

21326 Winnie the Pooh LED lighting Kit (Standard Version) LG38

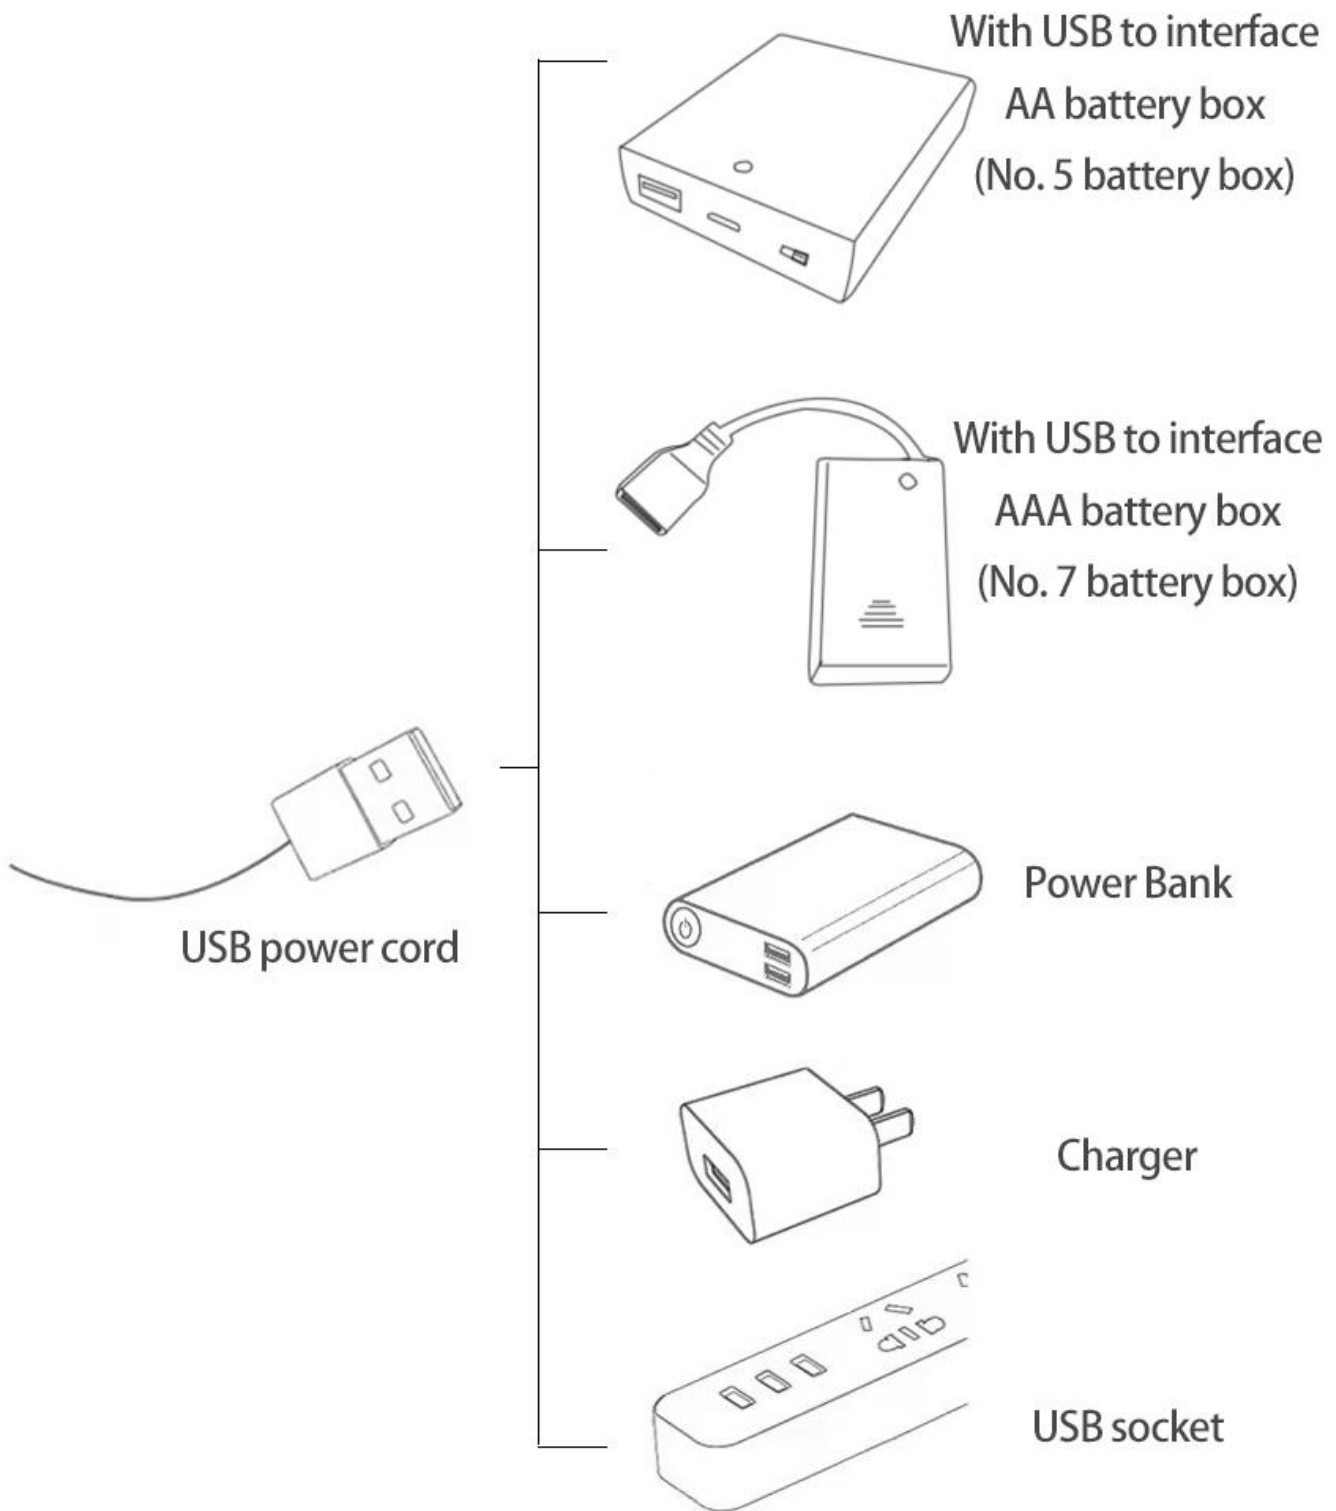

Instructions for installing this kit:

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are 4 bags of this product, and AAA batteries are a gift. (Excluding battery box)

Open the bag from the place where the red line is drawn, don't tear it from the middle, so as not to damage the lighting

Lighting test:

Take out the accessories inside (accessories include: AAA battery box, 30cm USB power cord, 1 6-seat expansion board). The following power supply methods use AAA battery box (battery self-supplied)

Load 3 AAA batteries correctly, it is recommended to use brand new batteries.

Plug the USB power cord into the battery box

The two are connected through the interface, the connection method is as follows.

Connect the USB power supply to the expansion board

Take out the lighting from the bag marked "1"

The lighting is connected to the expansion board.

Turn on the switch of the battery box and test whether the light is always on.

After the test is completed, turn off the power and leave the AAA power supply on the expansion board

start installation:

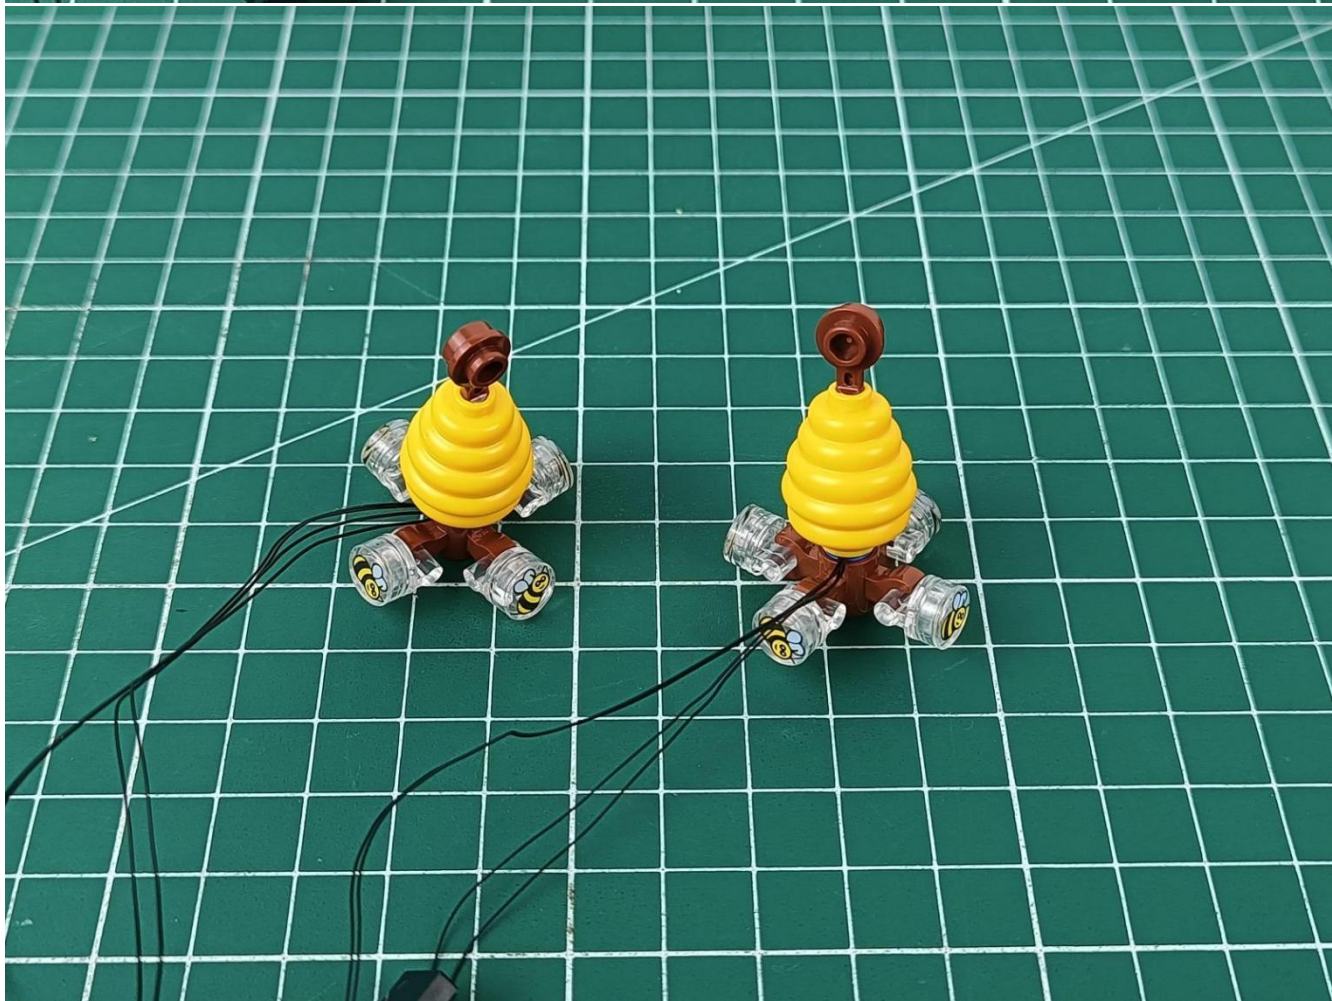

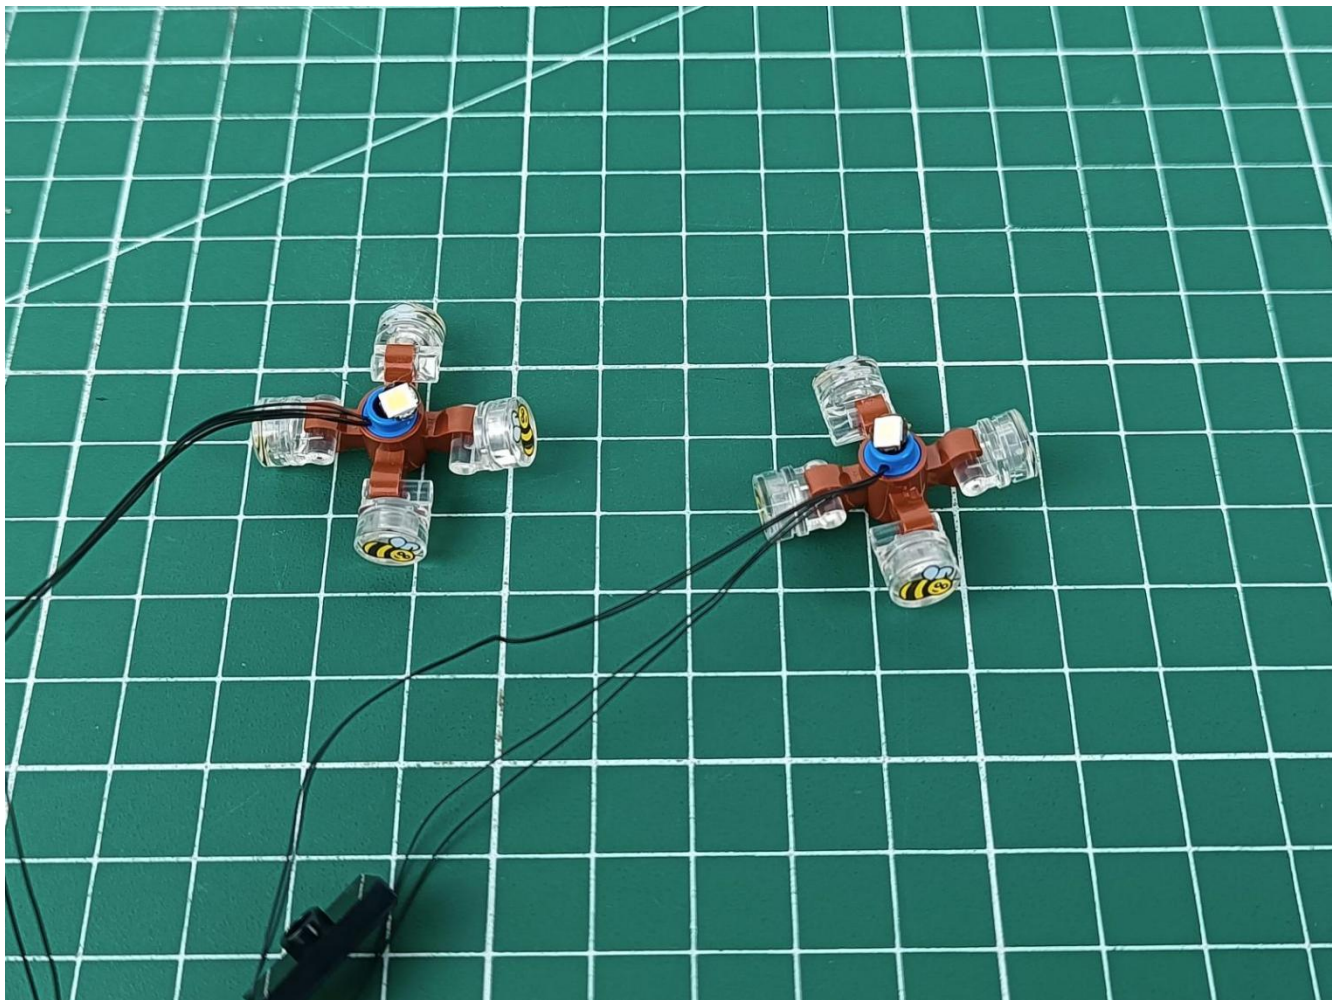

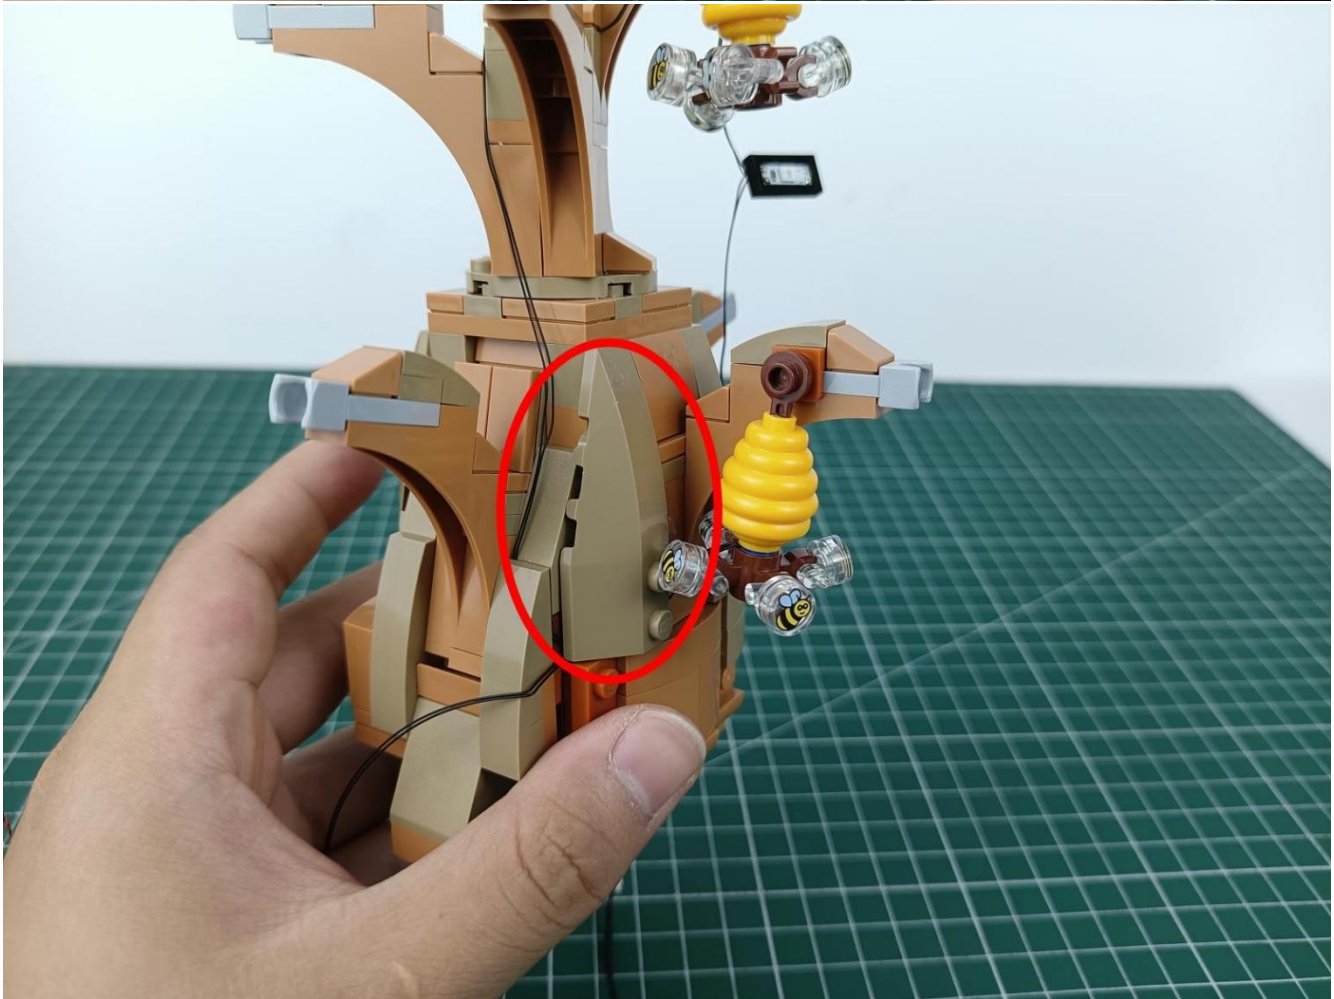

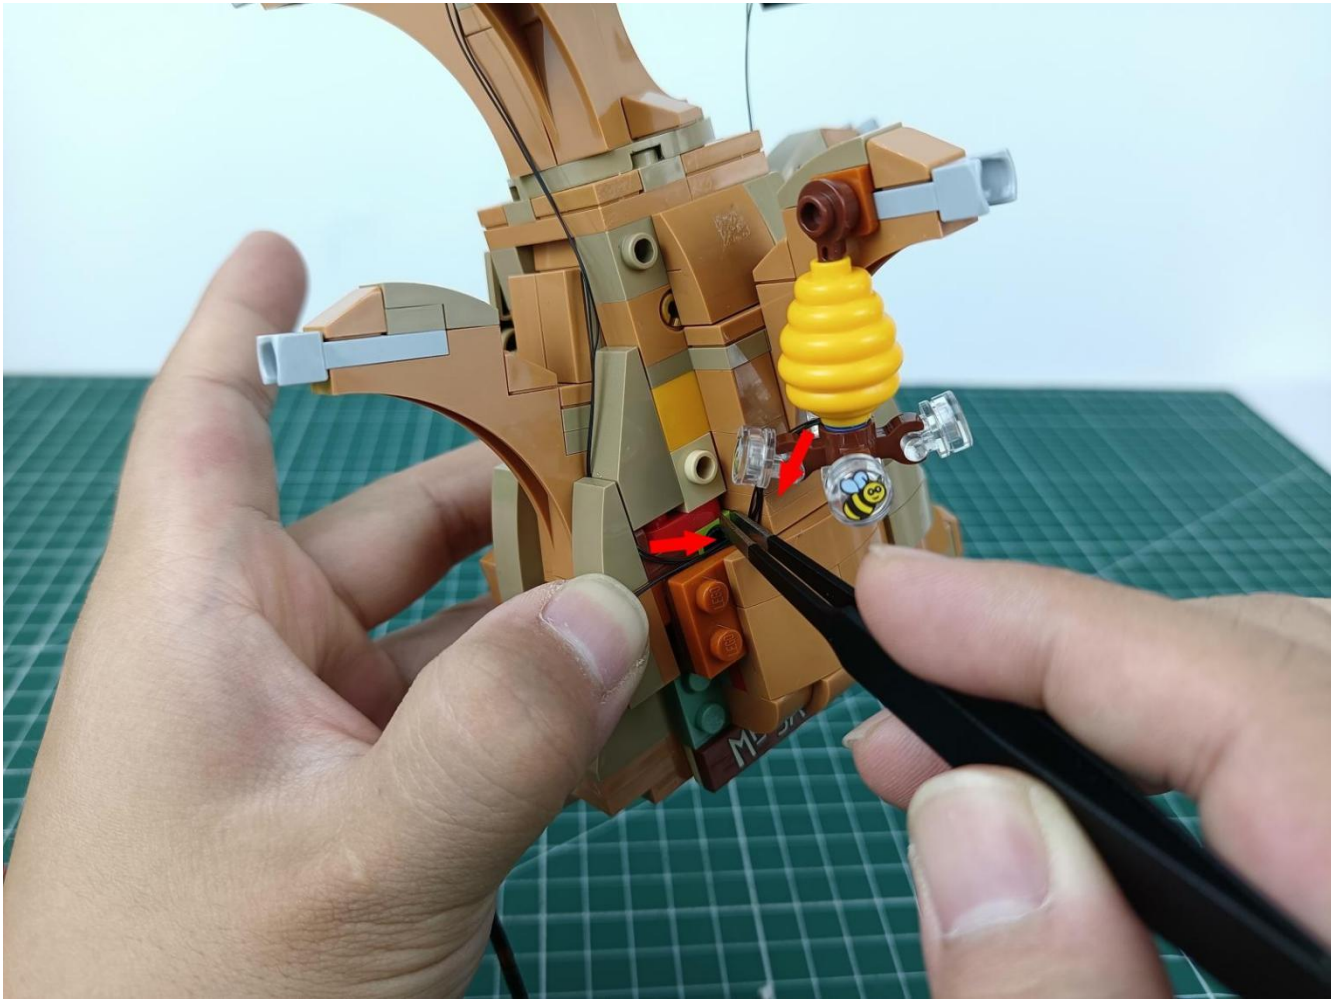

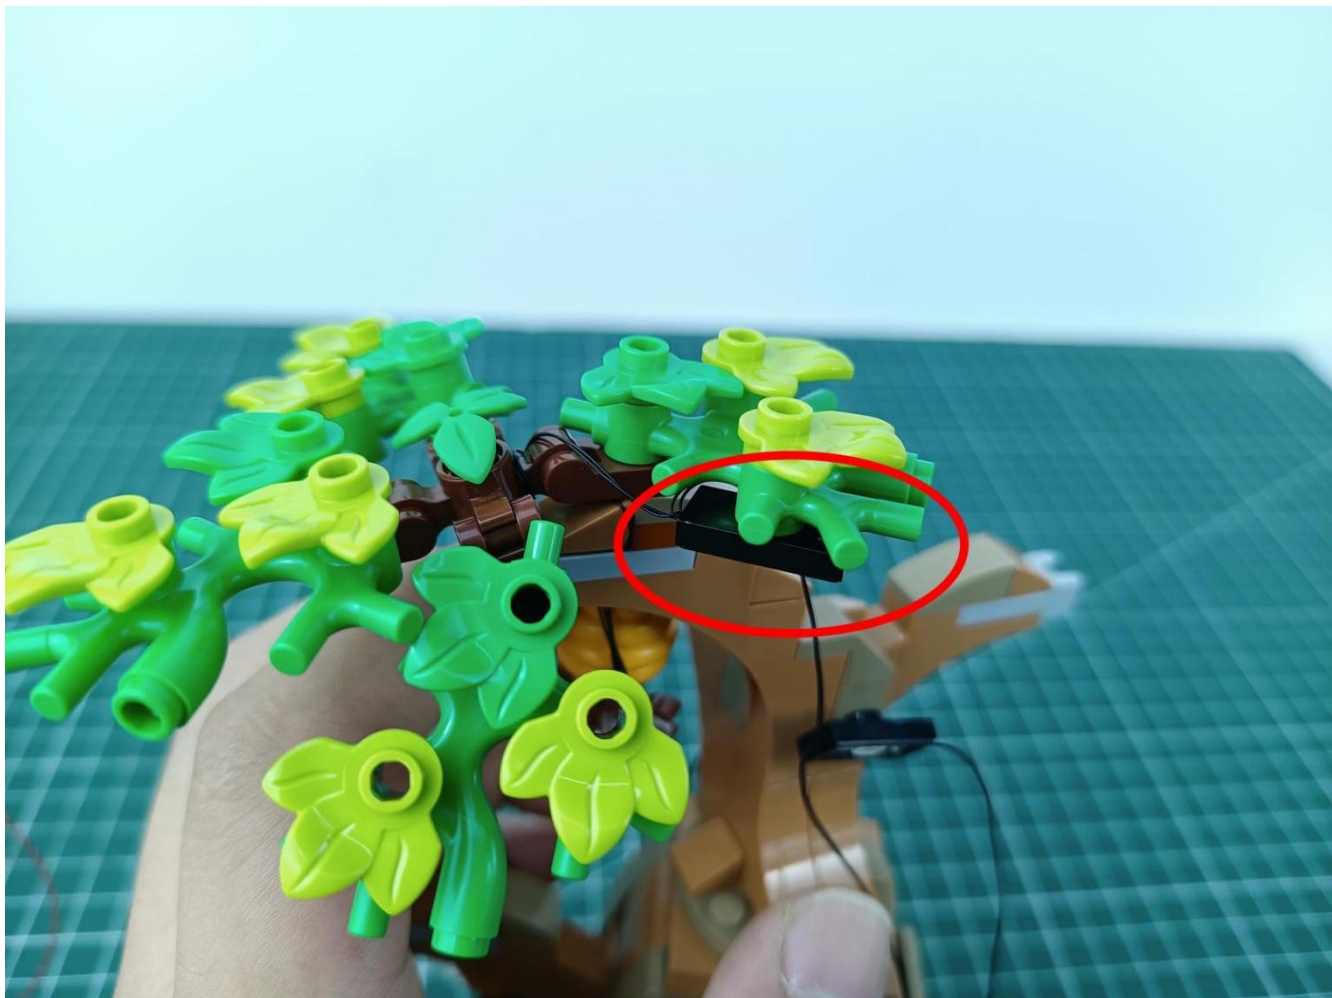

The installation is complete

The above are ideas and instructions provided by our designers. Please move on:

- 1: Do you have any suggestions about the material and quality of our products?
- 2: Do you have any suggestions on the installation instructions and the degree of difficulty of the installation?
- 3: If you have better installation method and ideas, please contact us in time.
