

75277 Boba Fett Helmet LED lighting Kit (Standard Version) LG56

Instructions for installing this kit:

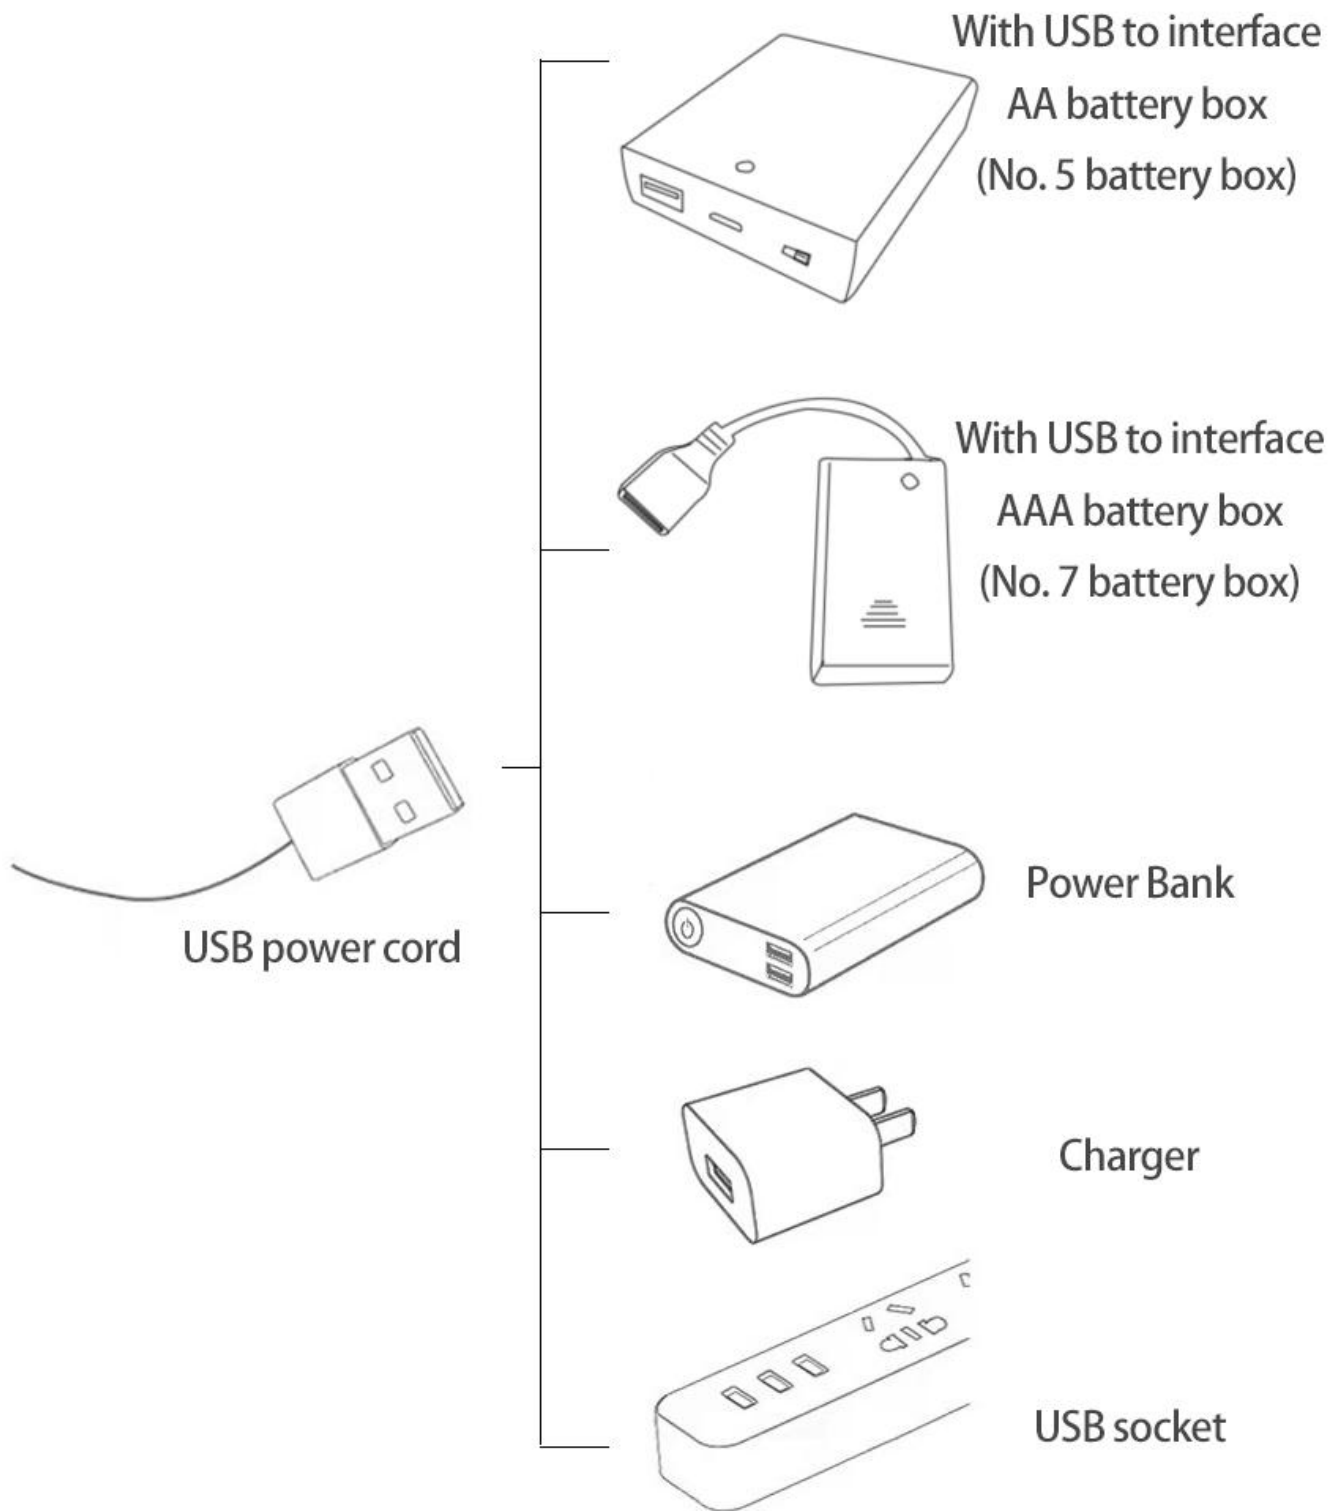

All parts and components used in the manual are samples, and the pictures may be different from the actual ones, and the installation will not be affected under normal circumstances. If there is a problem, please contact us in time.

Power supply mode: USB power cord (please bring your own power supply).

It can be energized through a USB battery box (please pay attention to the positive and negative poles of the battery), power bank, mobile phone charger or USB socket. The normal voltage is 3-5V.

USB connectors to connect devices

There are a total of 2 bags of this product, and AAA Battery Pack is a gift. (The battery is not provided in this product, please bring your own)

Open the bag from the place where the red line is drawn, don't tear it from the middle, so as not to damage the lighting

Lighting test:

Take out the parts in bag "2".

Take out the AAA Battery Pack.

Turn the AAA Battery Pack over and open the power cover.

Install the battery, and then restore the power cover. (Pay attention to the positive and negative poles of the battery)

Flip the AAA Battery Pack back to the front and take out the 4-Port Expansion Boards.

Remove the seal on the 4-Port Expansion Boards.

The two are connected through the interface, the connection method is as follows.

Connect the AAA Battery Pack to 4-Port Expansion Boards.

Take out the lighting decorations in the "1" bag.

Connect the lighting decorations to the 4-Port Expansion Boards.

Turn on the power switch and check whether the lighting is abnormal.
If there is an abnormality, please contact us in time!!!

Turn off the power switch and separate the AAA Battery Pack from the 4-Port Expansion Boards.

Take out the USB power cord and connect it to 4-Port Expansion Boards.

Connect the USB port to the power bank.

Check whether there are any abnormalities in the lighting decorations.
If there is an abnormality, please contact us in time!!!

Separate all parts.

Put the lighting decorations back into bag "1".

Return the remaining parts to their original positions.

start installation:

The installation is complete.

The above are ideas and instructions provided by our designers. Please move on:
