

42122 Jeep Wrangler LED lighting Kit (Standard Version) LG42

Instructions for installing this kit:

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are 3 bags of this product, and the square button battery is a gift. (Excluding battery box)

Open the bag from the place where the red line is drawn, don't tear it from the middle, so as not to damage the lighting

Lighting test:

Take out the accessories inside (accessories include: 1 square button battery box, 1 30cm power cord, 1 6-seat expansion board). The following power supply methods use square button battery box (battery self-supplied)

The two are connected through the interface, the connection method is as follows.

The square button battery box is equipped with batteries (batteries are self-prepared), and the power cord of the square button battery box is connected to the expansion board.

Remove the lighting from the bag labeled No. 1

The lighting is connected to the expansion board to test whether the lighting is abnormal. If there is any abnormality, please contact us in time!

After the test is normal, unplug the lamp and be careful when unplugging the plug to avoid damaging the plug.

Remove the lighting from the bag labeled No. 2

The lighting is connected to the expansion board to test whether the lighting is abnormal.
If there is any abnormality, please contact us in time!

After the test is normal, unplug the lamp and be careful when unplugging the plug to avoid damaging the plug.
