

# 10265 Ford Mustang P12301

- **P12301 is the unique code of lighting set, we use this to accurately identify the product you purchased and the corresponding manuals and services you need to obtain. Please make sure your product code is the same as the label on the back of the box shown “10265 P12301”.**
- **Installation requires a lot of patience and great observation that your LEGO bricks will come alive when you get this finished. The bricks with lighting as below, so make sure you're ready and let's get started.**

# Strategies for the Installation

This instruction divides three sections to complete the installation of the lighting set.

## **Section A:** Check the type and quantity of components.

The quantity and type of components of each products are different and it needs to be carefully checked to make sure there do have enough material.

The type of components is indicated by the label on the bag.

## **Section B:** Test that each components is working properly.

Each components is made individually so it is necessary to test that each components is working properly to avoid the situation that the lighting does not work .

## **Section C:** laying out components following the instruction.

Our material is very small but not fragile, just be reminded that don't to pull the wires too hard. For different people, there may be some installation steps that you can't understand. Please look at the previous and later installation steps.

## **Section A: Check the type and quantity of components.**

There are 7 bags in this set. The name and quantities of specific components are as shown , please check carefully.

<b>Label</b>	<b>Content</b>	<b>Quantity</b>
<b>Bit Lights-15CM-White</b>	<b>Bit Lights-15CM-White</b>	<b>6</b>
<b>Bit Lights-30CM-White</b>	<b>Bit Lights-30CM-White</b>	<b>2</b>
<b>Connecting Cables-15CM</b>	<b>Connecting Cables-15CM</b>	<b>2</b>
<b>LED Strip Lights-Warm White</b>	<b>LED Strip Lights-Warm White</b>	<b>1</b>
<b>Expansion Board</b>	<b>6 Socket Expansion Board</b>	<b>1</b>
	<b>8 Socket Expansion Board</b>	<b>1</b>
<b>AAA Battery Box</b>	<b>AAA Battery Box</b>	<b>1</b>
<b>Parts package</b>		

**Please contact us immediately if there have any missing components.**

## Section B: Test that each components is working properly.

We need a structure to test all lights, so take out the bag with label “AAA battery box” and “Expansion Boards” as follows.

The AAA Battery Box does not contain batteries, please buy three AAA batteries in the nearest store and install it in the AAA battery box.

It is worth reminding that our products are all customized. They have a unique way of connecting. The white plug on wire and the socket of the expansion board need to be connected together to transmit power.

Note that on one side of the white plug you can see two very small golden wires that should be connected to the two golden needles in socket of the expansion board. shown as blow.

All our connections between plug and socket are all the same as shown above. So for any such structure with plug and socket, please pay attention to the golden wire of the plug and the golden needle of the socket, they must be touched together.

The connection method between the AAA battery box and Expansion Boards is as follows:

when we test "Bit Lights-30CM-White" particles,Take out the bag labelled "Bit Lights-30CM-White".Take out two of the light and connect it to the socket. Turn on the switch on the battery box, all the lights are on as shown.

Test each lamp according to this method. It should be noted that after the test, the lamp must be returned to the corresponding bag to avoid confusion of types.

The components needs to be tested in this set is 6\*Bit Lights-15CM-White,2\*Bit Lights-30CM-White,1\*LED Strip Lights-Warm White.

Please contact us immediately if any components don't work.

**Section C:** laying out components following the instruction.
