

21327 Typewriter LED lighting Kit (Standard Version) LG44/GC44

Instructions for installing this kit:

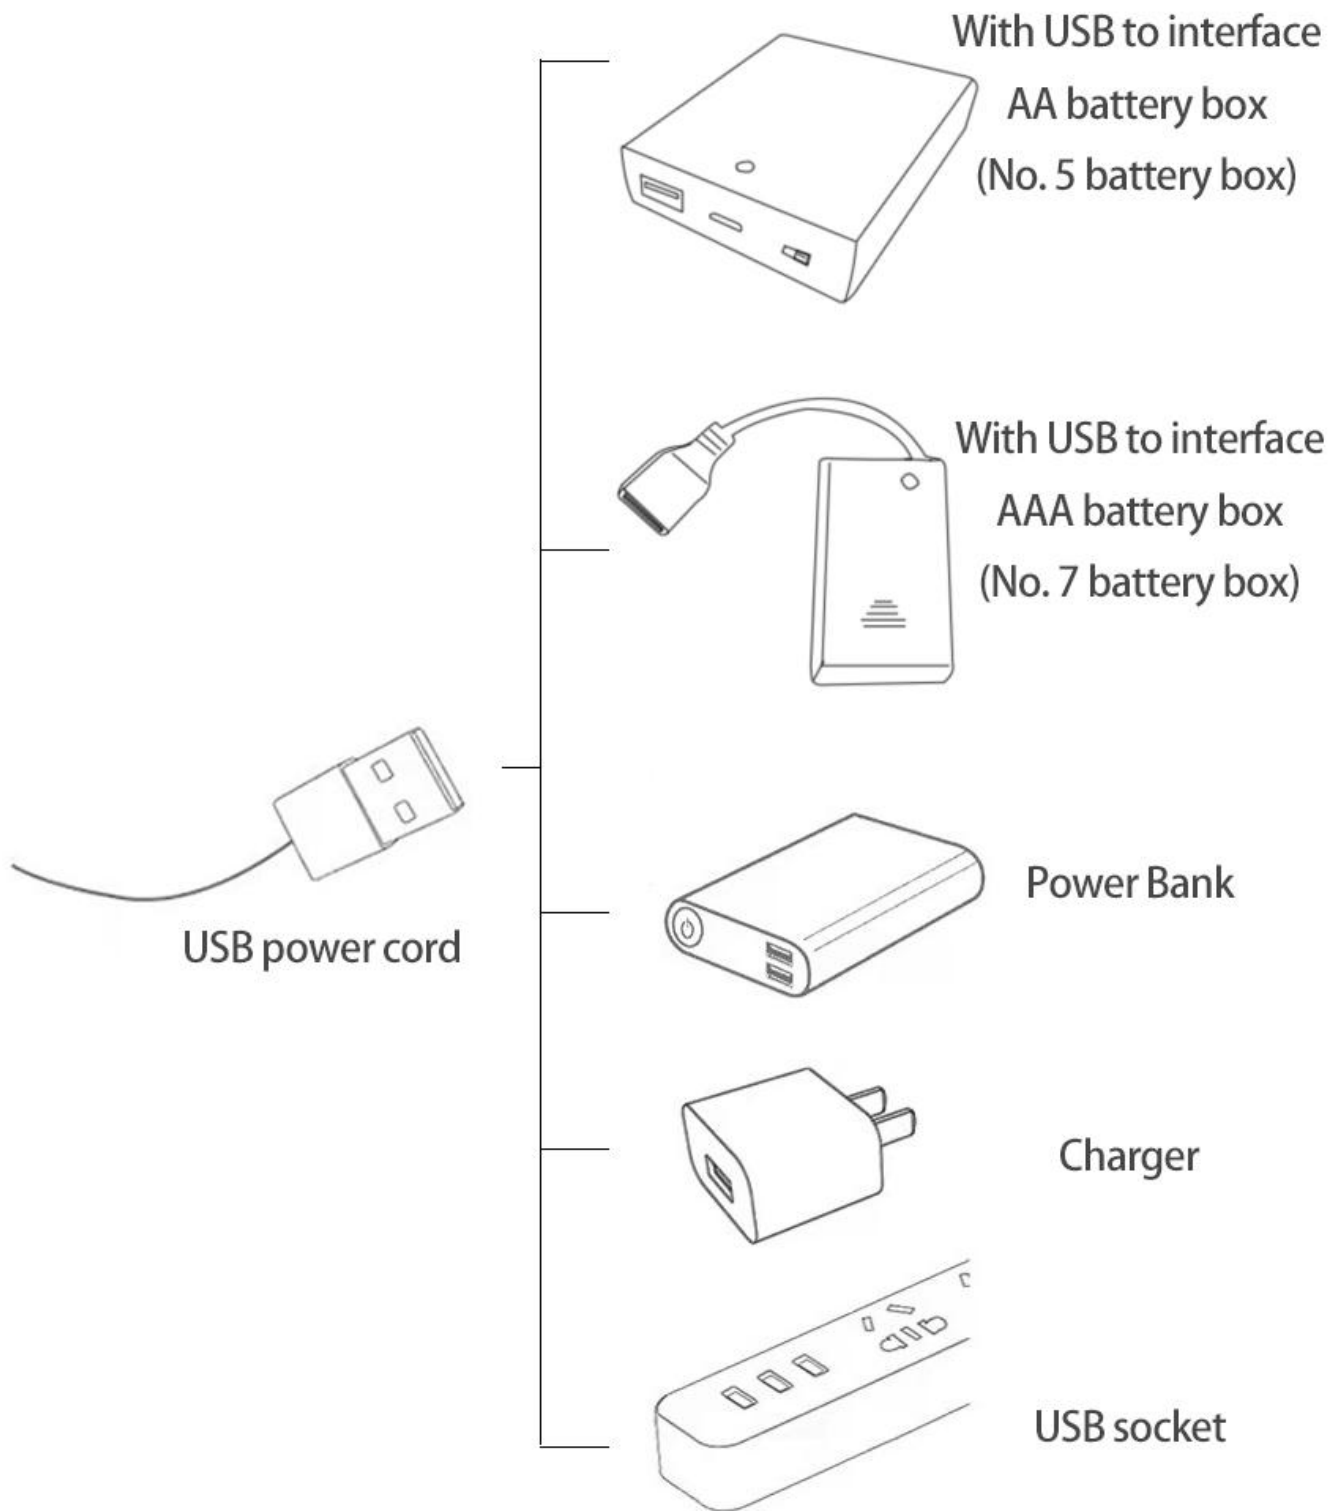

All parts and components used in the manual are samples, and the pictures may be different from the actual ones, and the installation will not be affected under normal circumstances. If there is a problem, please contact us in time.

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are a total of 4 bags of this product, and AAA Battery Pack is a gift. (The battery is not provided in this product, please bring your own)

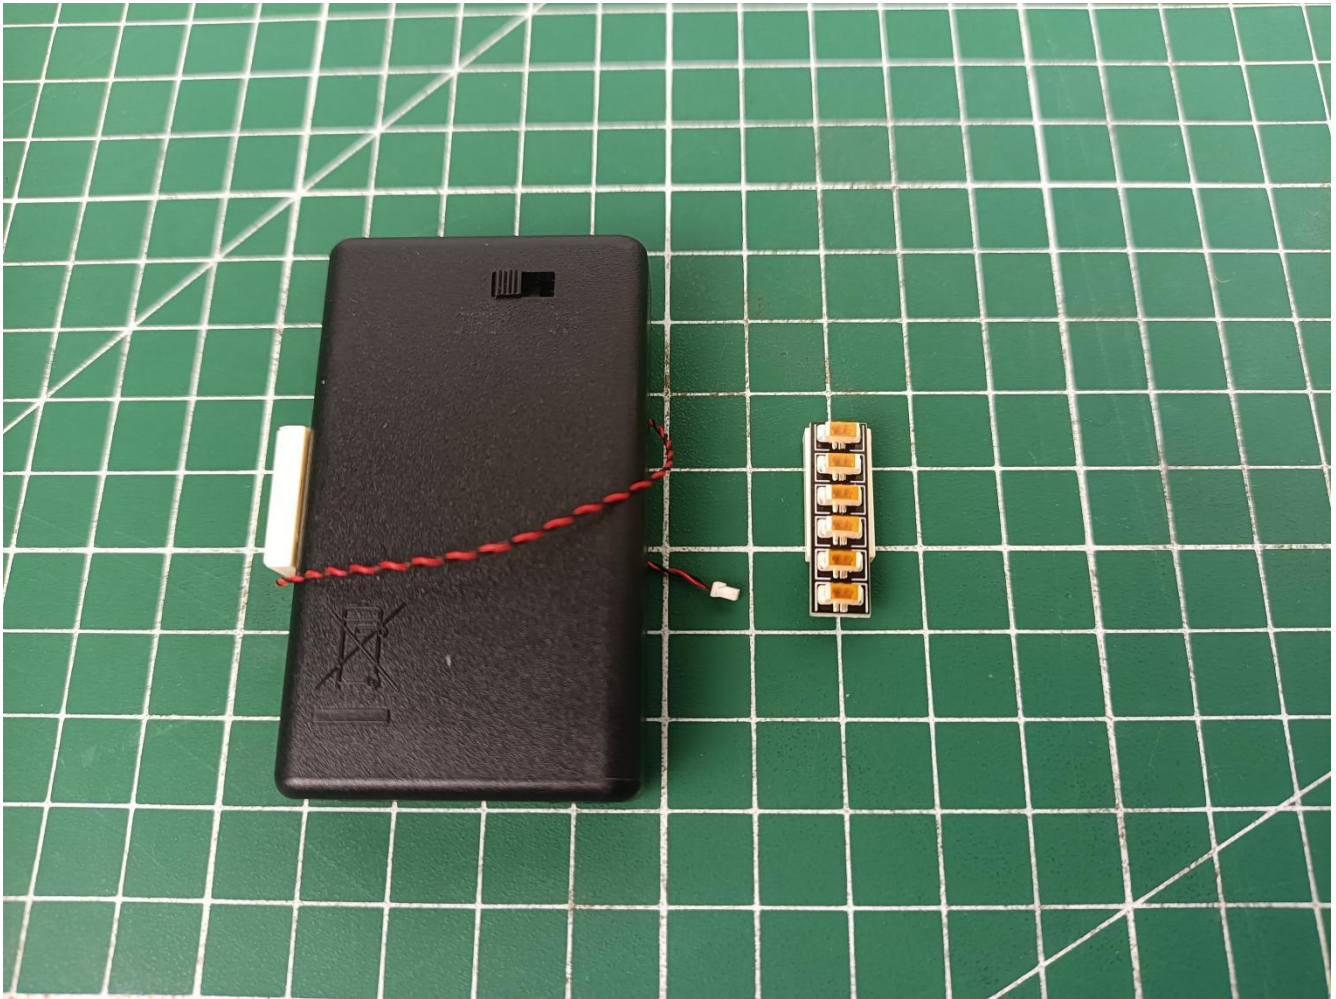

Lighting test:

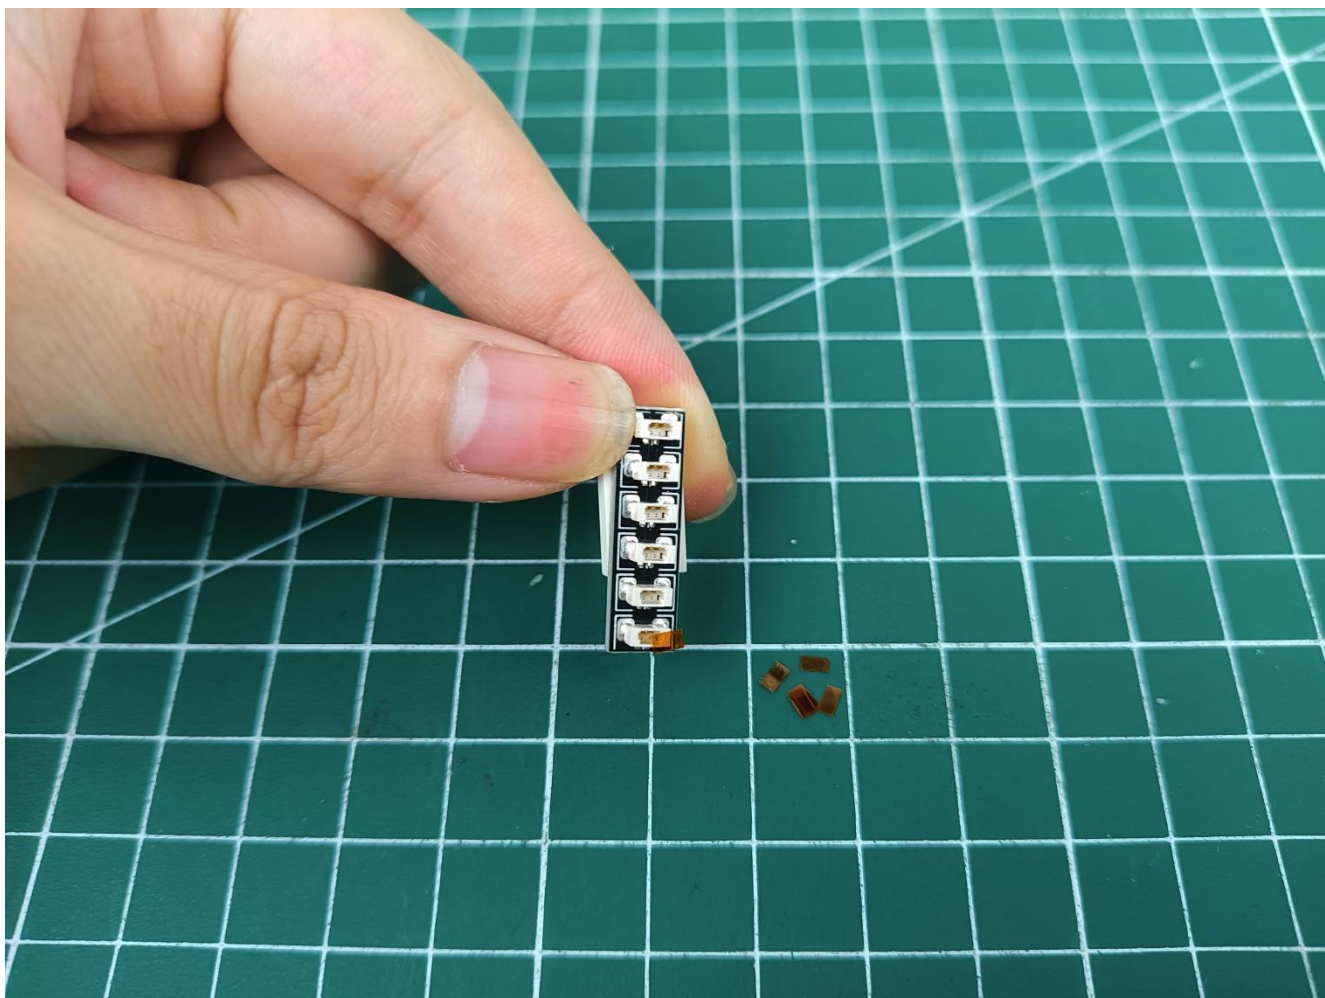

Take out the accessories inside (accessories include: 1 AAA Battery Pack, 1 30CM USB power cord, 1 4-Port Expansion Boards, 1 6-Port Expansion Boards, 1 Connecting Cables-10CM, 1 Connecting Cables-15CM, 1 Sound control module). The following power supply methods use AAA Battery Pack (please bring your own battery).

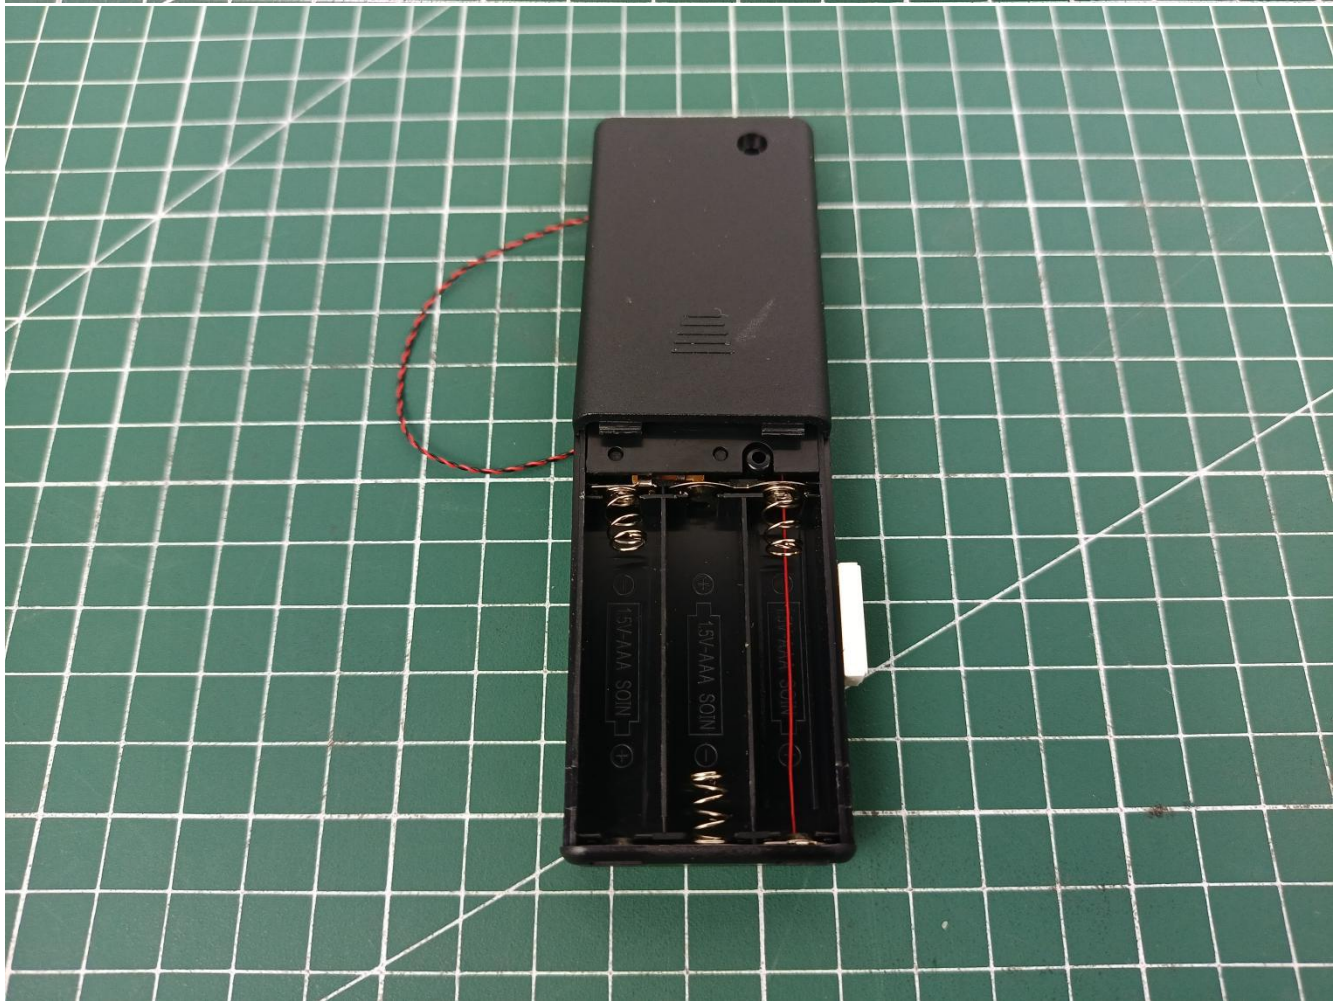

Take out AAA Battery Pack and 6-Port Expansion Boards.

Remove the seal of 6-Port Expansion Boards.

Flip the AAA Battery Pack to the back and open the power cover.

Install the battery, and then restore the power cover. (Please bring your own battery, pay attention to the position of the positive and negative poles of the battery)

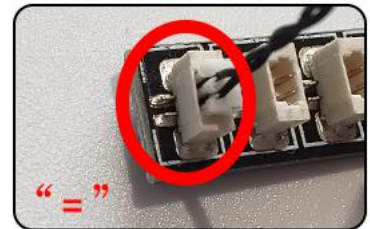

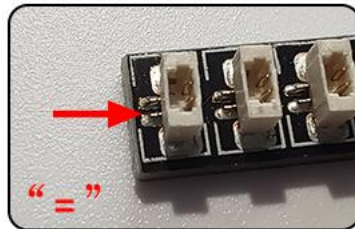

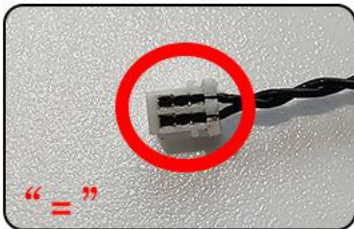

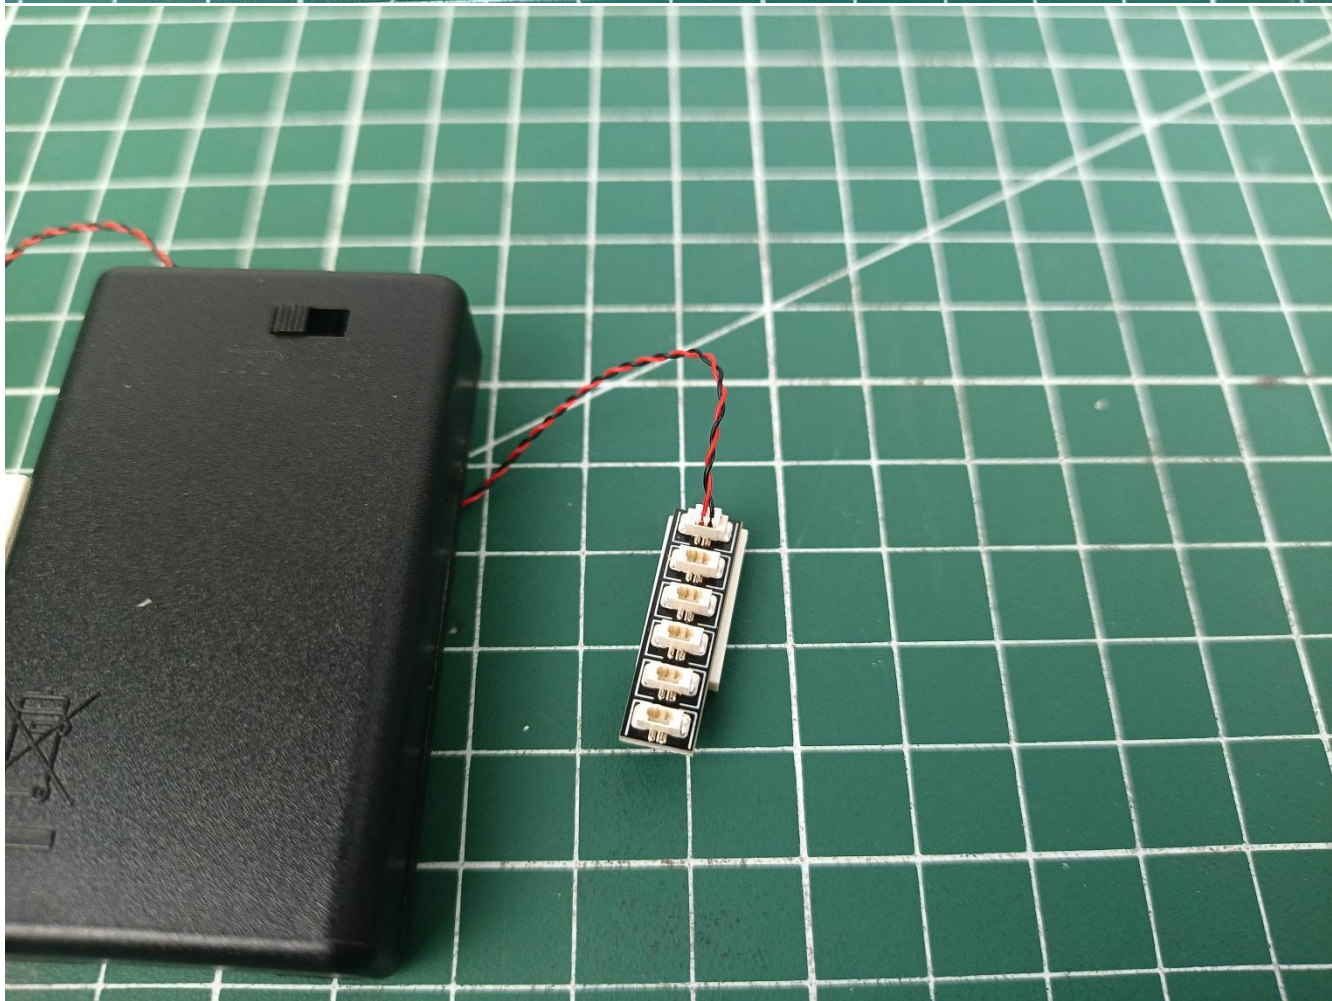

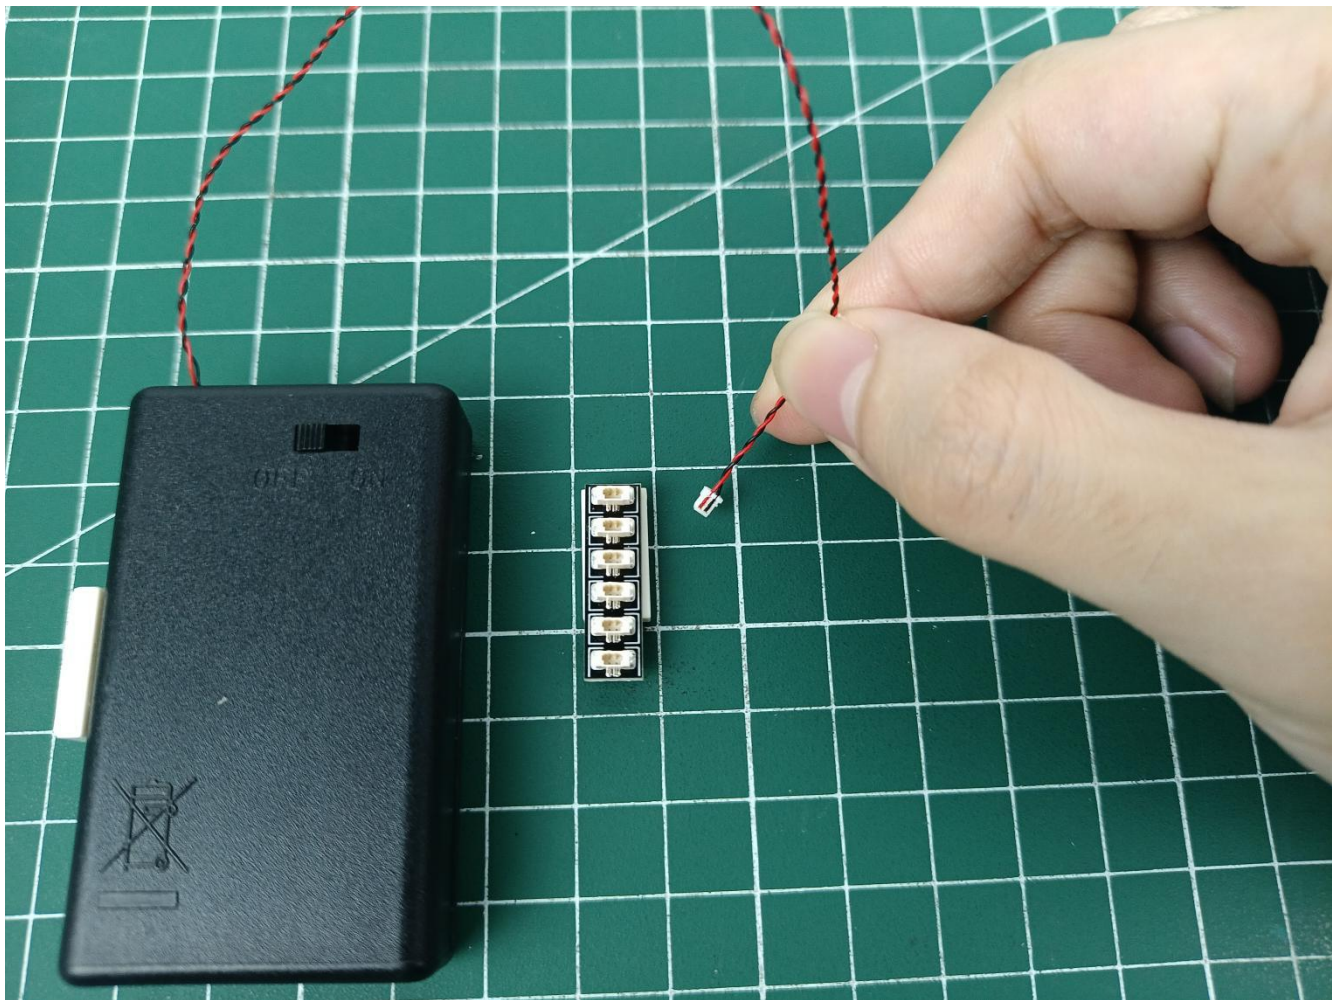

Flip the AAA Battery Pack back to the front.

The two are connected through the interface, the connection method is as follows.

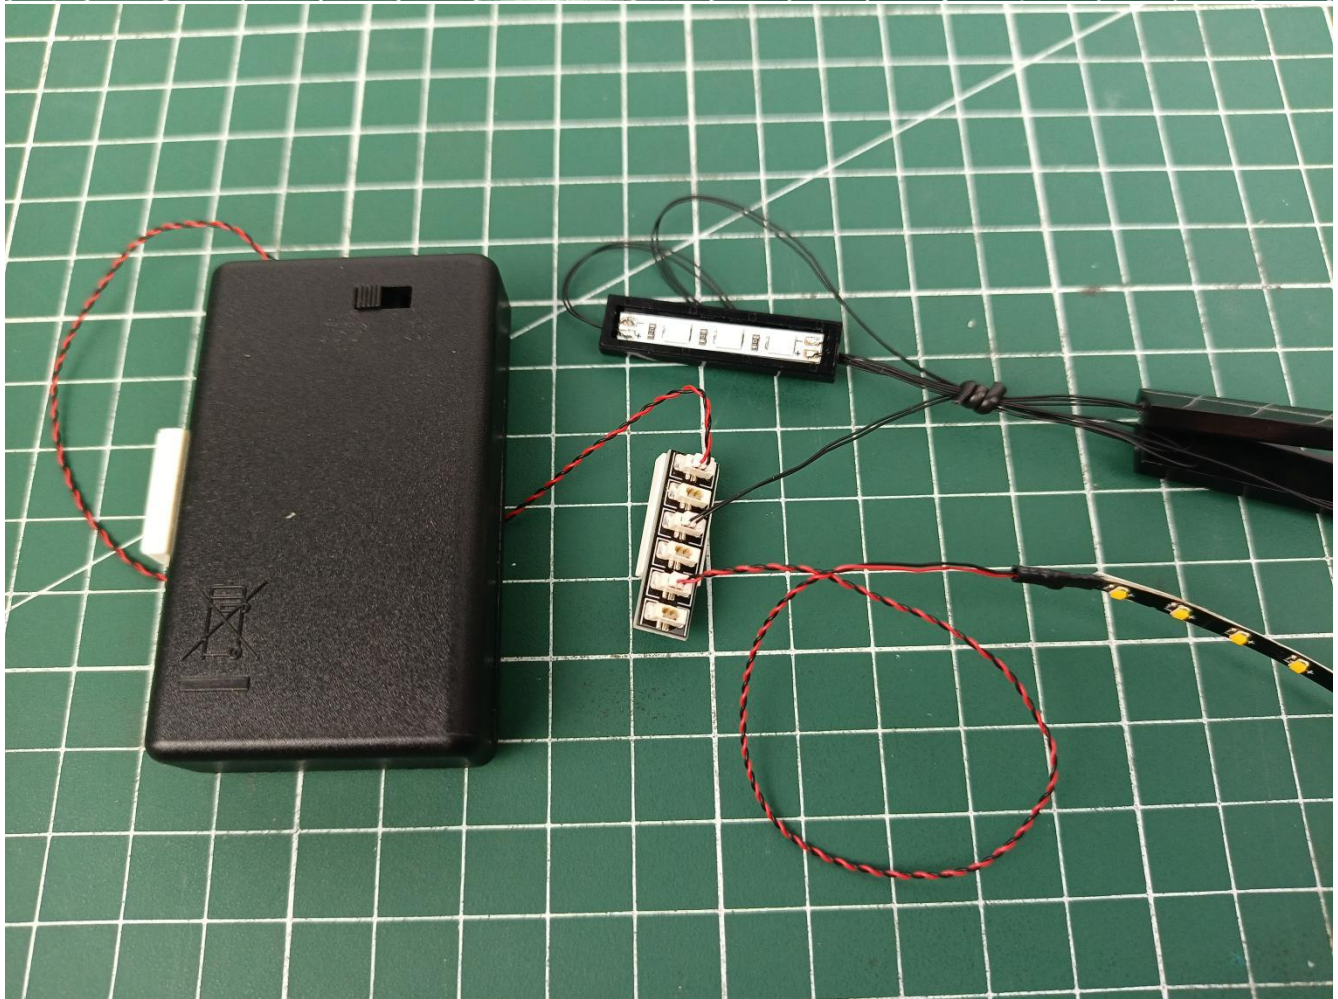

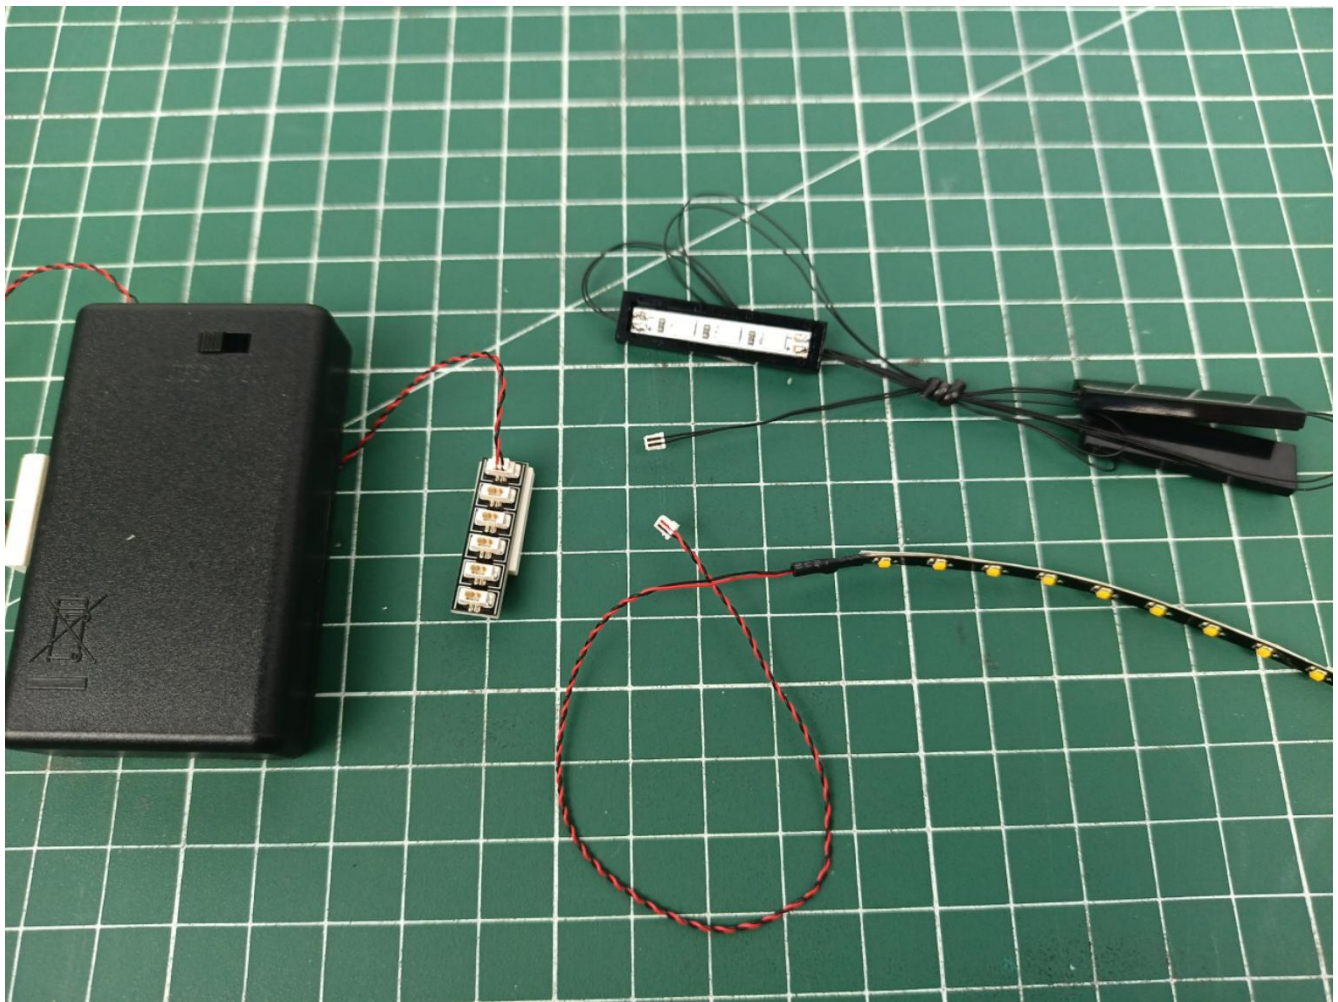

Connect the AAA Battery Pack to 6-Port Expansion Boards.

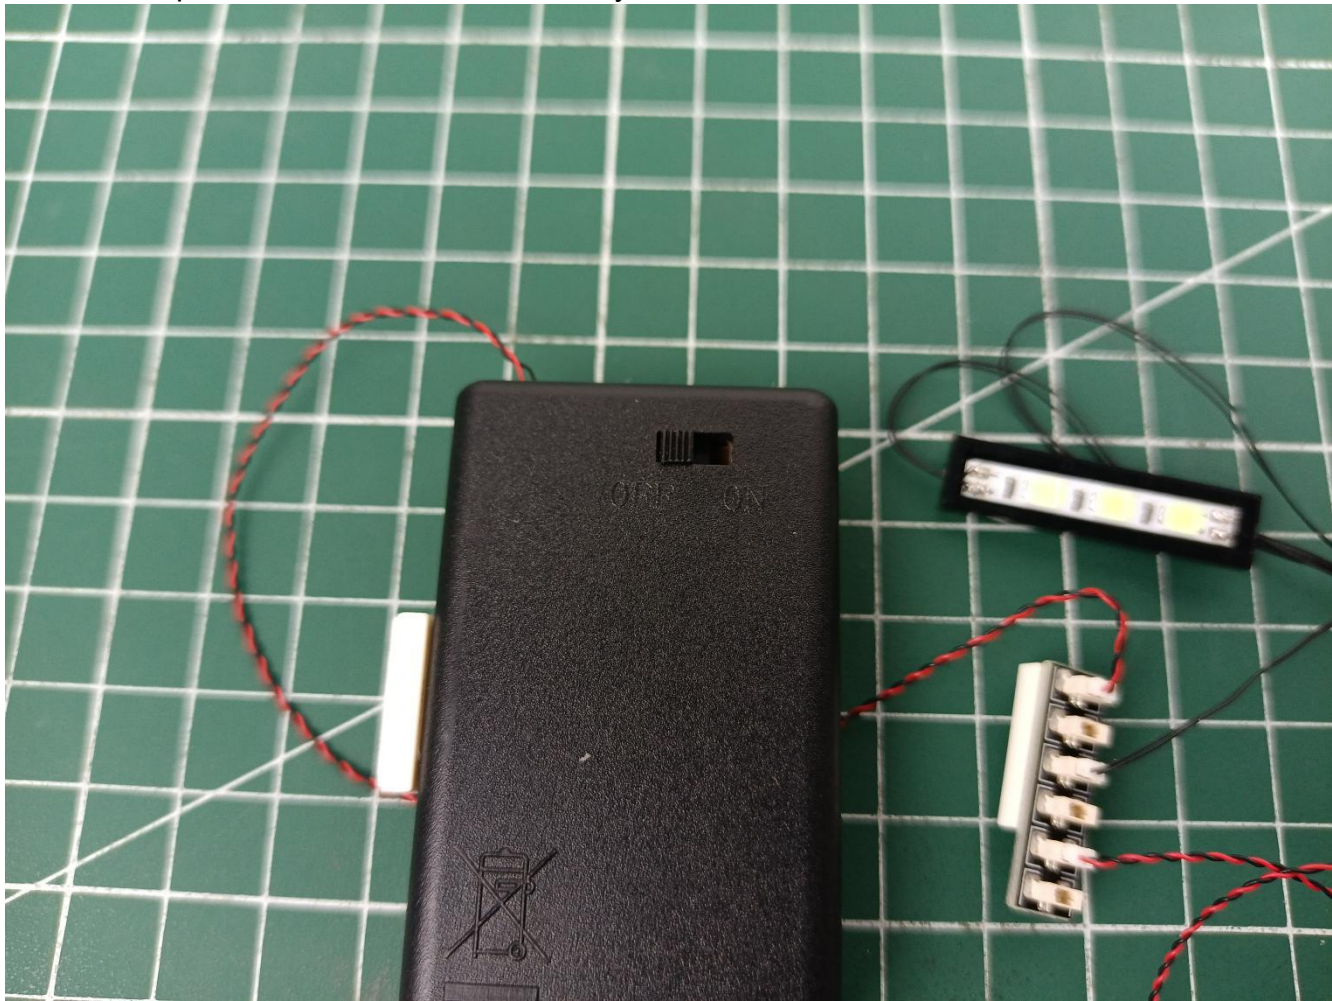

Take out the lighting from the bag labeled "1".

Connect the lighting to the 6-Port Expansion Boards.

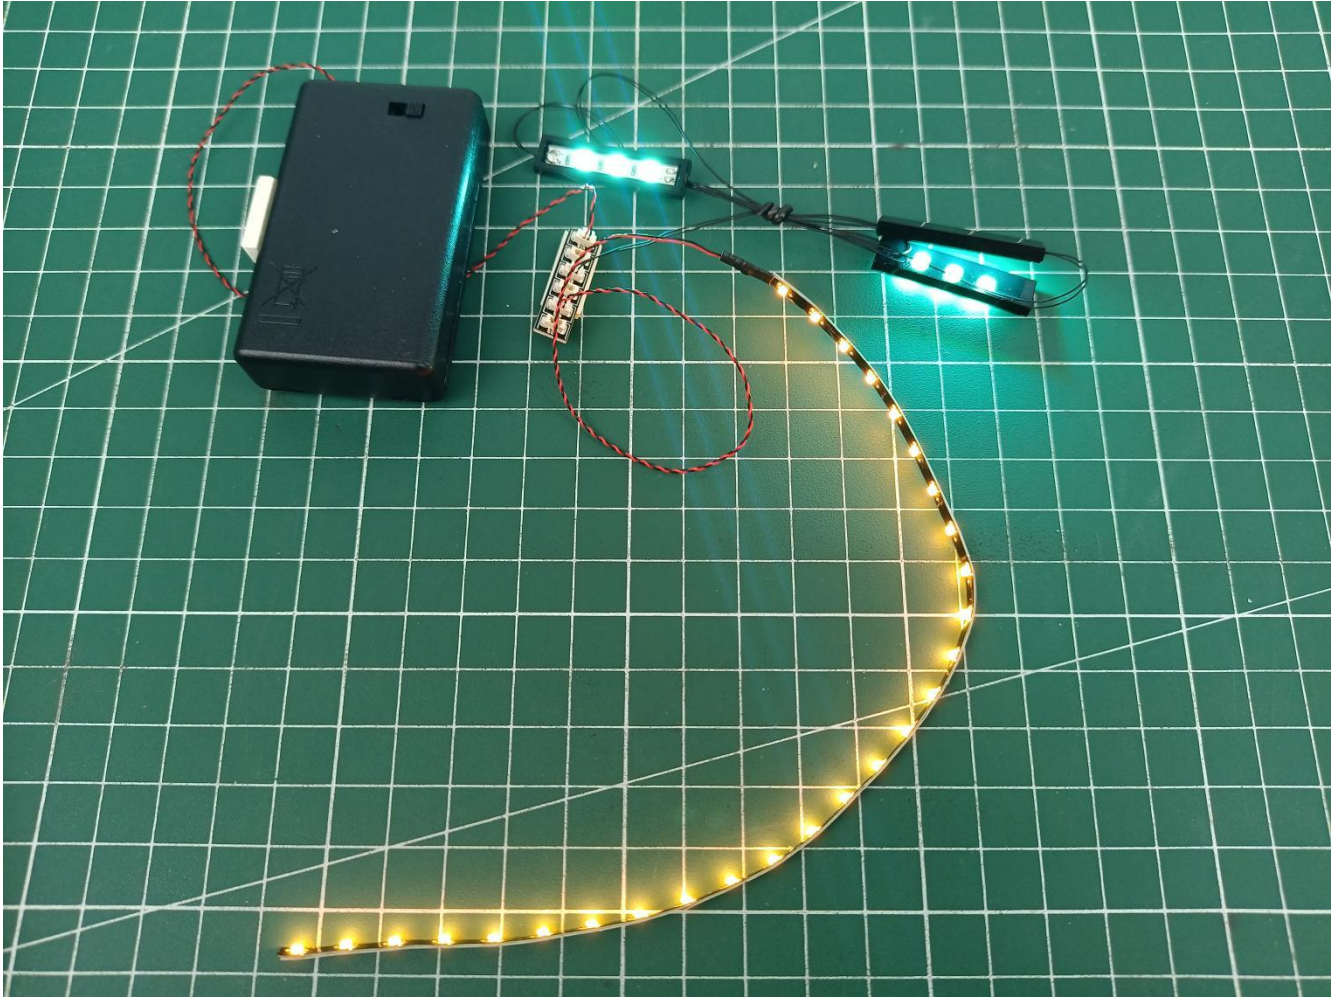

Turn on the power switch of the AAA Battery Pack.

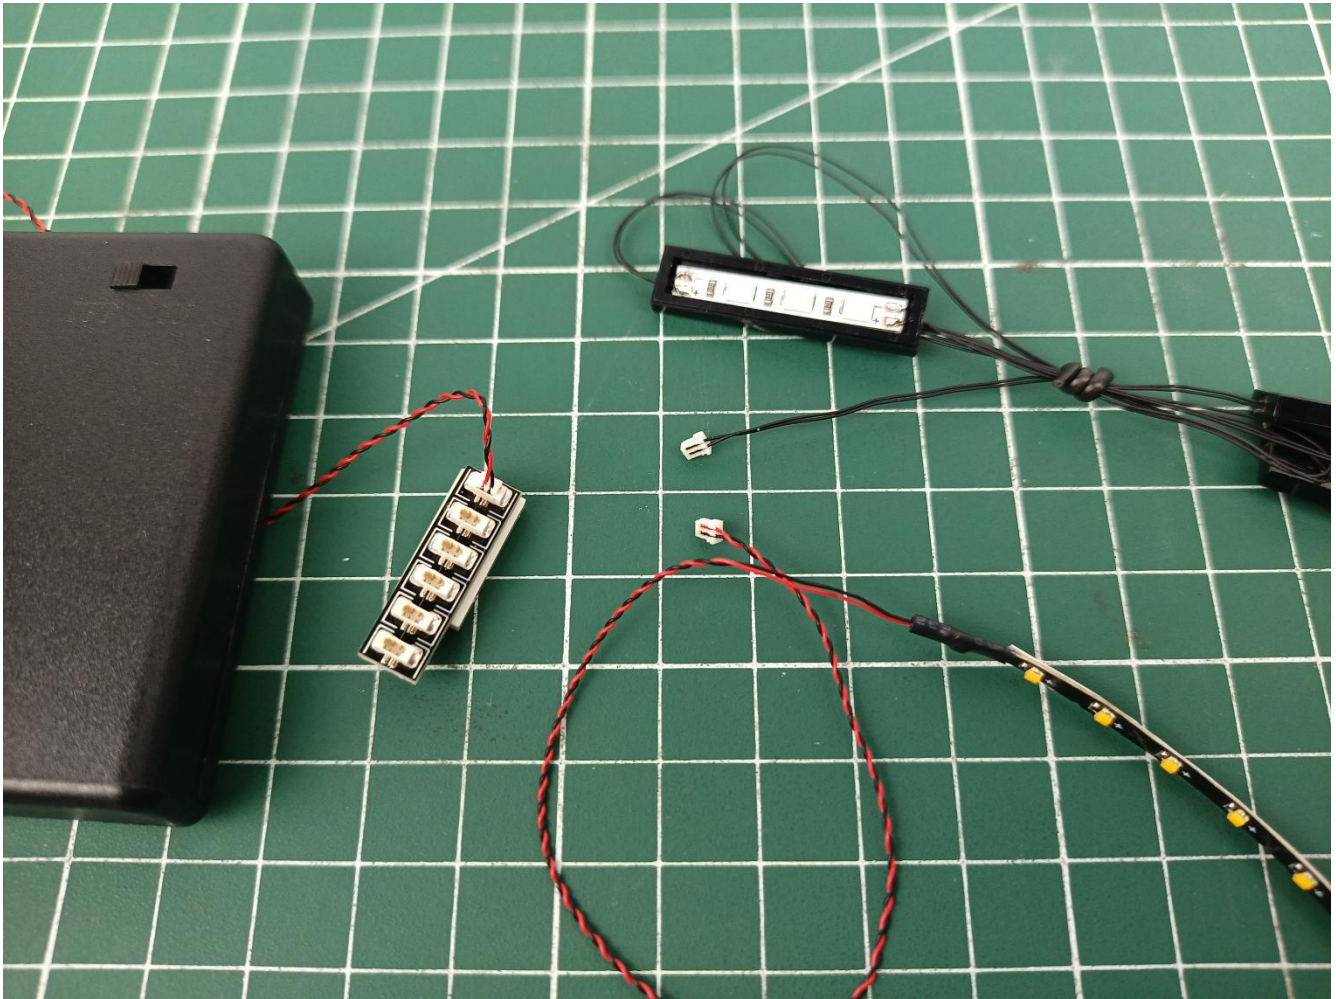

Check whether the lighting is abnormal.

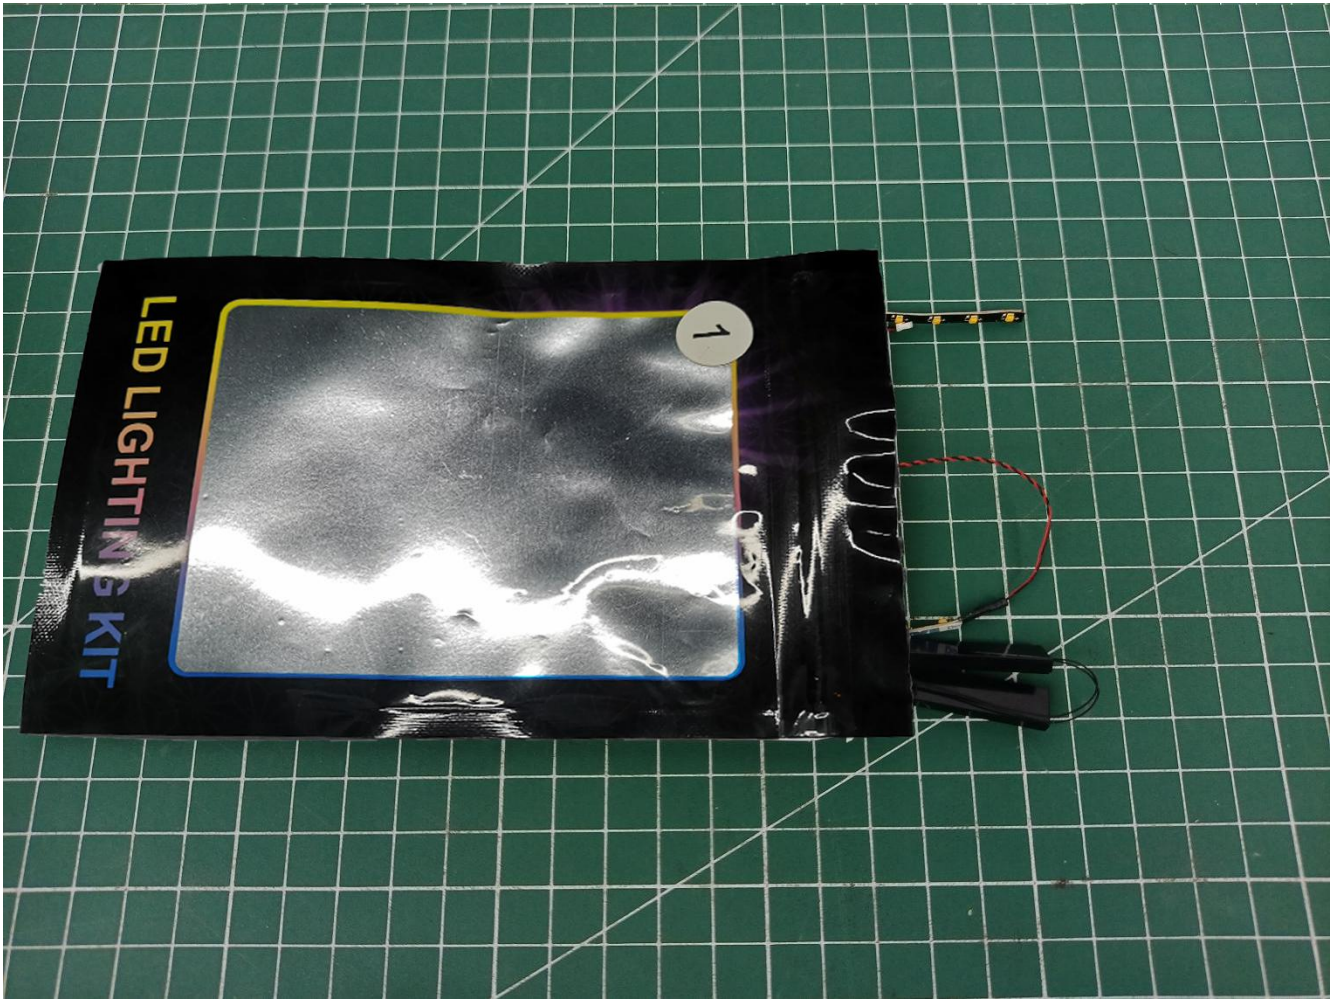

If there is any abnormality, please contact us in time!

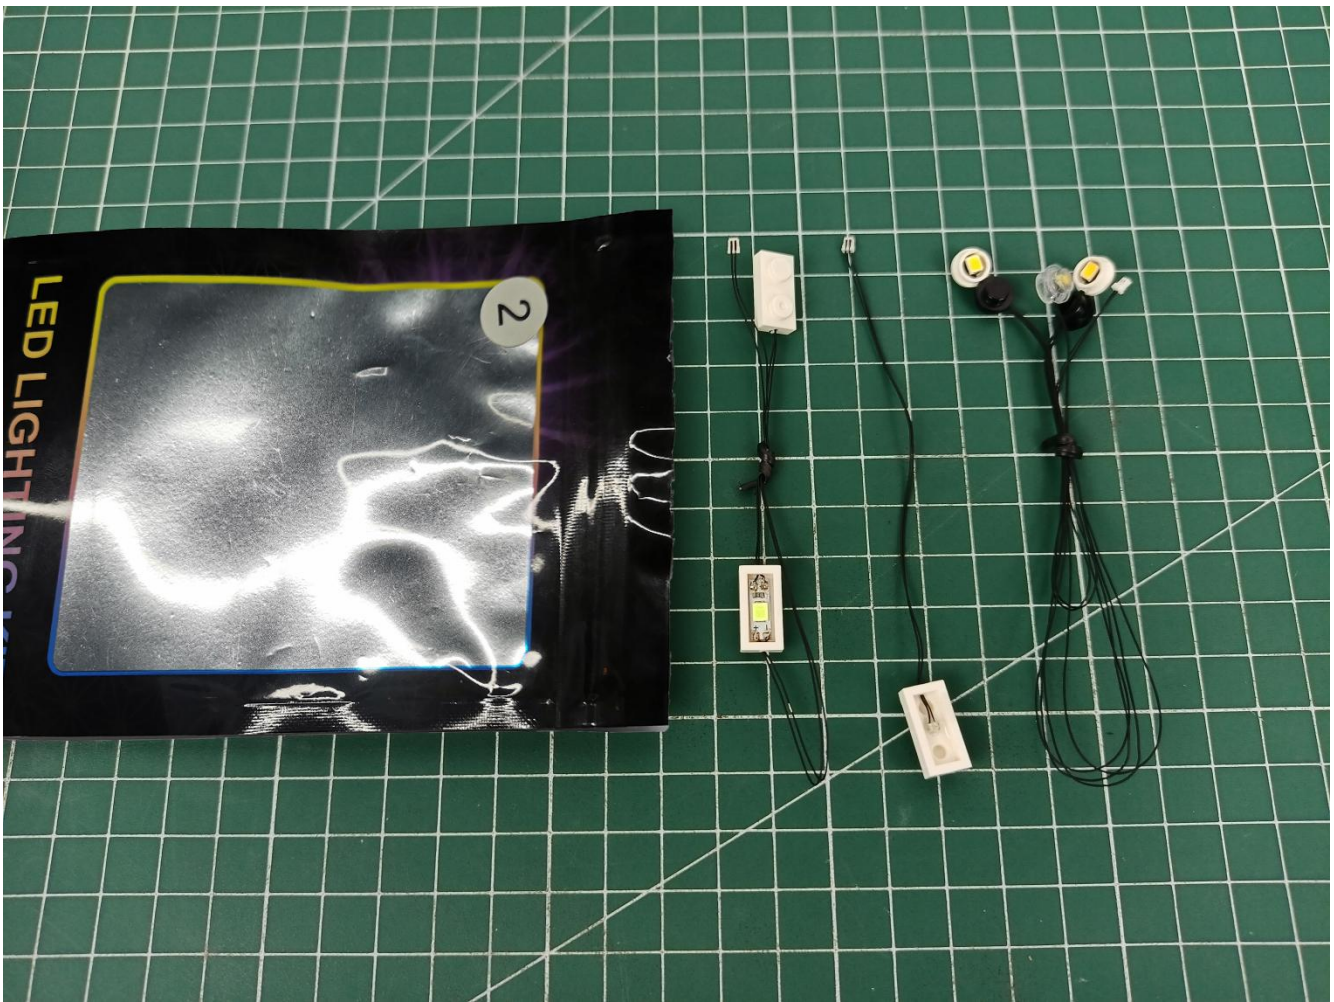

Separate the lighting from 6-Port Expansion Boards.

Put the lighting back into the bag labeled "1".

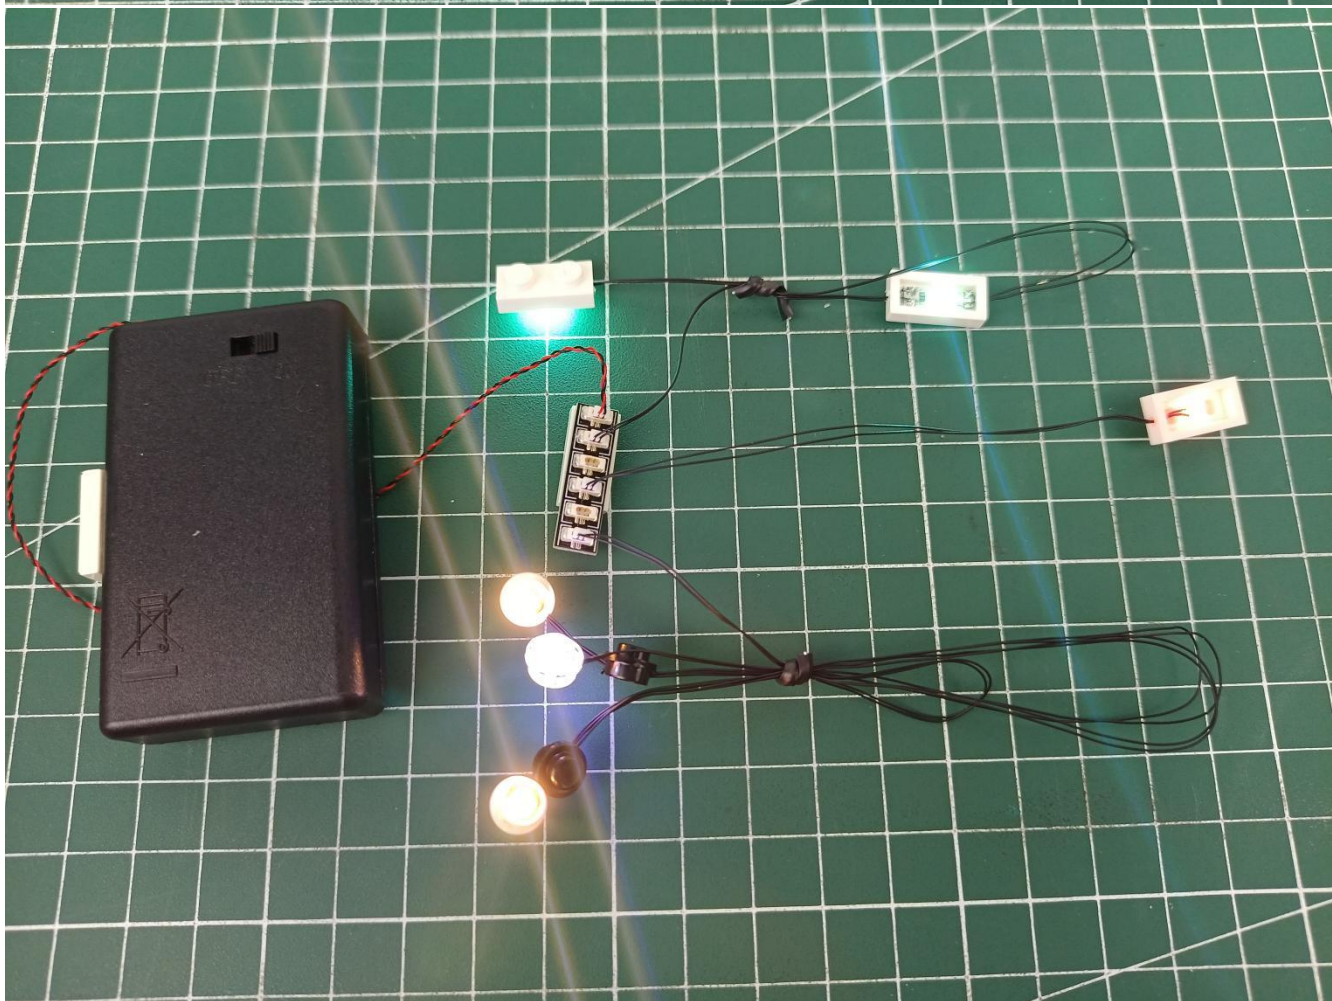

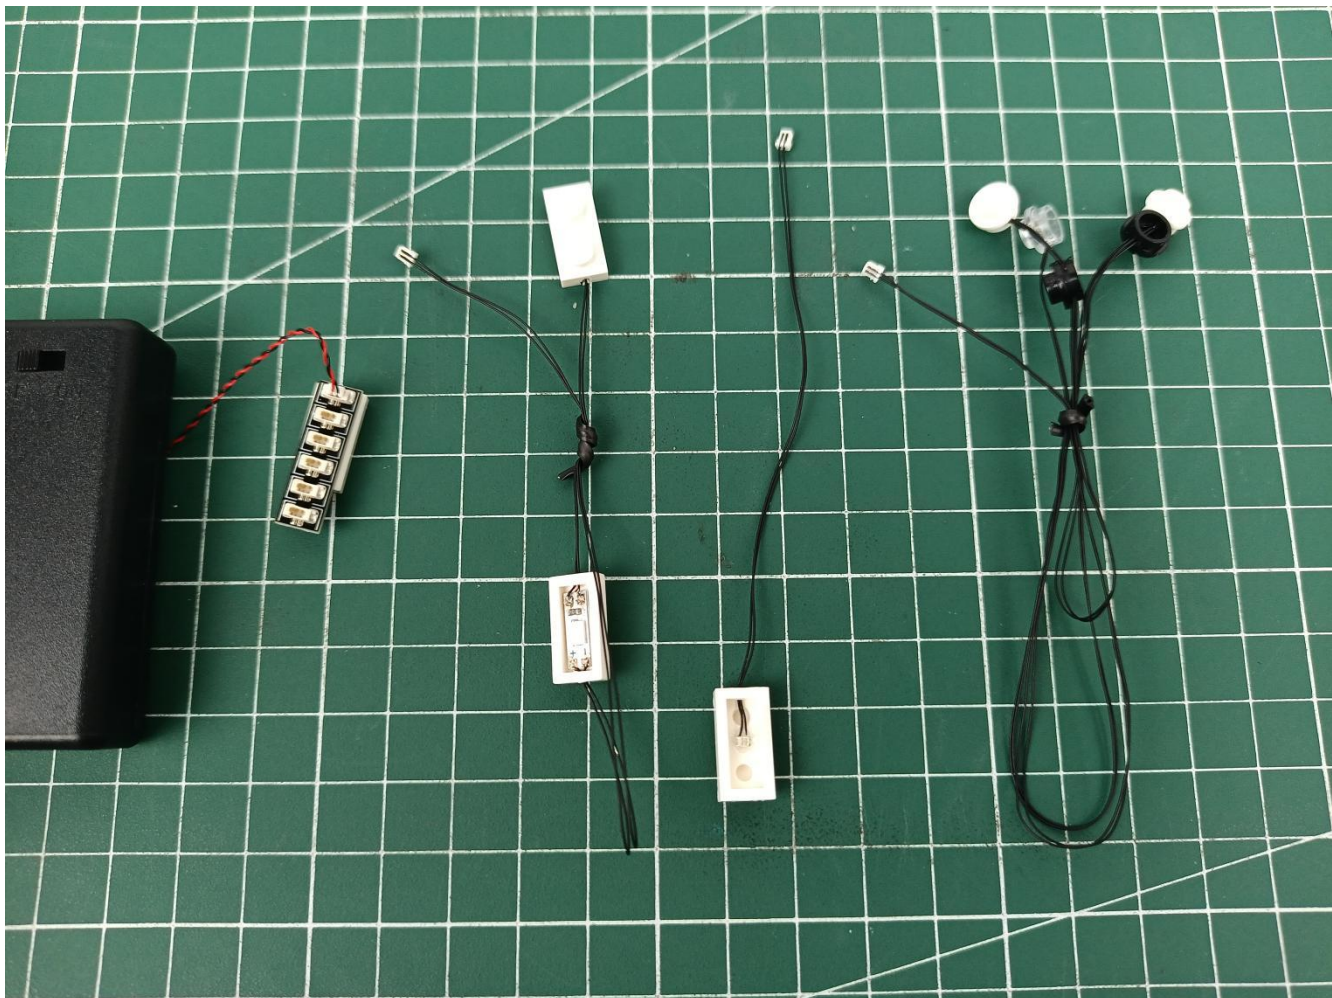

Take out the lighting from the bag labeled "2".

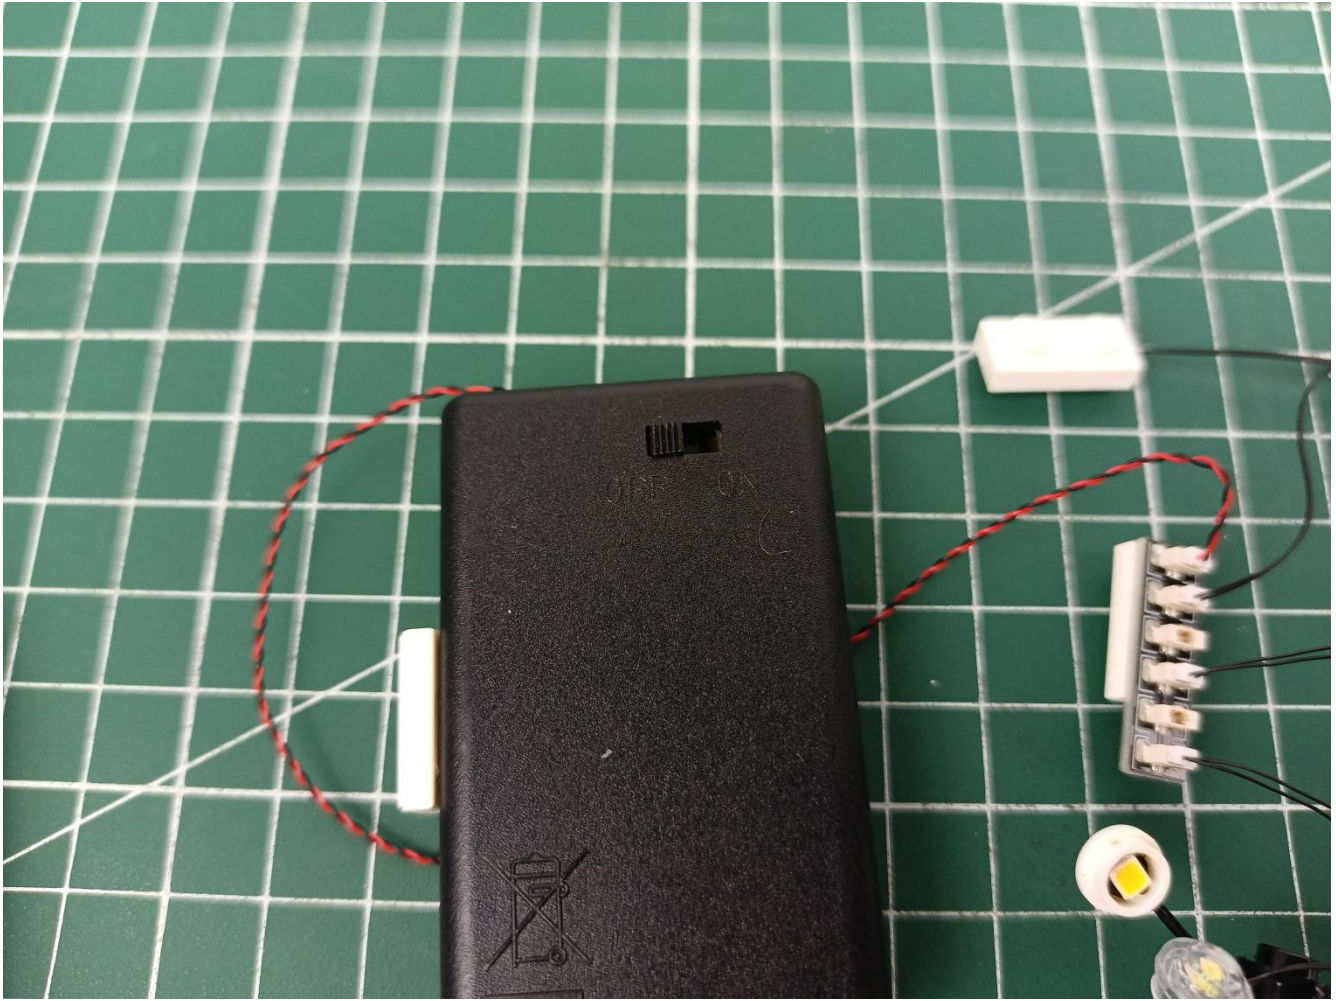

Connect the lighting to the 6-Port Expansion Boards.
Check whether the lighting is abnormal.

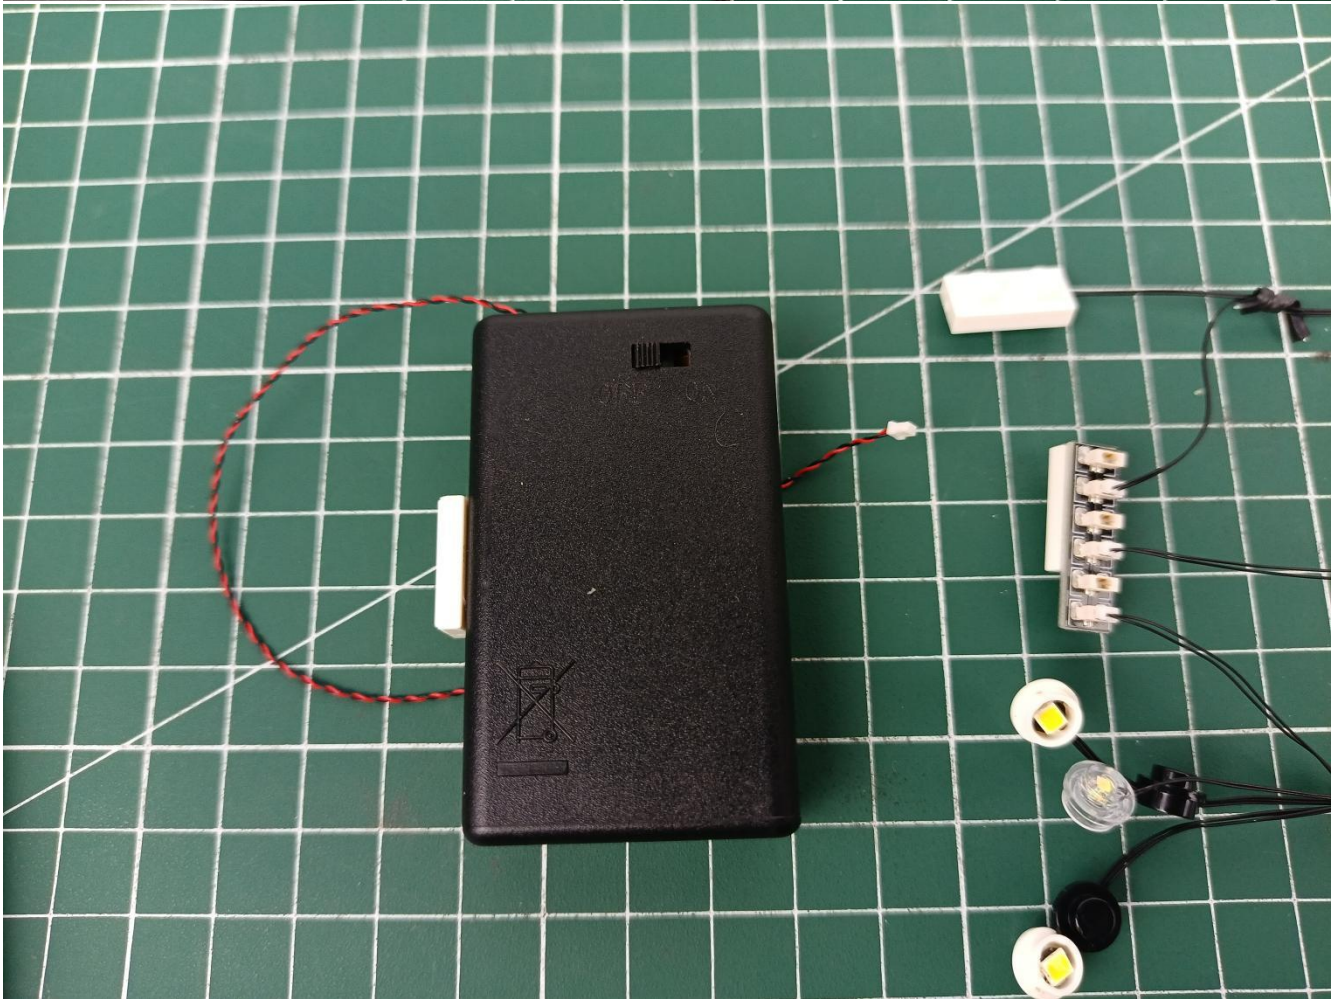

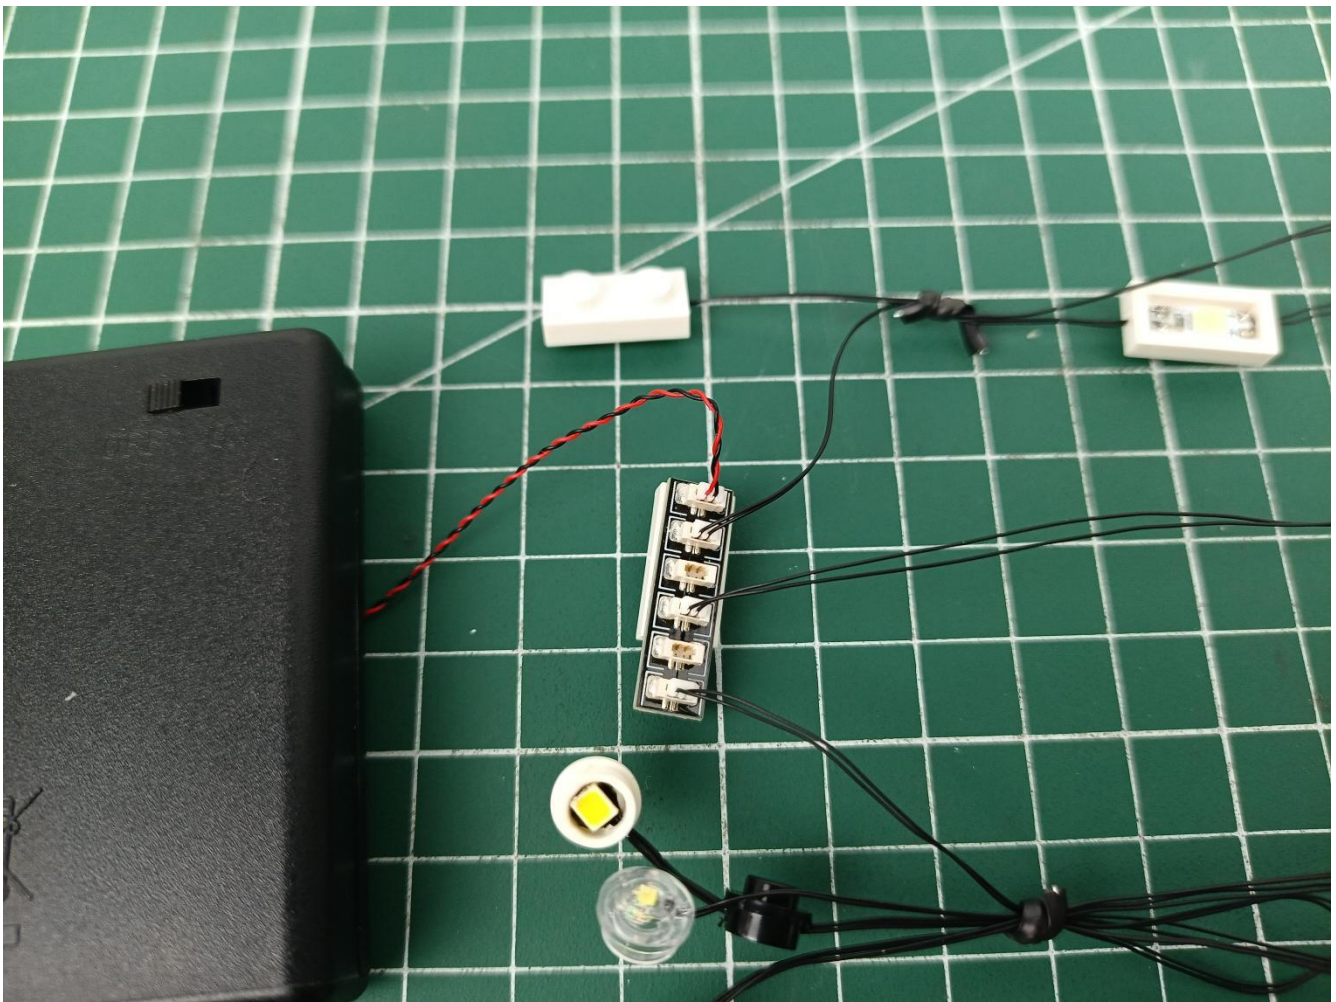

If there is any abnormality, please contact us in time!

Turn off the power switch of the AAA Battery Pack.

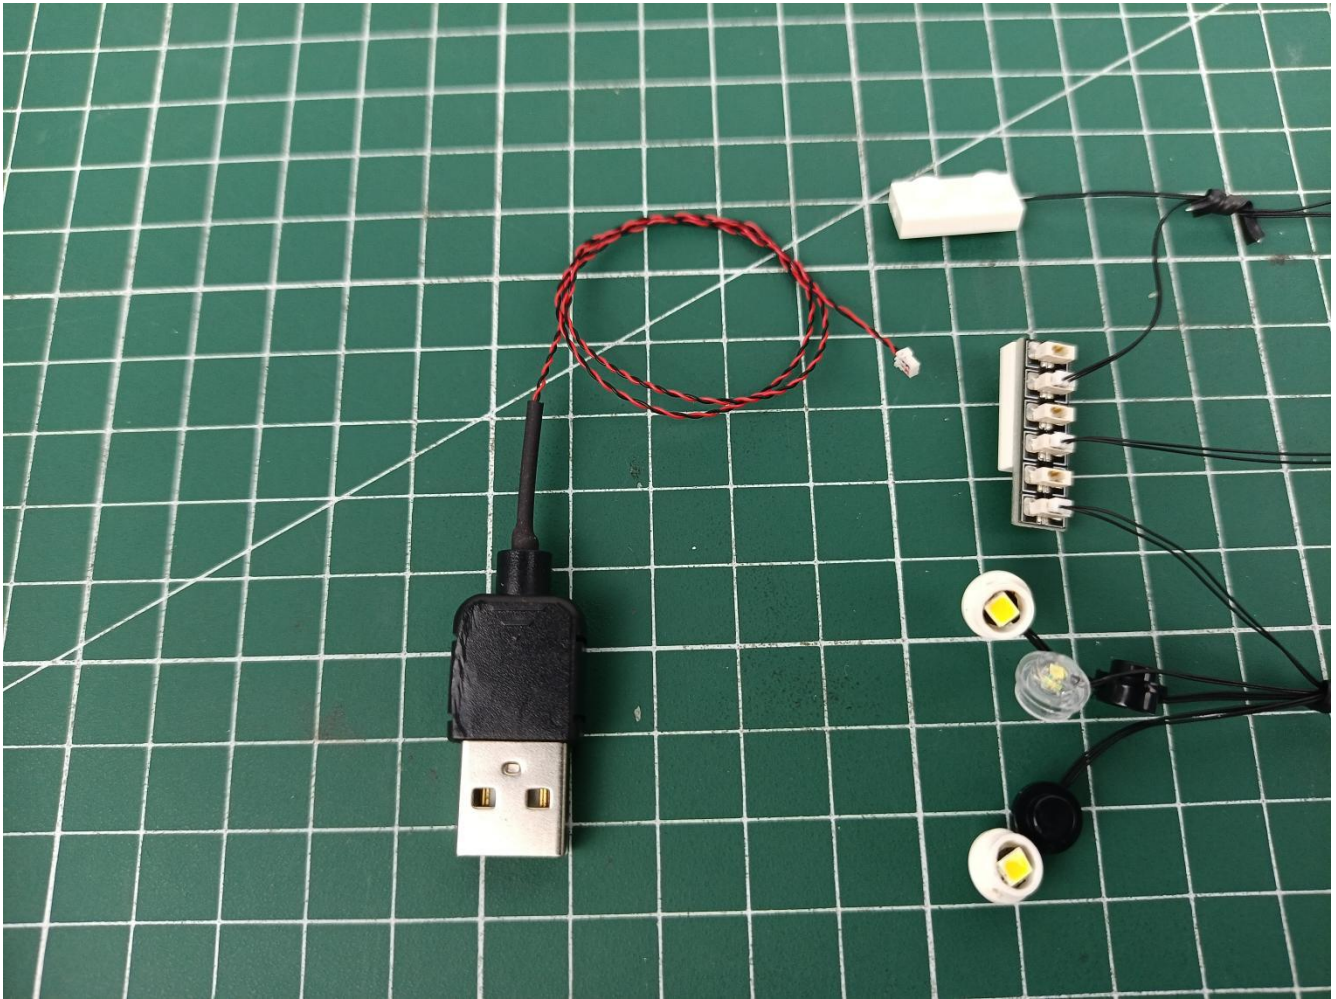

Separate AAA Battery Pack from 6-Port Expansion Boards.

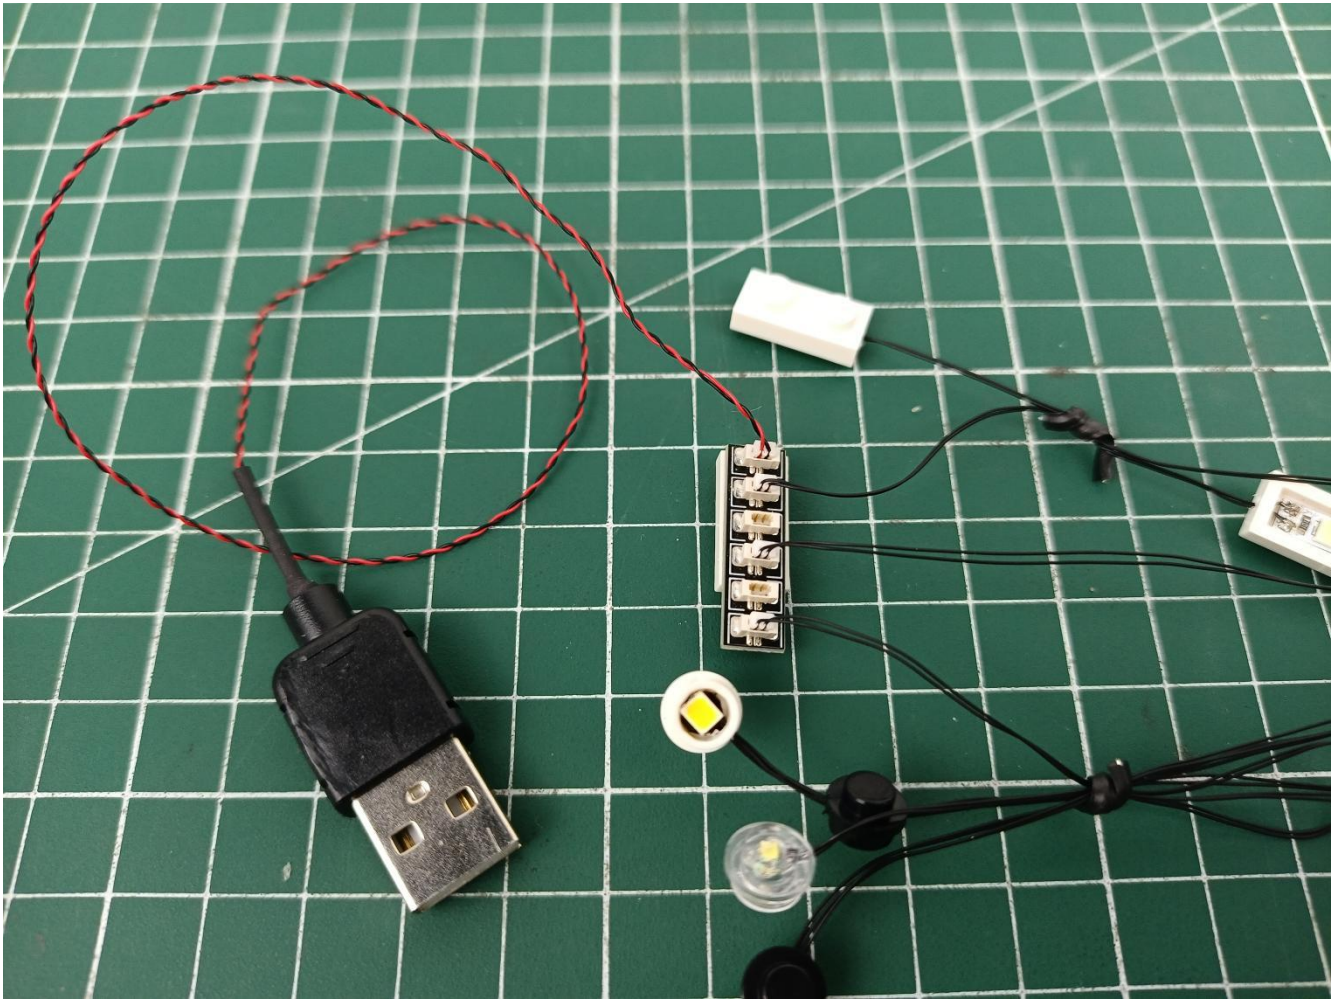

Put the AAA Battery Pack back in place.

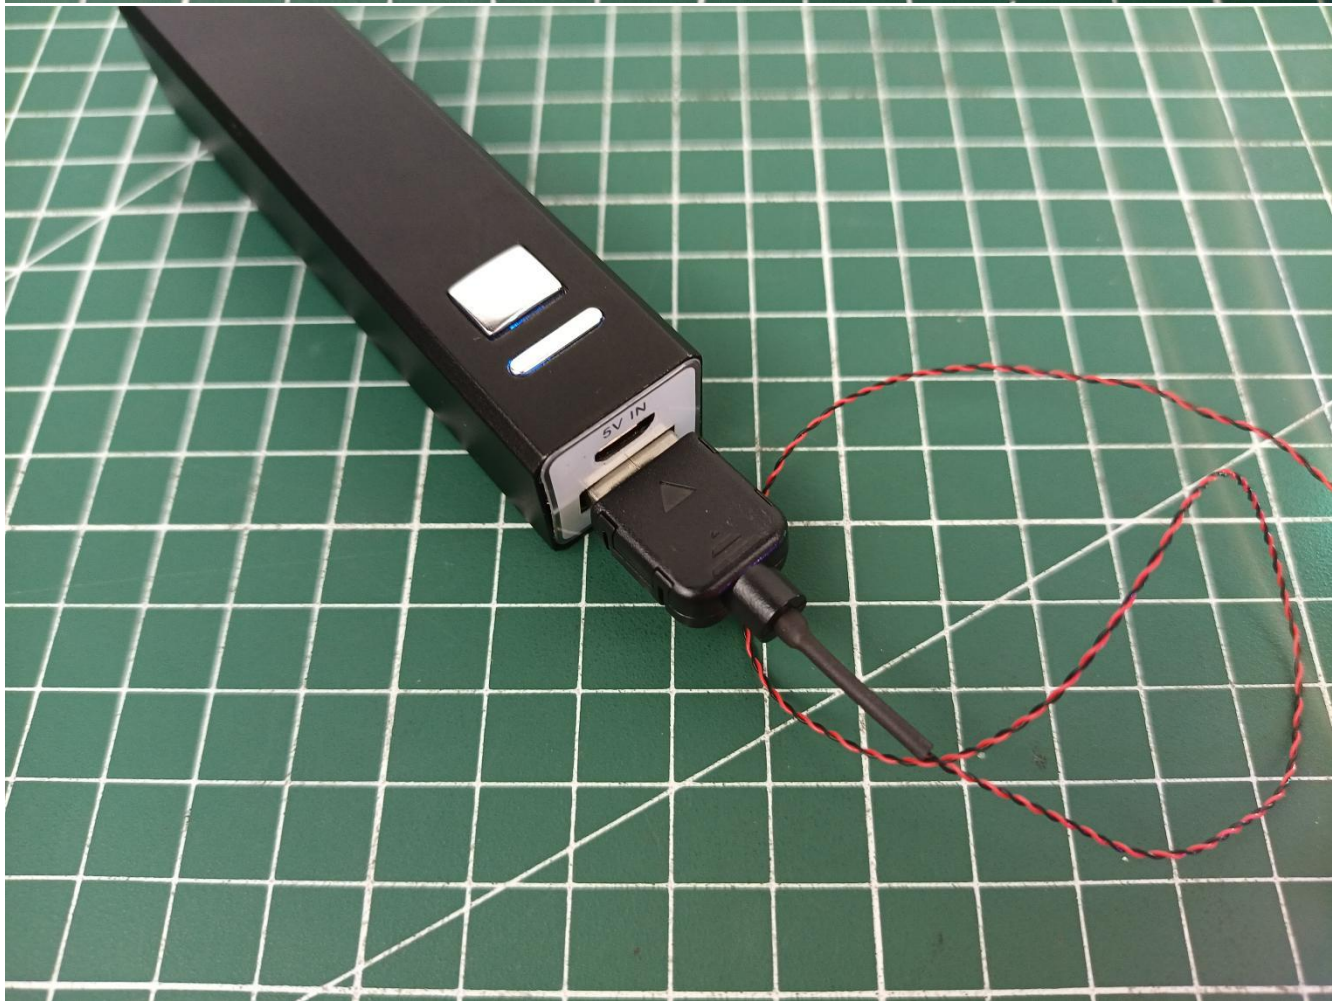

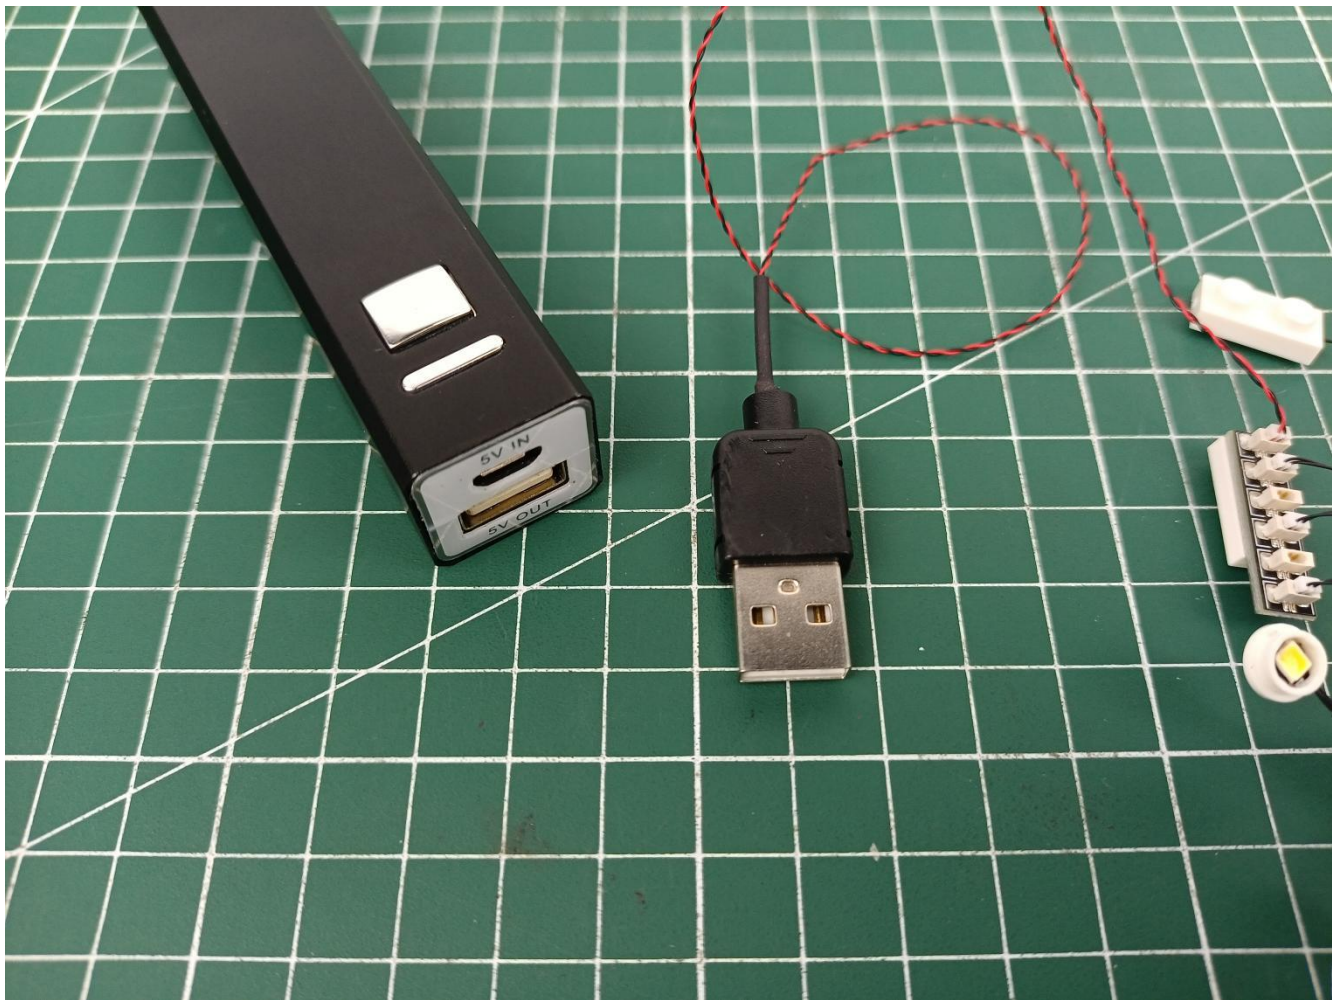

Take out the 30CM USB power cord.

Connect the 30CM USB power cable to 6-Port Expansion Boards.

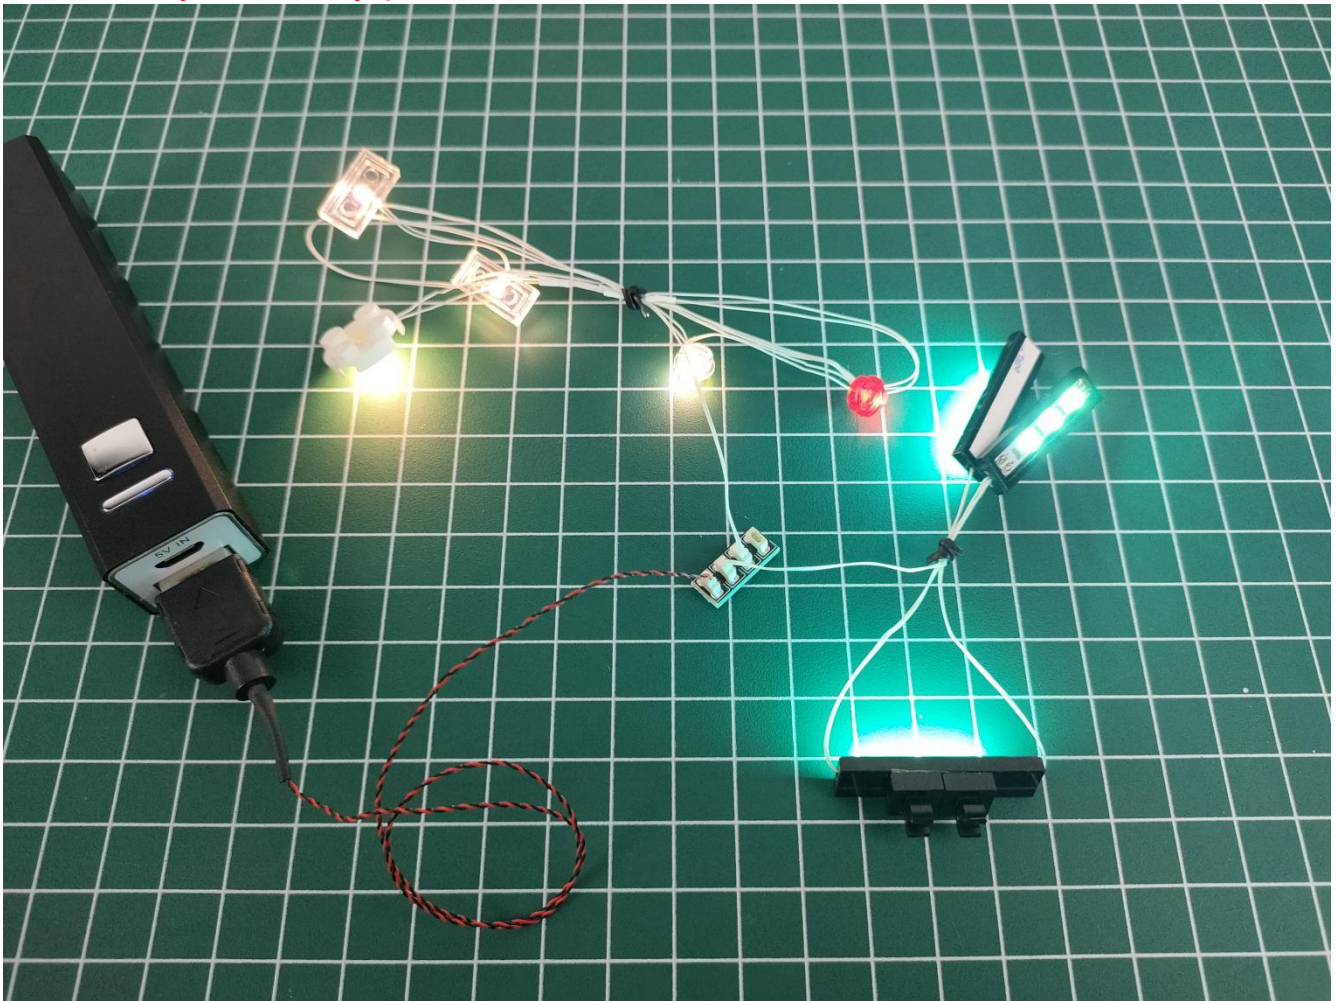

Take out the charging and connect the USB power cord to the power bank (please bring your own power bank).

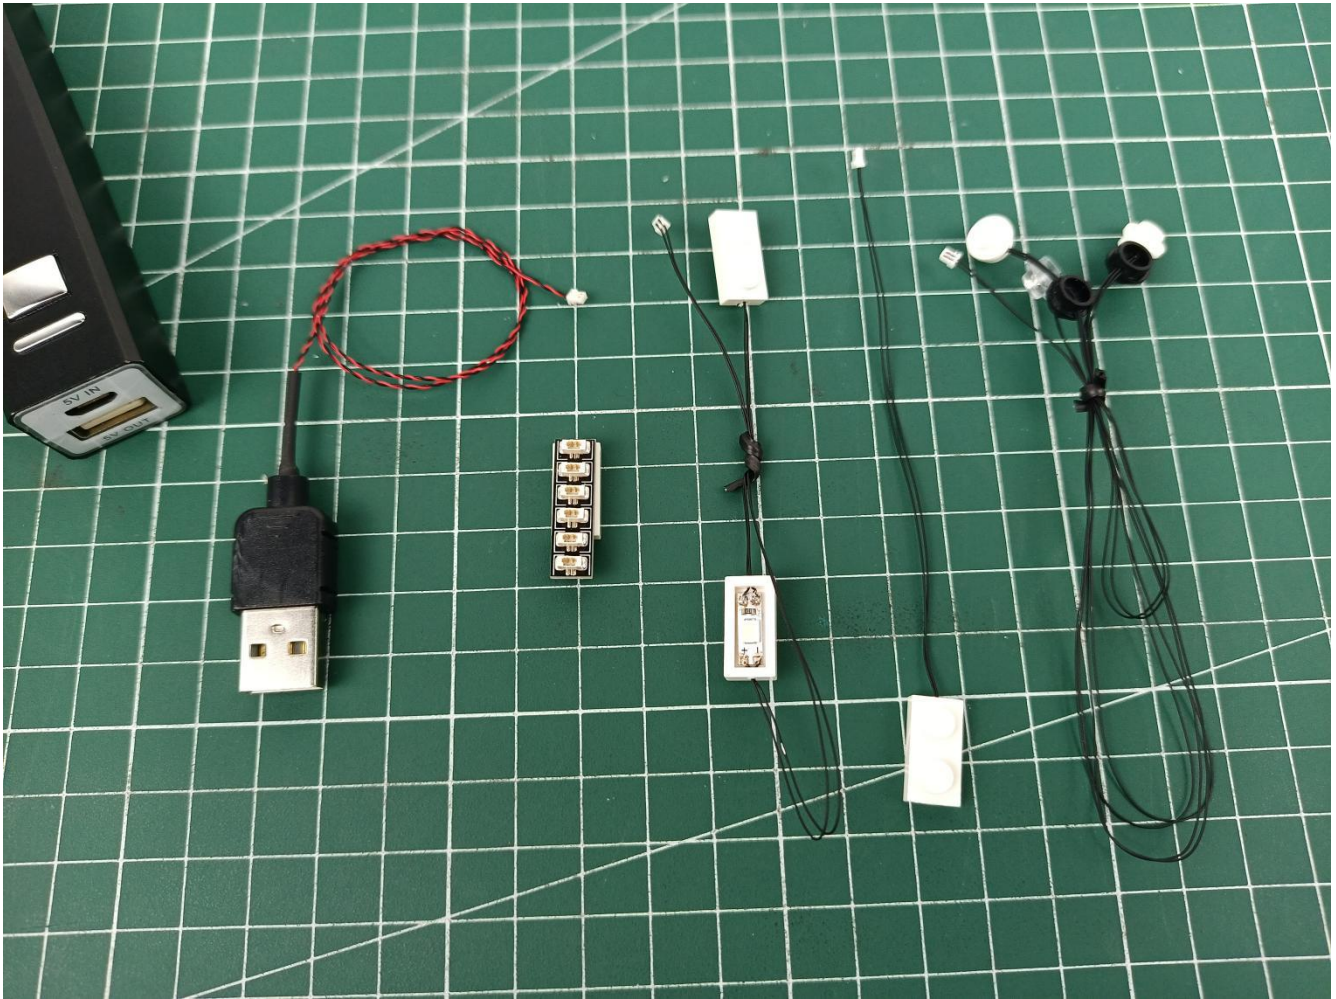

Check whether the lighting is abnormal.

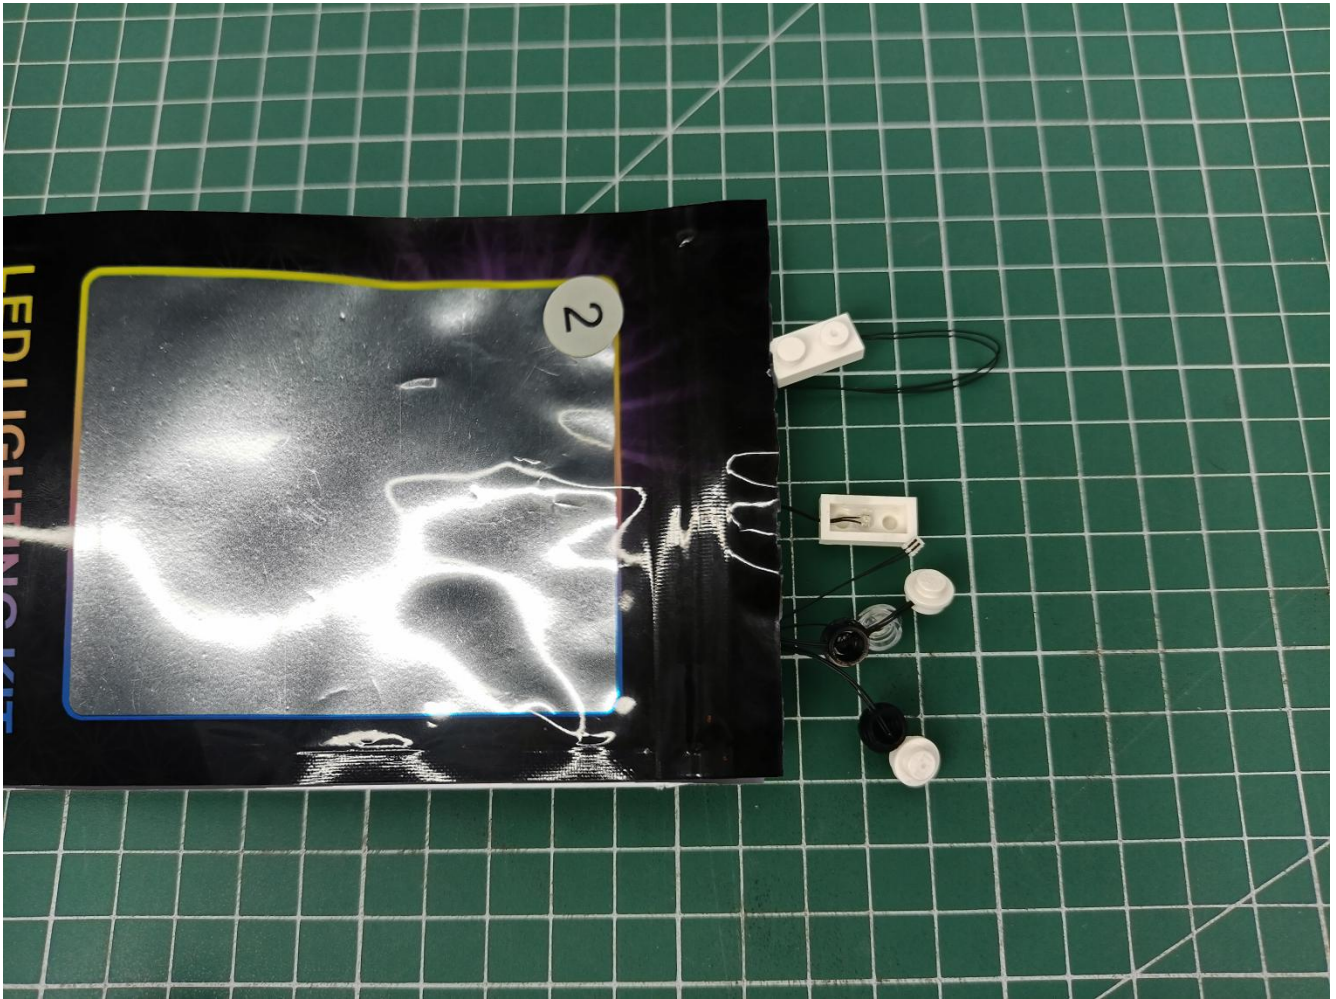

If there is any abnormality, please contact us in time!

Separate all parts.

Put the lighting back into the bag marked "2", and be careful not to lose it.

Put the 30CM USB power cord, and expansion board back into their respective bags.

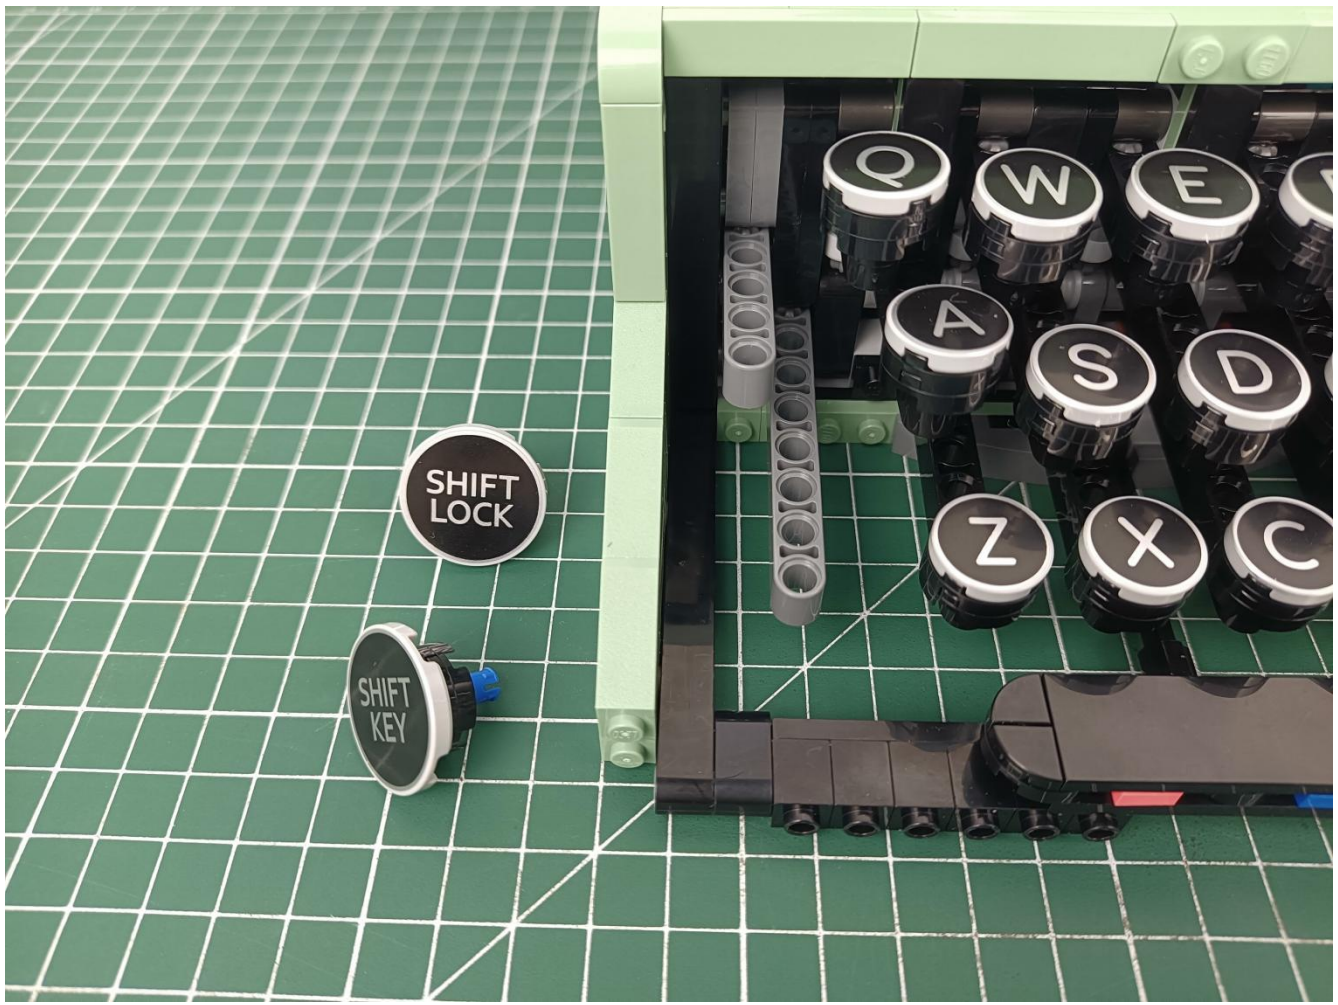

start installation:

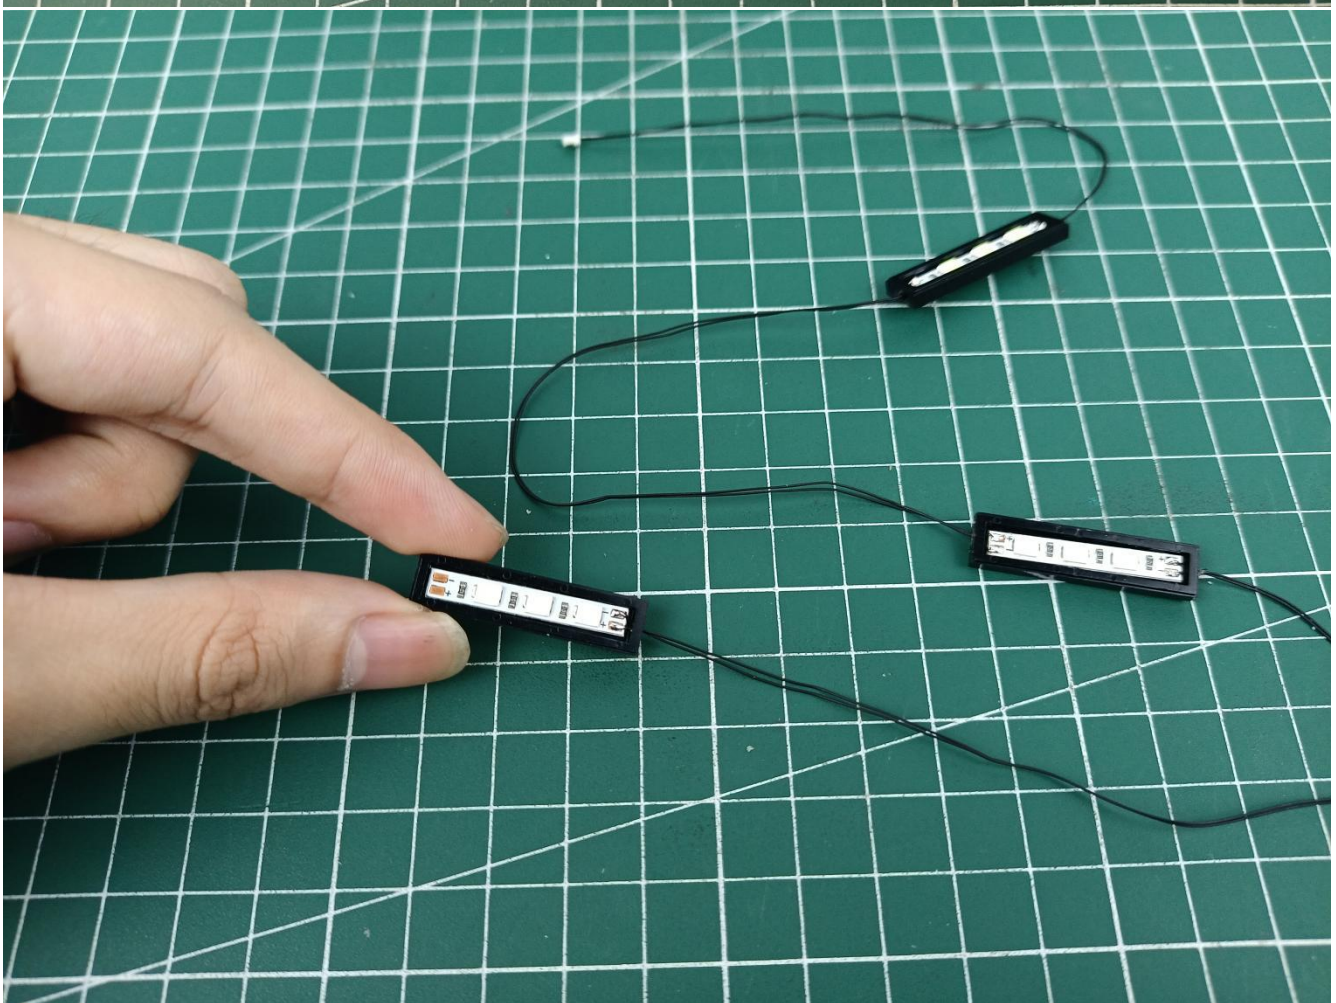

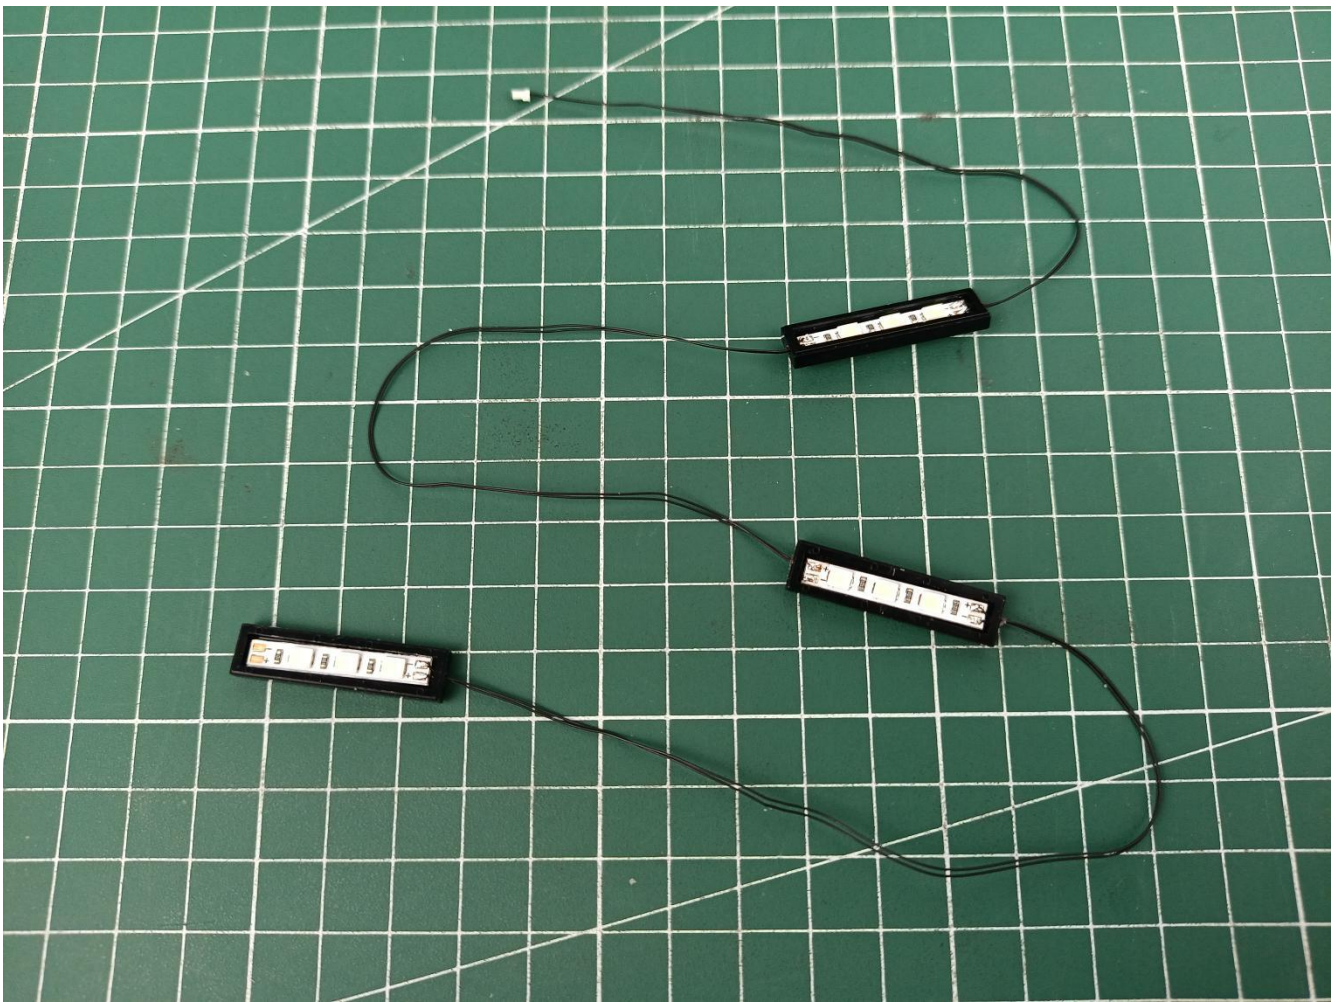

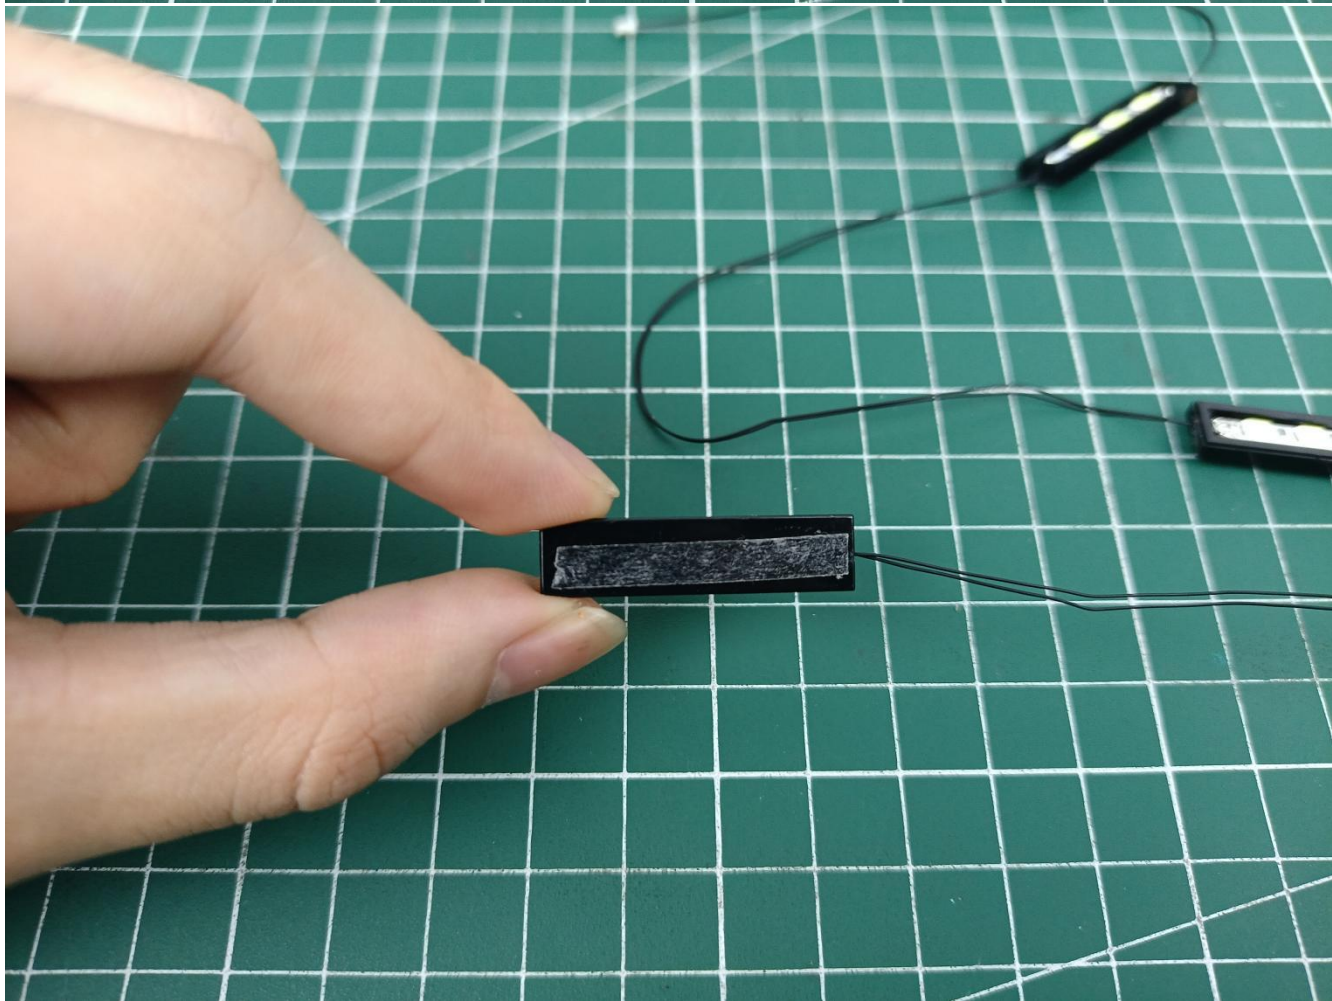

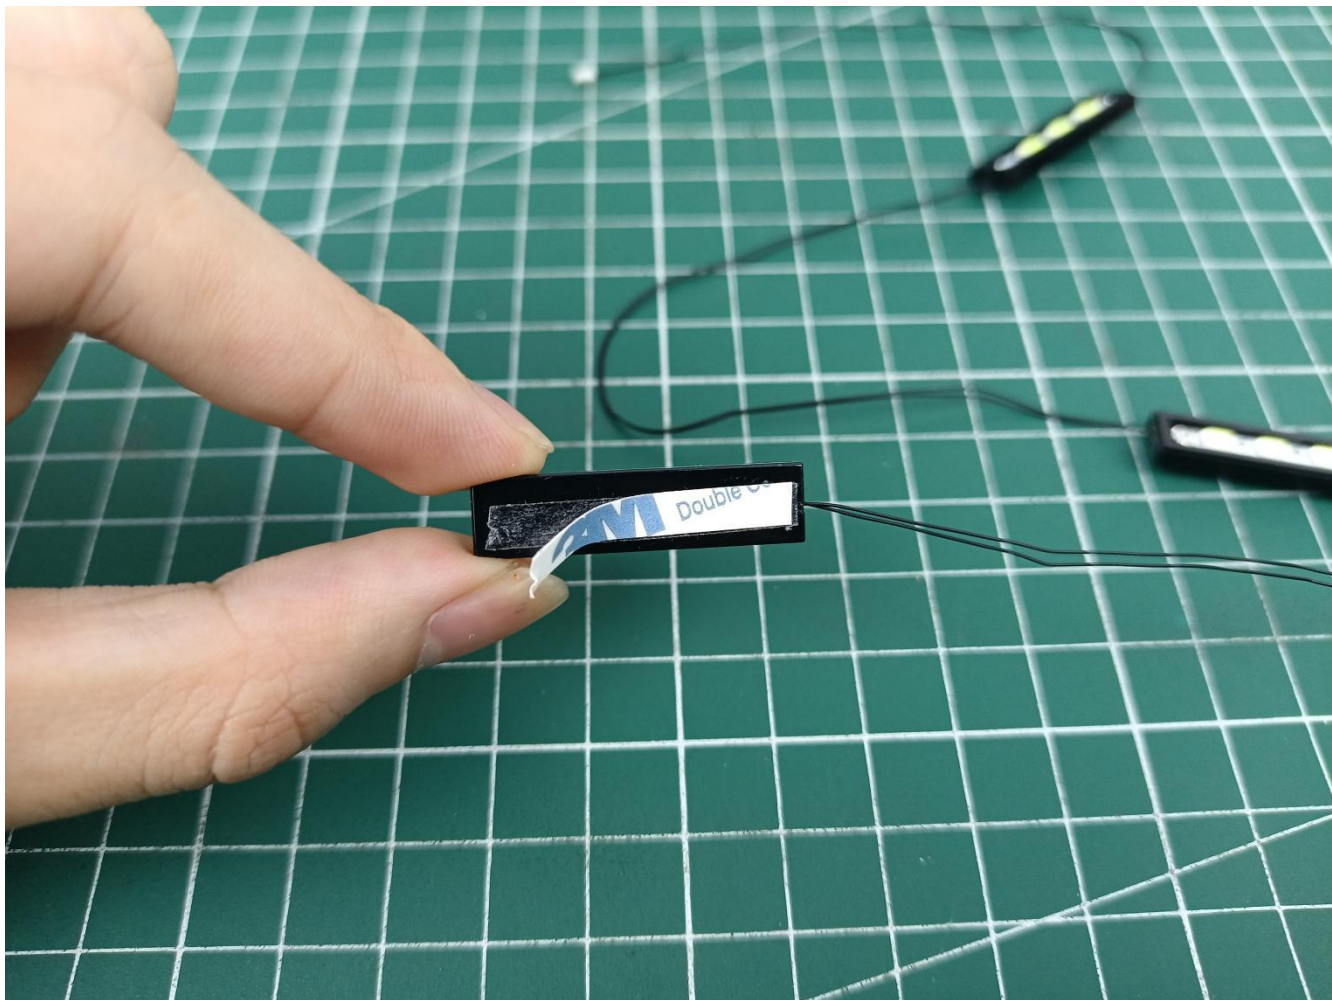

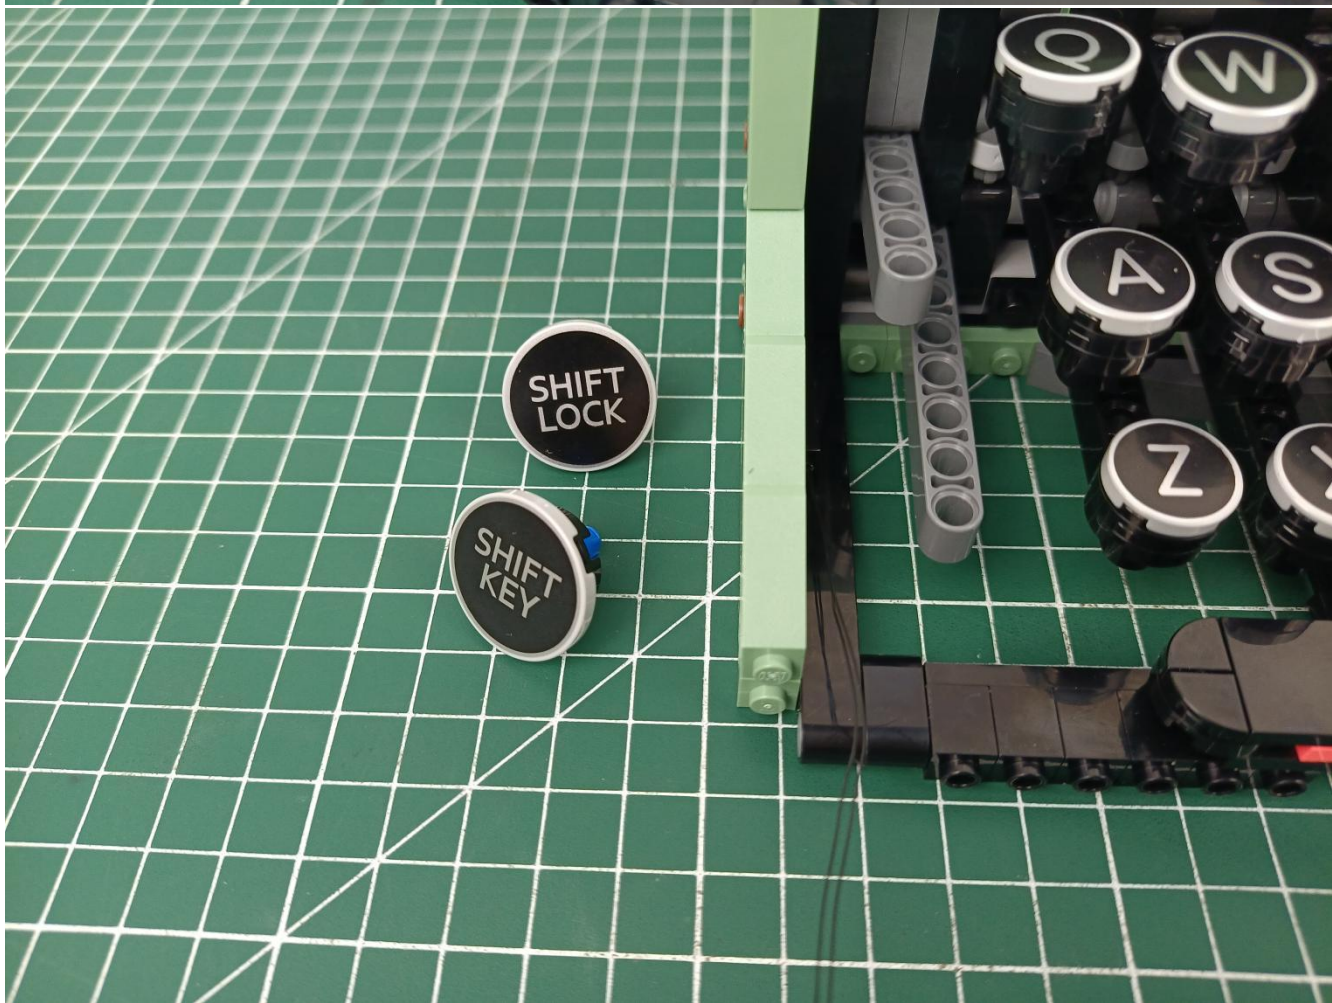

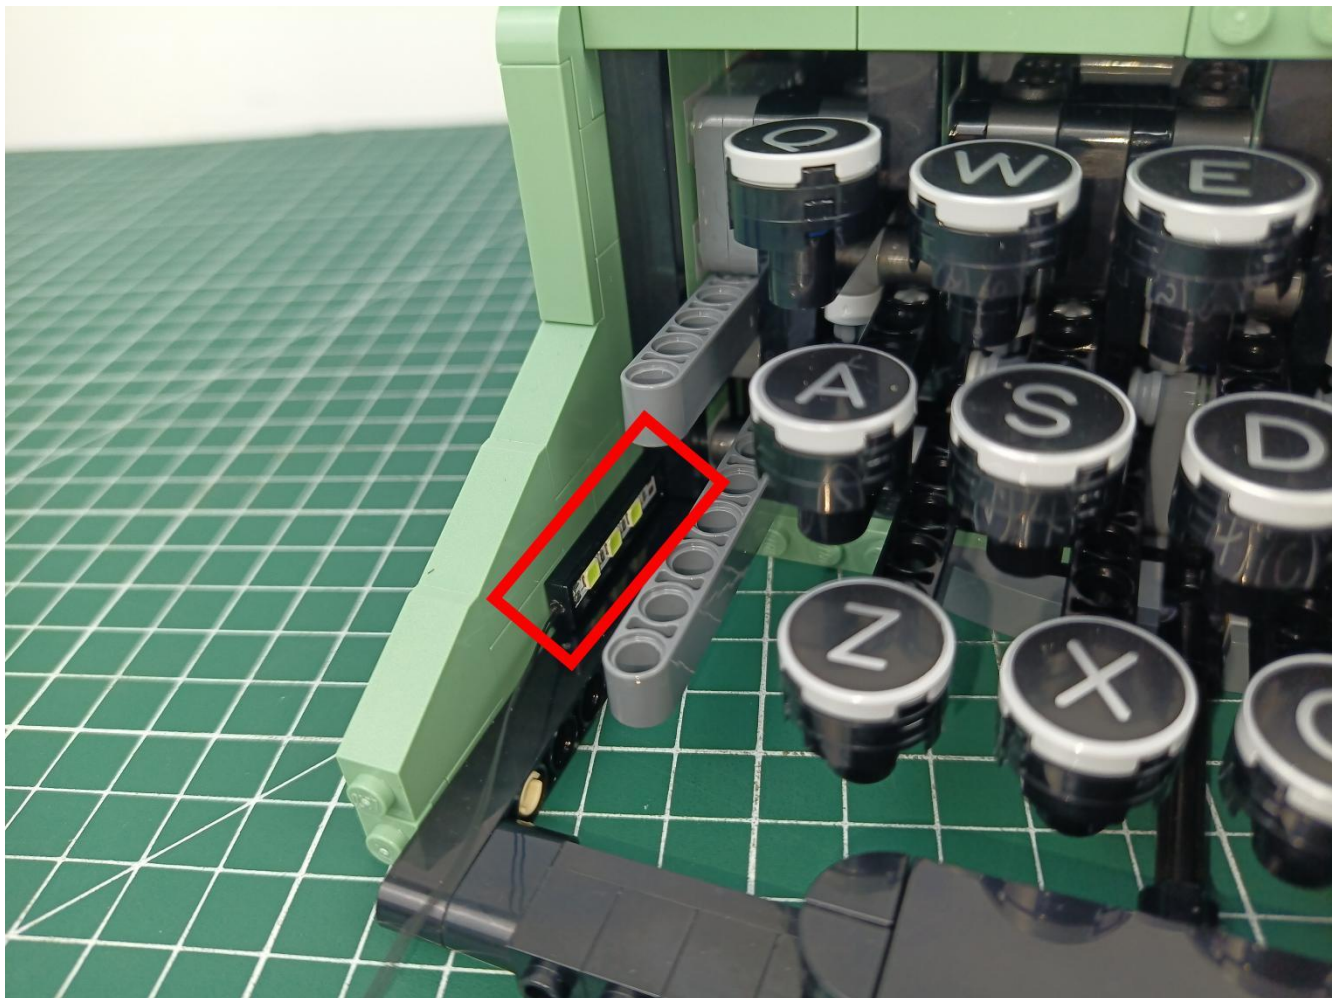

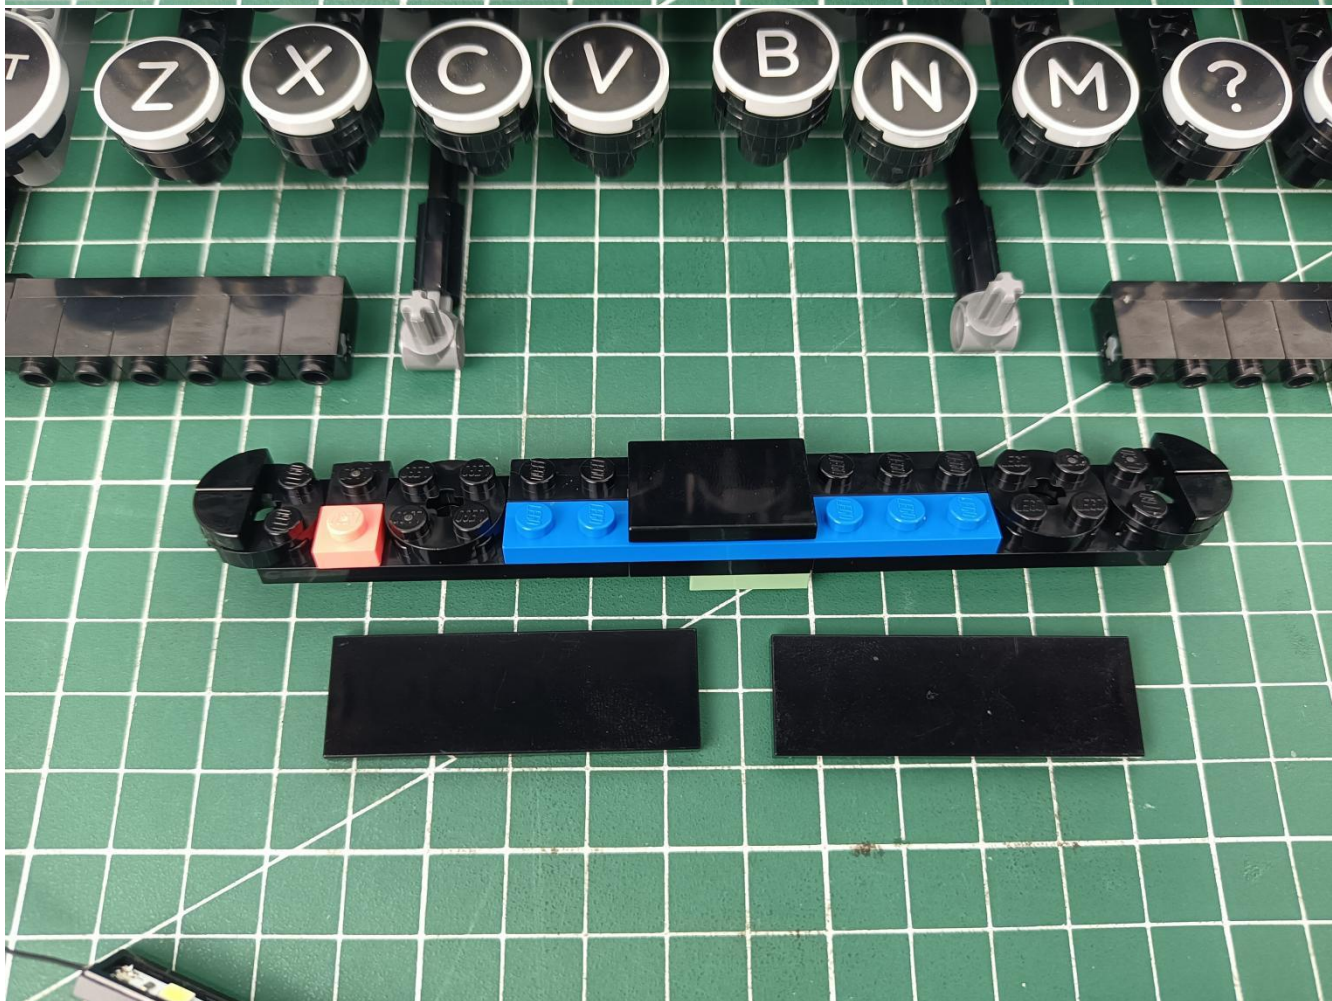

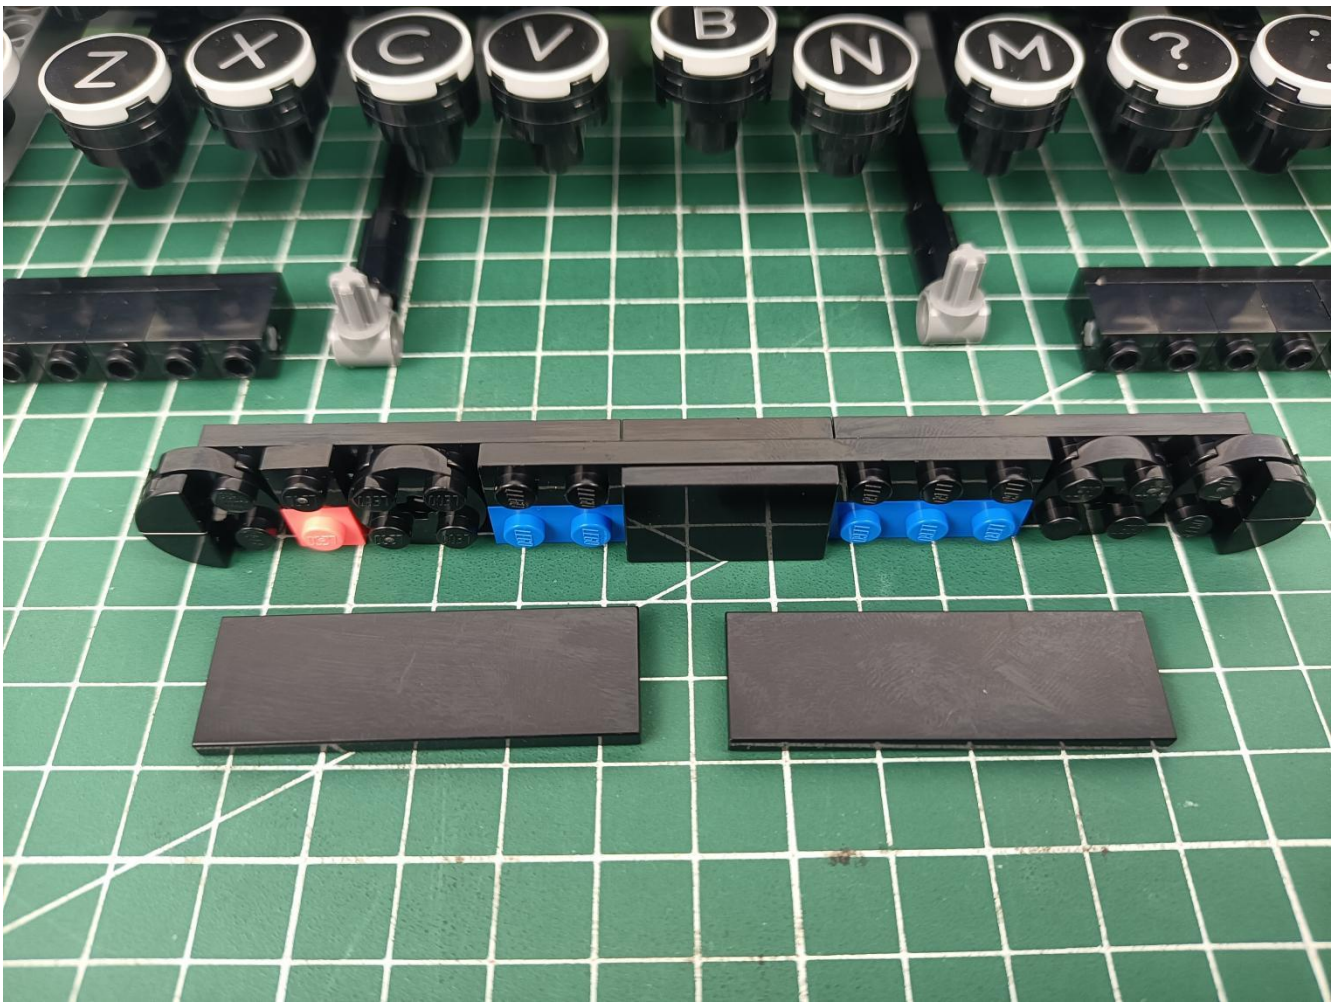

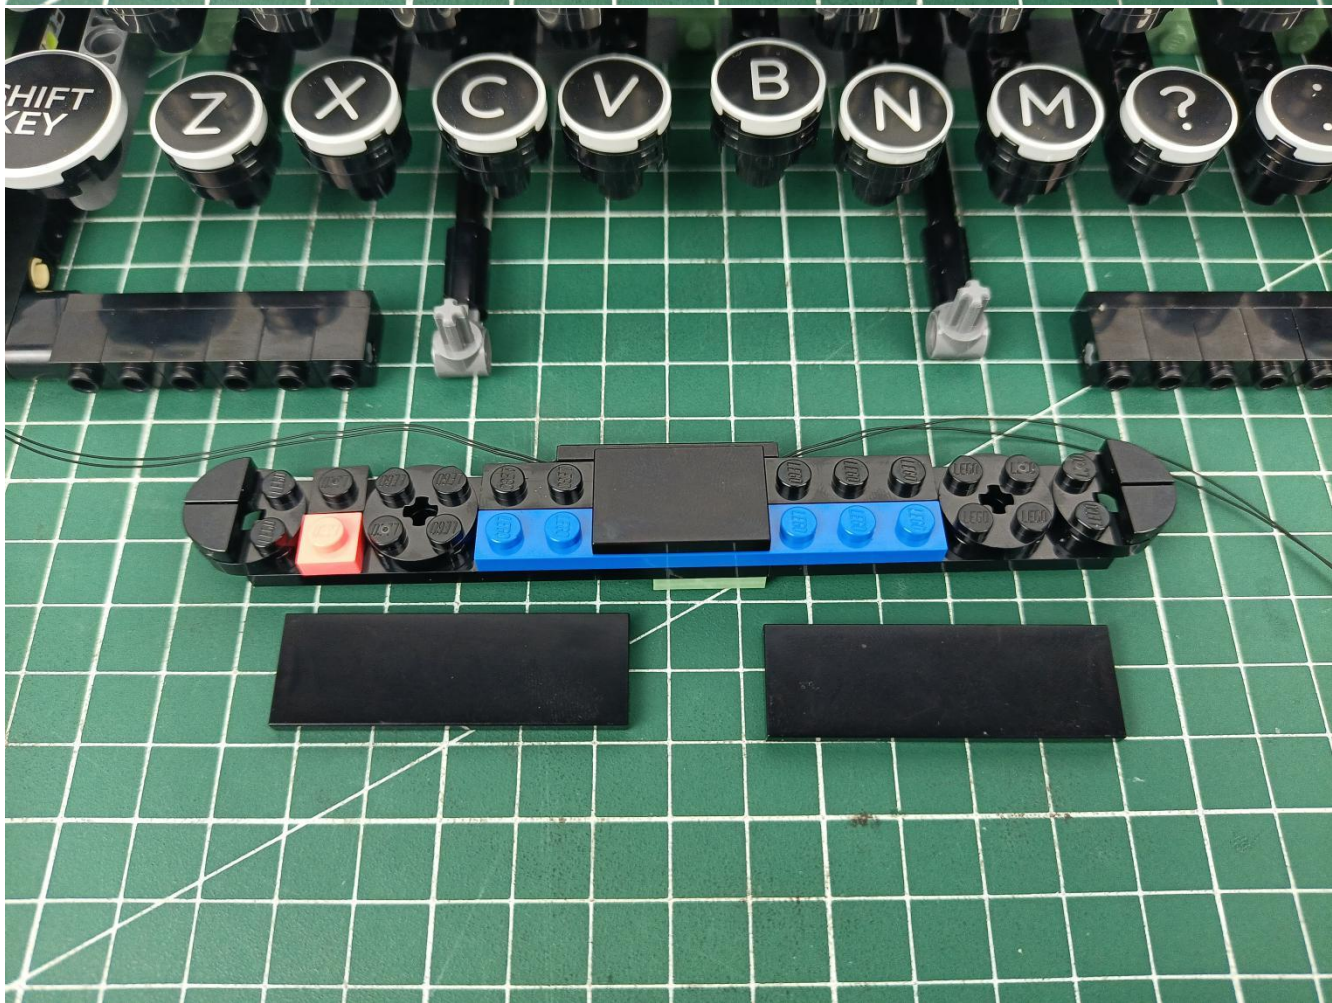

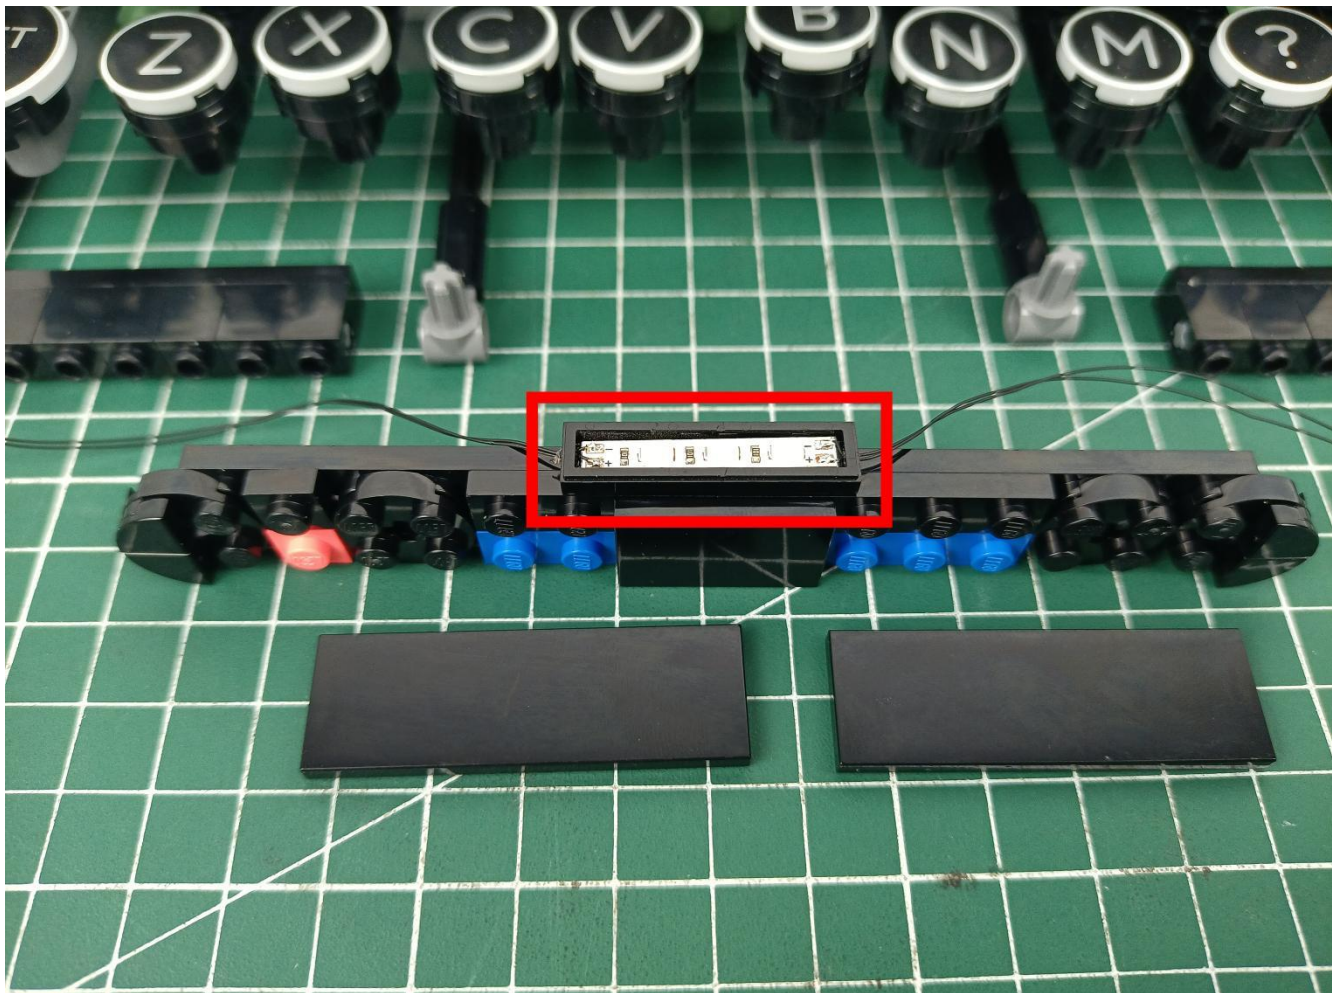

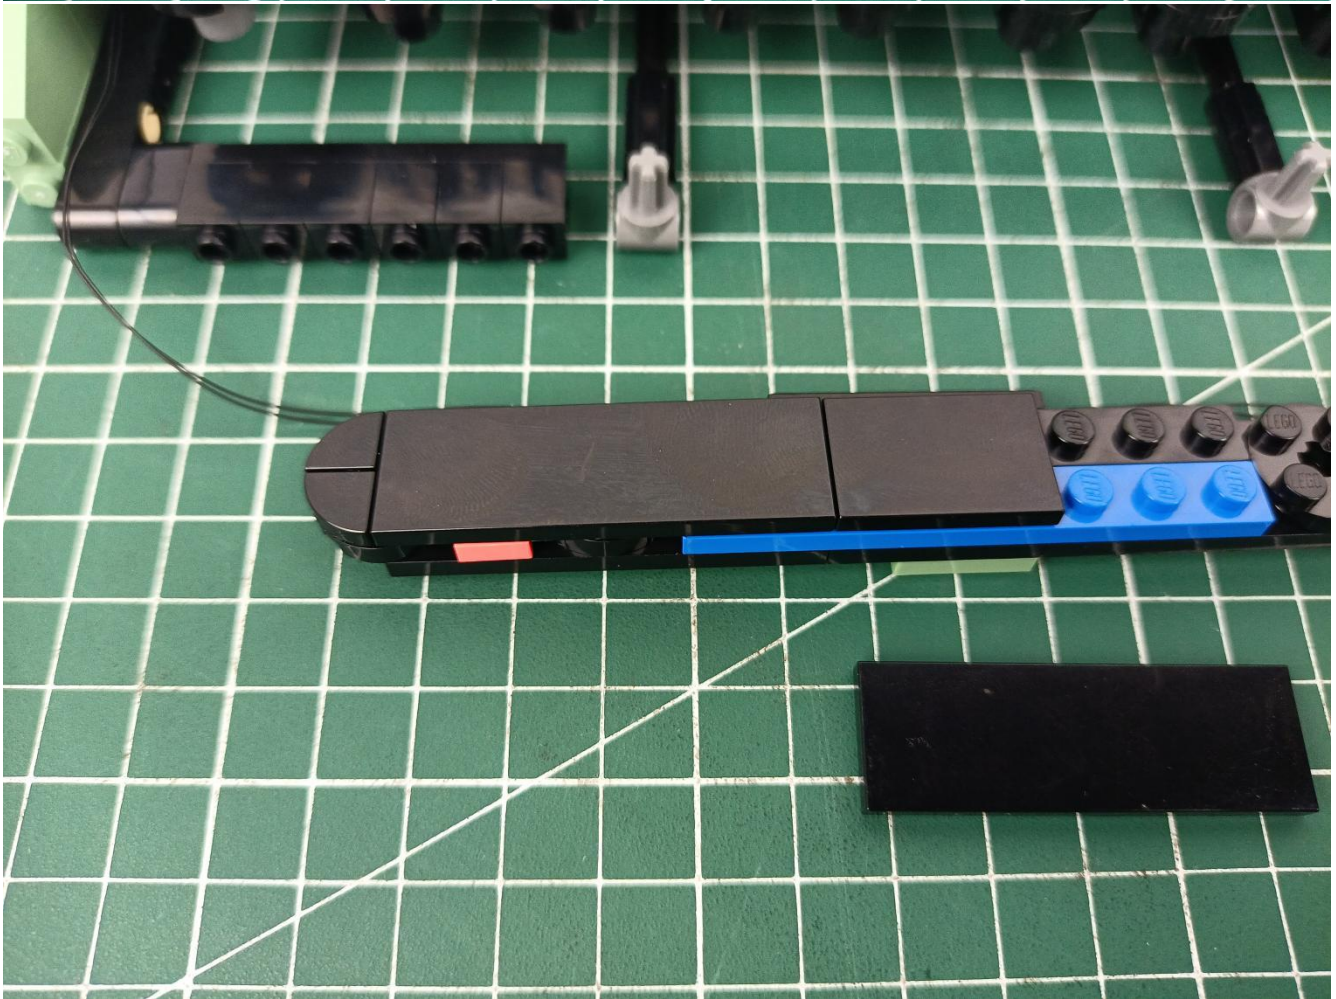

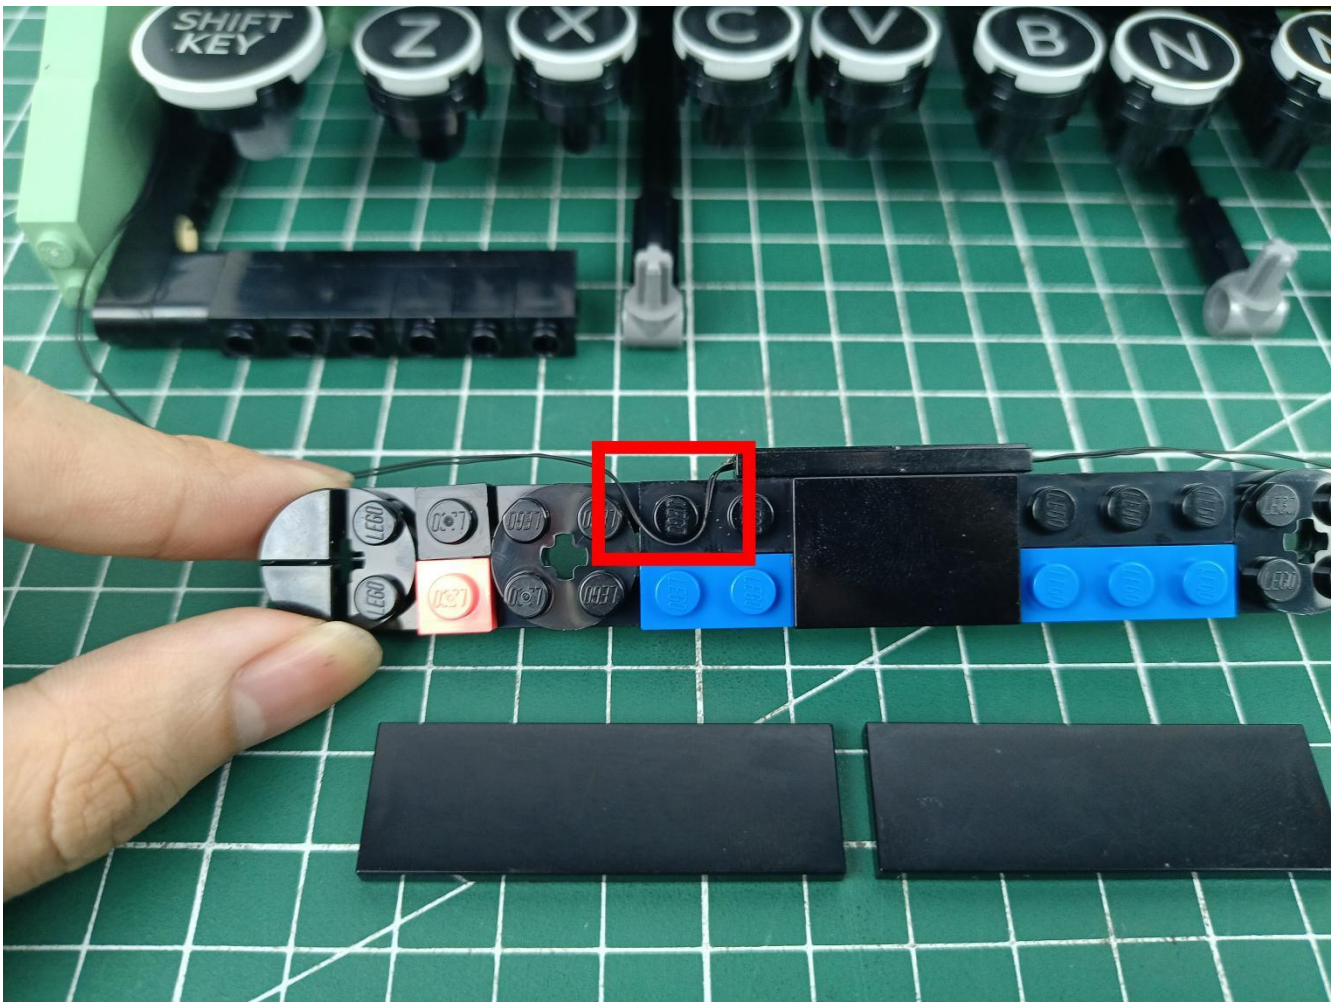

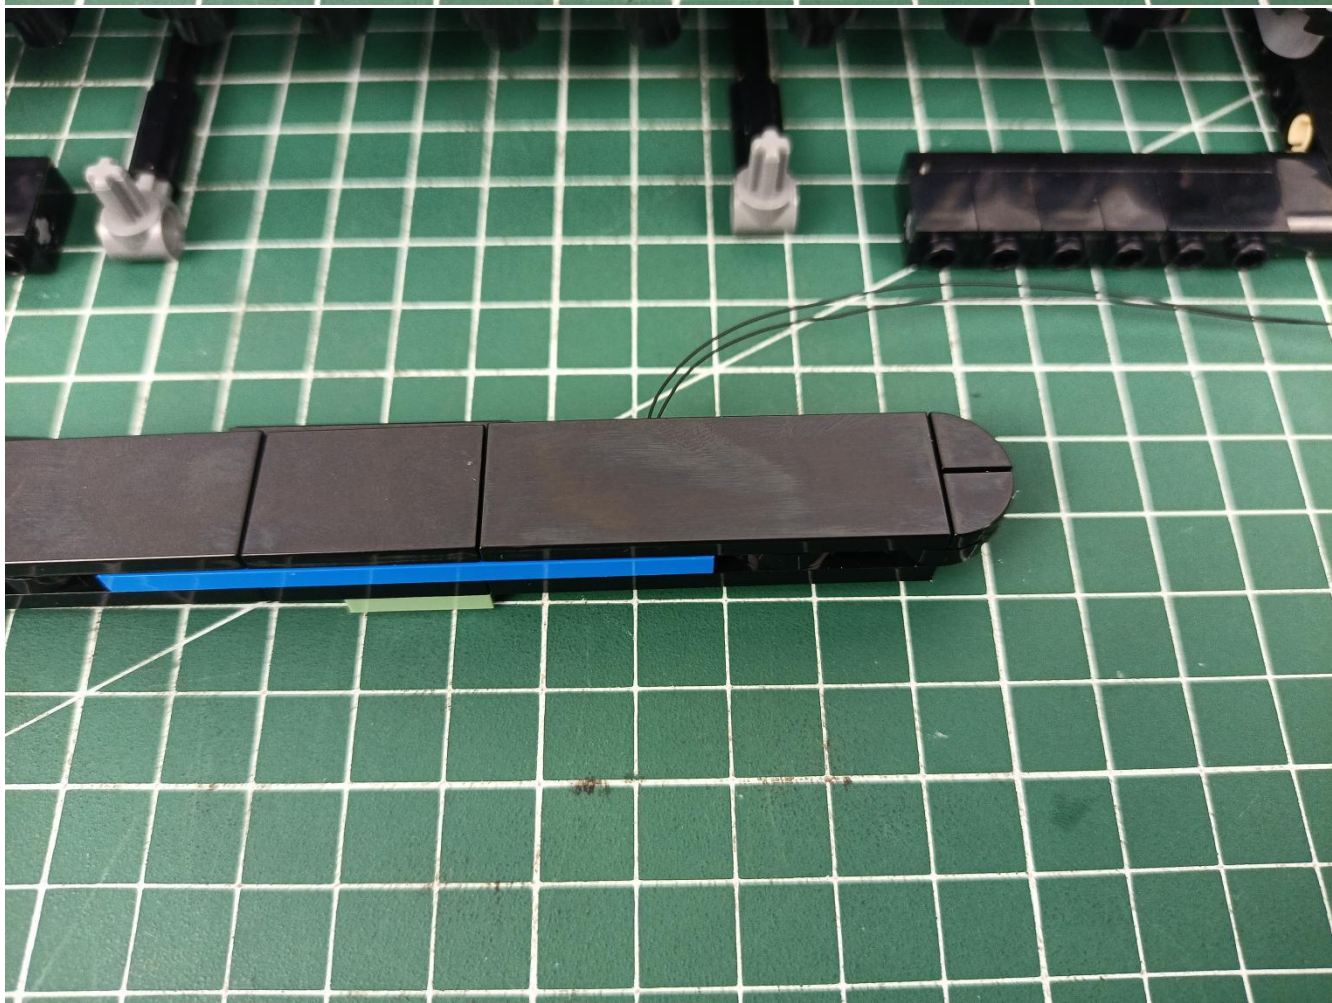

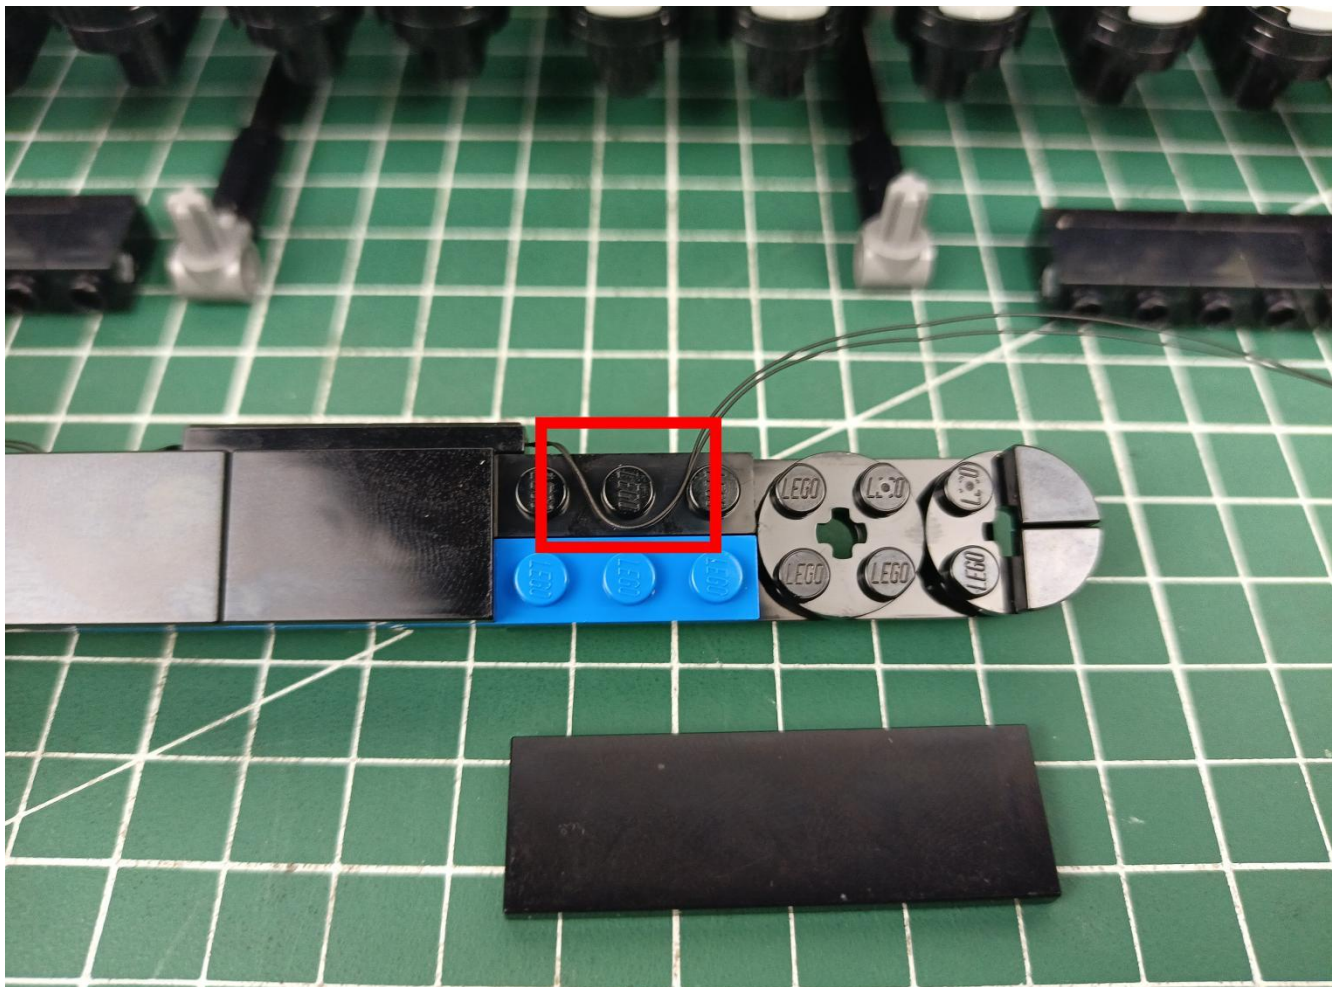

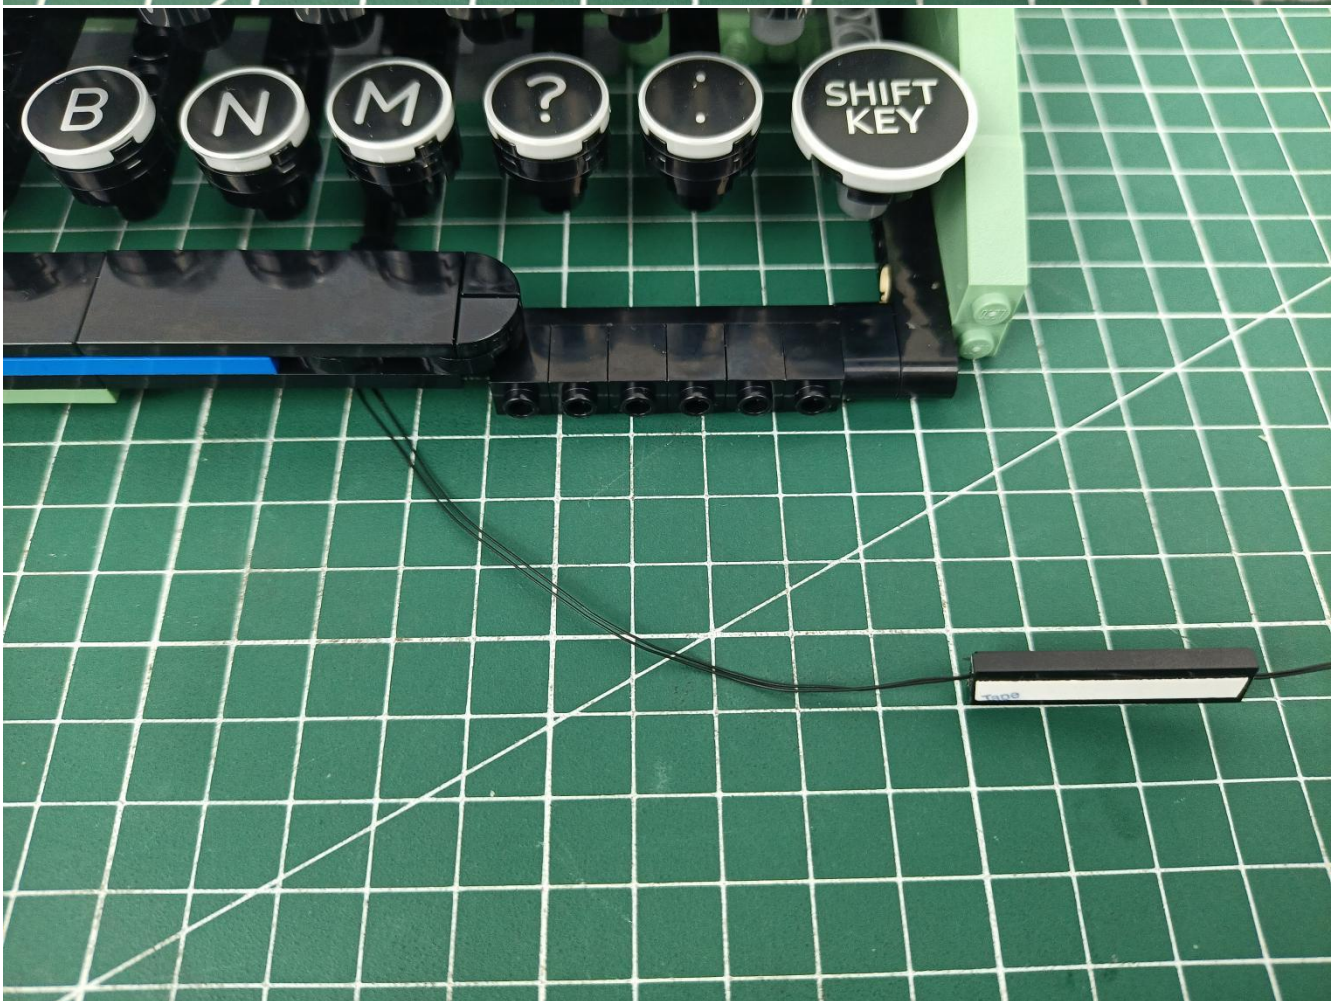

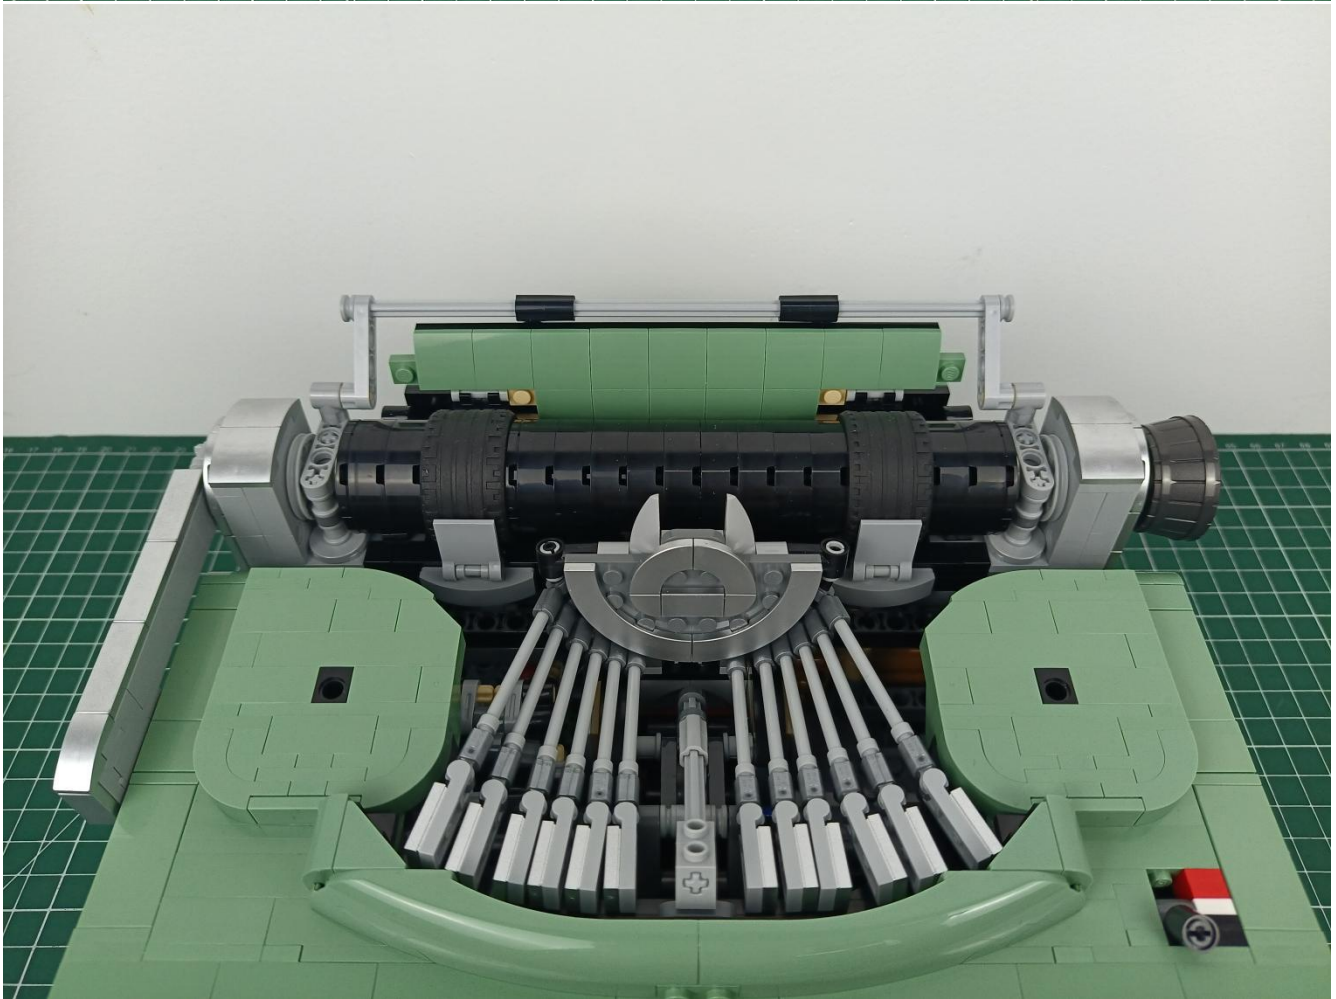

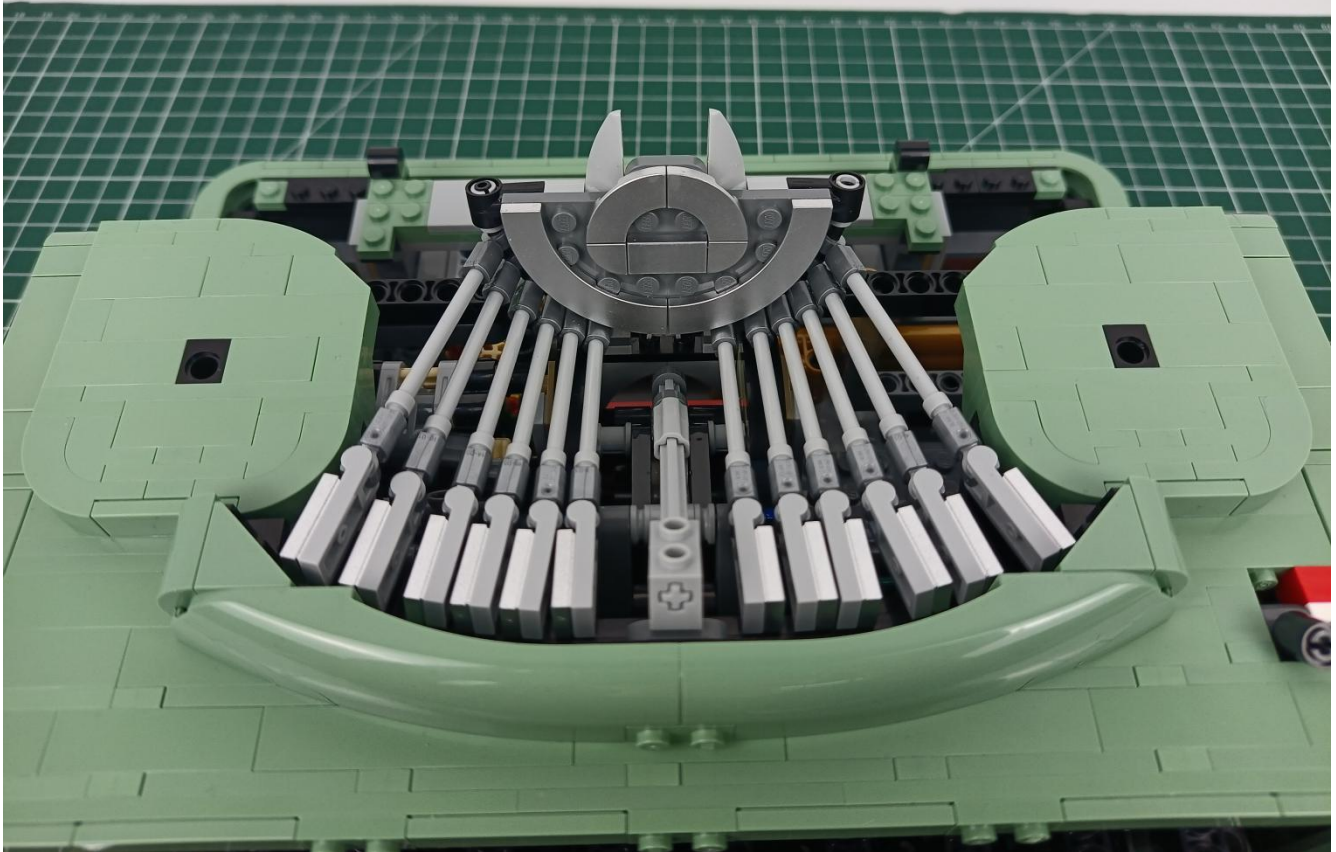

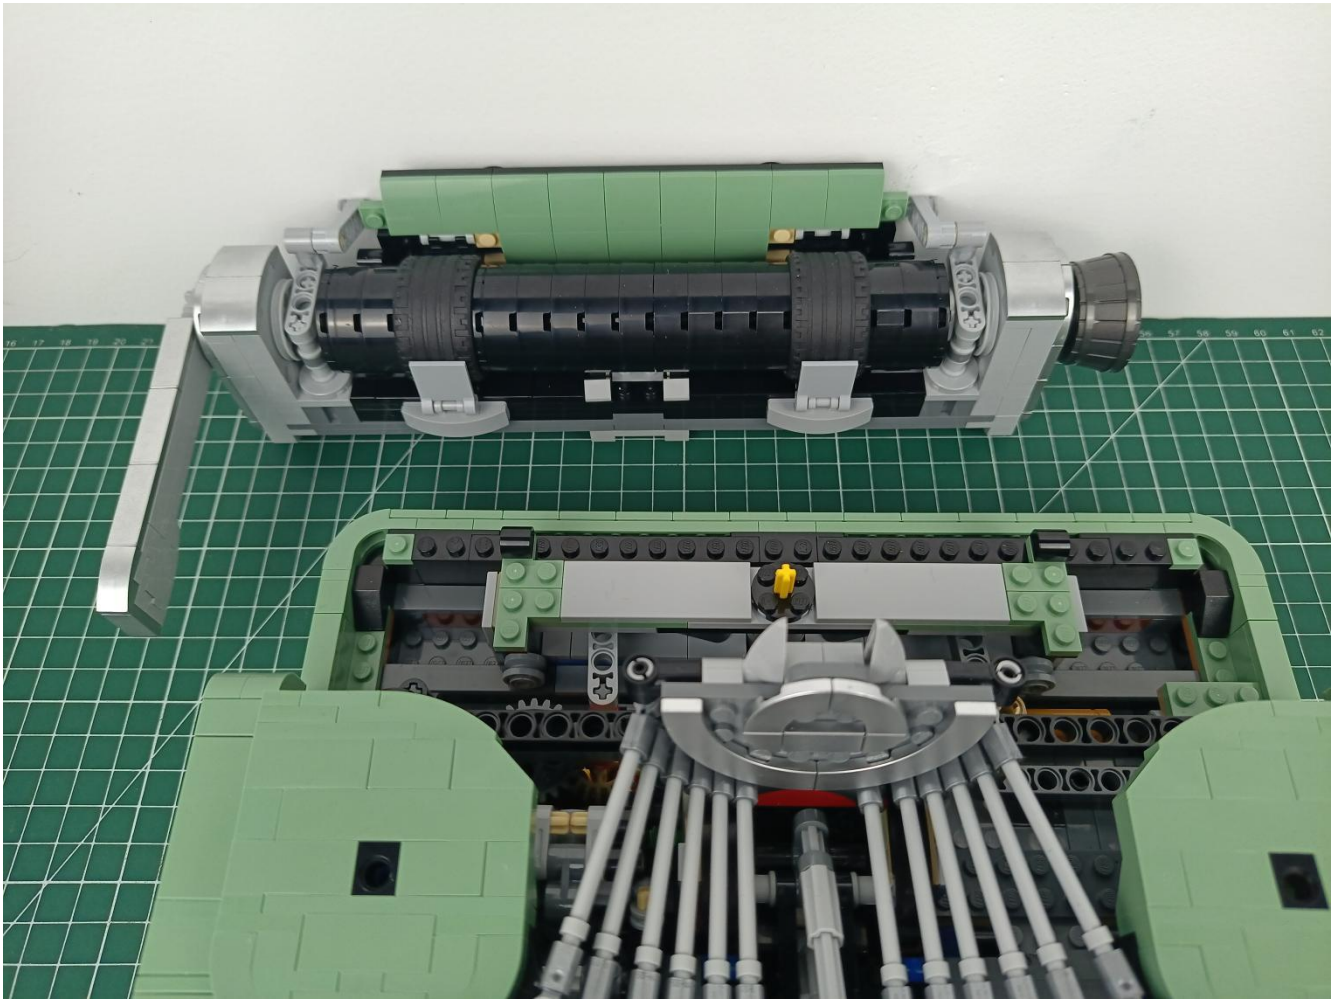

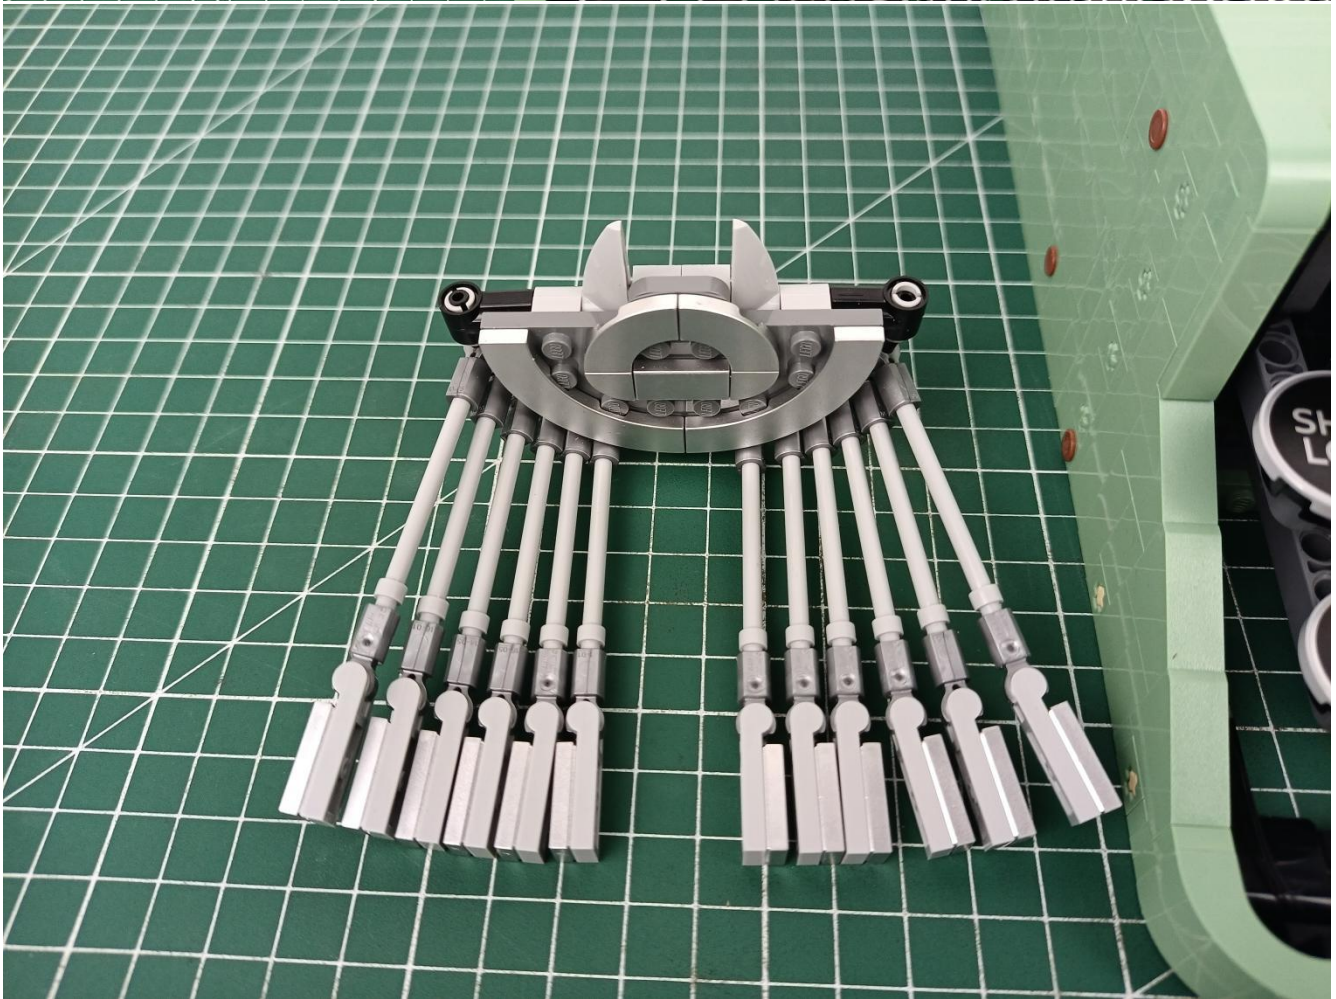

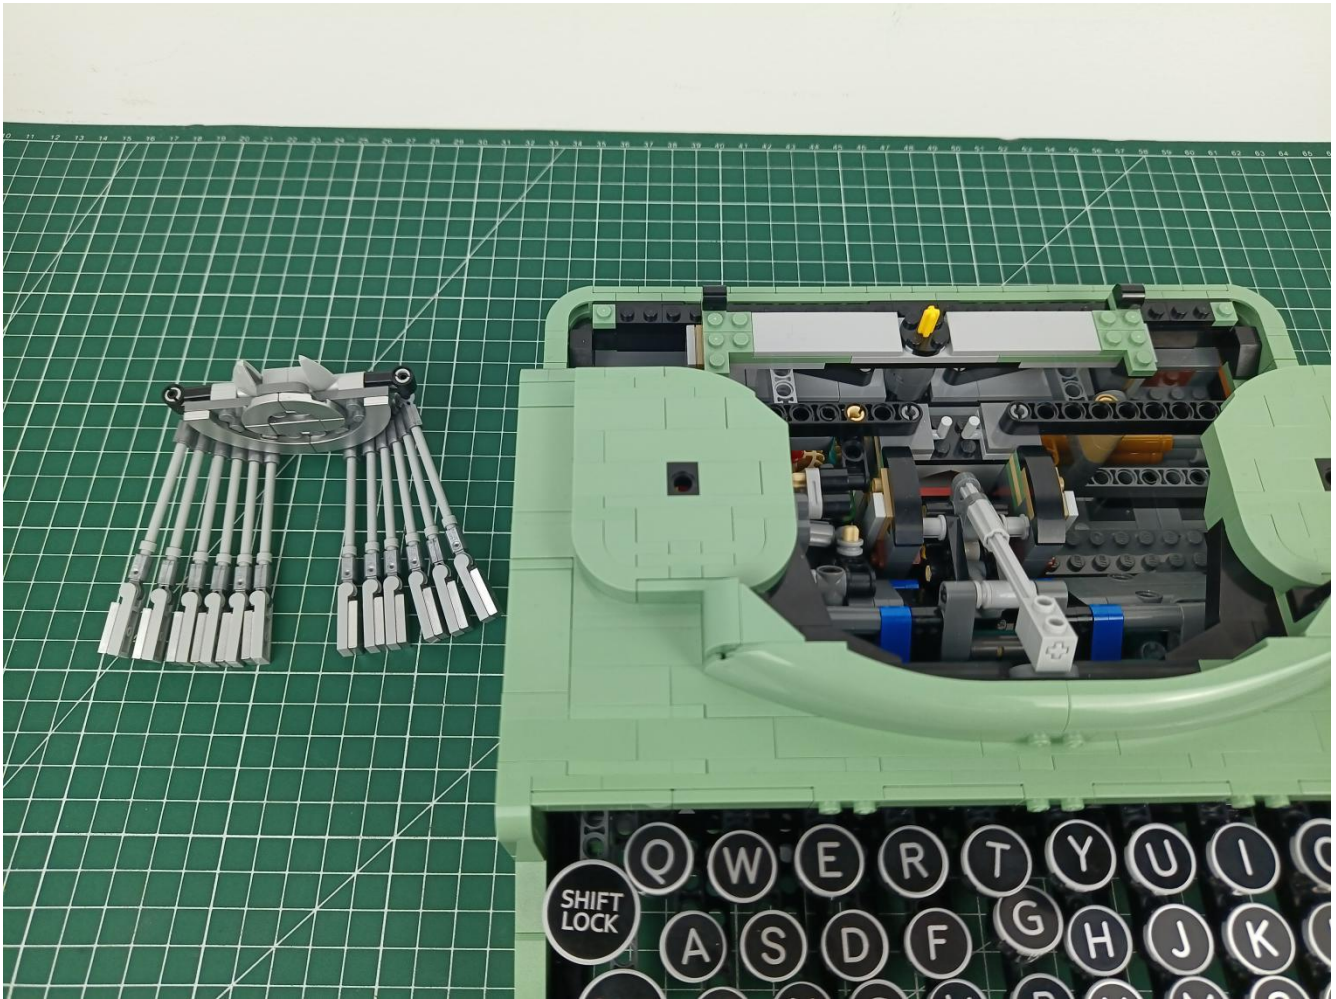

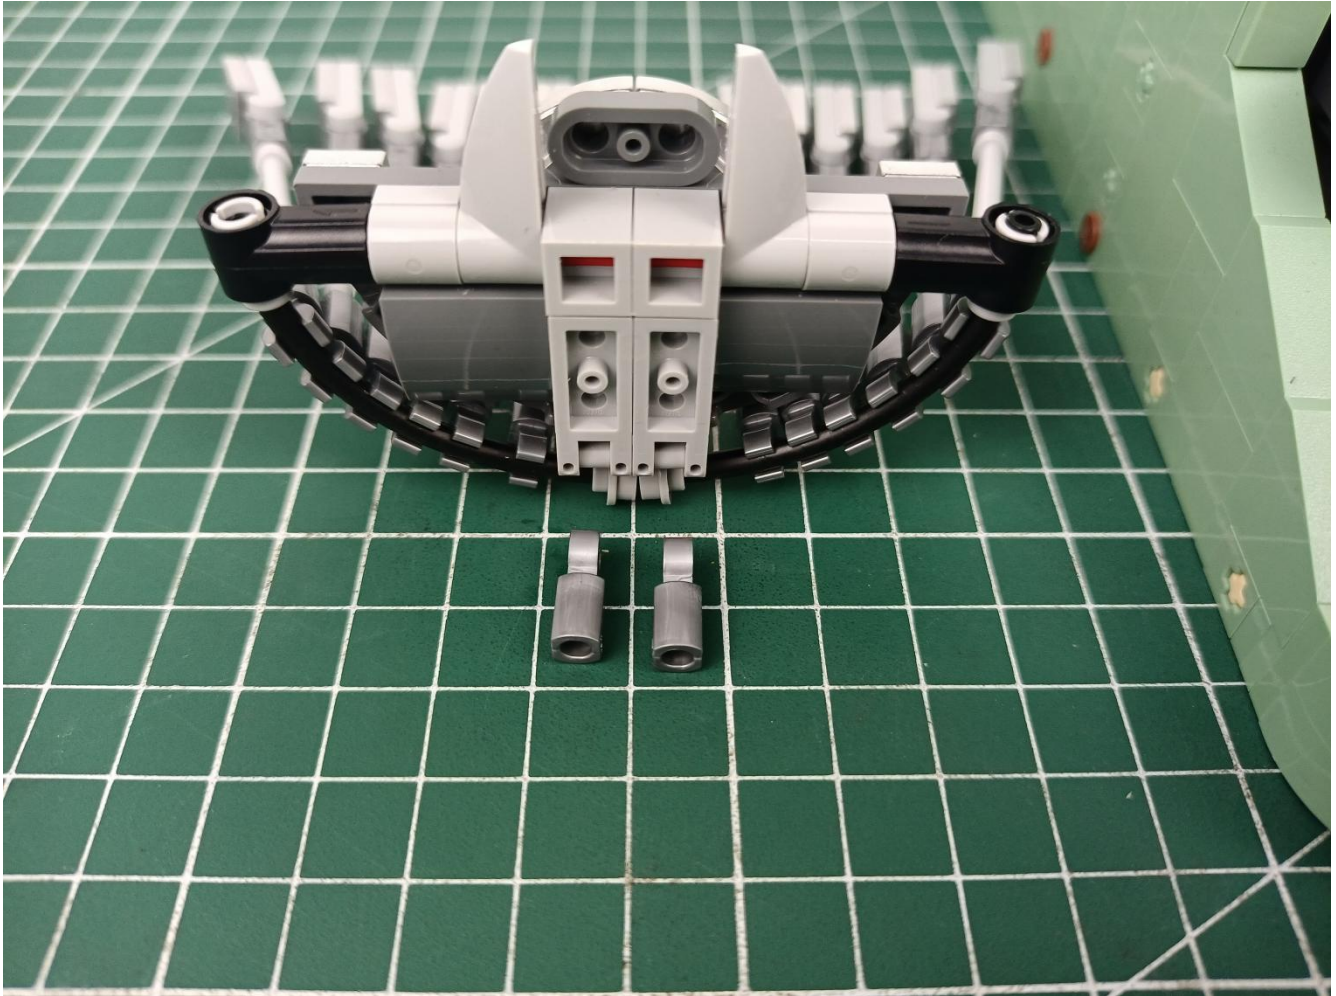

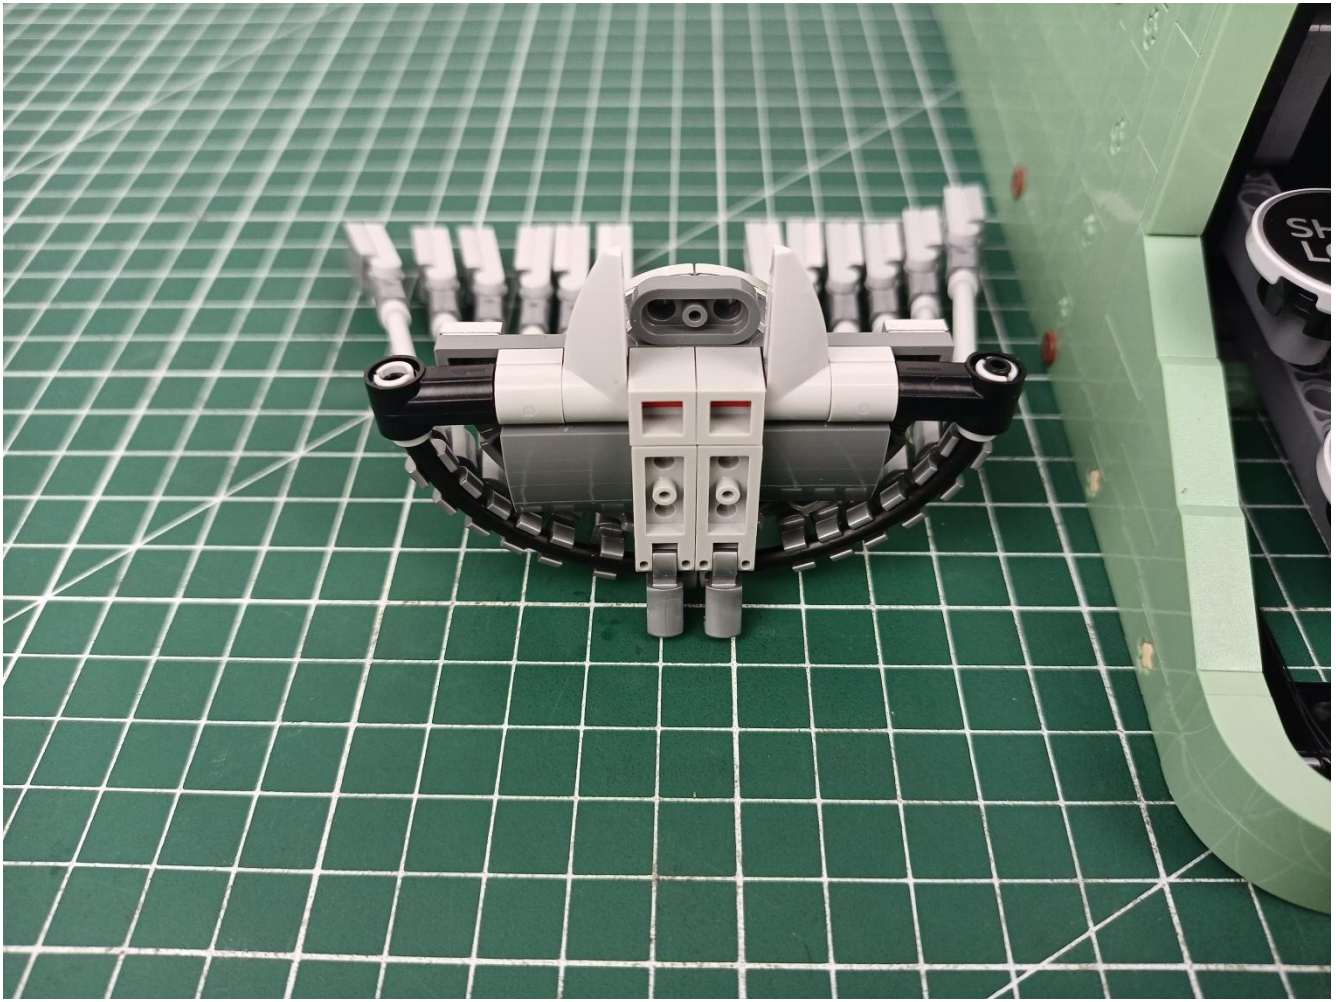

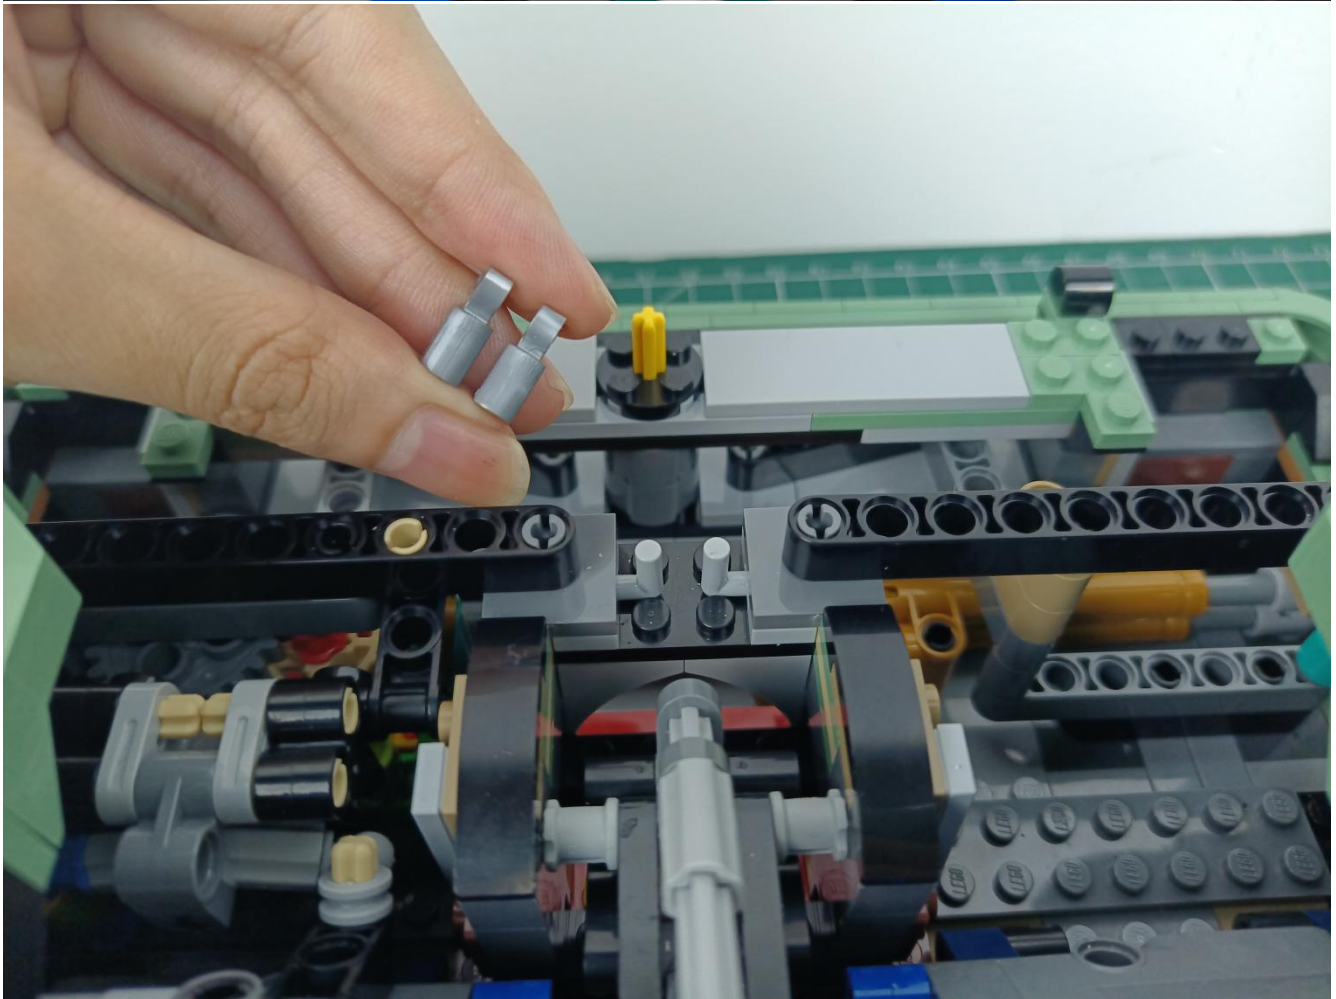

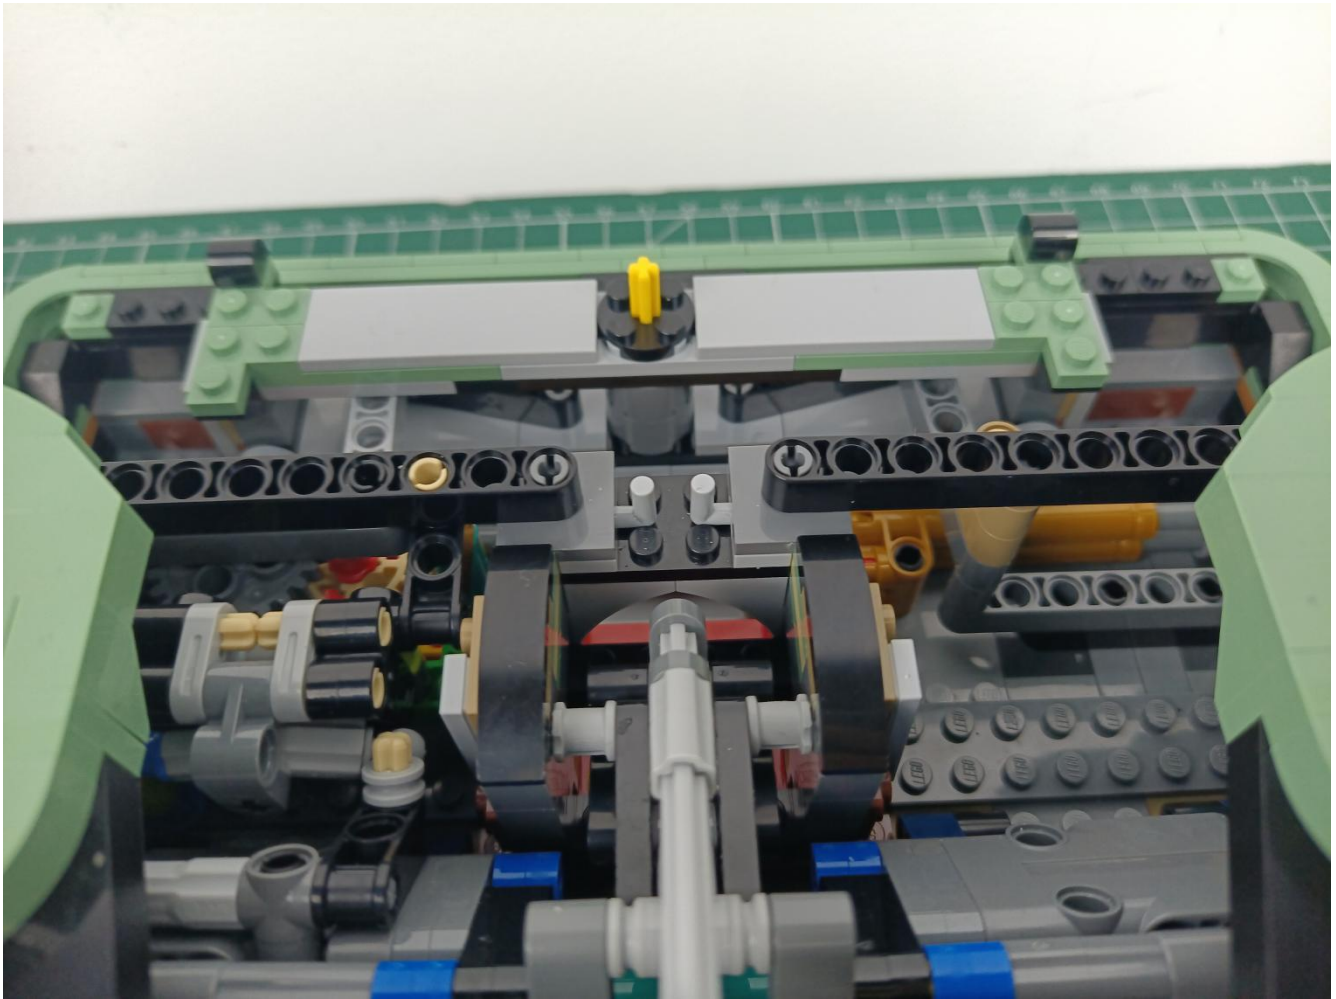

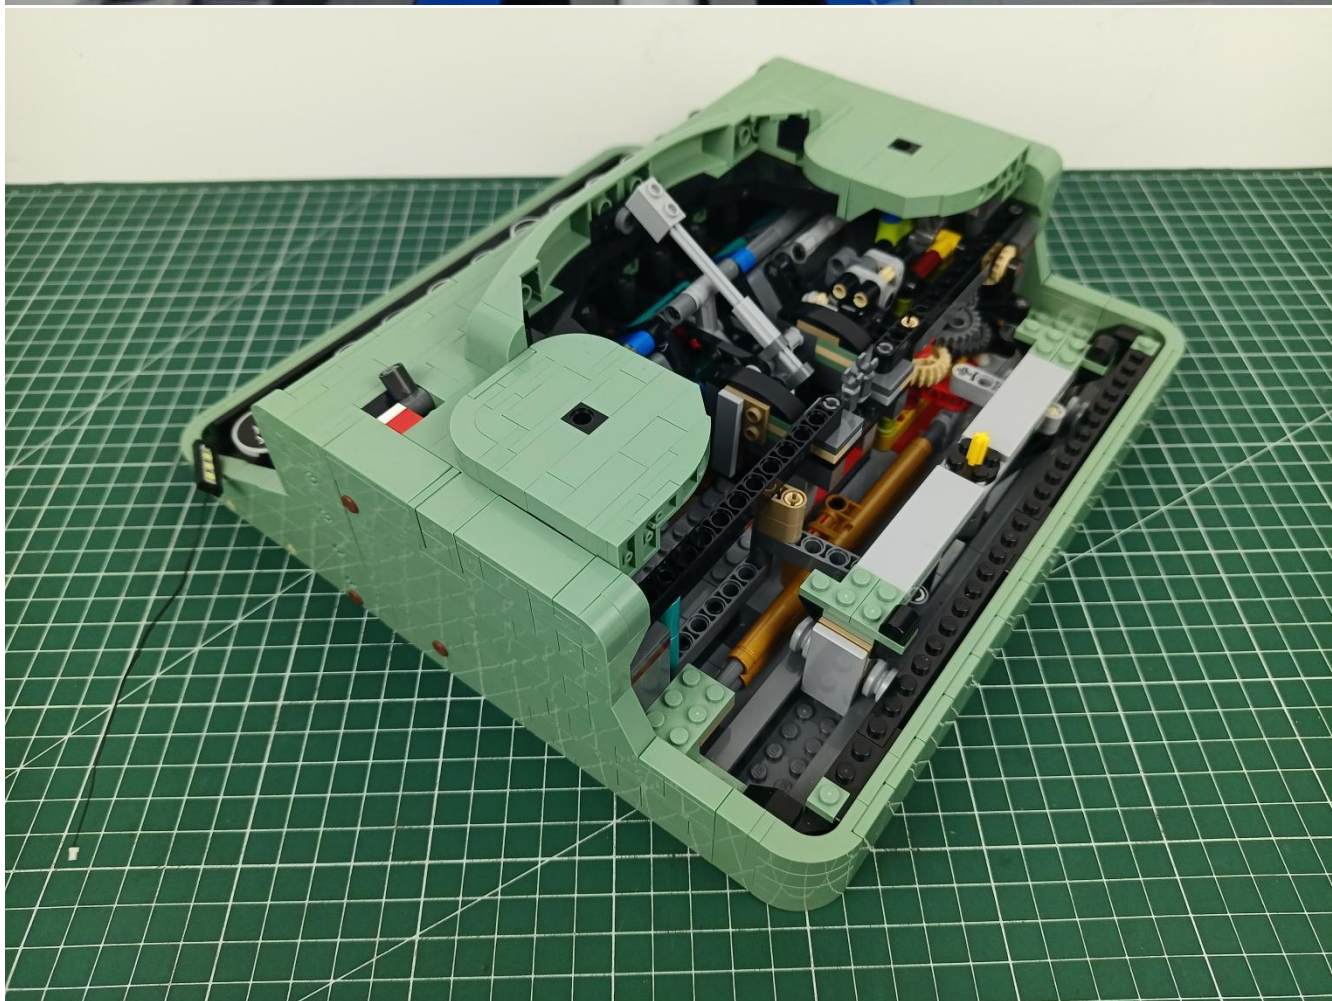

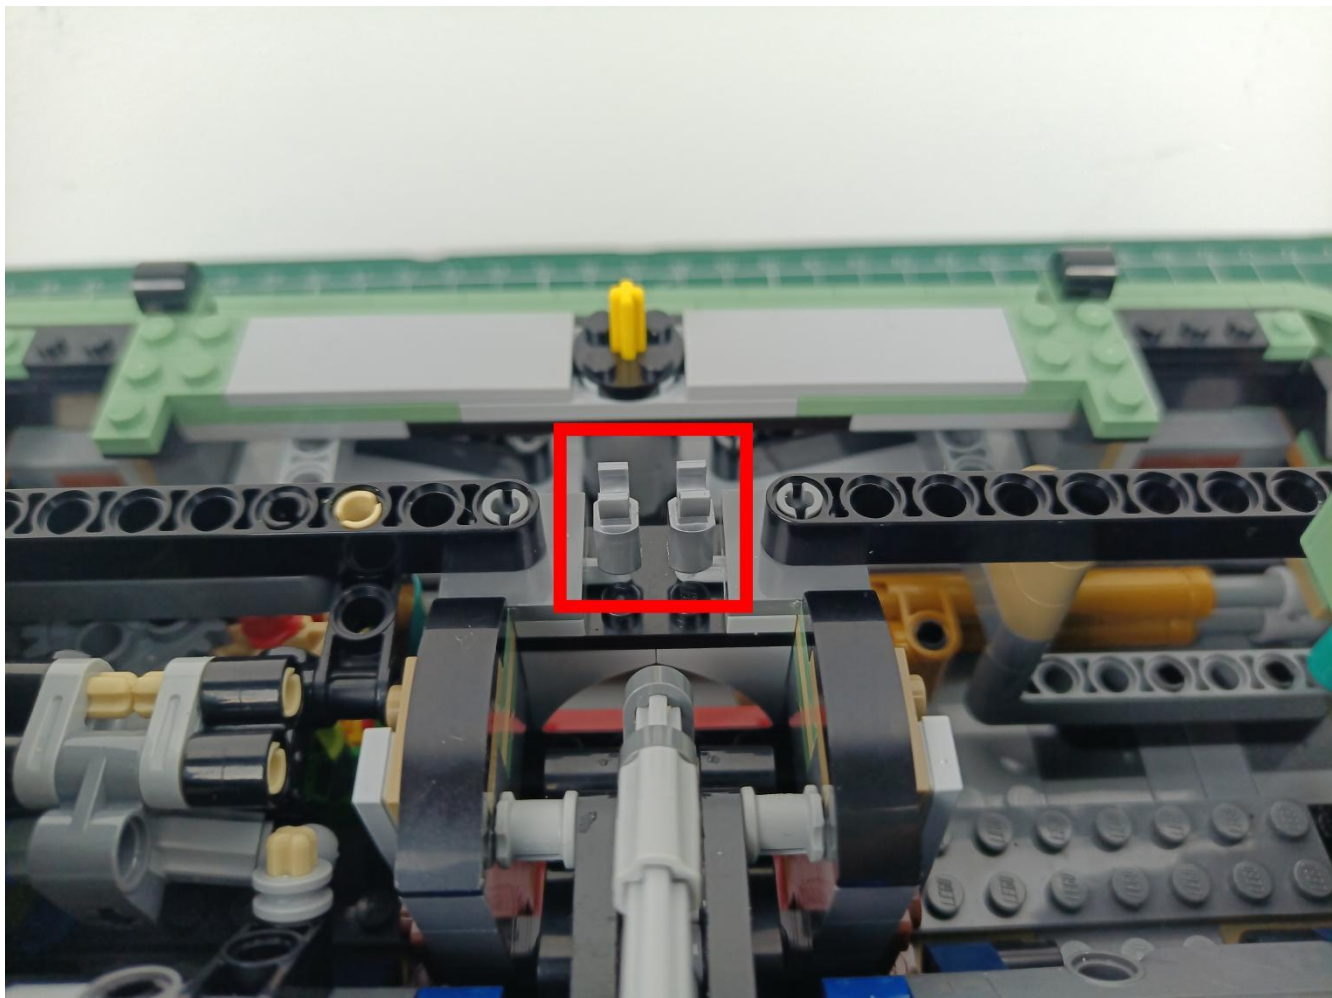

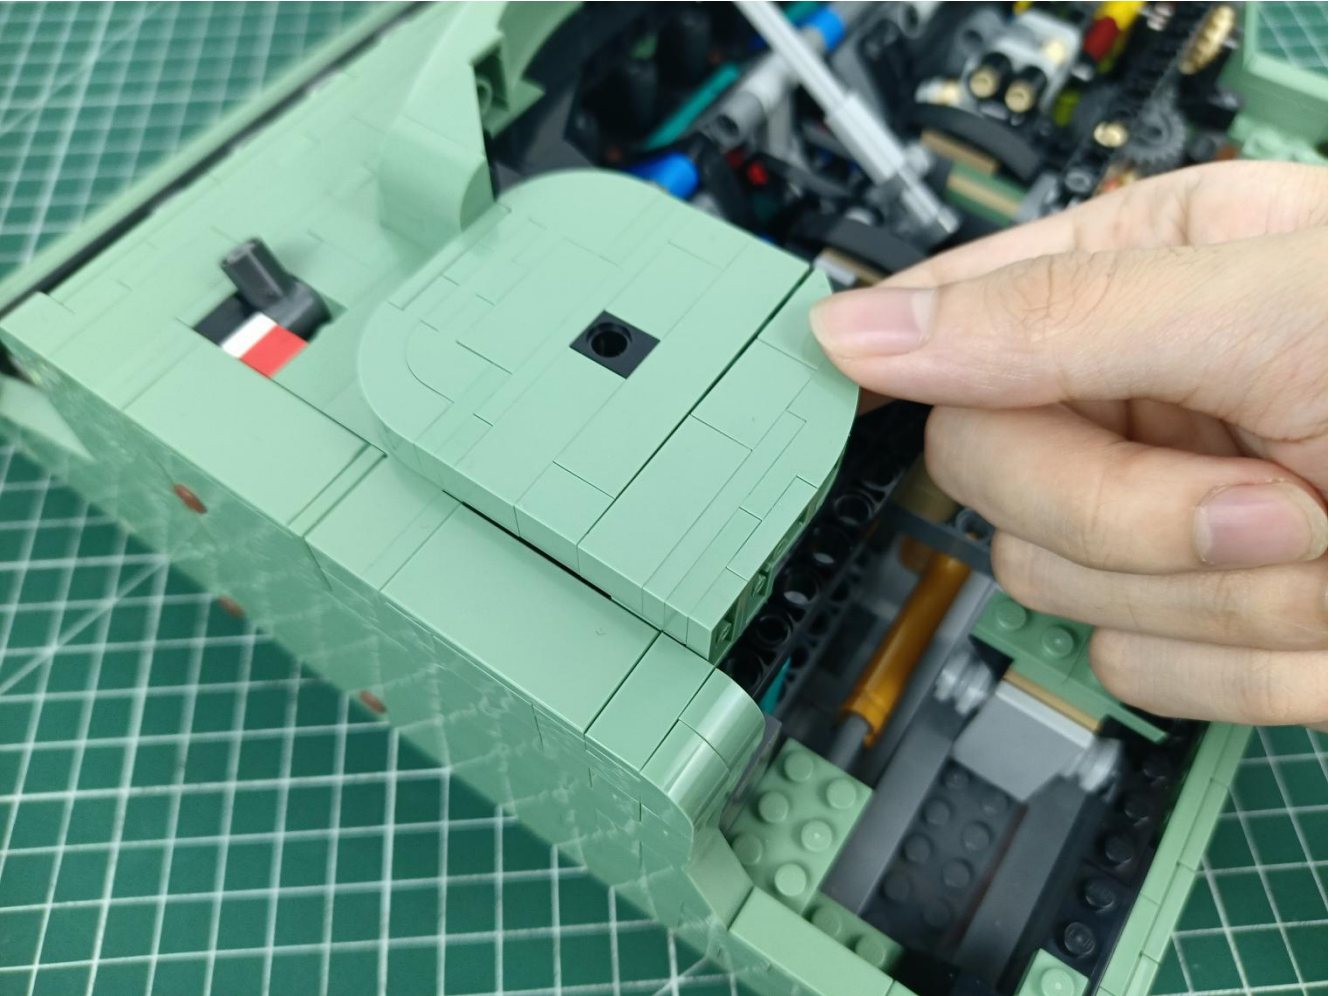

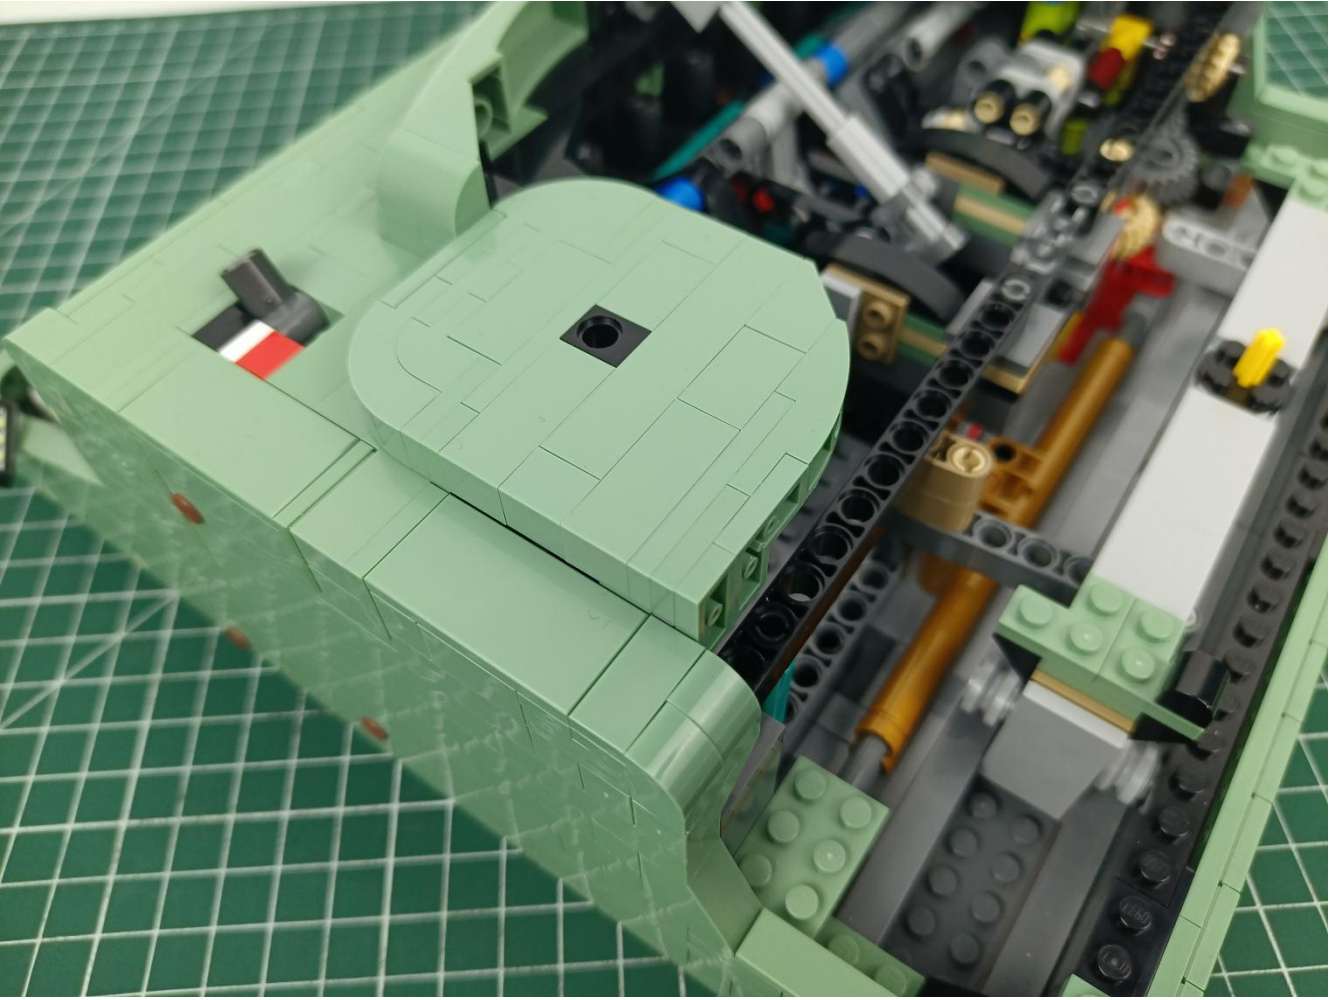

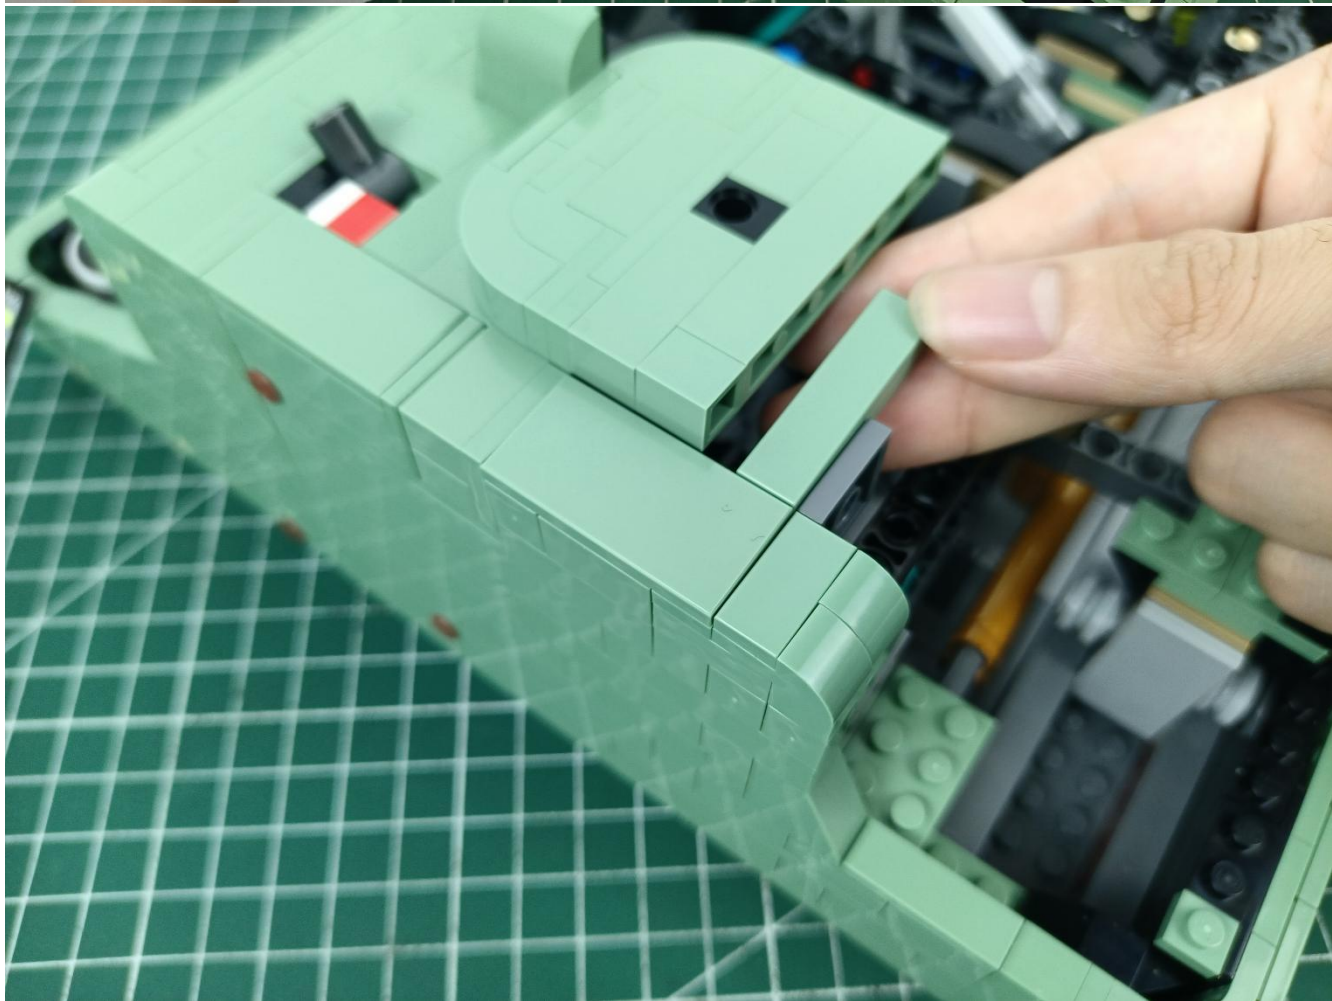

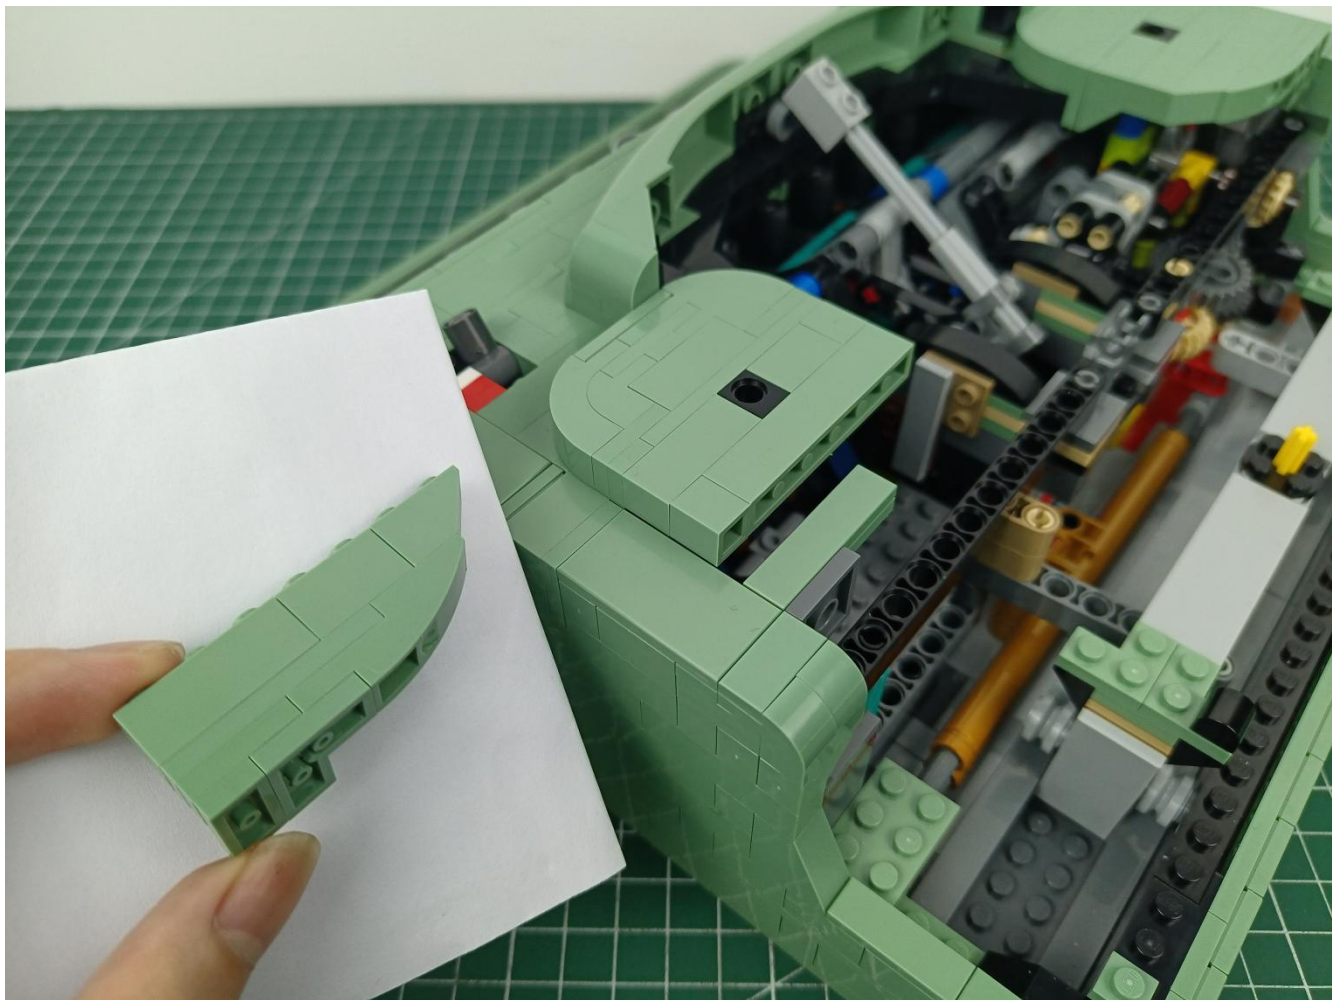

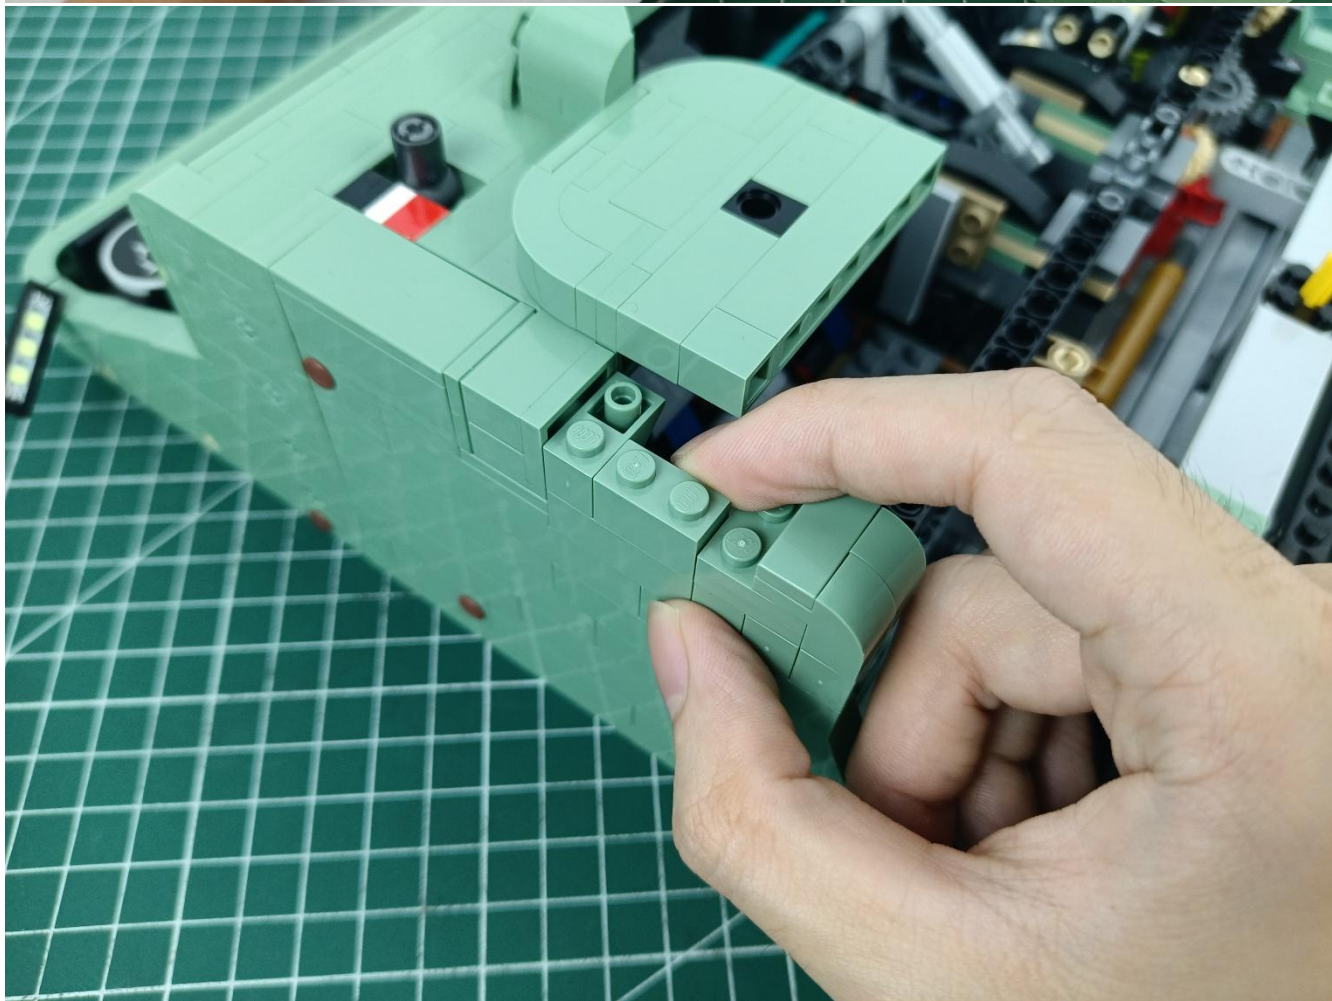

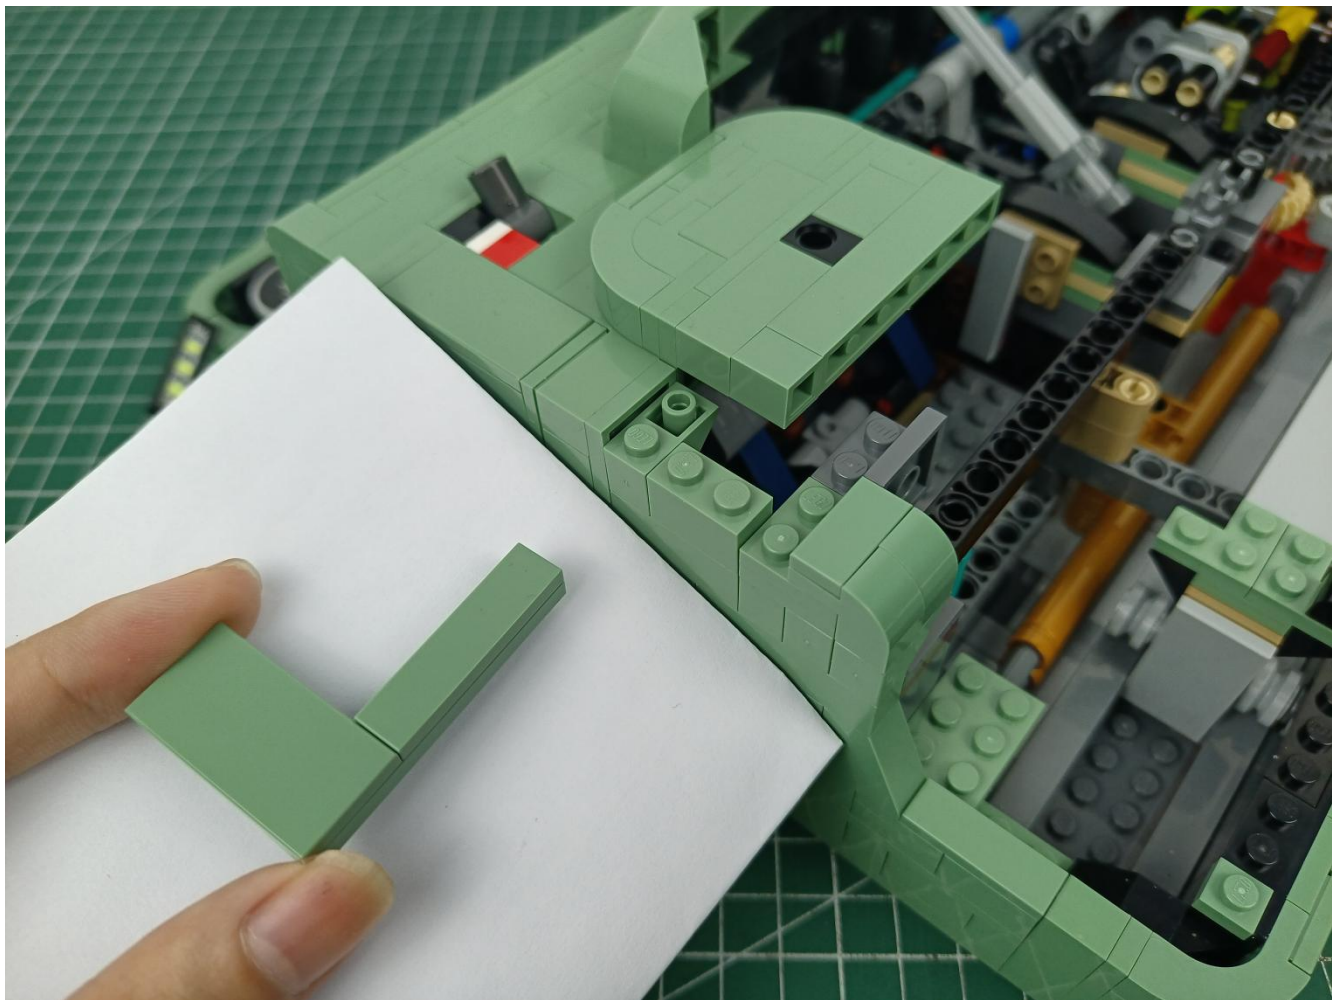

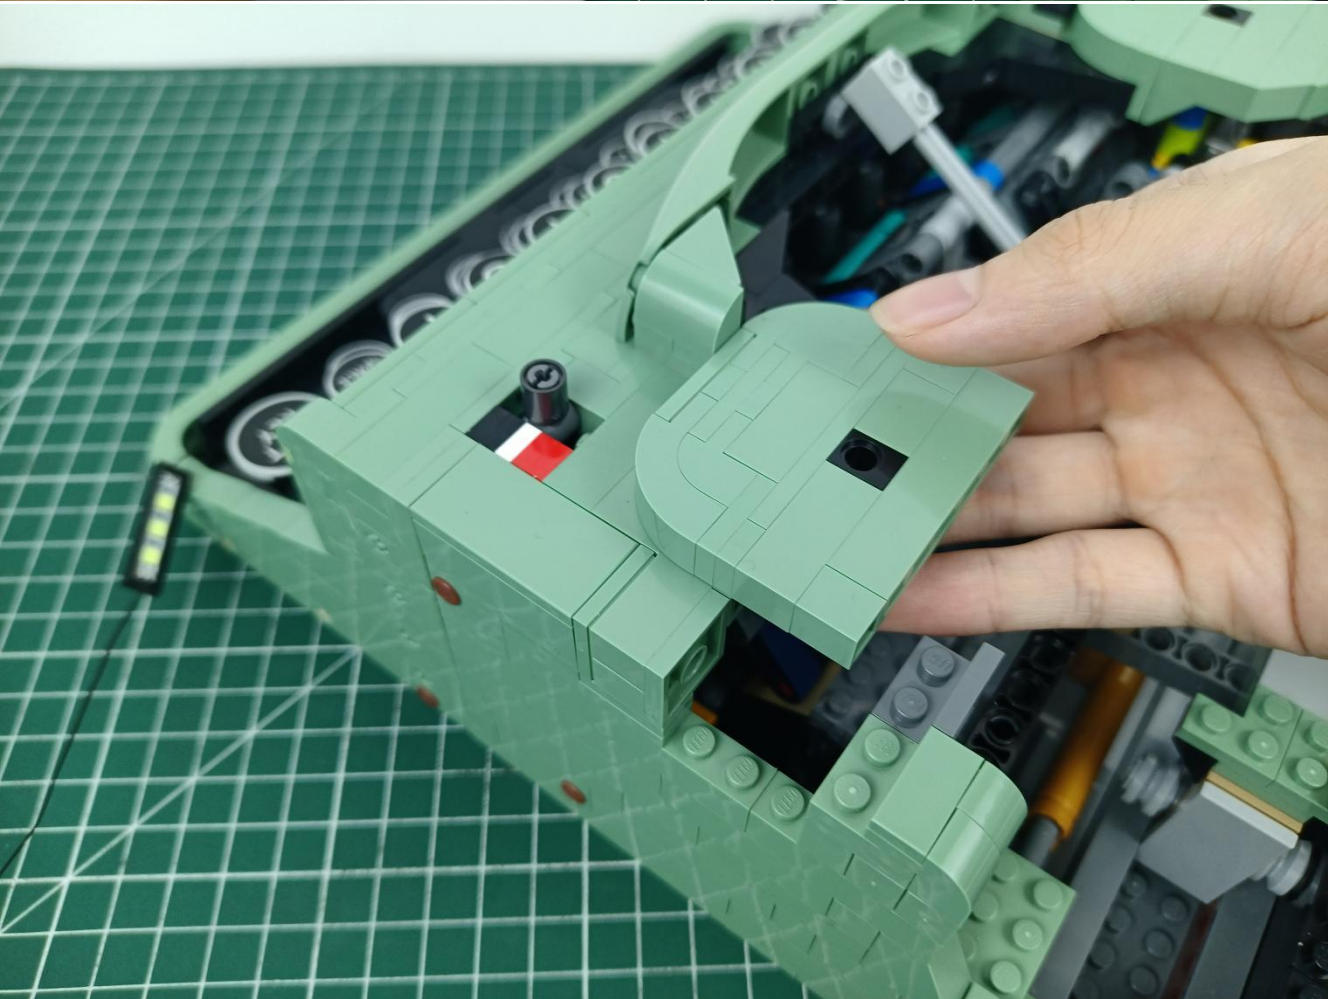

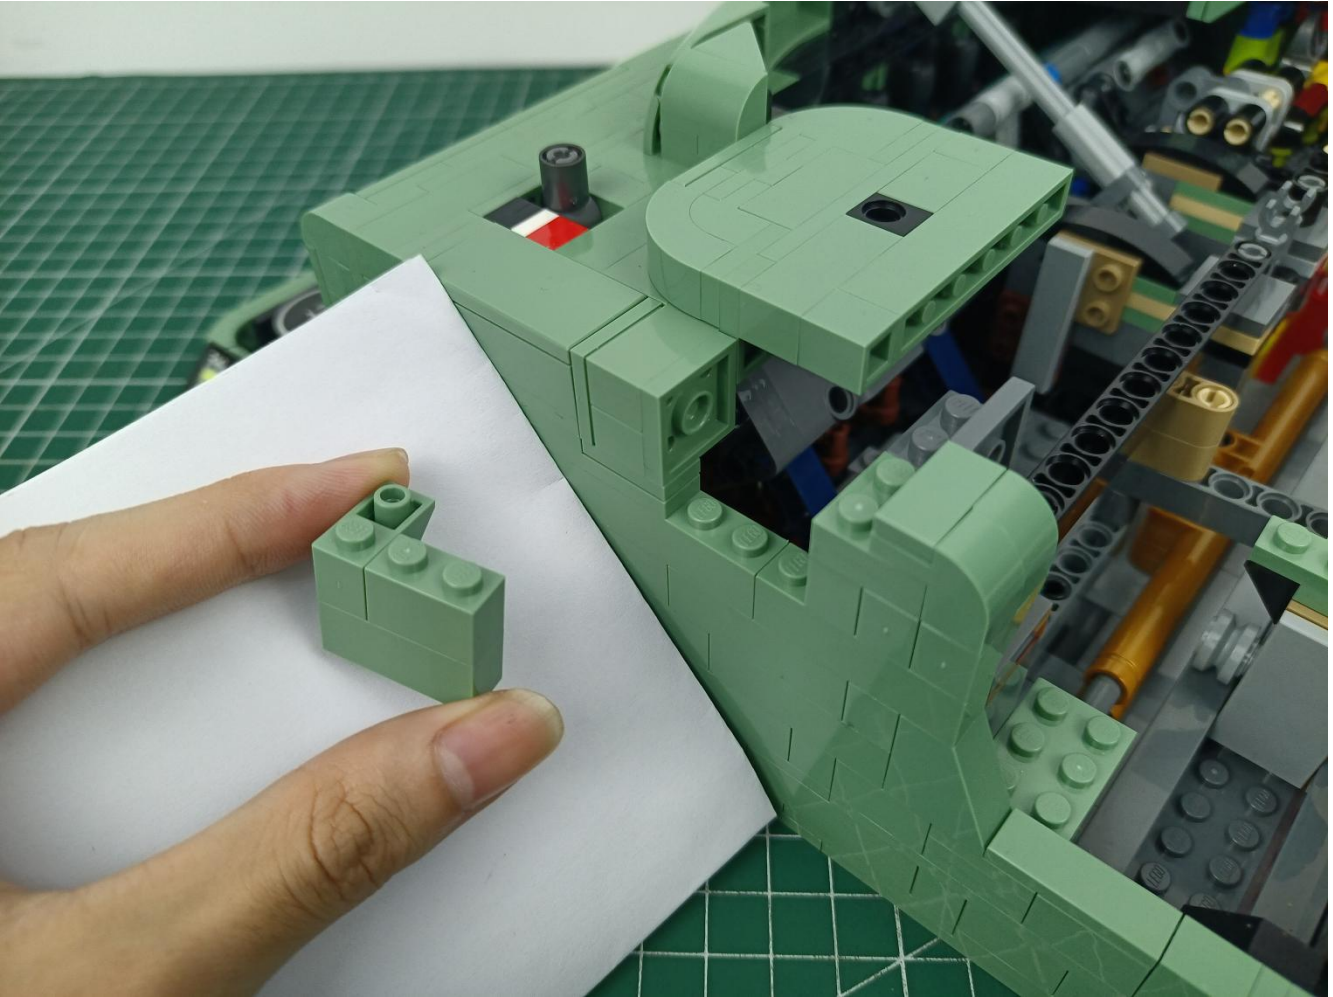

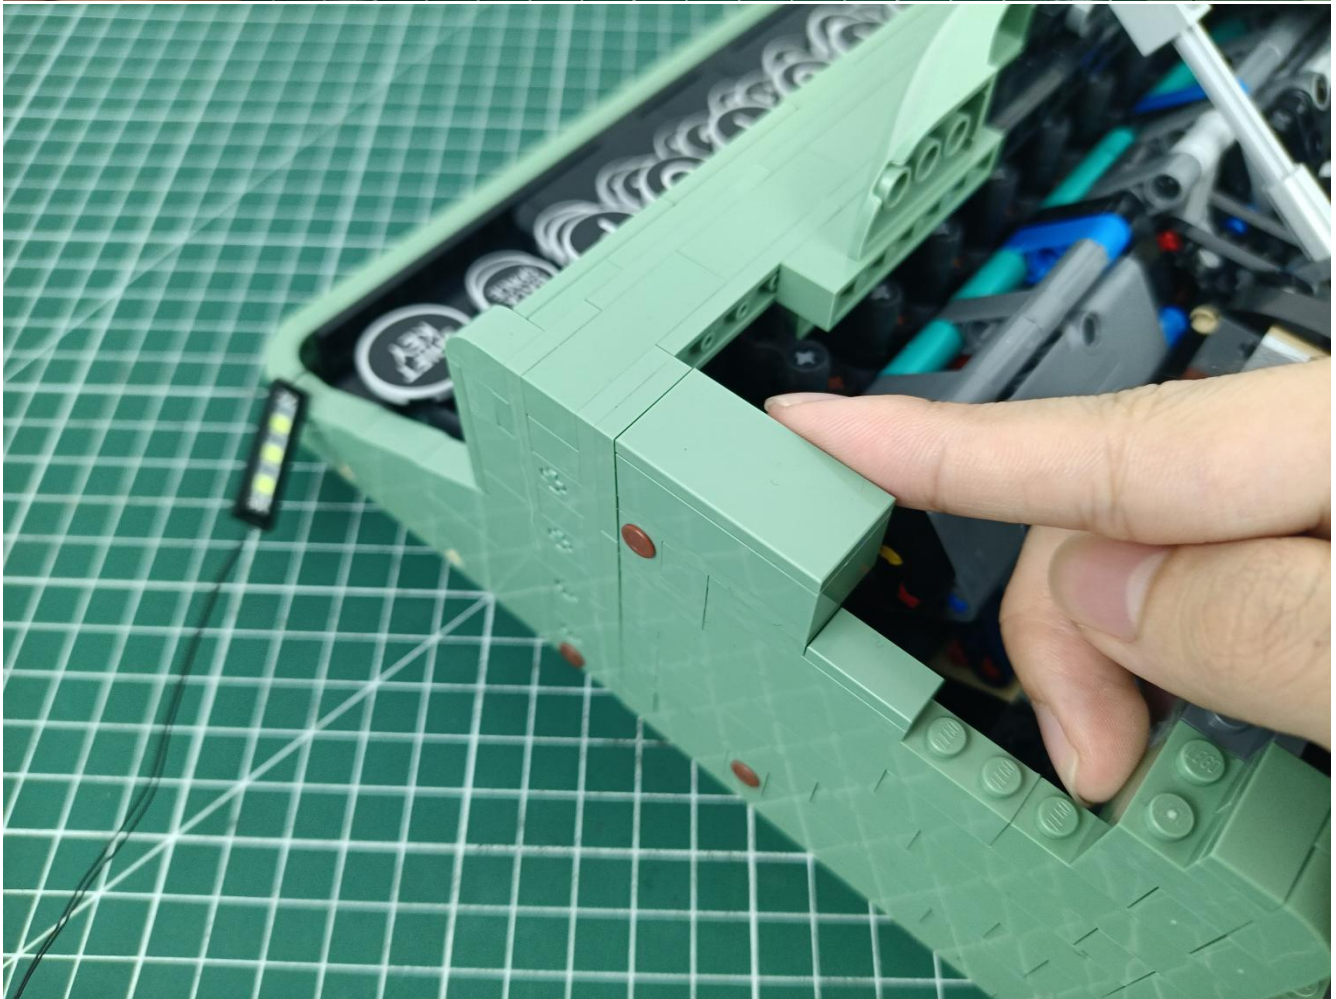

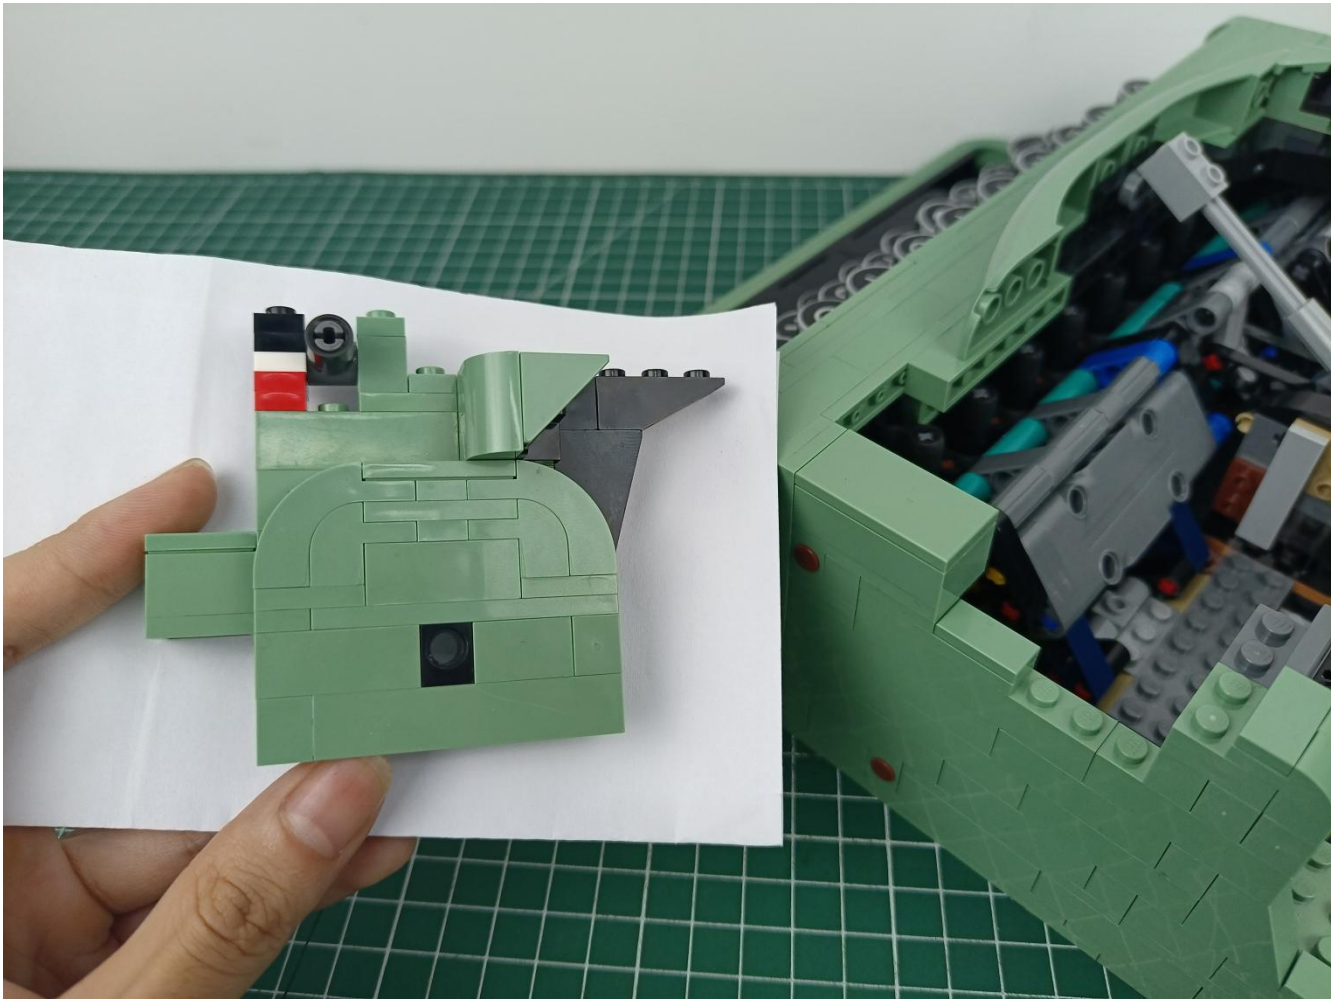

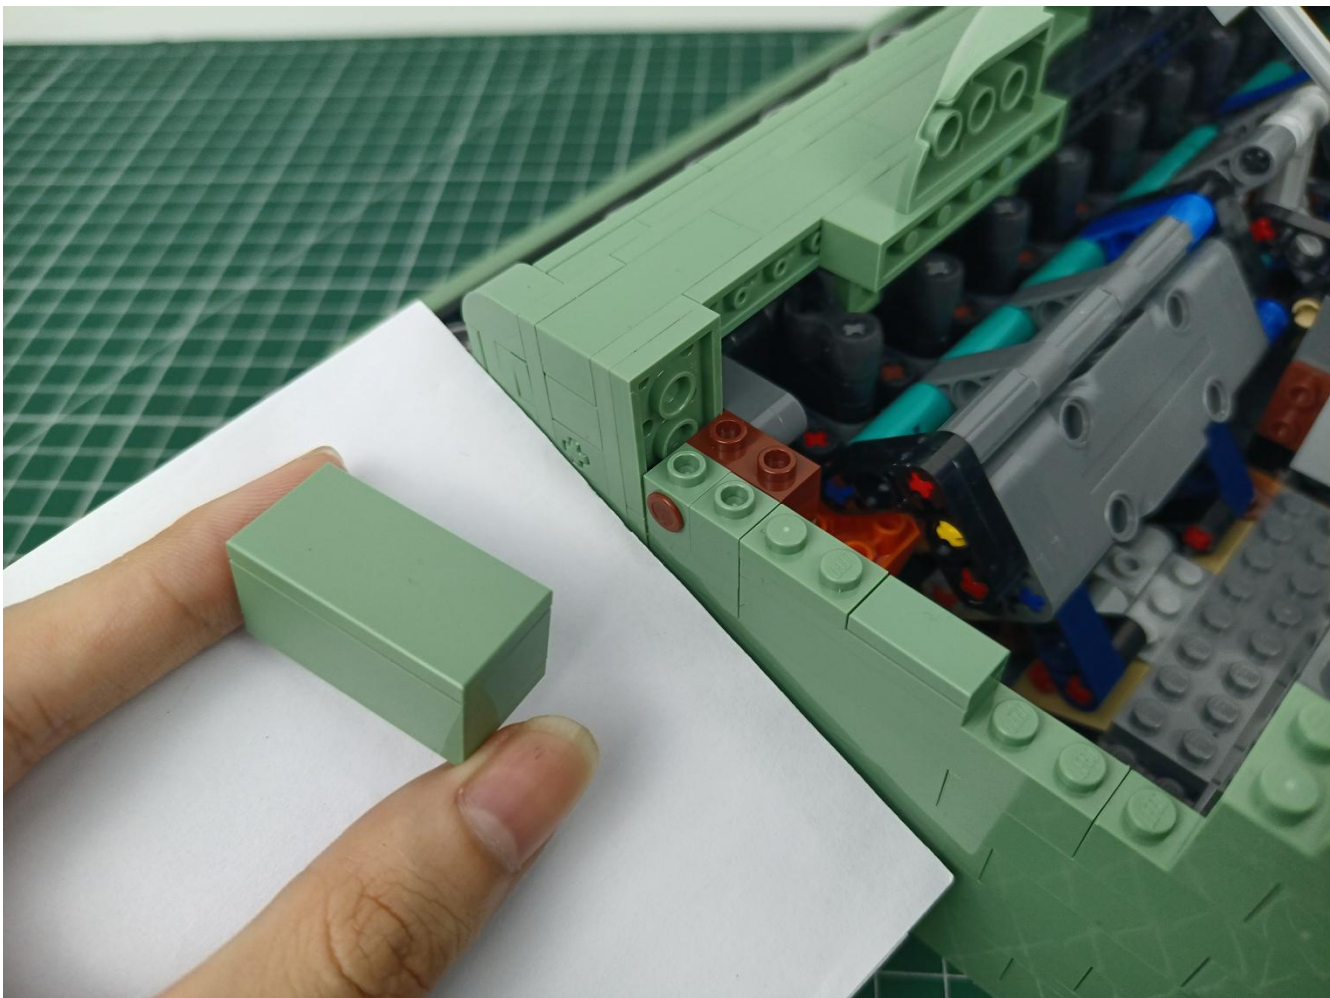

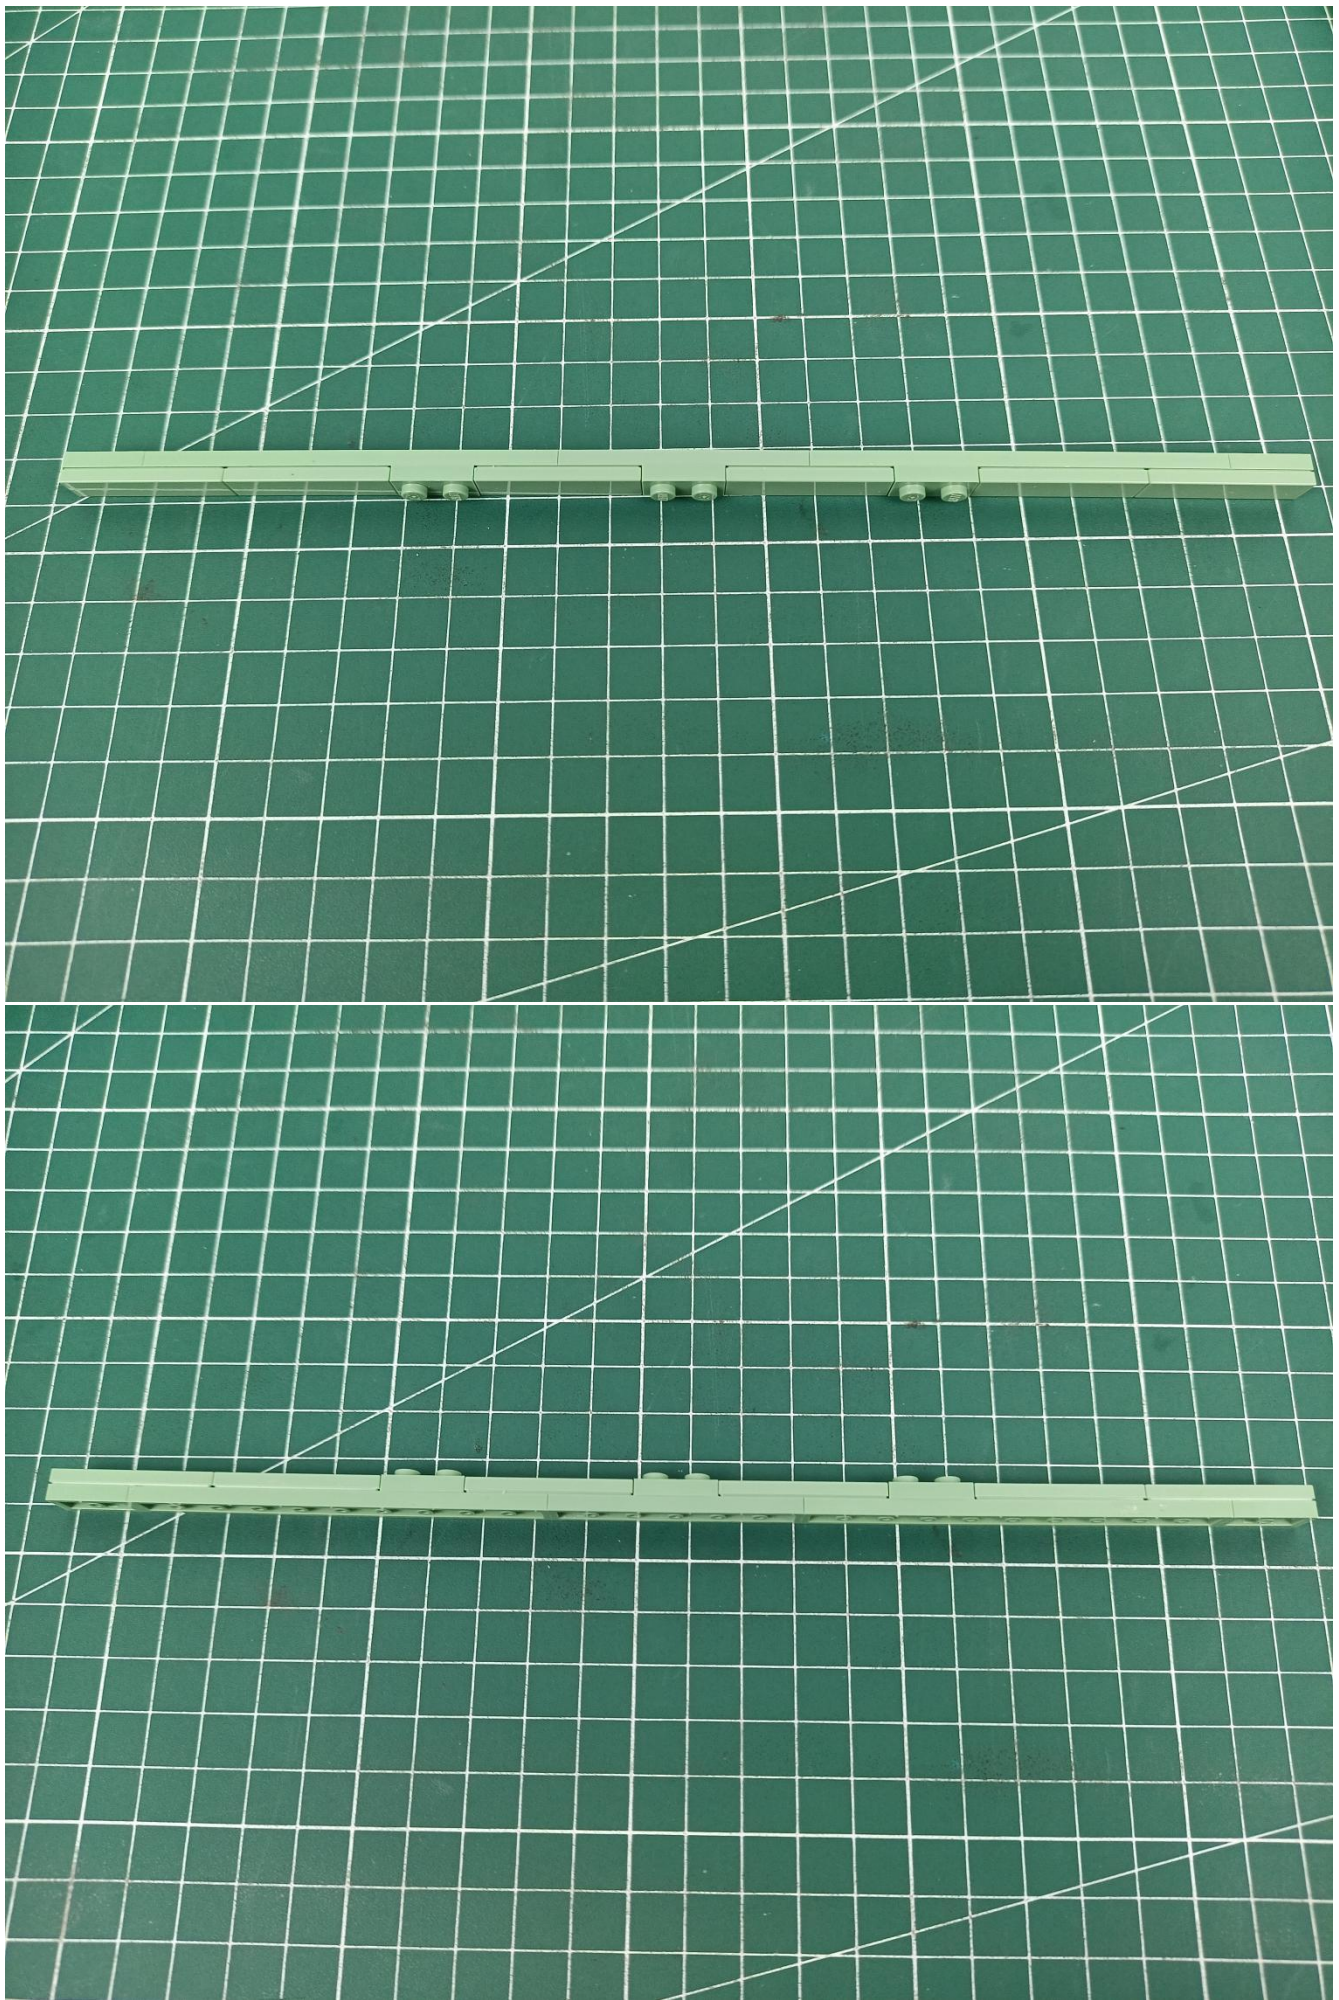

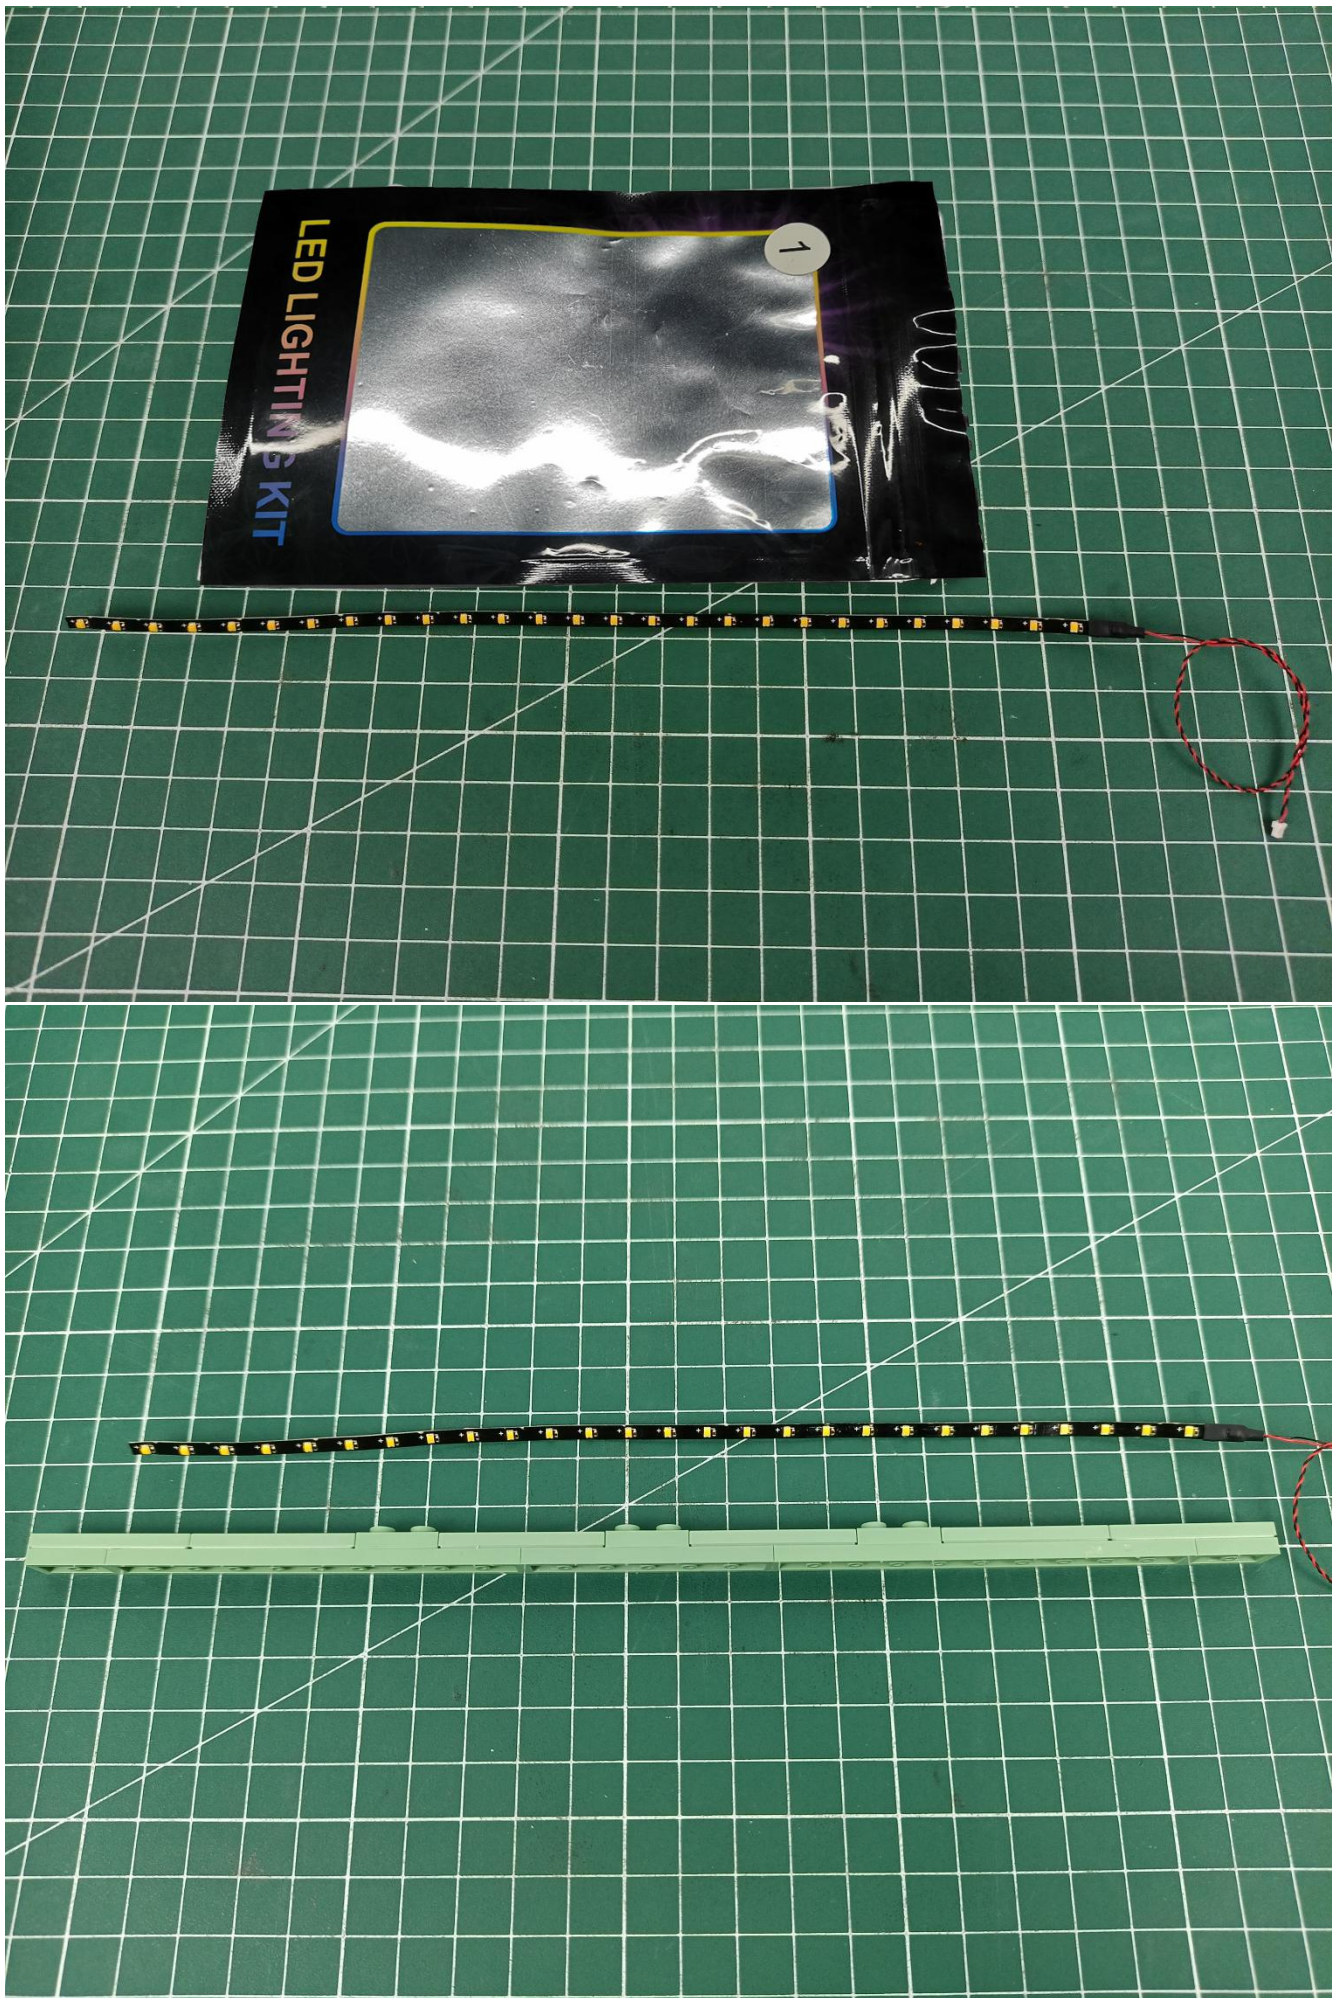

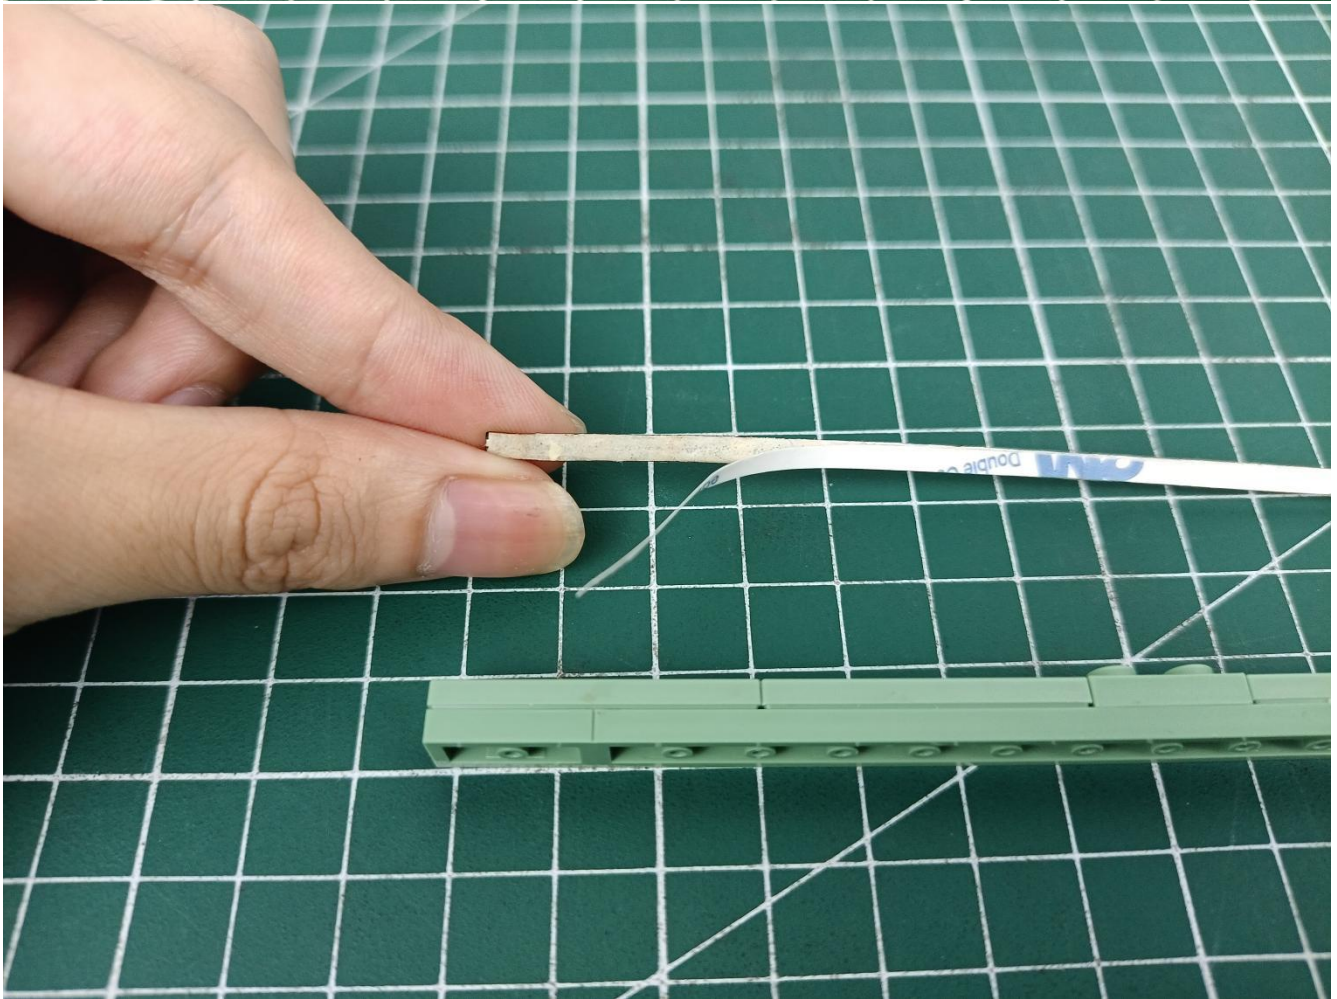

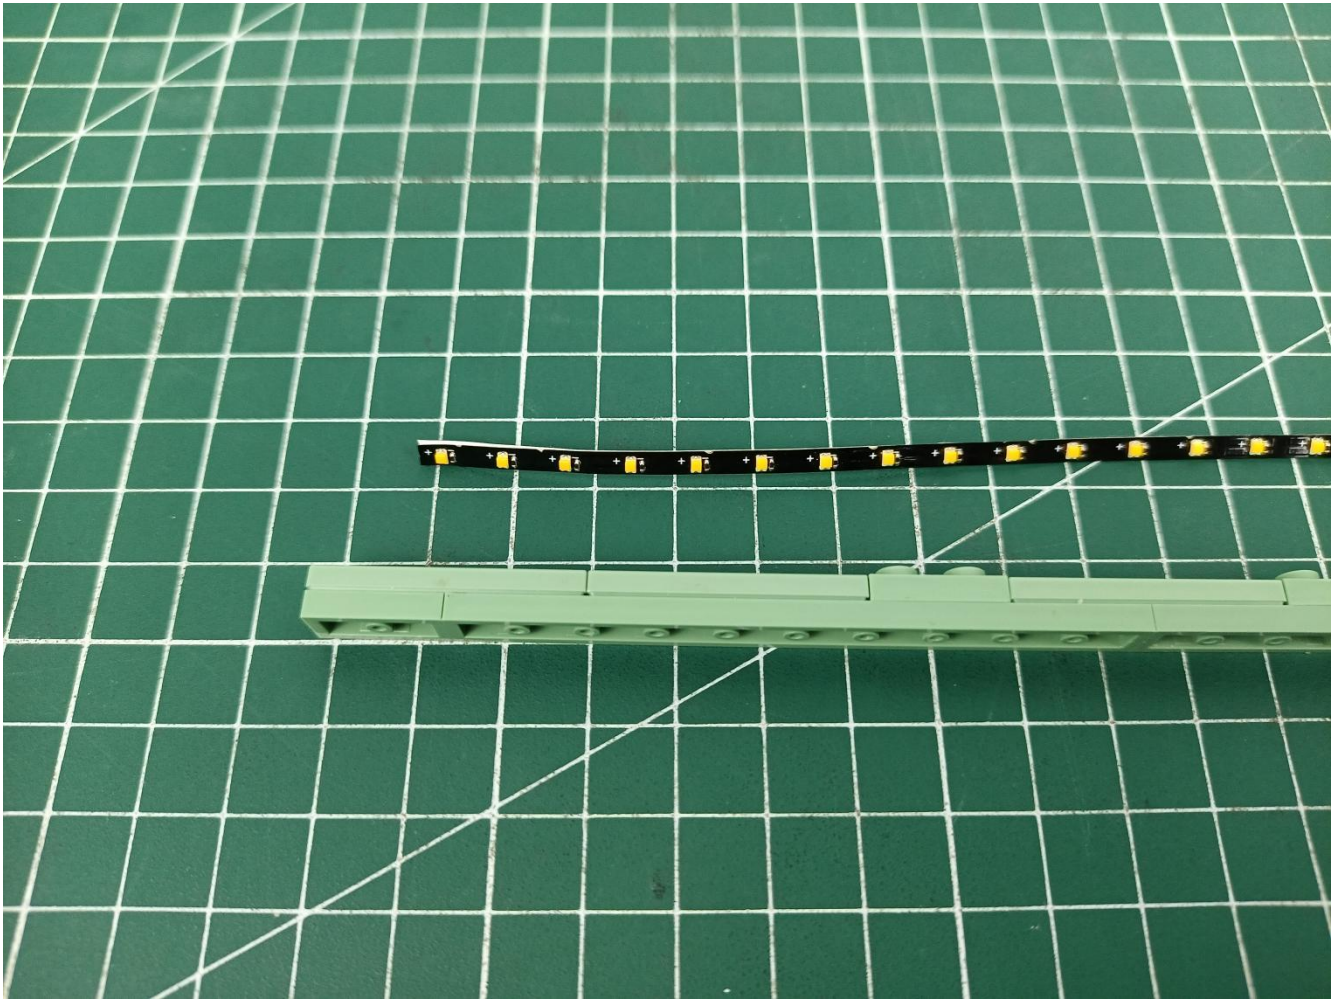

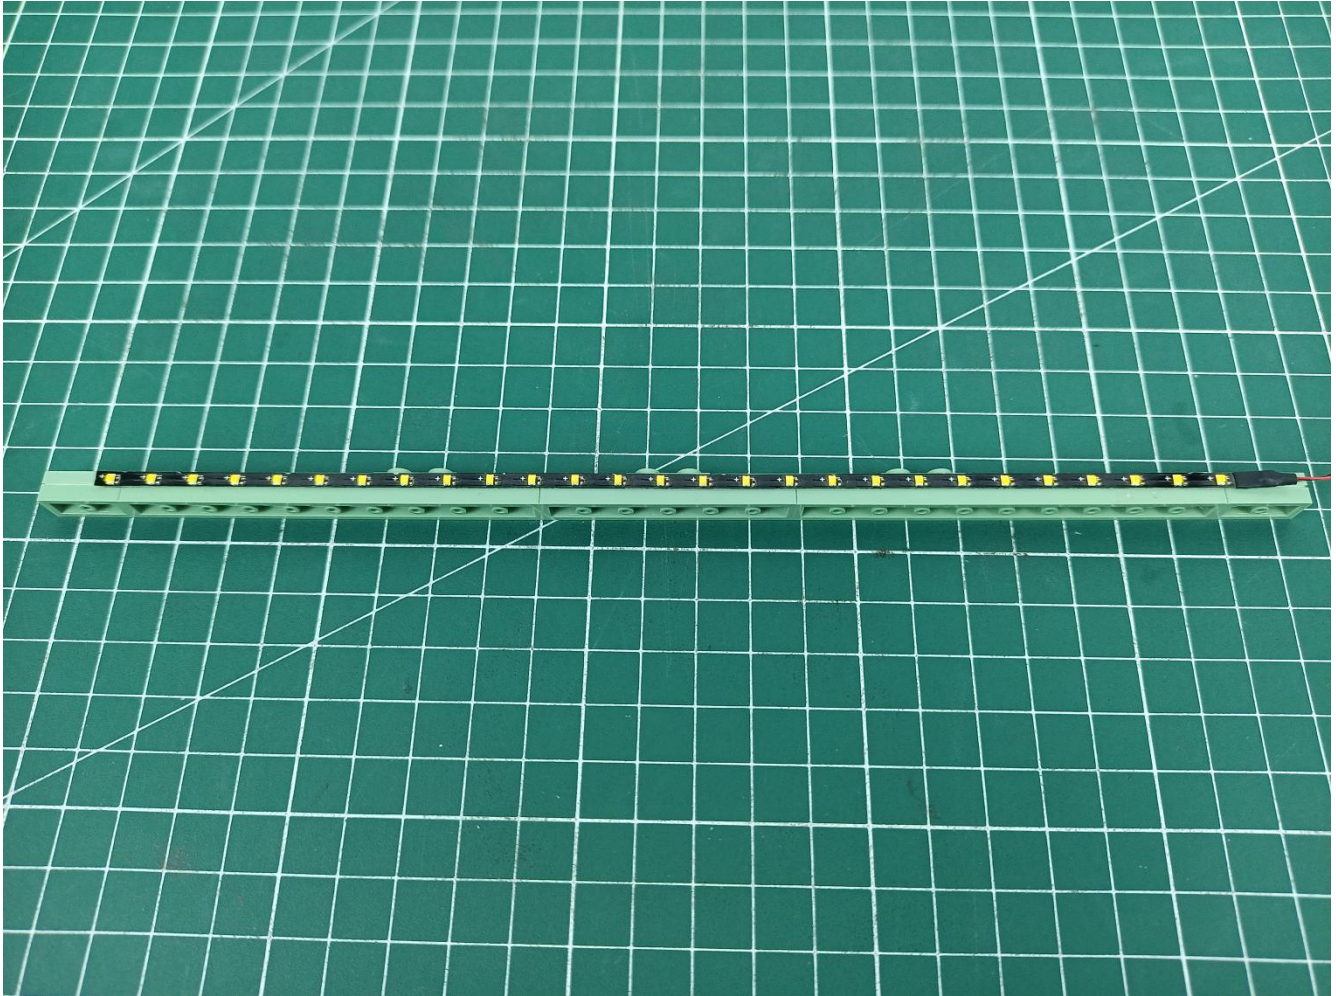

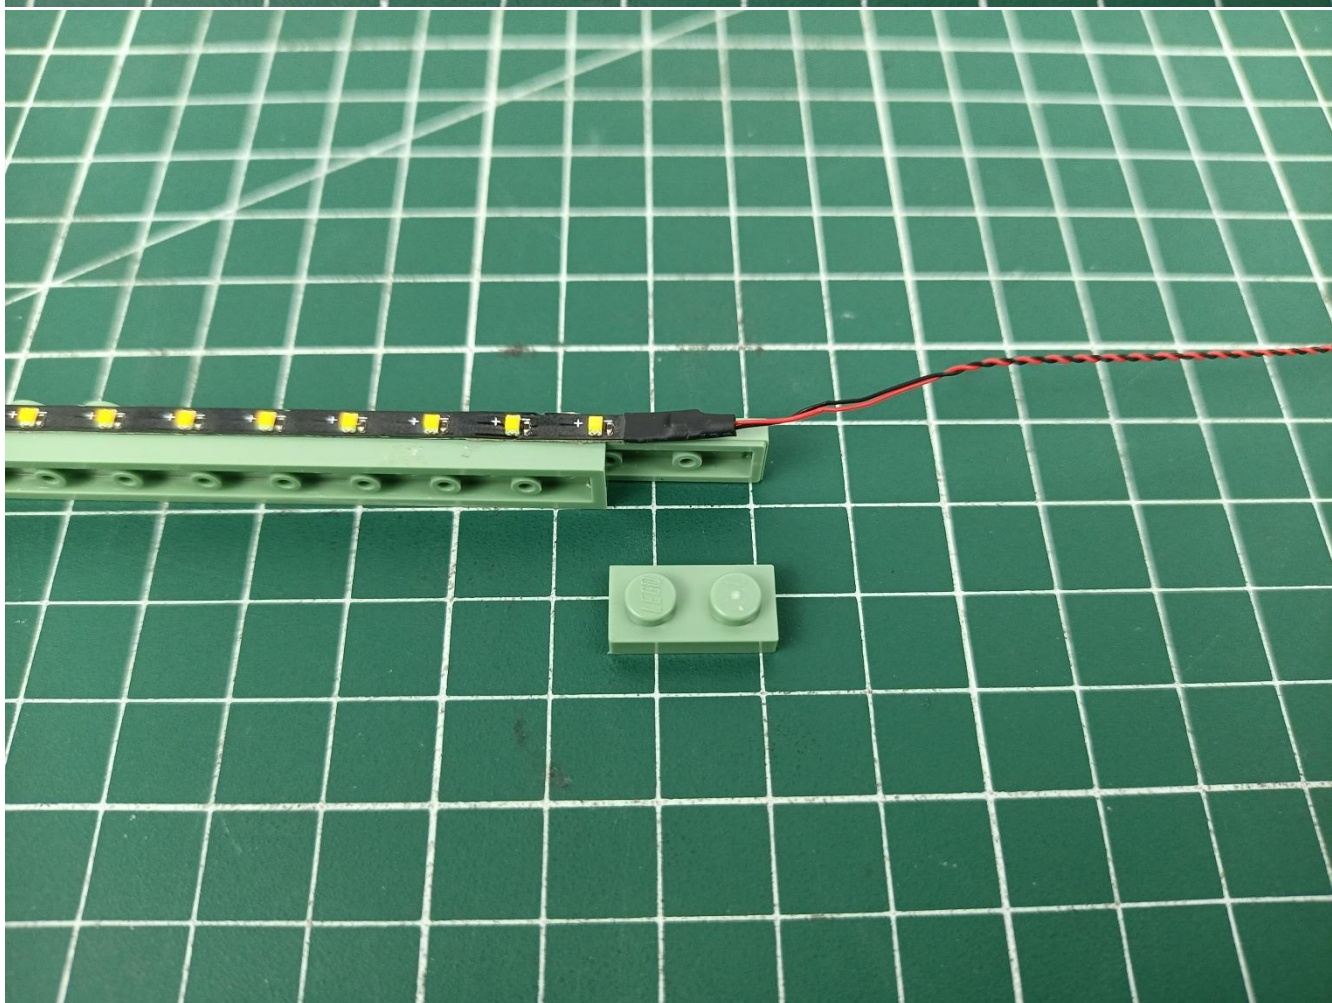

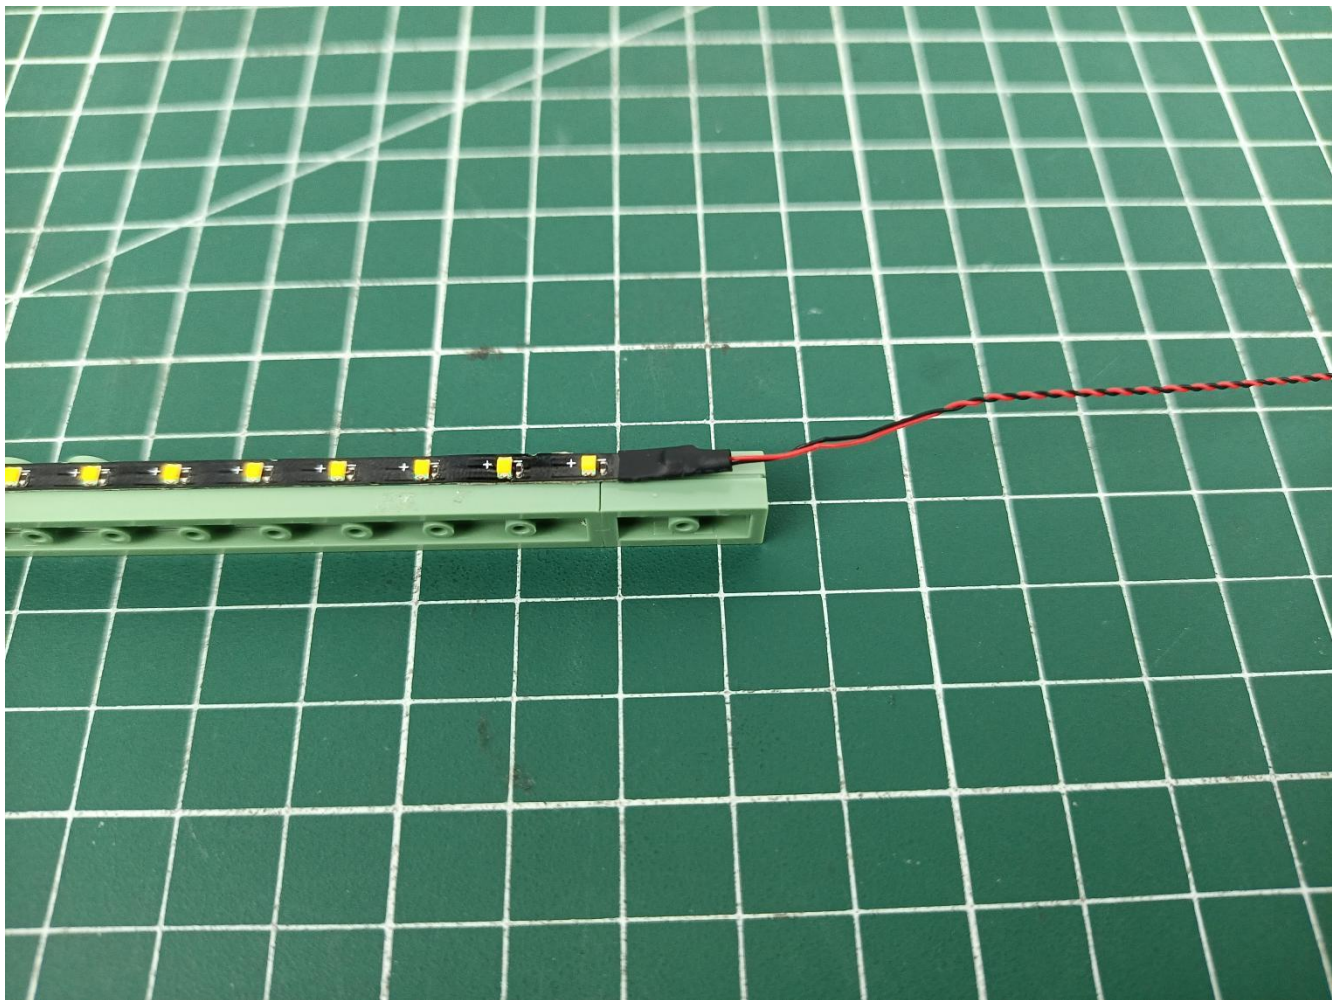

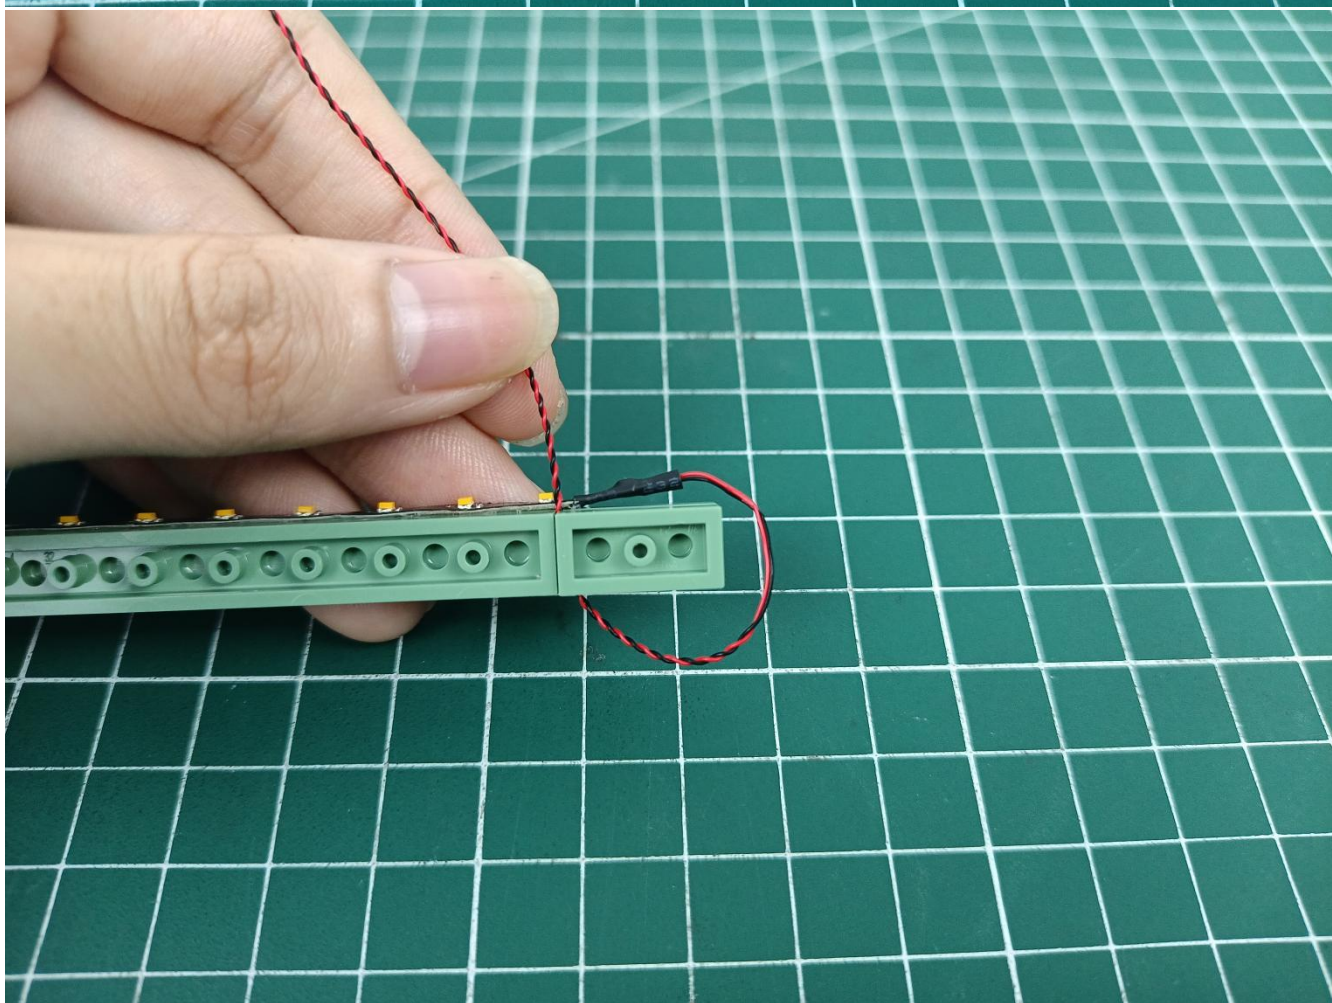

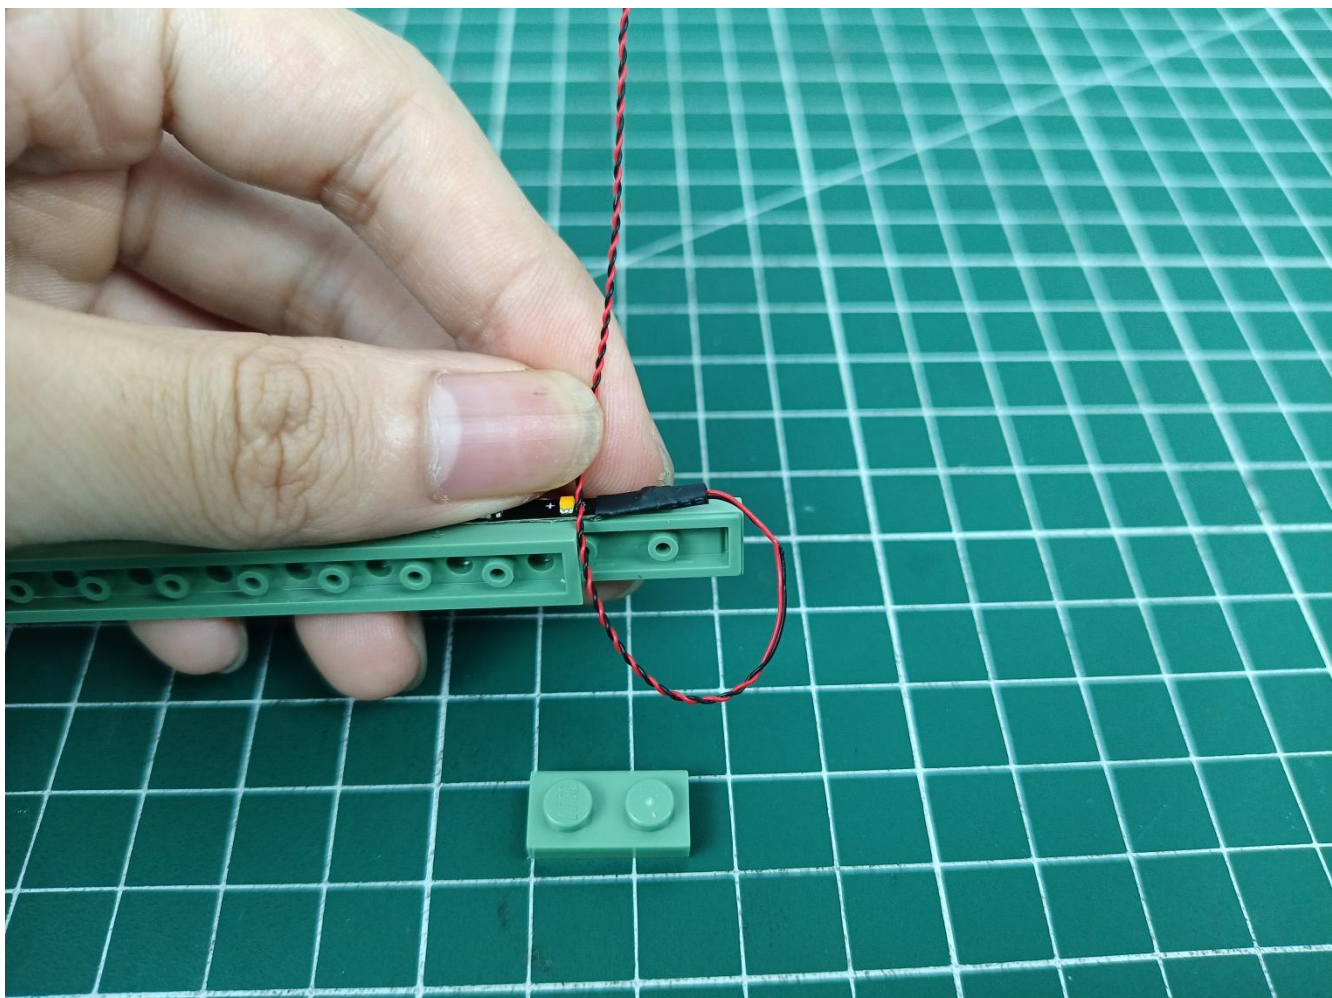

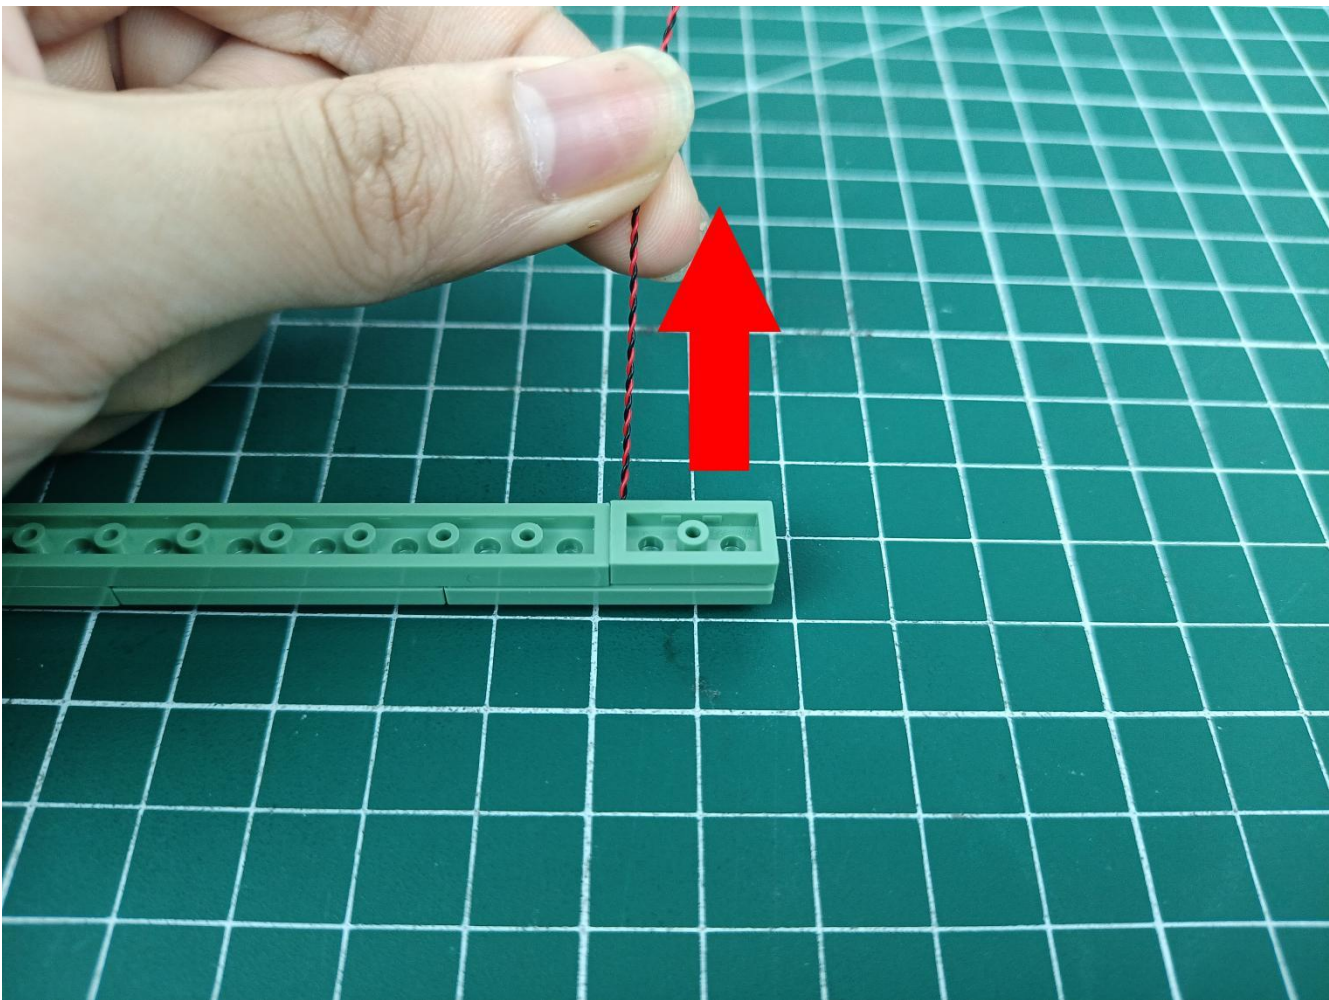

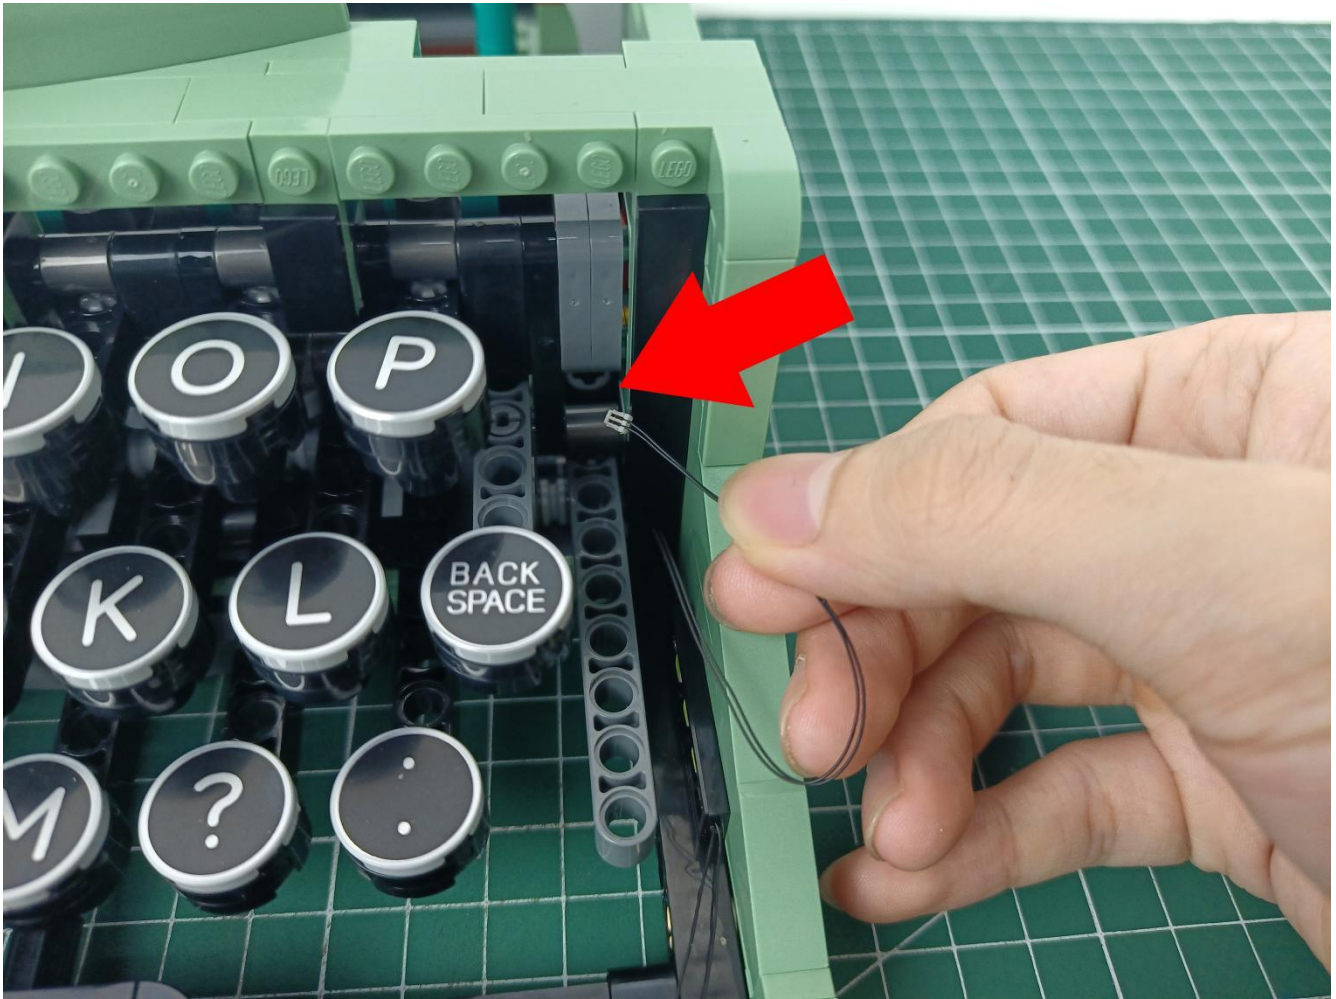

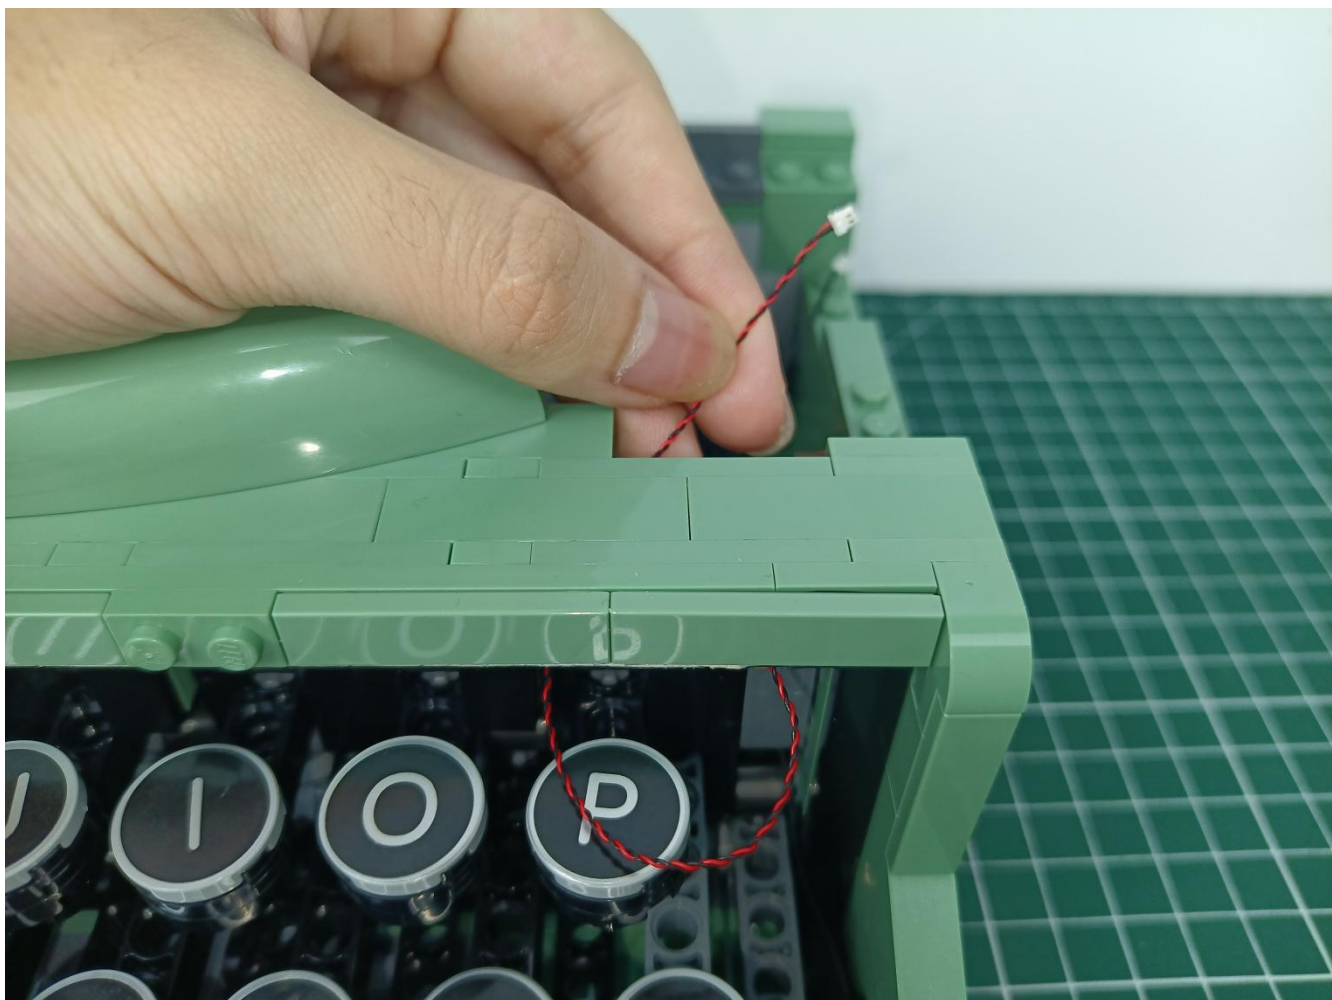

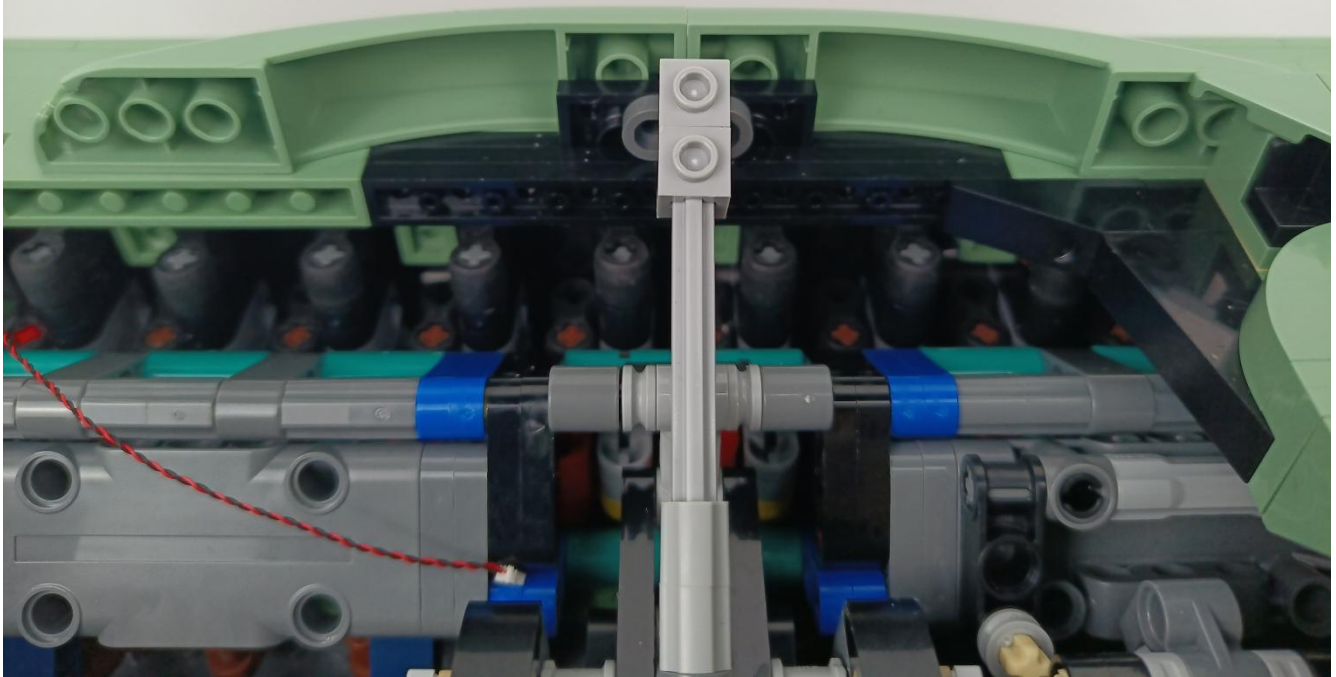

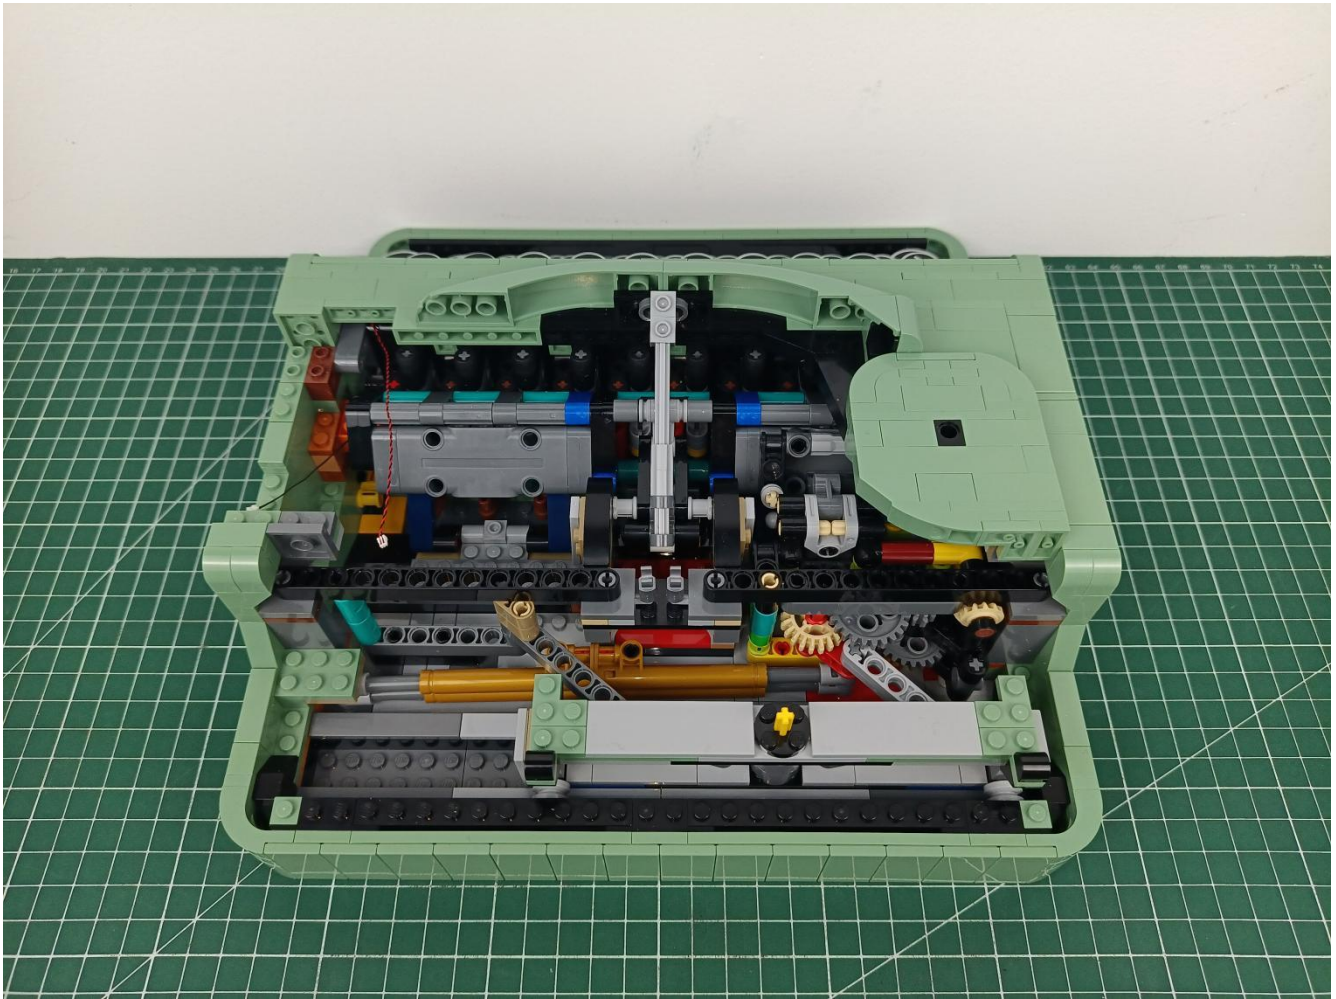

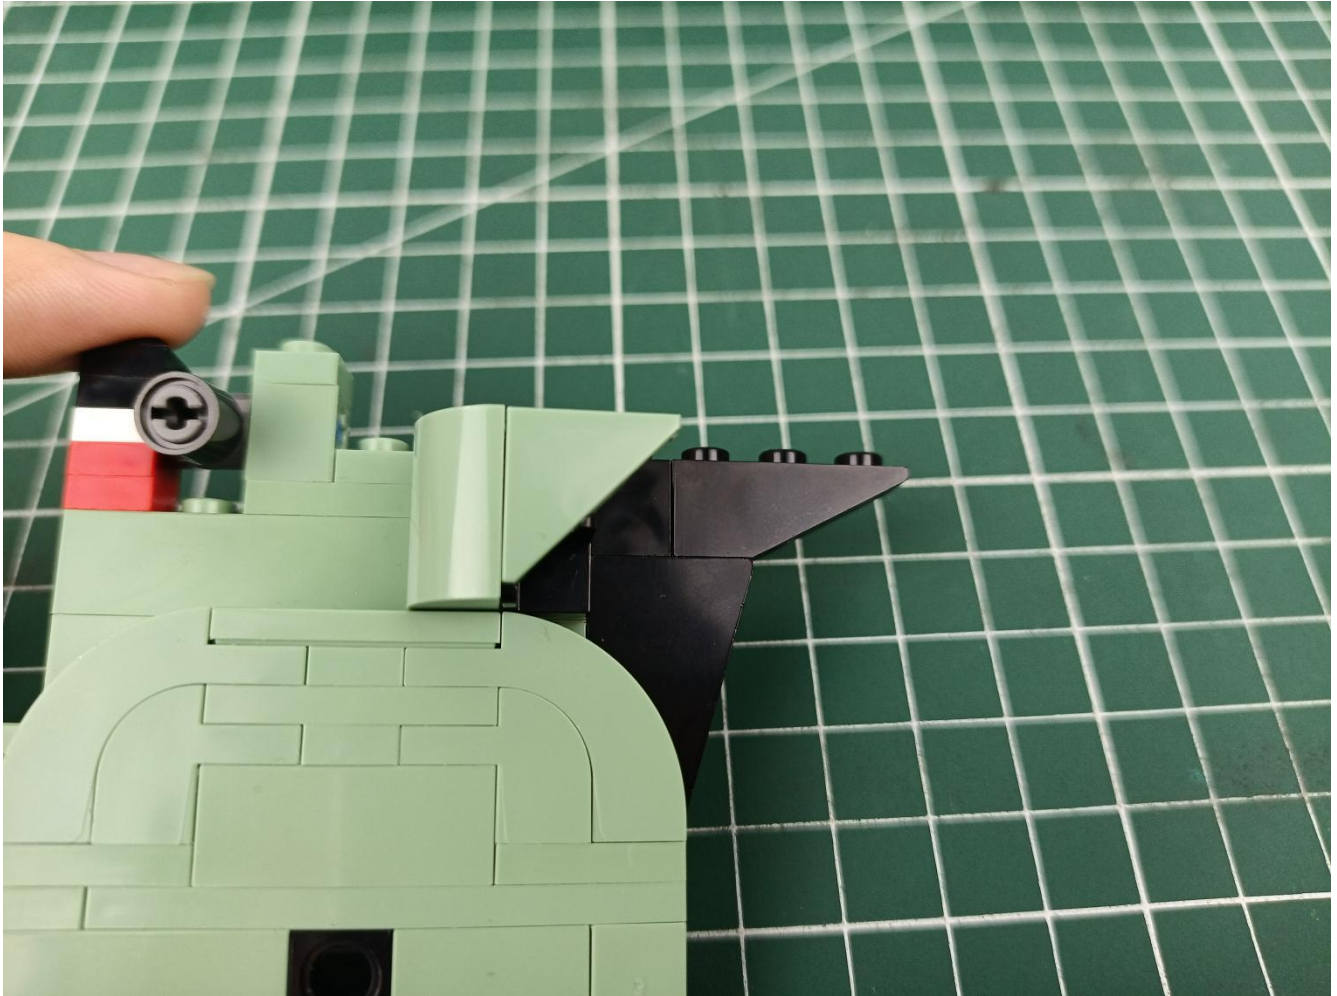

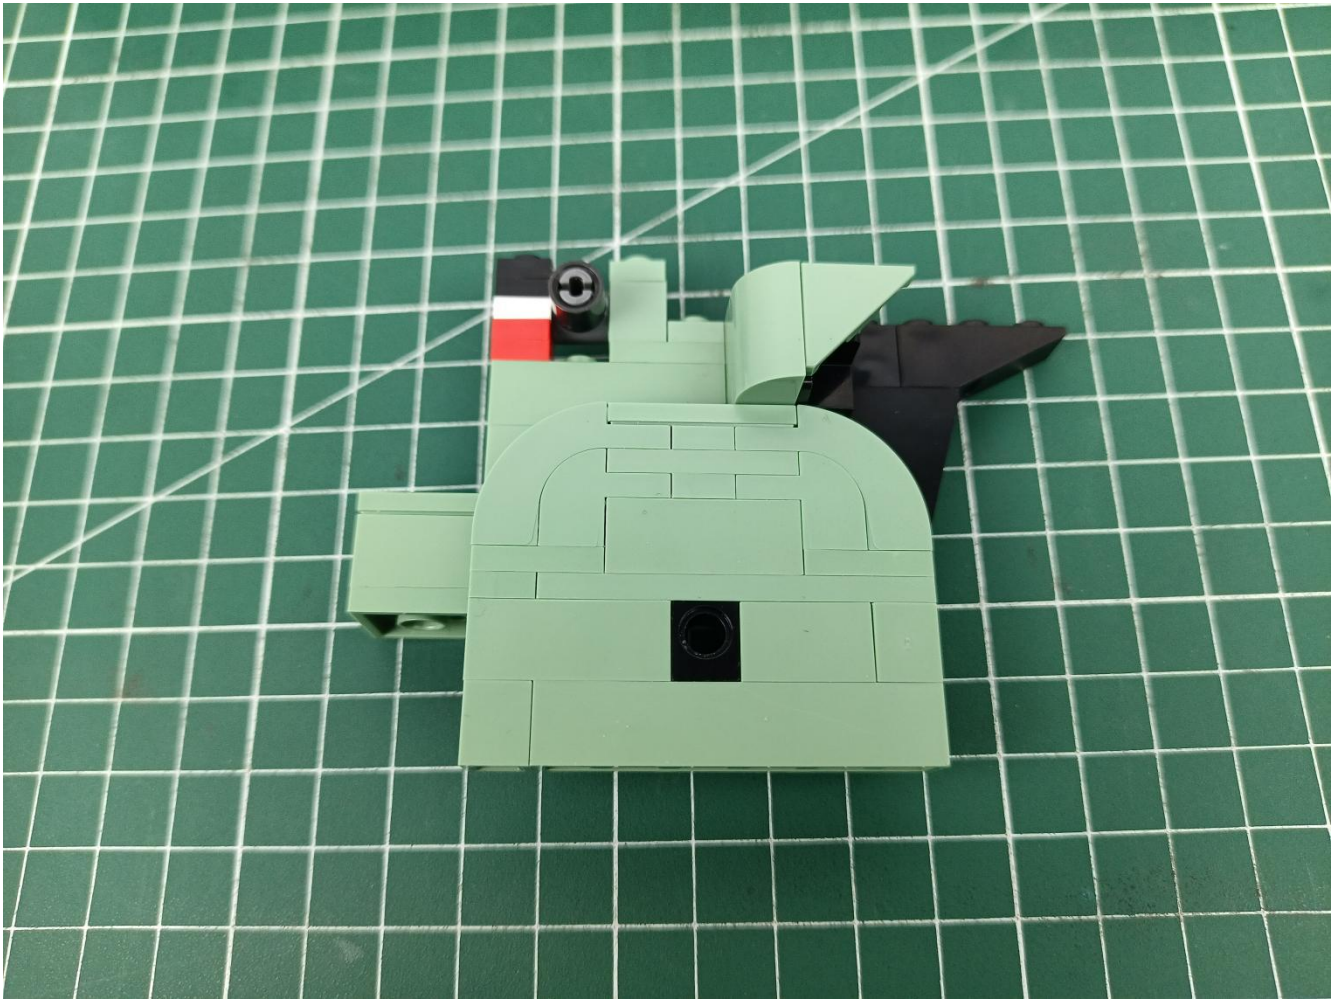

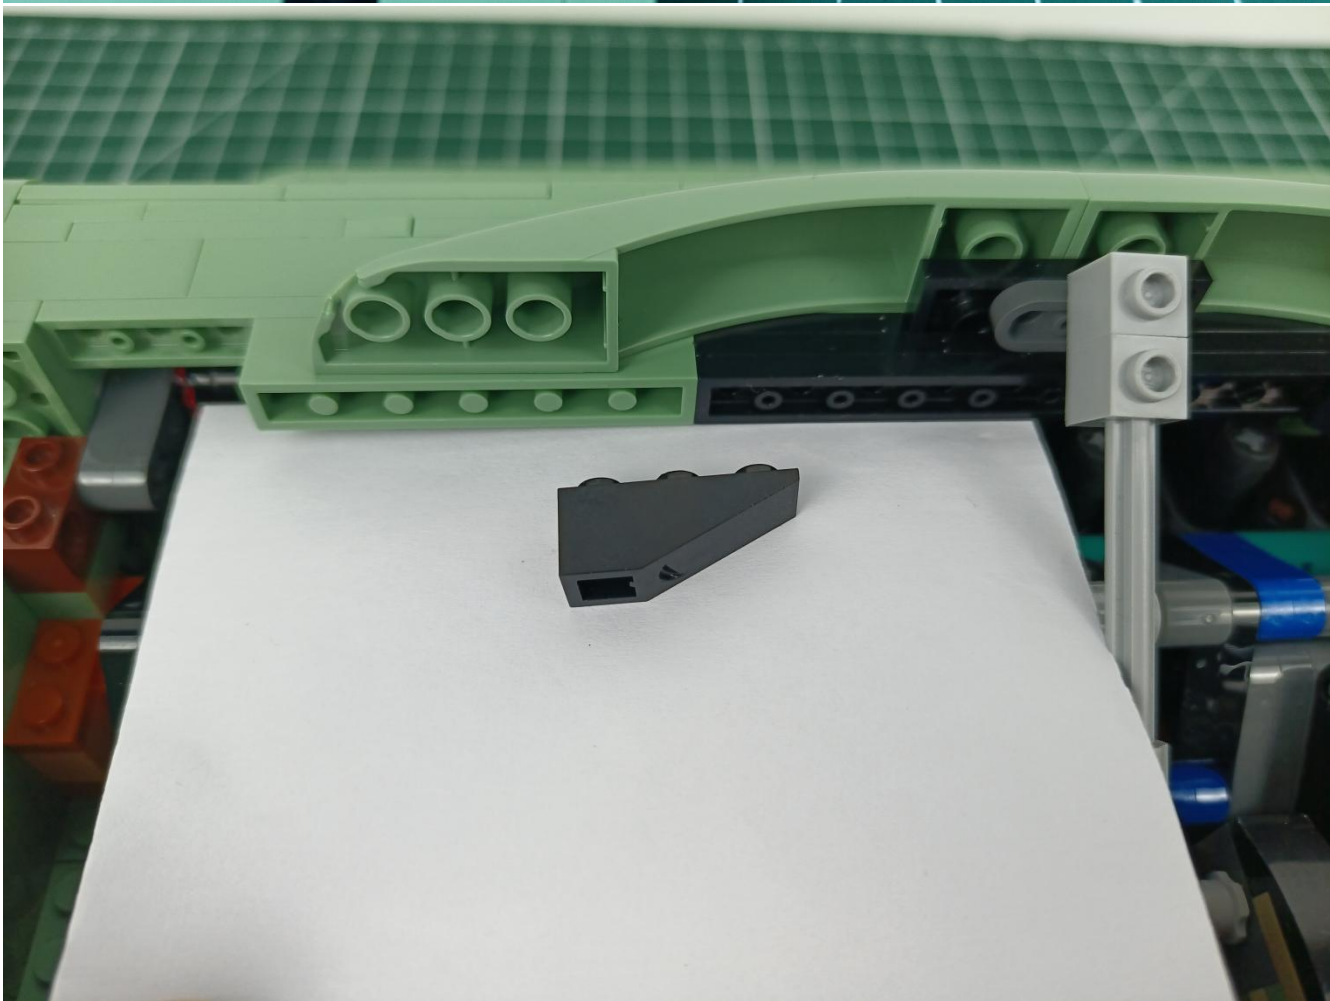

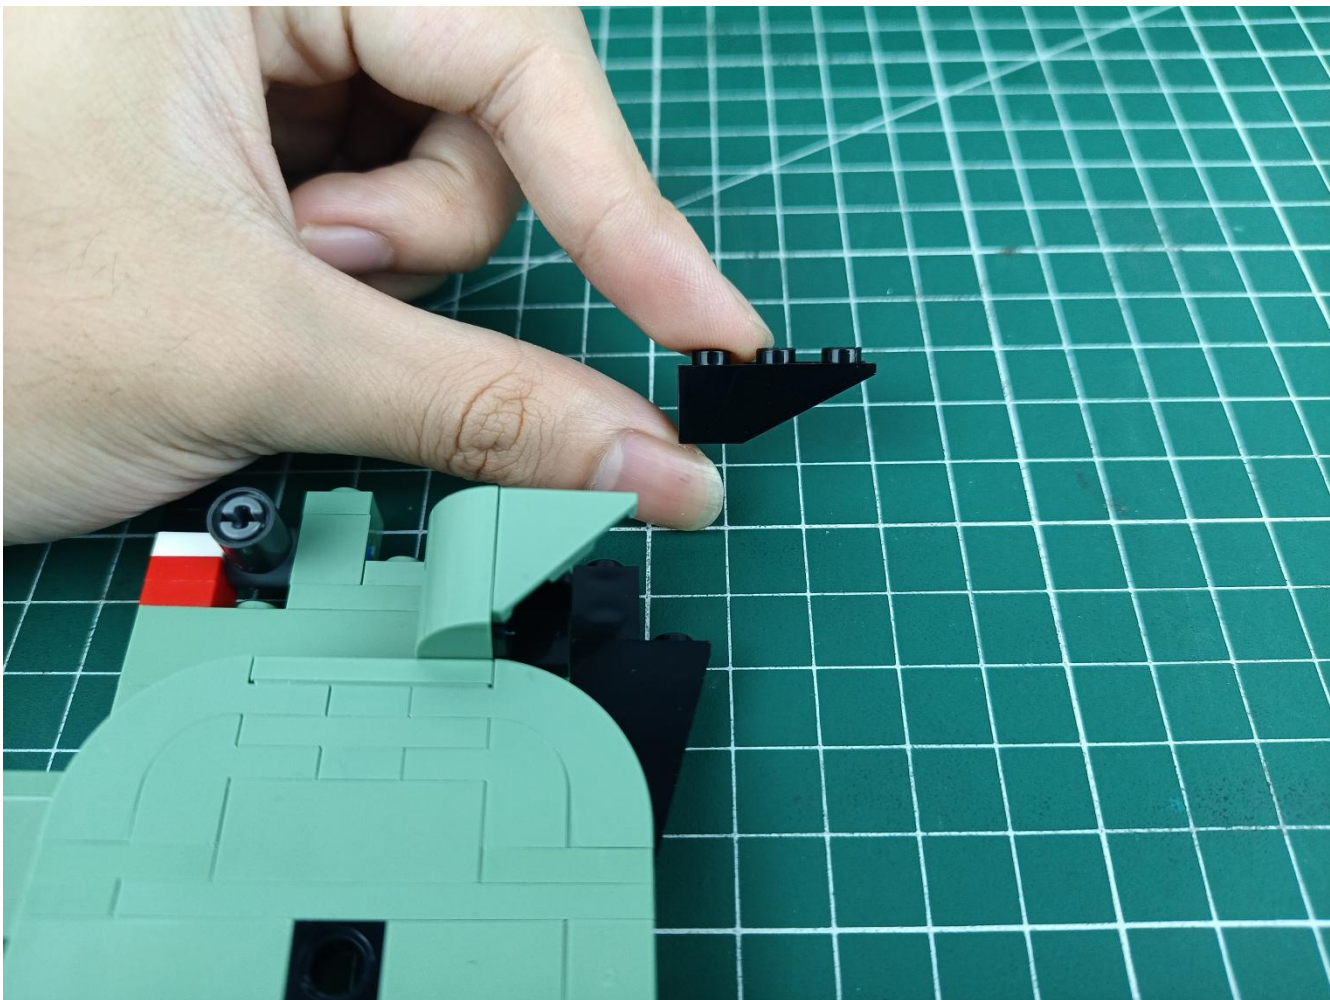

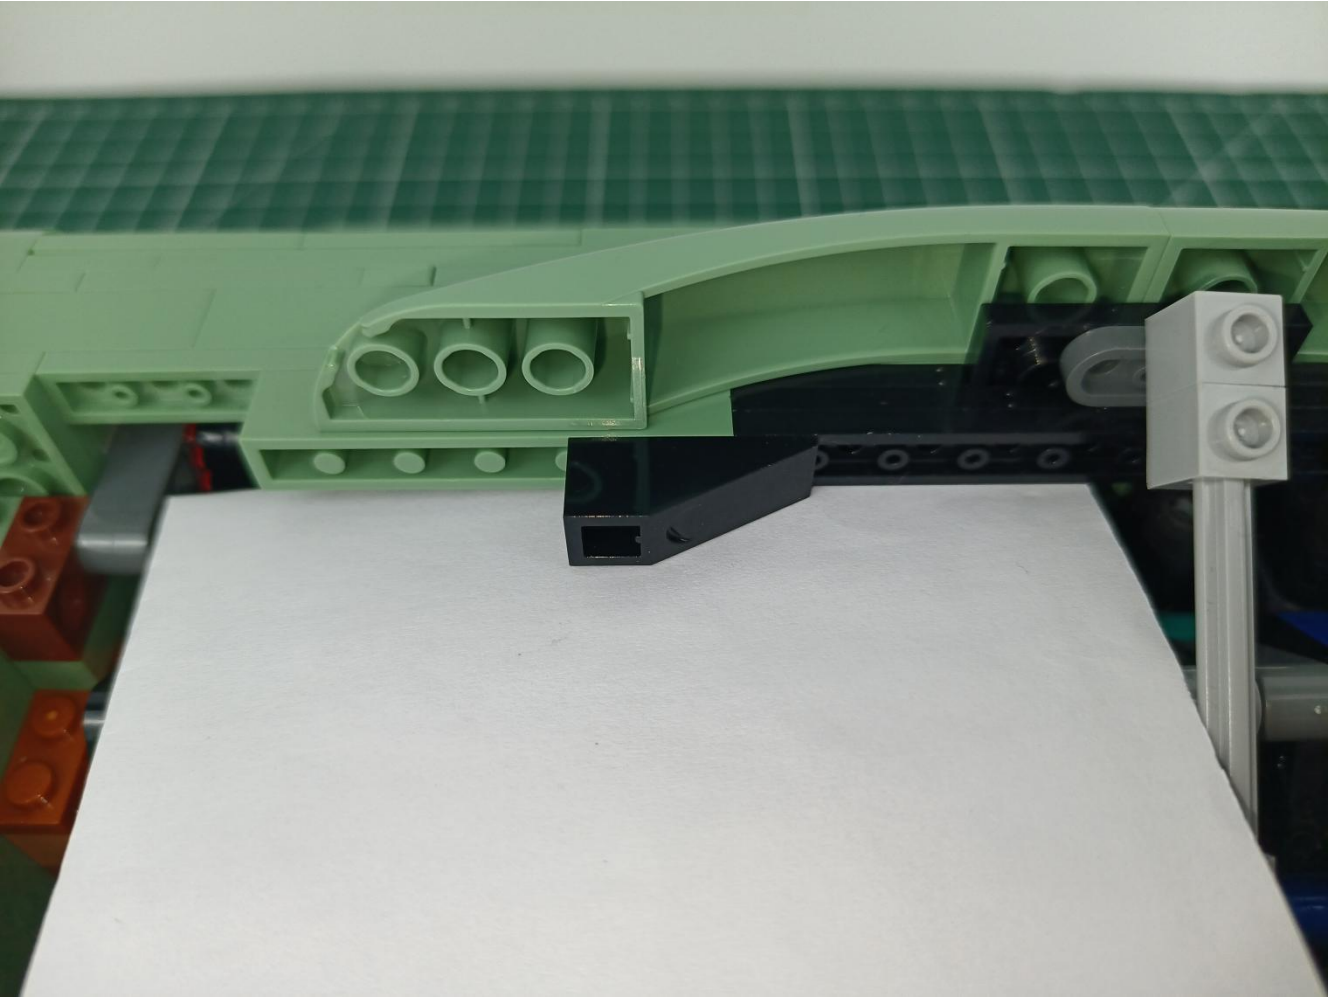

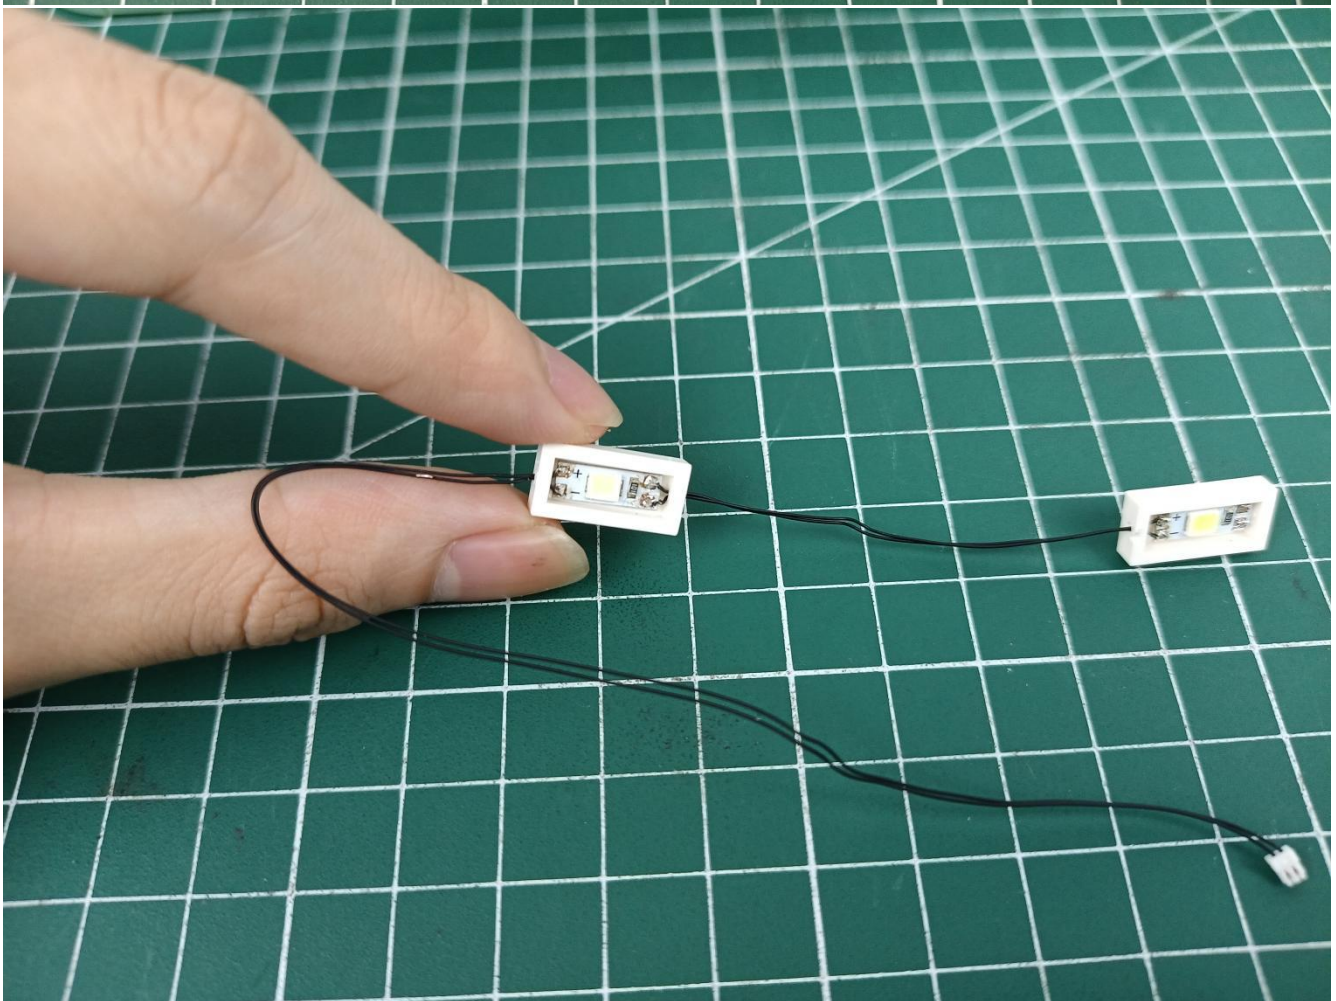

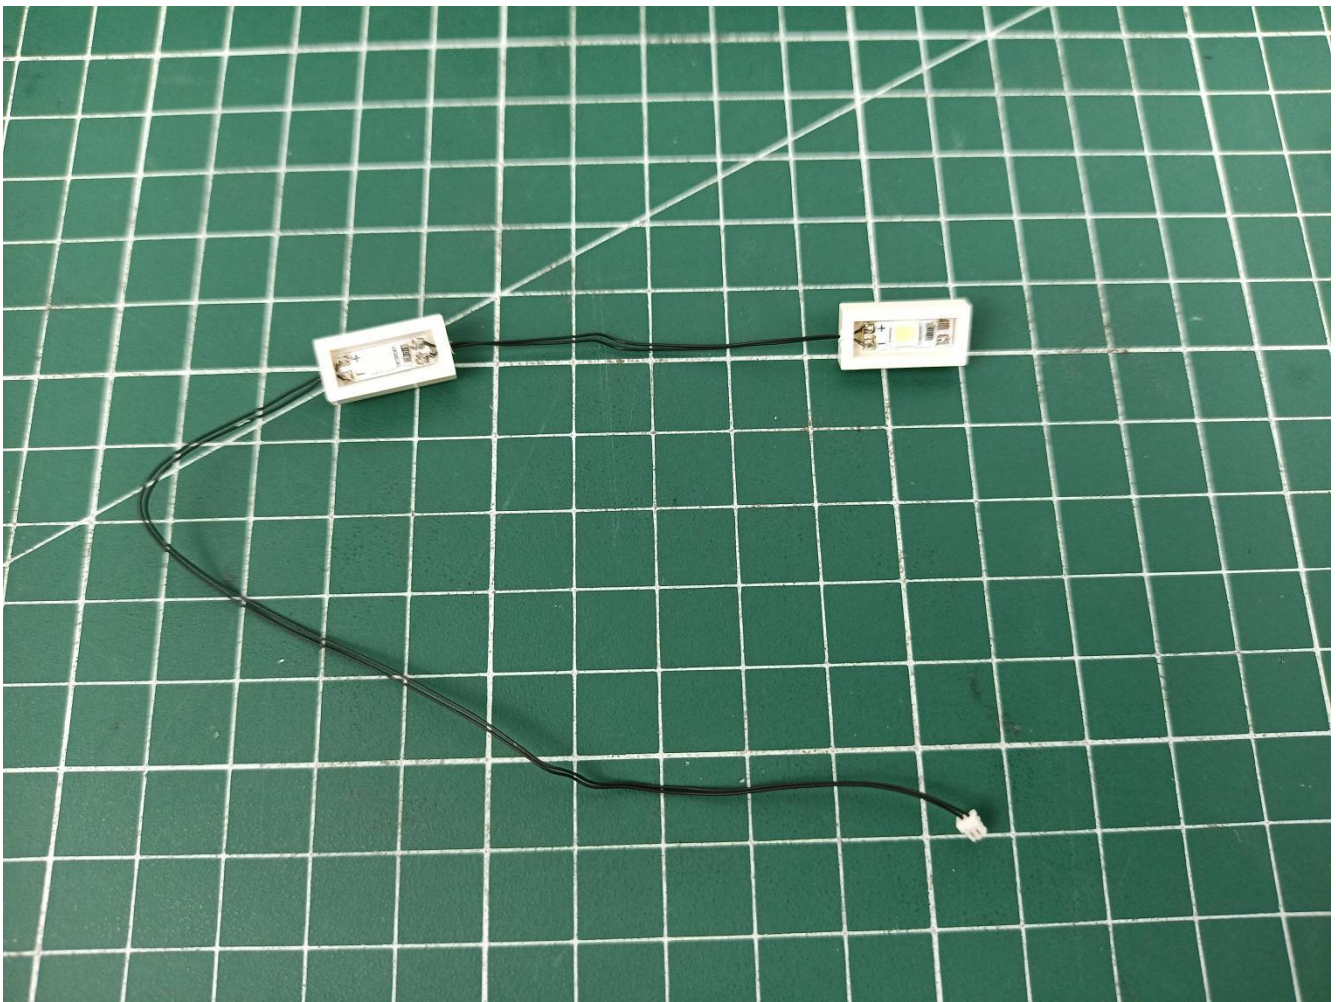

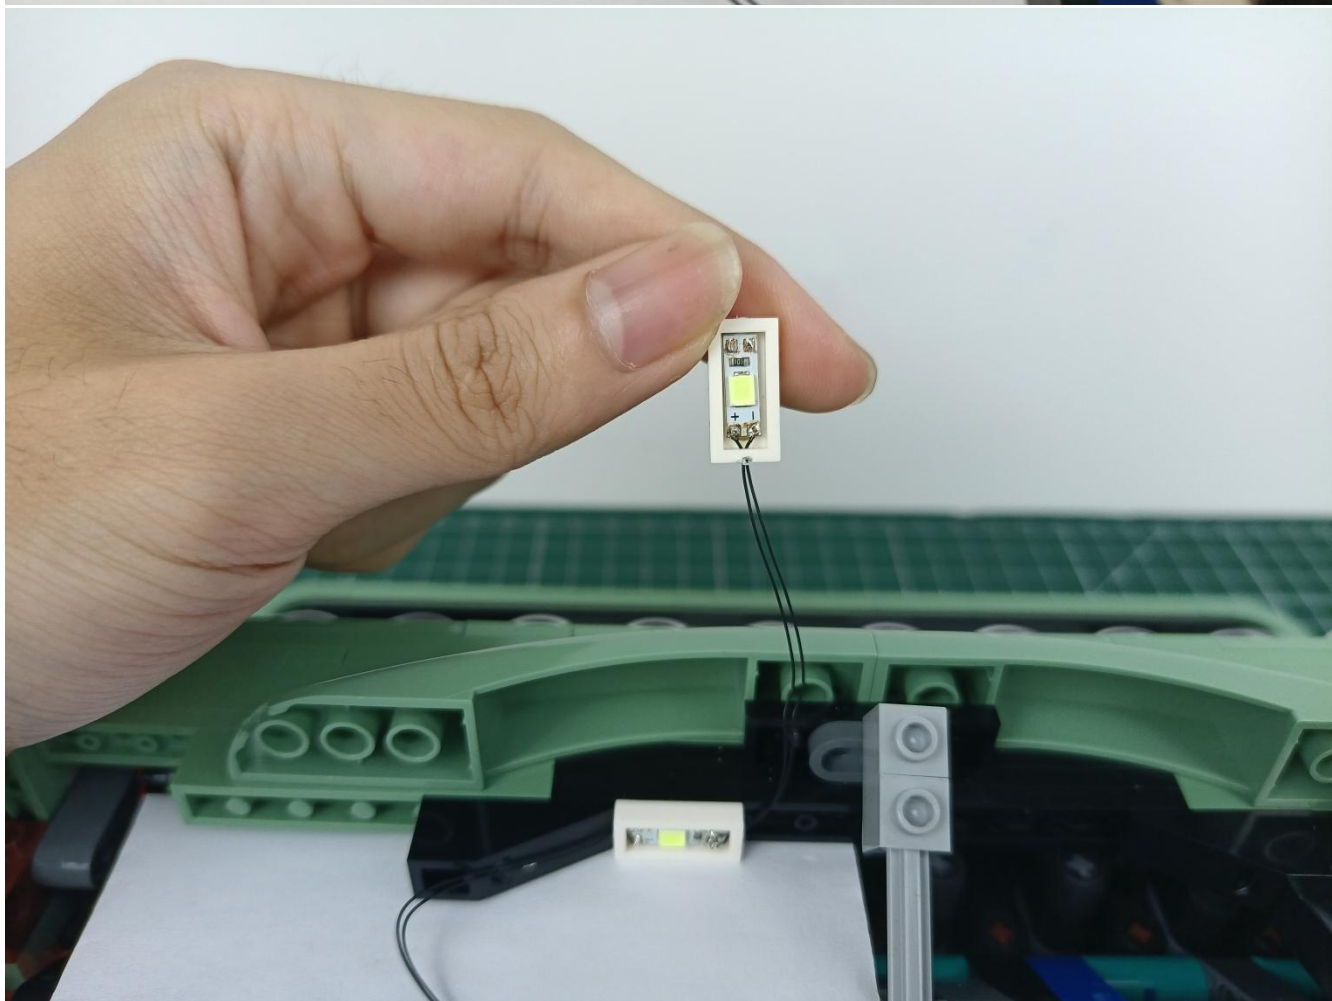

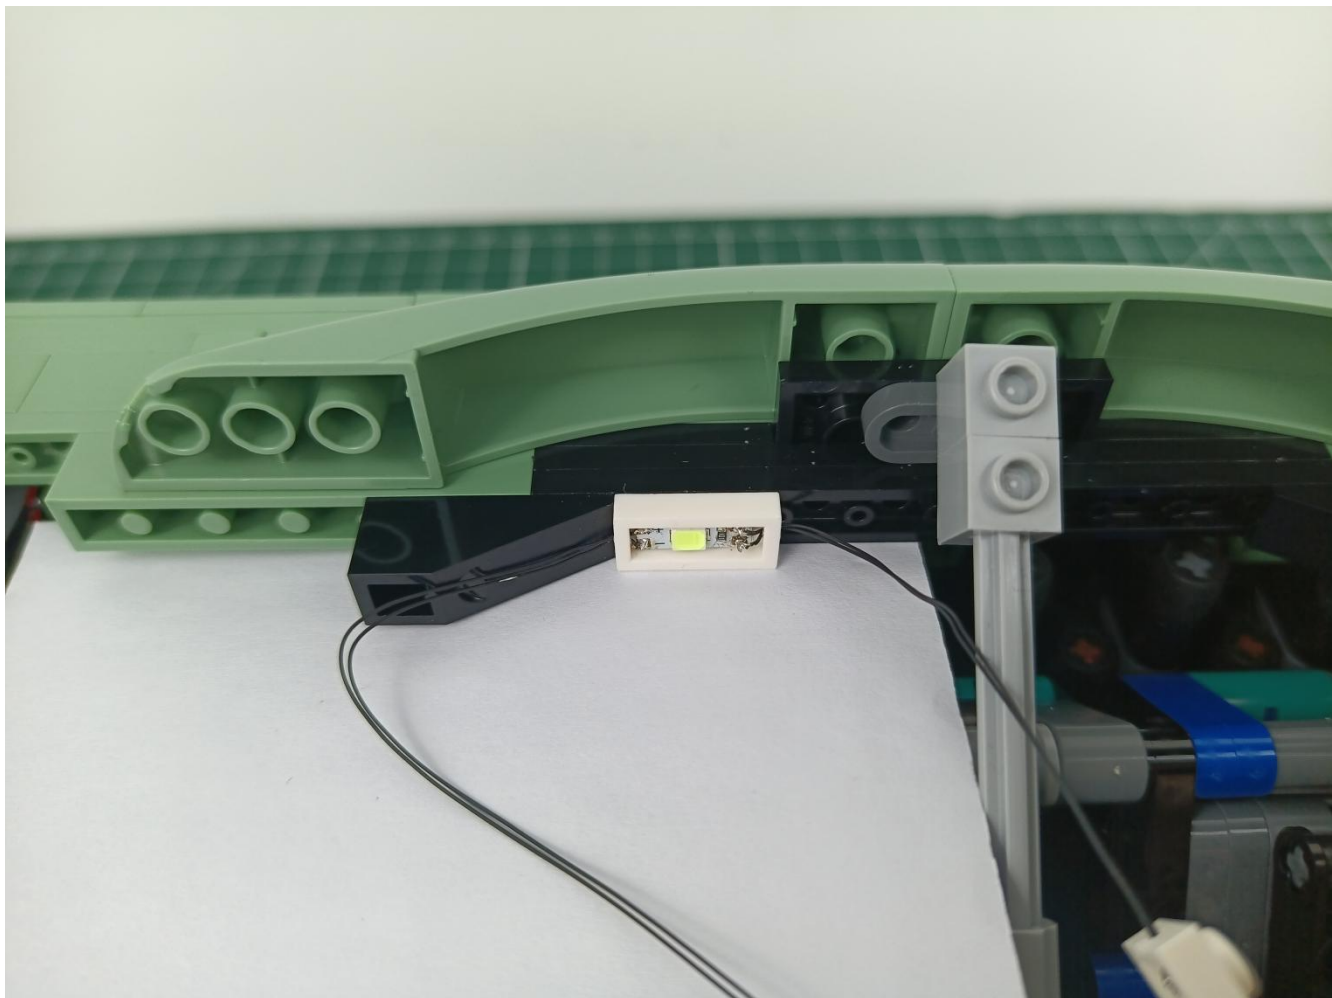

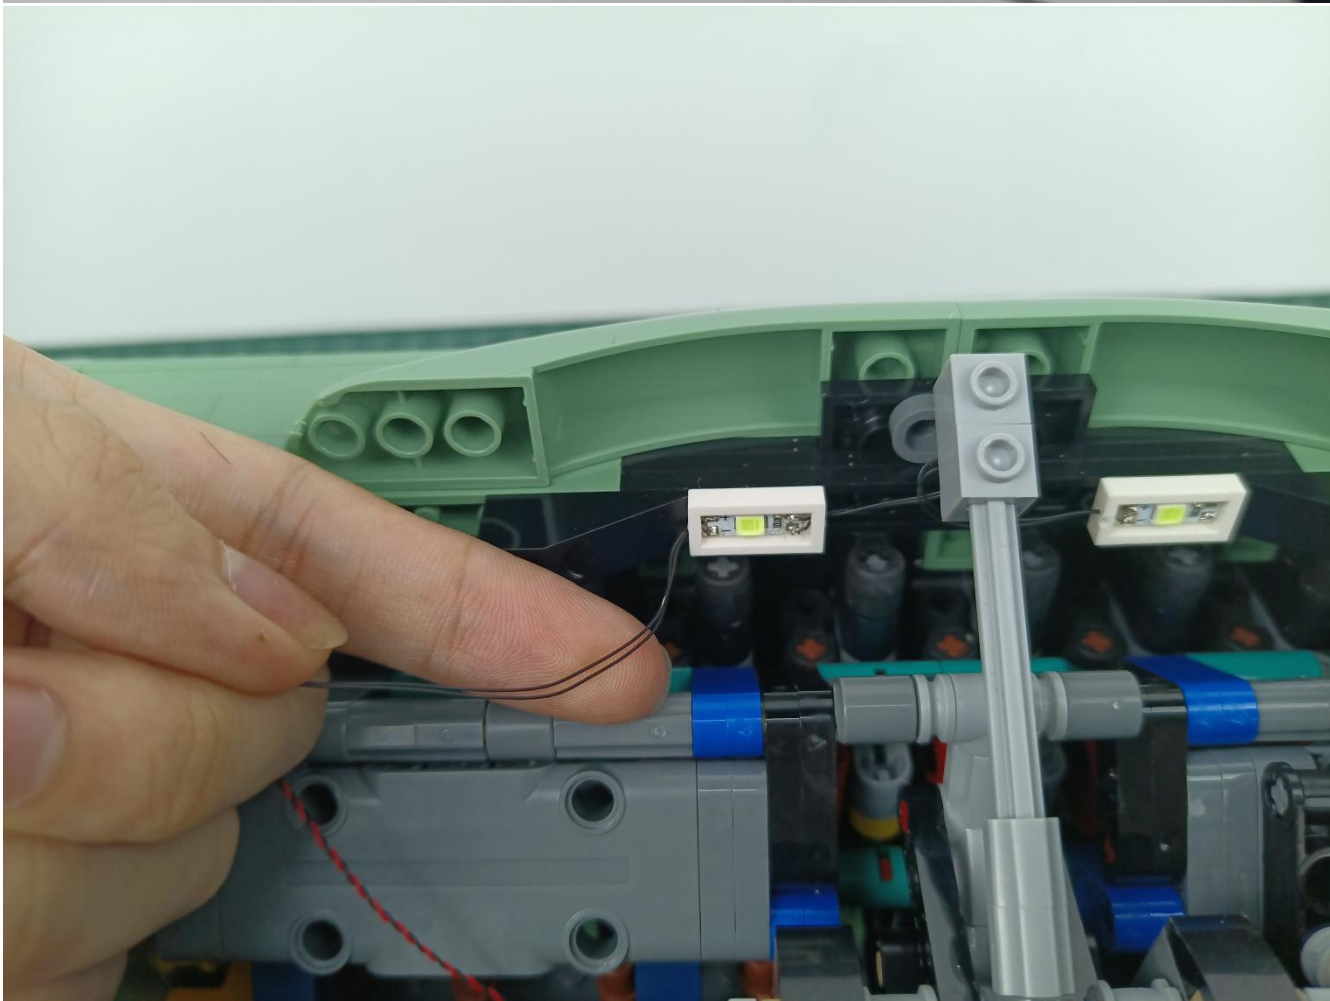

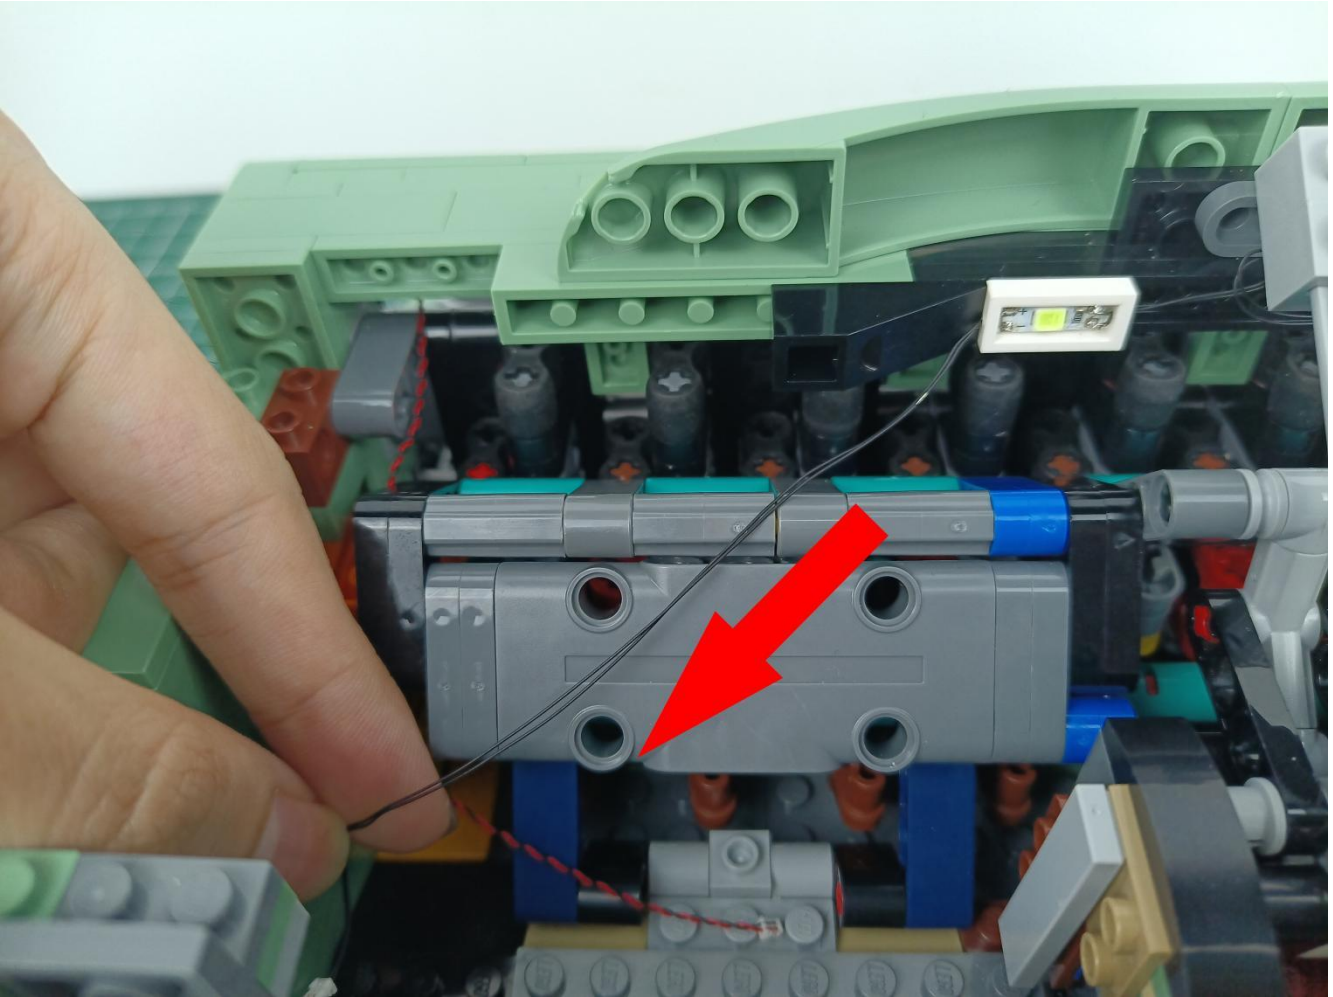

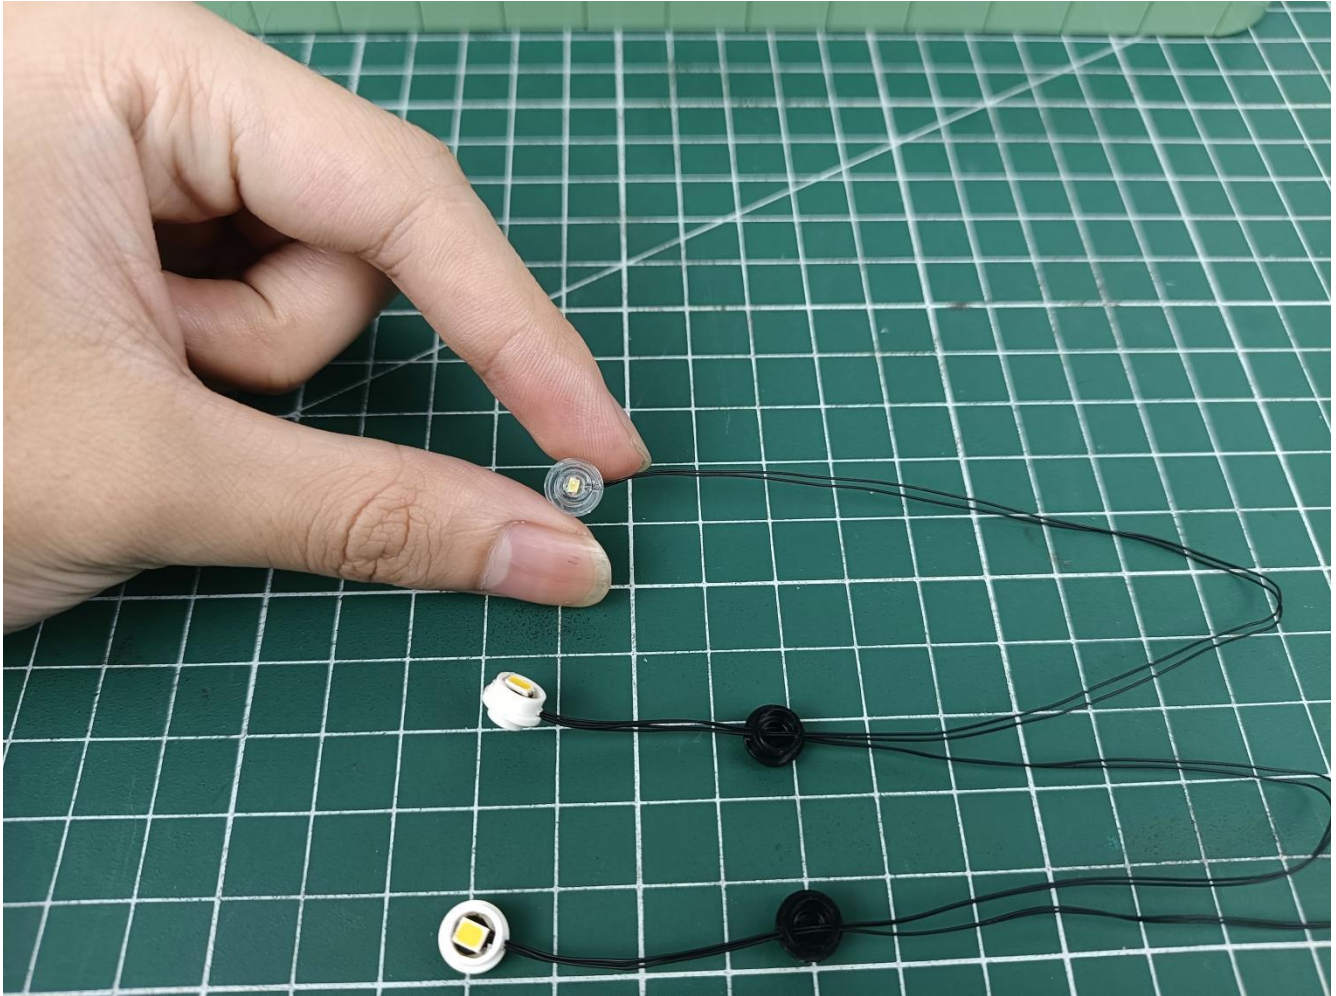

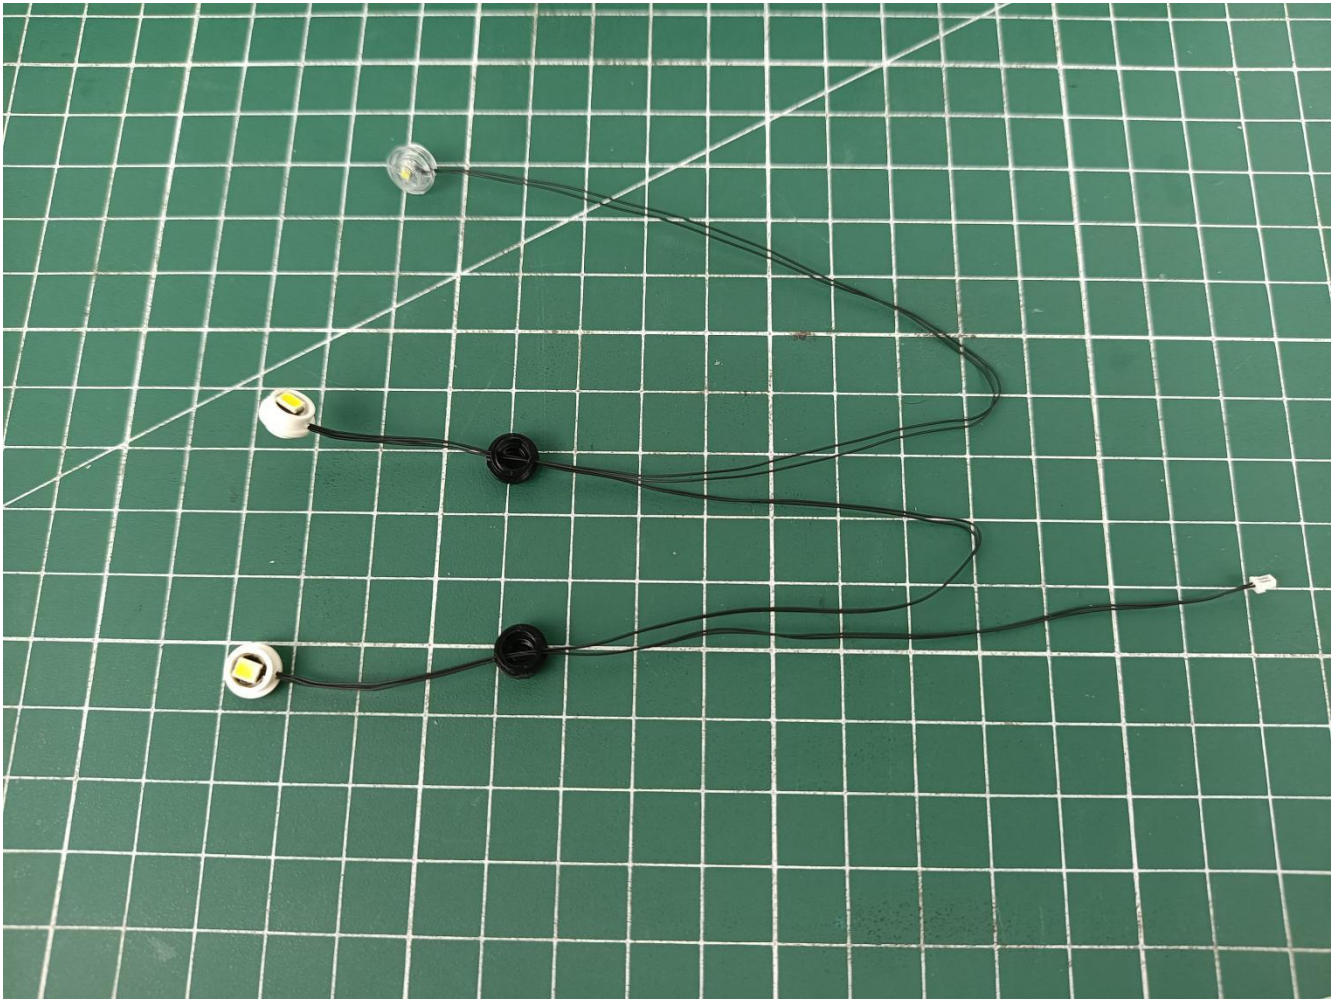

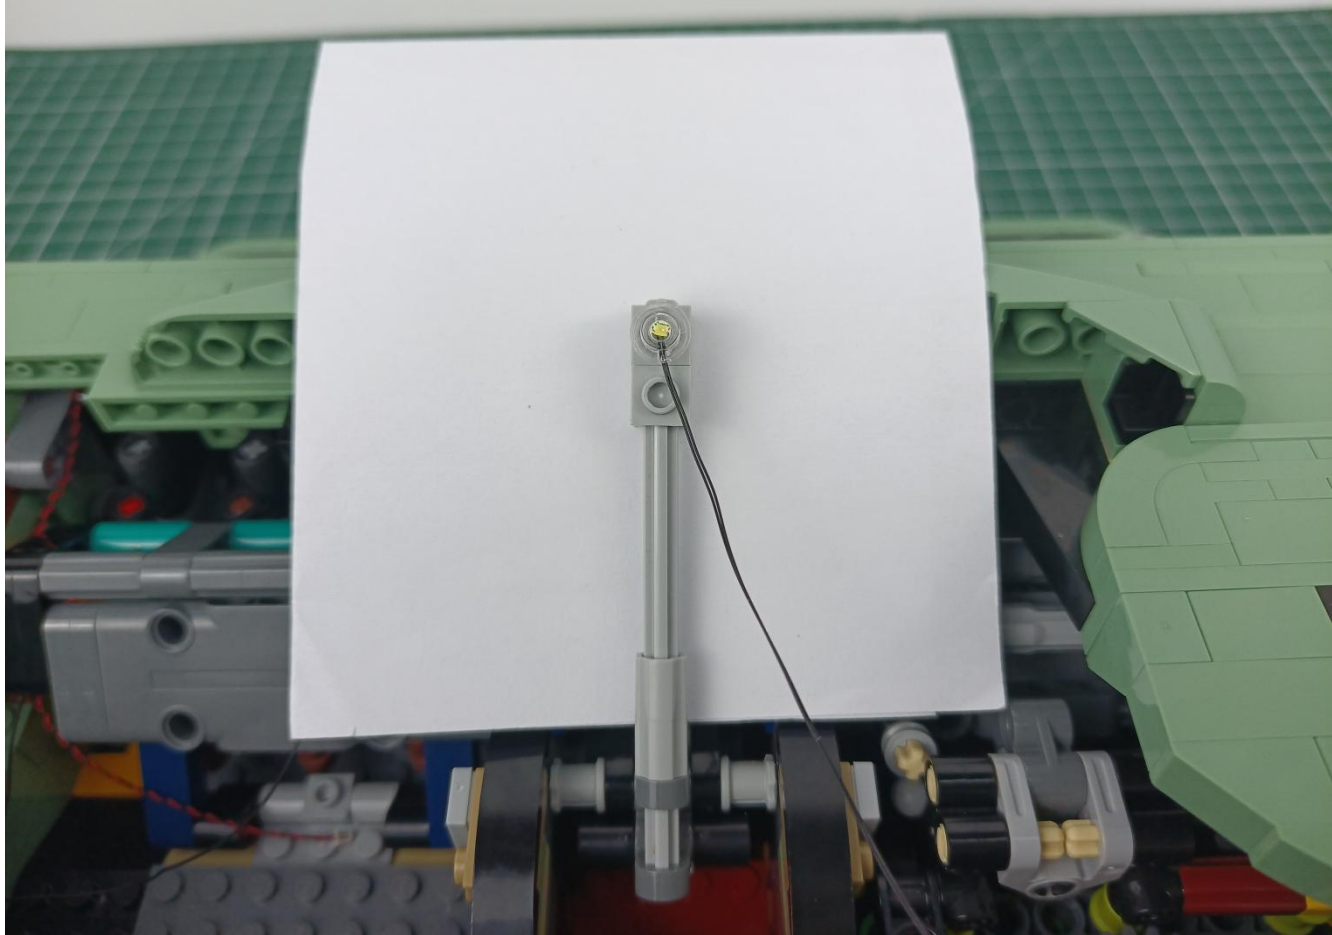

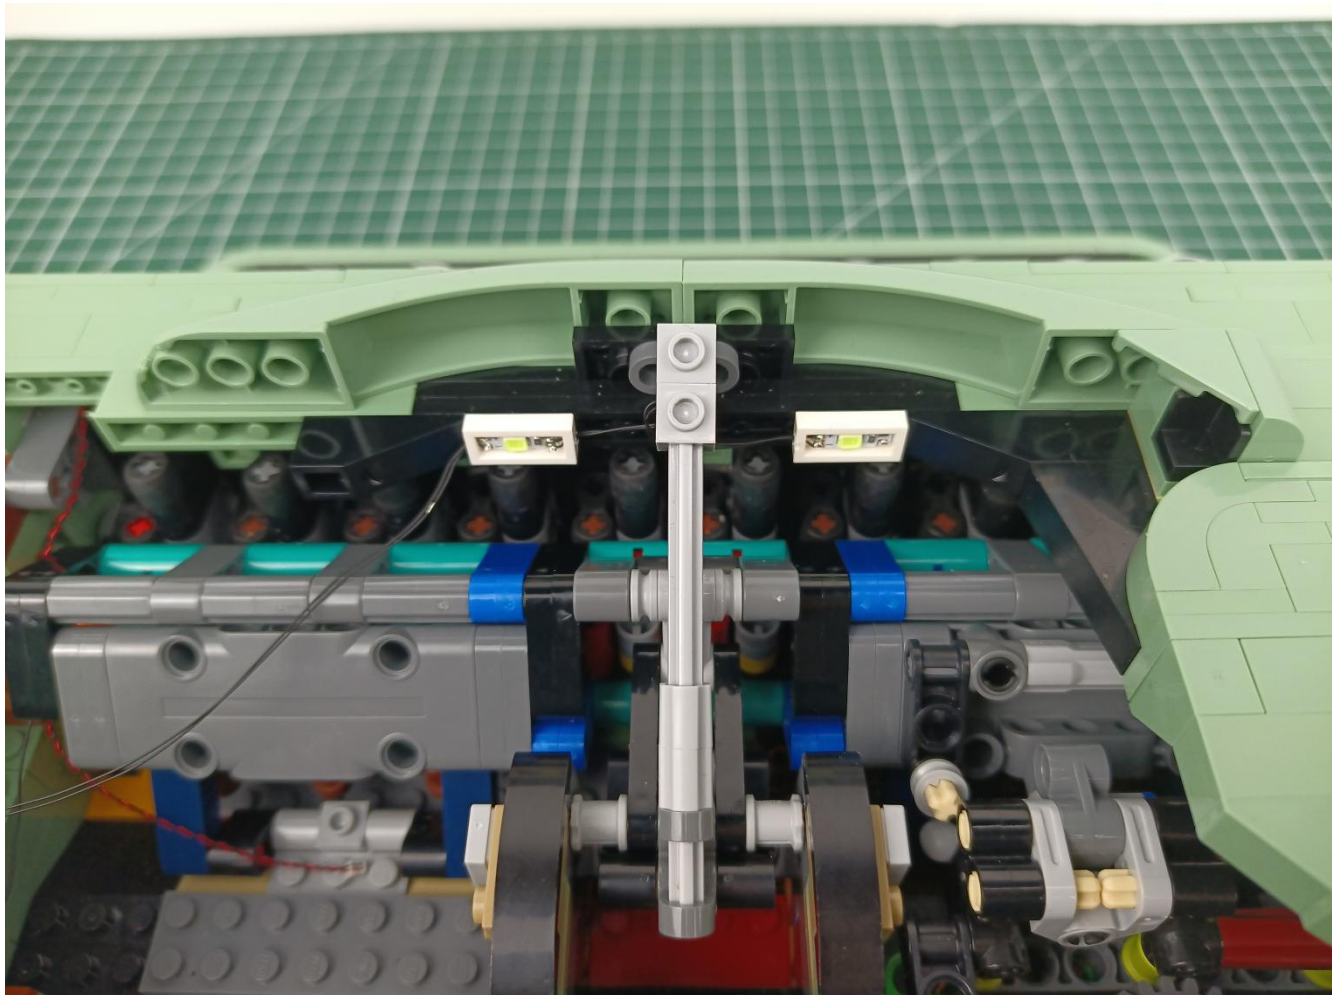

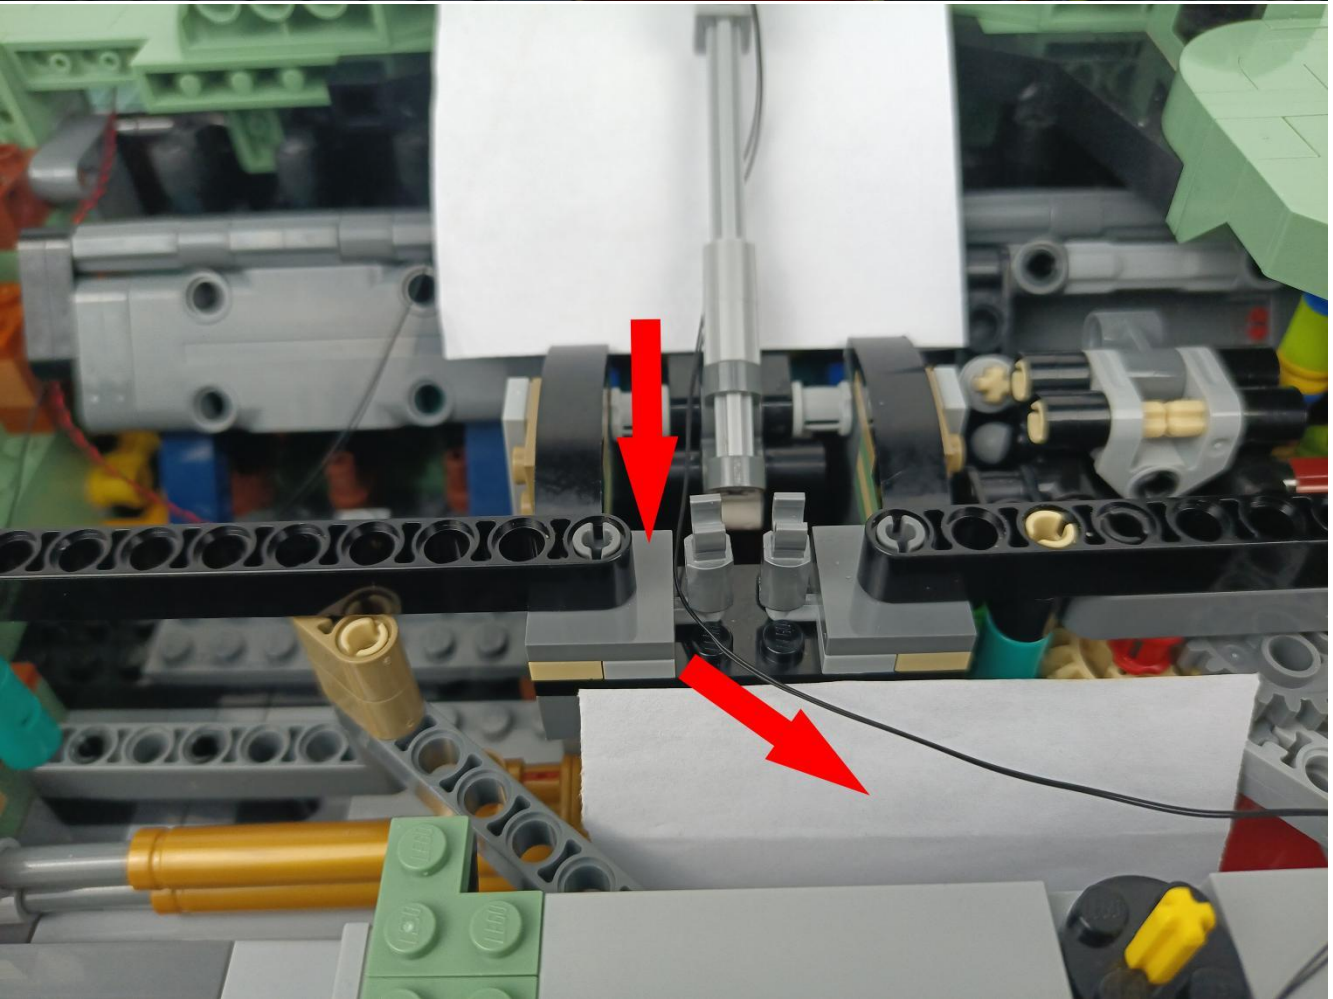

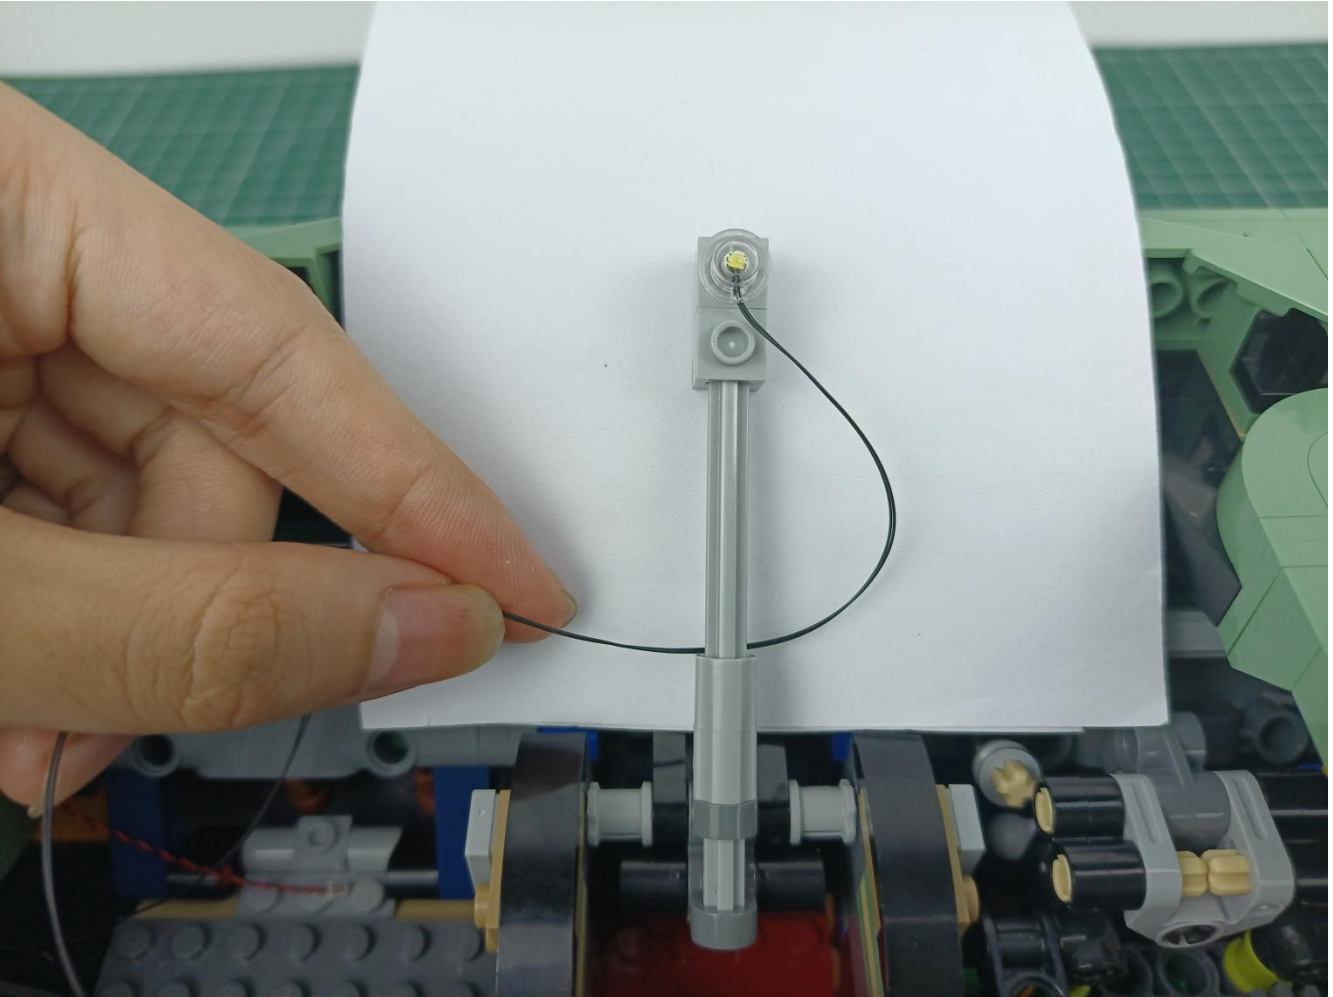

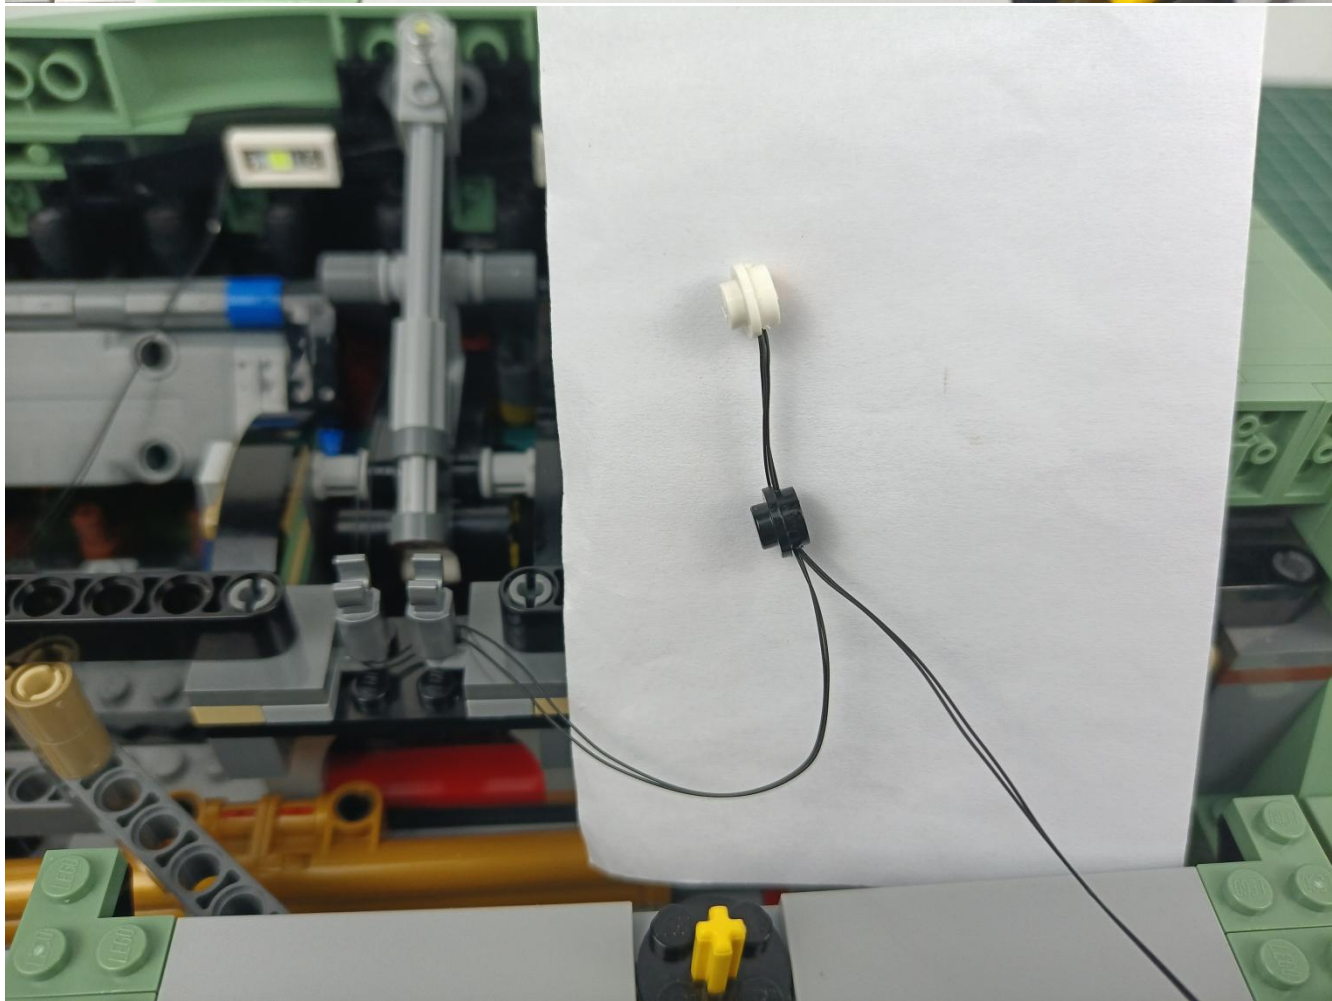

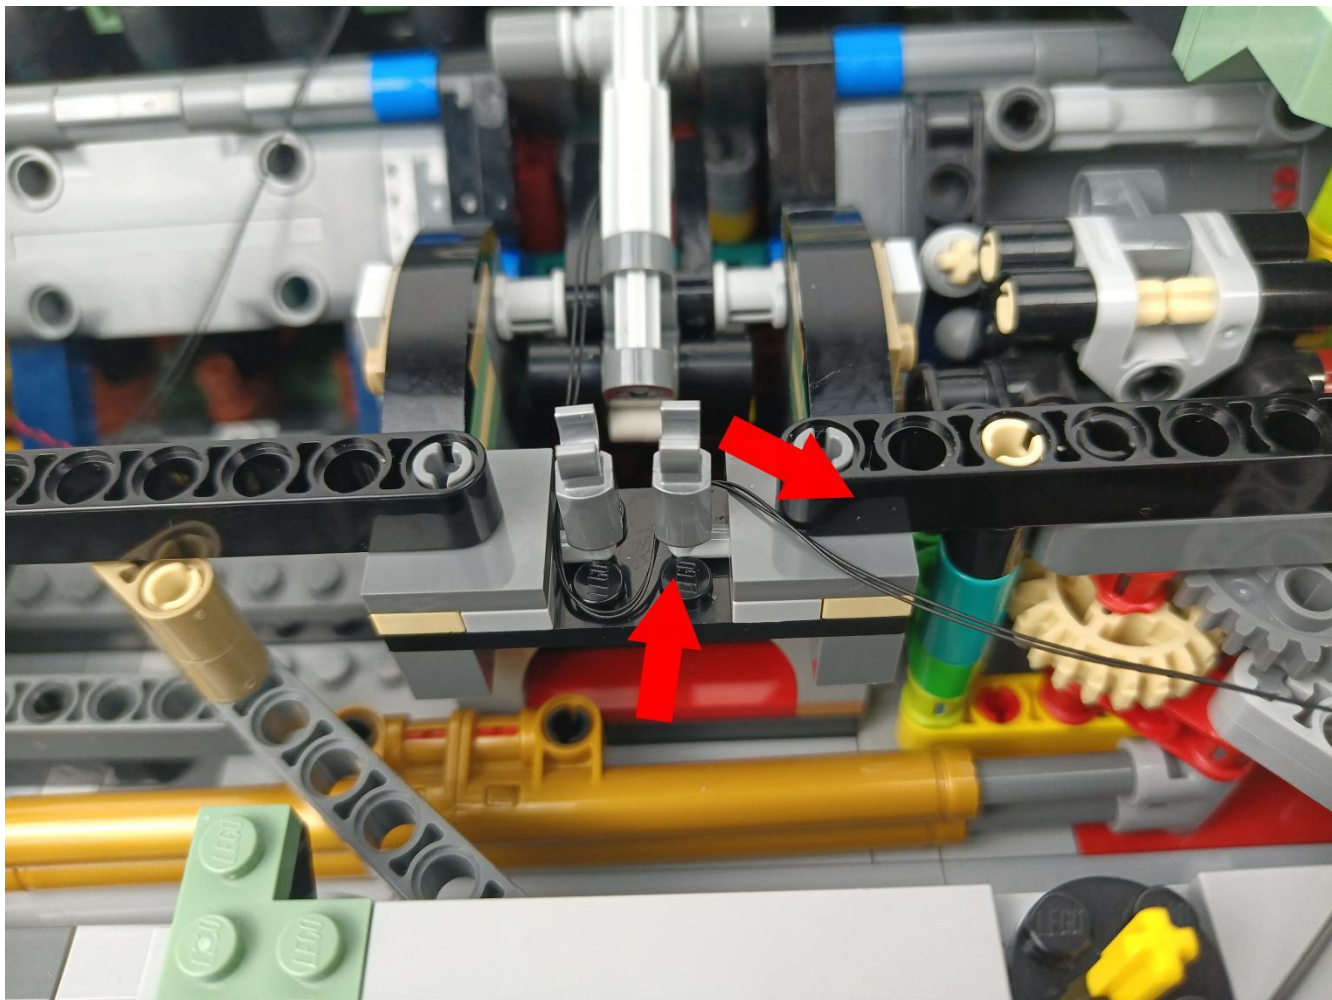

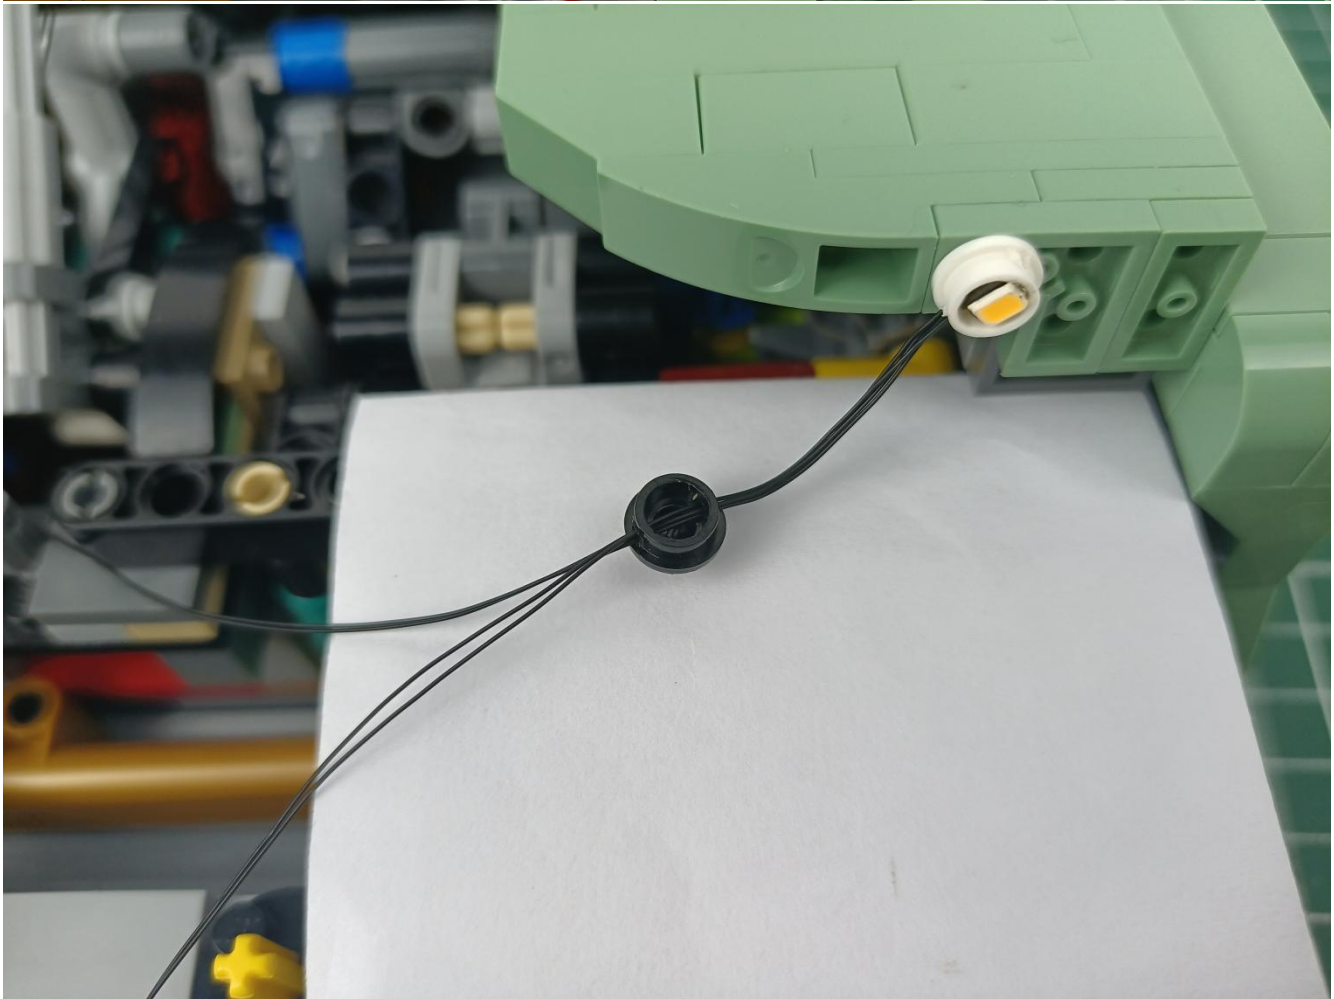

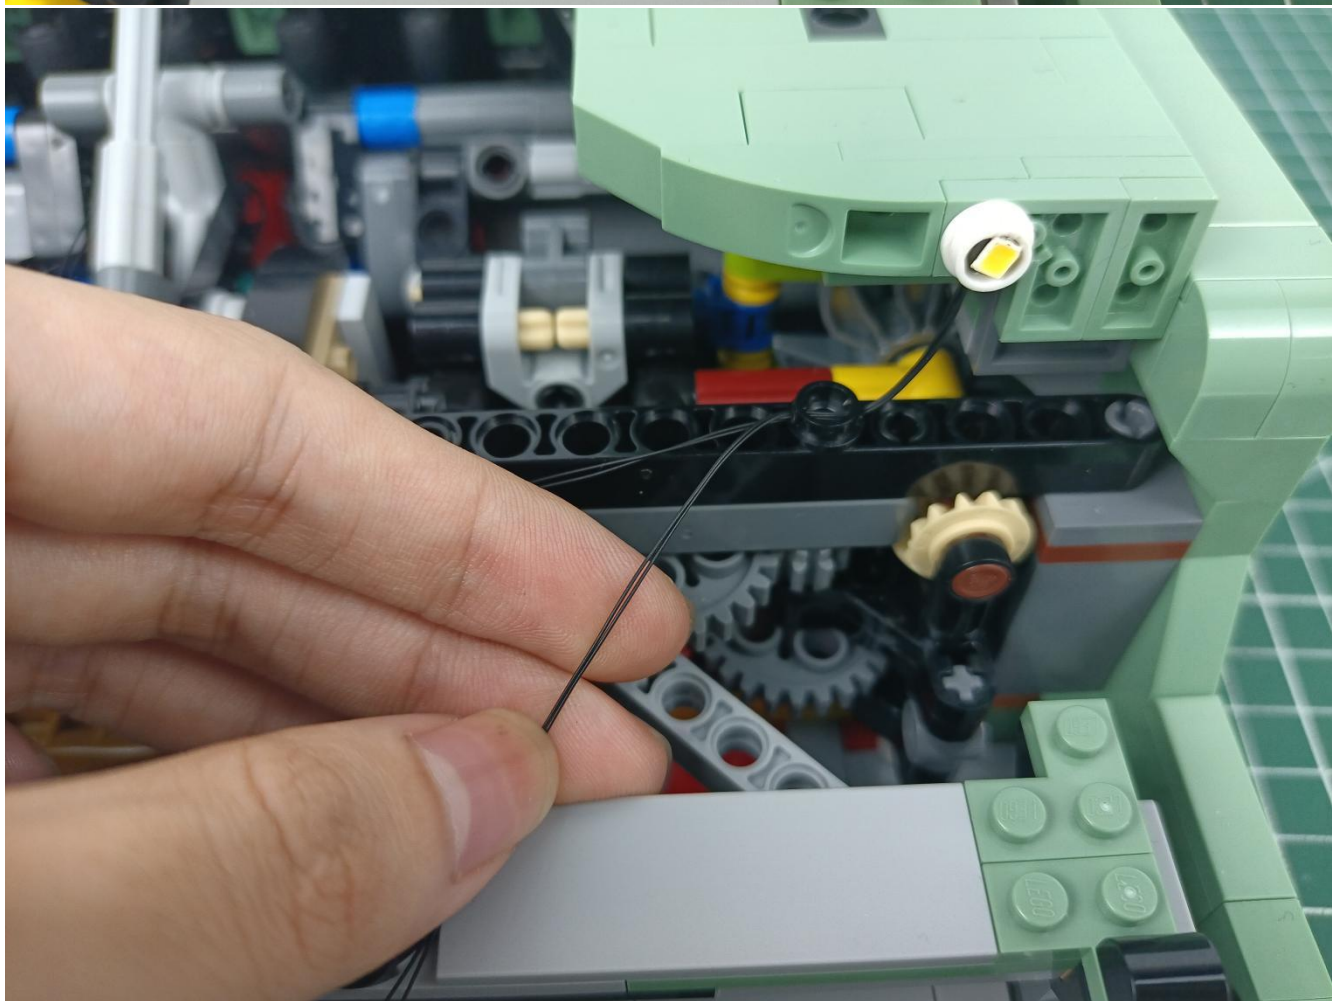

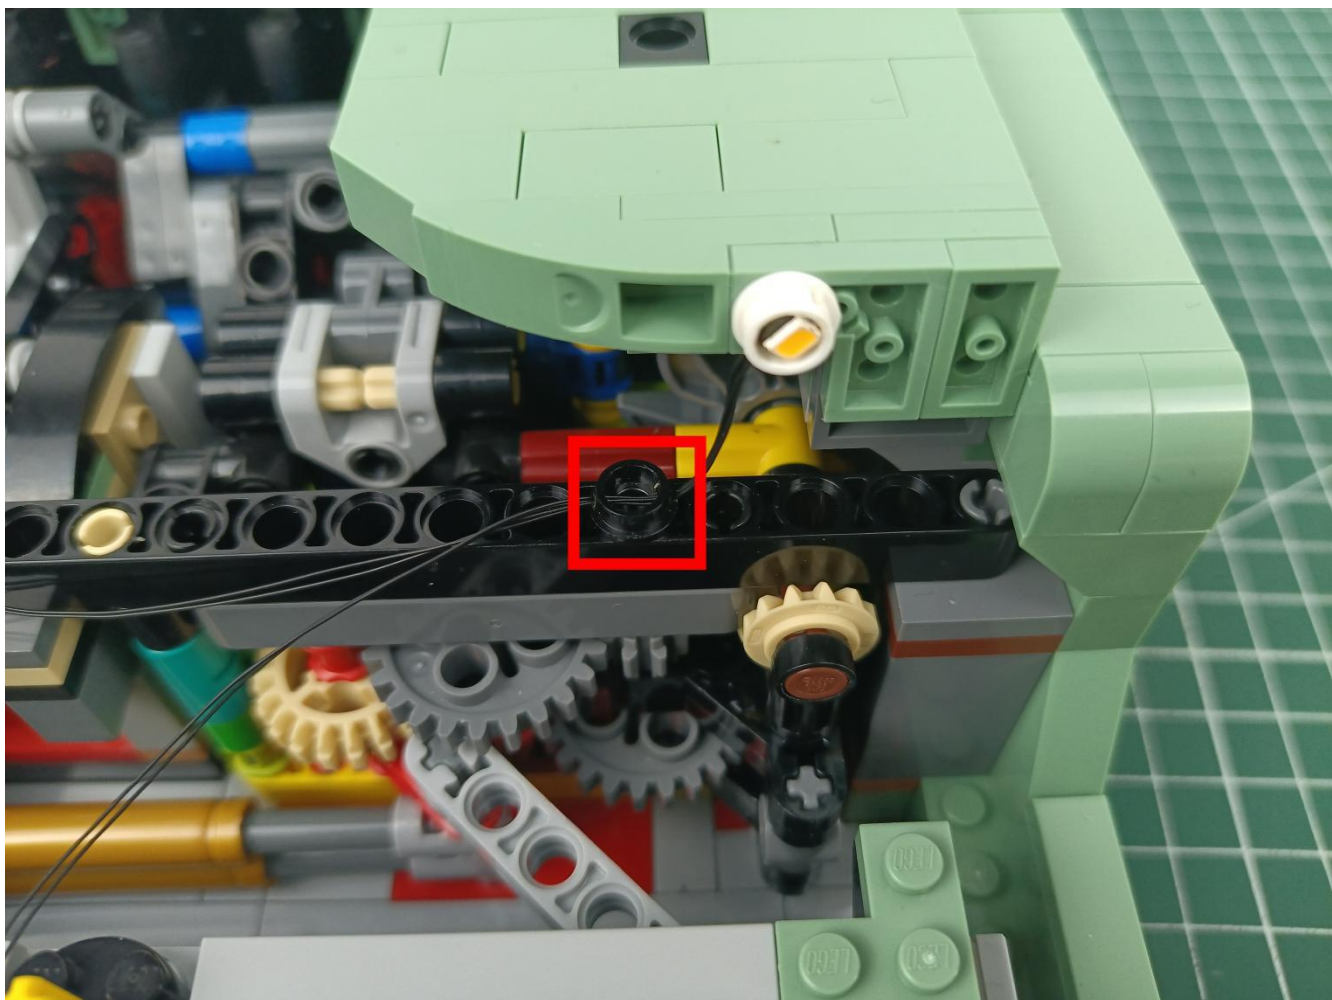

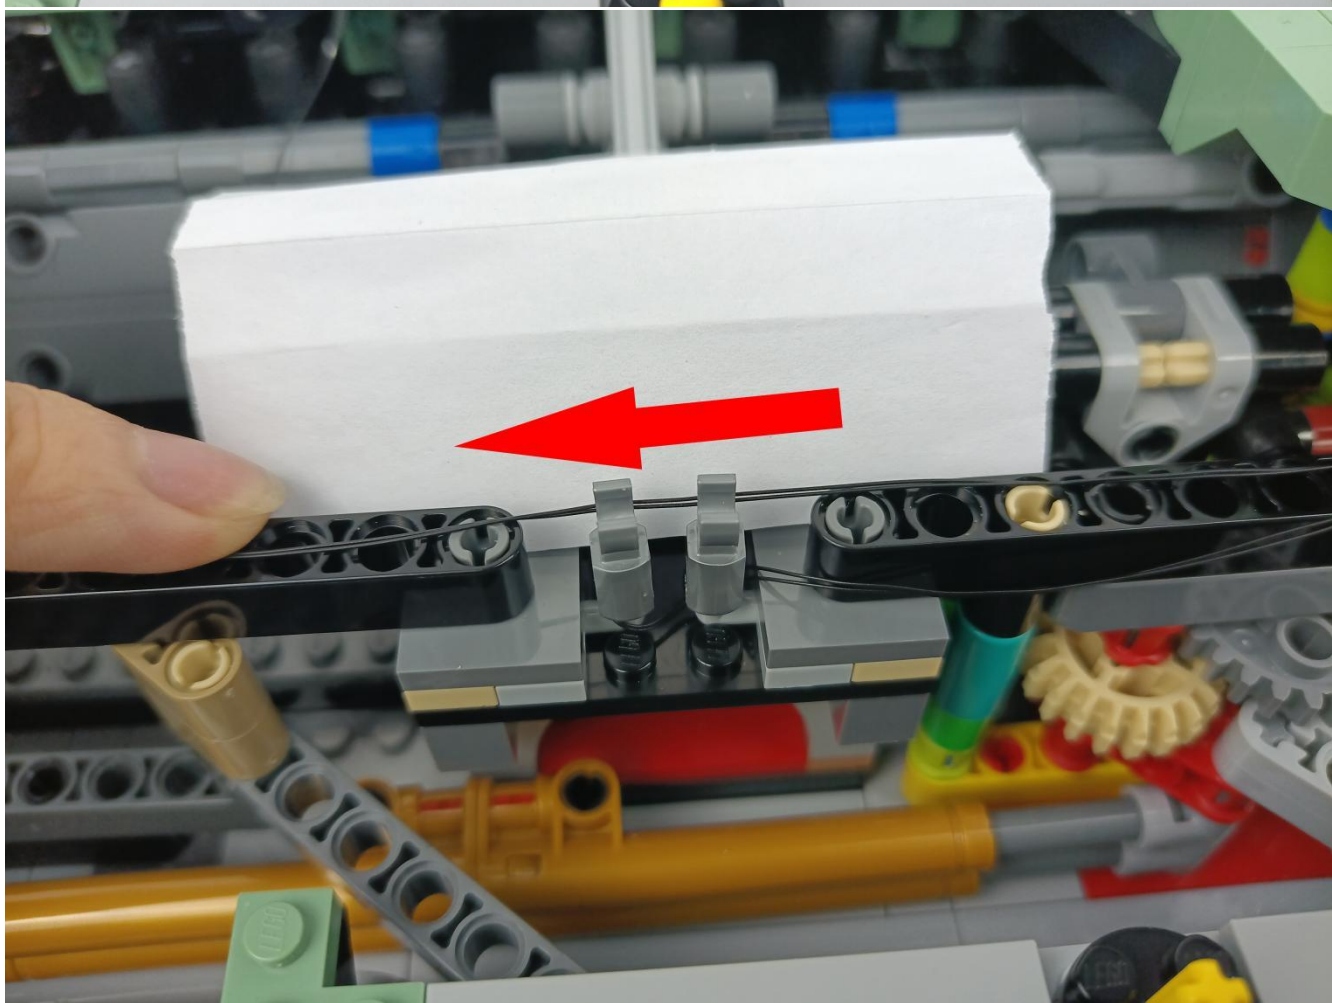

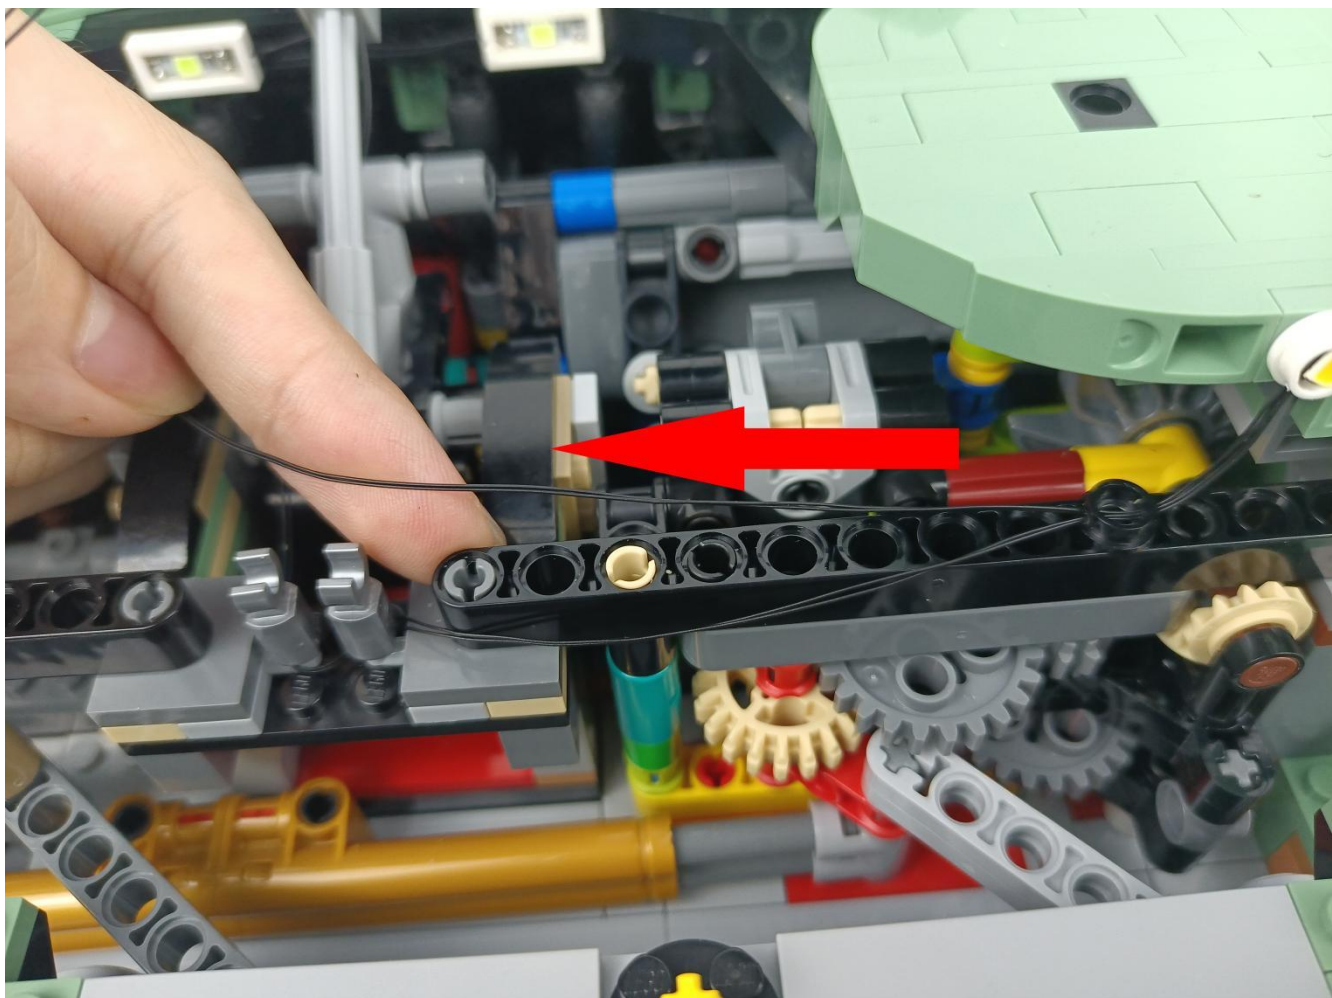

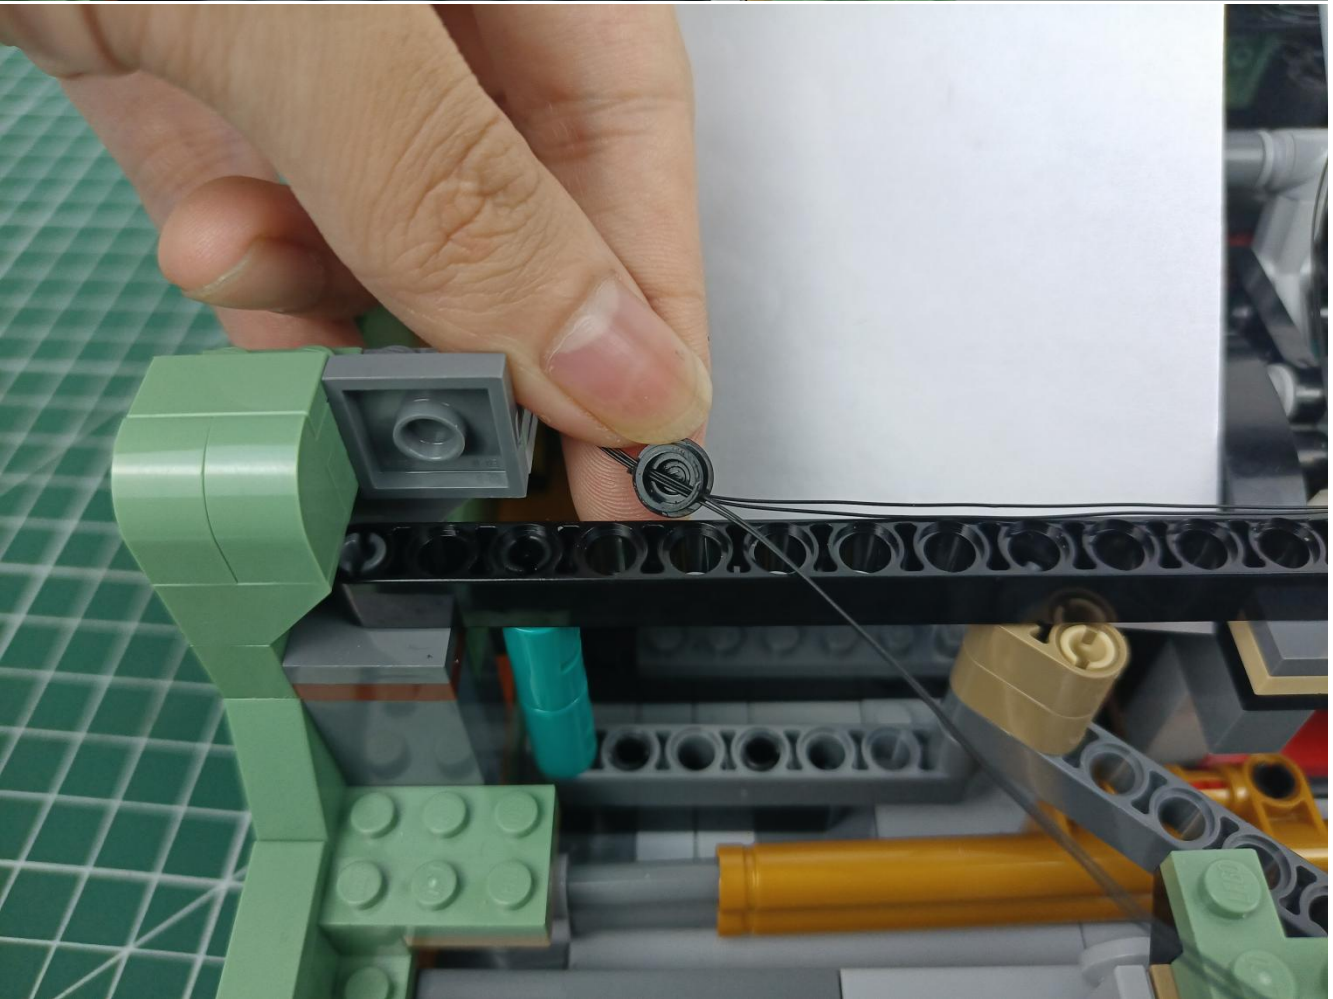

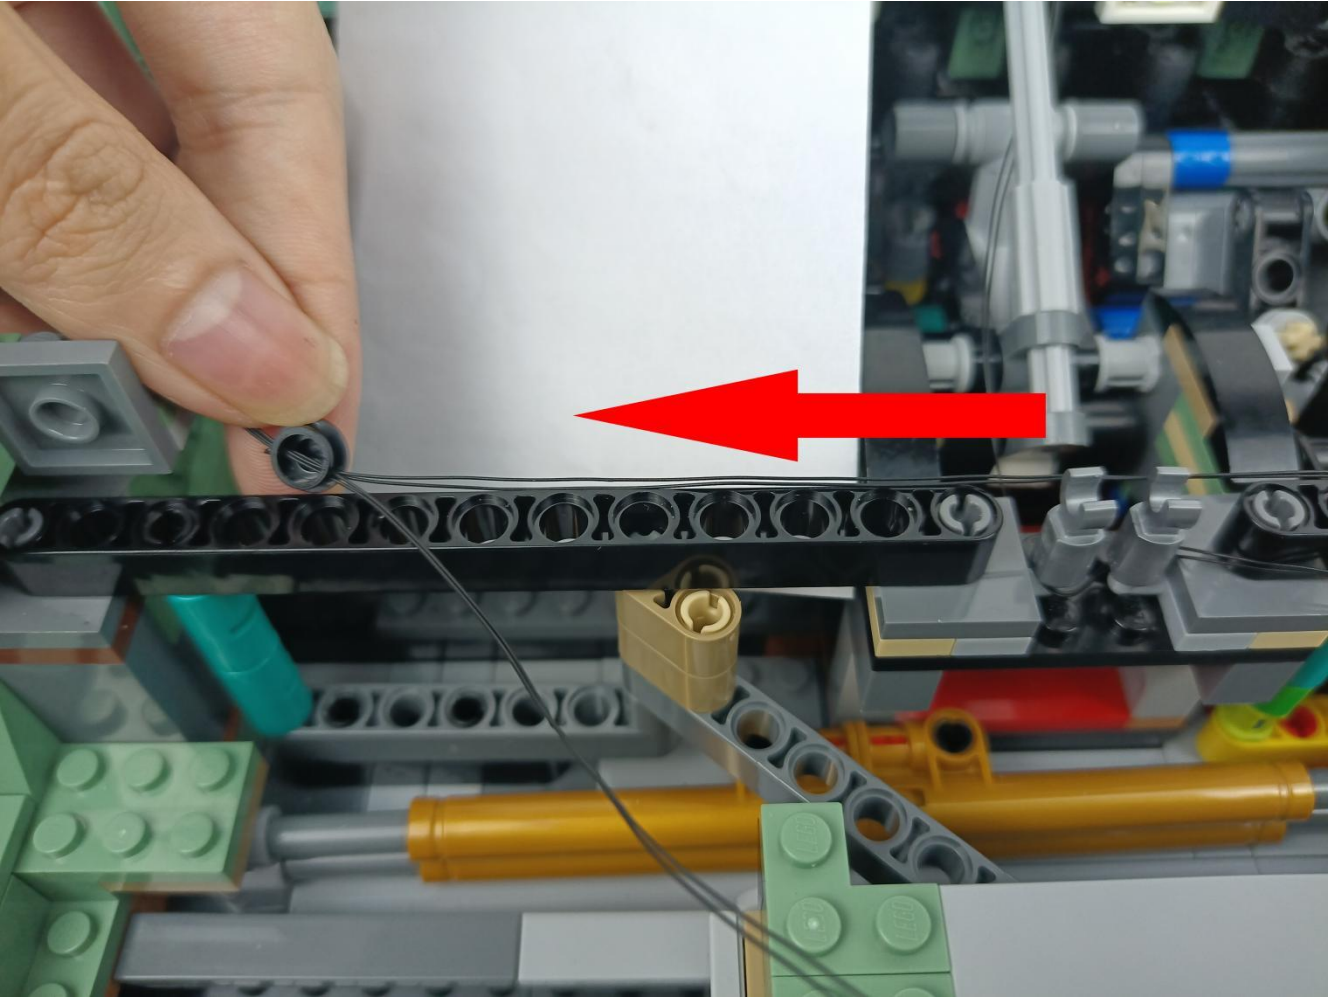

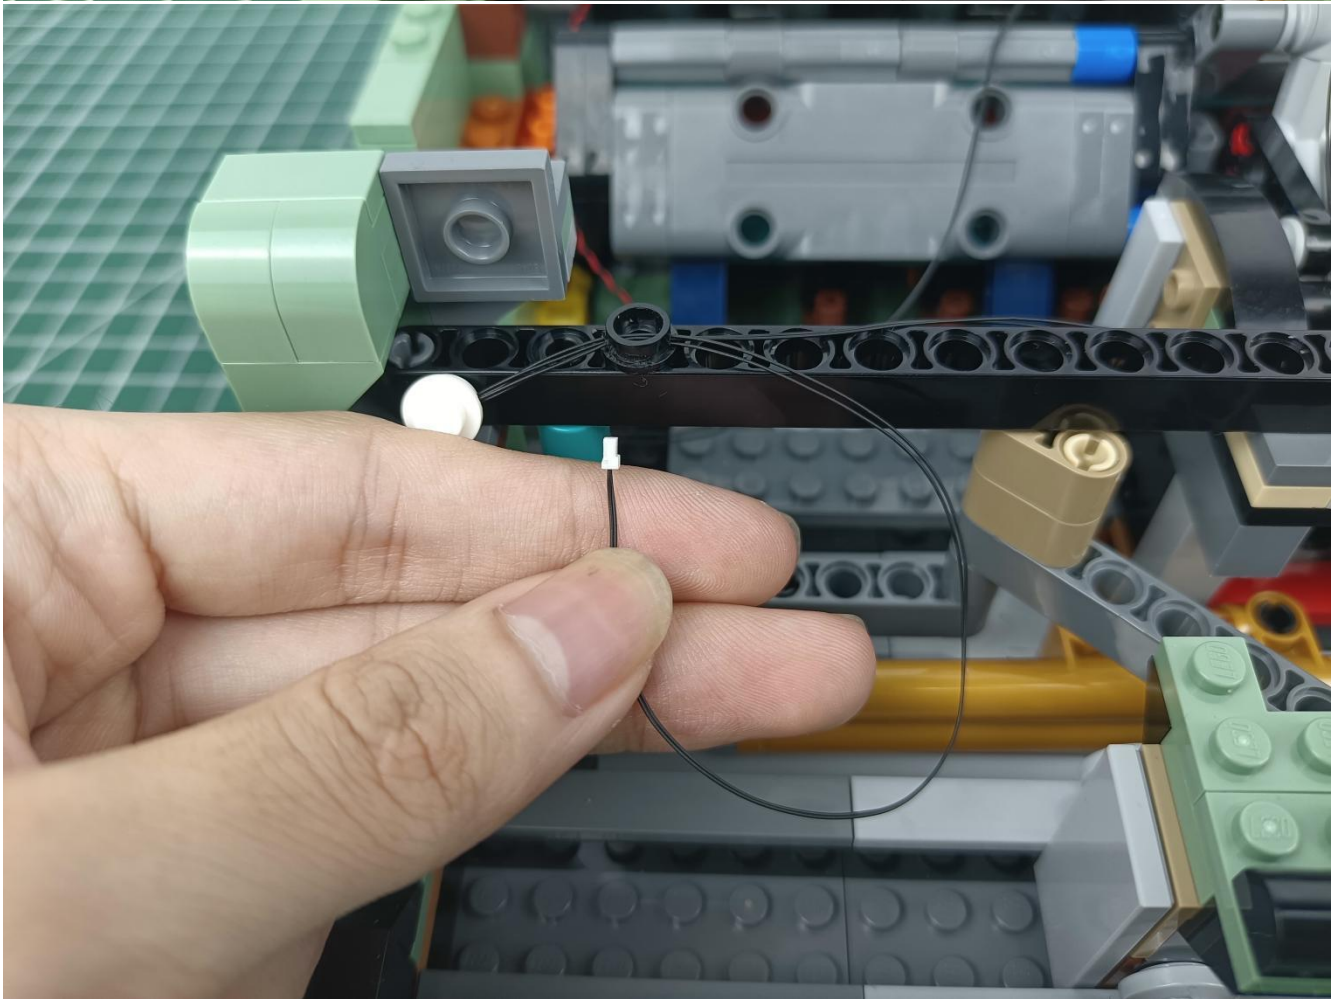

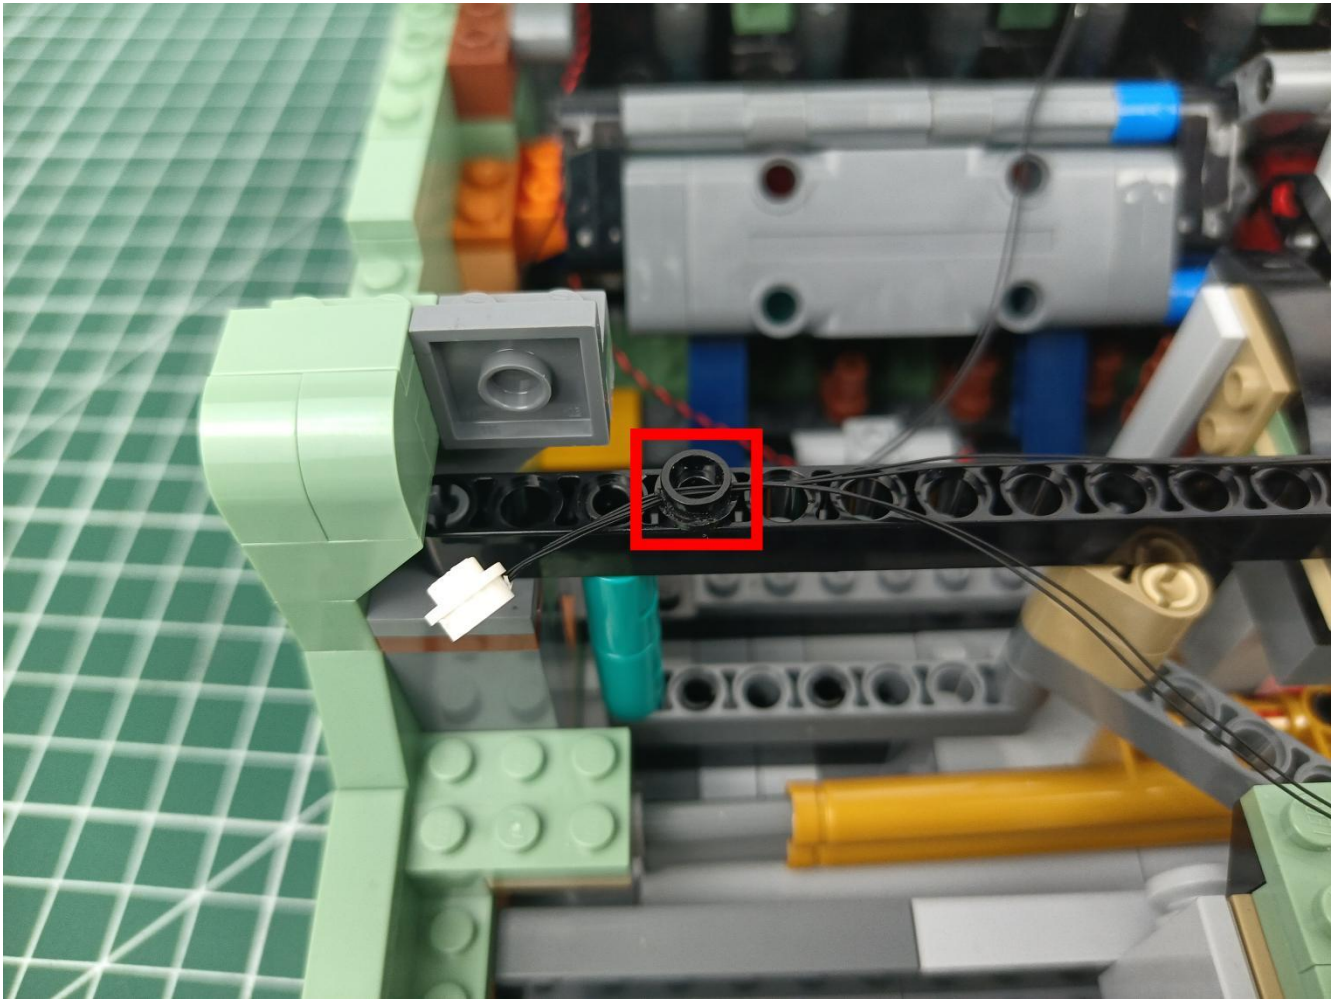

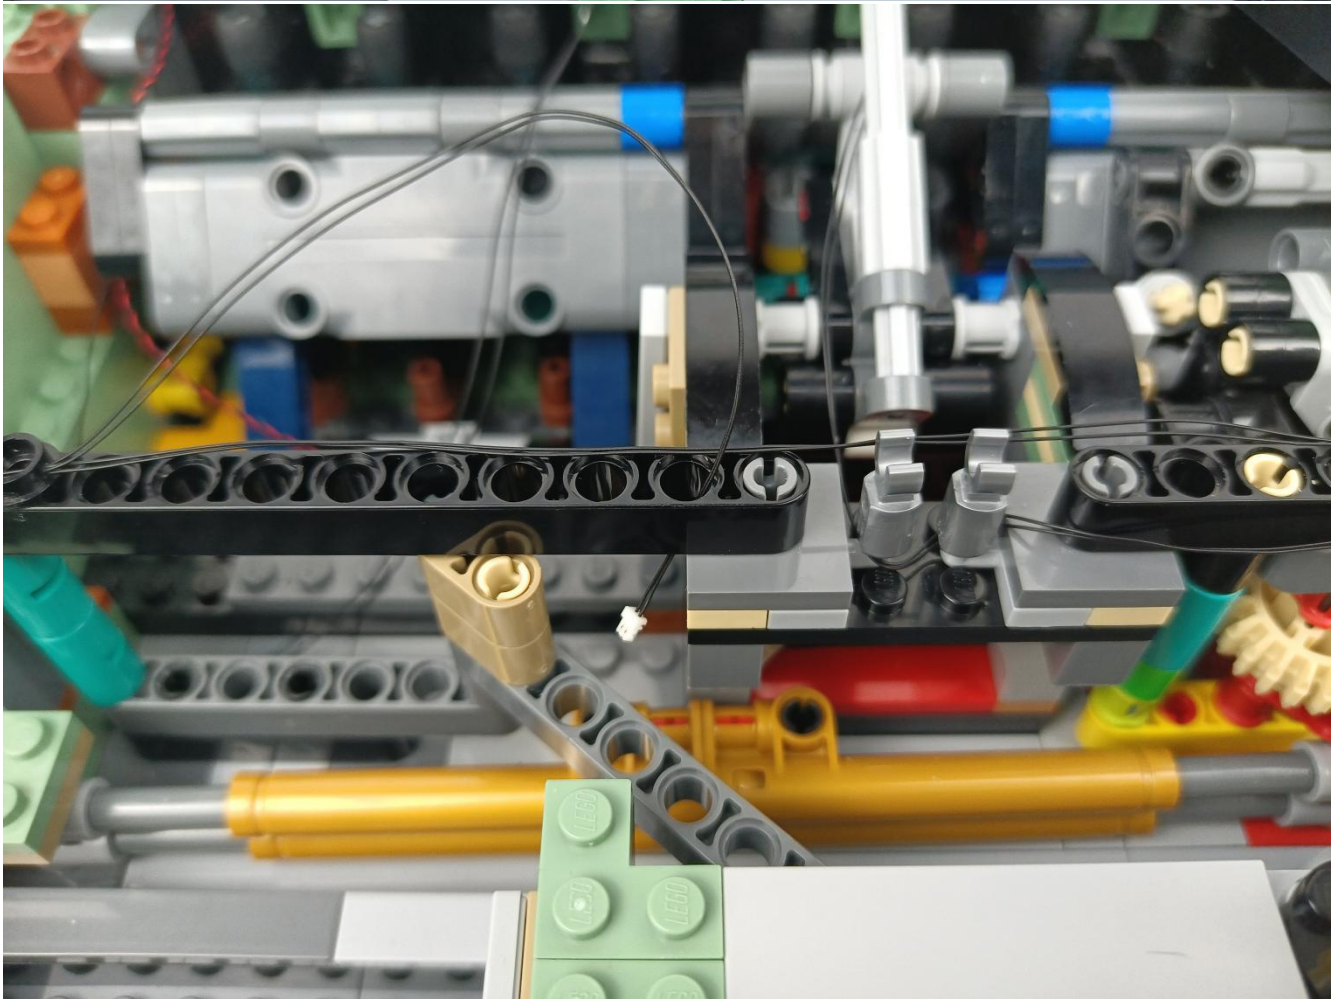

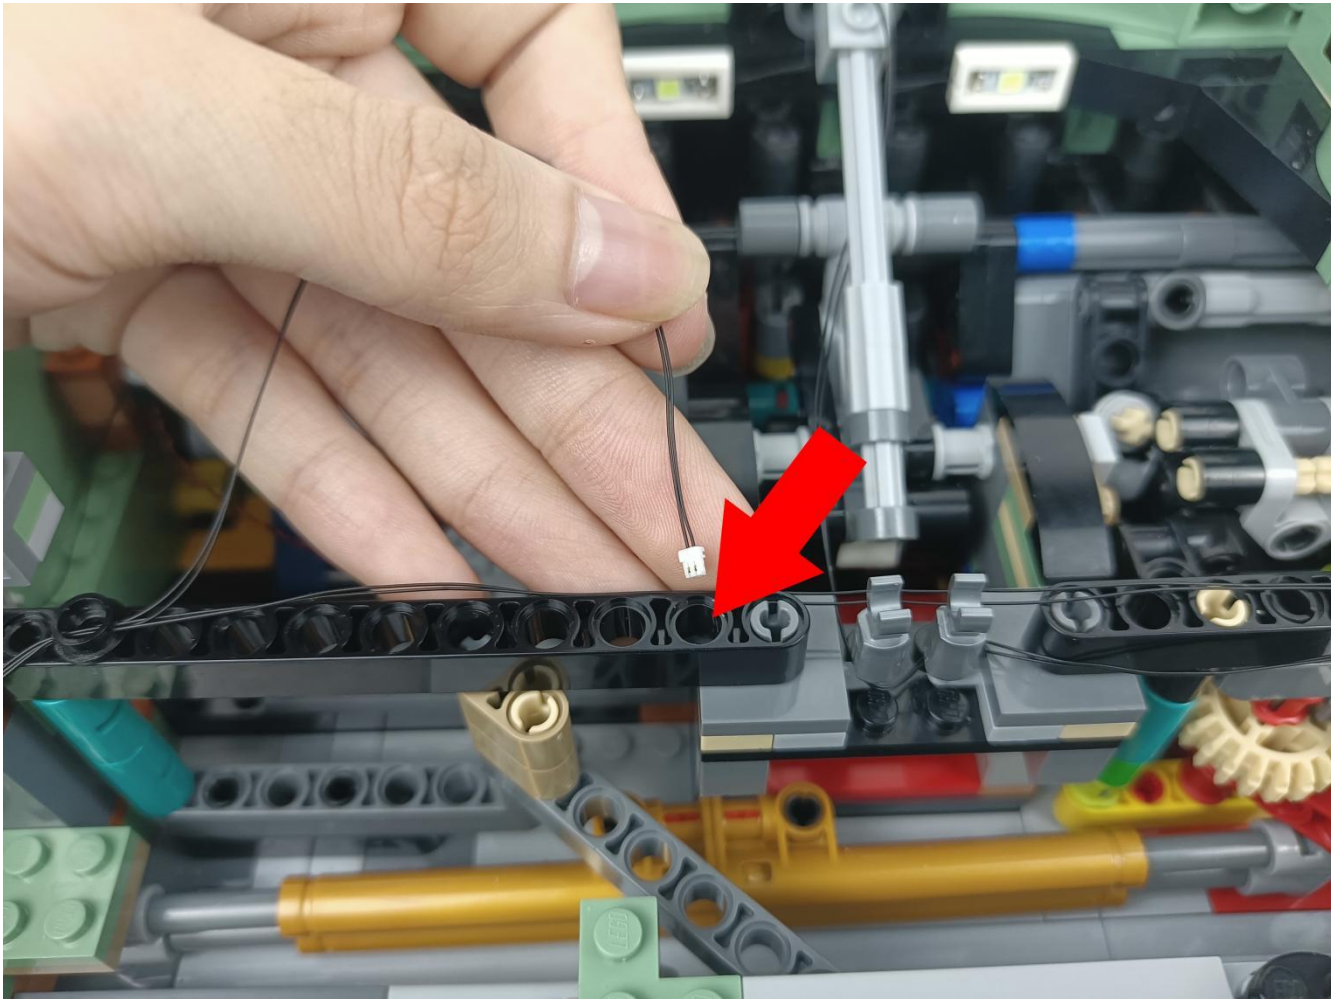

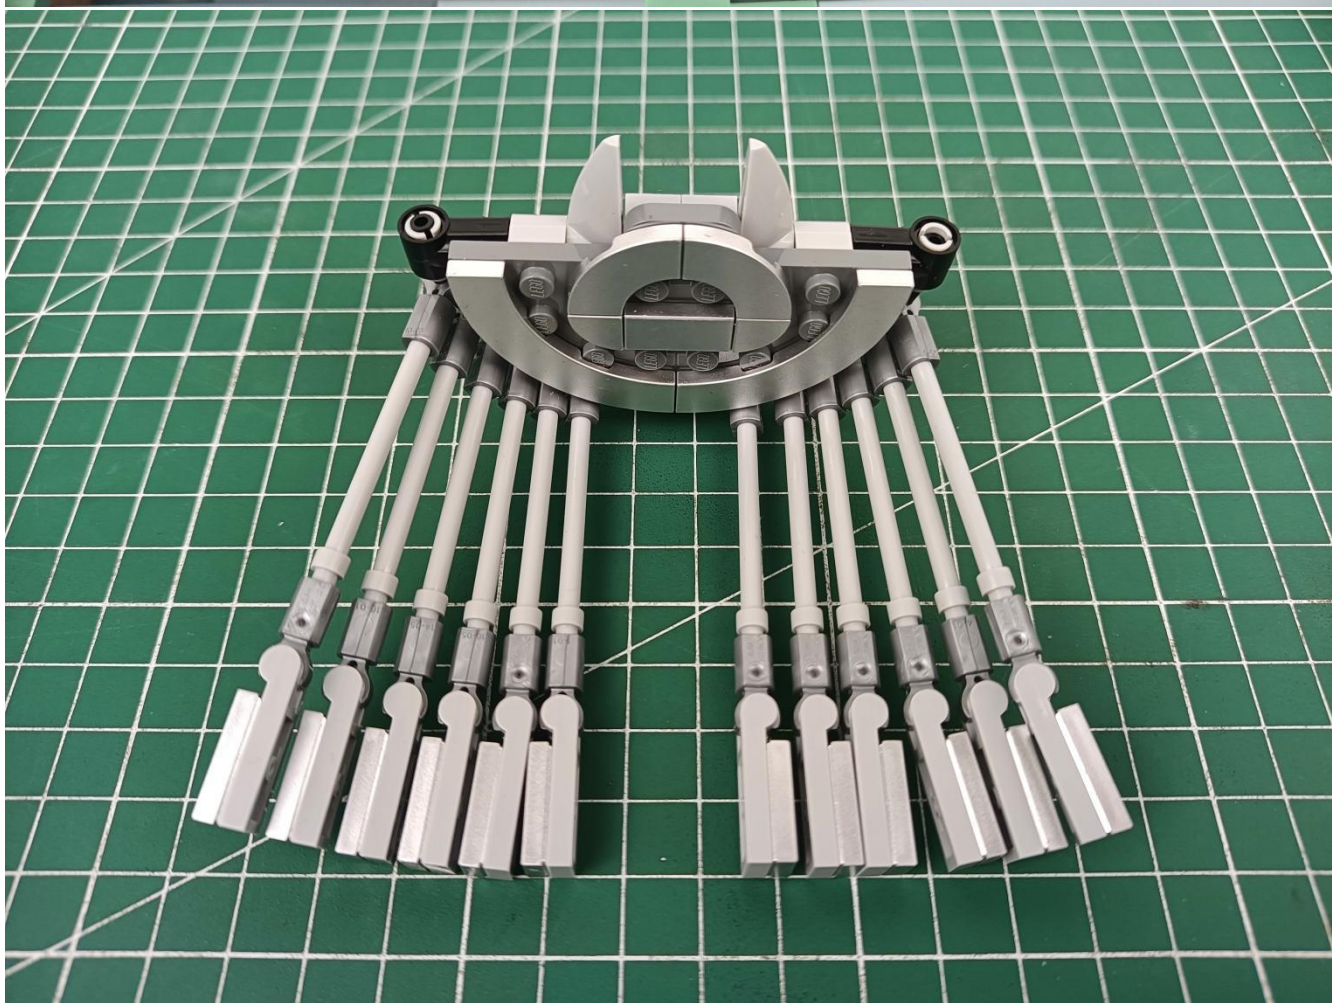

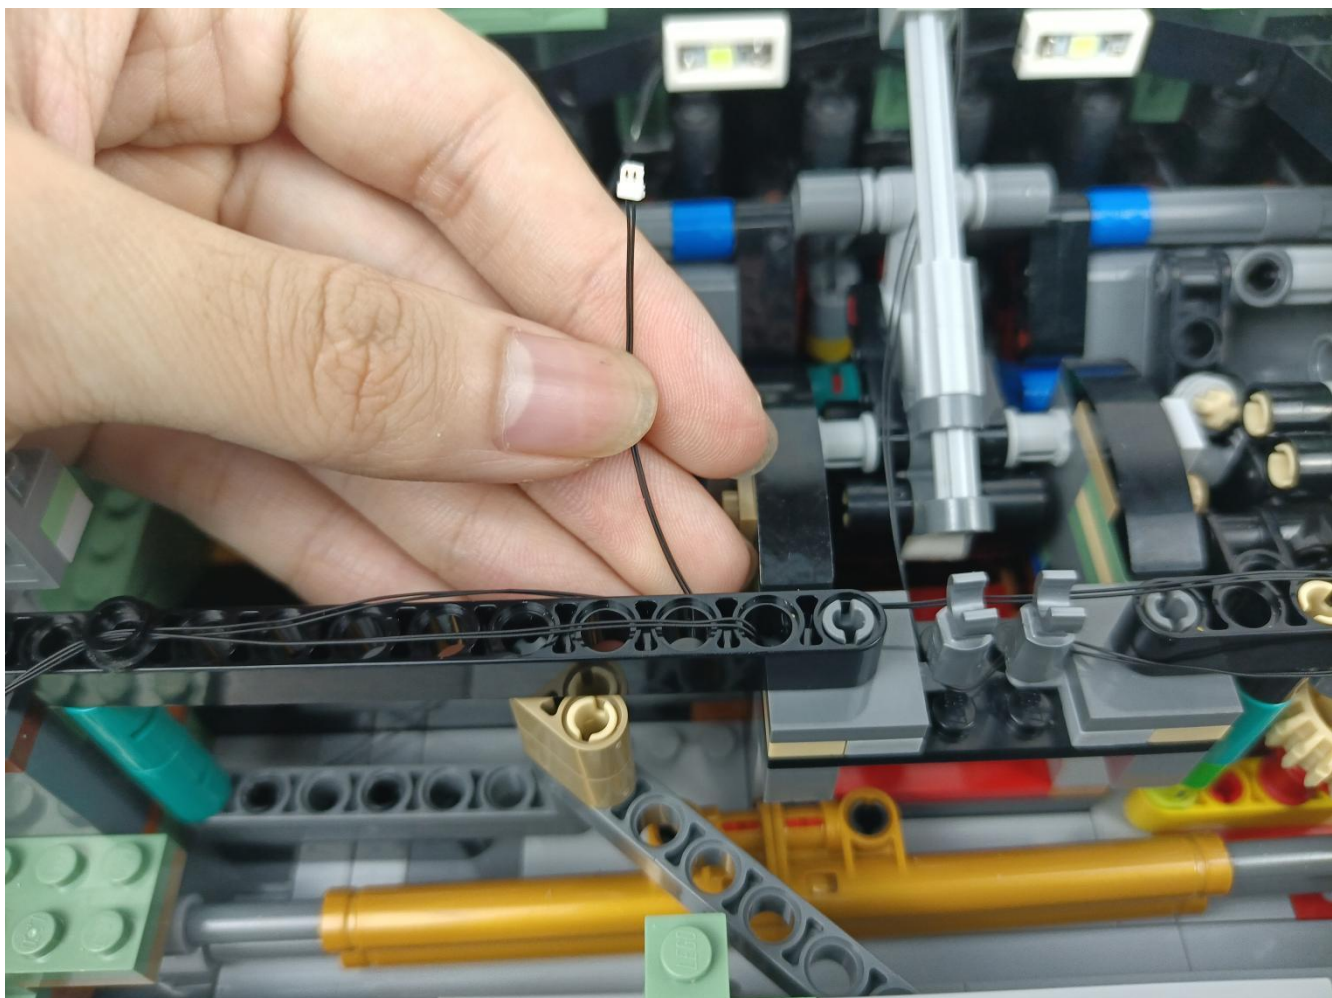

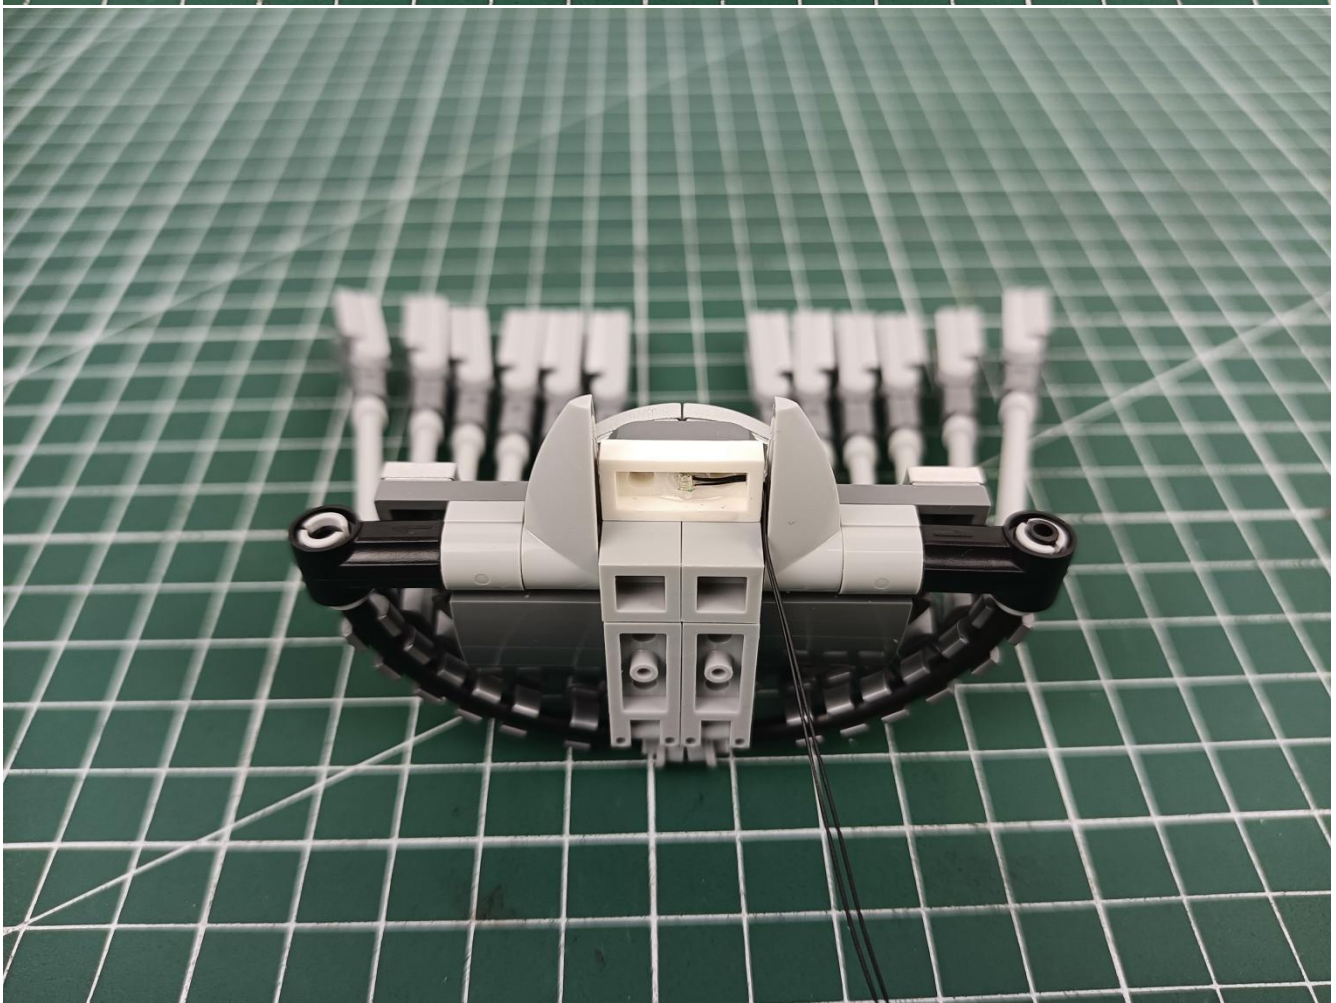

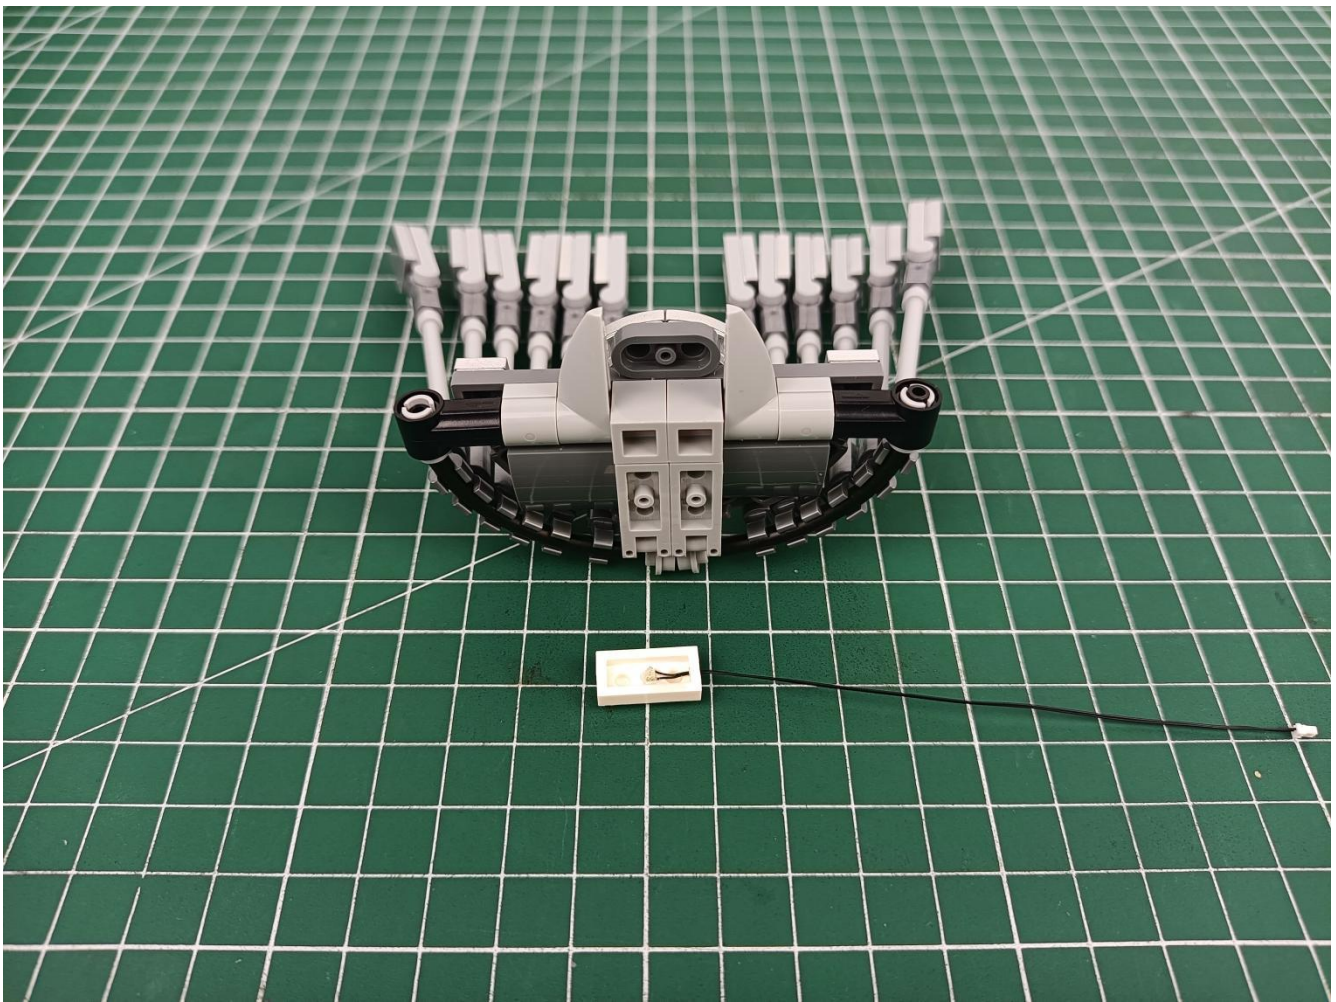

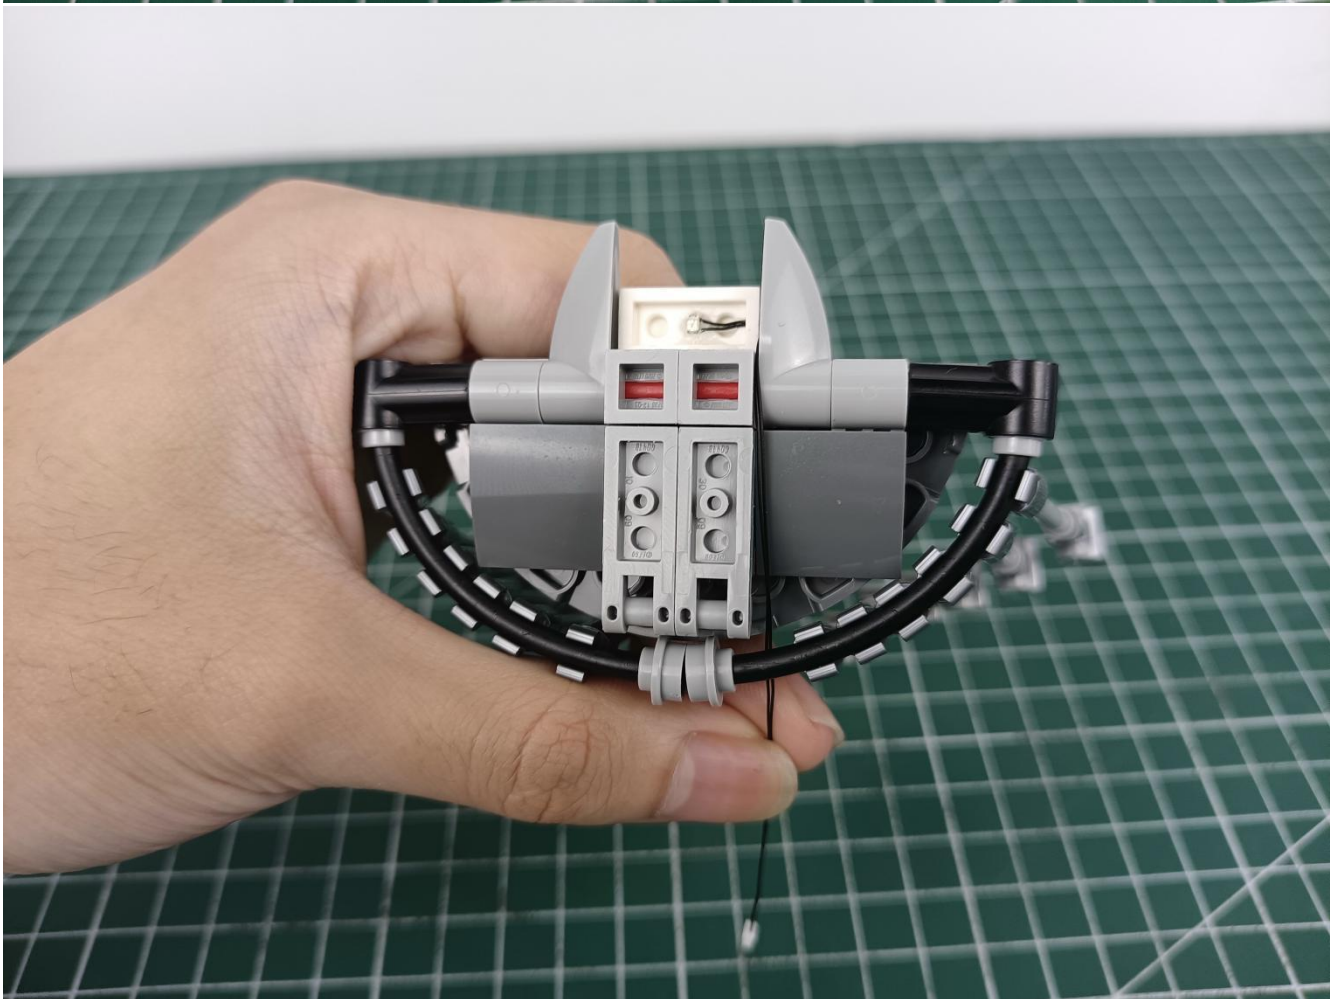

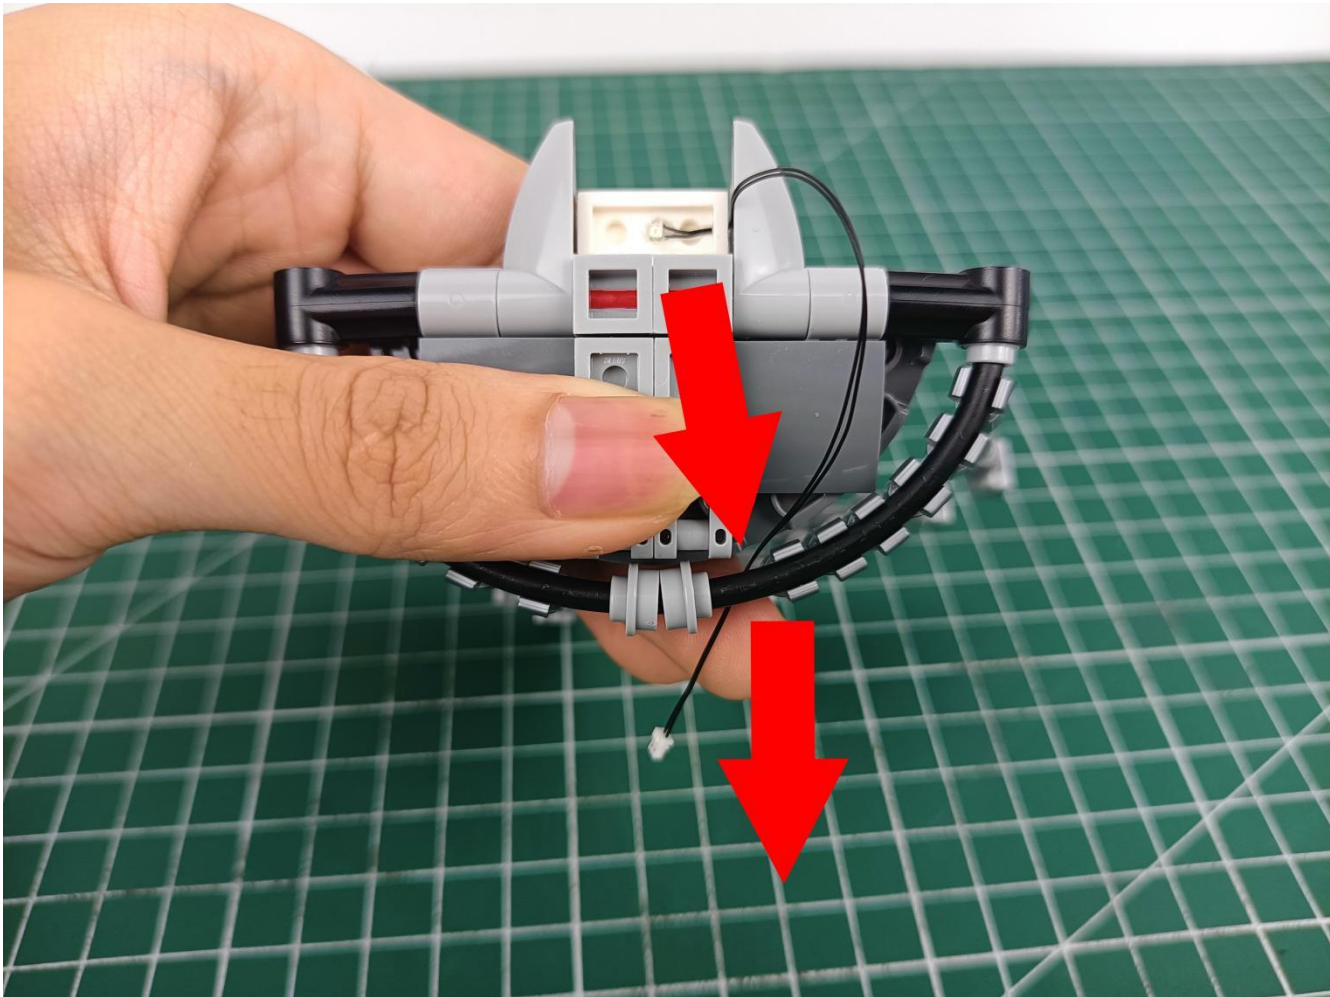

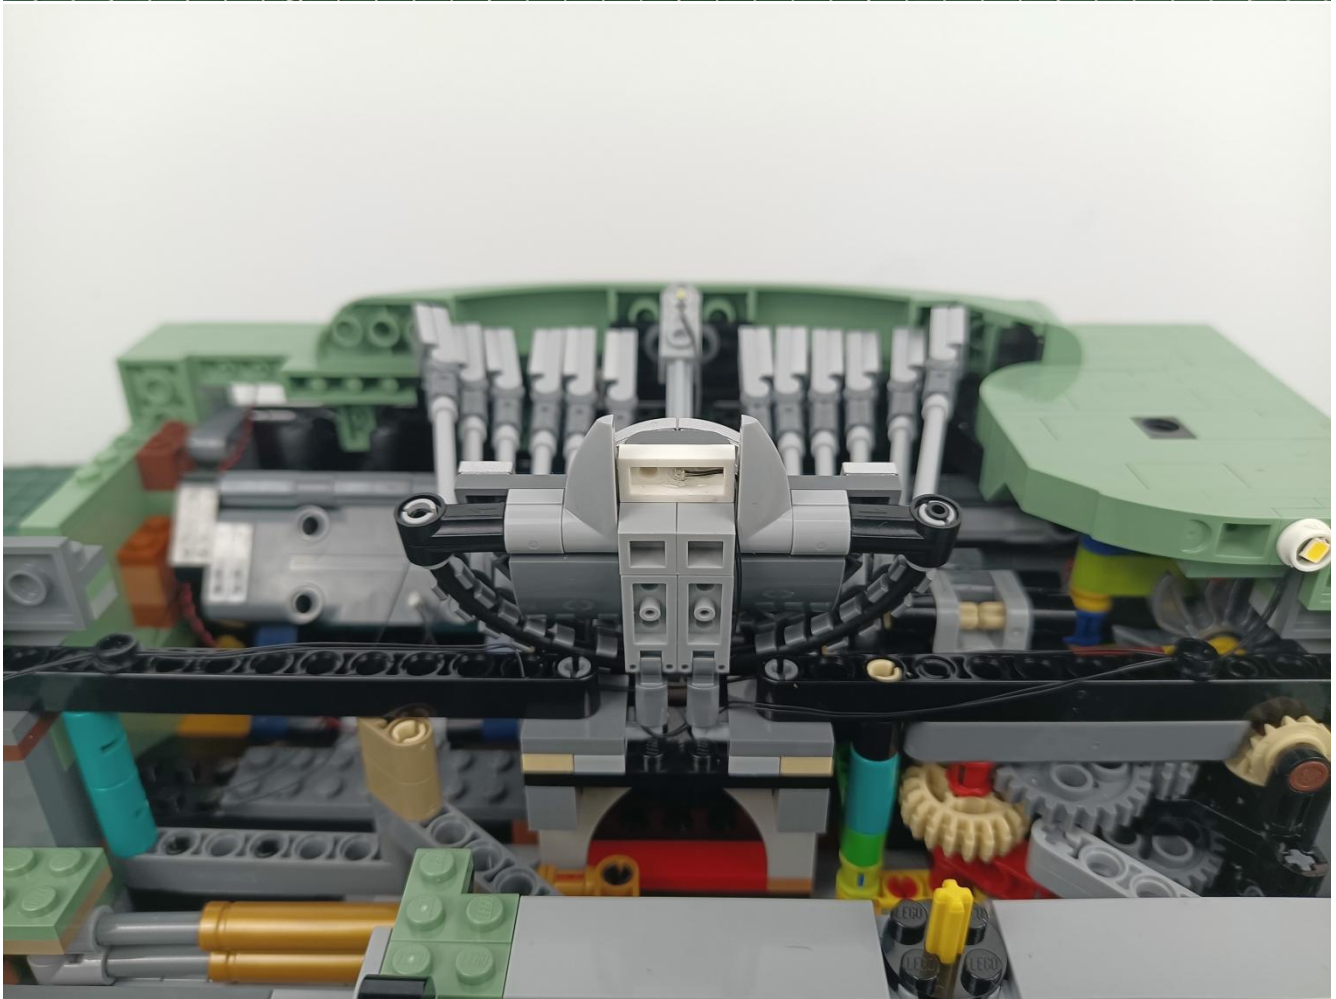

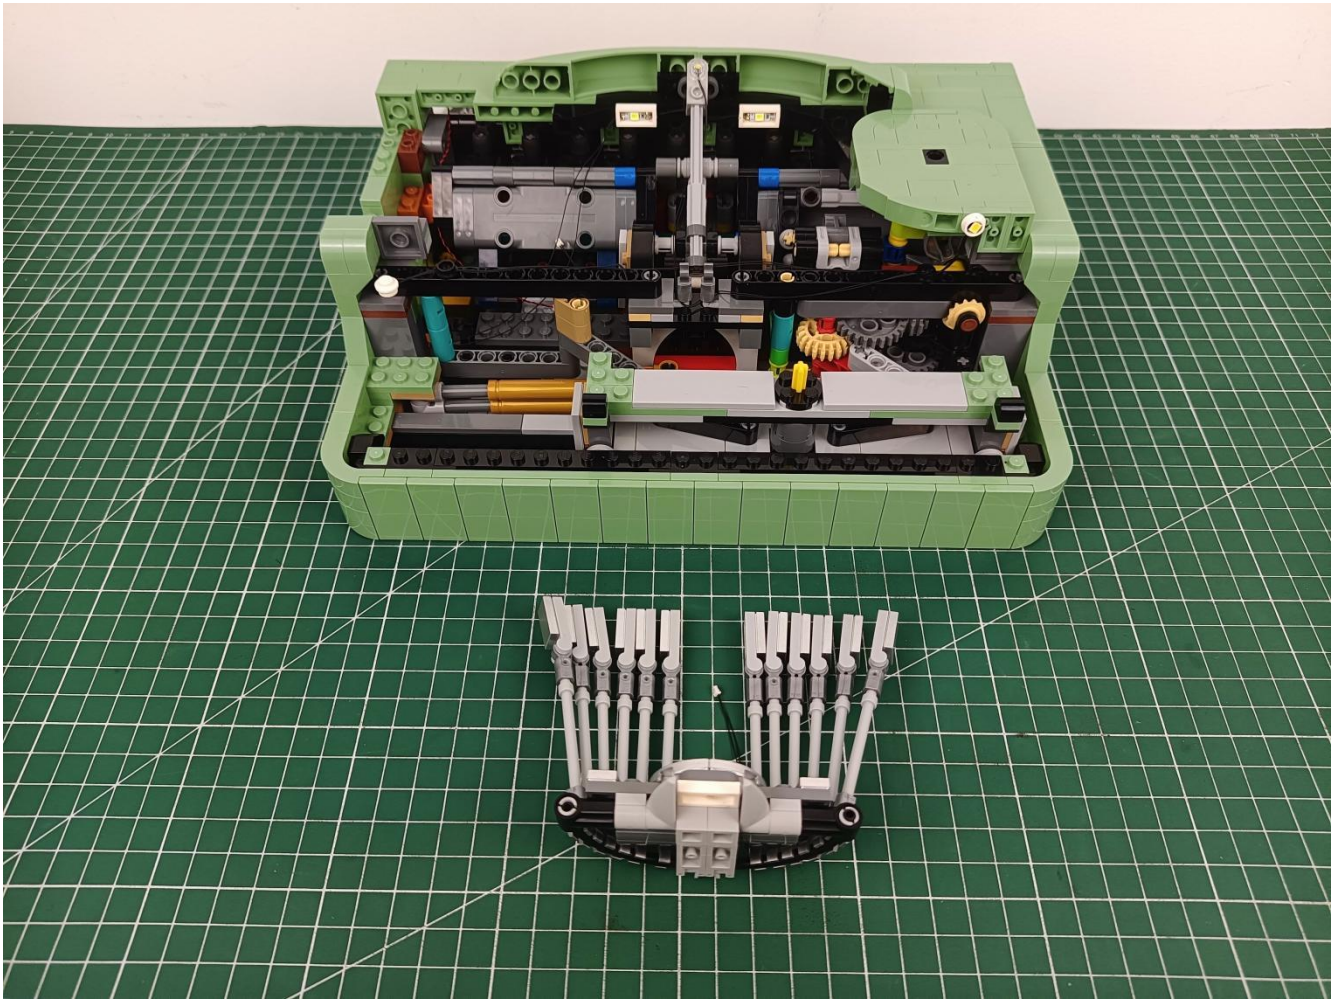

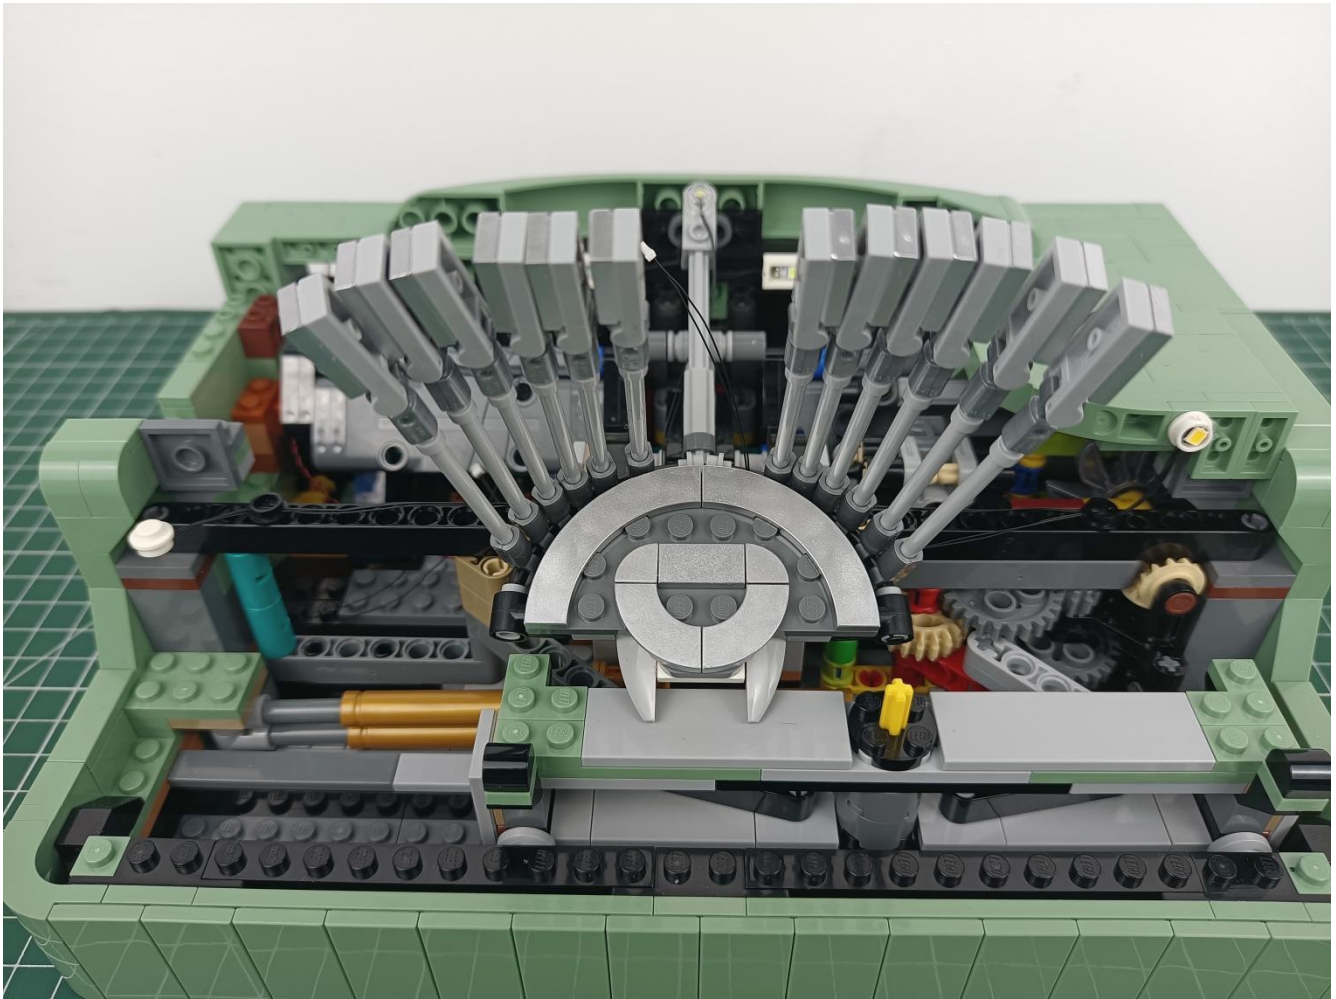

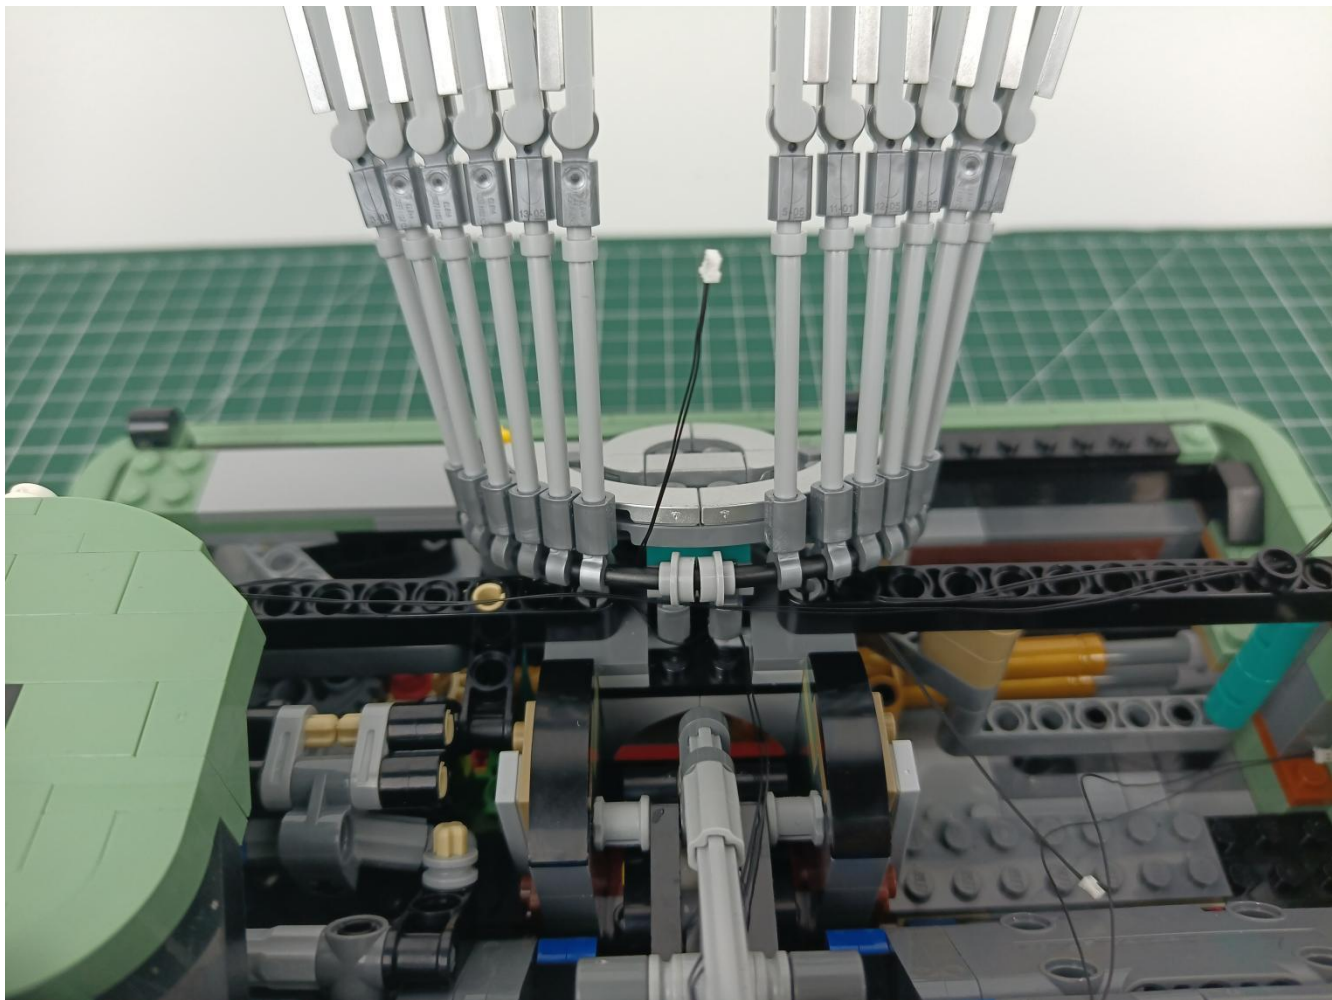

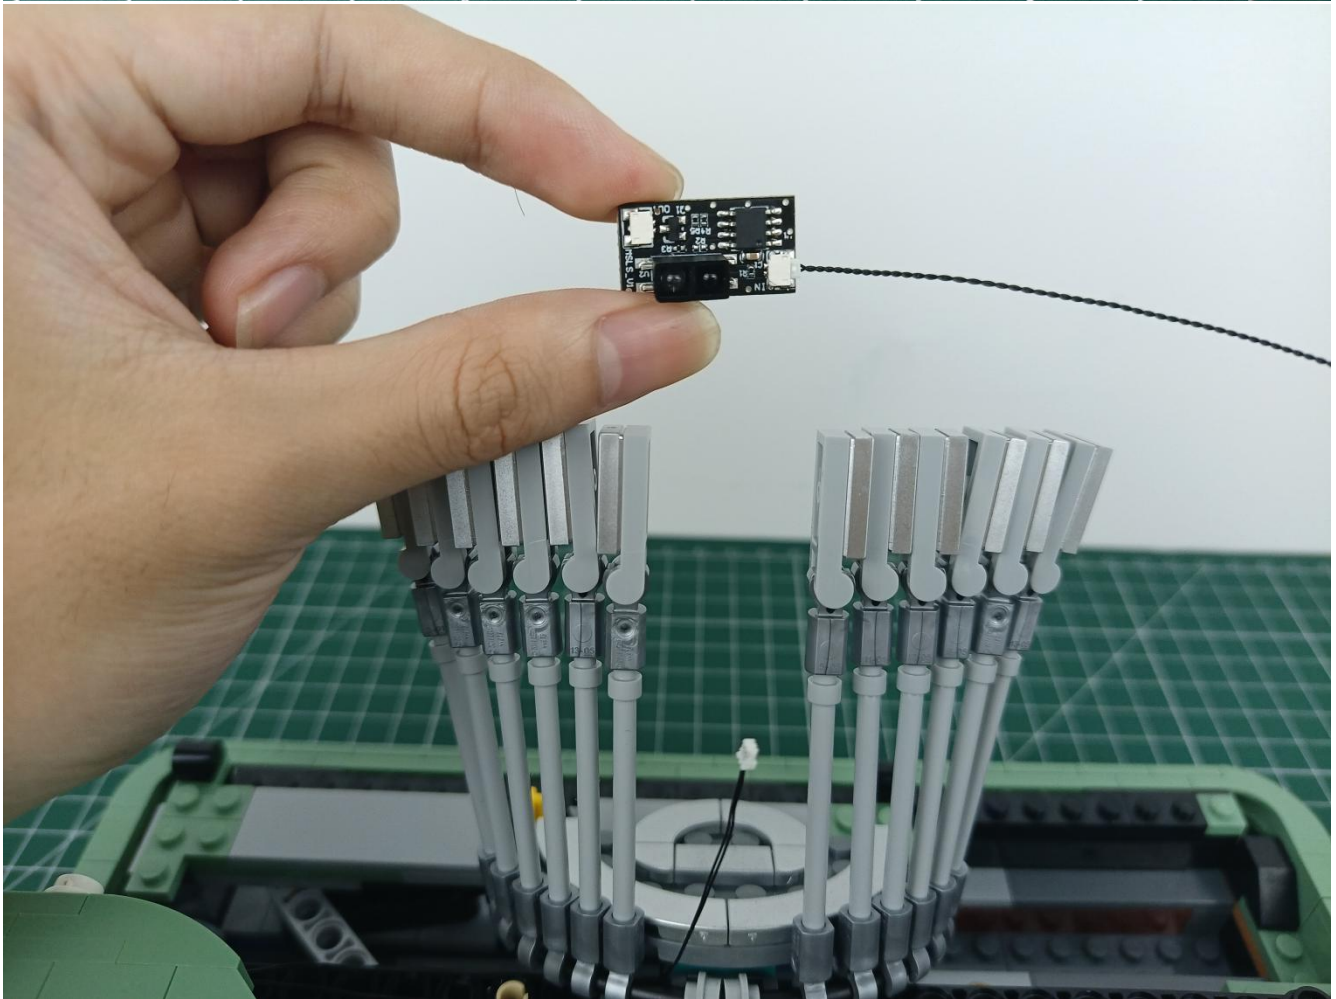

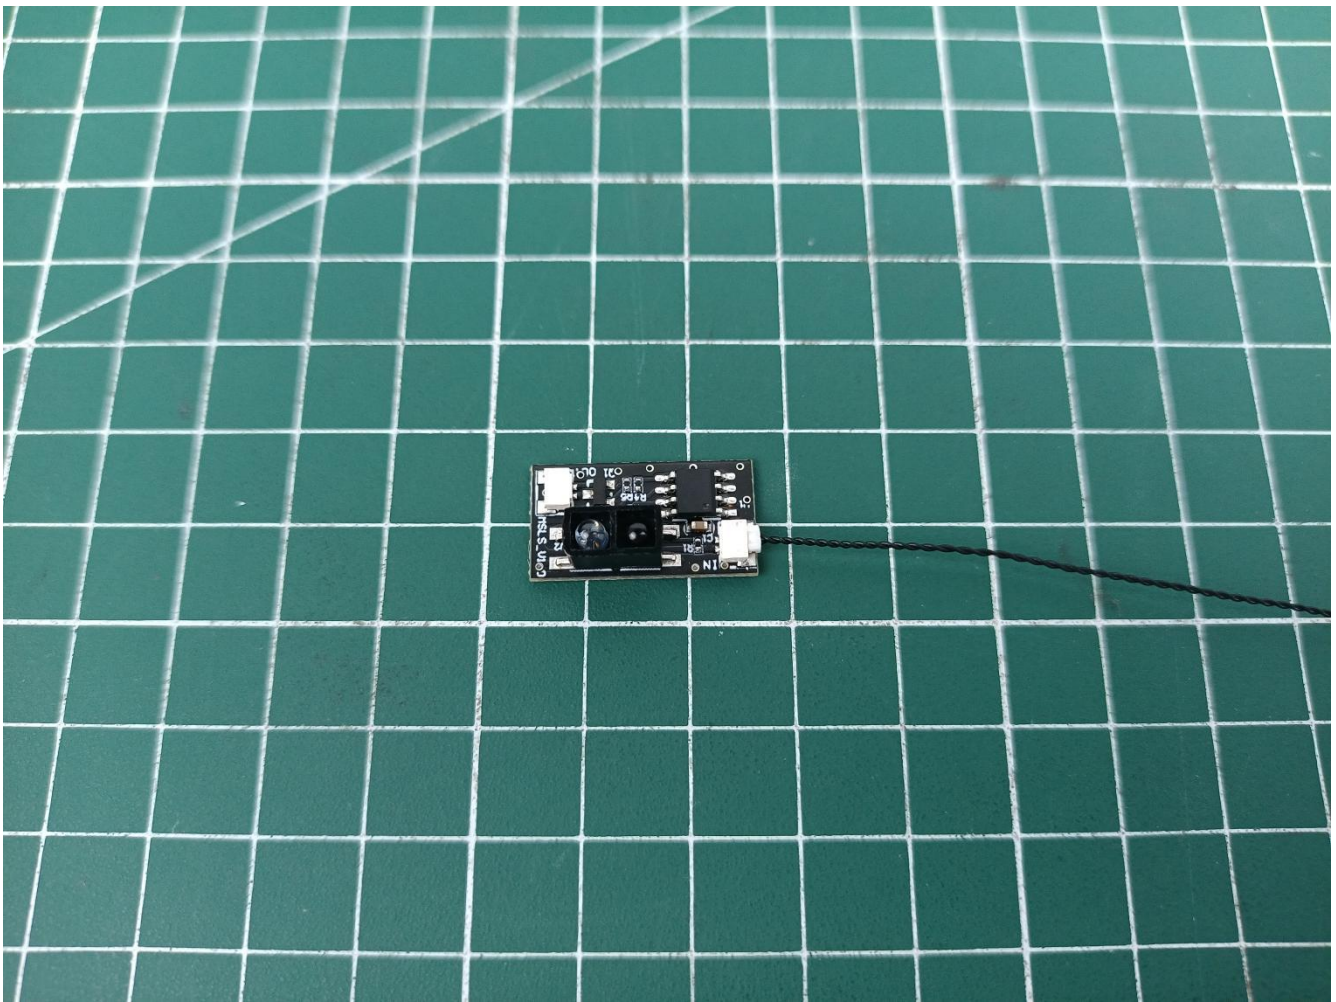

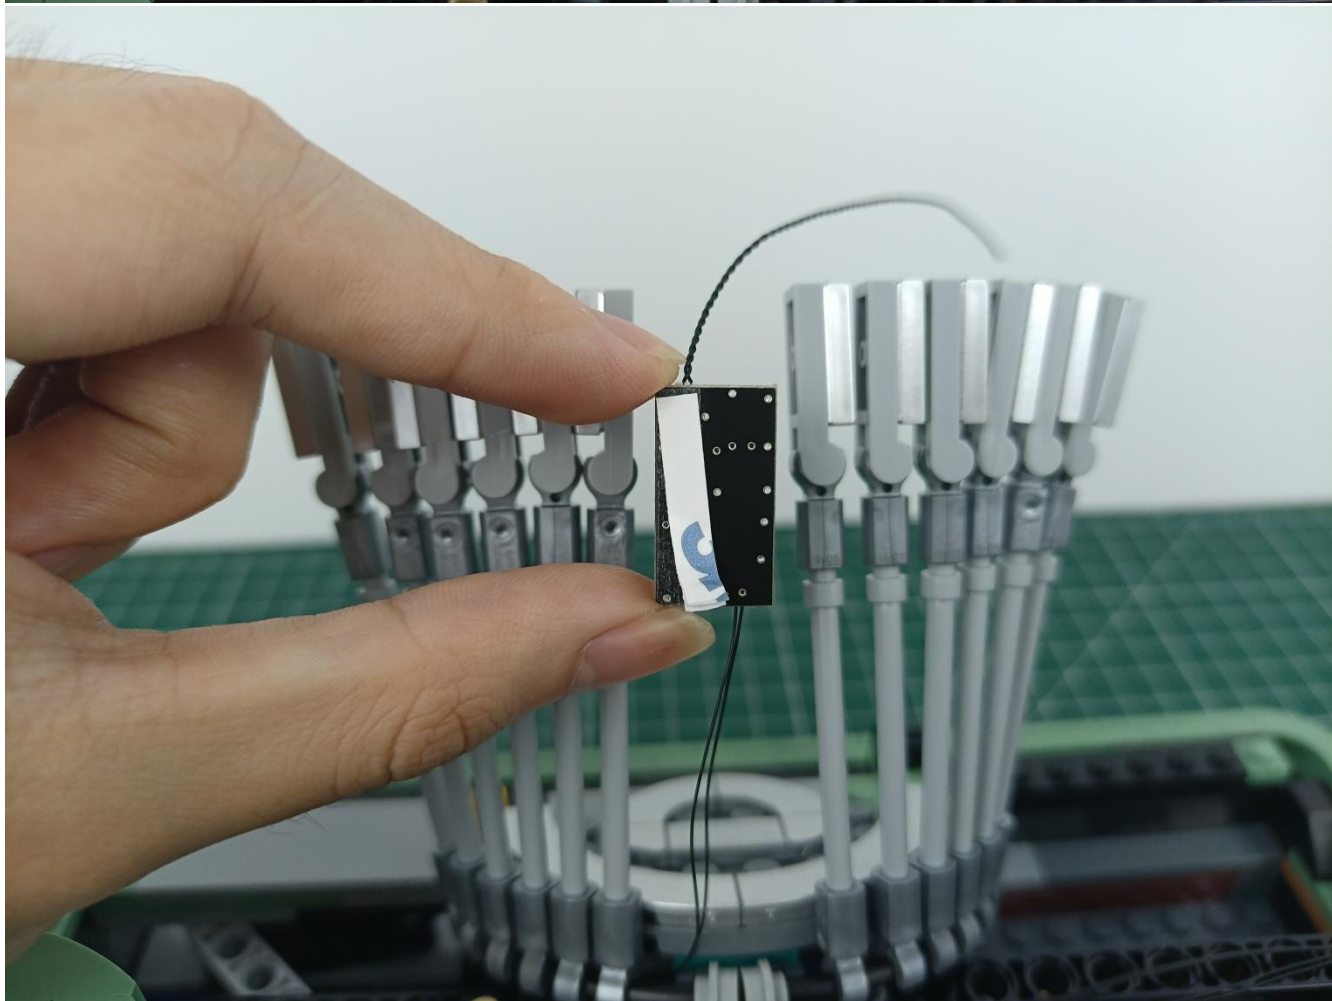

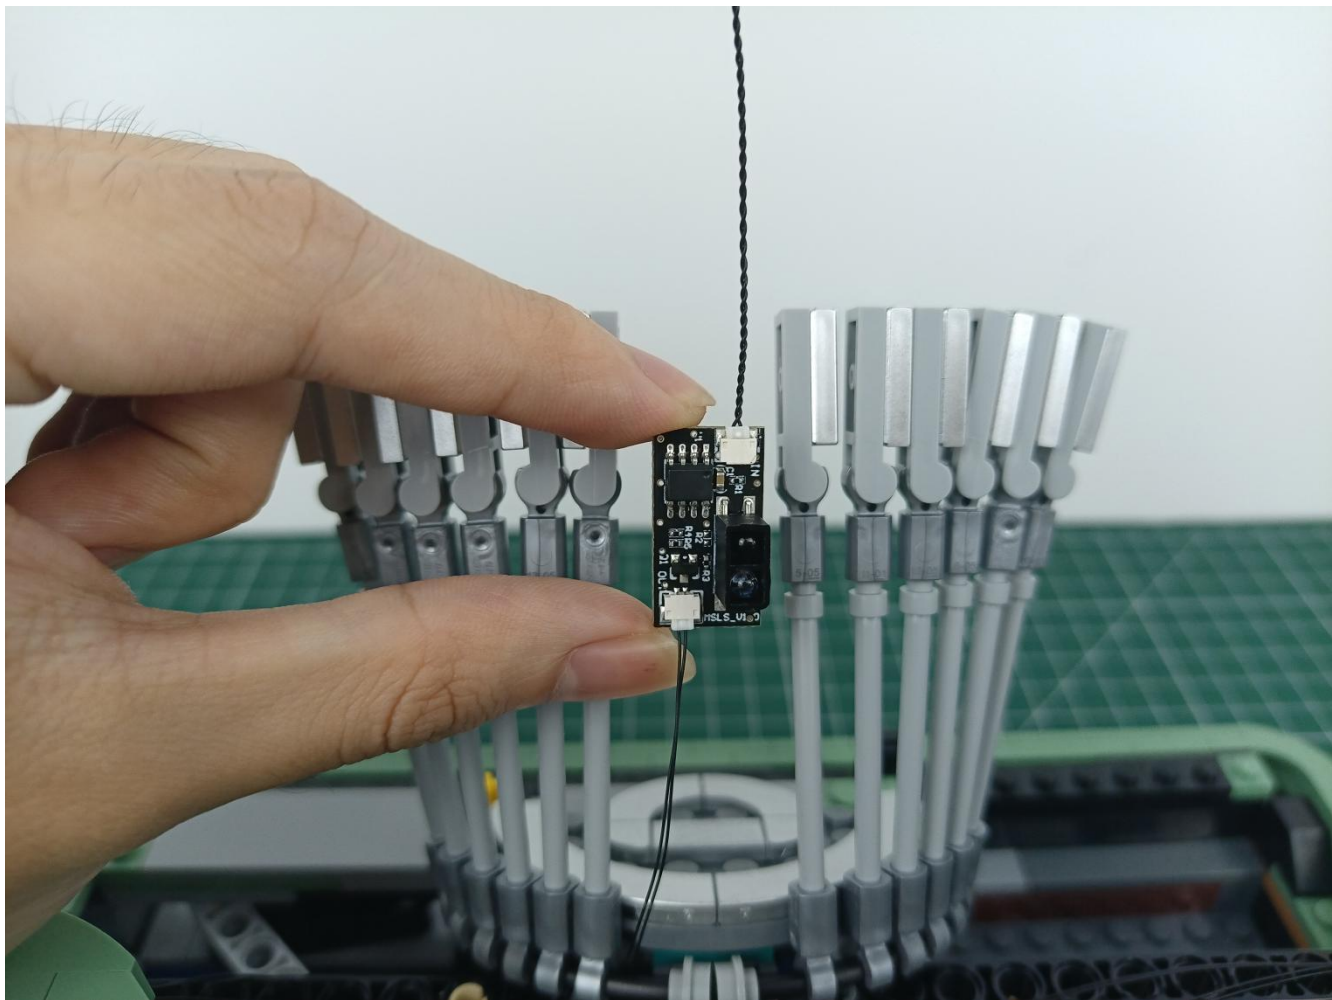

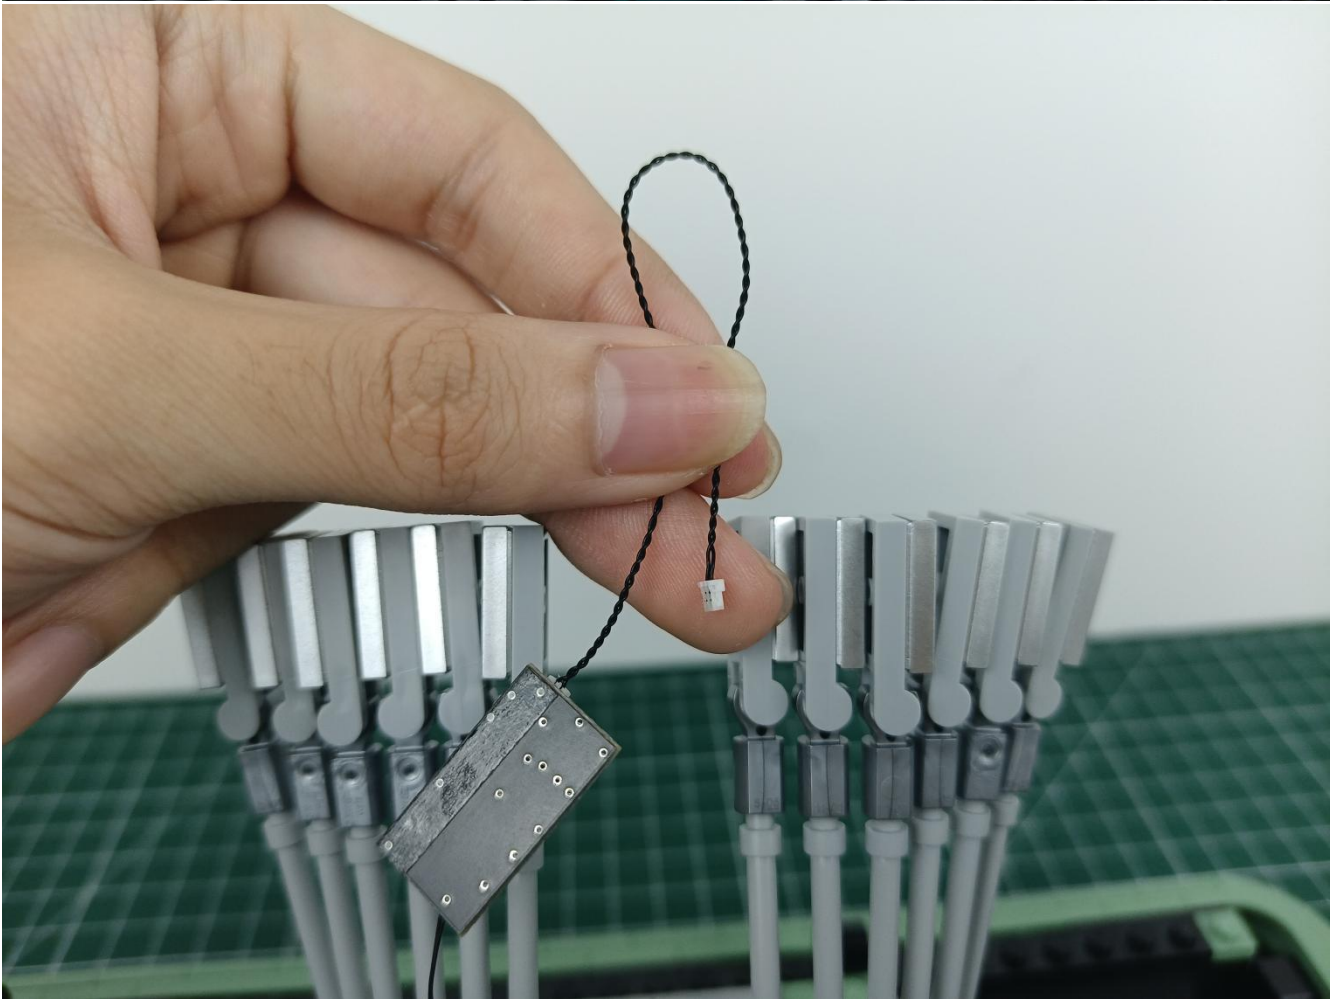

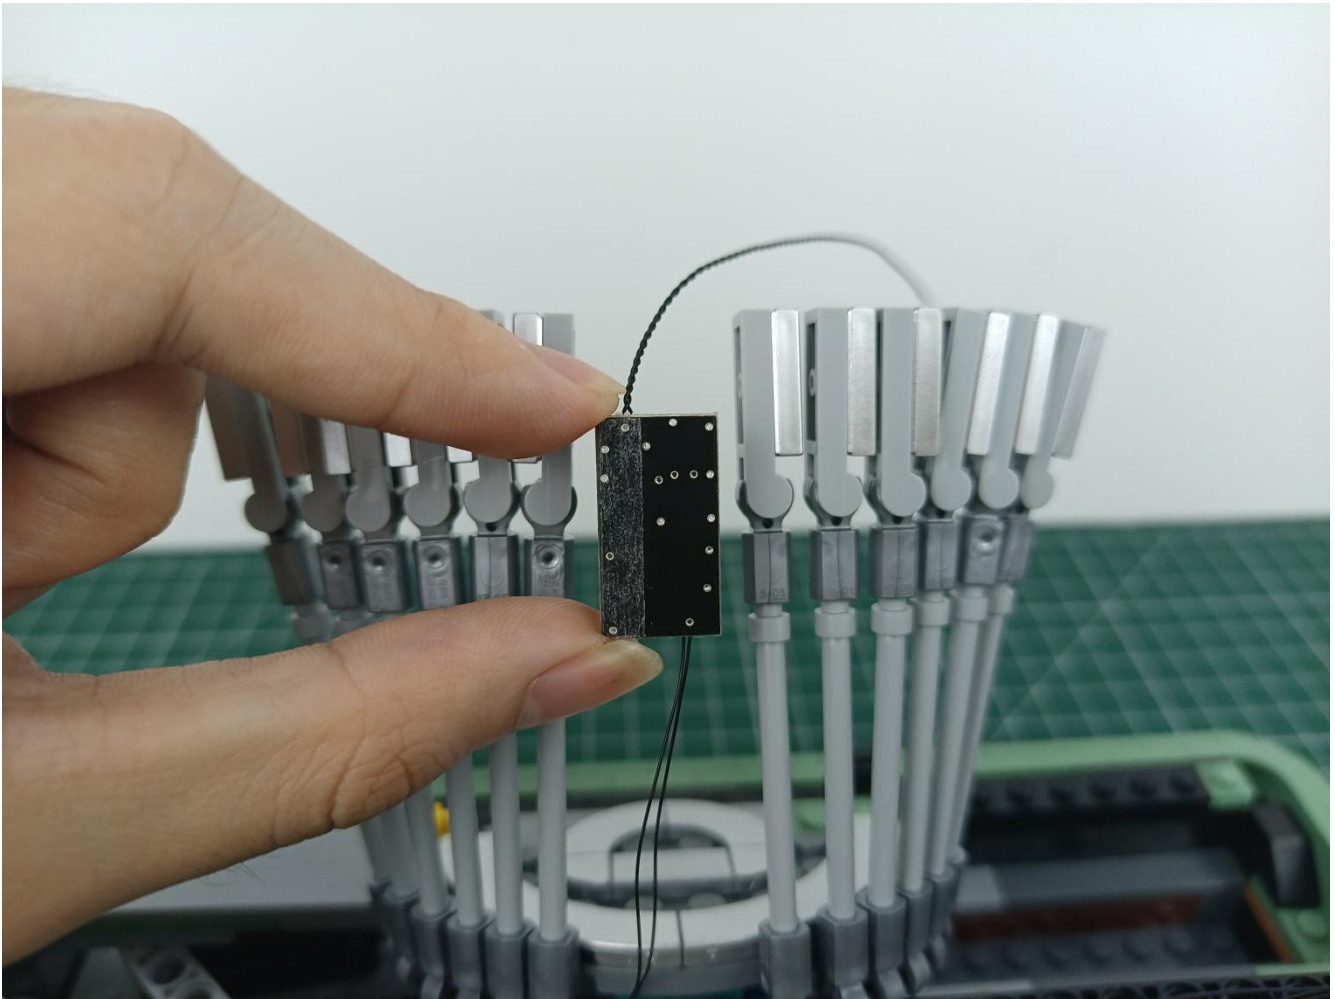

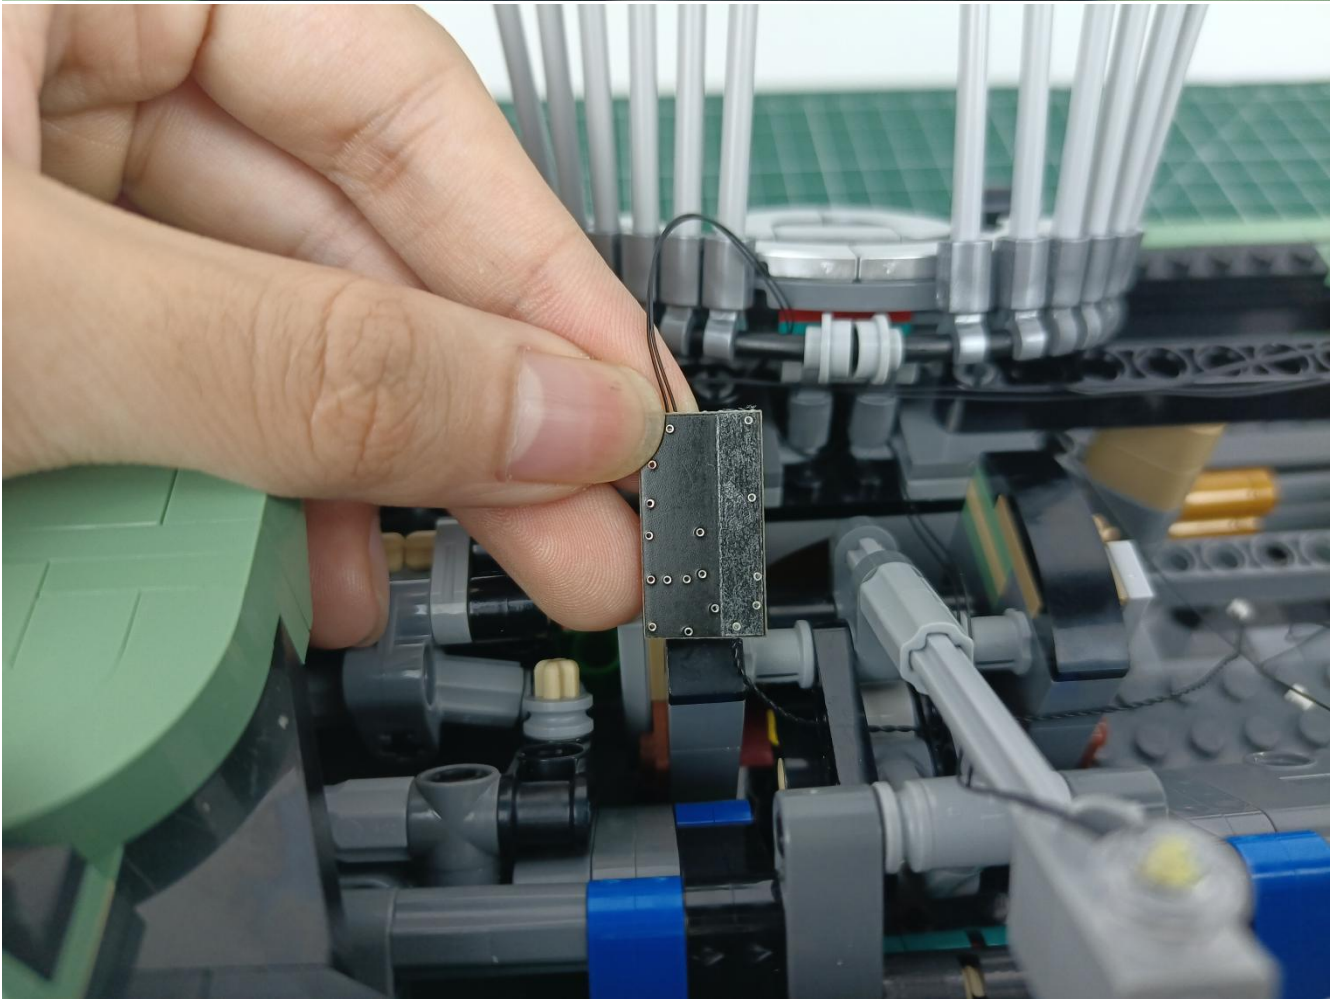

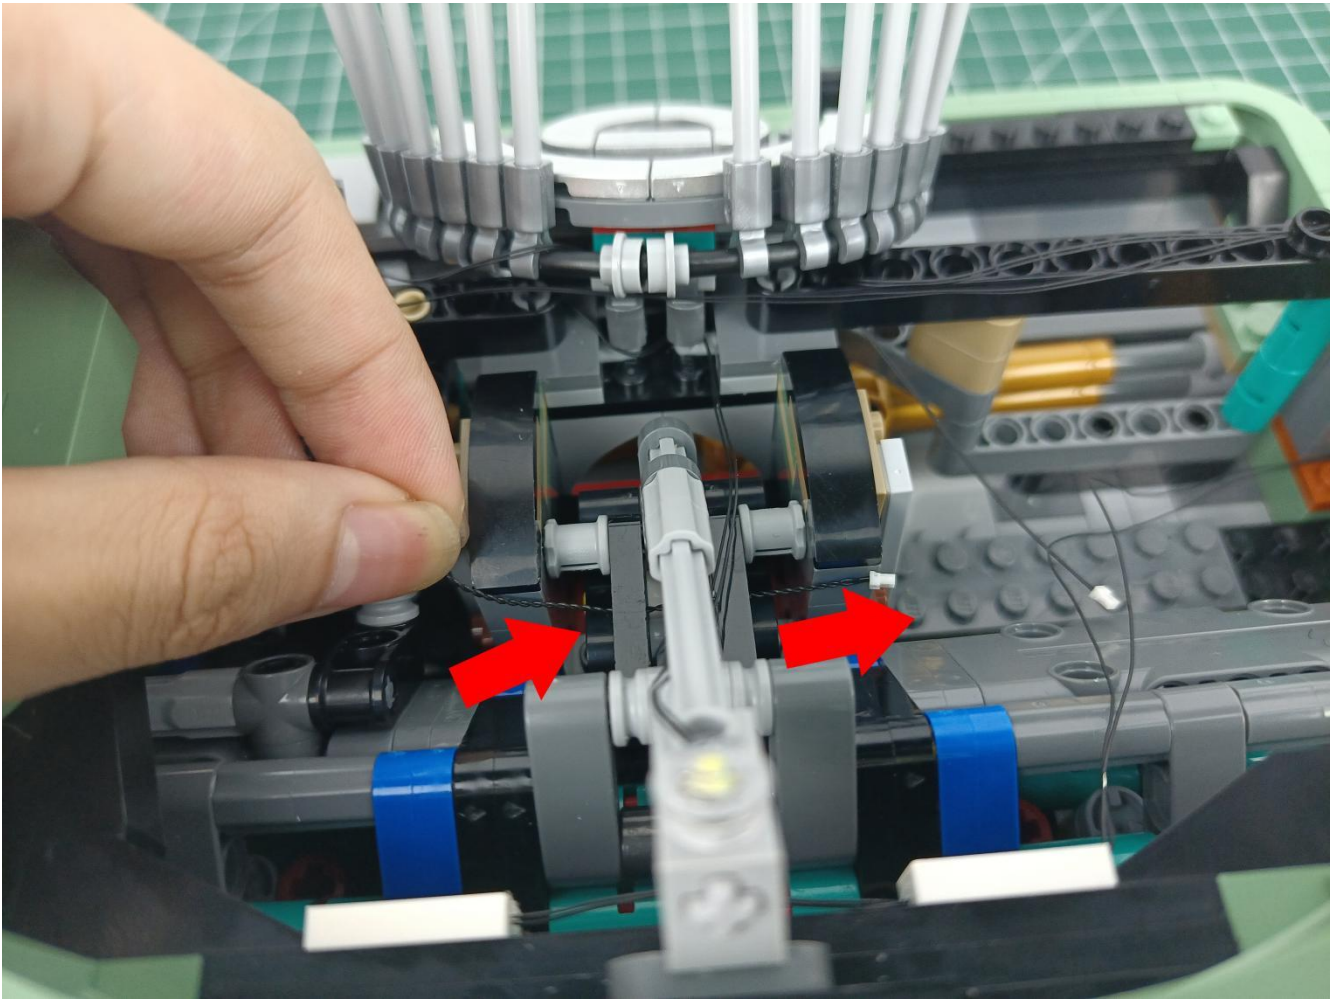

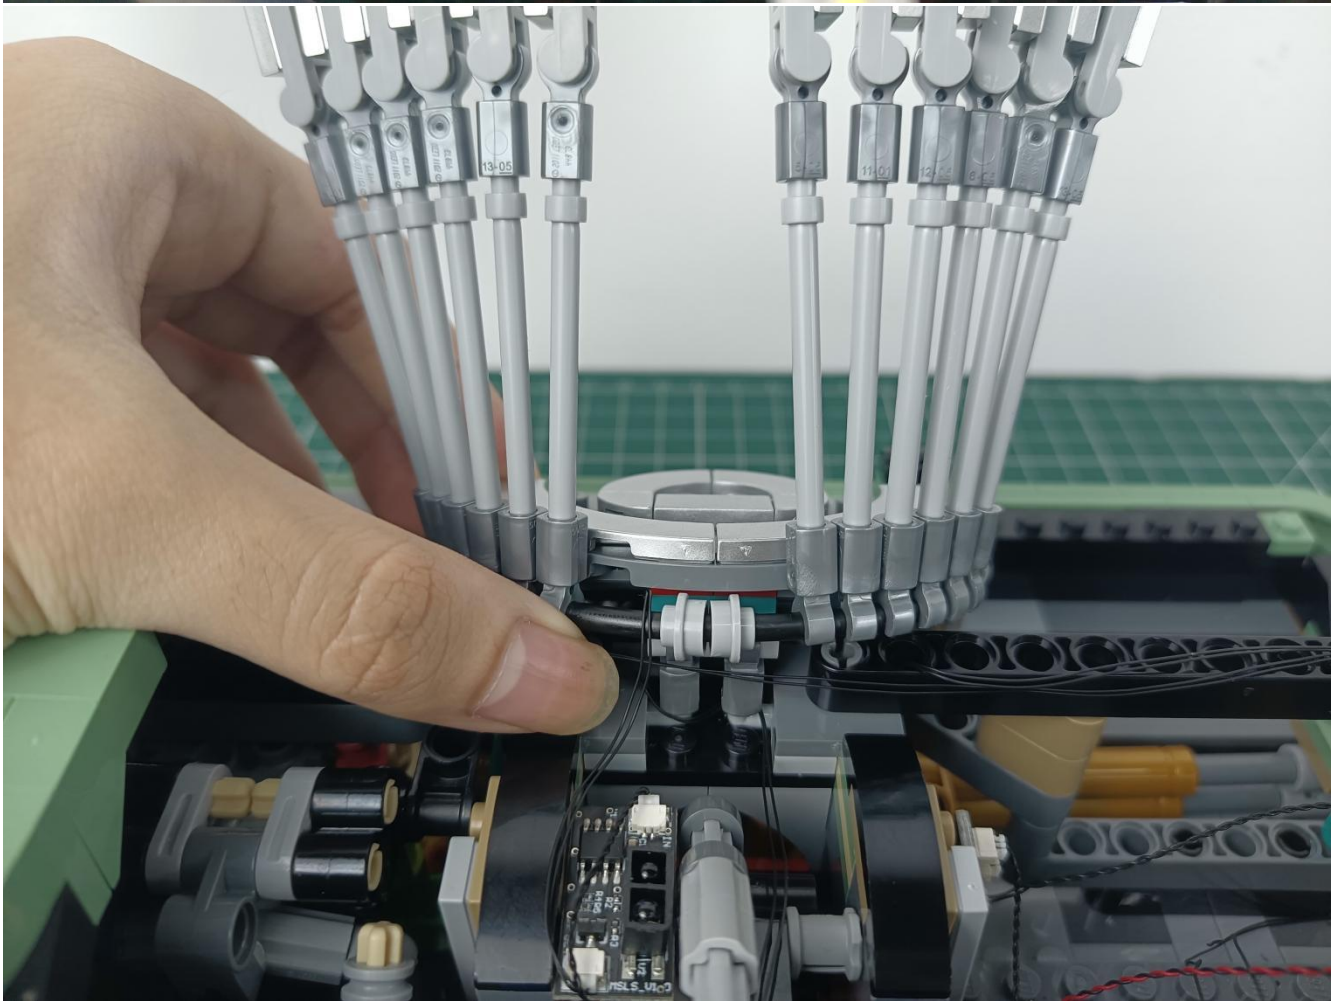

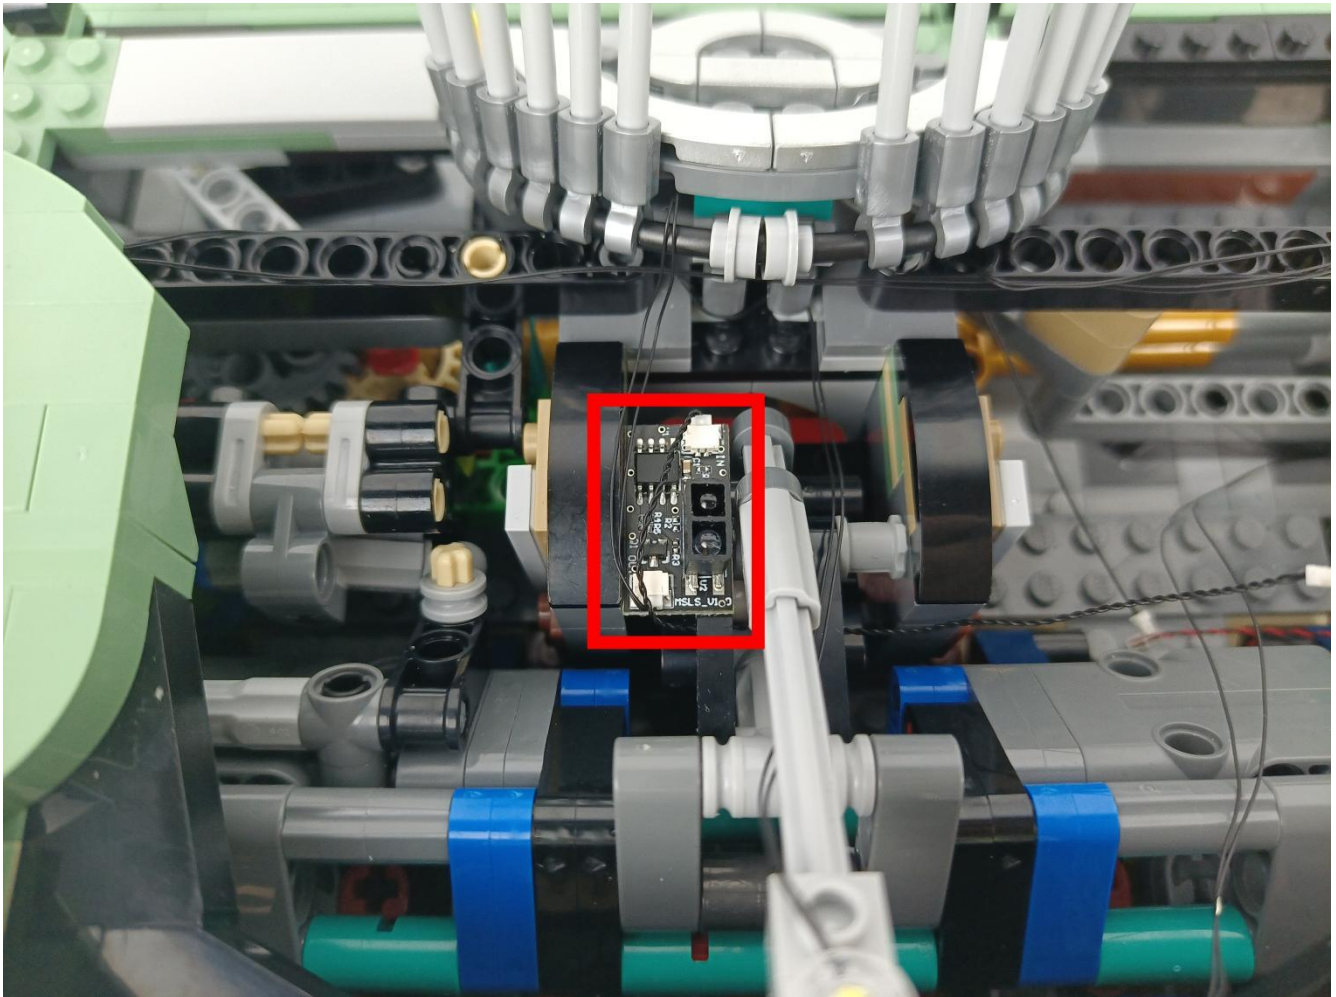

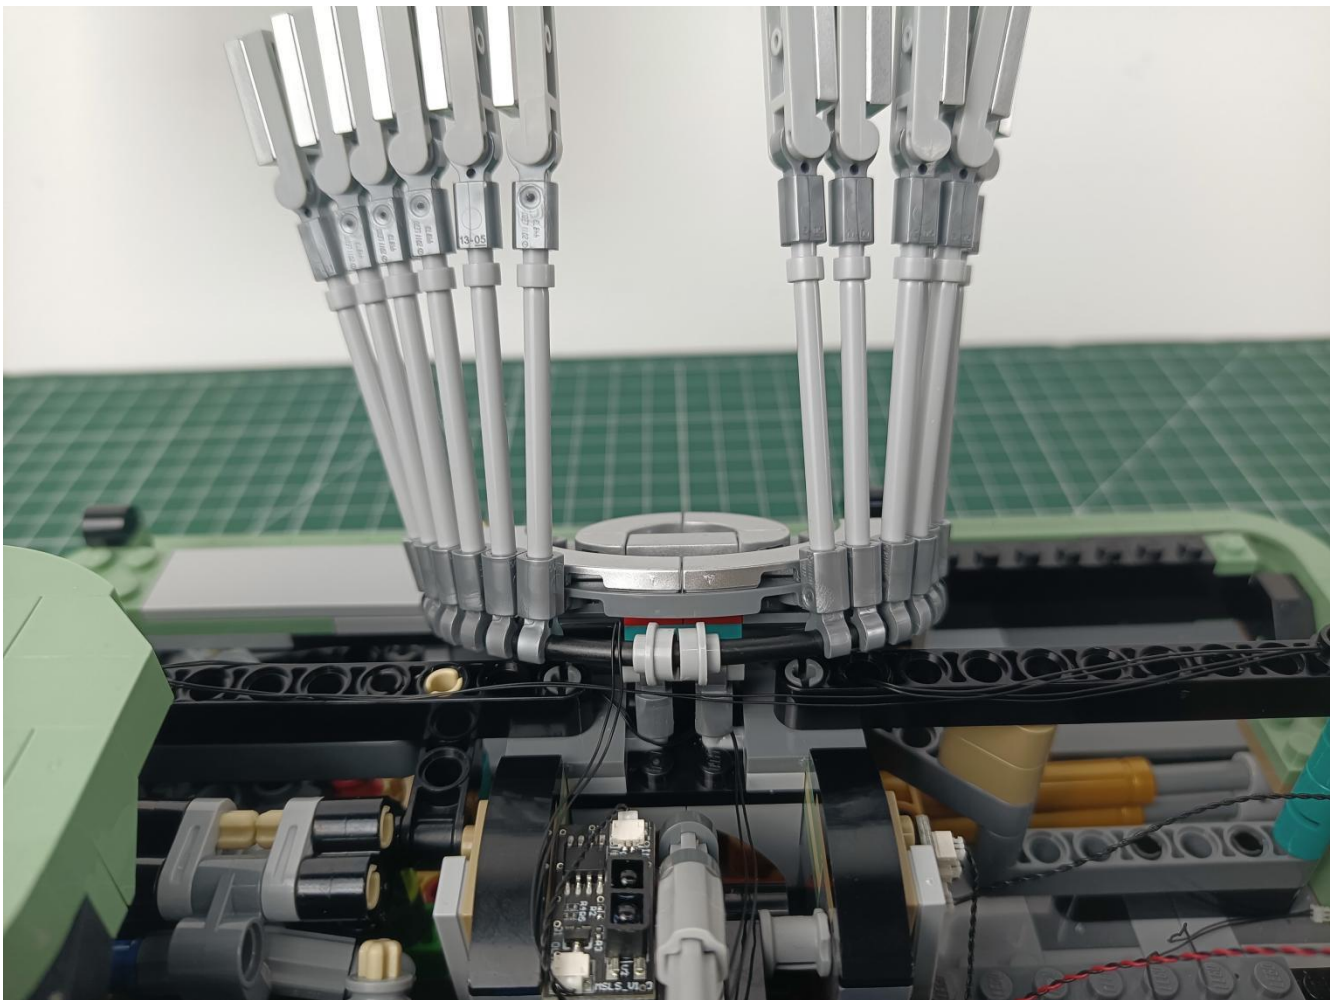

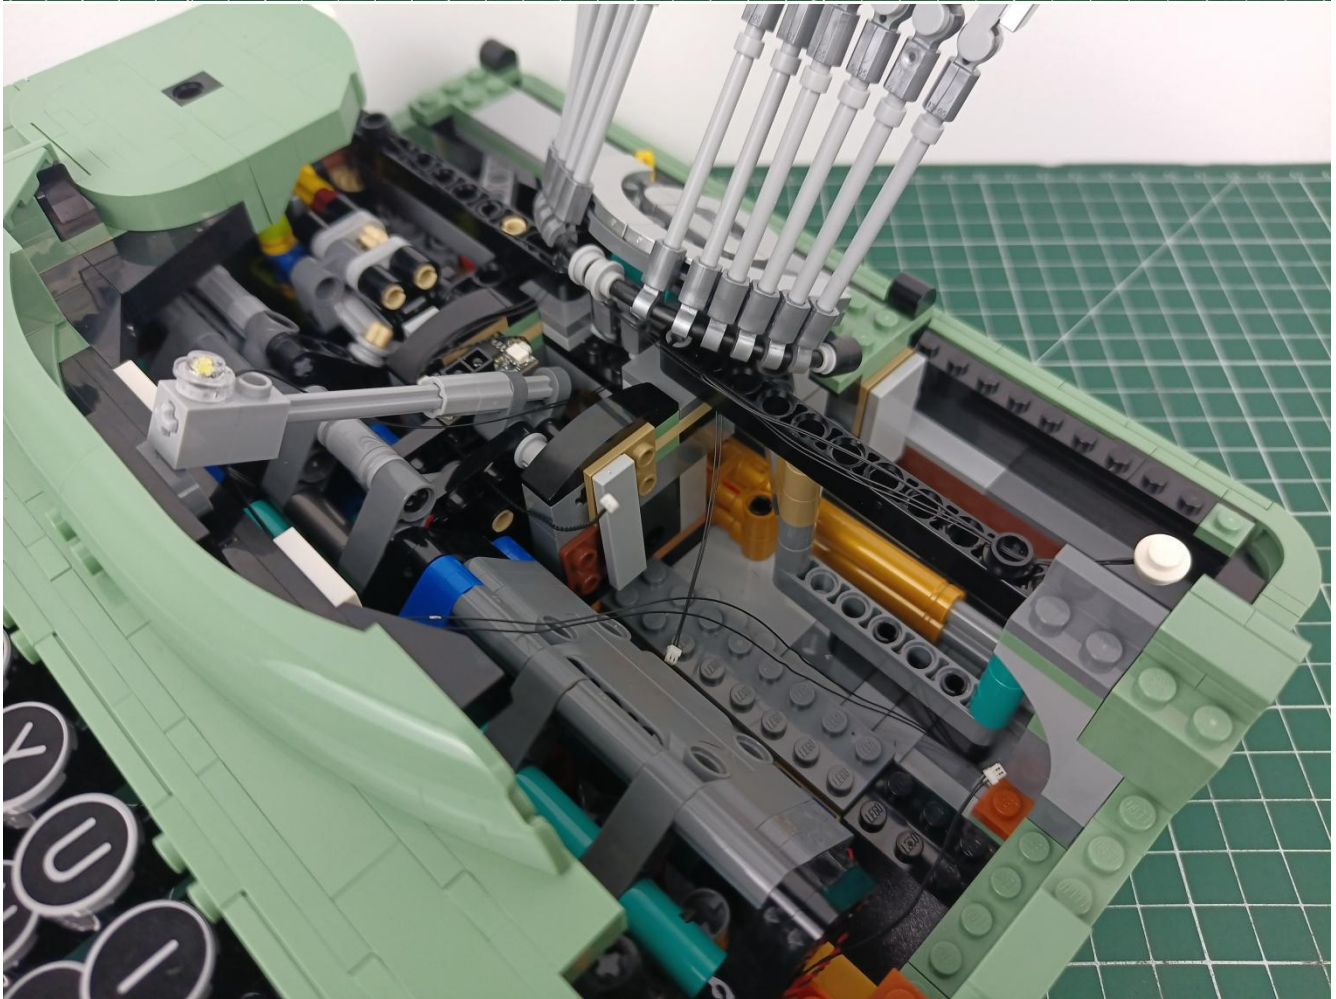

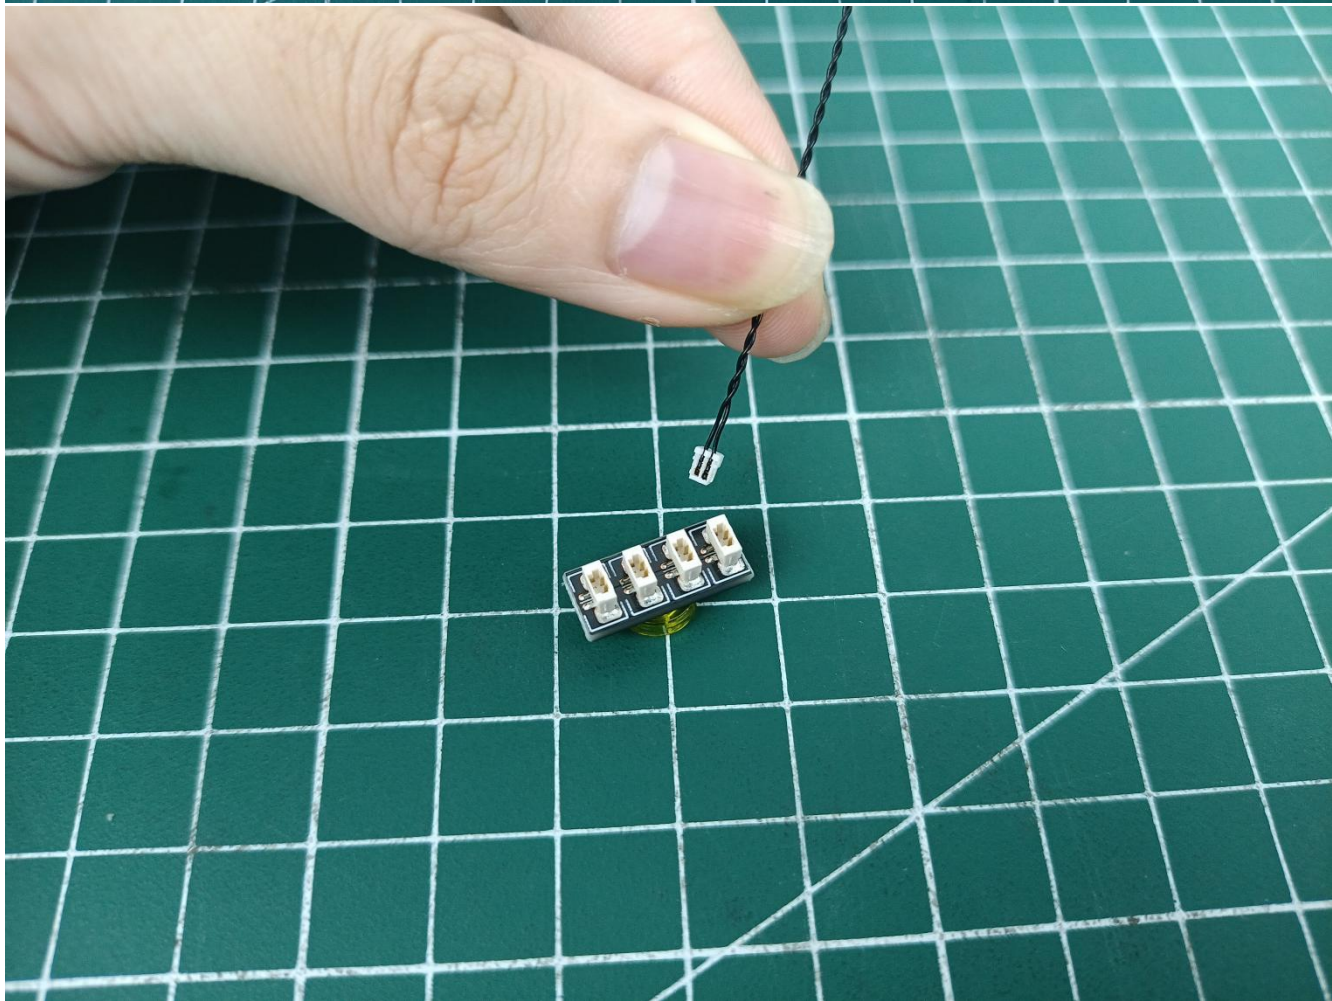

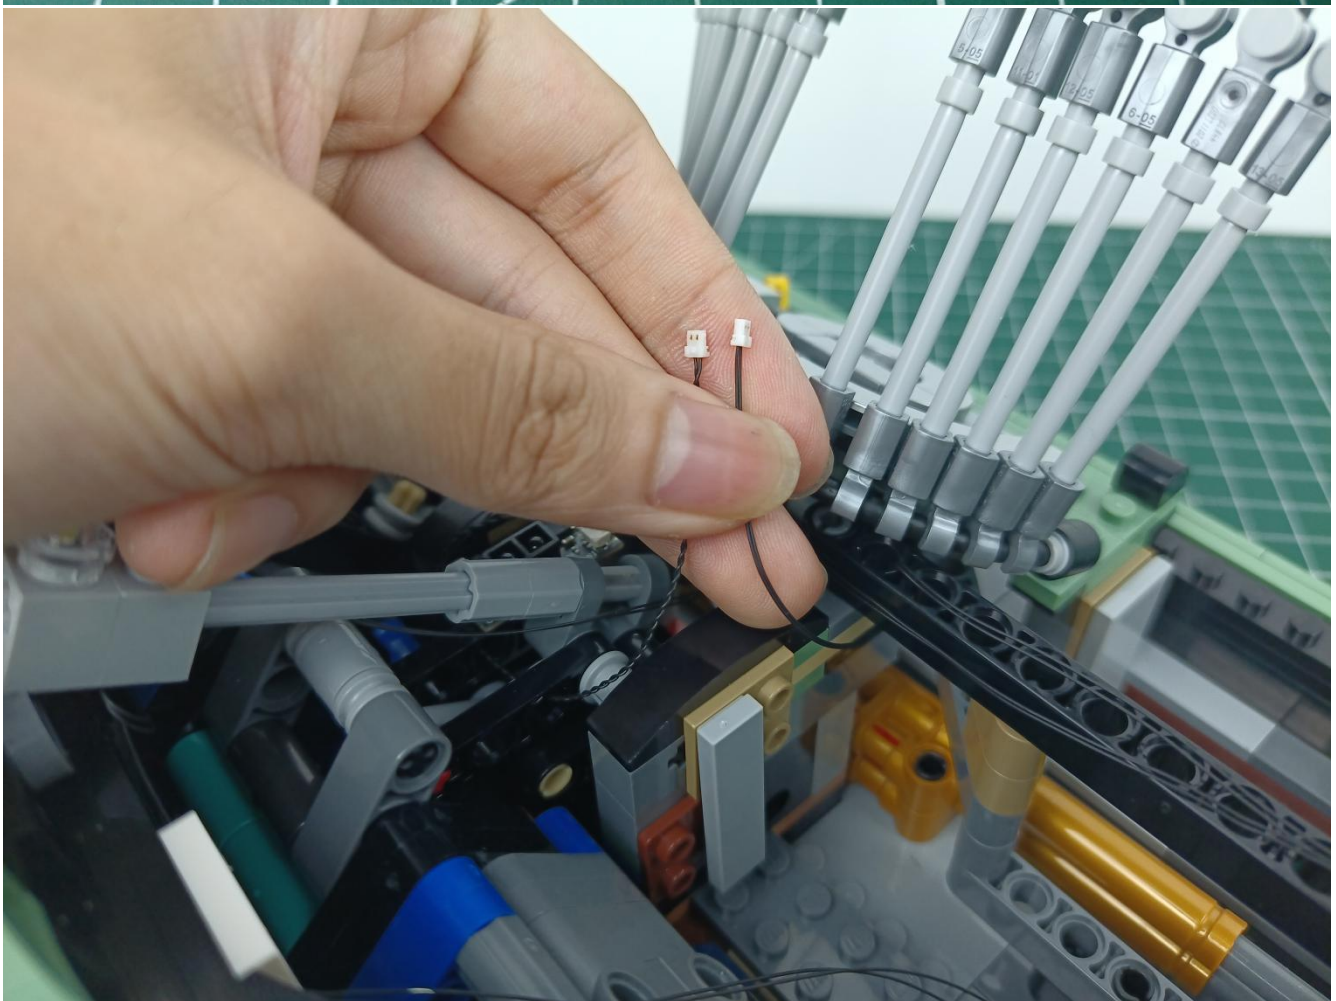

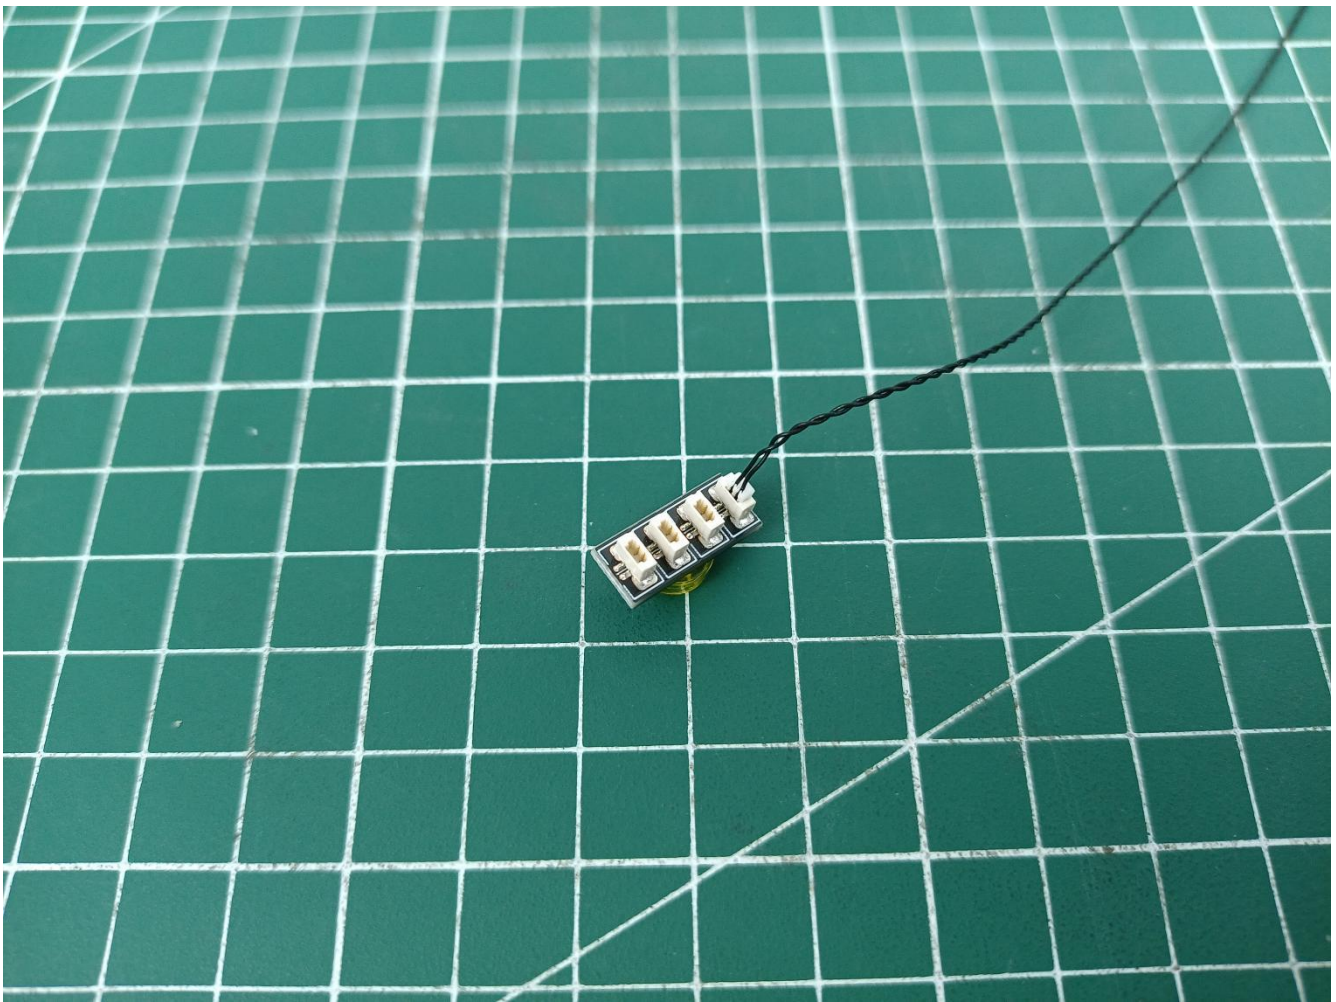

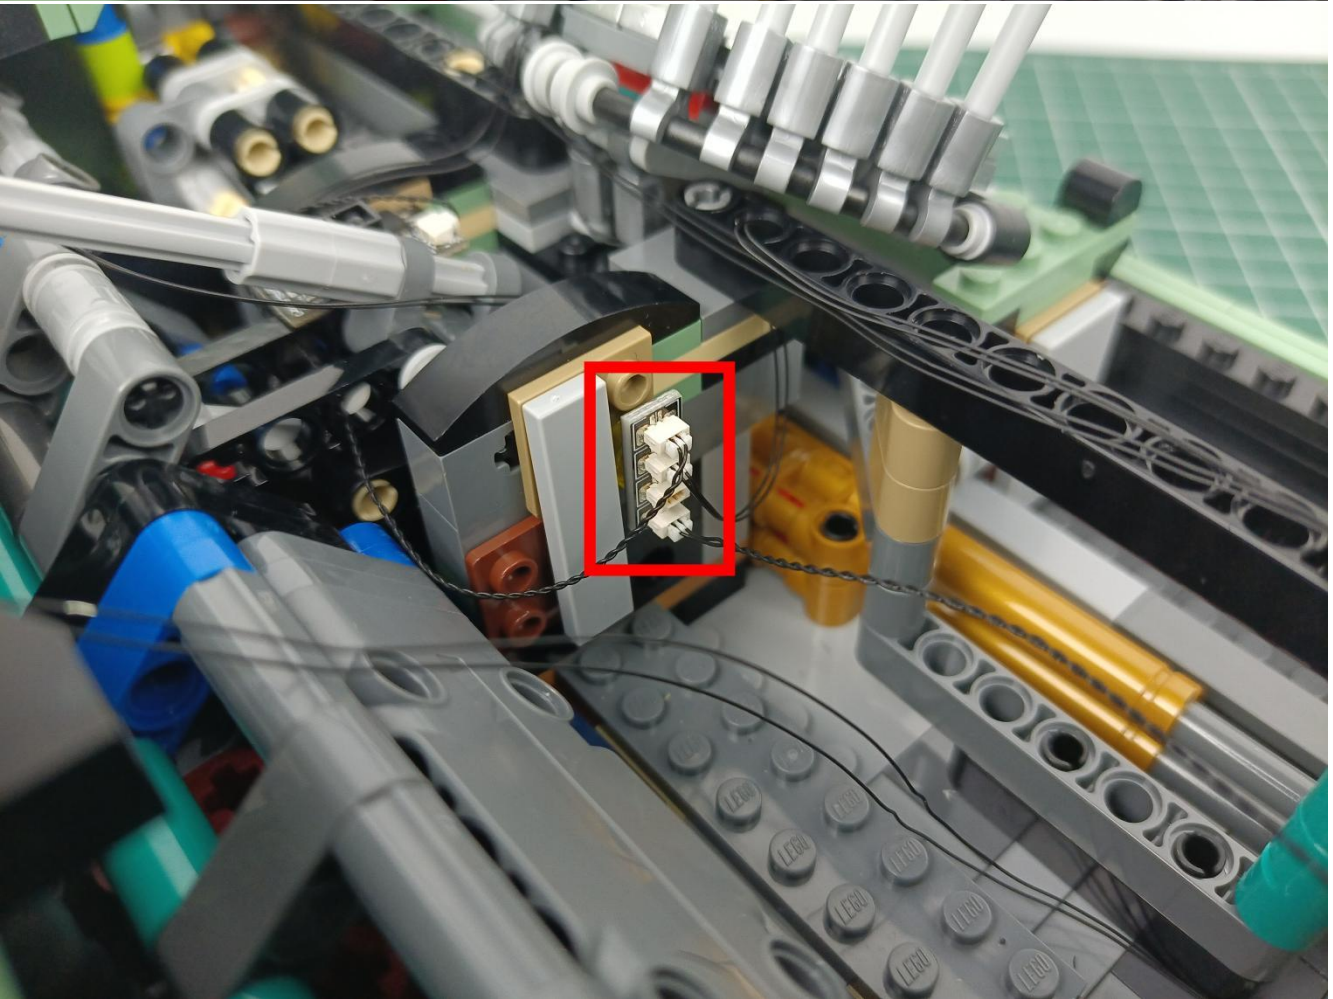

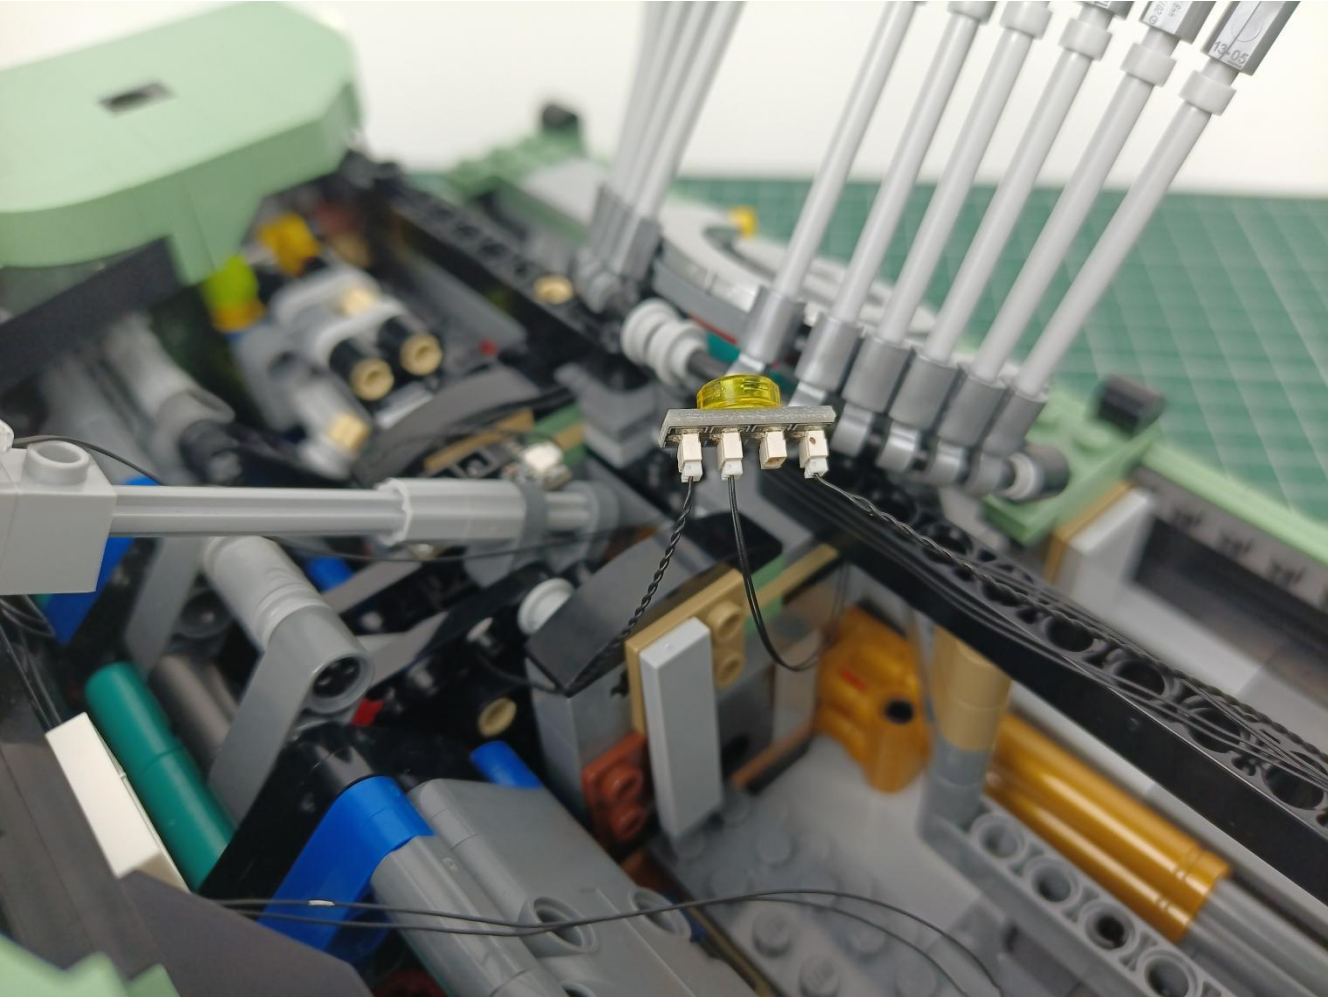

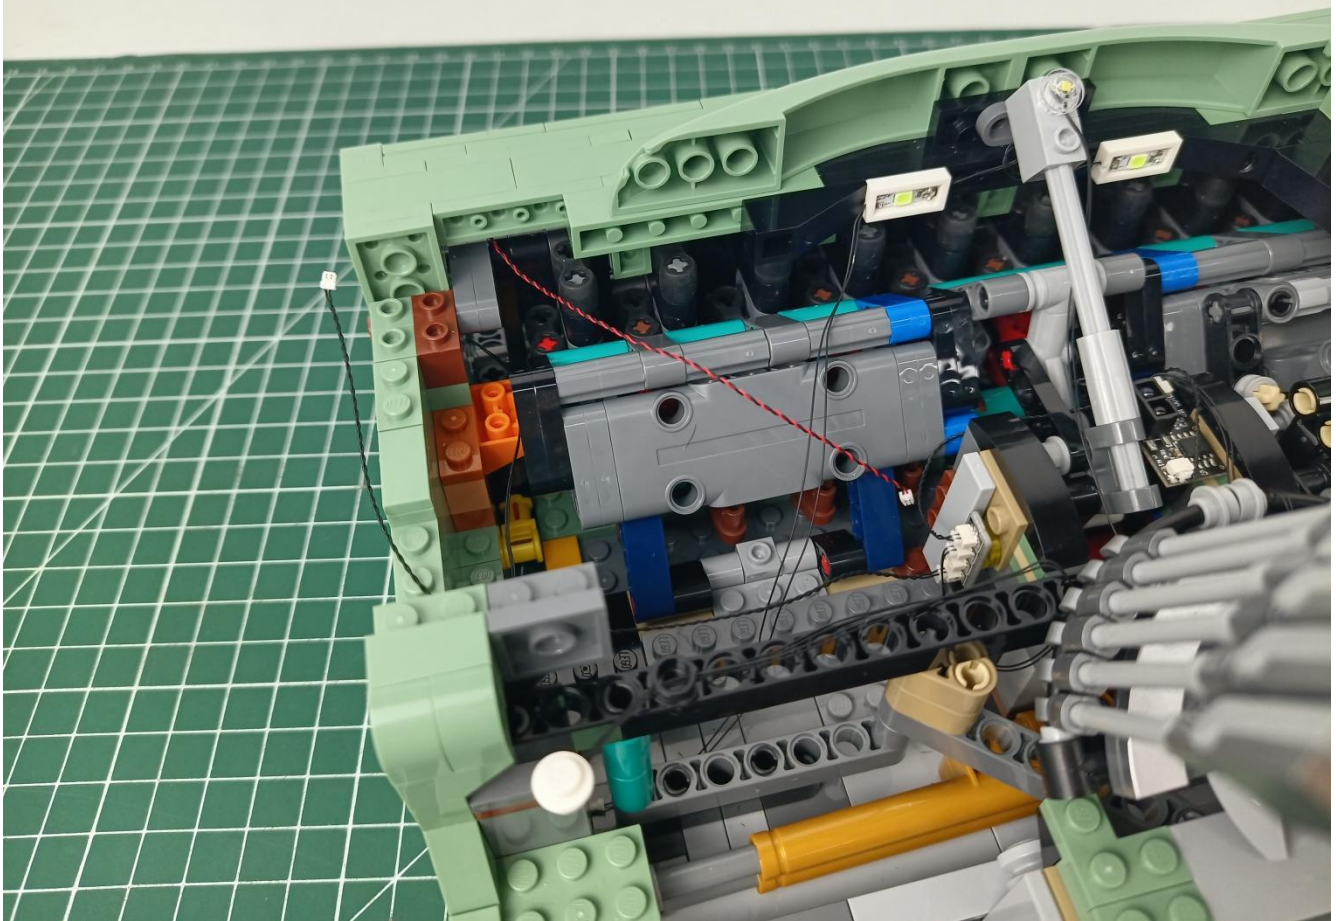

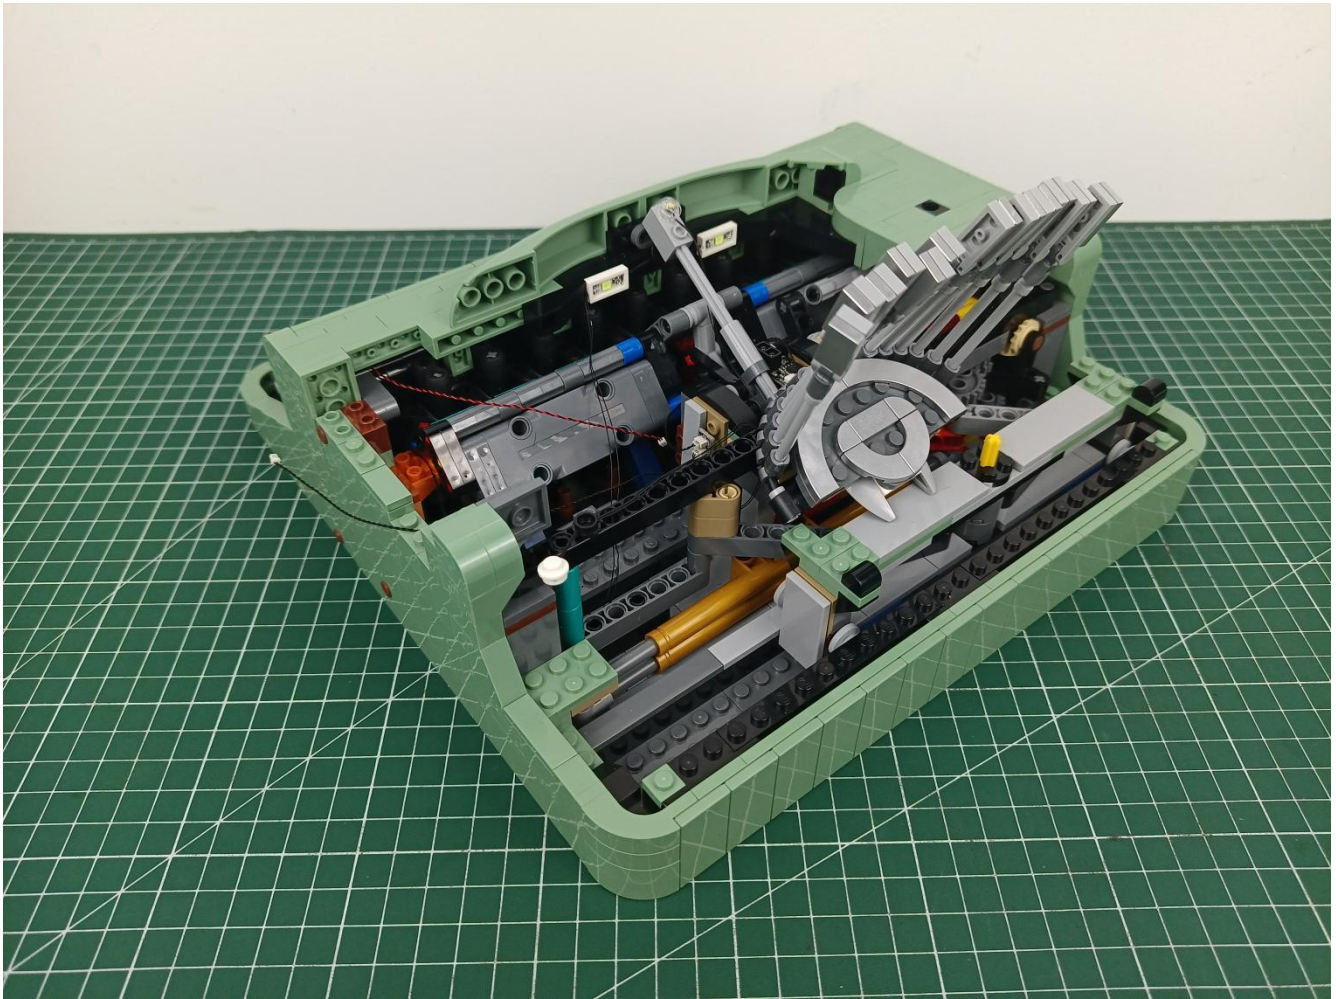

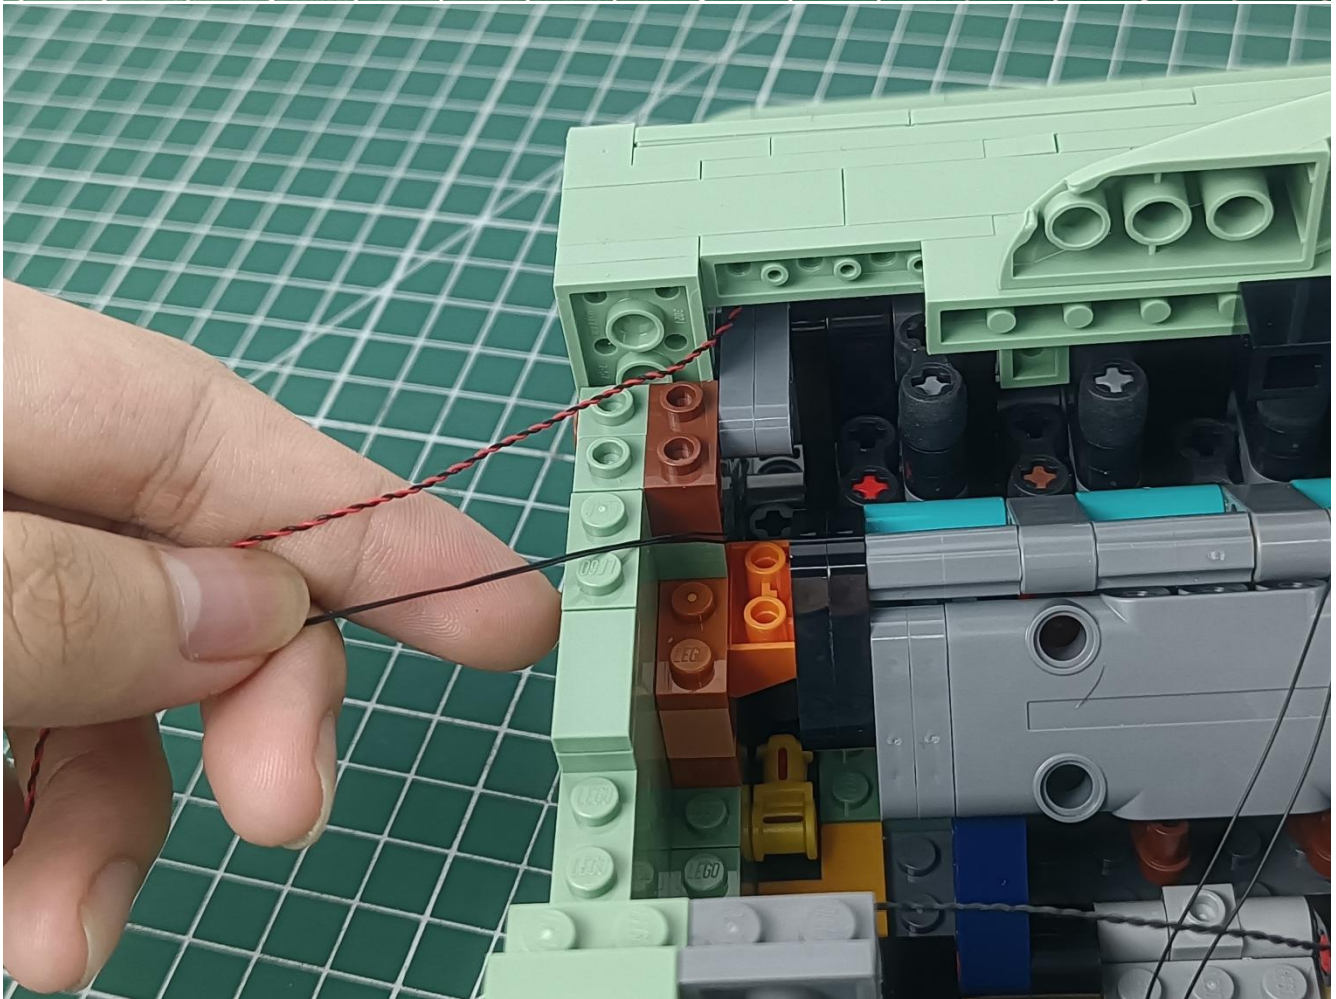

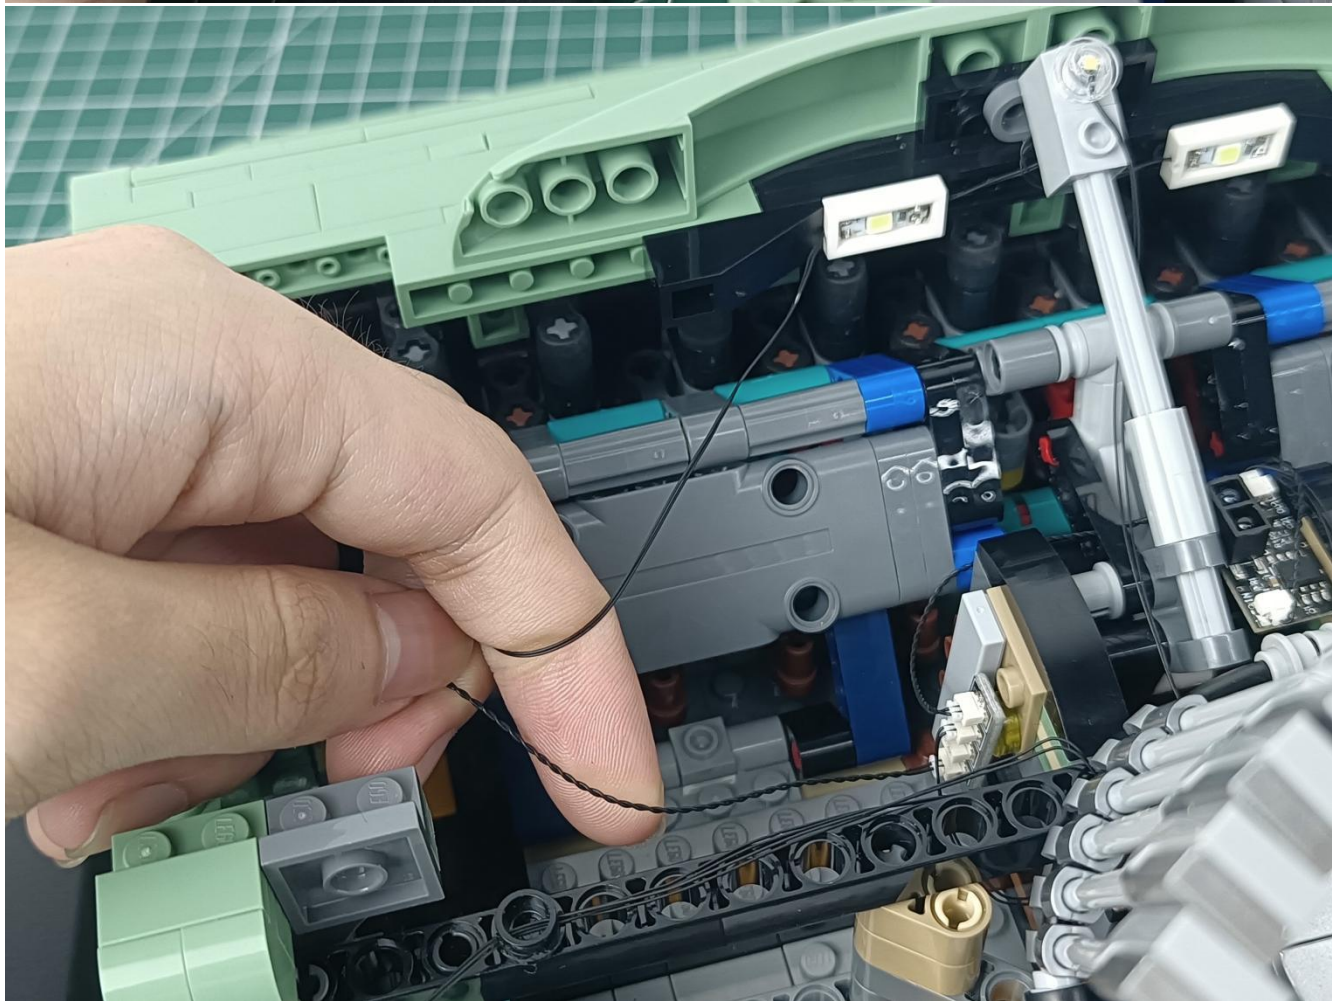

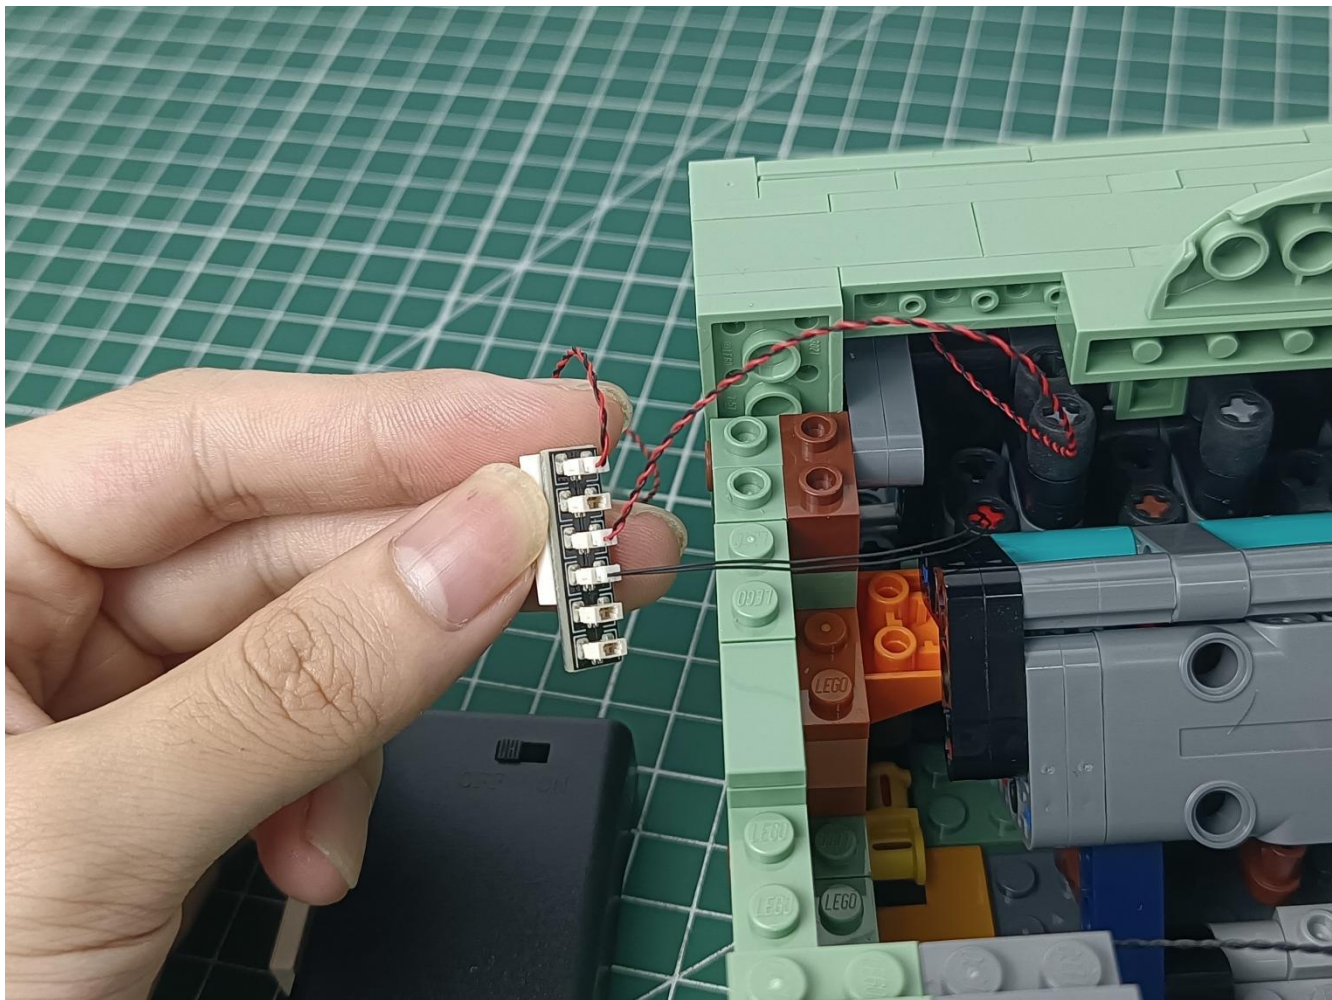

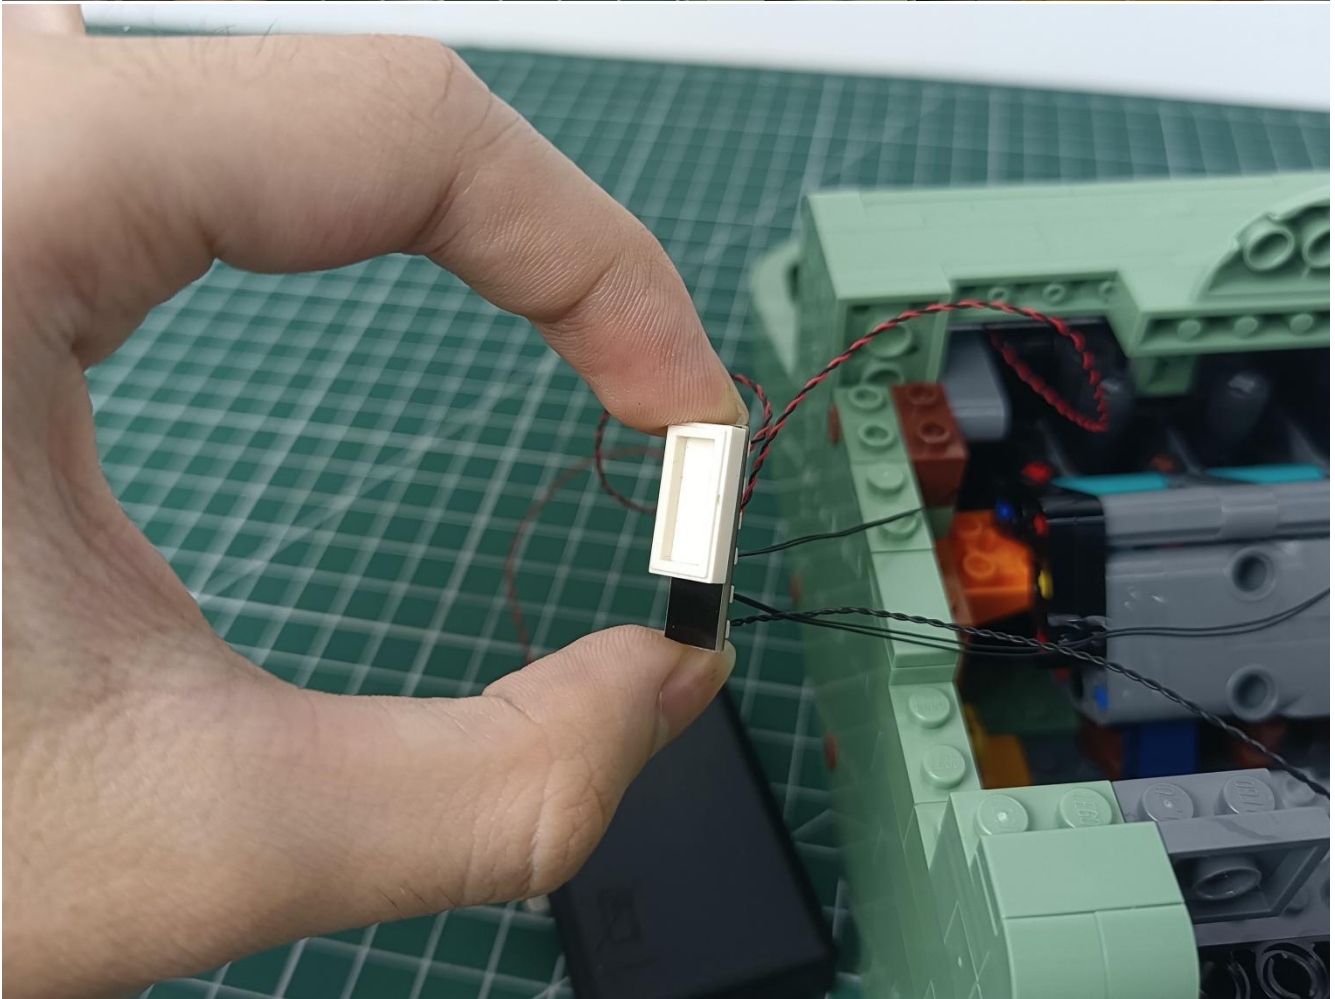

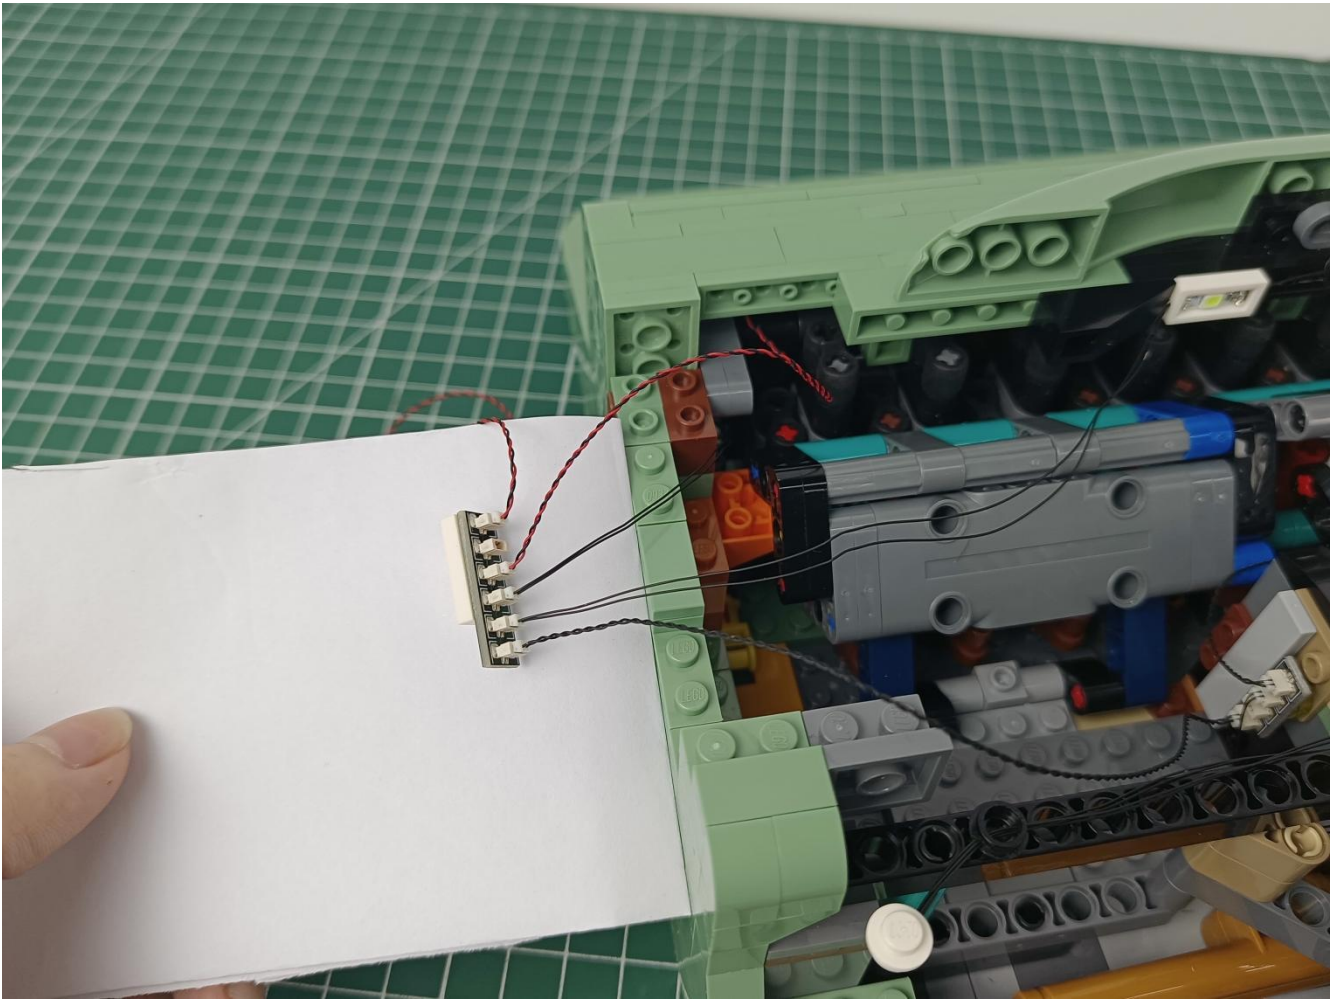

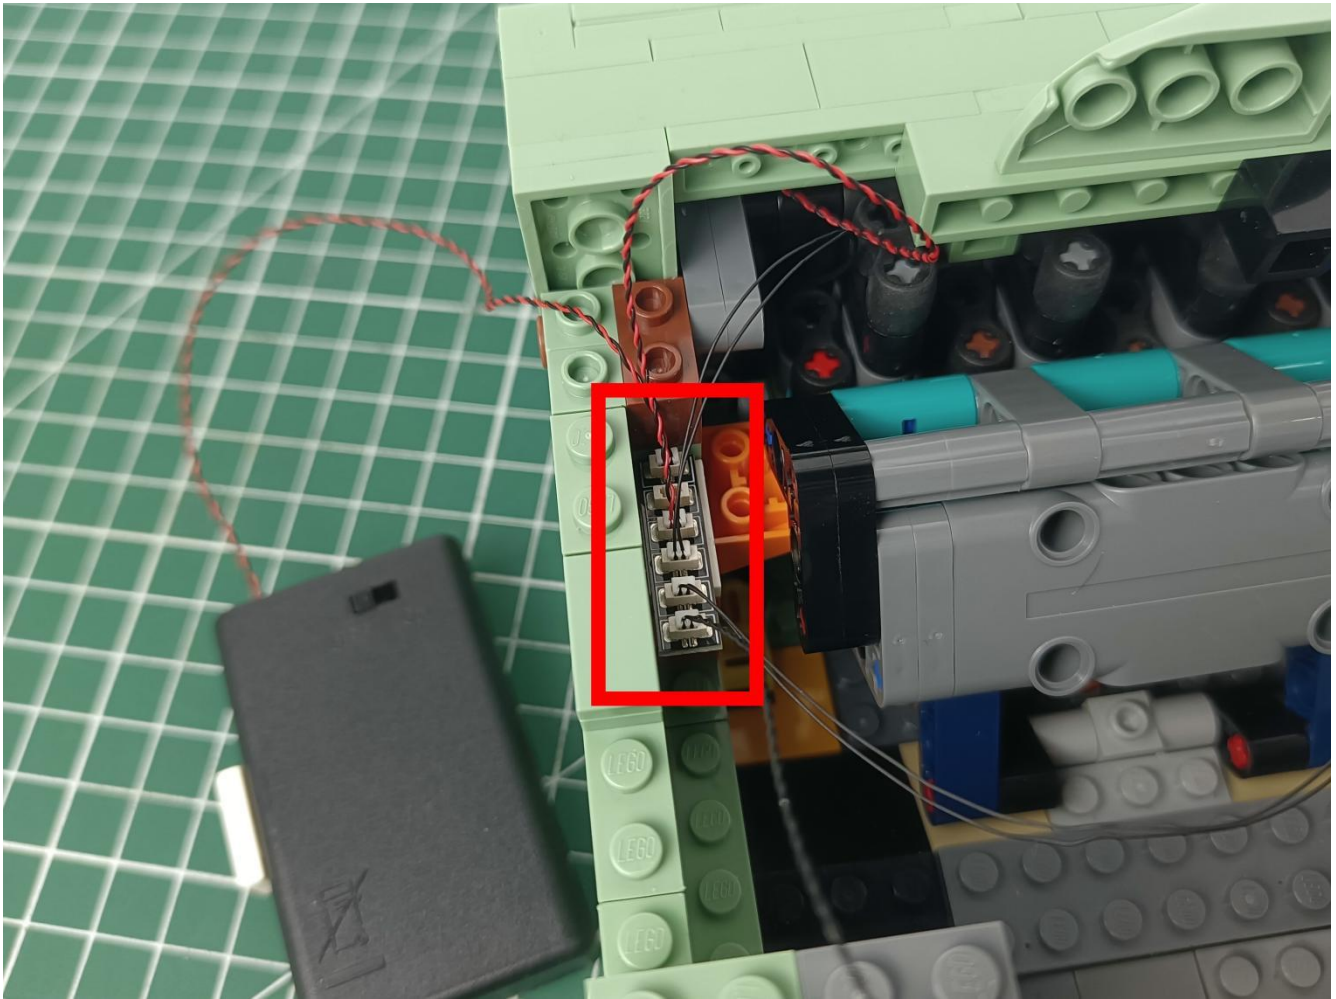

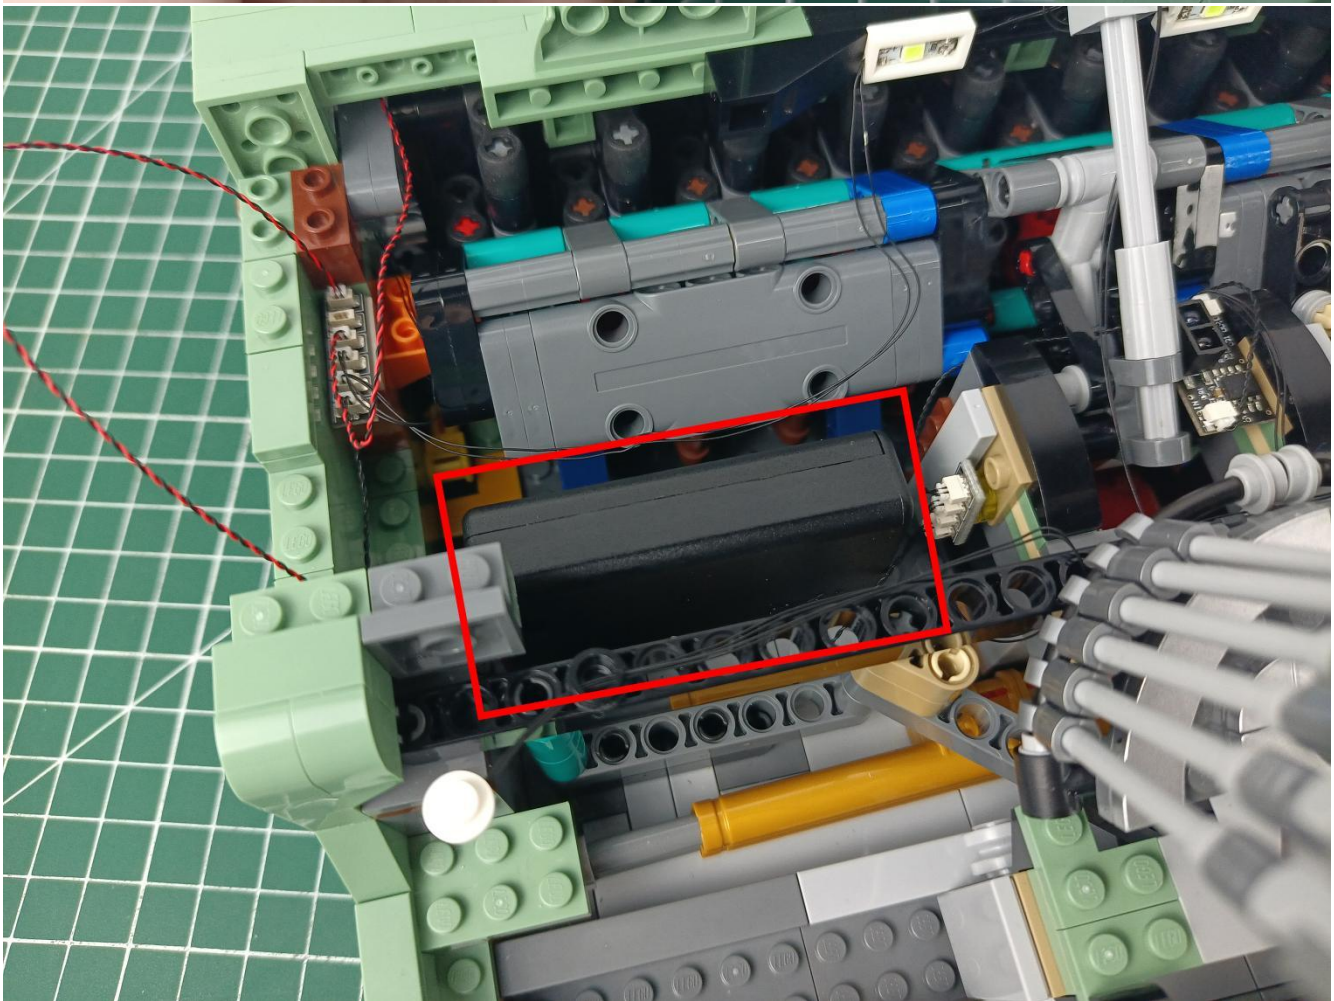

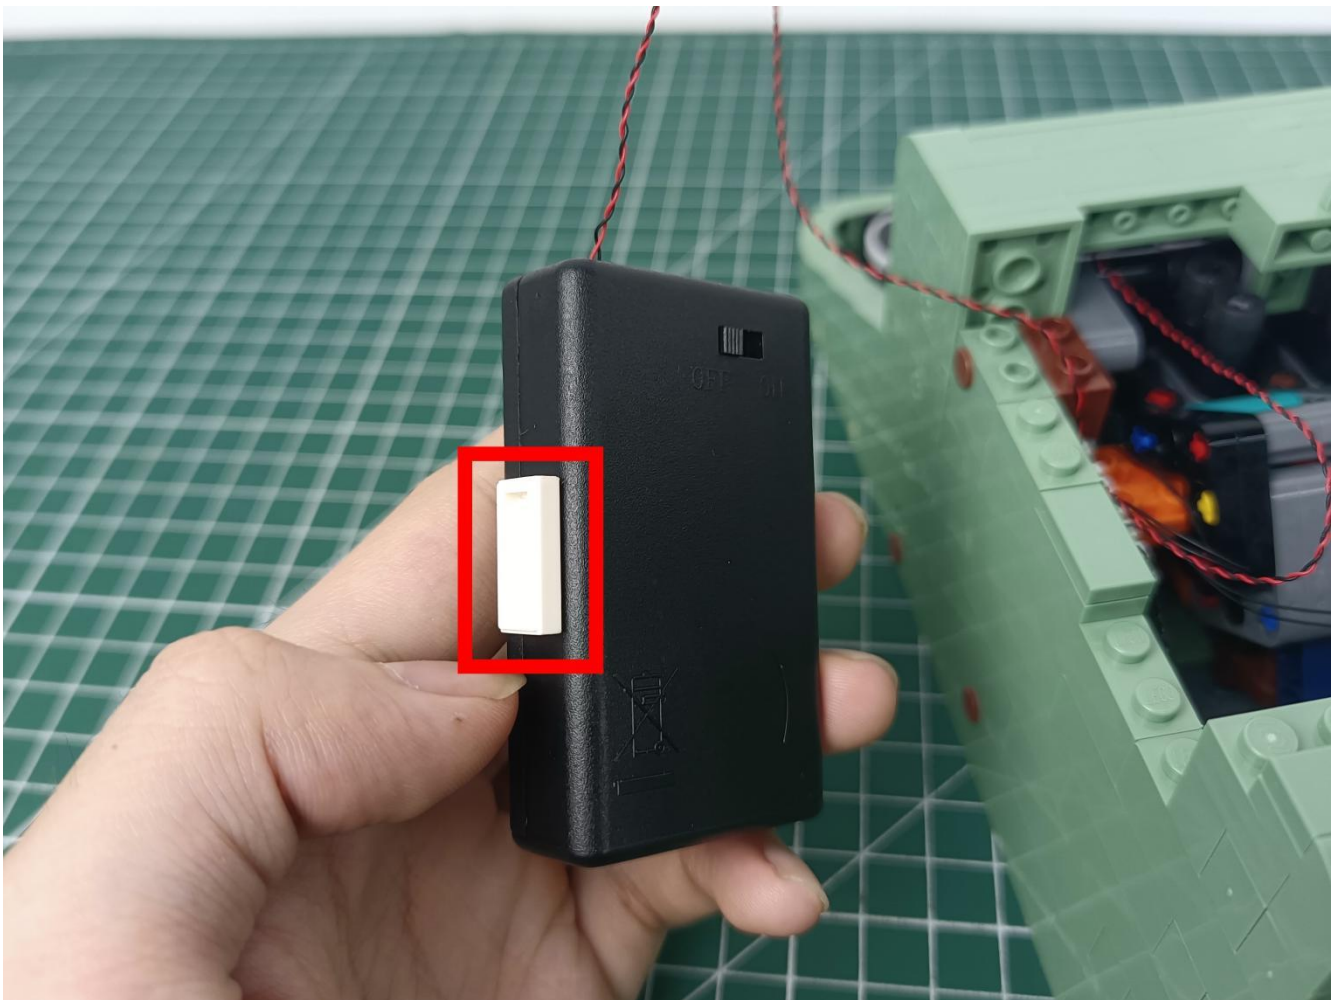

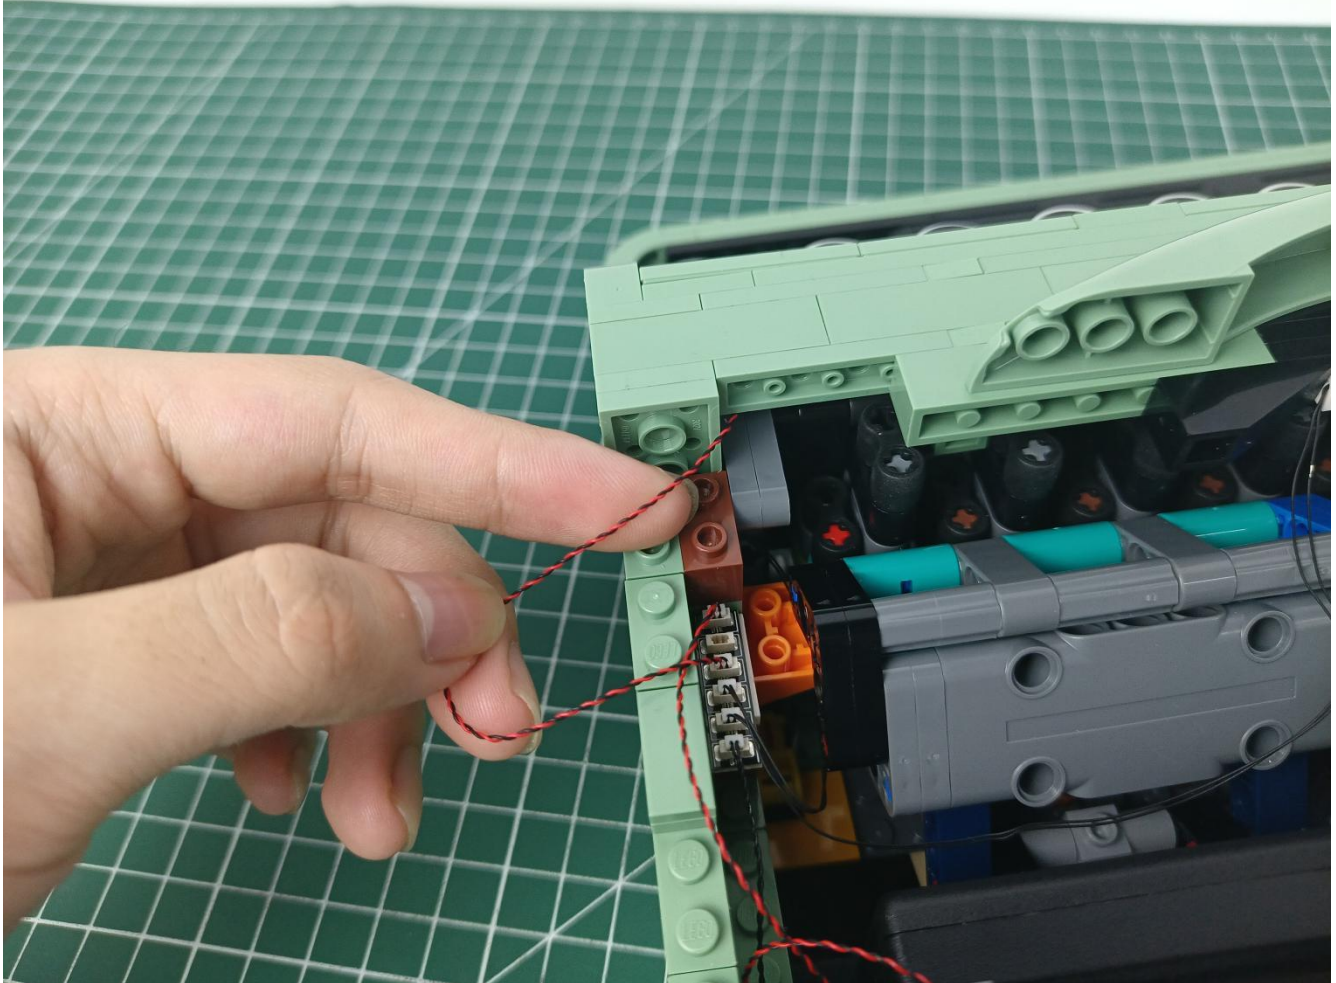

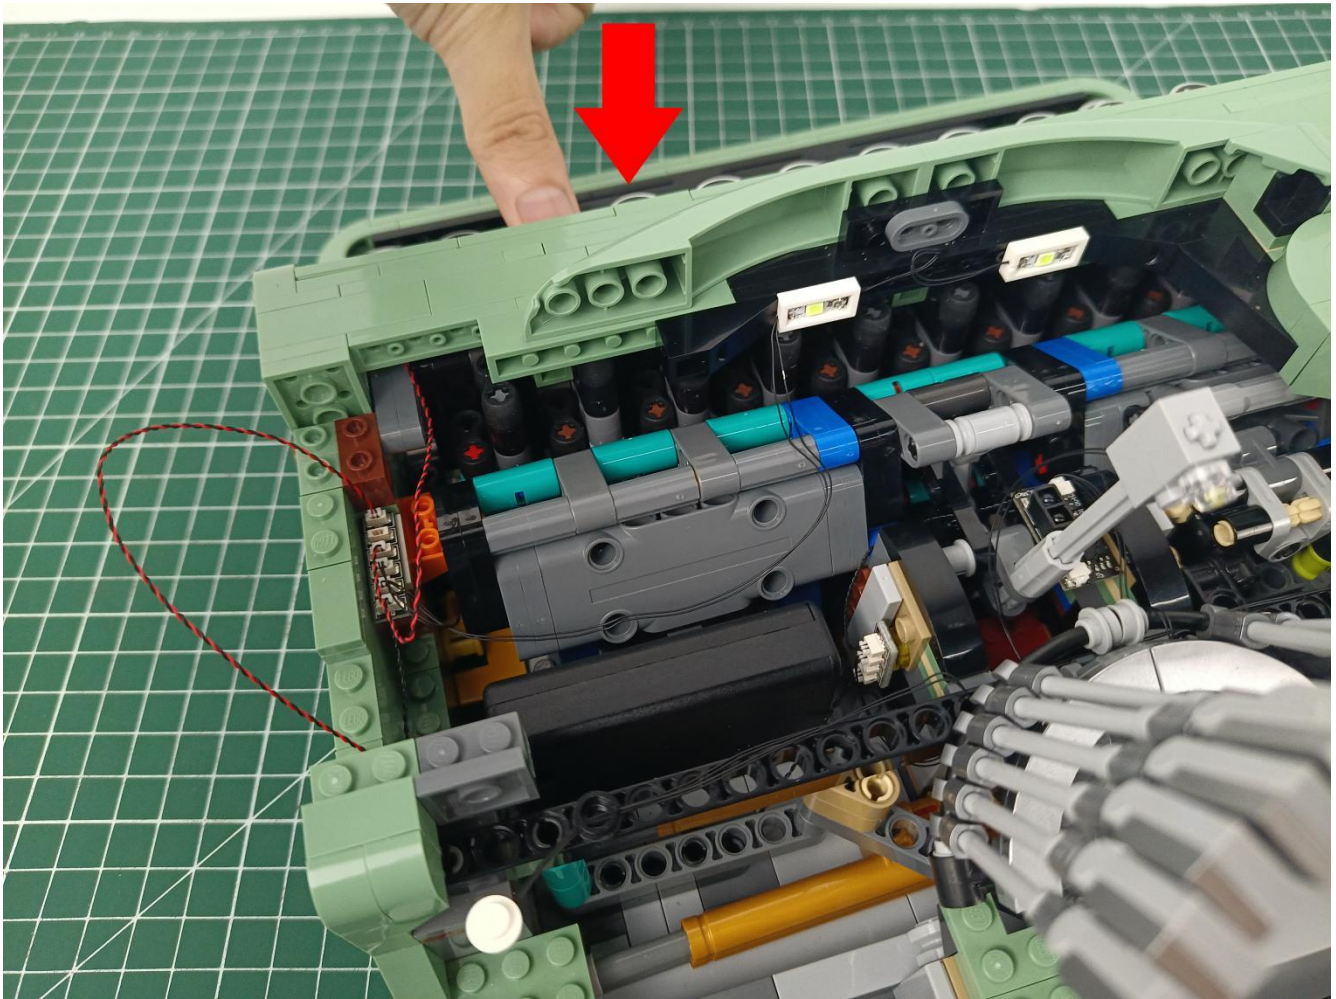

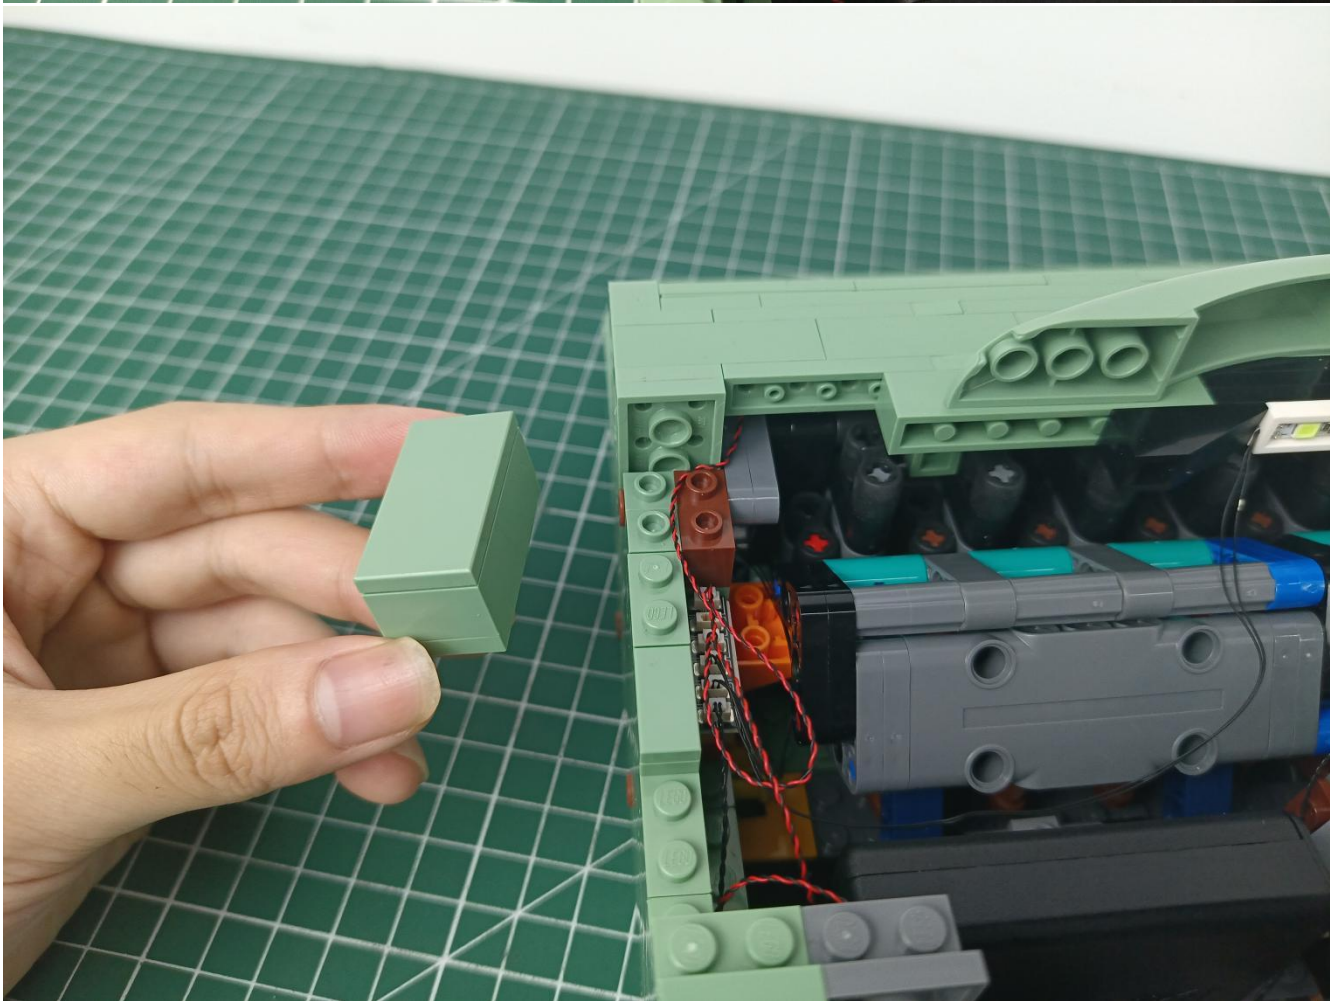

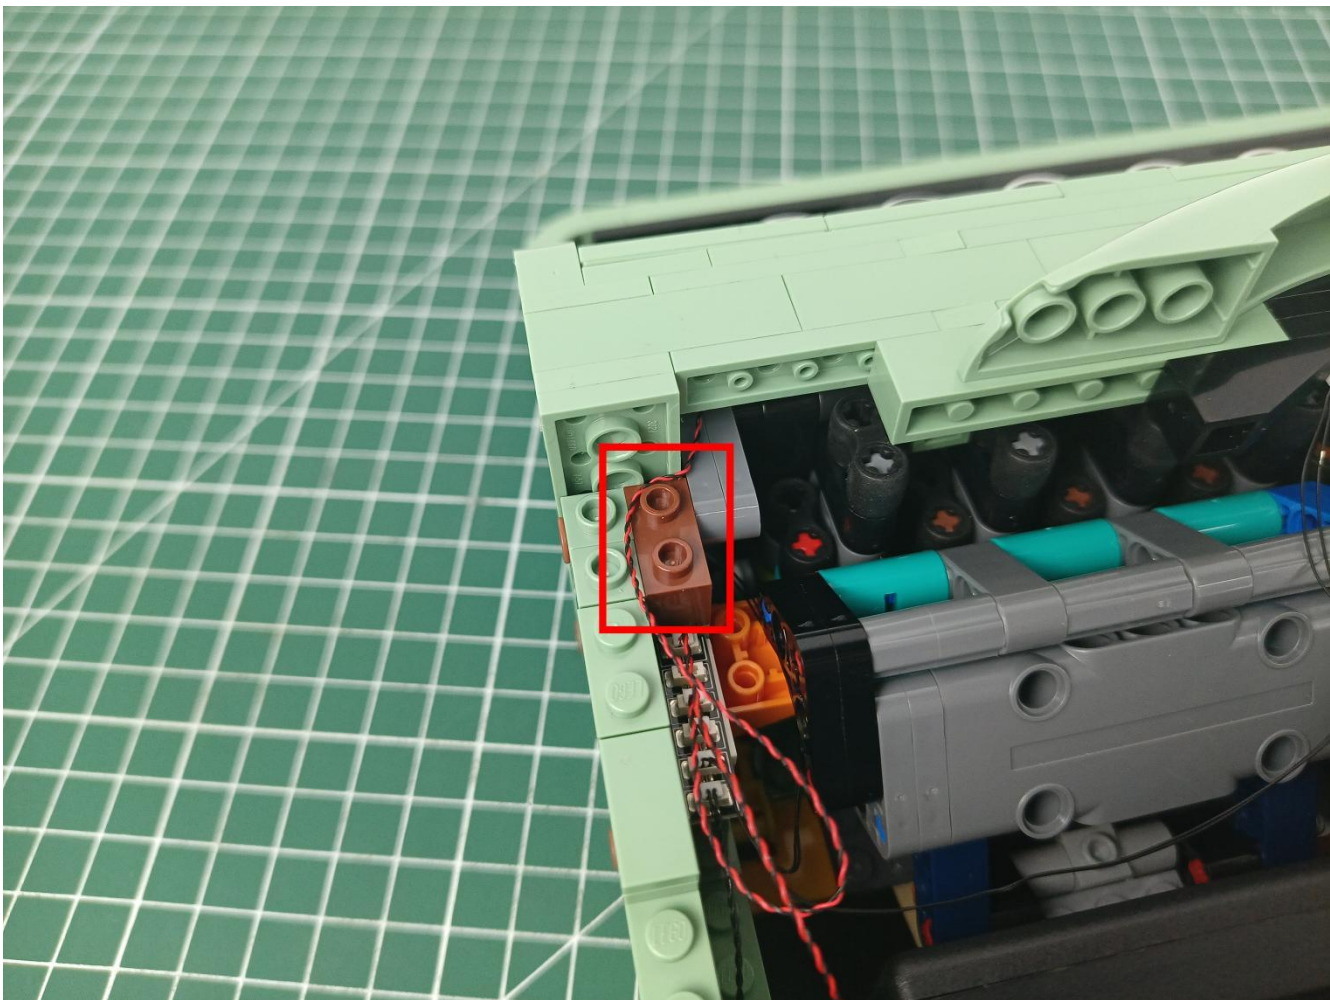

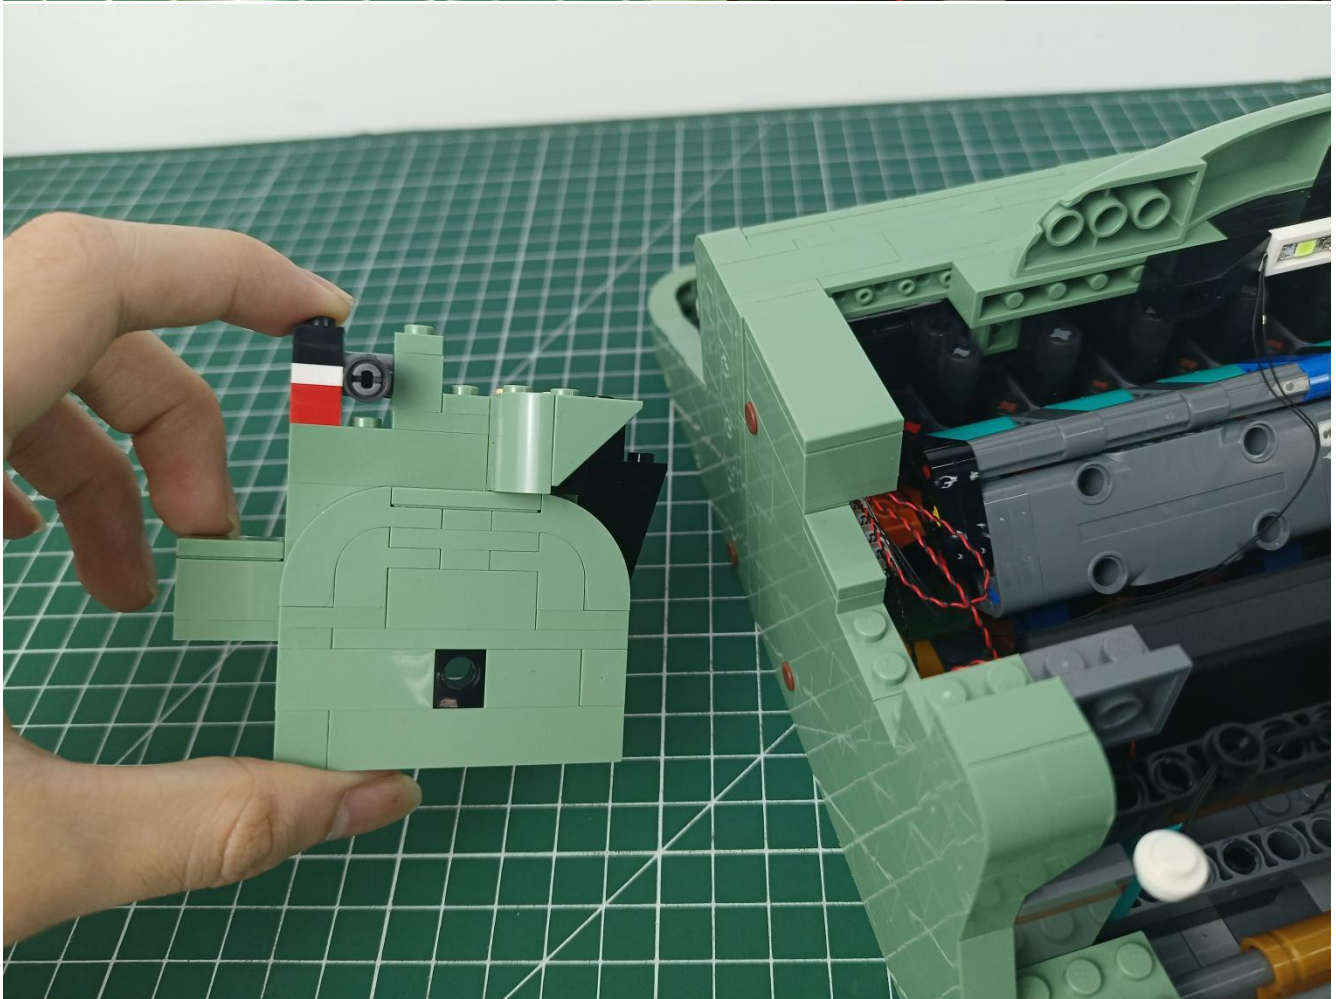

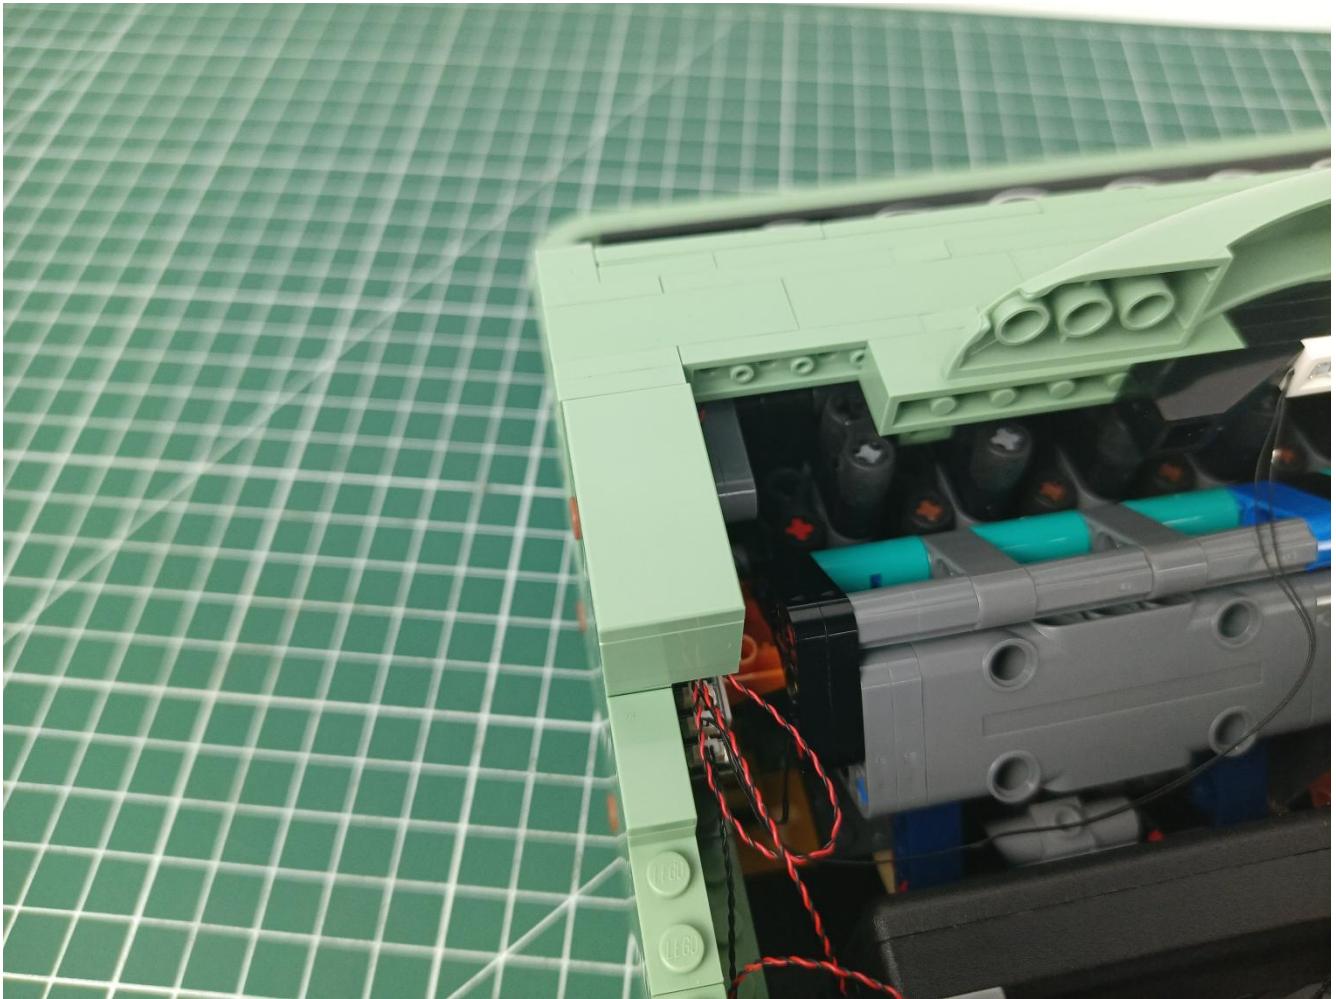

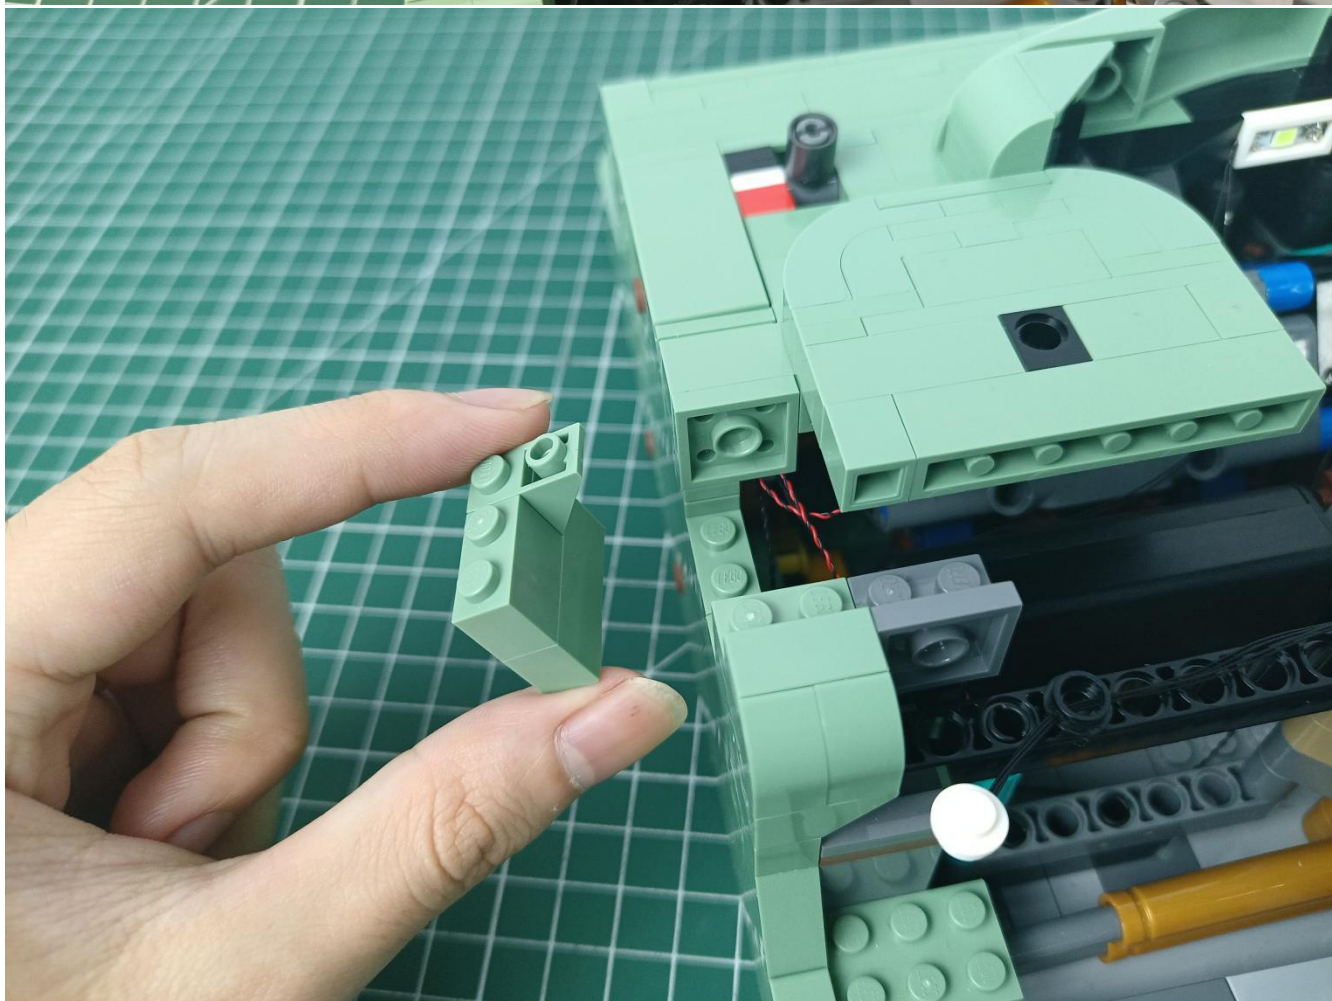

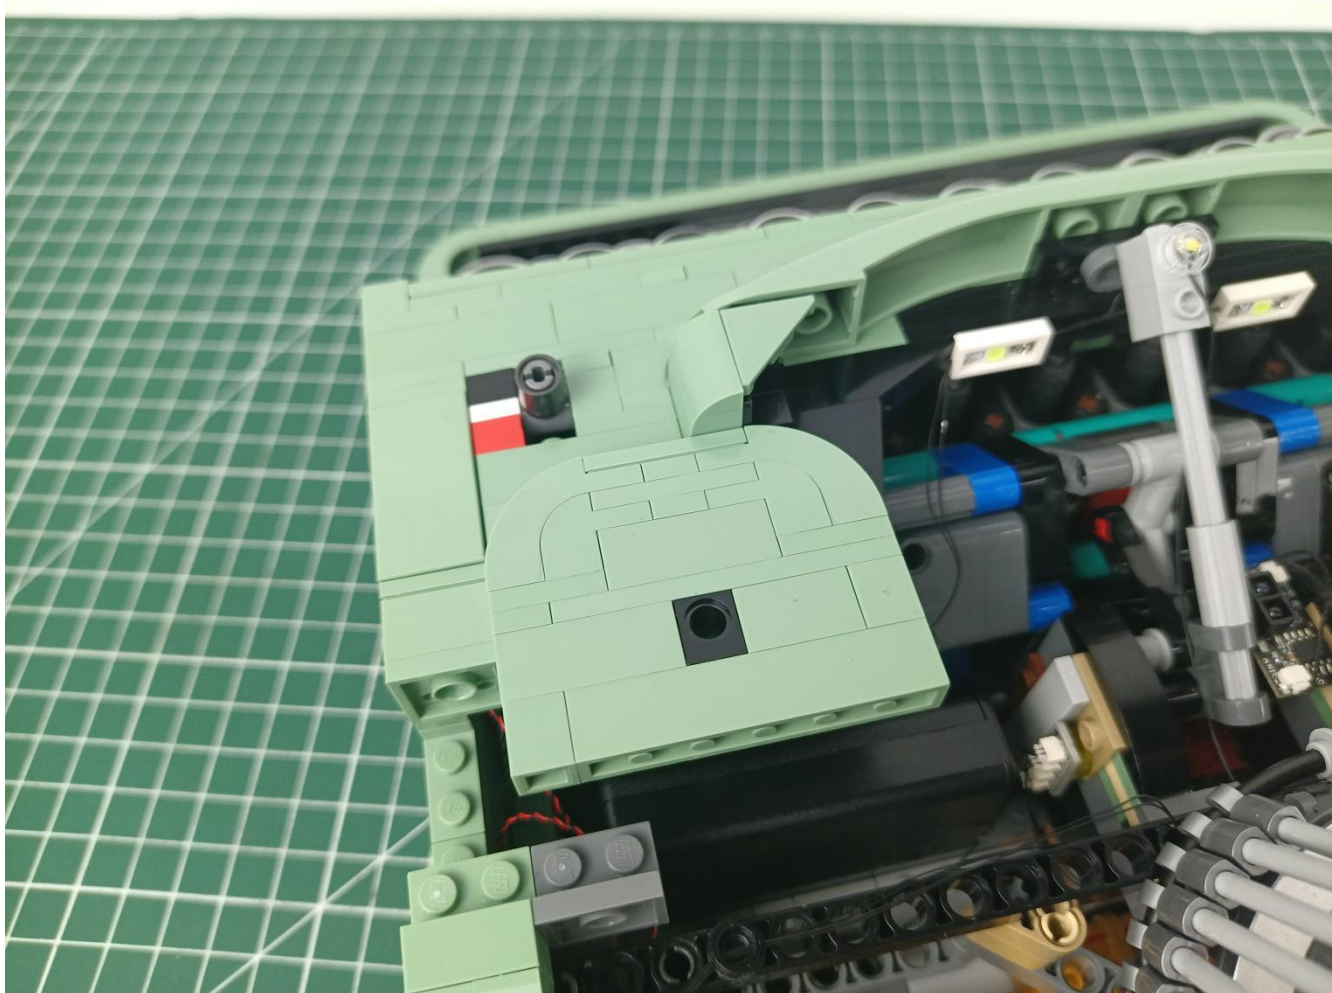

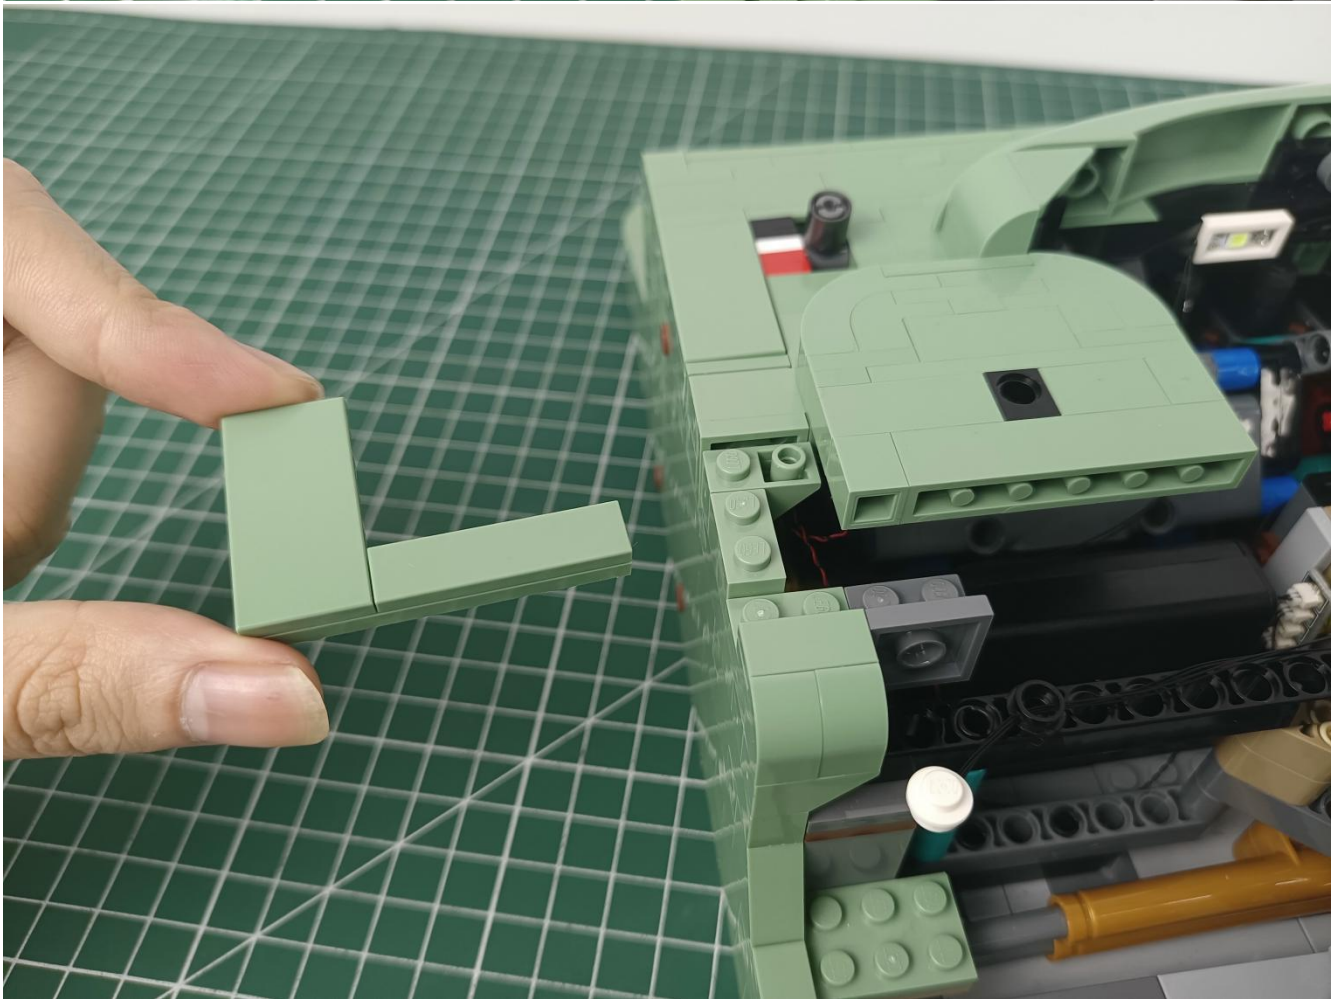

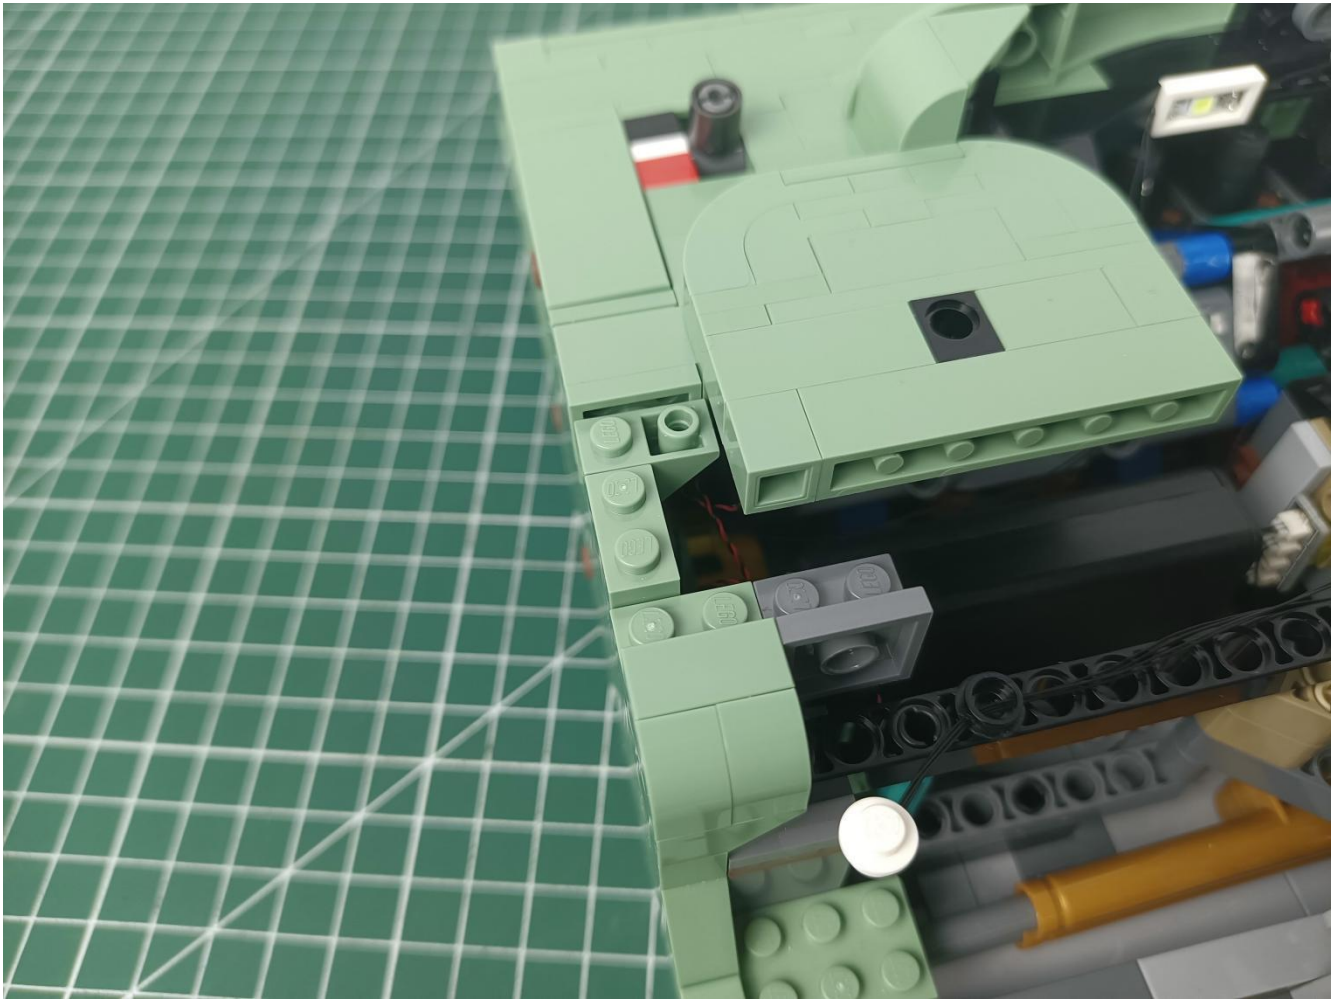

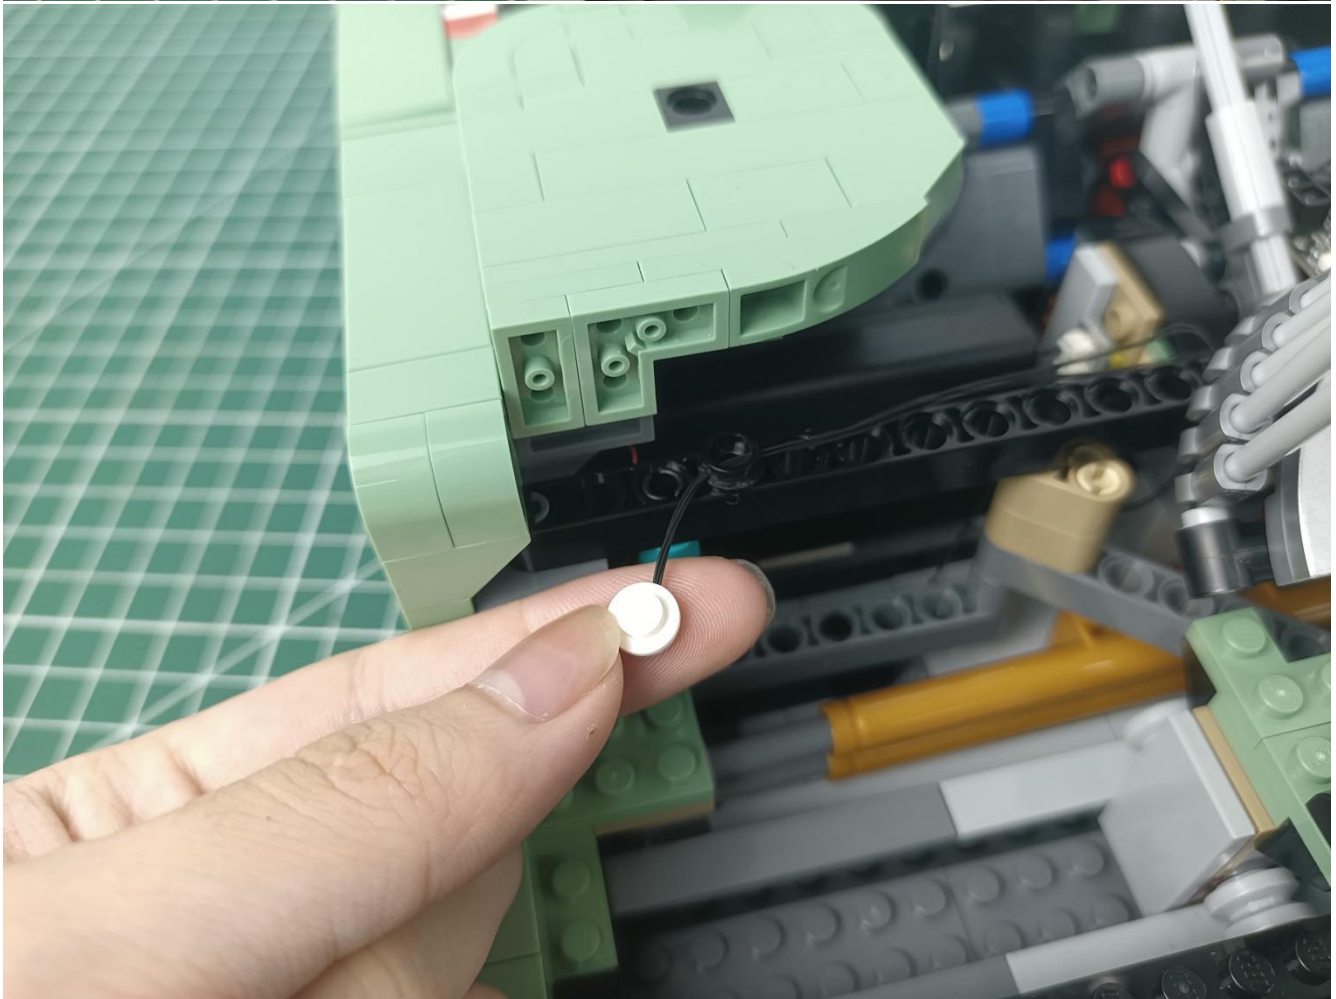

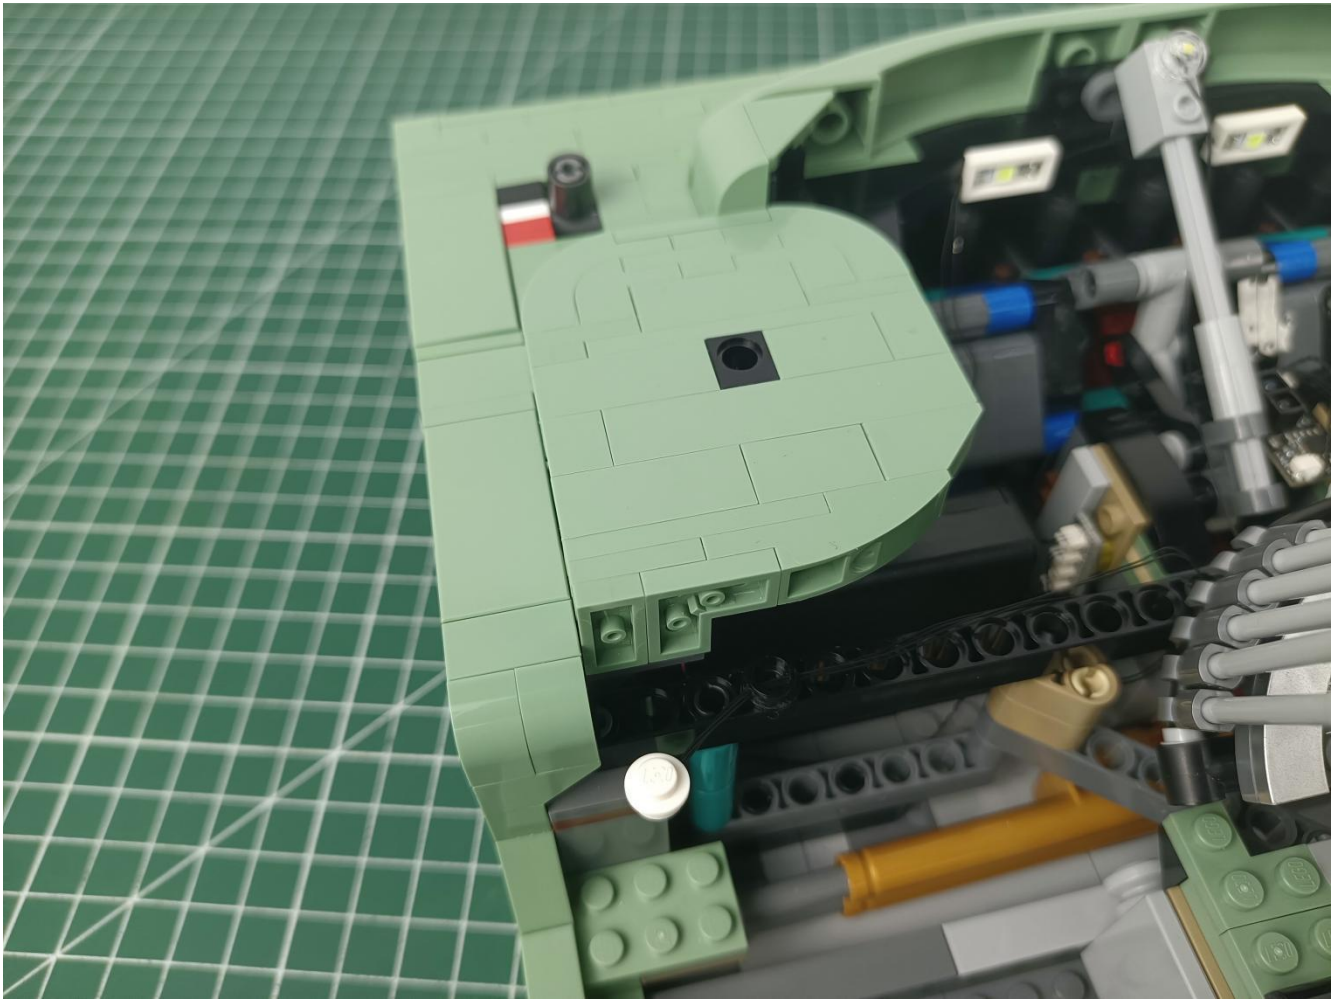

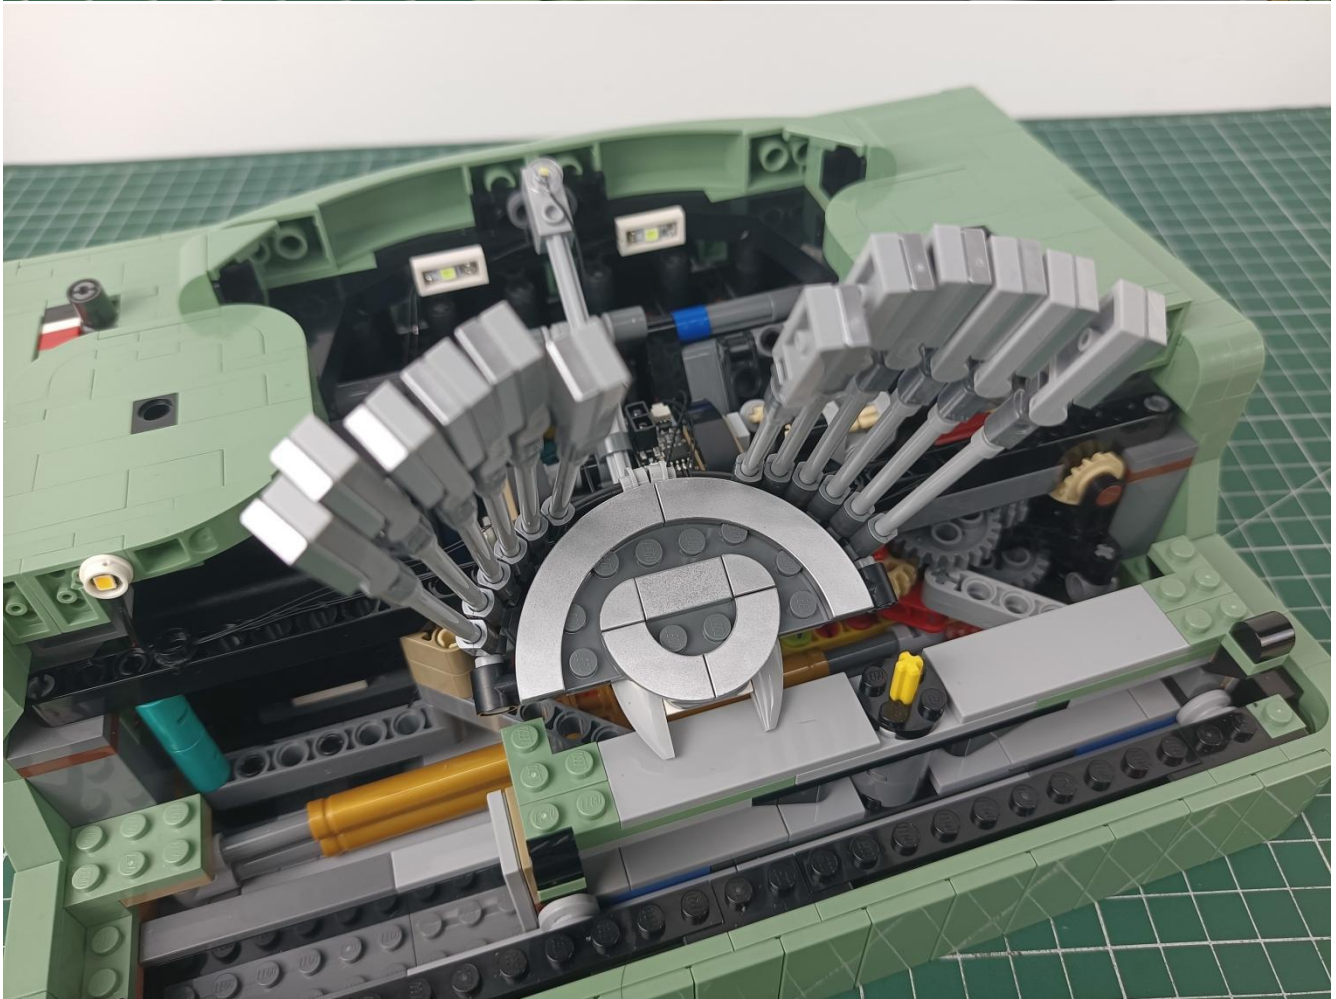

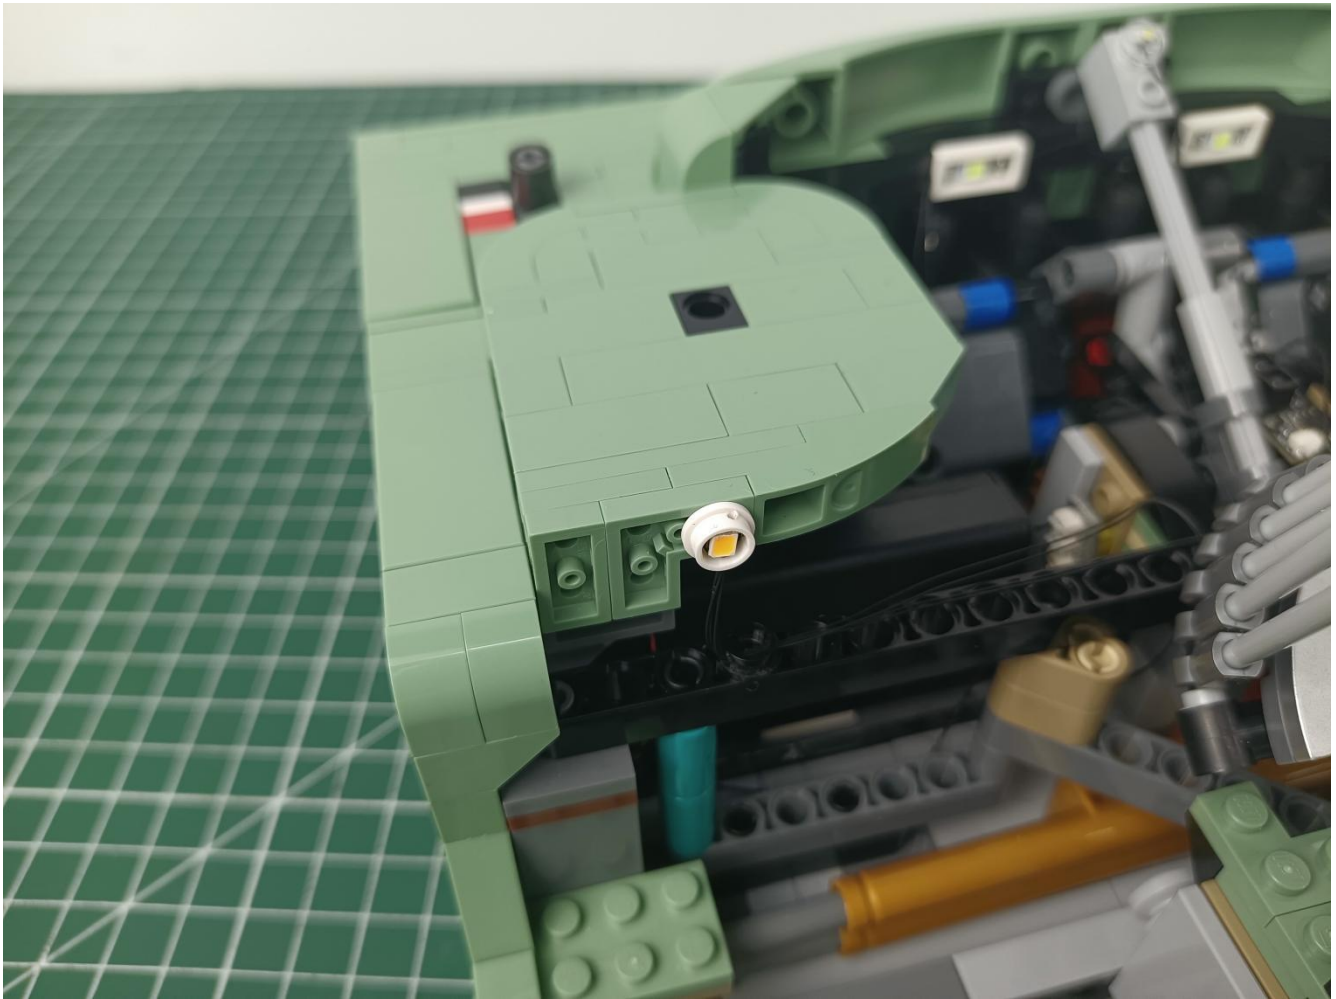

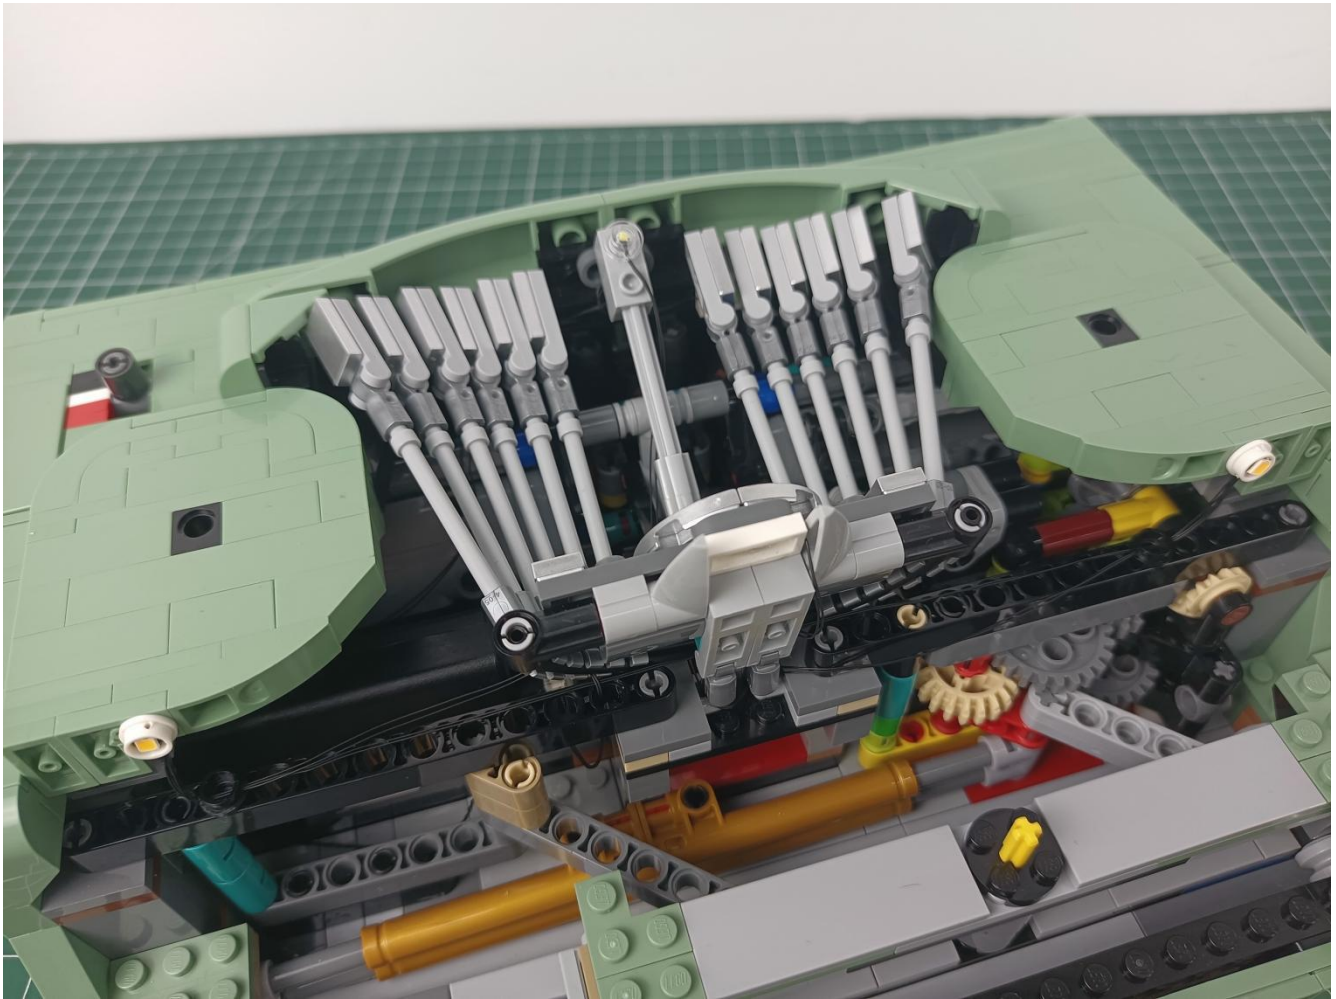

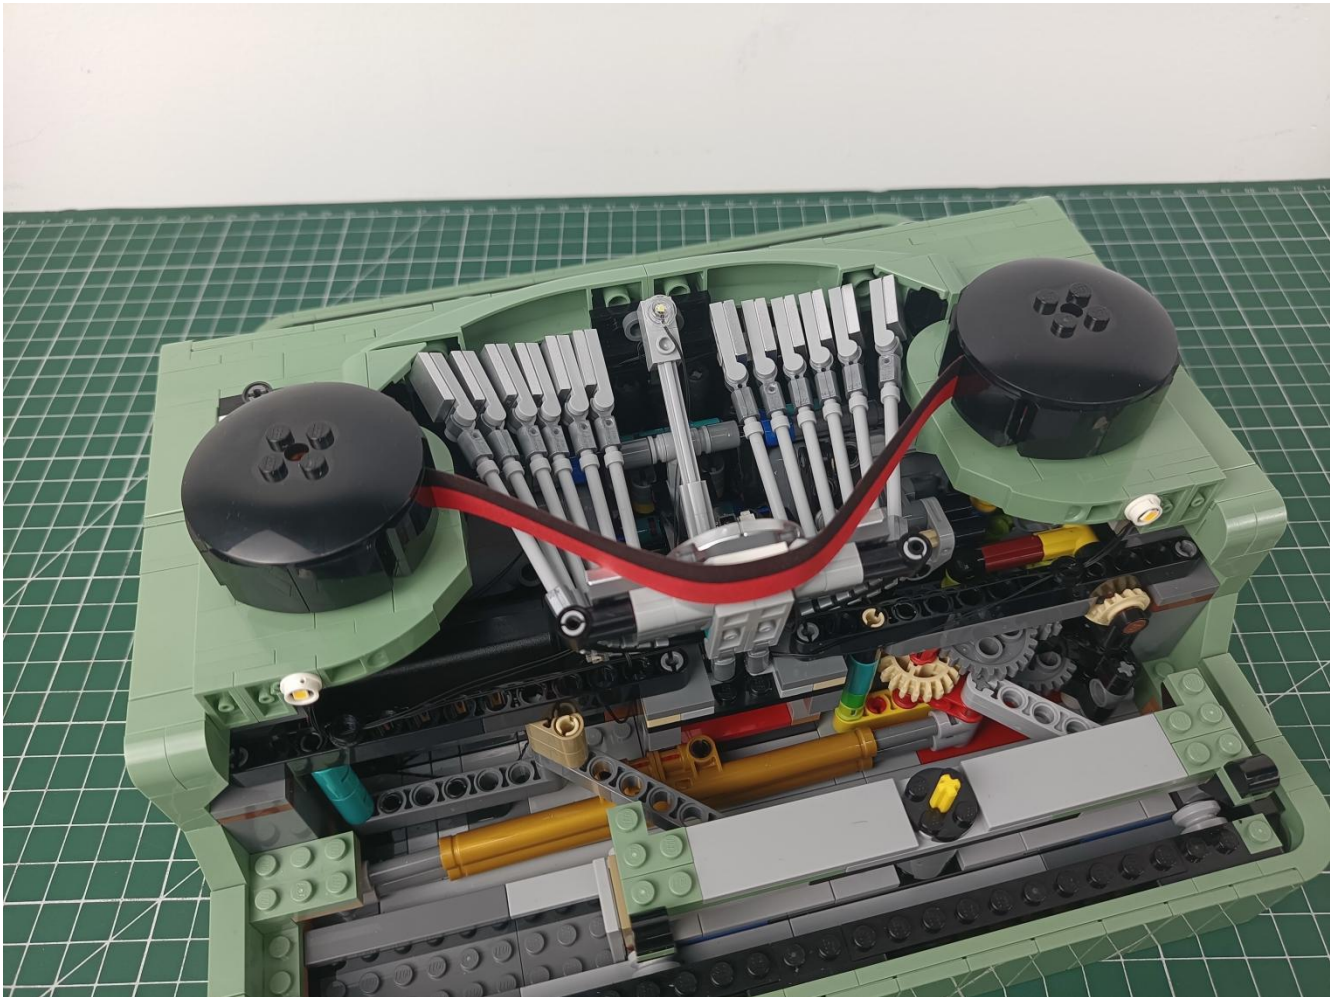

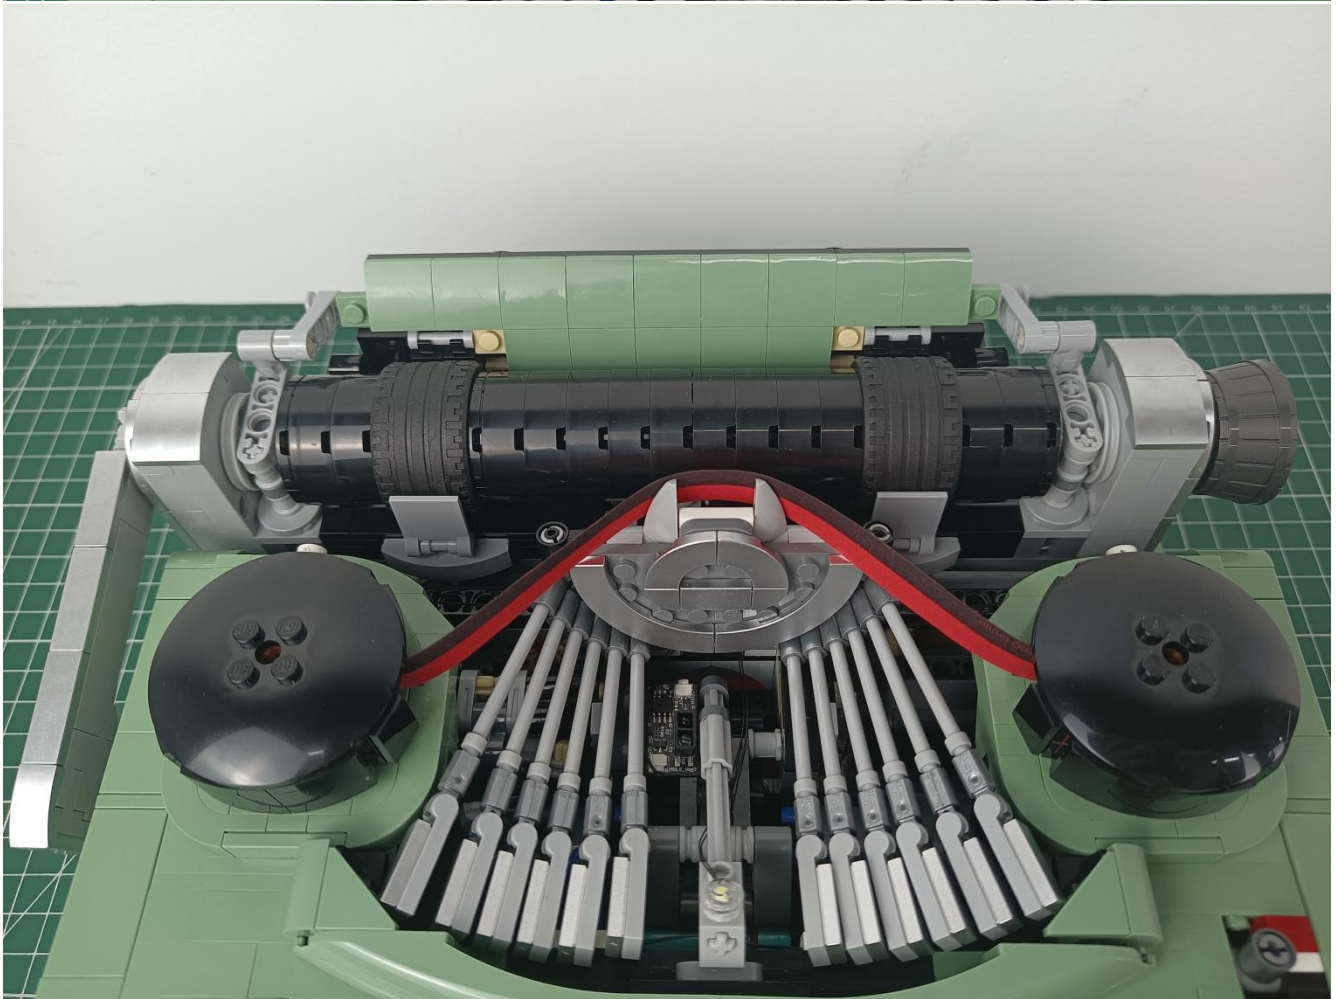

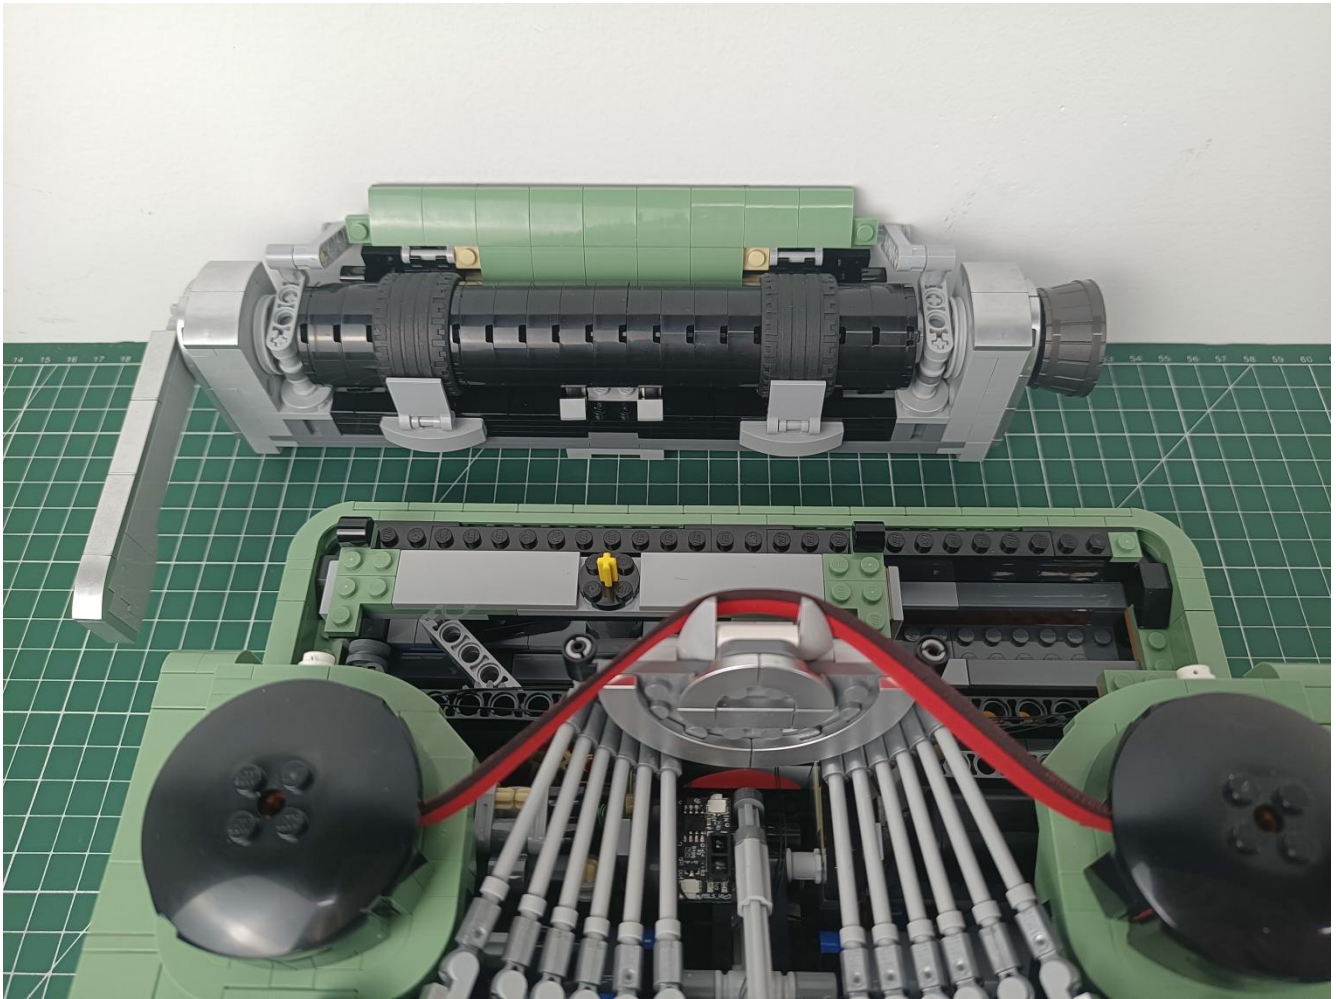

The installation is complete

The above are ideas and instructions provided by our designers. Please move on:

- 1: Do you have any suggestions about the material and quality of our products?
- 2: Do you have any suggestions on the installation instructions and the degree of difficulty of the installation?
- 3: If you have better installation method and ideas, please contact us in time.
