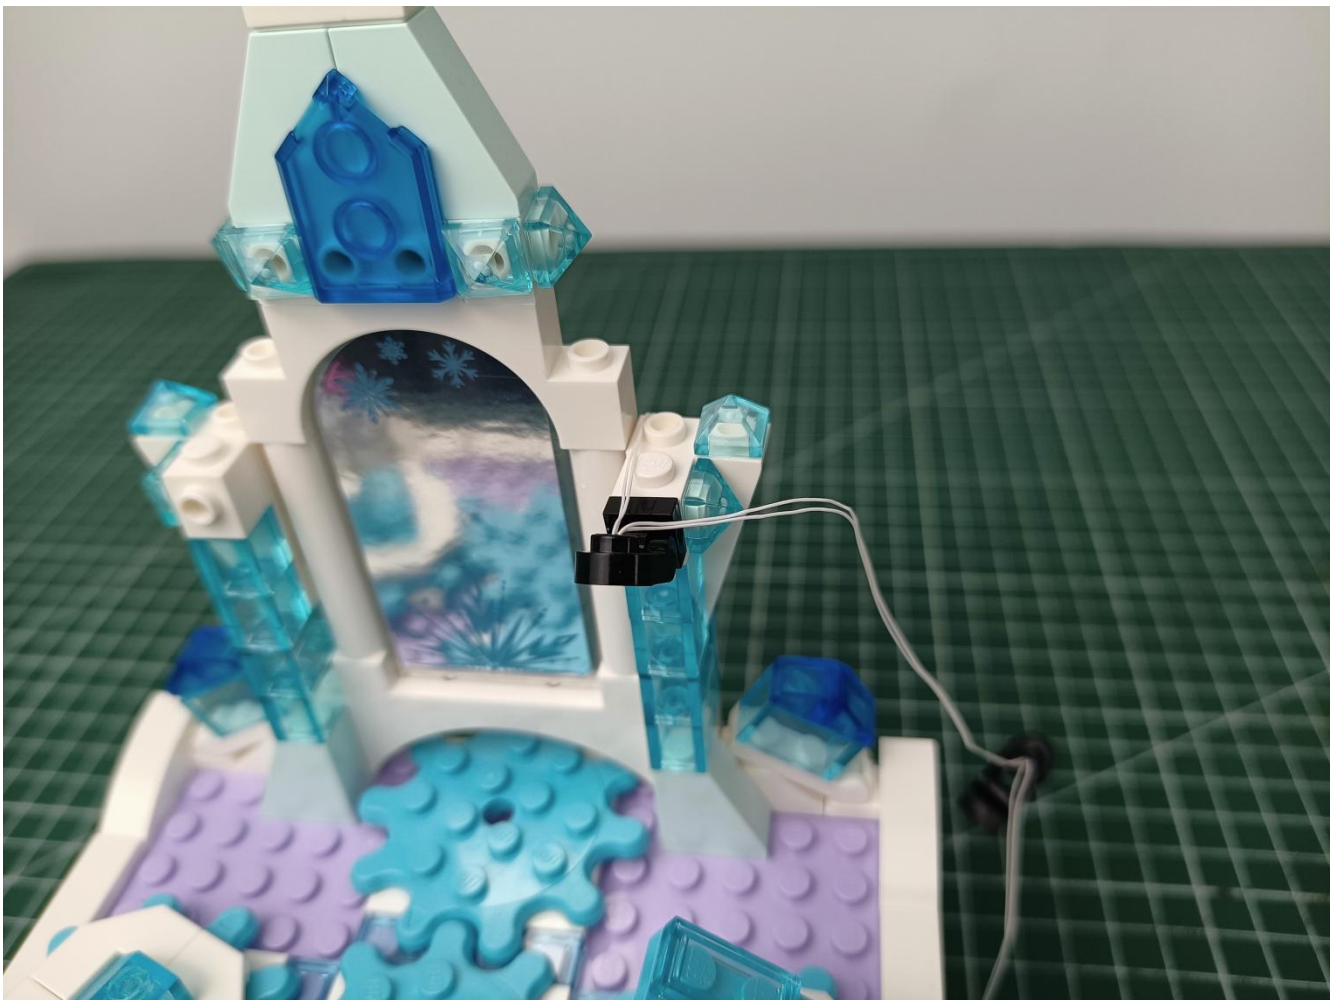

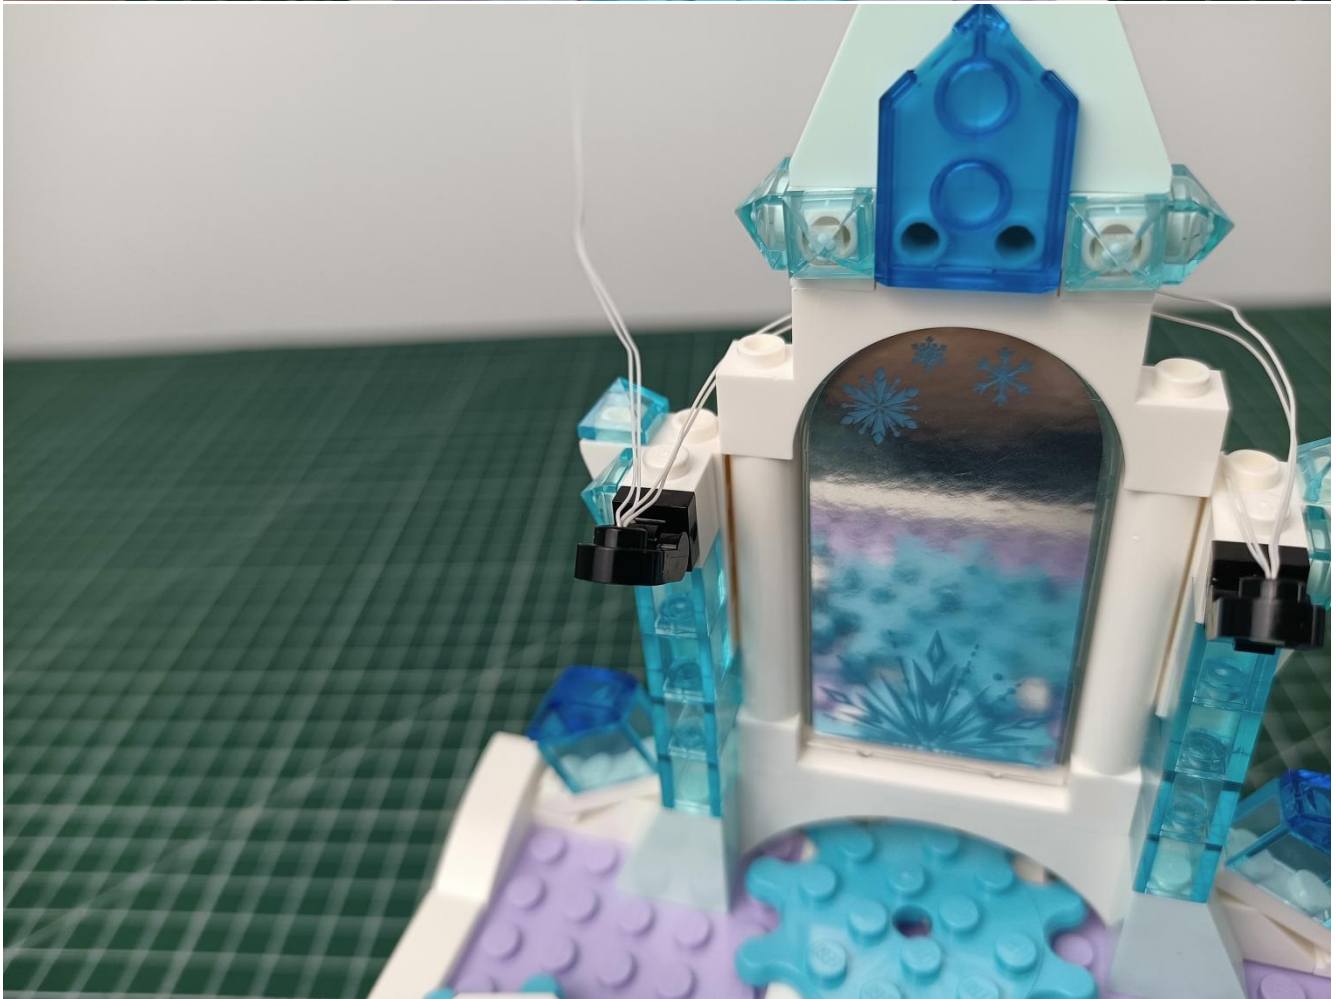

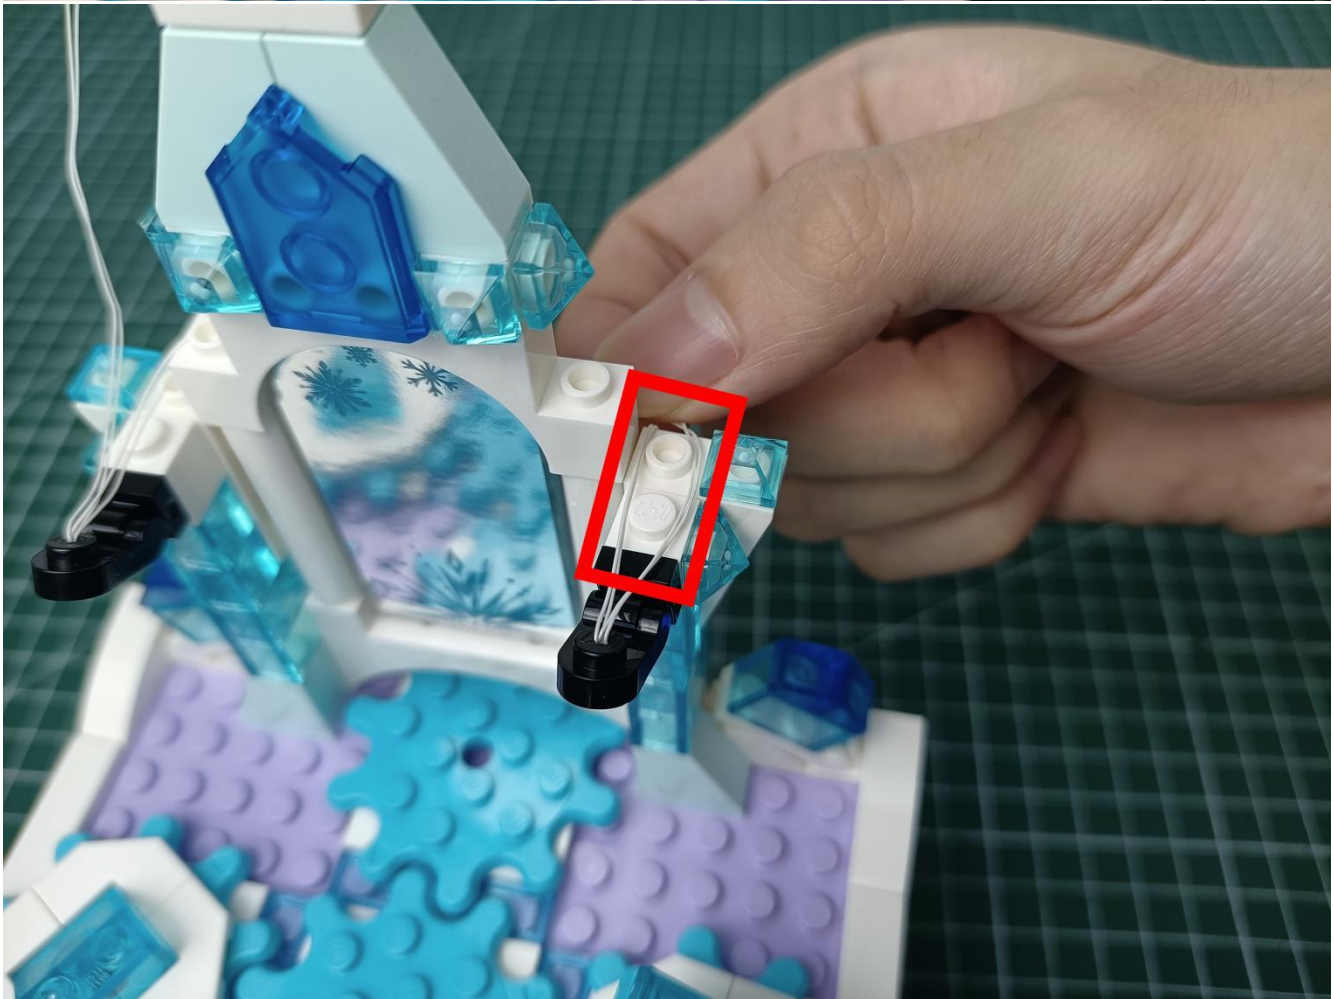

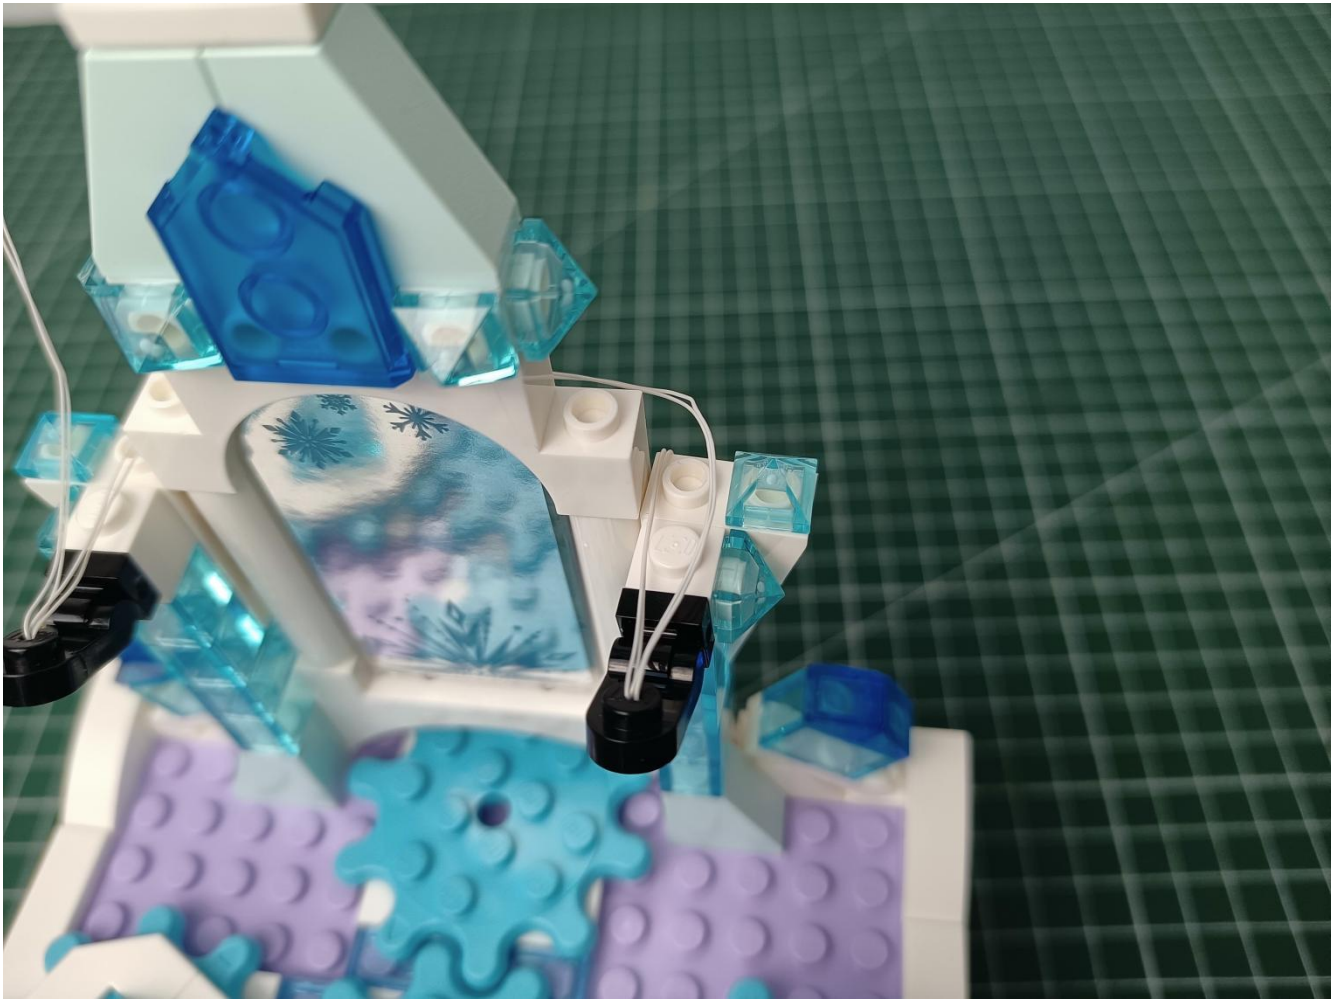

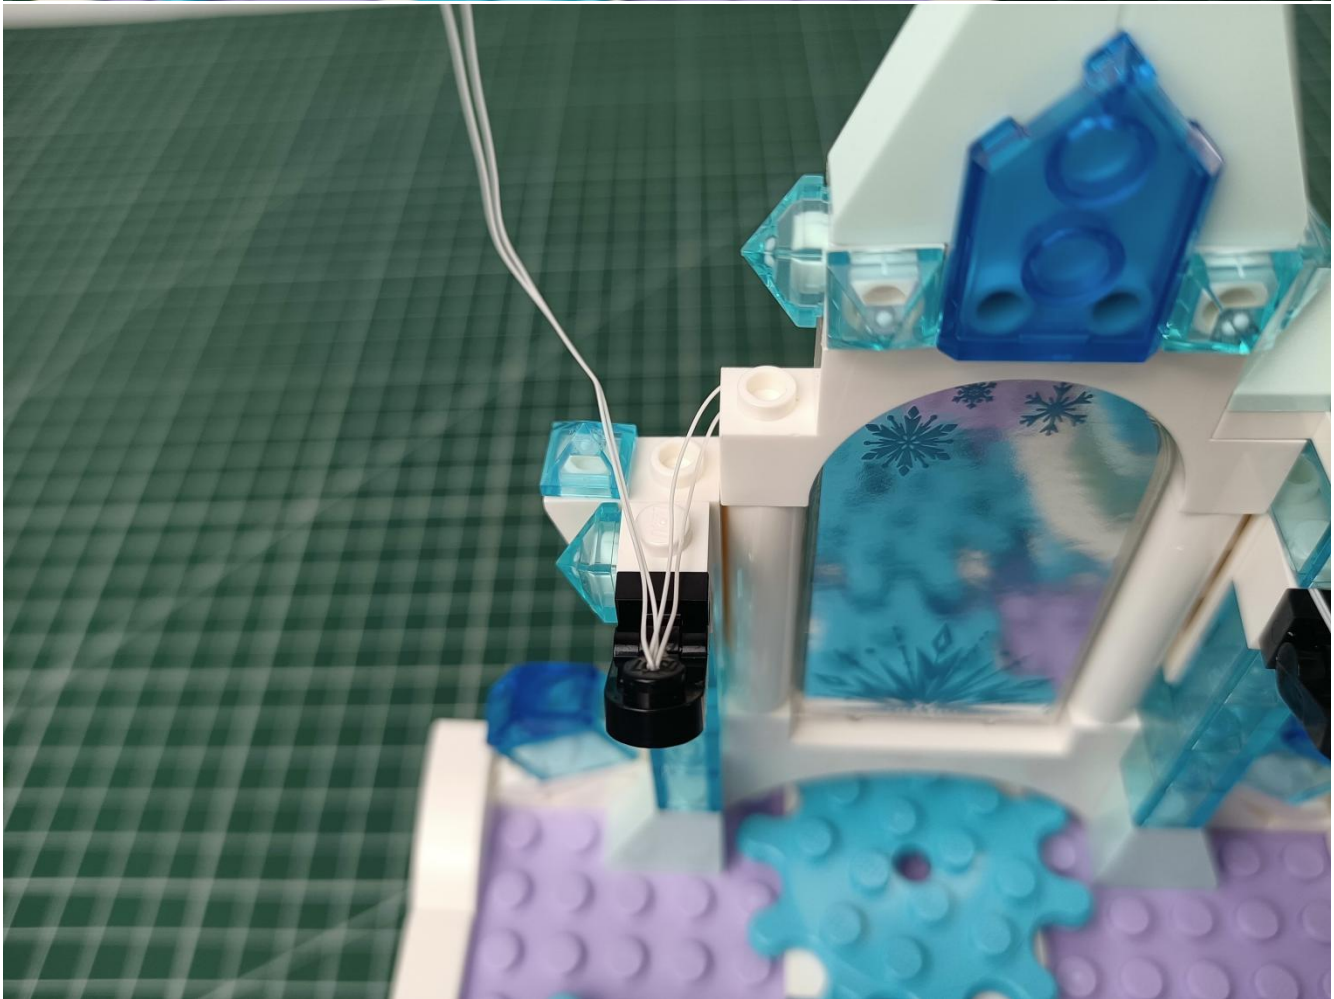

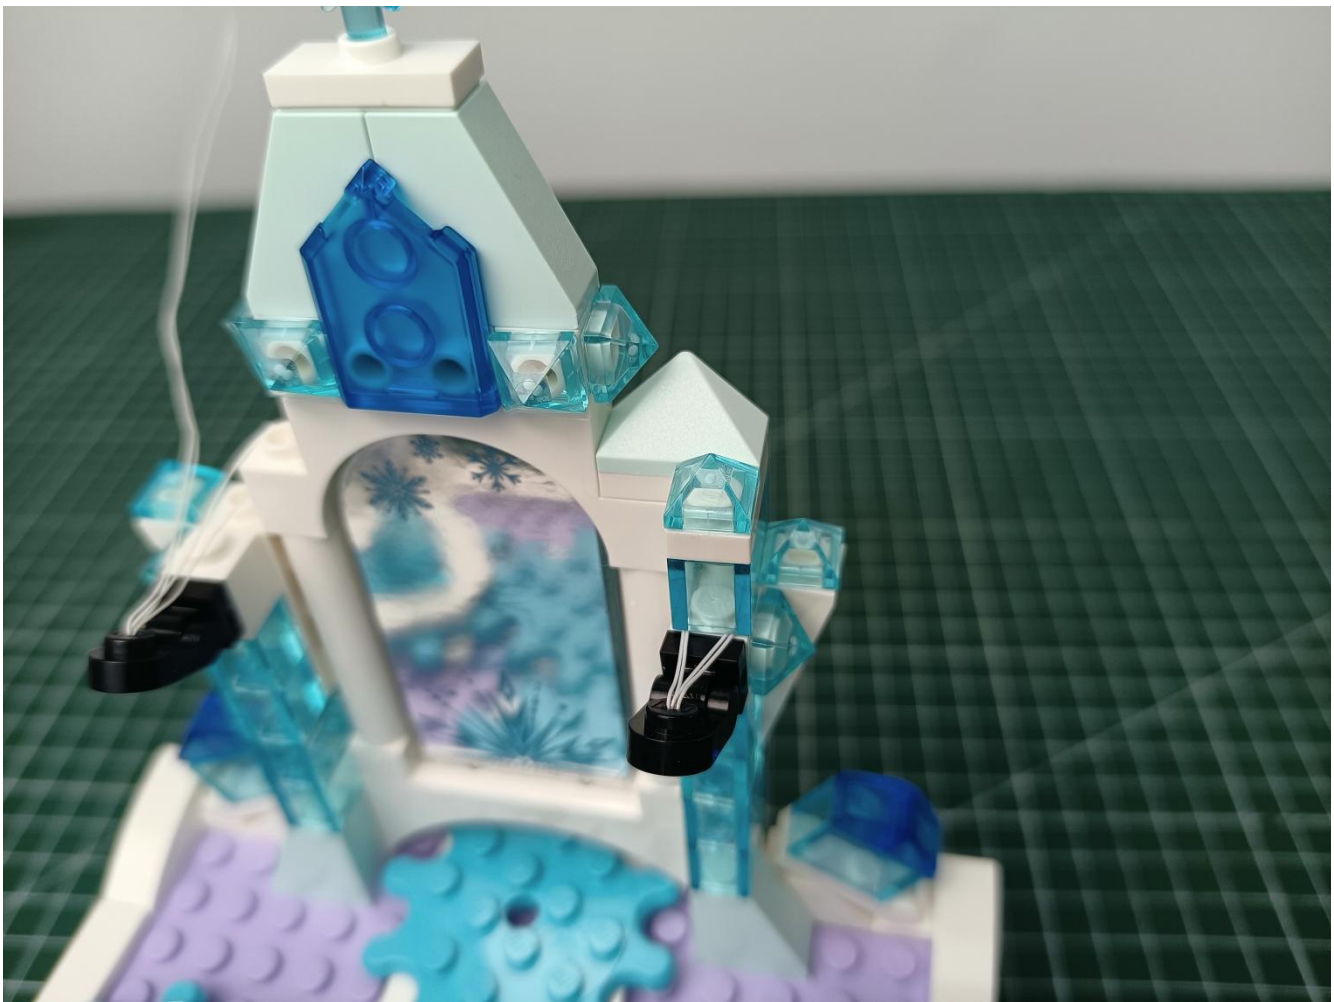

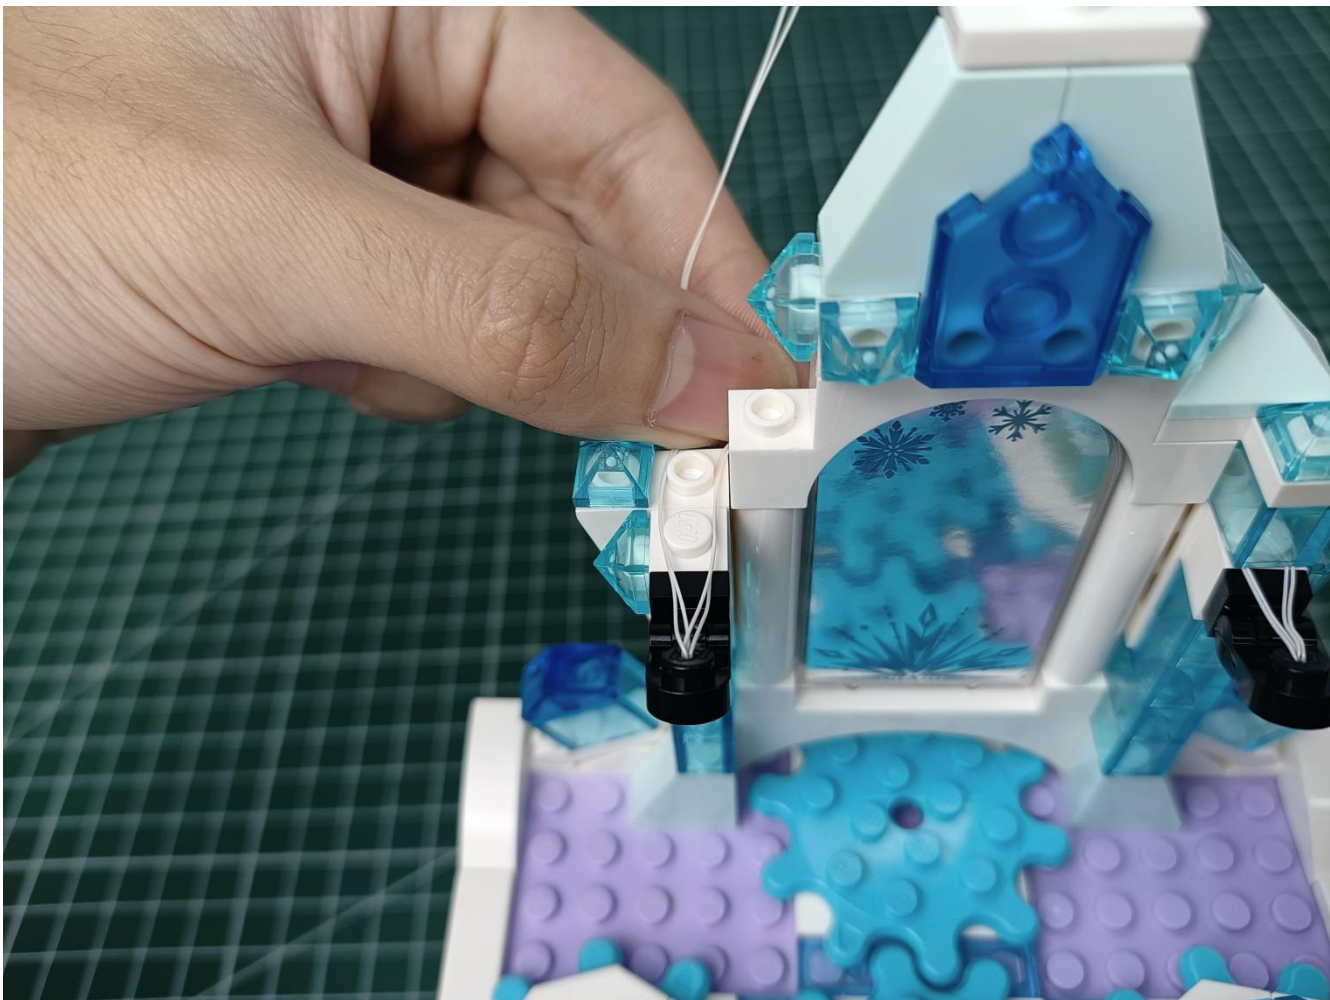

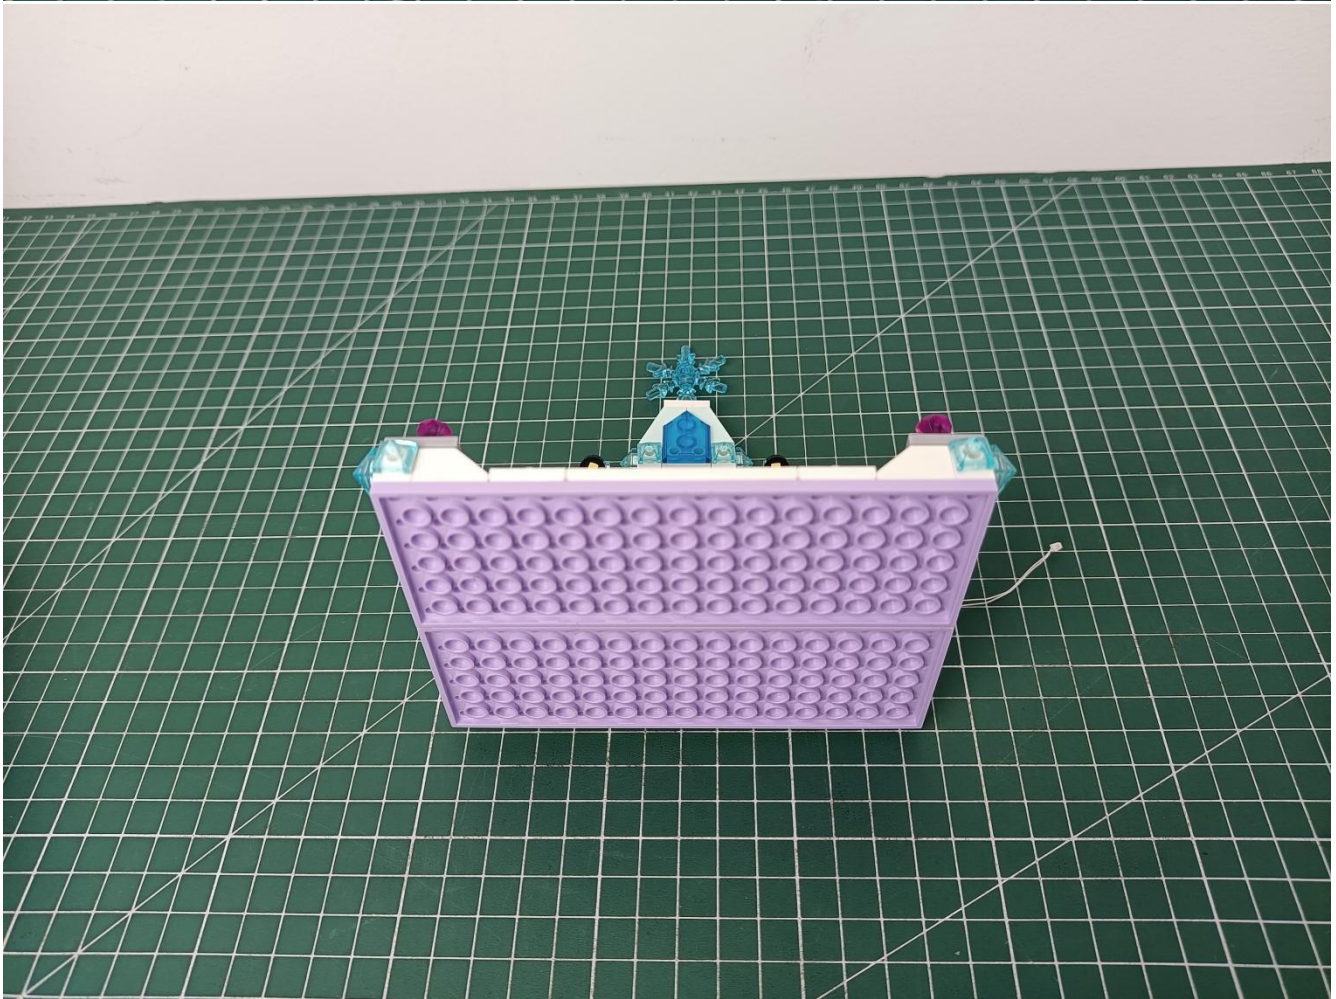

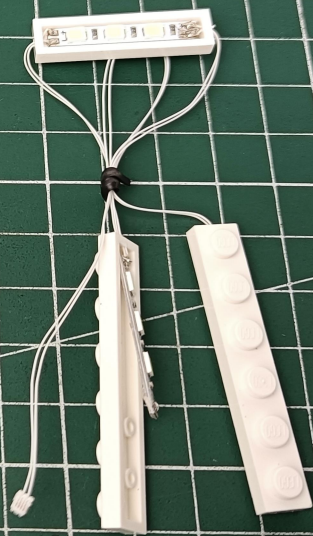

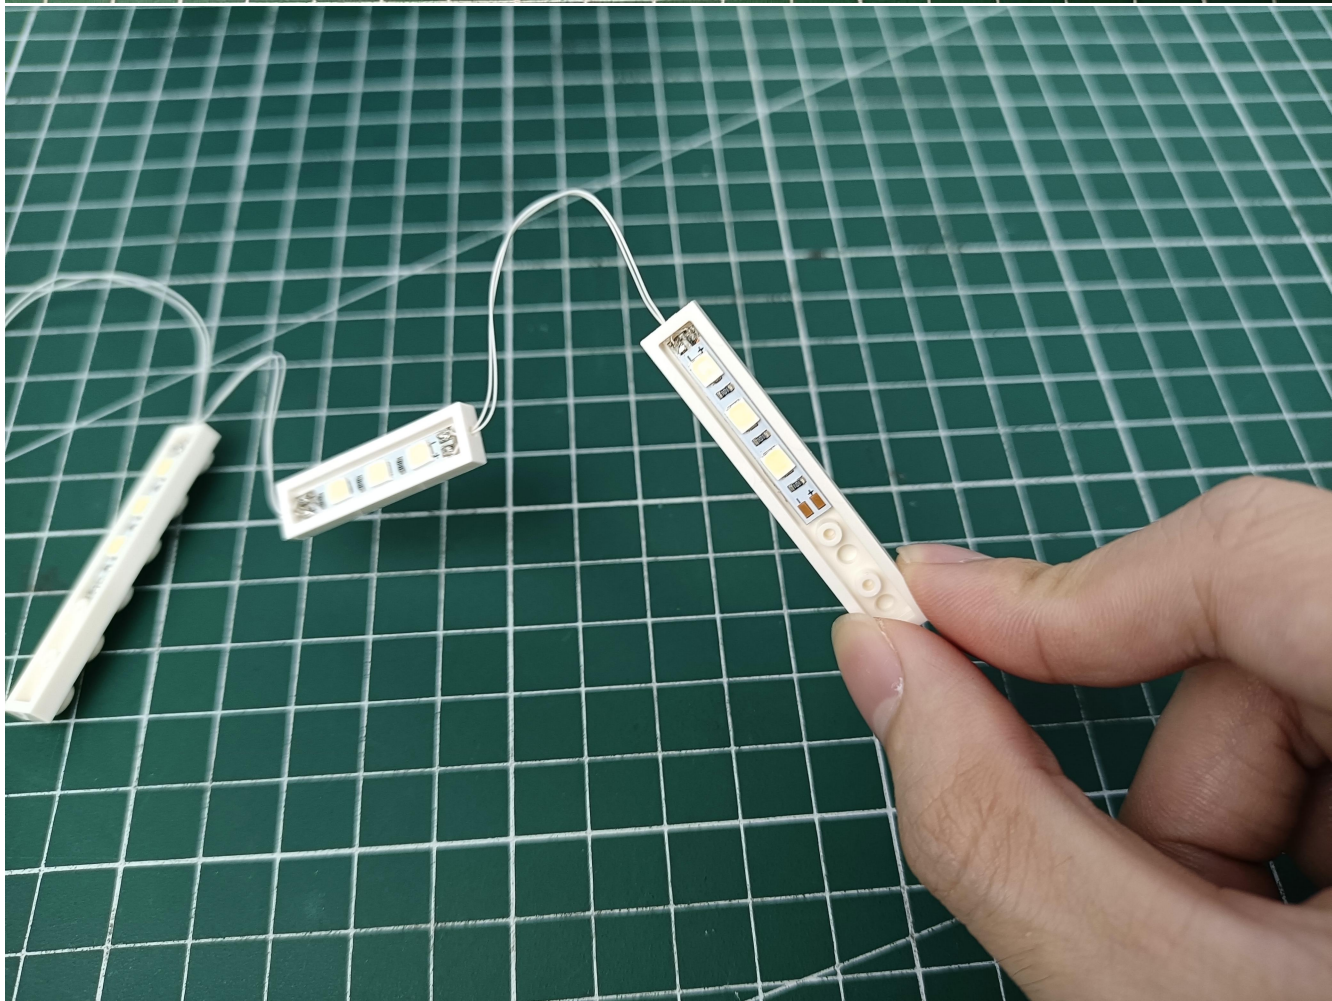

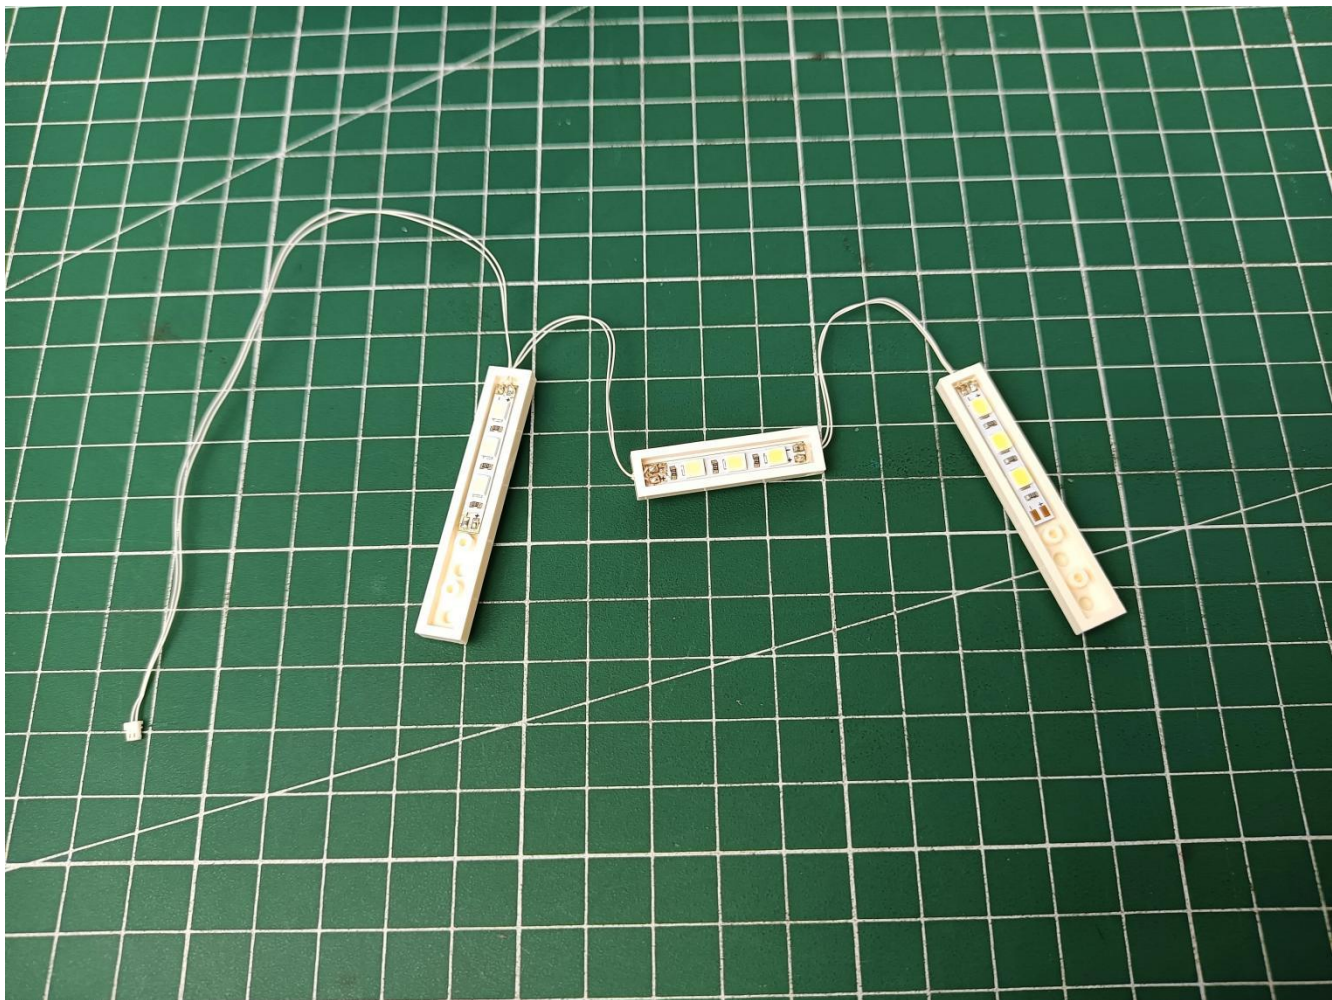

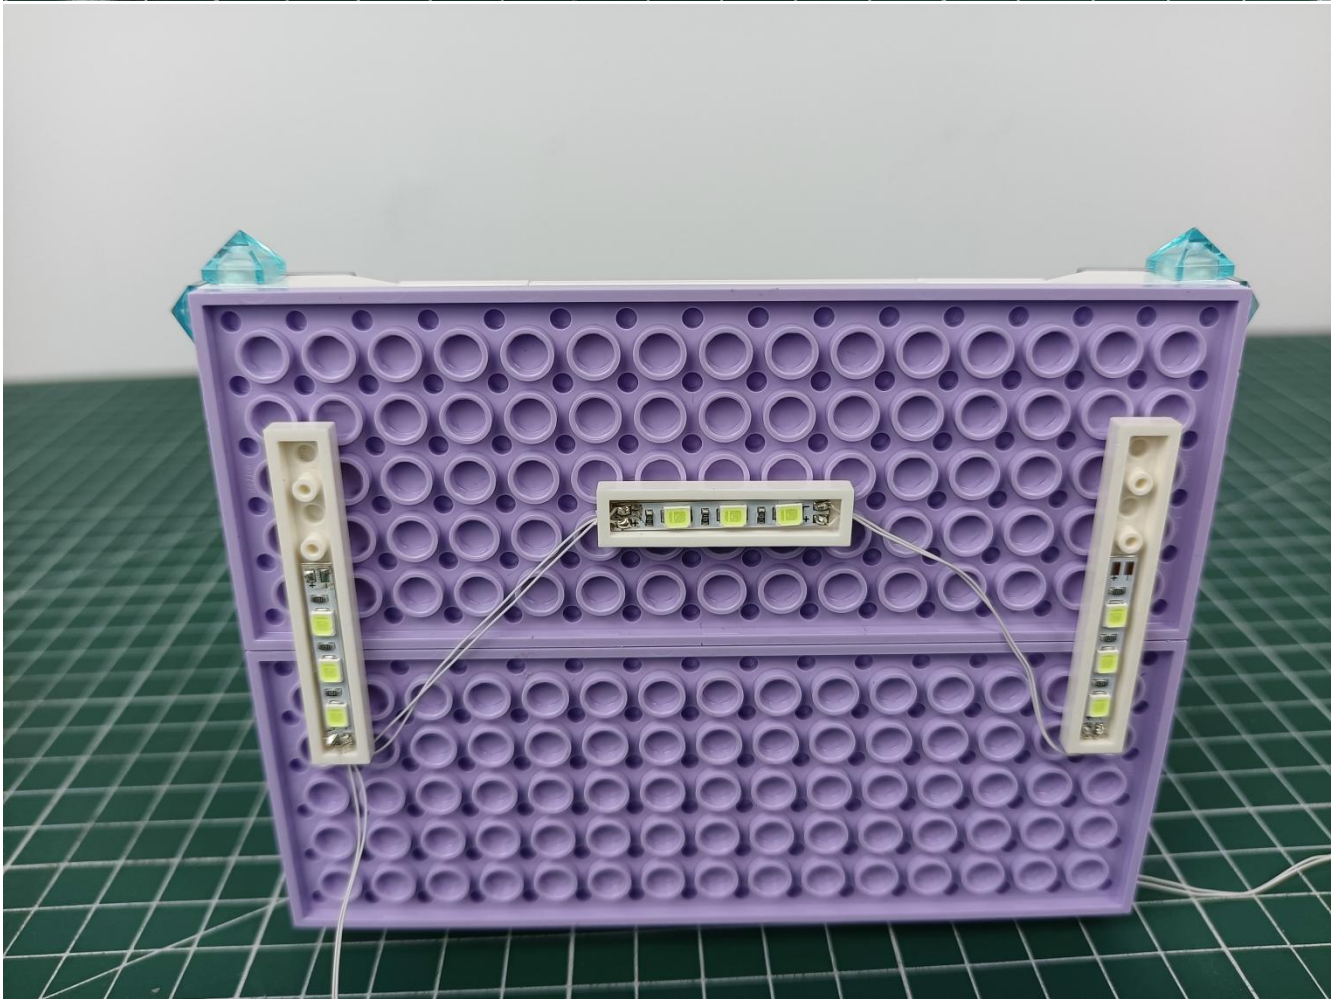

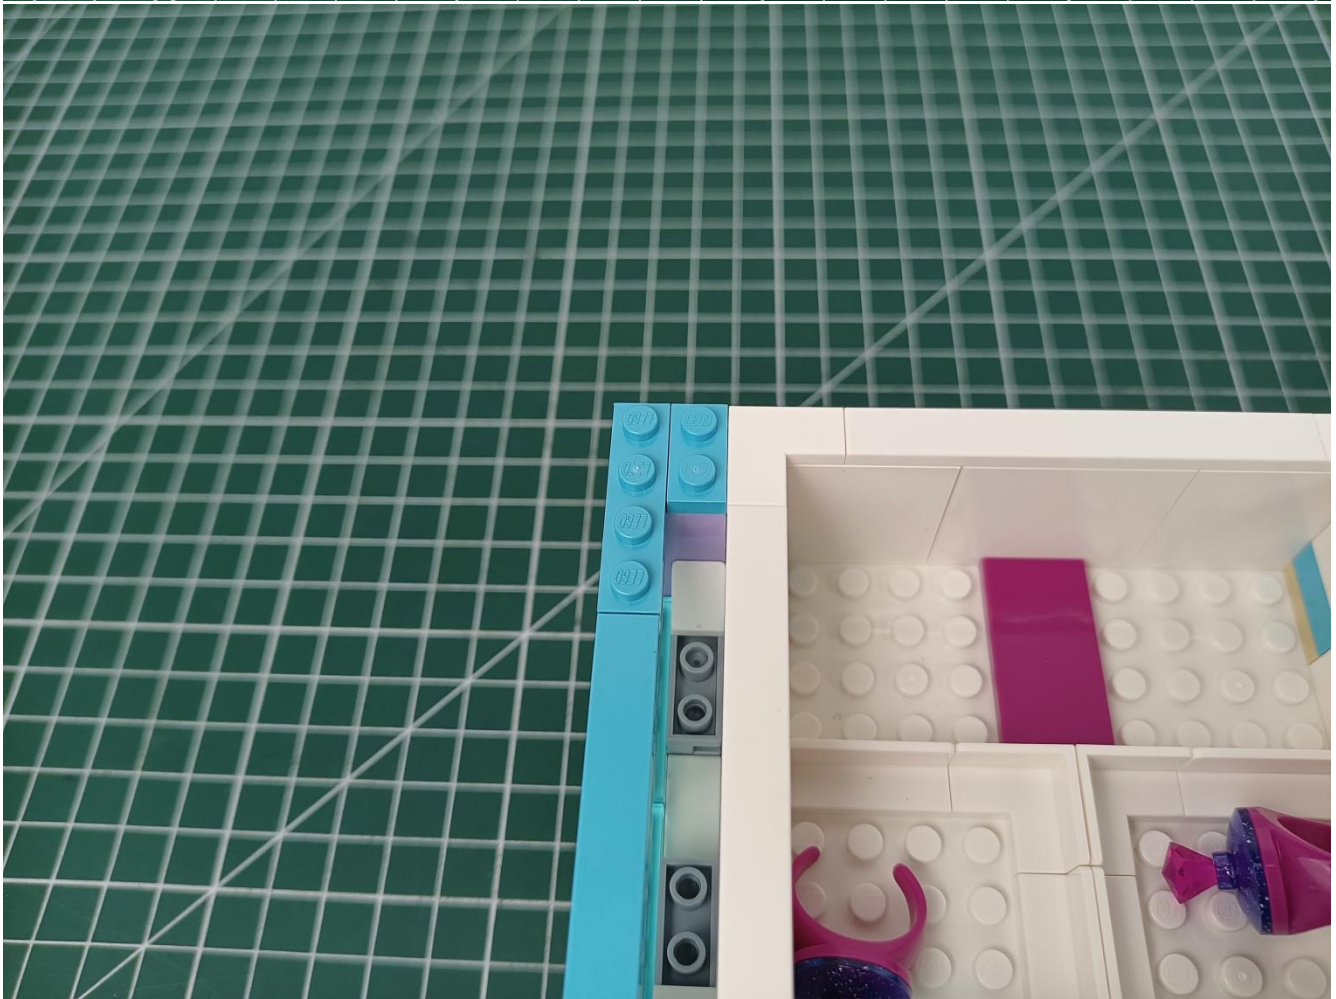

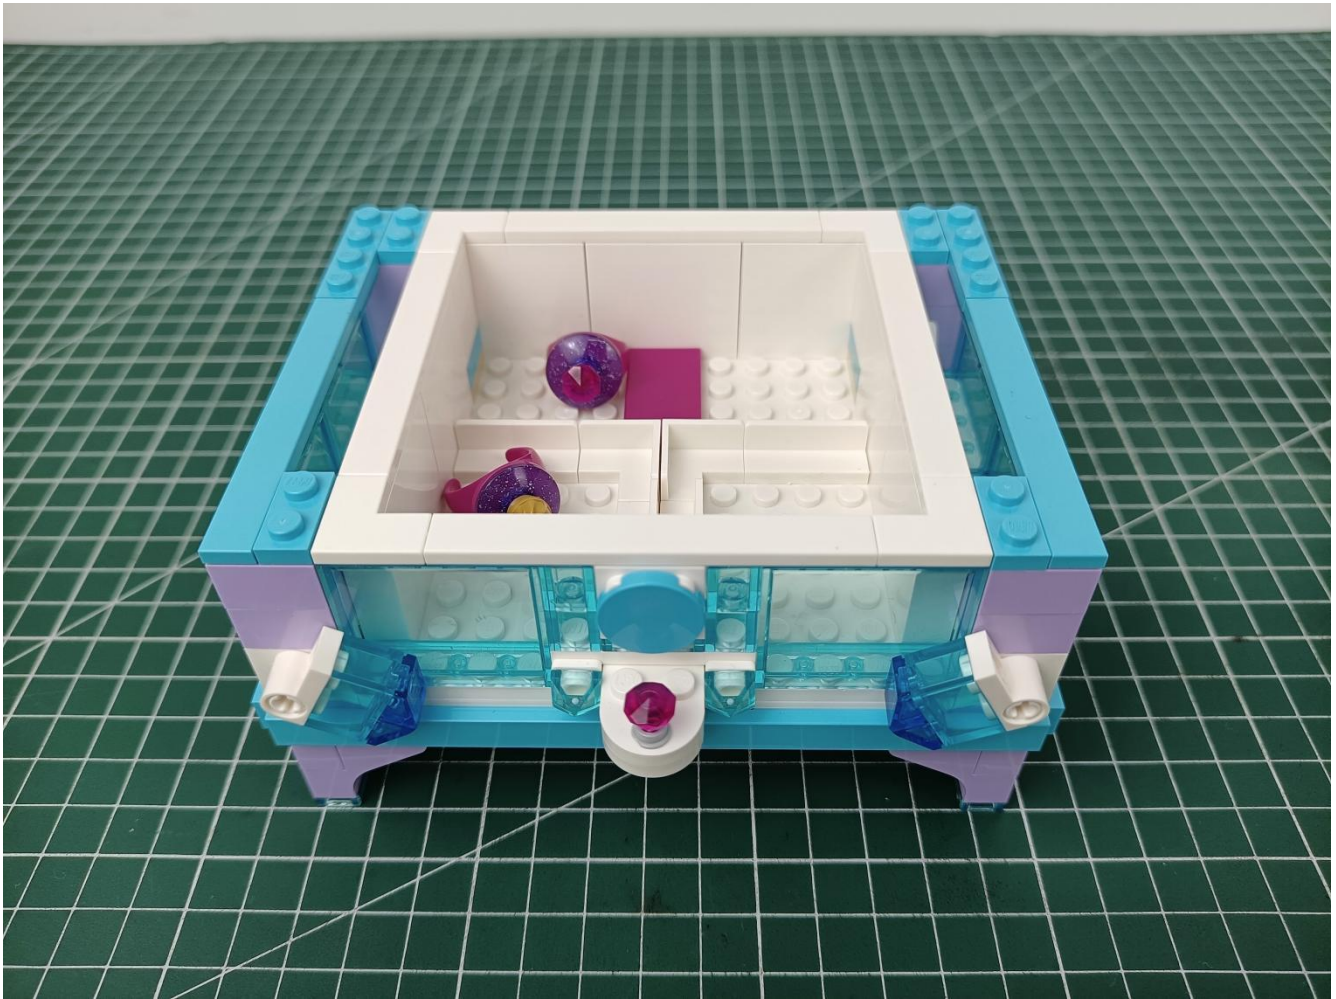

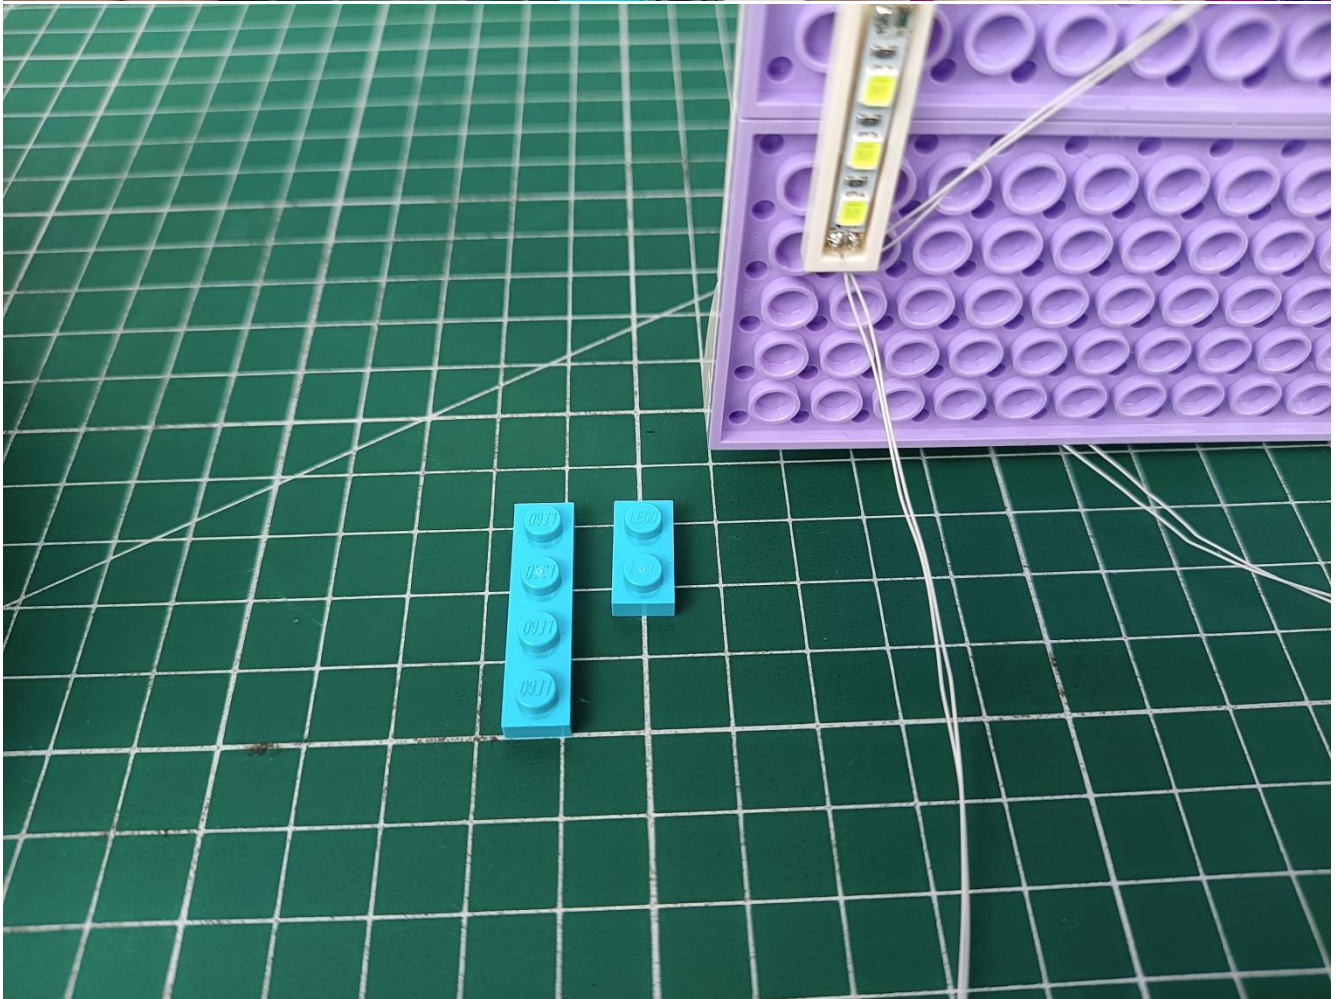

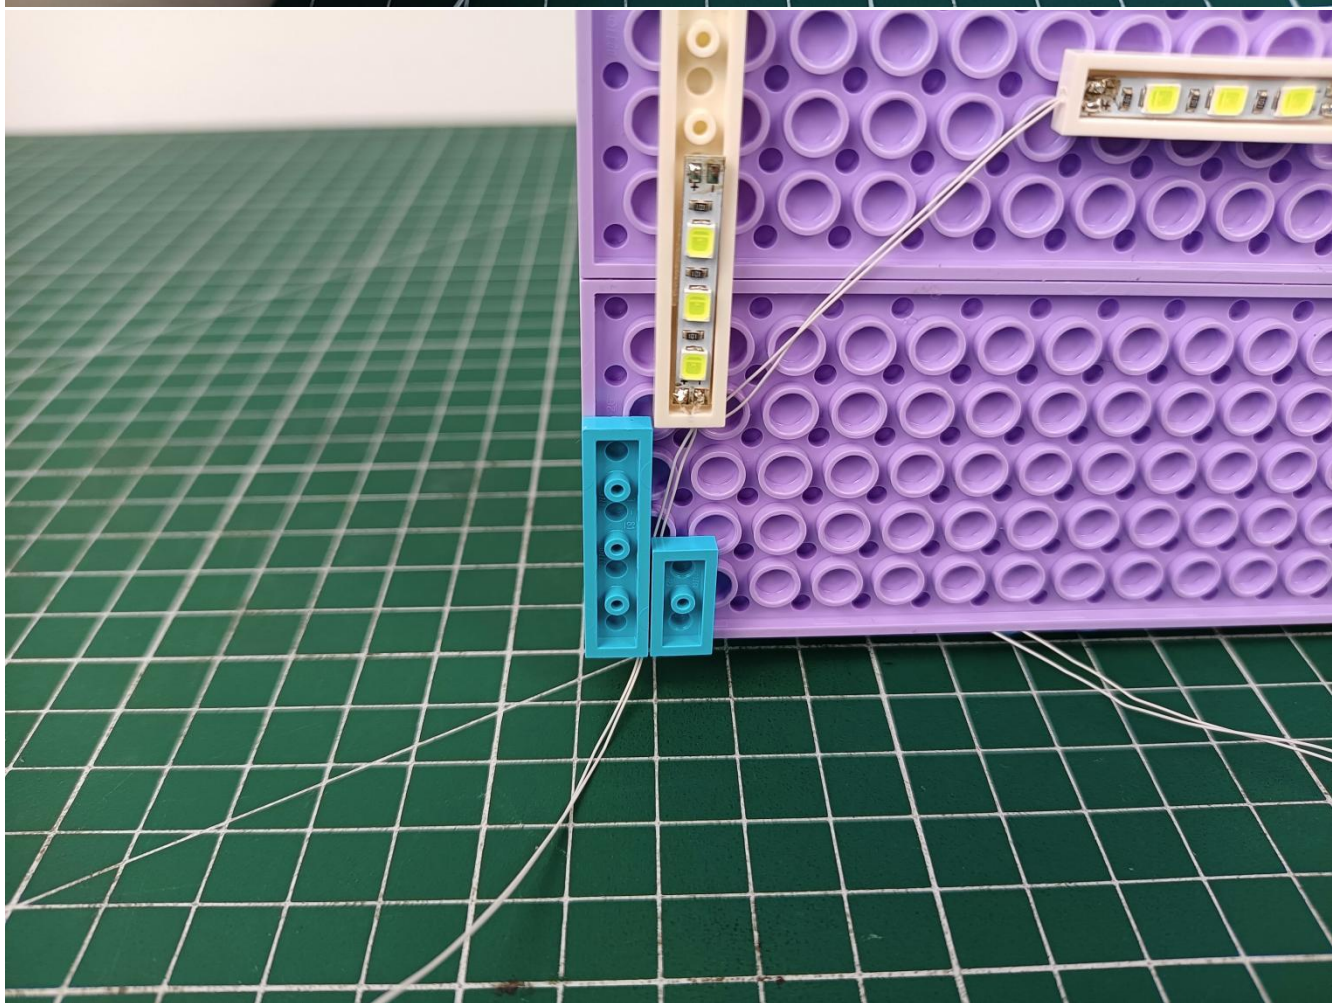

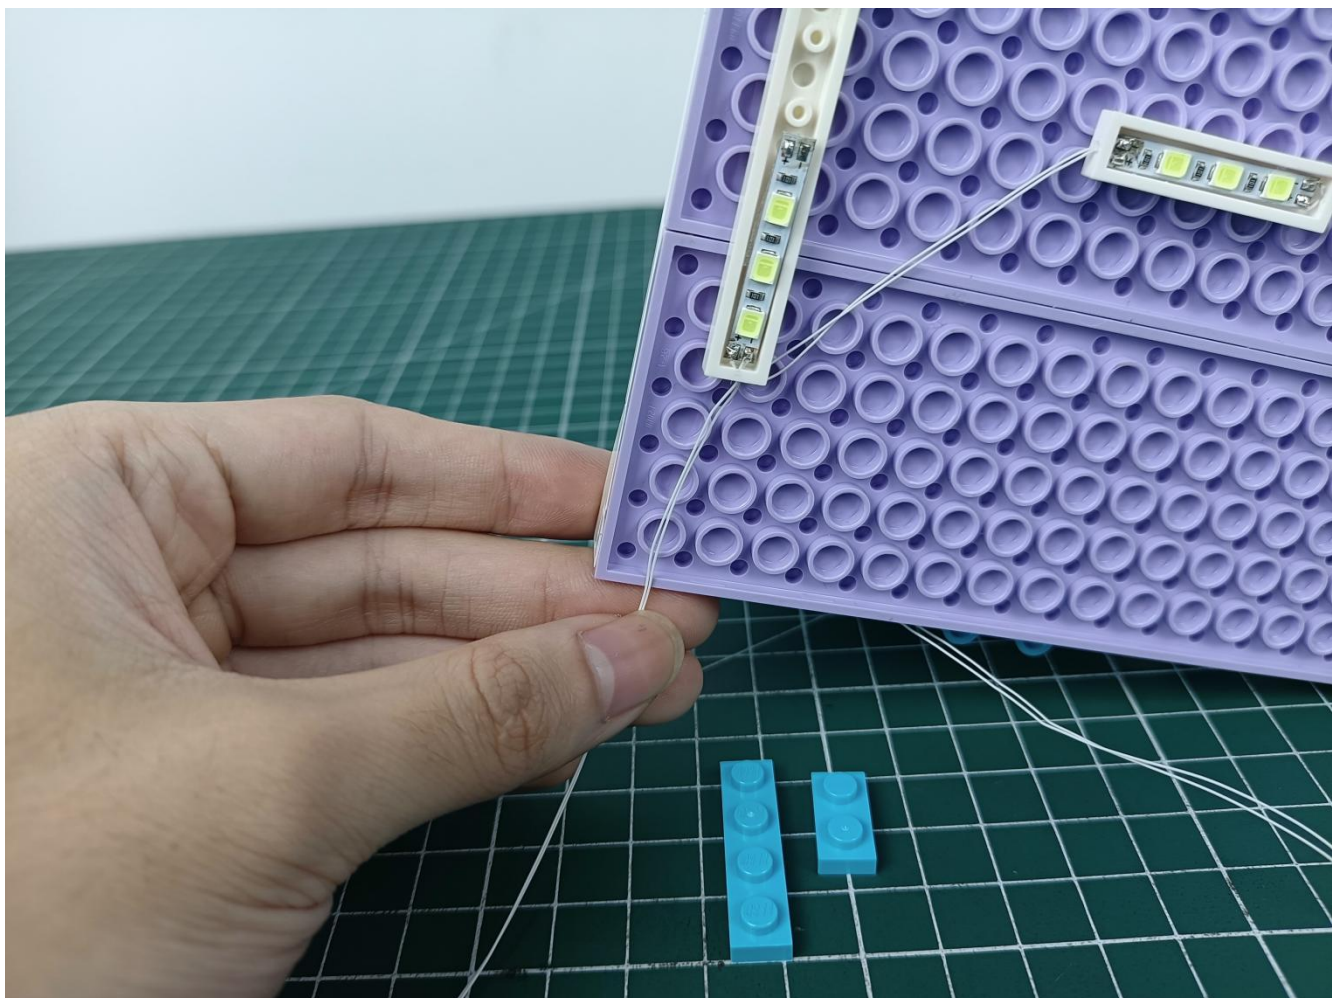

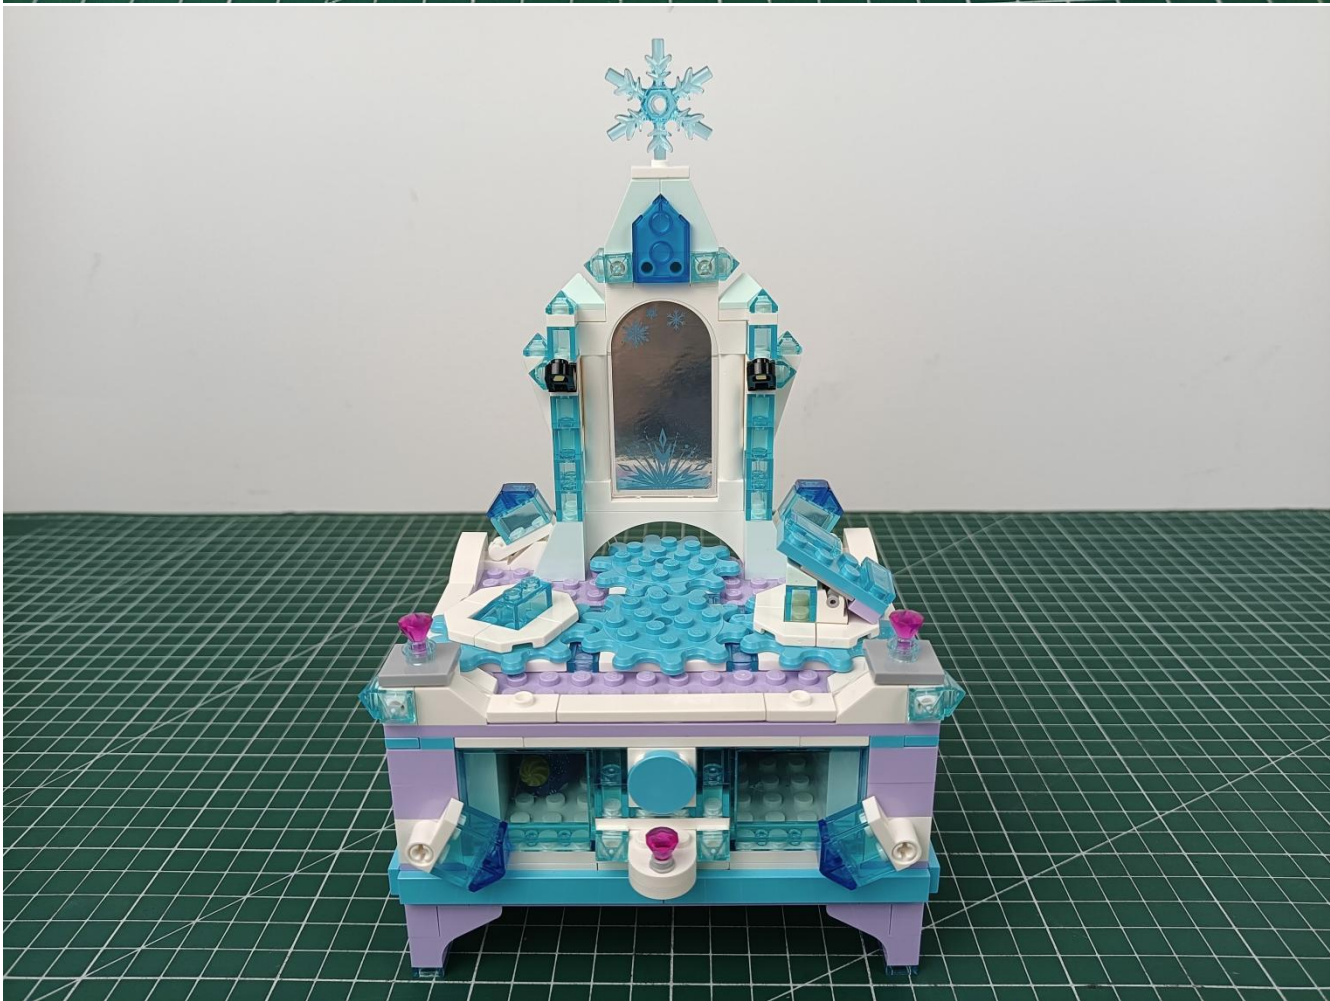

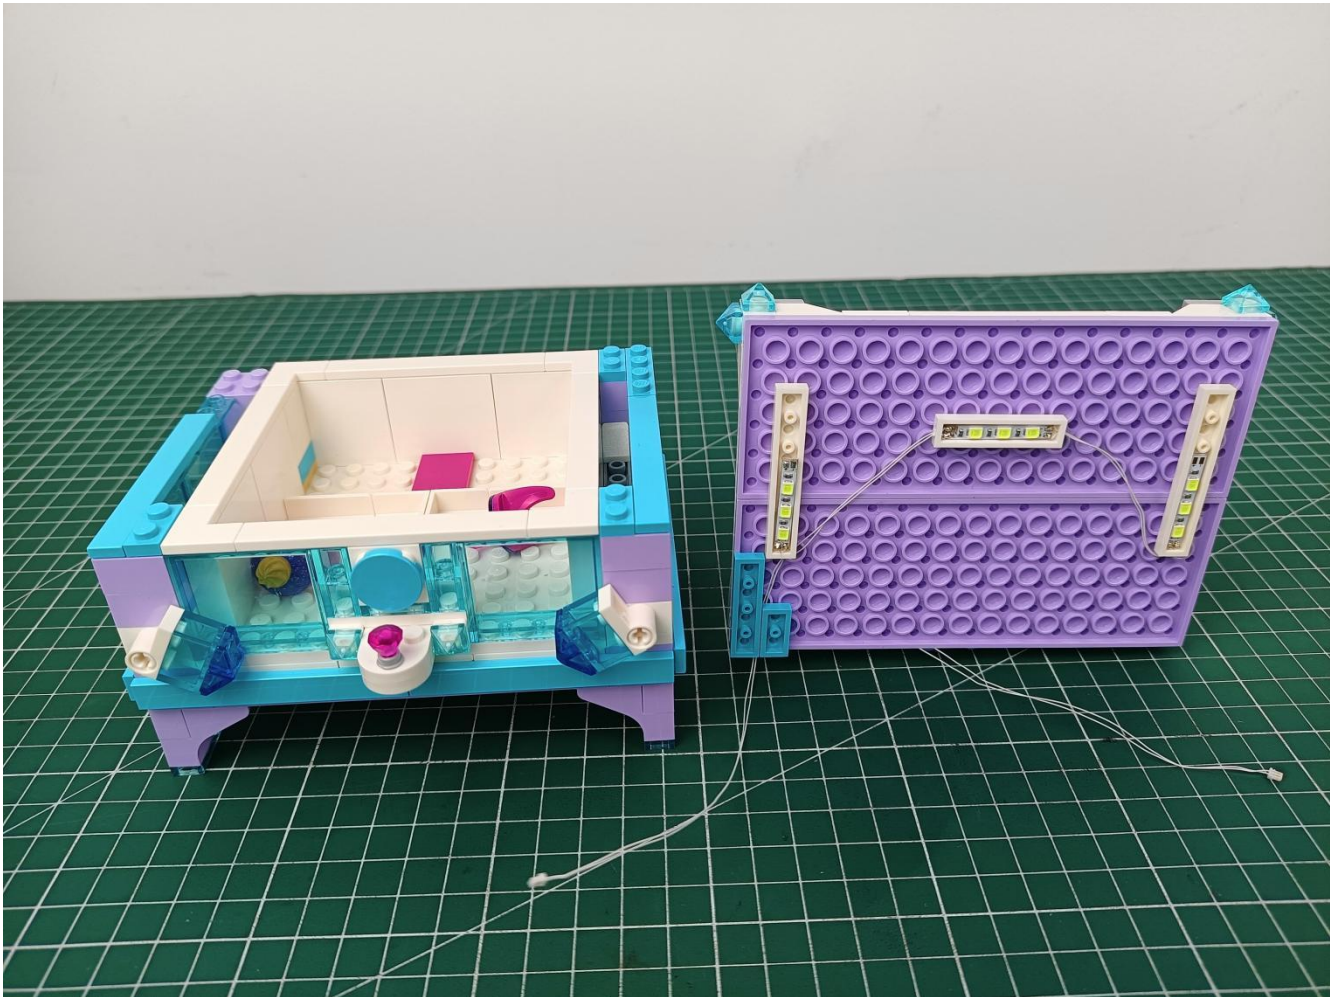

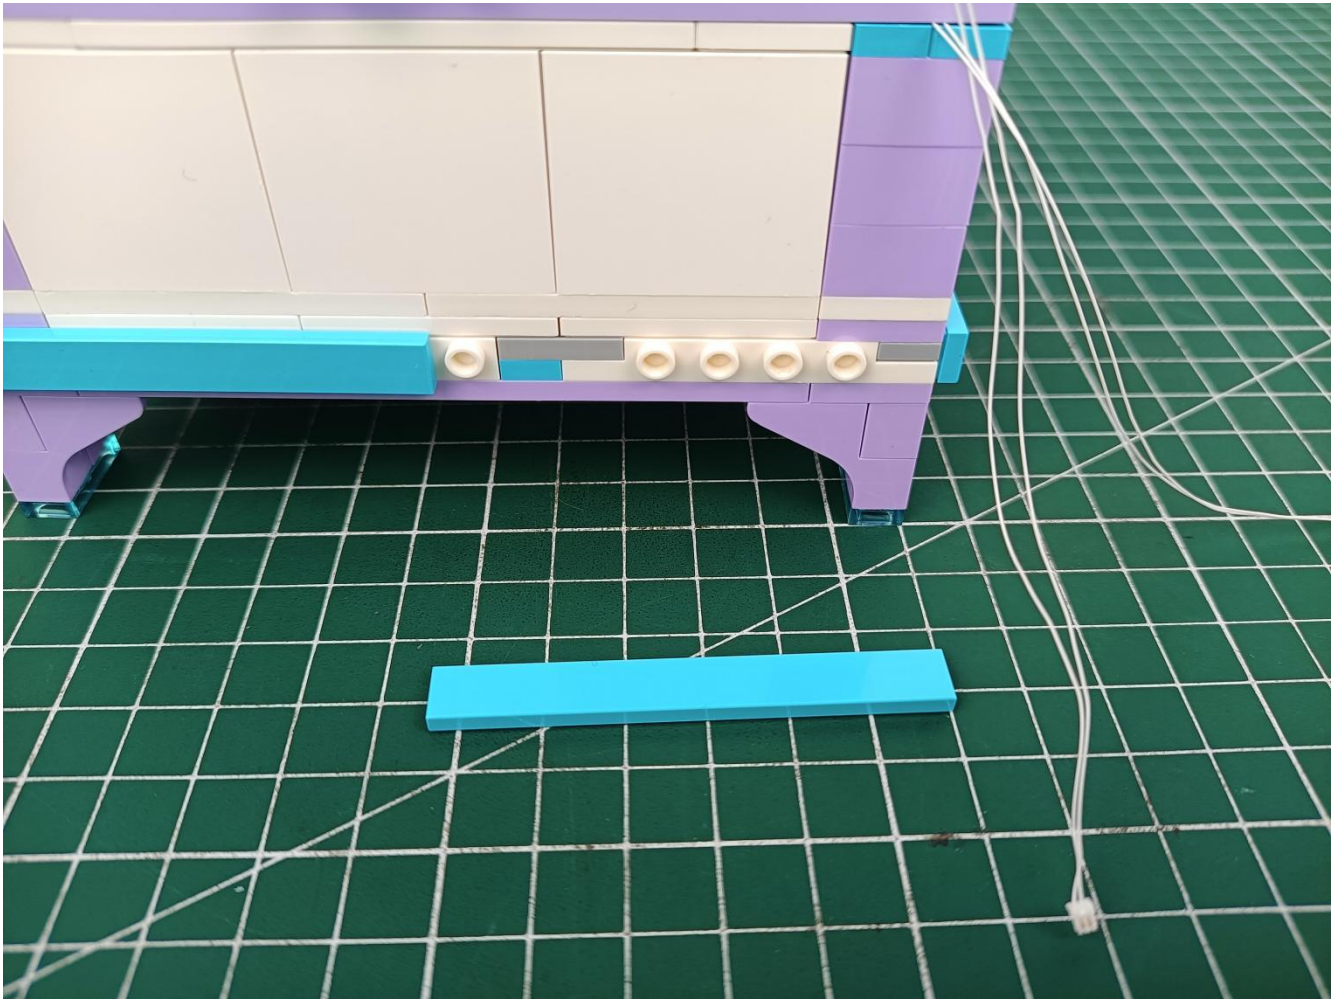

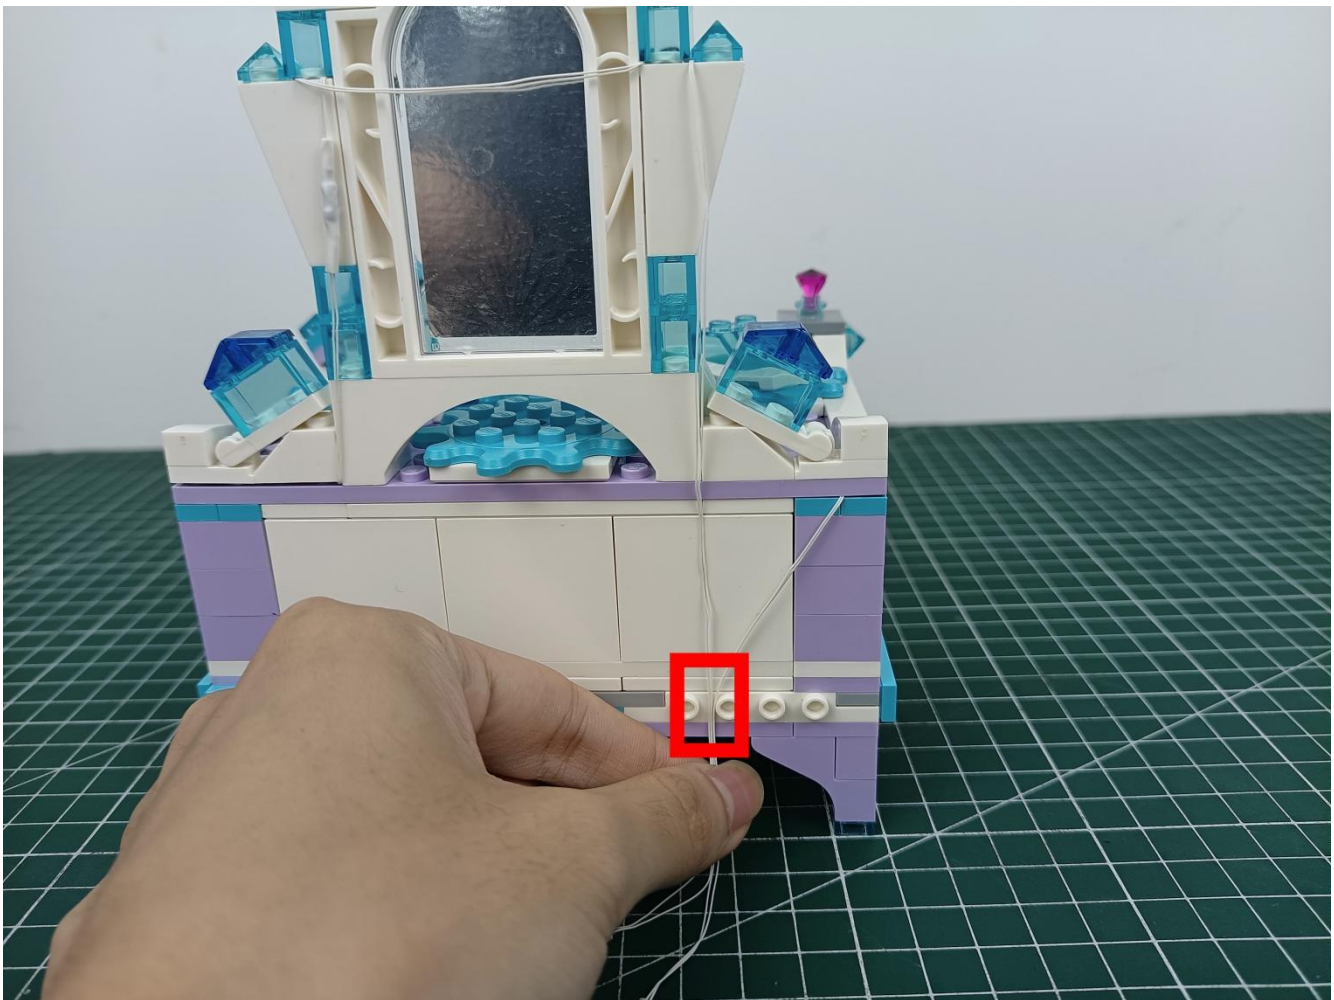

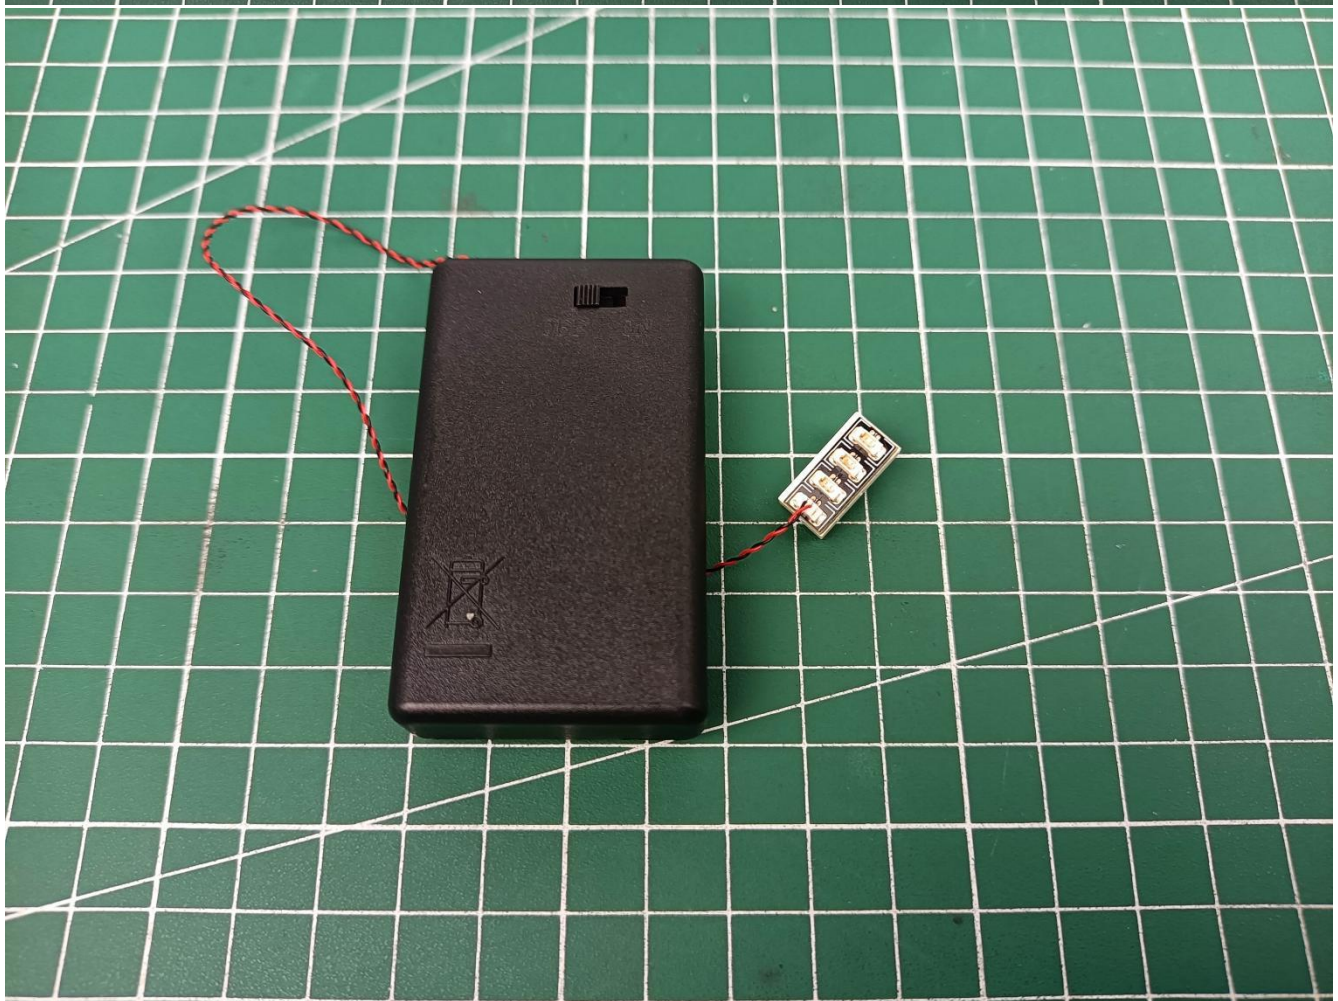

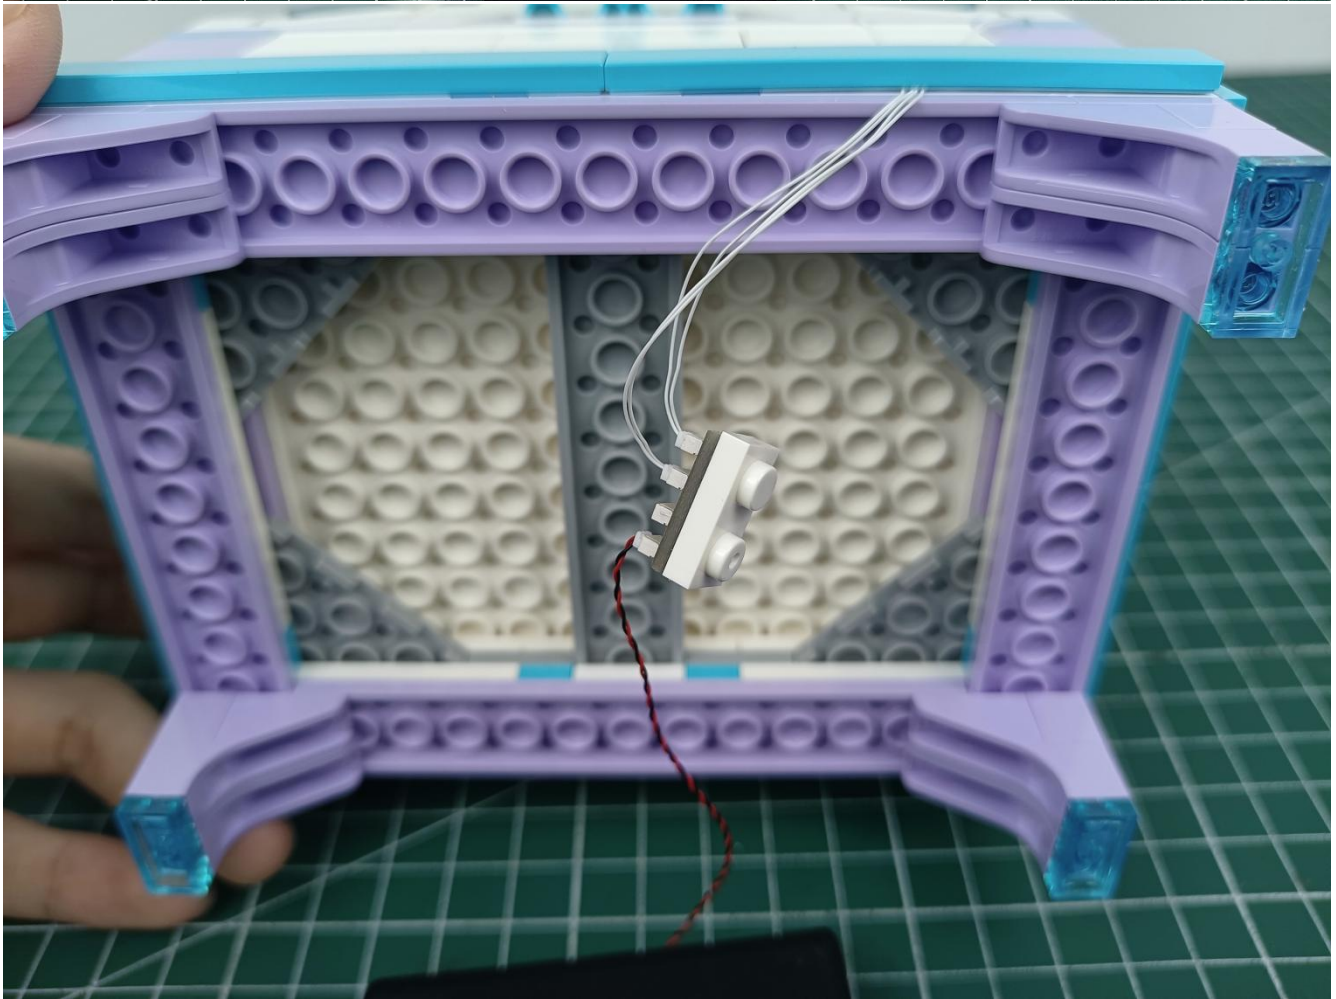

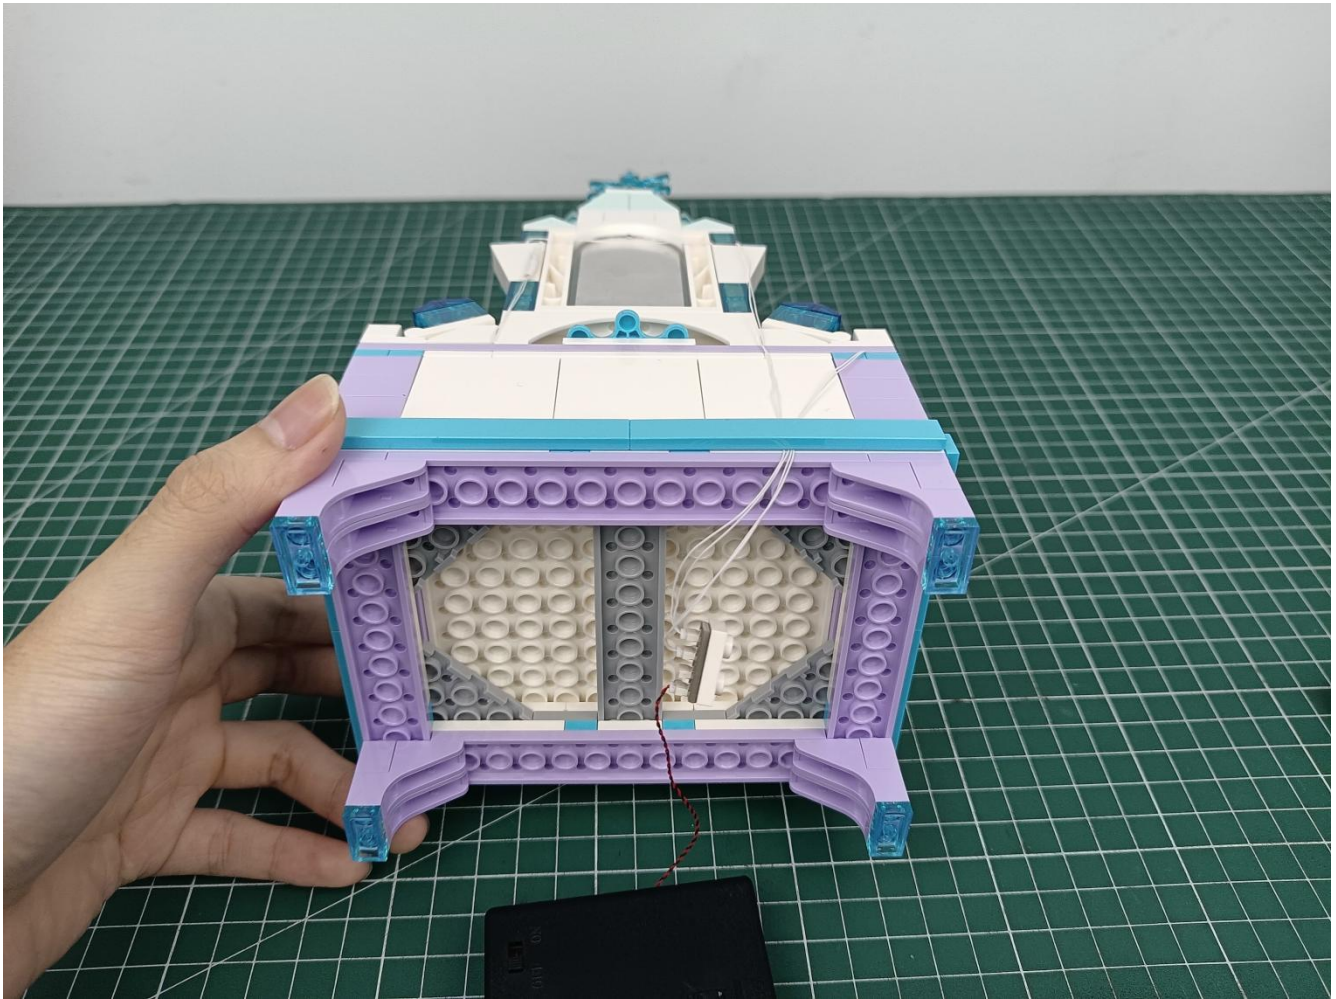

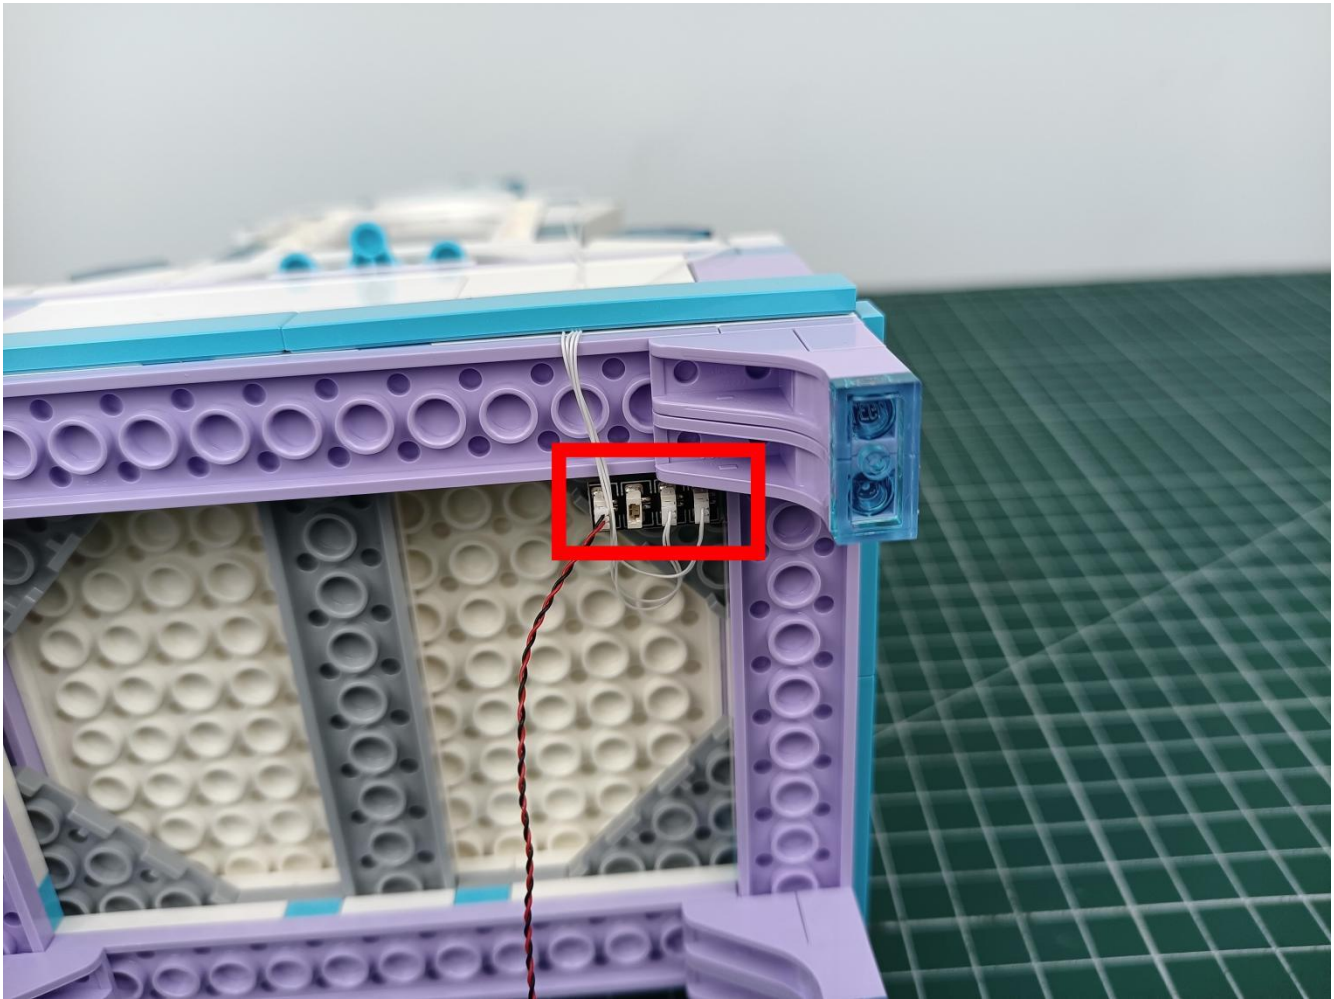

The installation is complete.
