

GC4 40197 Wedding Favor Set Standard

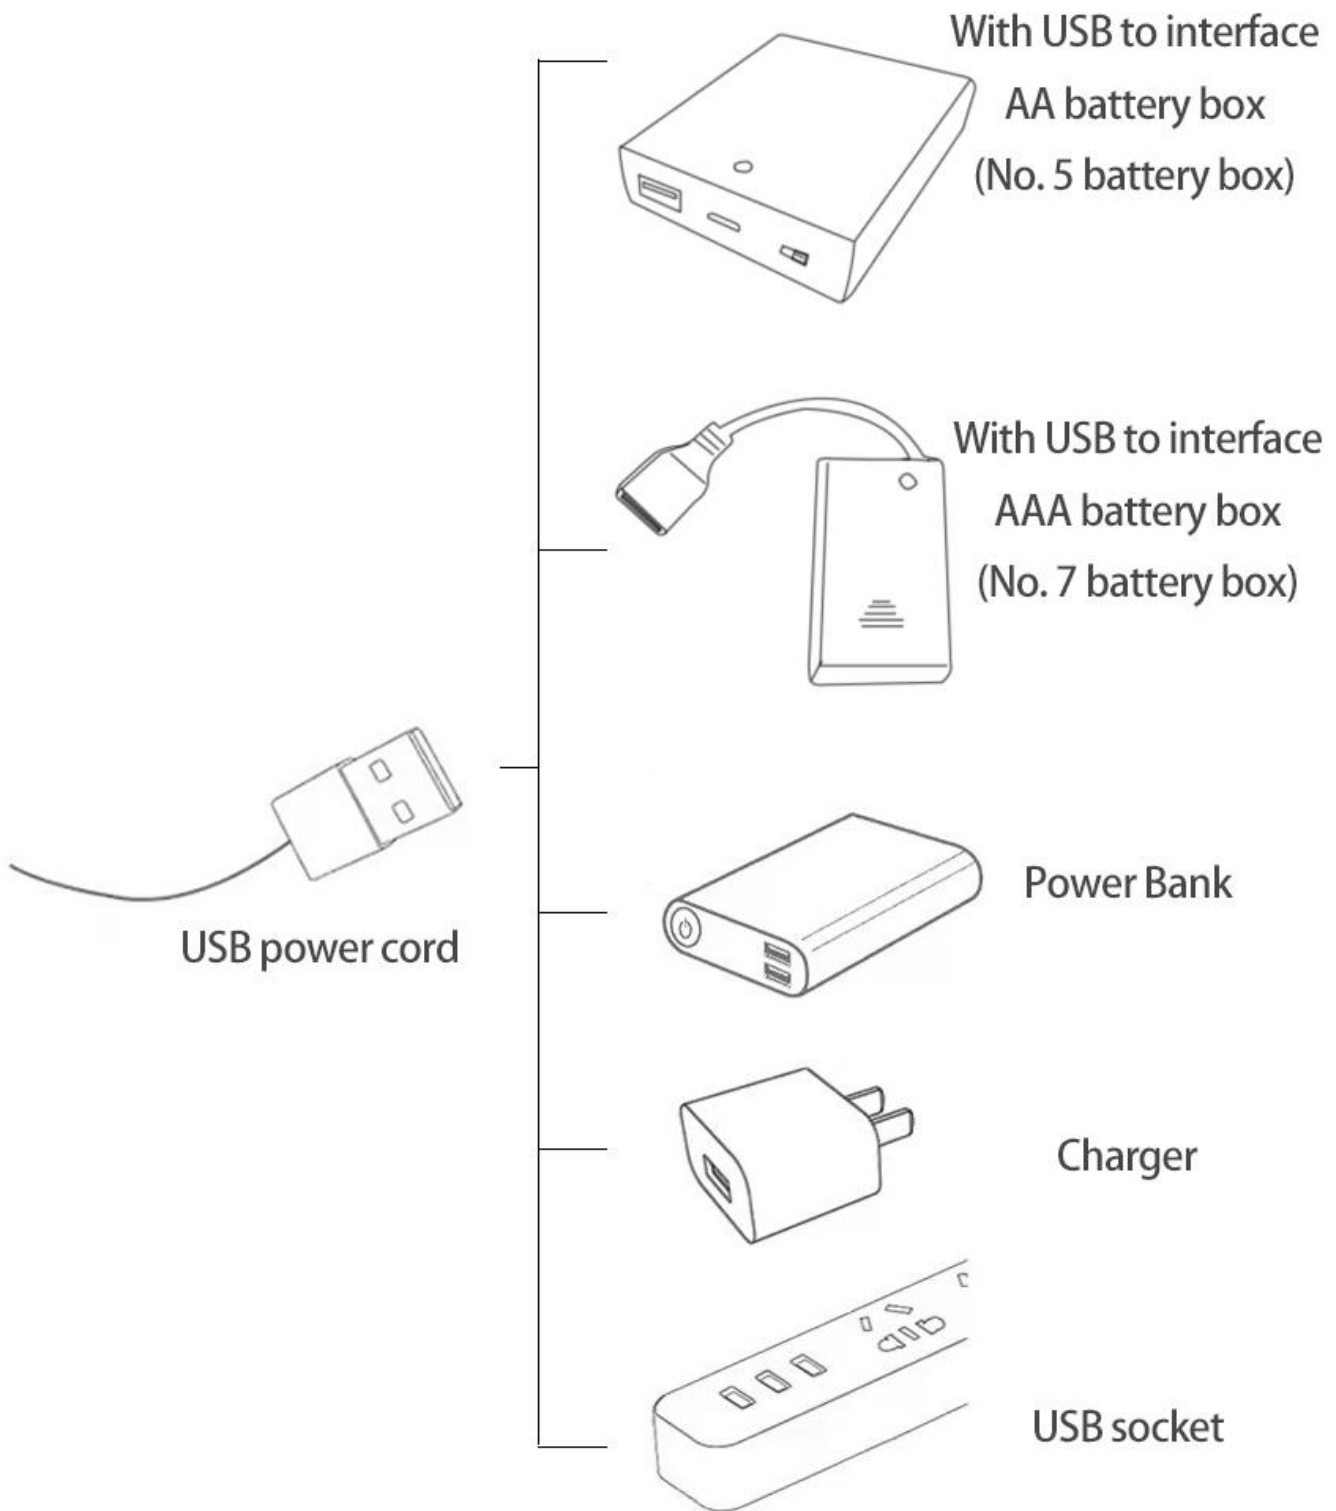

Instructions for installing this kit:

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are 2 bags in total, and the AAA USB battery box is a gift (without battery)

Open the bag from the position of the red line in the picture, do not tear it from the middle, so as not to damage the lighting

Take out the accessories in the bag

Untie the straps on the lighting

Take out the USB 7 battery box separately

Open the lid of the battery box

Install the battery according to the instructions in the picture (battery is self-provided), pay attention to the positive and negative poles, and then close the lid of the battery box

Take out the USB power port on the lighting

Connect it to the USB 7 battery box, pay attention to the direction of access

Turn on the power switch

Test whether the lighting works normally, if there is any abnormality, please contact us

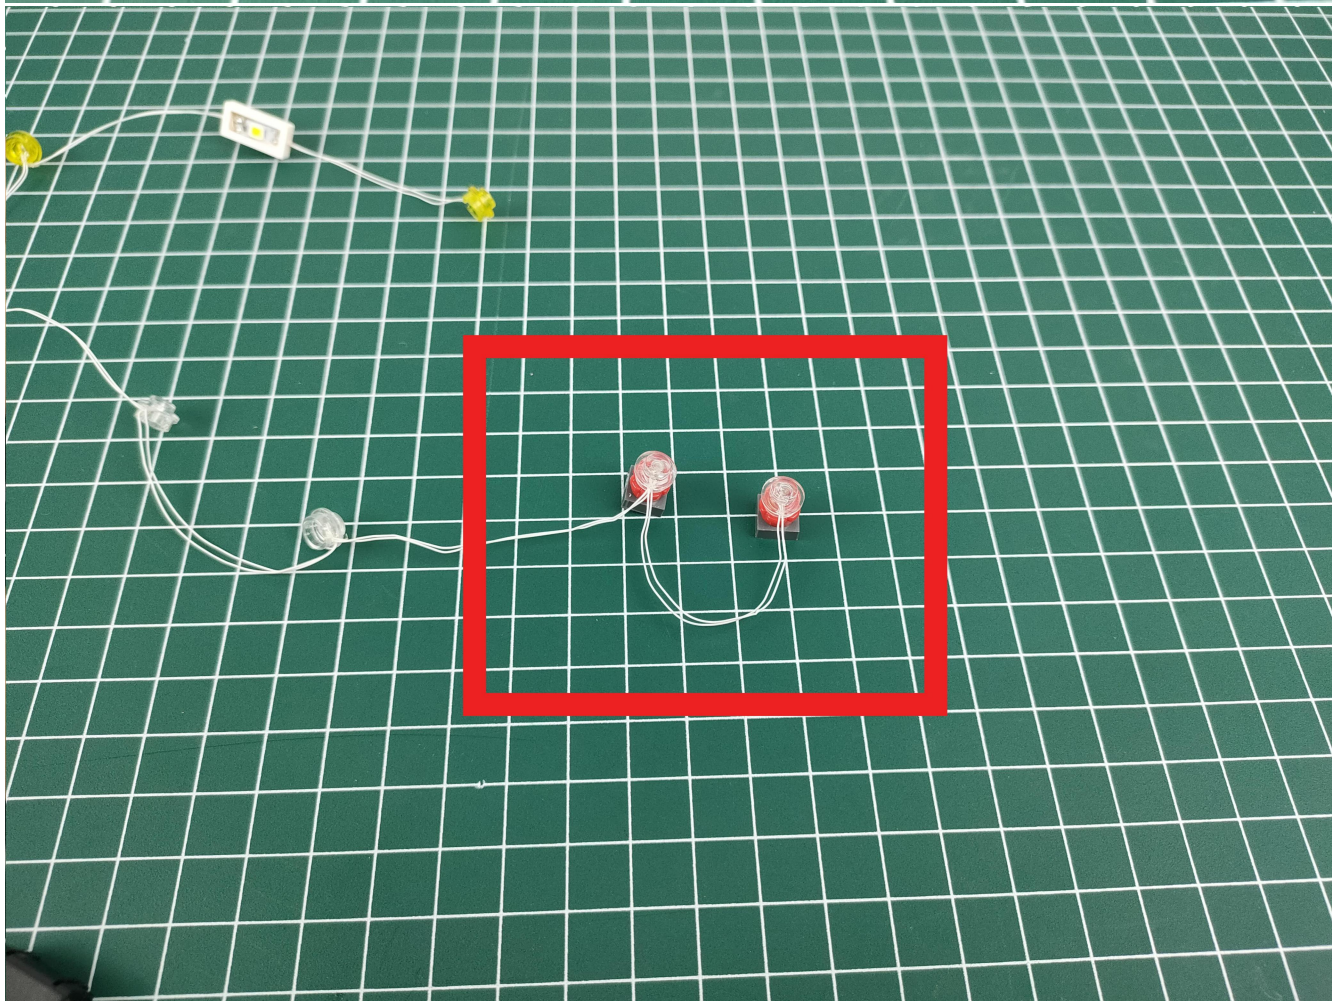

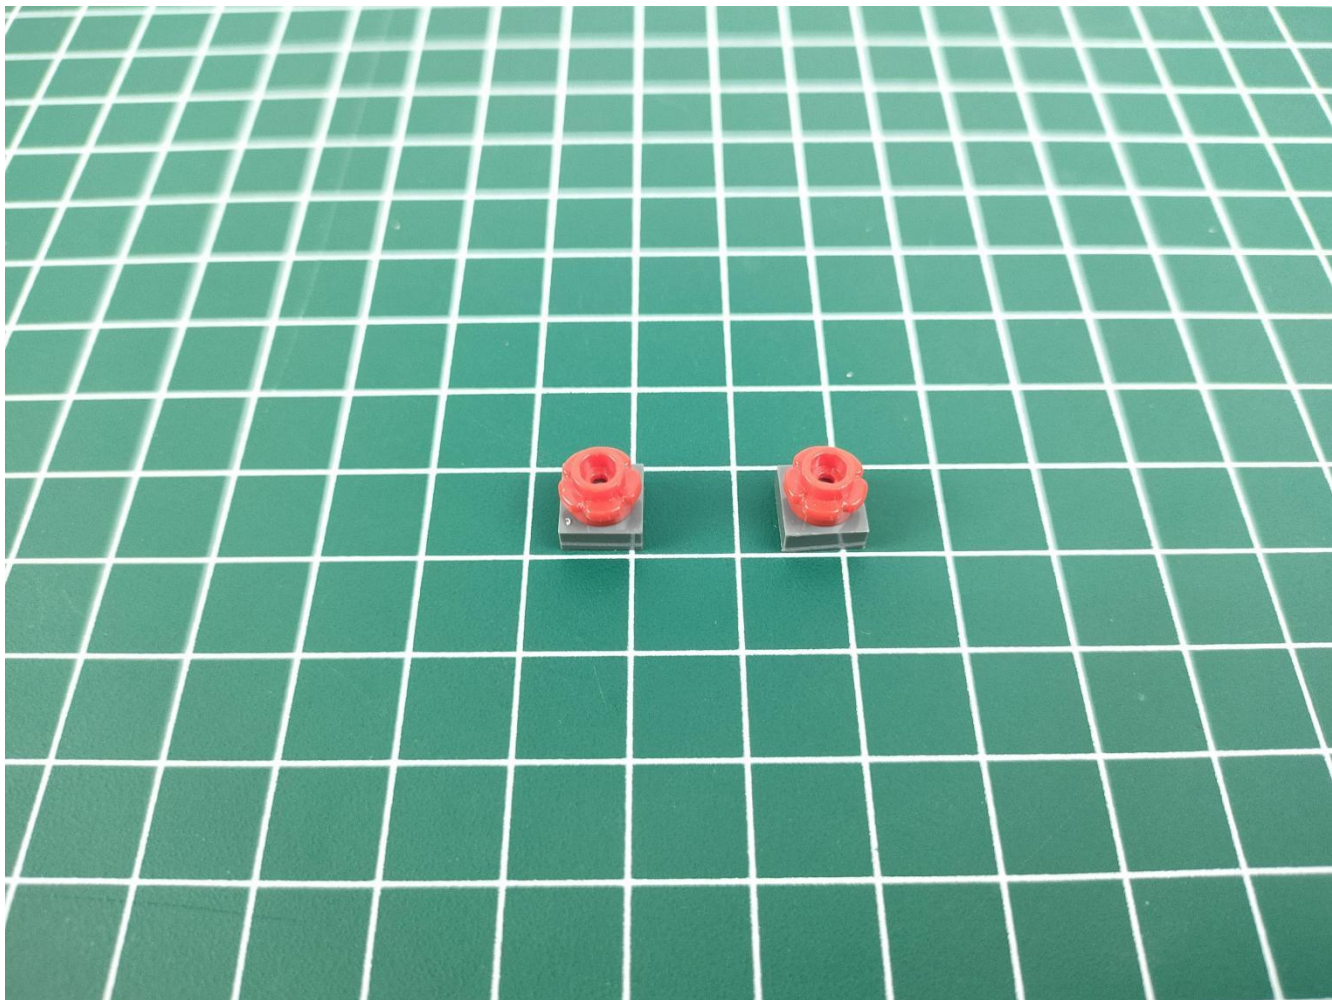

Disconnect the power supply after the test is completed

Start Installation:

Note:

Please be careful when installing. The lamp wire is relatively slender and cannot be pressed on the raised position of the building block. It should pass along the gap, otherwise the lamp wire will be pinched.
