

42096 Porsche 911 RSR P11705

- P11705 is the unique code of lighting set, we use this to accurately identify the product you purchased and the corresponding manuals and services you need to obtain. Please make sure your product code is the same as the label on the back of the box shown “42096 P11705”.
- Installation requires a lot of patience and great observation that your LEGO bricks will come alive when you get this finished. The bricks with lighting as below, so make sure you're ready and let's get started.

Strategies for the Installation

This instruction divides three sections to complete the installation of the lighting set.

Section A: Check the type and quantity of components.

The quantity and type of components of each products are different and it needs to be carefully checked to make sure there do have enough material.

The type of components is indicated by the label on the bag.

Section B: Test that each components is working properly.

Each components is made individually so it is necessary to test that each components is working properly to avoid the situation that the lighting does not work .

Section C: laying out components following the instruction.

Our material is very small but not fragile, just be reminded that don't to pull the wires too hard. For different people, there may be some installation steps that you can't understand. Please look at the previous and later installation step

Section A: Check the type and quantity of components.

There are 13 bags in this set. The name and quantities of specific components are as shown , please check carefully.

Label	Content	Quantity
Bit Lights-15CM-White	Bit Lights-15CM-White	8
Bit Lights-15CM-Red	Bit Lights-15CM-Red	4
Bit Lights-30CM-Blue	Bit Lights-30CM-Blue	6
LED Strip Lights-Red	LED Strip Lights-Red	1
LED Strip Lights-Blue	LED Strip Lights-Blue	2
LED Strip Lights-Warm White	LED Strip Lights-Warm White	1
Expansion Board	6 Socket Expansion Board	1
	12 Socket Expansion Board	2
AA Battery Box	AA Battery Box	1
Connecting Cables-15CM	Connecting Cables-15CM	5
Connecting Cables-30CM	Connecting Cables-30CM	1
Connecting Cables-50CM	Connecting Cables-50CM	1
Remote Control Board	Remote Control Board	1
Parts package		

Please contact us immediately if there have any missing components.

Section B: Test that each components is working properly.

We need a structure to test all lights, so take out the bag with label “USB Power Cord”and “Expansion Boards”as follows.

It is worth reminding that our products are all customized. They have a unique way of connecting. The white plug on wire and the socket of the expansion board need to be connected together to transmit power.

Note that on one side of the white plug you can see two very small golden wires that should be connected to the two golden needles in socket of the expansion board.shown as blow.

All our connections between plug and socket are all the same as shown above. So for any such structure with plug and socket, please pay attention to the golden wire of the plug and the golden needle of the socket, they must be touched together.

The connection method between the USB Power Cord and Expansion Boards is as follows:

The USB Power Cord can be powered by phone chargers, power banks, etc.

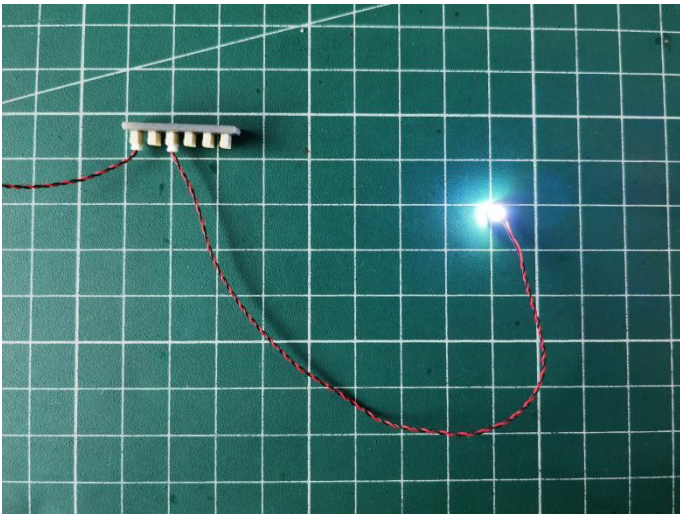

USB connectors to connect devices

This instruction will use the power bank as power supply . The test structure is shown as follow. All lamp in this set will be tested by this structure.

when we test "Bit Lights-15CM-White" particles,Take out the bag labelled "Bit Lights-15CM-White".Take out one of the light and connect it to the socket. Turn on the power bank, the light will turn on normally as shown below.

Test each lamp according to this method. It should be noted that after the test, the lamp must be returned to the corresponding bag to avoid confusion of types.

The components needs to be tested in this set is 7*Bit Lights-15CM-White,4*Bit Lights-15CM-Red,6*Bit Lights-30CM-Blue,1*LED Strip Lights-Red,2*LED Strip Lights-Blue,1*LED Strip Lights-Warm White.

Please contact us immediately if any components don't work.

Section C: laying out components following the instruction.

1

2

3

Take 8 white 15cm dot lights.

4

5

6

7

8

9

10

11

12

13

Take a 50cm connecting cable, a 12-port expansion board, 2 adhesive squares.

14

15

16

Take the connecting cable, thread it through the following space to the bottom.

17

18

19

20

21

22

23

24

25

Remote control function description

ON: All branches are opened
OFF: all branches are closed

A: open/close A road
B: open/close B road
C: open/close C road
D: open/close D road

FS: Turn on blinking for the last open channel
BLN: Start breathing for the last opened path

↑: Increase blinking/breathing rate
↓: Increase blinking/breathing rate

Brightness+: Increase brightness
Brightness -: Reduce brightness

The remote control does not contain batteries, please buy a CR2025 or CR2032 button battery in the nearest store and install it in the remote control.

26

Take a 15cm connecting cable, a warm white strip light.

27

28

29

30

31

32

33

34

35

Take 4 red 15cm dot lights, 4 adhesive squares.

36

Install the other 3 lights in the same way.

37

38

39

40

Take a 15cm connecting cable, a red strip light.

41

42

43

Take a 15cm dot light, a 6-port expansion board, assemble them as per below.

44

Take 2 adhesive squares.

45

46

47

Take 6 blue 30cm dot lights, 6 trans blue 1x1 round plates, 6 light gray half bolts.

48

49

Install the other 5 lights in the same way.

50

51

52

53

54

Take a 12-port expansion board.

55

56

57

58

Take two 15cm connecting cables, 2 blue strip lights.

59

60

61

62

Take a 30cm connecting cable.

Take 2 adhesive squares.

63

64

Take the AA battery pack.

The AA Battery Box does not contain batteries, please buy three AA batteries in the nearest store and install it in the AA Battery Box.

66

Take 2 adhesive squares.

67

Take 4 adhesive squares.

68

Good job, you've done all the installation steps, power it up and enjoy your work.

The battery box can also power the set. If it is necessary to change the power supply , prepare three AA batteries, install them in the battery box, turn on the switch on the battery box, remove the plug of the USB Power Cable from the socket of the expansion board,plug the plug of the battery box to the same socket in the expansion board to power the suit as well.

THANKS
